Mr. Oaten: To ask the Secretary of State for the Home Department (1) what steps he is taking to ensure that private finance initiative projects for which his Department is responsible create the minimum of environmental damage; [182214]

(2) what assessment his Department has made of *(a)* the sustainability of environmental impacts of private finance initiative projects and *(b)* the capacity of the PFI process to deliver environmentally sustainable projects; [182215]

(3) what plans he has to make private finance initiative contracts more accountable and transparent in terms of environmental sustainability. [182216]

Fiona Mactaggart: Guidance for Departments on how to include environmental considerations within PFI and PPP projects is set out in Green Public Private Partnerships, issued in 2002. A memorandum of understanding, signed by the Home Office Green Minister and the Director General of the Prison Service, requires all new prisons (including those constructed under PFI) to introduce a sustainable development policy and to be managed in an environmentally sound way.

Building Research Establishment Environmental Assessment Method (BREEAM) certificates are obtained for major new buildings. The new Home Office in 2 Marsham Street received the BREEAM excellent level certification of its design in June 2004. Excellent is the highest category certification. Once operational it will be managed under an accredited environmental management system.

The Home Office is committed to the targets set out in the Framework for Sustainable Development on the Government Estate. The biodiversity, energy and waste sections of the framework require Departments to include clauses relating to sustainable development issues in relevant contracts, including PFIs. Future sections of the framework are likely to include similar provisions on other environmental issues.

From 1 April 2004 all Departments have been required to explicitly identify any significant environmental and social costs and benefits when carrying out a Regulatory Impact Assessment (RIA). This will cover RIAs carried out on new PFI/PPP projects.

Mr. Oaten: To ask the Secretary of State for the Home Department what parts of his Department's estate will not be covered by the commitments set out in the Framework for Sustainable Development on the Government Estate. [182222]

Fiona Mactaggart: As set out in the departmental website statement of September 2002 the sites not covered by the commitments set out in the Framework for Sustainable Development on the Government Estate are those where one of the following apply: *(a)* the Department is not the major occupier, *(b)* the floor area of the site is less than 1,000 sq m or *(c)* the site has less than 50 staff.

This accounts for some, 150 office sites in the main Home Office, some 850 probation office sites, approximately 10 non-operational Prison Service establishments or premises and one UK Passport Agency site.

Mr. Oaten: To ask the Secretary of State for the Home Department what steps have been taken by his Department to review arrangements for public reporting for sustainable development impacts. [182223]

Fiona Mactaggart: The Department has developed a series of departmental sustainable development indicators, which monitor and record progress. These are published on the Home Office website and can be found at http://www.homeoffice.gov.uk/docs2/susdevindicators.html. The Home Office also reports sustainable development progress in the Home Office annual report and through the annual Sustainable Development in Government reports. Prison Service progress is covered by its own dedicated sustainable development report.

Mr. Oaten: To ask the Secretary of State for the Home Department what changes there have been in *(a)* road transport vehicle carbon dioxide emissions and *(b)* single occupancy car commuting from his Department against the baseline year in the framework for Sustainable Development on the Government Estate. [182224]

Fiona Mactaggart: The Home Office collected baseline data for business mileage in 2002–03 which showed that staff travelled 12,908,999 miles. Data for 2003–04 has not been collated yet. In an effort to reduce business mileage the Home Office has committed to:

Review current levels of mileage payment

The policy relating to payment of mileage claims

The scope for providing incentives for use of alternatively fuelled vehicles

Promote the use of video-conferencing facilities

Collect baseline data on the use of hire cars with a view to reducing their use

A survey undertaken in 2003 showed that there were 27,146 car park spaces at Home Office sites. These included 21,158 spaces held for the Prison Service, some 3,033 held for the Immigration Service and 1,934 for the Probation Service. The Department is committed to making reasonable efforts to reduce the number of spaces.

External Consultants

Mr. Oaten: To ask the Secretary of State for the Home Department if he will list the external consultants which have carried out work for his Department under contracts in the last three years. [181500]

Fiona Mactaggart: The use of external consultants throughout the Home Office provides the Department with specialist knowledge, skills, capacity and technical expertise that is otherwise not available in house. This enables all units and organisations within the Department to achieve the levels of service required by the Home Office and the Government and assists in obtaining value for money.

The main external consultants which have carried out work for the Home Office under contracts in the last three years are in a list, which will be sent to the Library.

Financial Systems (Security)

Mr. Cousins: To ask the Secretary of State for the Home Department how many reports of *(a)* cyber attack and *(b)* misuse of the data and information systems of UK based banks and financial services companies he estimates there were in each year since 1997. [185164]

Caroline Flint: Reports of the unauthorised access to information systems and possible offences which might arise from the misuse or modification of data, are made to local police forces. There are no centrally aggregated figures of these reports.

Firearms Amnesty

Kate Hoey: To ask the Secretary of State for the Home Department (1) how many of the firearms handed in during the amnesty of 2003 were *(a)* replica weapons, *(b)* antique or obsolete weapons, *(c)* toy guns, *(d)* blank firing airguns and *(e)* other types of firearms; [185400]

(2) how many firearms handed in during the amnesty of 2003 did not need a certificate for possession; [185401]

(3) whether people who handed in firearms during the 2003 amnesty that did not need a certificate were advised that they could lawfully keep them. [185402]

Caroline Flint: A detailed breakdown of the number and type of guns handed into the police was placed in the Library on 15 July 2003. These figures show that a total of 43,908 guns were handed in, including 13,974 air weapons and 9,480 imitations. It is not possible to break down these figures further into the categories requested.

The primary purpose of the amnesty was to enable people to surrender illegally held guns and ammunition. Given the stricter laws which were being introduced in relation to the possession of air weapons and imitation firearms in a public place without reasonable excuse, it also provided an opportunity for young people, and others, to hand in guns which, while not illegal, were perhaps being held for criminal or anti-social purposes, or were no longer wanted. It was for individual forces to determine the procedures to be adopted for the surrender of all such items.

Fixed Penalty Notices

Mr. Wiggin: To ask the Secretary of State for the Home Department if he will make a statement on the procedures for issuing fixed penalty notices by police officers. [183177]

Caroline Flint: Police issue fixed penalty notices (FPNs) for traffic offences under the powers set out in Part III of the Road Traffic Offenders Act 1988, as amended by the Road Traffic Act 1991. Fixed penalties are currently available for about 150 different traffic offences.

Where a driver is detected committing a fixed penalty offence, the police will decide what action to take in the particular case. The driver may be given an informal warning or issued with a fixed penalty notice or reported for prosecution. The police operate to Association of Chief Officer of Police (ACPO) guidelines advising on what course of action might be appropriate but it is in law ultimately a matter for the individual officer's decision.

Fixed penalty notices for traffic offences may be issued using one of four different procedures. One involves fixing the FPN to the vehicle. This is normally used for parking offences. The FPN may be issued to the driver at the time of the offence in two sets of circumstances: one for non-endorsable offences, such as failure to wear a seat belt, the other for an endorsable offence, such as speeding. For endorsable offences, the driver has to produce his driving licence at the roadside or later at a police station. The fourth procedure is used to deal with offending drivers detected by automatic speed camera and involves sending a conditional fixed penalty offer to the person identified by the vehicle number plate as being the registered keeper.

Police may also issue fixed penalty notices for disorder offences. Guidance has been provided by the Secretary of State for police, community support officers and persons accredited by a Chief Constable under community safety accreditation schemes under section 6 of the Act. Supplementary guidance has also been provided on the issue of fixed penalty notices to persons aged 16 and 17-years-old since the scheme was extended to them in January 2004. Copies of the guidance are available on the Home Office website at: http://www.homeoffice.gov.uk/crimpol/police/penalty/index.html

The main police operational guidance is currently being revised and a new version will be provided to the police and published shortly. The Home Office continues to take feedback from the police on the operation of the fixed penalty notice for disorder scheme so that guidance may be updated as and when necessary.

G8 Conference

Mr. Lyons: To ask the Secretary of State for the Home Department which police forces will contribute to the security of the G8 Conference. [183036]

Caroline Flint: Responsibility for local policing in connection with the 2005 G8 Summit at Gleneagles, Perthshire, will rest with the Chief Constable of Tayside Police. Tayside Police will call on mutual aid from other police forces as appropriate, and arrangements for this are in hand.

Gold Incident Command Suite

Mr. Oaten: To ask the Secretary of State for the Home Department on how many occasions the Prison Service GOLD Incident Command suite has been opened in each month since April 2003; and what the nature was of each incident. [181510]

Paul Goggins: The Prison Service Gold Command suite opened on 40 occasions between 1 April 2003 and 28 June 2004. The suite was opened on 24 occasions to manage hostage incidents, on nine occasions to manage incidents of concerted indiscipline and on seven occasions to manage at height/roof climb incidents.

An incident is classified as a concerted indiscipline when a number of prisoners collectively refuse to comply with a lawful order or involve themselves in disruption of an establishment's normal regime. Hostage incidents are when a prisoner or prisoners take another prisoner, or on occasion a member of staff, hostage. At height incidents usually involve a prisoner or prisoners getting onto a roof but can be other climbs. A barricade incident is when a prisoner barricades his cell or another area to prevent staff access.

Green Minister

Mr. Horam: To ask the Secretary of State for the Home Department if he will make a statement on the activities of the Green Minister in the Department in financial year 2003–04. [185134]

Fiona Mactaggart: As the Department's Green Minister I take the lead in improving the Department's performance in contributing towards sustainable development. I do this through meetings with the officials responsible for sustainable development to check progress and give my personal support where necessary. This has included giving a talk at a workshop to launch the Department's Sustainable Development Framework Project and judging a switch off poster competition, as well as attending more formal meetings on sustainable development issues.

I am a member of the Ministerial Sub-Committee of Green Ministers.

HGVs (Road Accidents)

Helen Southworth: To ask the Secretary of State for the Home Department how many road traffic incidents involving left hand drive heavy goods vehicles have been recorded by Cheshire police in the last year for which figures are available. [185391]

Caroline Flint: Information collected by my Department on motoring offences recorded by the police does not distinguish the characteristics of the vehicles involved.

Home Office Legislation

Mr. Andrew Turner: To ask the Secretary of State for the Home Department if he will list the Home Office legislation which has been implemented in different parts of England on different dates since 1997. [181835]

Paul Goggins *[holding answer 5 July 2004]:* The following provisions of Home Office legislation passed since 1997 have been implemented in different parts of England and Wales on different dates.

Provision	*Subject matter of provision*
Crime and Disorder Act 1998	
Section 46	Date of first appearance in bail cases
Section 49	Powers of magistrates' courts exercisable by single justice
Section 51	No committal proceedings for indictable-only offences
Sections 65 and 66	Reprimands and warnings
Criminal Justice and Court Services Act 2000	
Section 52	Electronic monitoring
Section 57	Drug testing in police detention
Criminal Justice and Police Act 2001	
Section 130	Remands and committals of juveniles to secure accommodation
Private Security Industry Act 2001	
Section 3	Conduct prohibited without a licence
Police Reform Act 2002	
Schedule 4	Detention by Community Support Officers
Anti-social Behaviour Act 2003	
Sections 48–52	Removal of graffiti

Human Trafficking

Tom Brake: To ask the Secretary of State for the Home Department if he will make a statement on the progress in the UK's implementation of the European Union Council of Ministers' Framework Decision on Combating Trafficking in Human Beings. [182463]

Mr. Browne: The European Union Framework Decision requires us to criminalise trafficking for the purposes of sexual exploitation and forced labour. We are committed to criminalising trafficking effectively for these purposes, and in the case of trafficking for sexual exploitation legislative measures are already in force.

The Sexual Offences Act 2003 includes offences covering trafficking into, within and out of the United Kingdom. These offences were brought into force on 1 May 2004. New offences covering trafficking for other forms of exploitation, including trafficking for the purposes of forced labour and removal of organs, are included in the Asylum and Immigration (Treatment of Claimants, etc.) Bill, which is currently before Parliament.

Identity Cards

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment has been made of the experience of other countries regarding the experience of ethnic minorities with demands to show identity cards. [182299]

Mr. Browne: We have looked at schemes in other countries but the experience of ethnic minorities in other countries depends on a range of factors which are not necessarily comparable. These include:

(i) whether the scheme is voluntary or compulsory;

(ii) what police powers exist to require a person to produce an identity card or otherwise identify themselves;

(iii) how the card scheme is linked to the provision of public services;

(iv) what use the private sector makes of the card scheme; and

(v) what legal safeguards are in place to outlaw unlawful discrimination.

We have announced that we are building a base for a compulsory scheme. One of the advantages of a compulsory scheme is that any requirement to produce a card would not be discriminatory as everyone would have one. We have said that there will be no new power for the police to stop someone and demand to see their card. Our draft Bill does allow public services to specify how a card might be produced but Parliament will have to approve the rules on a case-by-case basis. There are also provisions to guard against 'compulsion by the back door' by prohibiting organisations from making an ID card the exclusive means of proving identity in advance of the scheme being compulsory.

Finally the administration of the scheme and how it is used to verify identity by public services will be bound by the Race Relations (Amendment) Act 2000.

Immigration Database

Mr. Chope: To ask the Secretary of State for the Home Department pursuant to his answer of 12 July 2004, *Official Report*, column 983W, on immigration, what

time it normally takes for the General Case Information Database to be updated with decisions; and how long it took in the case of Mr. Ahmed. [184765]

Mr. Browne *[holding answer 16 July 2004]*: Decisions made within General Group would normally be entered onto the General Case Information Database (G-CID) at the time of decision.

Following initial inquiries, General Group's decision was entered on G-CID six weeks after receiving Mr. Ahmed's file.

IMPACT System

Mr. Paice: To ask the Secretary of State for the Home Department what discussions have taken place between *(a)* his officials and *(b)* the Police Information Technology Organisation and representatives of the Scottish Intelligence Database regarding its suitability for extension throughout Great Britain; what assessment he has made of the costs and time scale of such a roll-out; and what cost and time scale he envisages for the completion of the IMPACT system. [184902]

Caroline Flint *[holding answer 19 July 2004]*: In my right hon. Friend the Home Secretary's response to the House on 22 June 2004, following publication of Sir Michael Bichard's report he told the House the Government shall introduce a national intelligence IT system for the police. Preparations for this are under way. The new system will take full account of the Scottish Intelligence Database.

Internet Fraud

Malcolm Bruce: To ask the Secretary of State for the Home Department if he will make a statement on the actions taken by *(a)* his Department and *(b)* the bodies for which he is responsible to combat fraud conducted over the internet. [178927]

Paul Goggins: Government seeks to educate computer users about the risks of fraud facilitated using the internet. The Home Office website provides advice on avoiding internet fraud, while the Department of Trade and Industry has a campaign entitled "Don't be a Mug" advising on scams and rip-offs, including internet scams.

The Home Office has recently launched the 'e-tailing mini site', which forms part of the Crime Reduction Website. This provides information to help both businesses and consumers protect themselves specifically when using the internet. We have also recently published, jointly with APACS, a leaflet on safe credit card use. This includes a section on using cards safely over the internet.

The Home Office is represented on an industry-led Steering Group which aims to tackle 'Card Not Present' (CNP) fraud (which includes fraud over the internet). We support practical measures being introduced by the industry to increase levels of security for internet transactions. These include Address Verification Services (AVS), Card Security Code (CSC), Mastercard Secure Code and Verified by Visa which are already making a significant impact on CNP Fraud.

There is no specific organisation which has a specific mandate to combat fraud where it is facilitated utilising the internet.

There are however a range of specialist units within forces which investigate fraud cases, regardless of the media used to commit or facilitate the offence, consulting computer crime units as appropriate in cases where technical expertise is required. Where cases involve serious and organised computer-enabled criminality at national and international levels the case may be dealt with by the National Hi Tech Crime Unit (NHTCU) within the National Crime Squad.

The West African Organised Crime Section of the National Criminal Intelligence Service investigates cases of advance fee fraud—in which letters are widely distributed by post, fax and email—which commonly lead to fraud, personal identity theft and corporate impersonation. They also deal with cases of website spoofing and obtaining goods by deception by West African criminal groups.

Law enforcement is also engaged in public awareness and education campaigns. For instance in October 2003 NHTCU issued advice together with the British Bankers Association and Association of Payment and Card Services (APACS) on how the public could avoid phishing attacks.

LD50 Tests

Mr. Hancock: To ask the Secretary of State for the Home Department how many LD50 tests were licensed in each year since 1997 for *(a)* cosmetics and *(b)* dual purpose products; how many of the licenses were issued to the Health Protection Agency; how many animals were involved in each case, broken down by (i) type and (ii) breed; and what products were tested. [181812]

Caroline Flint: No licensed LD50 tests have been conducted, under the regulatory provisions of the Animals (Scientific Procedures) Act 1986, since 1997—either for cosmetic products, or in respect of dual purpose products where one of the intended purposes is use as a cosmetic.

Ministerial Air Travel

Mr. Paul Marsden: To ask the Secretary of State for the Home Department if he will list for each year since 1997 the number of miles flown by each Minister on official departmental business. [181870]

Fiona Mactaggart: Detailed information for all Ministers in respect of UK travel is not held centrally and could be provided only at disproportionate cost. However, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information reaching back to 1995–96. Information for 2003–04 is currently being assembled and will be published shortly.

All ministerial and civil service travel is undertaken in accordance with the rules set out in the Ministerial Code, Travel by Ministers, and Civil Service Management Code, copies of which are available in the Libraries of the House.

Mr. Beggs: To ask the Secretary of State for the Home Department what the total cost of air travel between Northern Ireland and Great Britain was for *(a)* ministers and *(b)* officials in his Department in the latest year for which figures are available. [182129]

Fiona Mactaggart: Detailed information for all Ministers (and staff) in respect of UK travel is not held centrally and could be provided only at disproportionate cost.

Money Laundering

Mr. Cousins: To ask the Secretary of State for the Home Department how many incidents possibly related to money laundering *(a)* the Inland Revenue and *(b)* Customs and Excise reported to the appropriate investigative agencies in each year since 1997; and how many prosecutions each year resulted from these reports. [185165]

Caroline Flint: Powers to allow the Inland Revenue to pass disclosures relating to incidents of suspected money laundering to other investigatory agencies came into force with other provisions of the Anti-terrorism Crime and Security Act 2001 on 14 December 2001.

Since that time the number of disclosures passed to the appropriate agencies by the Inland Revenue in each tax year has been as follows:

	Number
2001–02	0
2002–03	3
2003–04	7

The Inland Revenue do not have the power to prosecute incidents of suspected money laundering.

For HM Customs and Excise (HMCE), the investigation of money laundering is an assigned matter with the result that, where investigators from the organisation discover incidences of its occurrence, they are empowered to investigate and prosecute the offence themselves and do not need to make disclosures to another agency.

HMCE may refer cases to another agency where their investigations find that money laundering is related to offences which are not assigned, for example people trafficking or robbery. Since 2001, 17 money laundering cases have been referred to other agencies for them to pursue.

The information provided by disclosures relating to incidents of money laundering is used by law enforcement agencies in a variety of ways to detect crime and trace the proceeds of criminal activity. For example, such information may contribute to an ongoing investigation, be the trigger for a new one, or be held on the relevant intelligence databases for future cases.

Given the variety of ways in which this information is used, it is not possible to link particular disclosures with particular prosecutions and convictions in the majority of cases.

Motoring Offences (Mobile Phones)

Jim Dowd: To ask the Secretary of State for the Home Department what guidance his Department has issued to police forces in England and Wales concerning the implementation of the ban on using hand-held mobile phones while driving; and what measures are in place to monitor its enforcement. [183931]

Caroline Flint: The new, specific, offence of using a hand-held phone while driving is intended to provide a simple, objective offence, the enforcement and prosecution of which does not depend on judgements of control or carelessness. The Association of Chief Police Officers have welcomed it as a straightforward method of dealing with this dangerous behaviour. The police will enforce the offence as operationally appropriate, and no specific guidance has been issued by the Government.

Data on action to enforce the new offence (written warnings, fixed penalty notices and court proceedings) will be available in autumn 2004.

Mr. Wood: To ask the Secretary of State for the Home Department how many motorists have been found using mobile phones whilst driving since 1 December 2003; and how many drivers were *(a)* fined on the spot, *(b)* successfully prosecuted and *(c)* driving vans, buses, coaches and lorries. [184796]

Caroline Flint: Data on police action (written warnings, fixed penalty notices and court proceedings) for the new offence of driving while using a hand held mobile telephone will not be available until the autumn of 2004. Information collected centrally does not identify the type of vehicle involved unless specific to the legislation. Use of a hands free mobile phone is not an offence.

National Firearms Database

Mr. Paice: To ask the Secretary of State for the Home Department when the project to develop a National Firearms Database was first initiated; when the system was completed and in operation; and what the total cost was of the project. [184901]

Caroline Flint *[holding answer 19 July 2004]:* The requirement under section 39 of the Firearms (Amendment) Act 1997 for a central register of all persons who have applied for and been granted or refused a firearm or shot gun certificate is now being taken forward as part of a National Firearms Licensing Management System (NFLMS). I understand from the Police Information Technology Organisation that this project was initiated in September 2002. It is scheduled to be ready for service at the end of August 2004. The migration of individual force records from their local systems to NFLMS will take about six months to include all forces. The final cost of the project will not be available before then.

National Offender Management Service

Mr. Drew: To ask the Secretary of State for the Home Department how many representations his Department has received *(a)* in support of and *(b)* against the setting up of the National Offender Management Service. [171413]

Paul Goggins: We have received a total 264 responses to the initial consultation on the National Offender Management Service (NOMS) and 177 responses to the consultation paper on the NOMS organisational design.

52 of these responses requested specific information or further copies of the consultation document. Of the responses that offered an opinion, over half, 114, offered general support for the new service and 98 expressed concern. Responses to the NOMS organisational design-consultation paper are currently being analysed.

Mrs. Gillan: To ask the Secretary of State for the Home Department if he will take steps to ensure that voluntary sector organisations have sufficient capacity to bid for contracts under the National Offender Management Service arrangements. [180972]

Paul Goggins: The National Offender Management Service (NOMS) is in the process of establishing a Voluntary Sector Unit, which will have oversight of the relationship between NOMS and the voluntary and community sector. Identifying the capacity building requirements of the sector to enable organisations to participate as providers in NOMS and putting in place the ways of addressing these will form part of the work of the Unit.

Mr. Gerrard: To ask the Secretary of State for the Home Department when he will publish the business case for the introduction of contestability and market testing into the National Offender Management Service. [181815]

Paul Goggins: The case for the establishment of the National Offender Management Service was outlined in Patrick Carter's independent report 'Managing Offenders—Reducing Crime' published along with the Government response 'Reducing Crime—Changing Lives' on 6 January 04. This includes the case for increased competition and wider contestability.

Mr. Llwyd: To ask the Secretary of State for the Home Department when the new IT systems *(a)* Community-Tag and *(b)* Institution-Tag will be integrated into the National Offender Management Service and the measures contained in the Criminal Justice Act 2003. [182310]

Paul Goggins: Proposed IT support for the integrated management of offenders, serving either custodial or community sentences, is being piloted using the TAG product from Syscon Justice Systems Ltd. over the next 12 months. The pilot is intended to confirm the business model of the National Offender Management Service and take into account new sentencing provisions.

Subject to successful completion of the pilot, approval to build and implement the new system will be sought with a view to implementation in 2006–07.

Mr. Llwyd: To ask the Secretary of State for the Home Department what responses he has received to the consultation document on the National Offender Management Service organisational design; and how many supported the proposals. [182311]

Paul Goggins: The Home Office has received 177 responses to the consultation paper on the National Offender Management Service's organisational design. The responses are currently being analysed.

Mr. Osten: To ask the Secretary of State for the Home Department how many staff he expects to be employed by the National Offender Management Service on 1 June broken down by *(a)* grade and *(b)* function. [172409]

Paul Goggins: Currently the Prison Service has around 47,500 members of staff and the National Probation Service has around 19,000 full-time equivalent employees. The Correctional Services Head Quarters has around 400 staff.

All of these employees now come under the ambit of the National Offender Management Service (NOMS). However as NOMS Directors are currently developing proposals for the shape, size and structure of the new Service, at this point in time we are unable to advise how this will be split in relation to grade or function.

Non-departmental Public Bodies

Mr. Stephen O'Brien: To ask the Secretary of State for the Home Department how many non-departmental public bodies for which his Department is responsible have been *(a)* established and *(b)* abolished since 1997. [182948]

Fiona Mactaggart: The Home Office sponsors over 46 public bodies, of which 28 are non-departmental public bodies. Details of Home Office non-departmental public bodies are submitted annually to the Cabinet Office for their publication "Public Bodies", which is a series of annual publications, providing information on public bodies sponsored by Government. The latest publication being "Public Bodies 2003".

The information required for this PQ has been extracted from past editions of the Cabinet Office "Public Bodies" publications. Details of non-departmental public bodies that have been established and abolished since 1997 are shown in the table.

	(a) Established	*(b) Abolished*
1997–98	1	1
1998–99	3	1
1999–2000	2	0
2000–01	4	5
2001–02	1	3
2002–03	4	3

Obscene Websites

Mr. Djanogly: To ask the Secretary of State for the Home Department what plans there are for meetings to be held between Ministers and computer manufacturers to discuss ways of limiting access to obscene websites, with particular reference to fitting filters at source. [184459]

Paul Goggins *[holding answer 19 July 2004]:* The Government firmly believes that users of the internet should be able to control what they see, and in particular what children are able to see, online. We support the development of a range of products and approaches to

achieve this. Tools to enable such control can be applied by use of specific filtering software or by use of an Internet Service Provider which offers access controls as part of the internet connection "package". Pre-loaded safety software, pre-set at point of sale to a high safety level, would be one of these options. We are currently working with the British Standards Institute to develop a BSI "kitemark" for filtering products, which could help guide consumers in their choices. This development follows initial work done by the Task Force on Child Protection on the Internet.

Mr. Djanogly: To ask the Secretary of State for the Home Department what plans there are to provide funding to police authorities specifically for tackling obscene publications on the internet in terms of *(a)* manpower and *(b)* IT expertise. [184462]

Paul Goggins: Funding for this area of activity is met from within police authorities' own budgets. We have no plans to hypothecate the funding that police authorities should make available to tackle this particular issue.

Provision for policing in England and Wales has increased by over £2.3 billion (over 30 per cent.) since 2000–01. The recent Spending Review settlement will allow us to continue with this significant investment in policing, although we are still to decide the detailed allocation of the settlement.

The deployment of officers to deal with this issue and the training they receive is a matter for individual chief officers.

Mr. Djanogly: To ask the Secretary of State for the Home Department what plans he has to *(a)* review and *(b)* propose amendments to the law governing obscene publications. [184463]

Paul Goggins *[holding answer 19 July 2004]:* We are concerned about the availability of obscene material, particularly on the internet. We are currently considering whether the law governing obscene publications should be strengthened. This issue was discussed during the adjournment debate on 18 May, which was obtained by my hon. Friend the Member for Brighton, Pavilion (Mr. Lepper).

Offender Behaviour Programmes

John McDonnell: To ask the Secretary of State for the Home Department pursuant to the answer to the right hon. Member for Haltemprice and Howden (David Davis) of 8 June 2004, *Official Report*, column 331W, on offender behaviour programmes, how many completions of each programme there were at each privately run prison. [183994]

Paul Goggins *[holding answer 19 July 2004]:* The following table gives information on the number of offending behaviour programmes that have been completed by prisoners at contracted out prison which provide these courses for 2003–04.

Offending behaviour programme	*Establishment*	*Number of course completions*
Controlling Anger and Learning to Manage it (CALM)	HMP Wolds	19
Cognitive Skills Booster Programme	HMP Wolds	15
Enhanced Thinking Skills (ETS)	HMP Altcourse	37
Enhanced Thinking Skills (ETS)	HMP Doncaster	36
Enhanced Thinking Skills (ETS)	HMP Dovegate	48
Enhanced Thinking Skills (ETS)	HMP Forest Bank	35

John McDonnell: To ask the Secretary of State for the Home Department if he will list the accredited offender behaviour programmes that have been developed and accredited by private sector prison companies. [183995]

Paul Goggins *[holding answer 19 July 2004]:* The Correctional Services Accreditation Panel (CSAP) accredits offending behaviour programmes for delivery to offenders in prison (and in the community under the auspices of the National Probation Service).

In March 2004 a "Democratic Therapeutic Community Core Model" was accredited by the CSAP. This model was a collaborative development between four public sector prisons (Grendon, Gartree, Winchester West Hill and Aylesbury) and one private sector prison (Dovegate). The work was co-ordinated by the 'What Works In Prison Unit' in HM Prison Service Headquarters. HMP Dovegate contributed the majority of new material in the accreditation submission relating to training for staff.

There have been no other programmes submitted by private sector prison companies, which have been accredited by CSAP.

Overseas Corruption Allegations

Mr. Hancock: To ask the Secretary of State for the Home Department how much ring-fenced funding has been available to law enforcement agencies to deal with overseas corruption allegations in each of the last five years. [183447]

Paul Goggins: Implementation of Part 12 of the Anti-terrorism, Crime and Security Act 2001 Act (ATCS) forms part of the National Policing Plan. Each police authority will take the National Policing Plan into account when drawing up their Local Policing Plans.

As far as police authorities are concerned, every effort is made to allow police authorities as much scope as possible by not ring-fencing grant wherever feasible. In exceptional circumstances, the Home Secretary may be prepared to contribute to unforeseen costs within certain limits.

Mr. Hancock: To ask the Secretary of State for the Home Department how much money has been repatriated, and to which overseas countries, as a result of corruption investigations in the UK in each of the last five years. [183448]

Caroline Flint: I am not aware of any instances of repatriation of funds as a result of corruption investigations over the past five years. The UK Central Authority (UKCA) in the Home Office received a total of 22 incoming requests for restraint and confiscation of assets in 2003, and has received 10 so far this year. However, more detailed statistics detailing the offences to which requests relate and whether funds have been repatriated are not available.

The UK is committed to assist its international partners in this area. It has signed the United Nations Convention against Corruption, which obliges parties to return assets to the requesting State where the case involves the embezzlement of public funds or the laundering of public funds.

Mr. Hancock: To ask the Secretary of State for the Home Department what plans the Government have to revise the legislation on corruption; and if he will make a statement. [183449]

Paul Goggins: The Government published a draft Corruption Bill in March 2003 for pre-legislative scrutiny in order to consolidate and clarify the criminal law on bribery. Pursuant to the Joint Committee report and recommendations, the Government published their reply to the Joint Committee in December 2003 setting out the extent to which it agreed with the Committee. It indicated that the intention is to introduce a revised Bill to Parliament in due course, which remains the position.

Mr. Hancock: To ask the Secretary of State for the Home Department how many cases are on the national register of overseas corruption allegations held by the National Criminal Intelligence Service; and of these how many are being investigated. [183450]

Caroline Flint: The National Criminal Intelligence Service (NCIS) currently has 23 referrals on the Anti-terrorism and Crime Security Act register. Of those which it is possible to pursue, six are being considered by NCIS and six have been passed to law enforcement agencies for investigation under the Act.

Paedophiles

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what the Government's strategy is for monitoring repeat paedophiles returning to the community after release from prison. [184176]

Paul Goggins: The protection of the public from sexual and violent offenders is one of the Government's highest priorities, particularly where children are involved. The release of such offenders into the community requires the robust assessment and management of risk. Since April 2001 ensuring such arrangements are in place have been the responsibility of police and probation in each of the 42 Areas of England and Wales. The arrangements, which are known as the Multi-Agency Public Protection Arrangements (MAPPA), have recently been strengthened by the Criminal Justice Act (2003).

PFI/PPP Schemes

Alan Simpson: To ask the Secretary of State for the Home Department if he will list the private finance initiative and public private partnership schemes his Department has entered into that have been subject to refinancing deals, indicating in each case how much of the windfall gain has been repaid to the Government. [179063]

Fiona Mactaggart: Her Majesty's Prison Altcourse was refinanced in 1999. HM Prison Service received payment of £1 million representing 9.3 per cent. share of the total refinancing gains and 20 per cent. of the amount requiring the Prison Service's consent under the contract.

Her Majesty's Prison Pare was refinanced in 2001. Her Majesty's Prison Service did not have a contractual right to share in the refinancing benefit and did not receive any share in this benefit.

Alan Simpson: To ask the Secretary of State for the Home Department what the *(a)* book value of the stakeholding, *(b)* onward sale price and *(c)* arrangements for sharing any windfall gain from subsequent refinancing arrangements are for each of the private finance initiative and public private partnership schemes his Department has entered into where there has been an onward sale of the private sector stakeholding into secondary market. [179066]

Fiona Mactaggart: From the best information available, there have been no instances where there has been an onward sale of the private sector stakeholding into a secondary market.

Police (Speeding)

Mr. Evans: To ask the Secretary of State for the Home Department how many policemen have been fined for speeding whilst driving in police cars in each of the last three years. [185873]

Caroline Flint: The information is not collected centrally.

Police Intelligence Database

Mr. Bellingham: To ask the Secretary of State for the Home Department what progress has been made with his proposals for establishing a national police intelligence database; and if he will make a statement. [180794]

Caroline Flint: As announced by my right hon. Friend the Home Secretary in his statement to the House on 22 June 2004, following publication of Sir Michael

Bichard's Report, the Government shall introduce the first national police intelligence computer system. Entitled "Impact", it will ensure that all forces use the same system to manage and share intelligence information. In the following debate, in answer to the hon. Member for Winchester (Mr. Oaten), the Home Secretary indicated Impact could be in operation in two years, building on the Police Local Exchange (PLX) which should be available next spring. In the meantime three phases are being taken forward. Firstly, Impact will combine intelligence and data from forces' operational systems to deliver real data sharing. This is happening as we speak and progress is encouraging. Secondly, Impact will have analysis tools to pick out patterns of crime. Thirdly, it will enable specific police operations, within and between forces, through briefing and tasking functions. The Police Information Technology Organisation is now undertaking a full feasibility study of the requirements and solutions to build a technical demonstrator by next spring.

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department if he will arrange for the early inspection of all police force intelligence systems before issuing the proposed statutory code. [181455]

Caroline Flint: The Police Information Technology Organisation will review and evaluate all intelligence systems available off-the-shelf either commercially or already within police forces as part of the work to build a technical demonstrator for the 'Impact' national intelligence system. Additionally, the data sharing phase of Impact will require a systems and data healthcheck in each force to prepare data held locally in a common format.

The National Policing Plan requires all forces to comply with the National Intelligence Model for gathering and analysis of criminal intelligence. The Association of Chief Police Officers' (ACPO) minimum standards form part of the baseline assessment of forces undertaken by Her Majesty's Inspectorate of Constabulary (HMIC). The National Centre for Policing Excellence will co-ordinate the additional guidance to forces recommended by Sir Michael Bichard. This Statutory Code will set out the standards to be monitored both through HMIC Inspections and the Police Standards Unit through the 'Policing Performance Assessment Framework'.

Polls/Focus Groups

David Davis: To ask the Secretary of State for the Home Department how much his Department has spent on *(a)* opinion polling and *(b)* focus groups in each year since 2001. [185270]

Fiona Mactaggart: The Home Office undertakes a wide range of research activities that support the development of information led policy.

The Department conducts or commissions such work only when it is justified by the specific needs of a particular policy or programme and when this is the most economical, efficient and effective way to achieve the purpose. Consulting and involving the public helps inform both policy formulation and the delivery of better quality public services.

Research programmes are often complex and combine a mixture of quantitative and qualitative elements. It is therefore not always possible to break down the separate costs of polling and focus group components from the overall cost of a research project. It has therefore not been possible to provide the breakdown requested without incurring disproportionate cost.

Prison Officers

Mr. Hancock: To ask the Secretary of State for the Home Department if he will make it his policy to regard assaults on prison officers in the execution of their duties as notifiable offences. [183445]

Paul Goggins: Assault is already a notifiable offence. There are no specific plans to make all assaults on prison officers separately notifiable.

In certain circumstances, assaults on a prison officer are already included in the recorded crime (notifiable offences) series. Any offence, which is reported to and investigated by the police, will be recorded as a notifiable offence by them.

However, a minor offence which is dealt with under prison discipline, would not usually be recorded by the police.

Mr. Hancock: To ask the Secretary of State for the Home Department if he will make it his policy to regard prison officers as constables for the purposes of section 89 of the Police Act 1996. [183446]

Paul Goggins: There are no current plans to do so.

Prison Service

Mr. Gerrard: To ask the Secretary of State for the Home Department how many prison officers were employed by the Prison Service on a part-time basis on 31 March in each of the last five years. [183953]

Paul Goggins: The table contains the number of part-time officers in each year since 1999. The figures include prison officers, senior officers and principal officers.

31 March	*Number*
2004	662
2003	501
2002	343
2001	211
2000	142
1999	140

The figures for 1999 and 2000 are estimates.

There has been a significant increase in the number of officers working part-time, which is a reflection of the greater emphasis placed on work-life balance in recent years.

An addition, the Prison Service Equal Opportunities policy was issued in 2003 to encourage more staff to work part-time hours. This part of the Service's work-life balance policy, which also includes; job sharing and other flexible working patterns.

It is now the case that all posts including those on recruitment must be available on either a part-time or job-share basis, except where critical examination by line management shows the post to be unsuitable for part-time or job-share.

Mr. Gerrard: To ask the Secretary of State for the Home Department what the prison population was on 31 March in each of the last five years. [183954]

Paul Goggins: The prison population in England and Wales on 31 March in each of the last five years is provided in the table.

Prison population, England and Wales, 31 March

	Number
2000	65,463
2001	65,394
2002	69,784
2003	72,954
2004	75,295

Mr. Gerrard: To ask the Secretary of State for the Home Department how many prisoners have undertaken dirty protests in each of the last five years. [183955]

Paul Goggins: The information requested could be provided only at disproportionate cost.

Mr. Gerrard: To ask the Secretary of State for the Home Department how many prisoners have been required to remain in a hospital overnight with prison officer supervision in each of the last five years. [183956]

Paul Goggins: This information is not collected centrally and could be obtained only at disproportionate cost.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the main benefits of competition within the Prison Service are. [182304]

Paul Goggins: Competitive tendering is one of the principles underlying Government purchasing activities and contributes to seeking and demonstrating good value for money. Additionally, requirements above certain financial thresholds stipulated by the EU have to be advertised in accordance with EU rules on public procurement.

Competition ensures that a contract is formed with the most suitable supplier in the market for the goods or services required. Checks undertaken as part of the procurement process will mean that the supplier is financially sound, technically and commercially capable of providing the goods or services, submits the best offer in value for money terms and can be expected to provide the goods or service successfully.

All of this reduces the risk to the Department of a failed contract and provides an audit trail that illustrates the department's commitment to an impartial selection and award process.

Mr. Hancock: To ask the Secretary of State for the Home Department how many prison healthcare officers were *(a)* in post and *(b)* planned to be in post on 31 March. [183983]

Paul Goggins: On 31 March 2004 the Prison Service corporate personnel database recorded 488 prison officer healthcare staff in post, compared to an operational staffing requirement of 550. This includes prison officer, senior officer and principal officer specialists. It excludes officers who are training to be specialist healthcare officers.

Mr. Hancock: To ask the Secretary of State for the Home Department how many prison healthcare officers there were in each prison establishment on 31 March in each of the last five years. [183984]

Paul Goggins: Information on the number of specialist healthcare officers within each public sector prison establishment for each year since 2001 is contained in the table. Prior to 2001, this data was not collected centrally and could be obtained only at disproportionate cost. The figures include prison officer, senior officer and principal officer specialists and are all on a headcount basis.

Specialist healthcare officers

Mr. Hancock: To ask the Secretary of State for the Home Department what the training programme is for prison healthcare officers; and how many officers have undertaken the training in each of the last five years. [183985]

Paul Goggins: This information is not available in precisely the form requested. Prison staff without nursing qualifications are eligible to become healthcare officers. The expectation is that they will obtain a National Vocational Qualification (NVQ) in custodial healthcare or another health-related subject.

The first pilot for the NVQ in custodial healthcare, which began in June 2002 with 53 candidates from 24 establishments, is due to be completed on 4 August 2004. The Prison Service is currently compiling information on which healthcare officers already have a relevant NVQ and who would like to obtain one.

Mr. Hancock: To ask the Secretary of State for the Home Department how many prison custody officer certificates have been withdrawn by his Department from staff at Her Majesty's Prison Bronzefield. [183986]

Paul Goggins: The Office for Contracted Prisons certifies all Prison Custody Officers. The Certification of the first Prison Custody Officer for HMP Bronzefield took place on the 10 June 2004. From this date 123 people have been certified to work at HMP Bronzefield as Prison Custody Officers. At present no certificates have been withdrawn.

Mrs. Gillan: To ask the Secretary of State for the Home Department if he will list the innovative working practices, methods and programmes that have been introduced at privately run prison establishments that have been subsequently introduced into publicly run prisons as best practice; and if he will make a statement. [184690]

Paul Goggins: There is no simple way to track the spread of innovative working practices between the private and public sectors of the Prison Service. However since the first private prison opened in 1992 significant improvements have been achieved in the treatment of prisoners, regimes and facilities, staff deployment and the use of technology. The introduction of contestability through Market Testing will further encourage the dissemination of good practice.

Probation Office (Leighton Buzzard)

Andrew Selous: To ask the Secretary of State for the Home Department when the probation office in Leighton Buzzard was closed; and what plans there are to re-open it. [182924]

Paul Goggins: The probation office in Leighton Buzzard was closed in 1997. The building has since been demolished and redeveloped as retirement flats. There are no current plans to re-open a probation office in Leighton Buzzard.

Probation Programmes

John McDonnell: To ask the Secretary of State for the Home Department what the evidential basis was for the decision to separate probation case management and accredited programme work within the National Offender Management Service structure. [178799]

Paul Goggins *[holding answer 21 June 2004]*: Patrick Carter's independent report "Managing Offenders—Reducing Crime", published along with the Government response "Reducing Crime—Changing Lives" on 6 January 2004, recommended separating offender management from accredited programmes as a way of developing greater contestability.

Project Endurance

Tim Loughton: To ask the Secretary of State for the Home Department if he will make a statement on Project Endurance. [185435]

Caroline Flint *[holding answer 20 July 2004]*: Officials from the Home Office and other Government Departments are engaged in talks with industry and law enforcement representatives concerning a possible joint public awareness campaign regarding computer security and staying safe on line. These initial discussions have gone under the title of Project Endurance.

Public Order Act

Mr. Wiggin: To ask the Secretary of State for the Home Department what guidance he has given to police and magistrates on interpreting the meaning of what constitutes harassment, alarm and distress in Section 5 of the Public Order Act 1986. [184065]

Caroline Flint: Home Office Circular 11/1987 provided guidance on section 5 of the Public Order Act 1986. The Circular has been supplemented by the decisions of the courts

Recidivism

Mr. Gerrard: To ask the Secretary of State for the Home Department whether he has commissioned research into the effectiveness of programme and case management integration on *(a)* programme completion and *(b)* re-offending rates. [181814]

Paul Goggins: The Home Office's National Probation Directorate (NPD) has commissioned one study that looked at the relationship between case management and accredited programme completion in the Probation Service. The research was conducted by Oxford University and it was managed and published by the National Probation Directorate in 2004. The Home Office's Research, Development and Statistics Directorate (RDS) has evaluated it. The published findings "Think First Prospective Research Study: Effectiveness and Reducing Attrition" are available on the National Probation Service website (www.probation.homeoffice.gov.uk).

The research found that good case management was associated with improved completion rates of the Think First programme. Of greatest value was when case management involved intense supervision around the start of the programme, support with personal problems, and frequent contact after completion of the programme to assist offenders in using what had been learnt.

NPD is planning to carry out a study to look at the impact of the Think First programme on reconviction rates (an established proxy measure for re-offending). The results should be available in 2005.

Also, the Home Office RDS is carrying out a systematic review of the international evidence in what works in offender management in the delivery of correctional services to reduce re-offending. The results from this are expected to be available in 2005.

Regional Offender Management

Mr. Gerrard: To ask the Secretary of State for the Home Department how he will ensure that Multi-Agency Public Protection Arrangements boards will continue to function locally under regional offender management arrangements. [181816]

Paul Goggins: The National Offender Management Service (NOMS) will build upon the range of work probation boards undertake at a local level. The significant contribution the Multi-Agency Public Protection Arrangements have made to public protection will form a key part of the core offender management function within NOMS.

Operationally MAPPA usually function at a local rather than area level and will continue to do so under the arrangements for NOMS. The Multi-Agency Public Protection Panels, which oversee the management of the highest risk offenders, will continue to manage the risks posed by the individual offenders in question.

Rehabilitation Regimes

John McDonnell: To ask the Secretary of State for the Home Department how he will measure the impact of *(a)* prison regimes and *(b)* probation work with individual offenders, if those offenders (i) move prisons and (ii) move probation areas. [167521]

Paul Goggins: Surveying Prisoner Crime Reduction (SPCR) is planned as a longitudinal survey of a representative sample of around 4,000 new prisoners. The study will examine the range of interventions that prisoners receive during their sentence and whether these make a difference during and after custody. Tracking the movement of prisoners between establishments will be an important part of this work.

A parallel study of offenders on community sentences is also planned. Investigating Targeting, Tailoring and Sequencing of Interventions on Re-offending of Offenders on Community Sentences (ITTSI) will explore how interventions work in combination to address the range of criminogenic needs of offenders on community sentences. It will track a large and representative sample of offenders; profile offenders and their needs; track experiences of interventions; and evaluate the impact of interventions in combination on reducing re-offending. The research will also aim to track any offender from the cohort who moves out of the study probation areas.

Shotgun Licensing

Mr. Wiggin: To ask the Secretary of State for the Home Department what estimate he has made of the number of people who will be affected by changes to the licensing on shotgun ownership; what assessment he has made of the effect of the proposed changes on the number of crimes committed; how many crimes were committed with licensed shotguns in the last year for which figures are available; and what estimate he has made of the cost of implementation of the new arrangements. [185203]

Caroline Flint: The Government have made no specific proposals for changes to the arrangements for licensing shotgun owners. Our consultation paper on firearms control seeks views by 31 August on a range of issues concerning the use and possession of firearms. We will consider all responses carefully before deciding what needs to be done, if anything, to improve existing controls. There were 561,762 shot gun certificates on

issue at the end of March 2003. Shot guns were used to commit 671 recorded crimes in 2002–03; it is not known how many of these were legally held.

Departmental Publications (Storage)

Dr. Cable: To ask the Secretary of State for the Home Department how many departmental publications are in storage; and where they are located. [183872]

Fiona Mactaggart: Latest stock records show that 1,745 titles relating to the Home Office are currently in storage. This includes a wide range of departmental publications including policy and consultation documents, crime reduction materials, research documents and other public information literature.

Stock levels are monitored to ensure that only regularly ordered materials are retained.

Publications are stored by our contracted Data Management and Distribution Warehouse Prolog UK (Phase 2), Sherwood Park, Annesley, Nottinghamshire NG15 ODJ.

Crime Victims

Peter Bottomley: To ask the Secretary of State for the Home Department how many *(a)* road use related crime victims and *(b)* non-road use related crime victims there were in the last year for which figures are available. [183549]

Caroline Flint: In Great Britain in 2002, 3,431 people were killed in road traffic incidents, 35,976 were seriously injured and 263,198 were slightly injured. A proportion of these would have involved serious motoring offences such as Careless Driving, Dangerous Driving and Causing Death by Dangerous Driving.

Information is not available on the number of victims of other forms of road use related crime, such as unauthorised taking of a motor vehicle and aggravated vehicle taking or on victims of any other types of criminal offence. However, police recorded crime statistics for 2002–03 show that out of a total of 5,899,450 offences, a range of incidents related specifically to road use, as detailed in the table.

Offence	*Number of offences*
Dangerous driving	7,551
Aggravated vehicle taking	11,530
Theft from a vehicle	658,740
Vehicle interference and tampering	91,653
Criminal damage to a vehicle	428,110
Theft or unauthorised taking of a motor vehicle	305,654
Total	1,503,238

The remaining 4,396,212 recorded offences related largely to non-road use crime.

Visas (China)

Chris Grayling: To ask the Secretary of State for the Home Department whether the Government has changed its policy on assessing visa applications from Chinese students. [184880]

Mr. Mullin: I have been asked to reply.

There has been no change in the policy on assessing applications from Chinese students although procedures for processing applications have been revised.

Our visa teams across China are working hard to ensure a proper balance between the facilitation of genuine student applications and effective immigration control. They have now developed better mechanisms to identify the increasing problem of visa and document abuse. Visa sections in China have also altered the procedures covering the assessment of student applications. This has streamlined the process and provided a more convenient service to the applicant, whilst reflecting increased concerns over the level of visa abuse, relating to the student market in China.

Water Consumption

Mr. Oaten: To ask the Secretary of State for the Home Department if he will list the non-office sites within his Department's estates that have been identified as being likely to provide opportunities for significant water savings. [182227]

Fiona Mactaggart: The Prison Service has benchmarked water consumption on their estate. This has identified some 71 sites that are consuming more than typical consumption benchmark. These are as follows

HMP Askham Grange

HMP North Sea Camp

HMP Brixton

HMP Haverigg

HMP Portsmouth Kingston

HMP Ford

HMP Foston Hall

Rye Hill
Bronzefield
Doncaster
The Wolds

Forensic Science Service Laboratories

Lambeth
Huntingdon
Chepstow
Chorley
Wetherby
Priory House
Trident Court

Mr. Oaten: To ask the Secretary of State for the Home Department how much *(a)* his Department and *(b)* agencies of the Department have spent on water and sewerage services in each year since 1997; [182218]

(2) what changes there have been in water consumption by his Department between each year since 1997. [182226]

Fiona Mactaggart: The Prison Service has collected its water consumption and cost figures centrally for the period covered by the question. The non-prison estate has only been collecting water consumption figures for key office buildings since 1999–2000, when these figures were included in the annual "Sustainable Development in Government" annual reports (previously known as the Greening Government annual report). As these reports only required consumption per staff member figures, information on consumption prior to 2001–02 was not retained. The figures are set out in the table.

	Prison			*Non-prison*		
	Cost (£000)	*Consumption (m3)*	*Consumption per prisoner (m3)*	*Cost (£)*	*Consumption (m3)*	*Consumption per staff member (m3)*
1997–98	10,512	n/a	n/a	n/a	n/a	n/a
1998–99	11,172	8,598,181	138.7	n/a	n/a	n/a
1999–2000	11,312	8,313,496	138.4	n/a	n/a	16
2000–01	9,491	8,123,215	138.0	n/a	n/a	15
2001–02	10,041	8,361,421	135.8	n/a	143,091	13.9
2002–03	10,761	8,147,572	125.7	176,000	202,520	12.7
2003–04	11,127	7,661,278	114.4	[1]	[1]	[1]

n/a = not available
[1] Not yet known

Notes:
1. The non-prison figures relate to key office buildings in the core Home Office and UK Passport Agency.
2. The figures do not include any Home Office sponsored non-departmental public bodies.
3. The Prison Service figures for 2003–04 are provisional.

Watermark Project

Mr. Oaten: To ask the Secretary of State for the Home Department whether his Department has joined the Watermark project. [182225]

Fiona Mactaggart: The Home Office joined the Watermark project in 2001.

HEALTH

Social Work Degree

Tim Loughton: To ask the Secretary of State for Health how many bursaries have been taken up by students studying for the new social work degree. [185525]

Dr. Ladyman: The total number of social work bursaries awarded by the General Social Care Council in the 2003–04 academic year was 7,626.

This represents students on the new degree and diploma in social work programmes. It is not possible to separately identify those on the new degree.

Alzheimer's Disease

Tim Loughton: To ask the Secretary of State for Health how many people *(a)* under the age of 40, *(b)* aged 40 to 50 and *(c)* aged 50 to 60 years are (i) diagnosed with Alzheimer's and (ii) receiving NHS treatment for Alzheimer's. [185414]

Dr. Ladyman: Although the Department does not routinely collect information on the number of people diagnosed with dementia, there are an estimated 750,000 people with dementia in the United Kingdom, of whom around 400,000 have Alzheimer's disease (around 55 per cent.). Around 18,000 of the total number of people with dementia are aged under 65 years.

Anaphylaxis

Mr. Chaytor: To ask the Secretary of State for Health how many people in England have died from anaphylaxis in each of the last five years; how many hospital doctors in England have received specialist training in the treatment of anaphylaxis; and what plans he has to fund further *(a)* research and *(b)* professional development in this field. [184431]

Dr. Ladyman: The table shows the number of deaths in England and Wales between 1998–2002 where one or more of the conditions mentioned on the death certificate was classified as anaphylactic shock by the International Classification of Diseases (ICD).

Number of deaths where the underlying or one of the contributory causes of death was classified as anaphylactic shock[1] England and Wales, 1998 to 2002[2]

Calendar year	*Number of deaths*
1998	9
1999	12
2000	11
2001	3
2002	10

[1] Causes of death were classified as anaphylactic shock for the years 1998 to 2000 using the International Classification of Diseases, Ninth Revision (ICD-9) codes

995.0—Anaphylactic shock
999.4—Anaphylactic shock due to serum

and for the years 2001 and 2002 using the International Classification of Diseases, Tenth Revision (ICD-10) codes

T78.0—Anaphylactic shock due to adverse food reaction
T78.2—Anaphylactic shock, unspecified
T80.5—Anaphylactic shock due to serum
T88.6—Anaphylactic shock due to adverse effect of correct drug or medicament properly administered.

[2] Figures are based on deaths occurring in each calendar year

Source:
Office for National Statistics

Information is not available centrally on hospital doctors who have received specialist training in anaphylaxis. Post registration training needs for national health service staff are determined against local NHS priorities, through appraisal processes and training needs analyses informed by Local Delivery Plans and the needs of the service.

The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body which receives its grant-in-aid from the Office of Science and Technology. The Medical Research Council does not currently fund any research directly on anaphylaxis. However, the Council does fund a considerable amount of basic underpinning research in immunology and allergy which may lead to further understanding of the mechanisms involved.

Antipsychotic Drugs

Sandra Gidley: To ask the Secretary of State for Health (1) how many prescription items were dispensed in the community in England for atypical antipsychotic drugs, in each of the last three years *(a)* broken down by health authority and *(b)* in total; and if he will make a statement; [184801]

Sandra Gidley: To ask the Secretary of State for Health (2) how many prescription items were dispensed in the community in England for all antipsychotic drugs, in each of the last three years *(a)* broken down by health authority and *(b)* in total; and if he will make a statement. [184802]

Ms Rosie Winterton: Information on the numbers of prescription items of atypical traditional and all antipsychotic drugs dispensed in the community in England in each of the last three years broken down by strategic health authority is shown in the table.

Number of prescription items of antipsychotics dispensed in the community in England by strategic health authorities, 2001 to 2003

Thousand

	Number of prescription items of Atypical Antipsychotics			*Number of prescription items of Traditional Antipsychotics*			*Number of prescription items of all Antipsychotics*

Notes:
1. PCA data covers all prescription items that are dispensed in the community in England, (this covers items dispensed by community pharmacists and appliance contractors, dispensing doctors, and prescriptions submitted by prescribing doctors for items personally administered PCA data does not include items dispensed in hospitals or private prescriptions.
2. Antipsychotics are defined in the British National Formulary (BNF) paragraph 4.2.1, antipsychotic drugs. Atypical antipsychotics cover the drugs Amisulpride, Clozapine, Olanzapine, Quetiapine, Risperidone, Sertindole and Zotepine contained within BNF 4.2.1. Antipsychotic depot injections (BNF 4.2.2) have been excluded from this analysis, the same as the StHA in which the drug was prescribed.
3. The information by Strategic Health Authority (StHA) is the StHA in which the drug was dispensed in the community. This is not necessarily
4. Doctors, dentists or nurses write prescriptions on a prescription form. Each single item written on the form is counted as a prescription item.

Prescription Cost Analysis (PCA) data from the Prescription Pricing Authority

Art Therapy

Mr. Laxton: To ask the Secretary of State for Health what contribution art therapy has made towards patient treatment and recovery within the NHS; and what plans the Government has to recruit more art therapists. [185366]

Mr. Hutton: The Department has not recently commissioned or undertaken a national review of the contribution of art therapy. Primary care trusts (PCTs) have the responsibility for improving the health of the community, securing the provision of high quality services and integrating health and social care locally. They are also responsible for addressing the service needs of their local communities and developing the workforce they require to deliver services. In commissioning services, PCTs need to plan local services near to patients and ensure that they are identifying the health needs of patients and securing services for them. It is for PCTs, in partnership with strategic health authorities and other local stakeholders, to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services.

Bacterial Meningitis

Tim Loughton: To ask the Secretary of State for Health (1) what assessment he has made of the cost of providing a booster vaccination for bacterial meningitis; [185408]

(2) what plans he has to introduce a booster vaccination programme for bacterial meningitis; and if he will make a statement. [185409]

Miss Melanie Johnson: Since the meningitis C vaccine was introduced into the United Kingdom, rates of this disease have fallen by over 90 per cent.

We currently have no plans to introduce a booster dose. However, we carefully monitor rates of disease and other evidence to ensure our vaccination programme offers the most effective and safest protection.

Bed Occupancy

Mr. Burstow: To ask the Secretary of State for Health what the bed occupancy rates were in *(a)* England, *(b)* each strategic health authority and *(c)* each NHS hospital trust in each year since 1996. [184098]

Mr. Hutton: Information on beds is collected on a provider basis from national health service organisations and the latest data available are for the year 2002–03. Beds data for 2003–04 will be published later this year.

The table shows the average occupancy rate for England between 1996–97 and 2002–03.

NHS organisation data are available from the Department's website from 2000–01 at www.performance.doh.gov.uk/hospitalactivity/index.htm. Beds data from 1987–88 to 1999–2000 are available in the Library.

Average daily number of available and occupied beds in wards open overnight, England, 1996–97 to 2002–03

Percentage occupancy

	All specialties	General and acute
1996–97	81.3	80.8
1997–98	80.9	80.5
1998–99	82.5	82.5
1999–2000	82.7	83.1
2000–01	84.0	84.7
2001–02	85.1	86.0
2002–03	85.4	86.5

Source:
Department of Health form KH03

Births/Terminations

Mrs. Iris Robinson: To ask the Secretary of State for Health (1) how many *(a)* births and *(b)* terminations there were of babies with Down's Syndrome in each of the last five years; [181536]

(2) how many *(a)* births and *(b)* terminations there were of babies with (i) spina bifida, (ii) heart defects and (iii) kidney problems recognised during pregnancy in each of the last five years; [181538]

(3) if he will estimate the percentage of terminations conducted in each of the past 10 years on account of potential handicap of the baby; [181539]

(4) if he will estimate the number of terminations conducted on account of *(a)* foot deformities, *(b)* cleft lips and *(c)* cleft palates in each of the past five years. [181541]

Miss Melanie Johnson: This information is published annually in the Office for National Statistics publication, "Congenital Anomaly Statistics Notifications", series MB3; copies of which are available in the Library.

In each of the past 10 years, one per cent. of the total number of abortions performed on residents of England and Wales were performed under section 1(1)*(d)* of the Abortion Act 1967 (that there is a substantial risk that if the child were born it would suffer from such physical or mental abnormalities as to be seriously handicapped).

Bureaucracy

Mr. Norman: To ask the Secretary of State for Health pursuant to his Written Statement of 20 May 2004, *Official Report*, columns 61–4WS, on bureaucracy, (1) what the budget of each arm's length body is in this financial year; and how many staff in each body are *(a)* providing duplicated functions and *(b)* involved in unnecessary regulatory and policy activities; [176714]

(2) if he will list the arm's length bodies he has identified which could be moved to a more independent status with greater stakeholder control; [176717]

(3) how many of the planned 25 per cent. fewer staff posts will be lost through *(a)* natural wastage, *(b)* compulsory redundancy, *(c)* transfer to another arm's length body and *(d)* transfer to his Department; [176715]

(4) if he will list the arm's length bodies he has identified to be merged or closed; and which of these was created in the last six years; [176716]

(5) if he will list the unnecessary regulatory and policy activities identified in the review of arm's length bodies. [176718]

Ms Rosie Winterton: For budgetary information, I refer the hon. Member to the reply sent to the hon. Member for South Cambridgeshire (Mr. Lansley) today.

A report on the Department's review of its arm's length bodies was published today by way of a written statement.

Canteen Facilities

Mr. Burns: To ask the Secretary of State for Health what the cost was of running the Department of Health's canteen facilities in *(a)* 1996–97 and *(b)* the latest year for which figures are available. [184553]

Ms Rosie Winterton *[holding answer 19 July 2004]:* The Department's canteen facilities are run on a nil subsidy basis and there is no direct payment to the catering contractor. Utilities to the canteen facilities are provided free of charge, but are not separately metered and cost cannot be apportioned.

Children of Related Parents

Mr. Gordon Prentice: To ask the Secretary of State for Health what information he makes available to the public concerning the possible health implications for children born from patients who are cousins or otherwise related. [183781]

Miss Melanie Johnson: Specific guidance or information is not issued direct to the public concerning the possible health implications for children born from parents who are related. National Health Service genetics counselling services are provided for families affected by genetic disorders, appropriate to their needs and circumstance, irrespective of whether the parents are related or not.

Civil Service Recruitment

Mr. Evans: To ask the Secretary of State for Health how many of the reductions in the numbers of civil servants in his Department announced in the comprehensive spending review will be of special advisors. [185460]

Ms Rosie Winterton: I refer the hon. Member to the reply given by my right hon. Friend, the Chief Secretary to the Treasury (Mr. Boateng) on 20 July 2004, *Official Report*, column 190W.

Continuing Care

Sandra Gidley: To ask the Secretary of State for Health (1) how many of *(a)* the total number of applicants for NHS continuing care funding and *(b)* the number of successful applicants who are awarded continuing care suffer from (i) a form of dementia and (ii) Alzheimer's disease; and if he will make a statement; [185991]

(2) how many people in receipt of NHS continuing care are *(a)* living in their own home, *(b)* living in a care home and *(c)* in hospital, broken down by strategic health authority; and if he will make a statement; [185995]

(3) what the average funding per week is for those who receive fully funded NHS continuing care; and if he will make a statement. [186008]

Dr. Ladyman: The Department does not routinely collect, or hold, this data centrally.

Sandra Gidley: To ask the Secretary of State for Health what action NHS bodies have taken to make local people aware of the available process for review of cases where applicants may have been wrongly denied NHS continuing care. [185992]

Dr. Ladyman: Continued national coverage, through the media and the health service ombudsman's reports, has ensured a high level of awareness and National Health Service bodies have used a range of actions to further improve awareness of the recompense process. These methods include working with voluntary bodies, local media interviews, advertising within local newspapers or other publications and case finding.

Sandra Gidley: To ask the Secretary of State for Health (1) what the average length of time is between a local health authority making a decision about an applicant's eligibility for NHS continuing care and informing the applicant about that decision; [185997]

(2) what the average length of time taken to process an application for fully funded NHS continuing care is, broken down by strategic health authority; and if he will make a statement. [186007]

Dr. Ladyman: This data is not collected by the Department. As stated in Directions, published earlier this year, when an individual has been assessed for fully funded National Health Service continuing care and is dissatisfied with the outcome, a review should be completed
within two weeks of the individual registering their dissatisfaction.

A Written Ministerial Statement, made to the House 22 June 2004, stated that it is expected that all reviews as a result of the Health Service Ombudsman's 2003 report will be completed within two months of all the information on the case being received by the strategic health authority.

Sandra Gidley: To ask the Secretary of State for Health how many rejected applications for NHS continuing care since 2000 have been overturned following an appeal, broken down by strategic health authority; and if he will make a statement. [185998]

Dr. Ladyman: My written statement, of 22 June 2004, *Official Report*, column 78WS, details the number of cases which, as a result of the Health Service Ombudsman's 2003 report, have undergone a retrospective review, and the number found to have been wrongly assessed, broken down by strategic health authority.

Sandra Gidley: To ask the Secretary of State for Health how often a person in receipt of NHS continuing care must be re-assessed to ascertain whether they are still eligible for this funding; and if he will make a statement. [185999]

Dr. Ladyman: As care is needs based, individuals should be reassessed when their needs change to ensure that they continue to receive the correct level and type of care. This was reiterated and reinforced in the Continuing Care (National Health Service Responsibilities) Directions.

Correspondence

Gregory Barker: To ask the Secretary of State for Health if his Department will respond to the letters written by the hon. Member for Bexhill and Battle on *(a)* 13 May and *(b)* 24 June to the hon. Member for Doncaster, Central regarding the inquiry into clinical governance at the Conquest hospital, East Sussex before the House rises on 22 July. [185502]

Ms Rosie Winterton: I responded to the hon. Member on 22 July.

Dentistry

Mr. Best: To ask the Secretary of State for Health if he will introduce a returners scheme for NHS dental practitioners. [183328]

Ms Rosie Winterton: A scheme for dental returners was launched in June. This provides incentives for dentists to return to practice. It is operated by the recruitment and returning advisers in each strategic health authority who liase with individual dentists and assess the level of support they may need.

Mr. Wiggin: To ask the Secretary of State for Health what the level of Government funding for dentistry services was in *(a)* Wales, *(b)* England, *(c)* Herefordshire and *(d)* Worcestershire in each year since 1997. [183946]

Ms Rosie Winterton: The gross and net fees paid to dentists for the provision of general dental services (GDS) represent the main element of primary dental care costs and are the data most readily available by health authority area. Data since 1997 is shown in the table. These figures exclude some payments to dentists such as commitment payments, maternity and seniority payments as well as superannuation payments made on their behalf. There is a discontinuity in the figures for Hampshire and Worcestershire in the middle of 2002–03 because of the change in health administration areas.

Community, personal and hospital dental services have not been included in this table; these are directly commissioned by individual health authorities from locally managed resources rather than funded from a central national budget as is the case with the GDS.

NHS dental service: gross and net fees paid for by the GDS
March ending each year

£ million

Year/health authority (HA)/primary care trust (PCT)	*Gross fees*	*Net fees*[1]
1997–98

Wyre Forest PCT	2.8	2.0

[1] Exclude patient charge

Mr. Evans: To ask the Secretary of State for Health how many dentists left the national health service in each of the last seven years. [185871]

Ms Rosie Winterton: Information on the total number of dentists leaving the general dental service (GDS) or personal dental service (PDS) is given in the table. Information is not available on the reason for leaving. The leavers include dentists who are retiring or taking a career break.

General dental service and personal dental service: Number of leavers at 30 September each year—England and Wales

	Exits
1998	1,000
1999	1,066
2000	1,228
2001	1,257
2002	1,374
2003	1,256

Source:
Dental Practice Board

Dentists on the GDS and PDS are mainly self-employed and are free to vary the amount of national health service work they do. Information is not collected on private working.

Departmental Annual Report

Dr. Cable: To ask the Secretary of State for Health how many copies of his Department's annual report were printed in each year since 1997; how many were sold in each year; and what the *(a)* publication costs and *(b)* sales revenue were. [183887]

Ms Rosie Winterton: The information requested is shown in the table. The Departmental report is also available free of charge via the Department's website.

£000

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
Number printed	n/a	n/a	n/a	n/a	n/a	2,500	1,500	1,500
Number sold	n/a	750	672	605	634	507	463	[1]342
Publication cost (£)[2]	n/a	n/a	n/a	37,865	42,253	31,668	18,282	27,626

Notes:
n/a = Information not available.
[1] The Stationery Office has indicated that it expects further sales of around 100 copies.
[2] The publication costs are those that fall directly to the Department for design, typesetting and artwork. Il remaining costs for printing and publication were met centrally by the Stationery Office

Departmental Priorities

Mr. Letwin: To ask the Secretary of State for Health what recent discussions he has had with *(a)* the Chancellor of the Exchequer and *(b)* the Shadow Chief Secretary to the Treasury regarding departmental priorities. [180531]

Mr. Hutton: My right hon. Friend the Secretary of State for Health has been in regular discussions with the Chancellor and the Chief Secretary to the Treasury.

Epilepsy (Dogs)

Mr. Gordon Prentice: To ask the Secretary of State for Health if he will commission research into the use of dogs trained to alert people with epilepsy of an impending fit; and if he will make a statement. [184208]

Dr. Ladyman: No. The main agency through which the Government support medical and clinical research is the Medical Research (MRC). The MRC is an independent body funded by the Department of Trade and Industry via the Office of Science and Technology. In 2001–02 it spent £3.65 million on research into epilepsy. The Department's national health service research and development programme is additionally supporting a £1.35 million trial of longer term clinical outcomes and cost effectiveness of standard and new antiepileptic drugs.

Food Labelling

Mr. Laurence Robertson: To ask the Secretary of State for Health what checks his Department makes on the accuracy of food labelling; what amendments to the requirements he has considered; what representations he has received on this issue; and if he will make a statement. [185146]

Miss Melanie Johnson: Food labelling rules, which are agreed at European Union level, prohibit false or misleading labelling. Local authorities enforce them. The Food Standards Agency (FSA) carries out ad-hoc surveys, in close co-operation with local authorities, to

check the accuracy of certain aspects of labelling, for example where new methodology is being employed to tackle suspected food problems.

Where ad-hoc surveys identify shortcomings in current legislation, these may be resolved through the establishment of FSA or industry guidance or by working toward changes in EU legislation.

Foundation Trusts

Kate Hoey: To ask the Secretary of State for Health what the total cost has been of conducting elections for the membership of boards on the proposed foundation trusts, broken down by *(a)* staff costs, *(b)* costs of payments to the Electoral Reform Society, *(c)* costs of setting up databases, *(d)* publicity, *(e)* recruitment of members and *(f)* public consultations. [185639]

Mr. Hutton *[holding answer 21 July 2004]:* The cost of conducting elections is a matter for each national health service organisation applying for NHS foundation trust status. These costs will not be entirely additional, as they will replicate some current activity that trusts are already doing around informing the public, patients and staff about issues affecting each trust.

General Practitioners (Out-of-hours Service)

Alan Simpson: To ask the Secretary of State for Health what assessment he has made of the impact on hospital emergency services of Nottingham general practitioners shifting their out-of-hours service to an arm's length provider. [184968]

Dr. Ladyman: There is to be no change to the pattern of provision for 80 per cent. of Nottingham residents already served by the general practitioner co-operative, Nottingham Emergency Medical Services (NEMS), and which have been in place for six years. Rather than an 'arm's length provider', NEMS is currently constituted as a not-for-profit GP co-operative with over 300 GP members. It will be moving in 2005 to a community interest mutual company with significant local population and stakeholder involvement.

No adverse impact of the NEMS service on emergency care has been identified by local emergency services and only 1 per cent. of out-of-hours patient contacts are referred to emergency services by NEMS. NEMS is an active participant of the local emergency care network and continues to have a close working relationship with other local emergency care services.

Alan Simpson: To ask the Secretary of State for Health what proportion of calls to National Emergency Medical Services doctors in Nottingham resulted in *(a)* a home visit by the doctor and *(b)* a vehicle being sent to collect the patient in the last year for which figures are available. [184972]

Dr. Ladyman: 7,406, or 12.4 per cent. of all out-of-hours patient contacts with Nottingham Emergency Medical Services (NEMS) resulted in a home visit last year. Over 70 per cent. of the visits were done in under two hours.

2,951, or 5 per cent. of all out-of-hours patients who contacted NEMS used NEMS transport last year. Out-of-hours patient transport was introduced voluntarily by NEMS when it began operations in 1998. It is to support access to care for patients unable to access alternative means of transport to the NEMS primary care centre. The service is free and ensures that the patient is returned home after their consultation.

Green Minister

Mr. Horam: To ask the Secretary of State for Health if he will make a statement on the activities of the Green Minister in the Department in financial year 2003–04. [185126]

Miss Melanie Johnson: The Department is a key player in supporting the Government's objective of building a fair, inclusive and economically thriving society through improving and protecting the health and social well being of the people of England. Sustainable development is an intrinsic part of this aim.

As the Department's Green Minister, I have a number of responsibilities that help underpin sustainable development goals. These include health inequalities, healthy eating, for example, '5 a Day', and physical activity, such as activity co-ordination teams. My on-going portfolio of work in these, and other, areas actively contributes to the delivery of sustainable development. Further details of the Department's work in these areas can be found at: http://www.dh.gov.uk/PolicyAndGuidance/HealthAndSocialCareTopics/fs/en

Recent work has centred on the Department's public health consultation, Choosing Health? We are working closely with colleagues in the Department for the Environment, Food and Rural Affairs to ensure that our proposals in the 'Choosing Health?' consultation encompass the broad aims of sustainable development, particularly with respect to improving health, promoting community development and social justice.

I recently spoke about the 'Choosing Health?' consultation at a meeting of the sustainable development taskforce.

Guy's and St Thomas' NHS Foundation Trust

Kate Hoey: To ask the Secretary of State for Health what the total cost was of conducting the elections of public and patients to the board of Guy's and St. Thomas' Foundation Trust; and if he will break down the total, by sums for *(a)* staff costs, *(b)* publicity, *(c)* recruitment of members, *(d)* payments to the Electoral Reform Society, *(e)* building a database and *(f)* public consultation. [185638]

Mr. Hutton *[holding answer 21 July 2004]:* This is a matter for the chair of Guy's and St. Thomas' National Health Service Foundation Trust. I have written to Dr. Patricia Mobberley, chair, informing her of my hon. Friend's inquiry.

Health Literacy

Mr. Burstow: To ask the Secretary of State for Health what assessment his Department has made of the health literacy of the population of England; and what plans he has for a future assessment. [186012]

Miss Melanie Johnson: Health literacy relates to the ability to navigate the health care system and to get the most out of health care services and information about health including self care and healthy living. It correlates strongly with levels of educational attainment. It is estimated that in England 5.2 million adults have poor literacy levels.

Hospital Infections

Andrew Mackinlay: To ask the Secretary of State for Health how many people who died in Basildon and Thurrock Hospital Trust hospital wards in each of the past three years were suffering from MRSA or related infections; and if he will make a statement. [185736]

Dr. Ladyman *[holding answer 21 July 2004]:* Information on the number of patients who died in Basildon and Thurrock University Hospital Trust over the past three years is not held centrally.

It is difficult to produce statistics on methicillin resistant "Staphylococcus aureus" (MRSA) because there are no codes for antibiotic resistance in the international classification of diseases. However, they will be introduced in the future: thus, better data should be available.

However, the results of a recent special study has shown that deaths involving MRSA have increased substantially from 1993 to 2002. The number of certificates with any mention of MRSA either as the underlying cause or contributing factor increased from 51 in 1993 to 800 in 2002.

Andrew Mackinlay: To ask the Secretary of State for Health what assistance the Department has given to Heriot-Watt University in developing new drugs to combat MRSA; and if he will make a statement. [184419]

Ms Rosie Winterton: None. The Department last year commissioned a £2.5 million strategic programme of research aimed at improving scientific understanding of antimicrobial resistance. £590,000 of that total sum will be spent on projects that will provide useful information relating to best practice in preventing methicillin-resistant *Staphylococcus aureus*.

King's College Hospital Foundation Trust

Kate Hoey: To ask the Secretary of State for Health what the total cost of conducting the elections of public and patients to the board of governors of the proposed King's College Hospital Foundation Trust was; and if he will break down the total, by sums for *(a)* recruitment of members, *(b)* publicity, *(c)* setting up of a database, *(d)* payment to the Electoral Reform Society and *(e)* staff time. [185636]

Mr. Hutton *[holding answer 21 July 2004]:* The Department does not hold information on the costs of conducting elections in individual national health service organisations. The cost of conducting elections is a matter for each NHS organisation applying for NHS foundation trust status. These costs will not be entirely additional as they will replicate some current activity that trusts are already doing around informing the public, patients and staff about issues affecting each trust.

Latex Gloves

Mr. Burstow: To ask the Secretary of State for Health when he plans to publish updated guidance to NHS employers on the use of powdered latex gloves. [184104]

Mr. Hutton: Allergic reactions following exposure to natural rubber latex have risen significantly over the past 10 years, particularly within healthcare occupations and this prompted action by the Department and the NHS Purchasing and Supplies Agency to remove powdered latex gloves, (the biggest cause of latex sensitisation), from sale to national health service employers. This action has reduced significantly the incidence of latex allergy, and has been followed up by the Department and the Health and Safety Executive (HSE) issuing a latex toolkit. The toolkit covers issues concerning latex allergy, including what steps employers and employees should be taking to avoid it in the workplace. It also includes comprehensive advice on single-use glove selection, taking into account the importance of infection control. The toolkit can be found at: www.hse.gov.uk/latex

Major Incident Plans

Mr. Leigh: To ask the Secretary of State for Health what proportion of National Health Service trusts meet *(a)* all, *(b)* at least six and *(c)* four or fewer of the eight criteria against which their major incident plans and preparedness have been assessed. [177255]

Mr. Hutton: In response to a specific survey of National Health Service major incident planning conducted by the Department last year, all strategic health authorities confirmed that, when judged against the eight criteria, all NHS trusts in their area had met these eight criteria and could be assessed as being at least "prepared" to respond to major incidents.

Market Research

Mr. Lansley: To ask the Secretary of State for Health how much his Department spent on *(a)* opinion polling and *(b)* focus groups in each year since 2001. [185868]

Ms Rosie Winterton: A list of the Department's expenditure incurred on opinion polls and focus groups in each year since 2001 can only be provided at disproportionate cost.

Medical Trainees (Electives)

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 6 July 2004, *Official Report*, column 613W, on medical trainees (electives), what the total cost in England was of sending undergraduate medical students on electives in 2003–04; and if he will make a statement. [184207]

Mr. Hutton: There is no cost to the national health service where undergraduate medical students decide to go abroad to gain experience as part of their training.

Individual university medical schools determine their own undergraduate medical curriculum in the light of recommendations from the General Medical Council's education committee, which has the statutory responsibility to determine the extent, knowledge and skill required for the granting of primary medical

qualifications in the United Kingdom. We welcome any educational experience that adds to a student's knowledge of medicine and broadens his or her experience of, and perspective on, healthcare systems at home and overseas.

Midwifery

Mr. Hunter: To ask the Secretary of State for Health what measures he proposes to take in response to the Independent Midwives Association's proposed model for midwifery, The NHS Community Midwifery Model. [182978]

Dr. Ladyman: I met with representatives of the Independent Midwives Association on 6 May to discuss their proposed model. At the meeting, they agreed to provide me with further information on the acceptability of the model for midwives and users of the maternity service. This is awaited.

In the meantime, the model is being considered as part of the on-going work looking at midwifery recruitment and retention.

Myalgic Encephalomyelitis

Mr. Burstow: To ask the Secretary of State for Health what research into myalgic encephalomyelitis/chronic fatigue syndrome his Department *(a)* is conducting and *(b)* has commissioned since 1997. [184515]

Ms Rosie Winterton: The main agency through which the Government support medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body, funded by the Department of Trade and Industry via the Office of Science and Technology.

The MRC is currently funding two complementary trials into various treatments options for chronic fatigue syndrome/myalgic encephalomyelitis (CFS/ME) that aim to improve quality of life for those who are ill. The Department is meeting part of the cost of the trials. Patient recruitment will start later this year.

The first trial is known as pacing, activity and cognitive behaviour therapy: a randomised evaluation (PACE). PACE will be led by Dr. Peter White at St. Bartholomew's Hospital in London, Dr. Michael Sharpe of the University of Edinburgh and Dr. Trudie Chalder of King's College London.

The second trial, known as fatigue intervention by nurses evaluation (FINE), will test two different treatments that are particularly suited to those who are too ill to attend a specialist clinic. FINE will be headed by Dr. Alison Wearden at the University of Manchester.

The MRC also funded a research project: "The role of Noradrenaline in the Neuropsychological Pathogenesis of the Chronic Fatigue Syndrome", which was completed in 1998.

The Department has separately over the last seven years commissioned a number of small scale research projects related to aspects of CFS/ME and, through the national health service research and development programme, is funding: "Cognitive Behavioural Therapy in Chronic Fatigue Syndrome: A Randomised Controlled Trial of an Out-patient Group Programme."

NHS E-mail

Mr. Allan: To ask the Secretary of State for Health what estimate he has made of the cost of reaching a settlement with EDS in respect of the cancelled contract for NHS e-mail and directory services. [185067]

Mr. Hutton *[holding answer 19 July 2004]:* The National Health Service Information Authority (NHSIA) has reached a settlement with Electronic Data Services Corporation (EDS), following mediation, without admission of liability on either side. The terms provide for the payment by the NHSIA of outstanding invoices. They further provide that should EDS make redundancies as a consequence of the change of service provider, the NHSIA will indemnify the actual costs incurred. The NHSIA will also make payments in respect of costs relating to the conclusion of the project. Further details of the settlement are covered by a legally-binding confidentiality agreement.

The exact costs are not yet known, but will be clarified when the contract ends in October.

NHS Staff

Mr. Wiggin: To ask the Secretary of State for Health how many *(a)* clinical and *(b)* non-clinical staff are employed by the national health service; and what plans he has to change the numbers. [184043]

Mr. Hutton: Information on the number of clinical and non-clinical staff employed by the national health service is shown in the table.

The Government expects that, within the clinical staff group, over a 2001 baseline, there will be increases of 15,000 general practitioners (GPs) and consultants, 35,000 nurses and midwives and 30,000 therapists and scientists by 2008. The nursing and midwifery forecast has already been achieved and significant progress has been made towards the others, as at September 2003, there were 35,978 more nurses and midwives, 5,231 more GPs and consultants and 11,825 more therapists and scientists than in September 2001.

NHS hospital and community health services (HCHS): Total employed staff by clinical [1] and non-clinical [2] staff in England as at 30 September 2003

	Headcount
Total employed staff (HCHS)	1,144,697
Clinical staff [1]	886,839
Qualified clinical staff	583,566
Other clinical staff	303,273
Non-clinical staff [2]	257,858

[1] Clinical staff consists of HCHS medical and dental staff (excluding locums), ambulance staff, nursing, midwifery and health visiting staff, scientific, therapeutic and technical staff and health care assistants and other support staff.

[2] Non-clinical staff consists of administration and estates staff and other non-medical staff and those with unknown classification.

Note:

All figures in this table exclude GP and GP practice staff.

Source:

Department of Health Non-Medical Workforce Census
Department of Health Medical and Dental Workforce Census

NHS Funding

Tim Loughton: To ask the Secretary of State for Health how much funding the NHS received in 2003–04. [185517]

Mr. Hutton: Total net expenditure in the national health service in England, in 2003–04, is estimated to be £63.7 billion. Outturn figures will be available in the autumn.

NHS Statistics (London)

Simon Hughes: To ask the Secretary of State for Health how many NHS beds were available in Greater London, broken down by national health service trust, in each year since 1997; and if he will make a statement. [179395]

Mr. Hutton: The national health service is treating patients in better more efficient ways, for example the proportion of finished admission episodes at London NHS providers classified as day cases (where patients are admitted to hospital for a planned surgical procedure, returning home on the same day) increased from 28.8 per cent. in 1997–98 to 31.8 per cent. in 2002–03. Over the same period the total number of finished admission episodes increase by 15.6 per cent. to 1,639,915.

We have also increased capacity outside of hospitals with the introduction of 10 NHS treatment centres in London. Treatment centres separate elective care from emergency care so that it is not disrupted and between April 2003 and May this year, 65,000 patients received treatment in this way.

To make healthcare more convenient for patients, the NHS is increasingly offering services in primary care or in outpatient departments, without the need for a hospital admission. With more staff, more facilities and new ways of working, more patients are being treated in primary care.

The information requested on NHS beds has been placed in the Library.

NHS Non-clinical Staff (Research)

Mr. Wiggin: To ask the Secretary of State for Health what research his Department has *(a)* commissioned and *(b)* evaluated regarding the role of non-clinical staff in the national health service. [184045]

Mr. Hutton: The Department has commissioned a range of research projects on the national health service workforce, including on ward staffing, training, pay and human resource management and staff involvement, which has included in its scope staff in non-clinical roles. Full details of these and other policy research programme projects are on the Department website at http://www.dh.gov.uk/PolicyAndGuidance/ResearchAndDevelopment/PolicyResearchProgramme/fs/en

Non-departmental Public Bodies

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many non-departmental public bodies for which his Department is responsible have been *(a)* established and *(b)* abolished since 1997. [182940]

Ms Rosie Winterton: Since 1997, the Department has established 32 and abolished 25 executive, advisory and tribunal non-departmental public bodies.

Oral Health

Mr. Wiggin: To ask the Secretary of State for Health how the oral health of UK citizens is measured. [185177]

Ms Rosie Winterton: National surveys of the oral health of adult citizens in England and Wales have been carried out since 1968 and across the United Kingdom since 1978 and have been undertaken on a 10 year basis since then.

National surveys of child dental health in the UK commenced in 1973 and have also been undertaken on a 10 year basis. The initial results of the most recent survey in 2003 were published by the Office for National Statistics on 30 June 2004.

Out-of-hours Care

Mr. Burstow: To ask the Secretary of State for Health what mechanisms are in place to ensure that people are receiving high quality, safe services from private providers of out-of-hours primary care services; and if he will make a statement. [184103]

Mr. Hutton: In England, all organised providers of out of hours services, including private providers, must meet the national quality standards, which ensure that patients receive the highest quality care. Primary care trusts (PCTs) have a legal responsibility to provide an out-of-hours service for their patients, which meets the national quality standards.

PCTs will monitor their providers in the delivery of their services in the management of their contracts, to ensure they meet the standards, and the strategic health authorities in turn will performance manage the PCTs in delivering these services.

Pharmaceutical Services

Mr. Boswell: To ask the Secretary of State for Health what arrangements he has made to align out-of-hours pharmaceutical services with the new arrangements for general practitioner services. [185780]

Ms Rosie Winterton: Pharmacy opening hours are being discussed as part of the new community pharmacy contractual framework negotiations. Discussions are on-going.

Primary Care Trust Mergers

Mr. Chidgey: To ask the Secretary of State for Health what his policy is regarding the maintenance of independent decision-making for each component trust where the managements of adjacent primary care trusts that were previously autonomous are merged. [185979]

Mr. Hutton: There is no national policy regarding the maintenance of independent decision-making for each component trust where the management arrangements of adjacent primary care trusts (PCTs) are shared.

This is a local issue, for consideration by PCTs and to be supported by their respective strategic health authorities.

Private Sector Operations

Geraint Davies: To ask the Secretary of State for Health what his estimate is of the annual cost to the NHS of contributing towards the cost of all those opting for private sector operations at a rate of 50 per cent. of the NHS cost for the equivalent operation. [181145]

Mr. Hutton *[holding answer 29 June 2004]*: The estimated cost to the Exchequer is about £1 billion per year.

Public Bodies (Staffing)

Mr. Lansley: To ask the Secretary of State for Health (1) how many staff are employed by *(a)* the Independent Regulator of Foundation Trusts and *(b)* the Modernisation Agency; and what the budget of each is for this financial year; [175320]

(2) how many staff are employed by *(a)* the Mental Health Act Commission, *(b)* the Human Fertilisation and Embryology Authority, *(c)* the National Biological Standards Board, *(d)* the Family Health Services Appeal Authority, *(e)* the Commission for Patient and Public Involvement in Health, *(f)* the National Radiological Protection Board and *(g)* the Public Health Laboratory Service; and what the budget is of each for this financial year; [175323]

(3) how many staff are employed by *(a)* the Healthcare Commission, *(b)* the Commission for Social Care Inspection, *(c)* the Medicines and Healthcare Products Regulatory Agency, *(d)* NHS Estates, *(e)* the NHS Purchasing and Supply Agency, *(f)* NHSU and *(g)* the NHS Counter Fraud and Security Management Service; and what the budget of each is for this financial year. [175324]

(4) how many staff are employed by *(a)* the NHS Pensions Agency, *(b)* NHS Professionals, *(c)* the Microbiological Research Authority, *(d)* the Council for the Regulation of Health Care Professionals, *(e)* the Postgraduate Medical Education and Training Board, *(f)* the National Joint Registry and *(g)* NHS Direct; and what the budget of each is for this financial year; [175321]

(5) how many staff are employed by *(a)* the Health Development Agency, *(b)* the NHS Information Authority, *(c)* the General Social Care Council, *(d)* the NHS Litigation Authority, *(e)* the NHS Logistics Authority, *(f)* the Dental Practice Board, *(g)* the National Patient Safety Agency, *(h)* UK Transplant and *(i)* the National Institute for Clinical Excellence; and what the budget of each is for this financial year; [175322]

(6) how many staff are employed by *(a)* the Dental Vocational Training Authority, *(b)* the NHS Appointments Commission, *(c)* the Health Protection Agency, *(d)* the National Clinical Assessment Authority, *(e)* the National Blood Authority, *(f)* the National Treatment Agency, *(g)* the Prescription Pricing Authority and *(h)* the National Prescribing Centre; and what the budget of each is for this financial year. [175325]

Ms Rosie Winterton: The information requested is shown in the table.

Body	*Number of staff*[1]	*Budget for 2004–05 (£ million)*
Dental Vocational Training Authority	4	0.26
NHS Appointments Commission	46	3.56
Health Protection Agency	2,518	195.7
National Clinical Assessment Authority	71	10.2
National Blood Authority	5,916	53.27
National Treatment Agency	79	3.97
Prescription Pricing Authority	2,919	68.00
National Prescribing Centre	25	1.56
Independent Regulator of NHS Foundation Trusts	28	5
Modernisation Agency	765	161
NHS Pensions Agency	277	22.66
NHS Professionals	671	27.5
Microbiological Research Authority	[2]—	[2]—
Council for the Regulation of Health Care Professionals	3	2.0
Postgraduate Medical Education and Training Board	27	1.83
National Joint Registry	29	2.19
NHS Direct	2,000	131
Health Development Agency	132	12.10
NHS Information Authority	918	217.6
General Social Care Council	146	13.18
NHS Litigation Authority	182	11.146
NHS Logistics Authority	1,377	709.2
Dental Practice Board	325	24.7
National Patient Safety Agency	149	[3]14.67
UK Transplant	121	13.8
National Institute for Clinical Excellence	81	18.14
Mental Health Act Commission	45	4.82
Human Fertilisation and Embryology Authority	106	5.30
National Biological Standards Board	305	24.3
Family Health Services Appeal Authority	13	1.41
Commission for Patient and Public Involvement in Health	150	31.0
National Radiological Protection Board	315	15.9
Public Health Laboratory Service	69	0.350
Healthcare Commission (CHAD	456	71.5
Commission for Social Care Inspection	2,622	147
Medicines and Health Care products Regulatory Agency	747	66.9
NHS Estates	[4]218	19.93
NHS Purchasing and Supply Agency	318	21
(f) NHSU	234	44.6
Counter Fraud and Security Management Service	250	16.37

[1] The number of staff shown is the average in post in 2003–04 as stated in the annual accounts, except for the following bodies, where the number of staff shown is the rounded whole-time equivalent figure as at 31 March 2004:
National Prescribing Centre
NHS Professionals
Postgraduate Medical Education and Training Board
NHS Direct
Health Fertilisation and Embryology Authority
National Biological Standards Board
Public Health Laboratory Service
Healthcare Commission
Commission for Healthcare Inspection
NHSU
Independent regulator of NHS Foundation Trusts
NHS Modernisation Agency

[2] The Authority was subsumed into the Health Protection Agency on 1 April 2003.

[3] National Patient Safety Agency will receive an additional proportional contribution from the National Assembly for Wales according to the Barnett formula.

[4] The staff figure for NHS Estates does not include the 2004 Inventures staff.

Qualifications (Mutual Recognition)

Mr. Baron: To ask the Secretary of State for Health whether in the negotiations on a separate directive on mutual recognition of qualifications, safeguards will be adopted to ensure that regulated health professionals will be covered by processes designed to protect public safety. [183936]

Mr. Hutton *[holding answer 13 July 2004]:* Yes. The text of the draft, as agreed by the Council, largely consolidates the existing directives which already include safeguards for those professions which benefit from automatic recognition: the current draft includes specific safeguards on service provision for professions having public health or safety implications.

Residential Care (Visually Impaired)

Mr. David Atkinson: To ask the Secretary of State for Health what obligations there are on social services authorities in relation to provision of residential care for the visually impaired; and if he will make a statement. [185139]

Dr. Ladyman: Social services departments are required to assess the needs of adults in accordance with the principles set out in Fair Access to Care Services, effective from 7 April 2003. Those eligible for care, including those who may have a sensory impairment, should receive care appropriate to their assessed needs in an appropriate setting. Except where an individual has complex or multiple needs, those with sensory impairments will often receive services in their own home.

Schizophrenia

Ann Winterton: To ask the Secretary of State for Health how many people have been diagnosed with schizophrenia in England in each of the last 30 years for which figures are available. [184427]

Ms Rosie Winterton: Information on the number of people diagnosed with schizophrenia in England in each of the last 30 years is not available. Figures are, however, available on the number of finished consultant episodes with a primary diagnosis of schizophrenic psychoses for the years 1995–96 to 2002–03, and are provided in the table.

	Number
1995–96	35,960
1996–97	35,500
1997–98	35,820
1998–99	36,920
1999–2000	36,420
2000–01	36,460
2001–02	30,080
2002–03	30,250

Hospital Episode Statistics.

Seroxat

Janet Anderson: To ask the Secretary of State for Health what advice he has received about the prescribing of Seroxat to people in the 18 to 29 years age group. [184292]

Ms Rosie Winterton: In May 2003, the Government's independent scientific advisory committee, the Committee on Safety of Medicines (CSM), established an expert working group on the safety of Selective Serotonin Reuptake Inhibitors (SSRIs) because of continuing concerns about withdrawal reactions and possible suicidal behaviour associated with these products. The expert working group is still considering evidence regarding the safety of all SSRIs (including paroxetine). The group is expected to report on its findings later this year, and its report will be made available to the public with copies placed in the Library.

In June 2003, the CSM considered newly received clinical trial data for paroxetine in children and adolescents and, on the basis of these data and advised that paroxetine should not be used in patients under 18 years of age in the treatment of major depressive illness, because of evidence of an increased risk of suicidal behaviour and a lack of efficacy in this population group. This advice was communicated to prescribers and patients in June 2003 and again in December 2003.

In March 2004, the CSM issued advice to remind prescribes of the recommended starting and daily doses of paroxetine, as stated in the summary of product characteristics for this medicine.

A Europe wide review of the risks and benefits of paroxetine has also been undertaken by European Committee for Proprietary Medicinal Products (CPMP), with the United Kingdom in the lead. This review included an assessment of whether some young adults as well as those in the under 18 patient group may have an increased risk of suicidal behaviour when using this drug. No strong evidence has been found to support an increased risk and the CSM and the CPMP have advised that the balance of risks and benefits for paroxetine in the treatment of major depressive illness and anxiety disorders in patients of 18 years or older is favourable.

The CPMP has recommended that patients at high baseline risk of suicidal behaviour should be closely monitored during treatment with paroxetine. These include patients with a known history of suicidal behaviour or thoughts prior to starting treatment, and possibly young adults as a patient group. In April, a summary of the opinion of the CPMP referring to the need for monitoring during paroxetine treatment of patients at risk of suicidal behaviour, including those with a history of suicidal behaviour and young adults was released by both the European Medicines Agency and the UK Medicines and Healthcare products Regulatory Agency (MHRA).

The CPMP review and recommendations are now being considered by the European Commission, with final decisions expected in the near future. When decisions have been reached by the Commission, a review of the evidence will be made public. If necessary, the product information for prescribers and patients will be updated and communicated, with details harmonised across the European Union.

The MHRA emphasises that the patient information leaflet for Seroxat currently advises that symptoms of depression, including suicidal behaviour, may increase in the first few weeks of treatment and that patients should seek urgent medical attention if they have any distressing thoughts or experiences during this initial period or at any other time.

St. Helens and Knowsley Hospital Trust

Mr. Watts: To ask the Secretary of State for Health what major capital projects have taken place in St. Helens since 1994; and what projects are planned over the next two years. [184620]

Miss Melanie Johnson: The information requested has been placed in the Library.

Strategic Health Authority Spending

Mr. Cameron: To ask the Secretary of State for Health what the spending per head of population was in each strategic health authority in the last year for which figures are available. [186000]

Mr. Hutton: Information for 2002–03, the latest year available, is available in the Library.

Thimerosal

Mr. Burstow: To ask the Secretary of State for Health what evidence has been presented to his Department concerning health risks in relation to thimerosal. [184097]

Ms Rosie Winterton: The only vaccine currently used in the United Kingdom routine childhood immunisation programme that contains a mercury compound is the diphtheria, tetanus and whole cell pertussis (DTwP) vaccine which is given combined with haemophilus influenzae type B vaccine. The mercury is present as ethylmercury in the excipient thiomersal (also known as thimerosal). As with all medicinal products, vaccine safety is continually monitored by the Medicines and Healthcare products Regulatory Agency (MHRA) with advice from the independent expert advisory body, the Committee on Safety of Medicines (CSM). The MHRA and CSM have thoroughly reviewed the safety of mercury-containing vaccines, including alleged links with neurodevelopmental disorders, on a number of occasions.

In 2001, the CSM conducted a major review of the available evidence and has since then considered new data as it has emerged. In 2003, following a review of further studies, including two UK studies involving more than 100,000 children, CSM advice was placed on the MHRA website at http://medicines.mhra.gov.uk. Further studies from Denmark involving almost half a million children and a study from the United States have also specifically investigated the suggested link between mercury-containing vaccines and autism. None of these studies have found any evidence of a causal association with autism.

On the basis of the available data, the CSM's advice remains that there is no evidence of harm from the very small quantities of thiomersal contained in some vaccines, with the exception of possible hypersensitivity reactions (typically skin rashes or local swelling at the site of injection). This view concurs with that of the World Health Organisation, the United States Institute of Medicine and the European Medicines Agency (EMEA).

There is a global goal to minimise environmental exposure to mercury compounds. In line with this and despite the strong evidence supporting the safety of thiomersal in vaccines, the EMEA continues to promote the development of vaccines without thiomersal or with the lowest possible levels of thiomersal. However, the EMEA acknowledges that during some manufacturing processes, the use of mercury compounds is necessary and in such cases, residual levels might be present in the final vaccine product.

Traffic Offences (Ambulances)

Mr. Wood: To ask the Secretary of State for Health when new regulations relating to fines for speeding and red light offences for ambulance drivers will take effect; and whether they will apply to *(a)* all vehicles used by the ambulance service, including unmarked cars and motorcycles, *(b)* private ambulance drivers, *(c)* vehicles carrying donor organs for transplant, *(d)* vehicles transporting surgical teams for transplant operations and *(e)* journeys that are not initiated by a 999 call. [184792]

Ms Rosie Winterton: The new protocol issued by the Association for Chief Police Officers for dealing with speeding and red light offences committed by emergency service vehicles, took effect from 1 July 2004. The new protocol states that if an emergency service vehicle is caught speeding or going through a red light by a safety camera, a notice of intended prosecution will not be sent to the offending organisation if blue lights can be seen flashing on the photograph.

The protocol also states that if blue lights cannot be seen flashing, the police will send the normal section 172 form and a Notice of Intended Prosecution, together with a standard exemption form.

The protocol applies to all marked emergency ambulance vehicles being used for ambulance purposes.

The protocol only applies to emergency service vehicles.

If the vehicle transporting the organ is a marked emergency ambulance vehicle, the protocol covers such journeys.

If the vehicle transporting the surgical team is a marked emergency ambulance vehicle, the protocol covers such journeys.

The protocol applies to every ambulance journey undertaken by a marked emergency ambulance vehicle as defined in *(a)* above.

Trainee Doctors

Tim Loughton: To ask the Secretary of State for Health what funding has been available in each of the last seven years for part-time trainee doctors; and what has been budgeted for the future. [185406]

Mr. Hutton: The funding of medical training salary costs is resourced through a central overall funding allocation that makes no distinction between full-time and part-time trainees. The distribution of funding between full-time and part-time training at local level is the responsibility of the respective strategic health authorities (SHAs). No figures are held centrally for the local breakdown of resources; the total funding provided to SHAs in 2004–05 was £3.8 billion.

In addition and to support the introduction of the new contract, funding of £7 million in each of the years 2002–03 and 2003–04 was exceptionally provided to support the salary costs of part-time trainees. This was during a short period when new pay rates for full-time trainees were being progressively introduced and new part-time salaries, introduced in full in one step, were high by comparison; this is no longer the case.

Training Hospitals

Tim Loughton: To ask the Secretary of State for Health what percentage of UK hospitals are training hospitals. [185405]

Mr. Hutton: There are no defined criteria, functions or facilities required for any national health service hospital to describe itself as a training hospital. However, all NHS employer organisations are expected to be effective learning organisations that embrace lifelong learning for their staff.

Travel Costs

Dr. Cable: To ask the Secretary of State for Health what the travel costs were of civil servants in *(a)* his Department and *(b)* its related agencies in each year since 1997. [183902]

Ms Rosie Winterton: Expenditure on travel and subsistence by the Department and Agencies has been as follows:

£000

Department		*NHS Purchasing and Supply Agency*	*NHS Pensions*	*NHS Estates*	*Medicines and Healthcare products Regulatory Agency*	*Medicines Control Agency*	*Medical Devices Agency*
1997–98	6,592	—	47	422	—	536	241
1998–99	5,814	—	48	689	—	577	208
1999–00	7,080	—	53	1,129	—	872	271
2000–01	7,295	524	67	1,477	—	674	171
2001–02	7,972	579	72	1,343	—	704	177
2002–03	7,607	635	46	1,510	—	711	161
2003–04	8,211	662	54	1,496	978	—	219

Treatment Abroad (NHS Scheme)

Mr. Wiggin: To ask the Secretary of State for Health how many people have taken up the option of treatment abroad under the NHS scheme; and what criteria are used to decide to which patients such treatment should be offered. [184039]

Mr. Hutton: From January 2002 to the end of June 2004, 879 patients have been treated overseas on the National Health Service.

Primary care trusts (PCTs) are responsible for commissioning overseas treatment for NHS patients. Individual PCTs work with their local acute trusts to determine the criteria used to identify those patients suitable for treatment abroad. As a general rule, acute trusts have selected patients for treatment overseas who have been waiting a long time for simple elective procedures such as knee and hip replacements, hernia and cataract procedures. These patients' diagnoses, medical conditions, fitness and willingness to travel and be treated overseas will then be taken into account to determine which patients will benefit most from this treatment in Europe.

Triage

Alan Simpson: To ask the Secretary of State for Health what National Emergency Medical Services' triage practice is; and what its relationship is with NHS Direct nurse-led services. [184971]

Mr. Hutton: Nottingham Emergency Medical Services (NEMS) has been integrated with NHS Direct since 1998. NEMS is developing additional capacity with NHS Direct to support local out-of-hours care and to extend the range of coverage of this model to 100 per cent. of the Nottingham population in October. NEMS currently provides care for 80 per cent. and the remainder of Nottingham practices use the Sheffield and Birmingham based triage services of Primecare, a national commercial deputising service.

Since 2001, NEMS has been an out-of-hours exemplar site, with clinical integration of NHS Direct and the out-of-hours service. NEMS triage will continue to be that recommended by the review of general practitioners (GP) out-of-hours services in 2000, of using NHS Direct nurse assessment, followed by contact with a GP or other health professional, as required.

Waiting Times (Bury, North)

Mr. Chaytor: To ask the Secretary of State for Health if he will list, for each of the last 10 years, the total number of patients in the Bury, North constituency, or the nearest relevant unit of population, waiting for NHS operations for longer than *(a)* 18 months, *(b)* 15 months, *(c)* 12 months, *(d)* nine months and *(e)* six months. [185251]

Miss Melanie Johnson: The information requested is only available from 1995–96 onwards and is shown in the table.

TRANSPORT

Anti-terrorism Awareness

Patrick Mercer: To ask the Secretary of State for Transport (1) what measures his Department has put in place to offer financial assistance to *(a)* sea freight and *(b)* air freight companies to help improve anti-terrorism awareness; [184591]

(2) what measures his Department has put in place to offer training to *(a)* shipping freight and *(b)* air freight companies in anti-terrorism awareness. [184592]

Mr. Jamieson: It has long been central to UK transport policy that users should pay the full costs, including those of security. Organisations delivering training in air cargo security are required to be approved in that role by the Department, and to that end the instructors are required to have attended an air cargo managers course and are then provided with a training

pack setting our the UK National Aviation Security Training Programme, with objectives and teaching points to ensure that the training, when they are accredited, represents a proper understanding of how responsibilities for air cargo security should be discharged.

For shipping freight companies it is part of the Port Facility Security Officer's (PFSO) responsibilities, under the International Ship and Port Security (ISPS) Code, to ensure that appropriate training is conducted by their security staff.

Aviation (External Costs)

Norman Baker: To ask the Secretary of State for Transport what estimate he has made of the external costs associated with aviation, with particular reference to the environmental costs. [184848]

Mr. McNulty: The principal external costs considered in work supporting "The Future of Air Transport" White Paper were environmental costs, the largest of which is the impact of aviation on global emissions. The supporting paper to the White Paper, "Aviation and Global Warming", February 2004, reports—for an additional runway at Stansted followed by an additional runway at Heathrow—a net present value of the cost of associated global emissions to lie between £3.3 billion and £5.2 billion.

Bus Services

Dr. Strang: To ask the Secretary of State for Transport what the cost to each local authority in England arising from the tendering of local bus services was in each of the last five years. [185822]

Dr. Howells: The table shows expenditure on support for local bus services by local transport authorities London between 1998–99 and 2002–03, the last year for which figures are available.

n/a = figures not available

These data have been taken from local authority and Passenger Transport Authority administrative returns. In addition to the cost of tenders for supported services, the figures include related expenditure on administrative services and some other payments.

Mr. Mole: To ask the Secretary of State for Transport whether he has discussed the competition implications of all bus through ticketing with the Department of Trade and Industry. [185390]

Mr. McNulty: I have discussed the issue of joint bus ticketing with my colleague the Parliamentary Under Secretary of State for Employment Relations, Competition and Consumers. My right hon. Friend the Secretary of State has discussed the matter with the

Chairman of the Office of Fair Trading (OFT), the body which has responsibility for applying competition law to the bus industry. Department for Transport officials hold regular meetings with OFT officials to discuss progress on bus ticketing schemes.

Central Trains

Mr. Luff: To ask the Secretary of State for Transport if he will list the stations in the Central Trains franchise area where selective door-opening of trains is permitted. [185848]

Mr. McNulty: There are five stations in the Central Trains franchise area where selective train door opening is permitted. They are: The Lakes (Warwickshire), Spooner Row, Whittlesea, Waterbeach and Bedworth.

Departmental Consultants

Andrew Selous: To ask the Secretary of State for Transport how much his Department spent on *(a)* headhunters and recruitment consultants and *(b)* management consultants in (i) 1996–97 and (ii) the latest year for which figures are available. [185246]

Mr. McNulty *[holding answer 21 July 2004]*: The Department was formed in May 2002. The Department spent £58.5 million in 2003–04 on all types of consultancy excluding research. Separate figures for management consultancy are not held centrally and could only be provided at disproportionate cost. The Department spent £1.7 million in 2003–04 on recruitment consultants.

Andrew Selous: To ask the Secretary of State for Transport how much was spent by his Department on public relations consultants in *(a)* 1996–97 and *(b)* the latest year for which figures are available. [185247]

Mr. McNulty *[holding answer 21 July 2004]*: Expenditure figures for the financial years are set out as follows. The majority of costs for public relations consultants were devoted to the THINK! road safety campaign and sustainable travel.

In the 2003–04 financial year the Department for Transport spent £347,666.56 on public relations consultants.

Identifying any public relations consultants' costs for the old Department of Transport in 1996–97 could be done only at disproportionate cost.

Cycling

Mr. Simmonds: To ask the Secretary of State for Transport how many cycle routes there are in England; and what plans his Department has to improve safety for cyclists. [182169]

Dr. Howells: Cycle routes are in the main the responsibility of local highway authorities. A cycle route will often consist of a variety of linked highways such as dedicated cycle tracks, cycle lanes on the carriageway and the use of roads designated as suitable for cycle routes. Sustrans, the Transport charity, predict that the National Cycle Network will consist of 10,000 miles by the end of 2005. In addition local authorities forecast building over 6,000 miles of new cycle lanes and cycle tracks over between 2001–02 and 2005–06.

We have a safer cycling programme, which is a package of measures including improved infrastructure—better cycle routes, off road cycle tracks, cycle lanes, advance stop lines, toucan crossings etc., better driving standards by improving training and testing for motorists, and publicity aimed both at drivers and cyclists. It also covers the promotion of measures which cyclists can take to protect themselves, such as taking cycle training, making themselves conspicuous and wearing a cycle helmet.

We have also recently published an "Action Plan for Walking and Cycling", which sets out more than 40 actions from across Government to make cycling and walking easier, safer and more attractive, enabling people to get around more by foot and by bicycle. One of the actions will be to fund new sections of the National Cycle Network to link with existing safe cycling and walking routes to schools.

Miss McIntosh: To ask the Secretary of State for Transport how many footpaths and footways had their status formally changed in each of the past three years in order to allow cyclists to use them legally. [181684]

Dr. Howells: The conversion of footways (the pavement) under the Highways Act 1980 is a local highway authority function in which the Secretary of State has no formal role. We therefore have no details of the number of footway conversions.

Powers are available in the Cycle Tracks Act 1984 to enable local highway authorities to convert footpaths (as opposed to pavements) to cycle tracks. Only orders which are opposed by any party are referred to the Secretary of State for confirmation. Details of this subset of cases referred to the Secretary of State in each of the last three years and to date in 2004 are set out in the following table:

	2001	*2002*	*2003*	*2004*
Cycle track orders confirmed	4	5	1	2
Cycle track orders not confirmed	2	1	2	0
Awaiting determination	3	2	2	3
Total	9	8	5	5

Miss McIntosh: To ask the Secretary of State for Transport pursuant to his Answer of 16 June 2004, *Official Report*, columns 934–5W, (1) on pedestrian/cyclist accidents, what assessment he has made of *(a)* the problems caused by cyclists using footpaths to access destinations adequately served by cycle paths and roads and *(b)* the reasons cyclists do this; [181685]

(2) if he will commission research into *(a)* the implications of allowing cyclists to use footpaths and pavements and *(b)* the effects on older people of cyclists using footpaths and pavements. [181681]

Dr. Howells: The Department has not carried out any formal assessment of the problems caused by cyclists cycling illegally on footpaths and footways (the pavement) and we have no plans to commission specific research into the subject. We are however aware from our post bag that many pedestrians, particularly elderly and disabled people are concerned at the danger and inconvenience caused by cyclists who cycle illegally on footpaths and pavements.

While we do not condone it, we believe that some cyclists cycle on the pavement because they feel safer there than cycling on heavily trafficked roads. We hope that as facilities for cyclists and cyclist training improve, cyclists will feel safer on the road and that the number of cyclists using footpaths and footways illegally will reduce.

Local Transport Note 2/86 (Stationery Office) concerns Shared Use by Cyclists and Pedestrians. This advises local highway authorities that such shared use facilities are not a general or area-wide remedy to cycle safety problems but should be confined to specific links in cycle routes and quiet footways along heavily trafficked roads. The guidance also advises that shared use may be unacceptable if significant use is made of a pedestrian facility by disabled, blind or partially sighted or elderly people.

Departmental Accountancy Practice

Mr. Bacon: To ask the Secretary of State for Transport who the Finance Director of *(a)* the Department and *(b)* the Office of the Rail Regulator is; what accountancy qualifications each Director holds; and on how many occasions there has been a qualified opinion on (i) the resource accounts and (ii) other accounts of each in the last five years. [183420]

Mr. McNulty: The Finance Director of the Department for Transport is Mr. Ken Beeton. He is a Fellow of the Institute of Chartered Accountants. There have been no occasions on which DfT accounts have been qualified.

The Executive Director who had responsibility for finance for the Office of the Rail Regulator was Mr. Keith Webb. Responsibility for this appointment rested with the Rail Regulator. Mr. Webb did not hold an accountancy qualification. However, in line with Government Accounting, a senior manager who was a qualified accountant with 15 years post qualification experience, supported the Director and provided the appropriate level of financial advice. The new Office of Rail Regulation, which was established on 5 July 2004, will appoint a Finance Director. It does, however, have a Non-Executive Board member with responsibility for finance who is Mr. Peter Bucks.

Since April 1999, the accounts of the Office of the Rail Regulator have been qualified once. The Resource Accounts-for financial year 2002–03 were qualified. The qualification related to resource expenditure of £0.4 million in excess of the amount authorised for the Request for Resources. The cause of the excess was additional consultancy expenditure incurred on the interim review of Network Rail Access Charges not being forecast in time to secure a supplementary estimate.

Departmental Administration Costs

Mr. Letwin: To ask the Secretary of State for Transport what the total administration costs were in his Department in financial years *(a)* 1996–97 and *(b)* 1997–98. [186078]

Mr. McNulty: Details of gross running costs for 1996–97 and 1997–98 for the former Department of the Environment, Transport and the Regions are contained in Table 5.5 of Public Expenditure Statistical Analyses 2000–01 (Cm 4601). These figures are on a cash basis. From Public Expenditure Analyses 2001–02 (Cm 5101), Departments' administrative expenditure was reported on a resource basis, as administration costs.

Departmental Air Travel

Mr. Beggs: To ask the Secretary of State for Transport what the total cost of air travel between Northern Ireland and Great Britain was for *(a)* Ministers and *(b)* officials in the Department in the latest year for which figures are available. [184533]

Mr. McNulty: Ministers use a variety of public transport services when undertaking departmental business and all ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers.

The majority of this Department's air tickets are booked through a centrally negotiated travel agency contract. The total cost of travel between Great Britain and Northern Ireland booked through that contract in the financial year 2003–04 was £85,974.

The cost of any bookings outside the contract possibly made in the same period could be obtained only at disproportionate cost.

Departmental Buildings

John Thurso: To ask the Secretary of State for Transport what the total floor space area has been of buildings owned or leased by *(a)* his Department and *(b)* its agencies in each year since 1997. [185727]

Mr. McNulty: The Department for Transport was formed in May 2002 and as a result the information provided relates to the period from then.

No comprehensive figures are available and to obtain them across the estate would involve disproportinate cost. The available estimate we have as at 1 April 2003 is 22,000 m^2 for the central Department and 302,000 m^2 for the agencies.

Andrew Selous: To ask the Secretary of State for Transport what the cost of refurbishments to the fabric of buildings owned by the Department has been since May 1997. [185243]

Mr. McNulty *[holding answer 21 July 2004]*: There have been no refurbishments to any buildings owned by the Department for transport since its inception in May 2002.

Departmental Electricity Use

John Thurso: To ask the Secretary of State for Transport what proportion of electricity used by buildings in *(a)* his Department and *(b)* its agencies has come from renewable sources in each year since 1997. [185724]

Mr. McNulty: The Department for Transport was formed in May 2002, and as a result, the information provided relates to the period from then.

The latest year for which we have information available is 2002–03 when 93 per cent. of the Department for Transport Central and 43 per cent. of its

agencies electrical use came from renewable sources. The information for 2003–04 is still being collected and will be published in due course in the Sustainable Development in Government Report and on the Department's website.

John Thurso: To ask the Secretary of State for Transport how much *(a)* his Department and *(b)* agencies of his Department have spent on electricity use in each year since 1997. [185725]

Mr. McNulty: The Department for Transport was formed in May 2002 and as a result the information provided relates to the period from then.

We do not have full details of spend on electricity across the Department estate but in 2002–03 the information we do have shows spend on electricity of £308,502 for the central Department and £1,554,527 for the agencies. The information for 2003–04 is still being collected.

Departmental Special Advisers

John Thurso: To ask the Secretary of State for Transport what the salary bill was for special advisers in his Department in 2003–04; and what it is expected to be in 2004–05. [180908]

Mr. McNulty: I refer the hon. Member to the answer given today by my right hon. Friend, the Prime Minister, to the hon. Member for St. Helens, North (Dave Watts).

Departmental Staff (Upper Age Limits)

Mr. Andrew Turner: To ask the Secretary of State for Transport whether *(a)* his Department and *(b)* agencies for which it is responsible (i) have a set retirement age which applies to all or most personnel and (ii) have a maximum age beyond which applications for employment will not be considered; and what the age is in each case. [186094]

Mr. McNulty: The normal retirement age for all staff in DfT and its agencies is 60. However, staff outside the Senior Civil Service have a contractual right to work until age 65 if they wish. Staff who opt to work beyond 60 can choose to retire at any time up to their 65th birthday. Beyond those restrictions, there is no maximum age beyond which applications for employment will not be considered.

Departmental Vehicles

Mr. Kidney: To ask the Secretary of State for Transport how many road vehicles are operated by the Department and its agencies; how many personal injury accidents involving road vehicles operated by the Department have occurred within each of the last five years; and what the Department's policy is for managing work-related road safety. [185924]

Mr. Jamieson: The numbers of road vehicles operated by the Department and its agencies are not recorded centrally and neither is the number of personal injury accidents.

The Department's policy for central staff is contained within the Risk Assessment Procedures for Staff Working out of the Office Environment. It includes advice for staff and line managers on vehicle roadworthiness, alcohol/drugs, driver tiredness and illness, mobile phones, weather, driver competence and the availability of driver training. The policy is presently being reviewed and updated.

In the Department's agencies, responsibility for occupational health and safety management arrangements is delegated to agency Chief Executives. The agencies either have their own policy to suit their specific business needs or they follow the central policy.

The Government Car and Despatch Agency will provide an answer covering its ministerial and other vehicles that it provides to Government Departments.

Departmental Water and Sewerage

John Thurso: To ask the Secretary of State for Transport how much *(a)* his Department and *(b)* agencies of his Department have spent on water and sewerage services in each year since 1997. [185726]

Mr. McNulty: No figures are readily available and to obtain them across the estate for some 1,170 properties would involve disproportionate cost.

Driver and Vehicle Licensing Authority

Harry Cohen: To ask the Secretary of State for Transport how many names and addresses of vehicle owners or keepers have been disclosed by the Driver and Vehicle Licensing Authority to third parties by virtue of that party showing reasonable cause for the disclosure over the last 12 months, broken down by category of reasonable cause; in how many cases disclosure has been subsequently shown not to be for a reasonable cause; what action was taken in each case; and if he will make a statement. [185951]

Mr. Jamieson: The DVLA vehicle register is a record of vehicle keepers. It does not contain details of the person who actually owns the vehicle.

The number of 'reasonable cause' enquiries resulting in the disclosure of keeper details for the year 2003/04 is 1,014,309. The majority of requests are from insurance companies and finance houses in respect of insurance claims and vehicle-related loan arrangements. The remainder are from solicitors, car parking enforcement companies and members of the public.

The Information Commissioner has powers under the Data Protection Act to prosecute anyone who knowingly obtains information without consent. Any disclosure subsequently used for a purpose other that stated in the application is referred to the Commissioner to investigate. Two such cases were referred in the past year.

East Coast Main Line

Mr. Amess: To ask the Secretary of State for Transport what the Department's future plans are for the East Coast Main Line. [185417]

Dr. Howells: The current East Coast Main Line franchise is due to expire in April 2005. SRA announced on 7 May that four companies had pre-qualified to bid for the franchise. The franchise replacement process is continuing.

Employment Tribunals

Malcolm Bruce: To ask the Secretary of State for Transport how many cases against his Department and the agencies for which it is responsible have been brought to employment tribunals in each year since 1997 in relation to *(a)* equal pay, *(b)* sex discrimination, *(c)* race discrimination, *(d)* disability discrimination and *(e)* unfair dismissal; how many cost awards were made against (i) respondents and (ii) applicants; and how much has been spent (A) settling and (B) contesting claims. [181465]

Mr. McNulty: The Department was formed in May 2002. The table as follows sets out details of cases brought against the Department since that date and the costs involved in settling the claim(s) outside of the Tribunal along with the legal costs incurred with processing of these claims.

	2002	2003	2004
Number of cases brought in Employment Tribunals claiming			
Equal Pay	0	13	8
Sex Discrimination	2	3	0
Race Discrimination	1	9	3
Disability Discrimination	3	3	2
Unfair Dismissal	7	3	4
Cost Awards made against Respondents (£)	0	0	0
Costs Awards made against Applicant (£)	0	0	1,200
Money spent settling Employment Tribunal Claims (£)	0	0	0
Money spent contesting Employment Tribunal Claims (£)	5,500	20,727	10,000
	61,712.39	113,911.36	33,191.40

Green Minister

Mr. Horam: To ask the Secretary of State for Transport if he will make a statement on the activities of the Green Minister in the Department in financial year 2003–04. [185125]

Mr. McNulty: In my capacity as Green Minister, I have been actively involved in the work of both ENV(G) Cabinet sub-committee and the Sustainable Development Task Force.

In my wider role as Green Minister, I have overseen the publication of the Department's Sustainable Development Policy Statement which was published on the DfT website in March of this year. This outlines how DfT is integrating the principles of sustainable development into decision-making.

I met with a number of stakeholders during 2003–04 to discuss a range of sustainable development issues of mutual concern.

Heathrow Airport

Tom Cox: To ask the Secretary of State for Transport how many flights there were *(a)* into and *(b)* out of Heathrow Airport in each of the last three years. [185344]

Mr. McNulty: In each of the last three years, the total number of flights (of all descriptions) at Heathrow were as follows:

	Arrivals	Departures
2001	231,756	231,799
2002	233,137	233,210
2003	231,721	231,884

Source:
National Air Traffic Services

International Ship and Port Facility Security Code

Patrick Mercer: To ask the Secretary of State for Transport whether he expects that, by 1 July, sufficient UK ports will have radiation detection equipment to satisfy the International Ship and Port Facility Security Code. [184603]

Mr. Jamieson: The majority of UK ports (including all major and high risk ports) handling international shipping are compliant with the Government's mandated ISPS security requirements.

Her Majesty's Customs and Excise are implementing a programme of work to introduce screening equipment at UK ports for detecting the illicit importation of radioactive materials that could be used by terrorists. To date, screening equipment will be in place at a number of major UK ports of entry. This is an on-going programme based on prudent contingency planning which is planned to be complete by March 2007.

Mr. Weir: To ask the Secretary of State for Transport (1) what grants are available from Her Majesty's Government to help small ports in Scotland with the costs of meeting the requirements of the International Ship and Port Facility Security Code; [185856]

(2) what new funds will be available to small Scottish ports to meet the costs of the International Shipping and Port Facility Security Code as a result of the Spending Review. [185857]

Mr. Jamieson: In line with existing transport security regimes in the UK, the costs of implementing the security measures will fall to those the measures are designed to protect, in this case UK ships and ports and the persons and property associated with them.

Mr. Weir: To ask the Secretary of State for Transport (1) what representations he has received from *(a)* the British Ports Authority and *(b)* trust ports in Scotland on the impact of the International Ship and Port Facility Security Code; [185858]

(2) what discussions he has had with the Scottish Executive on the impact of the International Ship and Port Facility Security Code on small Scottish trust ports. [185859]

Mr. Jamieson: The Department has carried out extensive consultation with industry on the implementation of the ISPS Code, including with the British Ports Association and other main industry groups such as the United Kingdom Major Ports Group (UKMPG). This has kept trust ports in Scotland and other ports fully informed.

Mr. Carmichael: To ask the Secretary of State for Transport pursuant to the Answer of 15 July, *Official Report*, column 1276W, on the International Ship and

Port Facility Security Code, which British ports have yet to receive an International Ship and Port Facility Security Code certificate. [185881]

Mr. Jamieson: It would not be appropriate for us to comment on what ports/port facilities may not have received security certificates for security reasons.

Mr. Carmichael: To ask the Secretary of State for Transport (1) pursuant to the answer of 15 July 2004, *Official Report*, column 1276W, on the International Ship and Port Facility Security Code, when all *(a)* UK flagged ships and *(b)* British ports will be in possession of an International Ship and Port Facility Security Code certificate; and why the 1 July deadline for implementation of the code was missed; [185968]

(2) pursuant to the answer of 15 July 2004, *Official Report*, column 1276W, on the International Ship and Port Facility Security Code, what proportion of *(a)* UK flagged ships and *(b)* British ports were in possession of an International Ship and Port Facility Security Code certificate on 1 July. [185969]

Mr. Jamieson: All Ship Security Plans and Port Facility Security Plans received by the deadlines set by my Department's Transport Security Directorate (TRANSEC) were approved by 1 July. On 1 July this represented 95 per cent. of all port facilities including all major and high risk ports, and 99.8 per cent. of all the UK flagged fleet, with the exception of one ship.

Port Facility Security Plans not approved by the 1 July deadline were because of very late submission, or not meeting the required standard and under-going revisions. The Maritime and Coastguard Agency are pursuing the one remaining UK flagged ship awaiting certification to arrange a verification visit.

Some small bulk cargo port facility operations are still submitting plans to TRANSEC. We expect that all remaining plans will be approved within the next few weeks.

Special Advisers

Mr. Evans: To ask the Secretary of State for Transport how many of the reductions in the numbers of civil servants in his Department announced in the comprehensive spending review will be of special advisors. [185464]

Mr. McNulty: I refer the hon. Member to the answer from my right hon. Friend, the Chief Secretary to the Treasury of 19 July 2004, *Official Report*, column 37W.

Ministerial Meetings

Simon Hughes: To ask the Secretary of State for Transport if he will list the official meetings he and his predecessor had with the Mayor of London since July 2000 to discuss transport issues in London, and the dates and subject of each meeting. [172206]

Mr. McNulty *[holding answer 11 May 2004]*: Ministers and officials are in regular contact with the Mayor of London. My right hon. Friend the Secretary of State has met the Mayor on the following occasions, when a range of subjects were discussed:

26 September 2002; and

21 October 2002

My right hon. Friend the Secretary of State's predecessor, the right hon. Member for North Tyneside (Mr Stephen Byers), met the Mayor of London on the following occasions:

10 November 2000;

15 June 2001;

19 July 2001;

10 October 2001; and

12 December 2001.

Mr. Paul Marsden: To ask the Secretary of State for Transport on what dates in the last 12 months he has held meetings with the Mayor of London. [175177]

Mr. McNulty: I refer the hon. Member to the answer I have given to the hon. Member for Southwark and Bermondsey (Simon Hughes) today.

Mr. Davidson: To ask the Secretary of State for Transport when he last met representatives of NUMAST to discuss increasing the job opportunities for British Merchant Navy officers on UK flagged vessels. [184137]

Mr. Jamieson: Ministers and officials meet regularly with representatives of the maritime trade unions, including NUMAST, to discuss issues affecting the UK shipping industry. We are currently considering additional measures to enhance UK seafarer employment opportunities. Our social partners, including NUMAST, have been invited to submit proposals as part of the Government's review of tonnage tax. The possibility of an employment link in tonnage tax is one of the areas under consideration. We will announce our conclusions when all of the representations have been carefully considered.

Olympic Bid

Mr. Wiggin: To ask the Secretary of State for Transport what discussions he has had with Lord Coe regarding transport infrastructure for the 2012 Olympic bid. [184040]

Mr. McNulty: The Secretary of State has discussed the 2012 Olympic bid with Lord Coe. Department for Transport Ministers and officials have met with London 2012 representatives, Transport for London and other key stakeholders to discuss the transport plans for the Olympic bid. The Government are confident that London can and will deliver outstanding transport for the Olympic and Paralympic games.

Policies (Environmental Impact)

Mr. Horam: To ask the Secretary of State for Transport how many new policy proposals or significant changes in policy were produced in *(a)* 2002–03 and *(b)* 2003–04; how many of these were screened for their environmental impacts; and how many were the subject of separate environmental appraisals. [185105]

Mr. McNulty: Our policies for a modern, efficient and sustainable transport system are set out in "The Future of Transport" White Paper, published on 20 July. The White Paper builds on the progress made since the publication of the 10-Year Plan for Transport in July 2000.

All our policies are assessed using an approach that takes account of sustainable development objectives. This builds on our New Approach To Appraisal which takes full account of the environmental impacts of transport projects.

Ports (South-west)

Richard Younger-Ross: To ask the Secretary of State for Transport what progress there has been on an environmental impact study into Teignmouth Harbour. [185794]

Mr. Jamieson: An Environmental Statement on the potential impacts of the Teignmouth Harbour proposals was prepared by the promoters in accordance with the Harbour Works (Environmental Impact Assessment) Regulations 1999 and was considered at the public inquiry held last year into the application for a Harbour Revision Order.

Richard Younger-Ross: To ask the Secretary of State for Transport when he expects the report of the inquiry into the extension to Teignmouth Docks to be published; and if he will make a statement. [185795]

Mr. Jamieson: The Inspector's report of the public inquiry into the proposed extension to Teignmouth Docks is under careful consideration by the Secretary of State as part of the statutory planning process. The report will be published at the same time as the Secretary of State's decision on the proposals.

Richard Younger-Ross: To ask the Secretary of State for Transport what recent studies he has undertaken into the viability of ports in *(a)* Devon and *(b)* Cornwall. [185796]

Mr. Jamieson: My Department has not undertaken any recent studies into the viability of ports in Devon and Cornwall. However, in September 2001 the South West of England Regional Development Agency (SWRDA) published their Regional Gateways Strategy which addressed the potential future roles of gateway ports in the South West region.

Press Officers

Mr. Wiggin: To ask the Secretary of State for Transport how much his Department spent on press officers, broken down by grade, in *(a)* 1996–97 and *(b)* the last year for which figures are available. [185234]

Mr. McNulty *[holding answer 19 July 2004]*: *(a)* I refer the hon. Member to my answer to the hon. Member for Truro and St. Austell (Matthew Taylor) on 26 May 2004, *Official Report*, column 1626W that provided information for the financial year 1996–97.

(b) The salary cost of press officers employed in 2003–04 was £697,000. The average number of staff in post in that year broken down by grade (full time equivalent) is as follows:

2003–04

Pay band/grade	*Number*
Senior Civil Service 1	0.79
7.1 (Grade 6)	0.17
6.1 (Grade 7)	0.83
5.6 (Senior Information Officer)	3.08
4.7 (Information Officer)	8.92
Total	13.8

Private Finance Initiative (Environmental Impact)

John Thurso: To ask the Secretary of State for Transport what steps he is taking to ensure that private finance initiative projects for which his Department is responsible create the minimum of environmental damage. [185721]

Mr. McNulty: Department for Transport projects are evaluated against the Department's "New approach to appraisal" (NATA). NATA provides an integrated approach to appraising environmental, economic and social aspects of transport projects. The same procedures apply to PFI projects, which are also subject to NATA appraisals.

Similarly approved PFI projects have to conform to the relevant planning provisions. The scale and nature of Department for Transport PFIs would usually require the Contracting Authority to prepare an environmental impact assessment on the project.

The Department for Transport has jointly published environmental guidance on PFI projects—"Green Public Private Partnerships"—with ODPM, OGC and DEFRA. The guidance note provides practical assistance on environmental aspects of PFI project development, procurement and management.

John Thurso: To ask the Secretary of State for Transport what assessment his Department has made of *(a)* the sustainability and environmental impacts of private finance initiative (PFI) projects and *(b)* the capacity of the PFI process to deliver environmentally sustainable projects. [185722]

Mr. McNulty: Project design has an important bearing on sustainability and environmental impact. This is reflected in the Department for Transport PFI project appraisal methodology and spending round evaluation criteria.

The "Green Public Private Partnership" guidance note provides practical advice on how the PFI process can be used to deliver environmental benefits. The guidance directs contracting authorities to consider the scope for PFI projects to minimise waste, reduce whole life costs and design flexibility into facilities. The London Underground Power Supply PFI provides a case study of a project designed with tough environmental standards for power station decommissioning and redevelopment, and standards that reduce the level of greenhouse gasses produced.

Quantitative and qualitative assessments of PFI project outcomes will improve, as more projects become operational for a longer time.

John Thurso: To ask the Secretary of State for Transport what plans he has to make private finance initiative contracts more accountable and transparent in terms of environmental sustainability. [185723]

Mr. McNulty: The Department for Transport will consider the accountability and transparency of its PFI programmes when the consultation on new HM Treasury PFI Value for Money guidance has been completed and the guidance issued.

Private Motoring (External Costs)

Norman Baker: To ask the Secretary of State for Transport what recent estimate he has made of the external costs associated with private motoring, with particular reference to the environmental costs. [184847]

Mr. Jamieson: An estimate of the external costs of road use is provided on page 73 of the report to my right hon. Friend the Secretary of State of the Feasibility Study of Road Pricing in the UK (published by my Department on Tuesday 20 July 2004).

Public Highways (Expenditure)

Mr. Wiggin: To ask the Secretary of State for Transport how much the Government have spent on maintaining public highways in each year since 1997. [183791]

Mr. Jamieson: Government expenditure on maintaining motorways and trunk roads in England between 1996–97 and 2002–03 is shown in the following table:

	Expenditure (£ million)
1996–97	550
1997–98	582
1998–99	641
1999–2000	726
2000–01	736
2001–02	711
2002–03	796

Notes:
1. Figures are net totals (i.e. net of allowable receipts) for capital and resource expenditure.
2. 1996–97 to 2000–01 figures are on a cash accounting basis. Subsequent figures are on a resource accounting basis.
3. The figures for 1996–97 to the first quarter of 2000–01 include roads that subsequently transferred to the Greater London Authority.

Since 2000 there has been a substantial detrunking programme in England. Therefore the money the Government have spent during this period has been against a diminishing length of trunk road. Details of the lengths of road detrunked each year will be available in September; copies of the information will be placed in the House of Commons Library.

Local authority expenditure on maintaining local roads in England between 1996–97 and 2002–03 is shown in the following table:

	Expenditure (£ million)
1996–97	1,906
1997–98	1,858
1998–99	1,968
1999–2000	2,072
2000–01	1,802
2001–02	2,048
2002–03	2,094

Notes:
1. Figures are net totals of capital and revenue expenditure.
2. Figures from 2000–01 onwards do not include London.

Highway maintenance expenditure in Northern Ireland, Scotland, Wales and London is a matter for those Devolved Administrations.

Public Relations

Dr. Cable: To ask the Secretary of State for Transport what the salary costs to the Department were for employees working in public relations and publicity in each year since 1997. [183858]

Mr. McNulty: The salary costs of staff employed by DfT(C), since its creation in May 2002, are as follows:

£000

	[1]*2002–03*	*2003–04*
Press Office	510	697
Publicity [2]	459	729

[1] From 28 May 2002. There was a high vacancy rate in this period as a result of the split of what is now DfT from the former Department of Transport Local Government and the Regions.
[2] Advertising and media buying for public information campaigns (e.g. Think! road safety), publishing (e.g. Rail Review), publication and distribution of information leaflets, posters etc.

Information for each of the financial years 1997–98 and 2001–02, when transport policy formed part of the remit of the former Departments' of Environment, Transport and the Regions and Transport, Local Government and the Regions (respectively), is not available in a comparable format.

Public Transport Subsidies

Mr. Wiggin: To ask the Secretary of State for Transport what research his Department has commissioned on the costs of public subsidies to public transport in the last five years. [184038]

Mr. Jamieson: In the last five years the Department has commissioned a number of research projects investigating the costs and benefits of public transport. Projects specifically investigating the effects of public subsidies included:

Monitoring Quality Partnerships (1999–2002)

Croydon Tramlink Impact Study (2000–01)

Evaluating Rural Bus Grant and Rural Bus Challenge (2001–04)

Monitoring Local Bus Tenders (2001–04)

Monitoring effects of extending BSOG to Community Transport (2003–04)

Further information about these and other research projects is available from the Research Database at www.rmd.dft.gov.uk.

Radioactive Materials (Shipment)

Norman Baker: To ask the Secretary of State for Transport pursuant to the answer of 19 May 2004, *Official Report*, column 999W, on radioactive materials, what constitutes a justifiable reason. [182863]

Mr. Jamieson: The use of the word 'justifiable' was intended to make clear that radioactive material being moved without a serious purpose would not be acceptable.

Rail Crossings (Safety Equipment)

Sir John Stanley: To ask the Secretary of State for Transport whether the audio and CCTV safety monitoring equipment installed in relation to the Medhurst Road, Edenbridge rail crossing has been approved by the Health and Safety Executive. [186072]

Dr. Howells: The Health and Safety Executive's (HSE) Railway Inspectorate (HMRI) approved the audio monitoring equipment installed at Medhurst Row, Edenbridge rail crossing. The HSE is not required to approve the CCTV monitoring equipment, which was fitted by Railtrack to gather evidence of level crossing user misuse.

Railways

Mr. Hammond: To ask the Secretary of State for Transport what estimate he has made of the effect on the punctuality performance of train operating companies of extensions of scheduled journey times; and if he will publish figures for punctuality performance for mainline services over the most recent 12 month period re-stated to be measured against pre-Hatfield scheduled journey times. [181548]

Mr. McNulty: Train operators can make timetable adjustments, which may lengthen or reduce journey times, so long as they do not exceed the maximum journey times stated in the Public Sector Requirement (PSR) for each franchise. To re-calculate the performance of services over the last 12 months against historic timetable schedules could be done only at disproportionate costs.

Mrs. Calton: To ask the Secretary of State for Transport (1) how much has been spent on the development of the Global System for Mobile Communications for Railways in each of the last seven years; and what the estimated cost is for each of the next five years; [184437]

(2) what the total cost of the development of the Train Control System was, excluding costs for erection; [184438]

(3) what the cost has been of erecting railway telecommunications masts intended for the Track Control System; [184439]

(4) what proportion of railway telecommunications masts on the West Coast Main Line are operational and supporting an interim voice radio system. [184440]

Mr. McNulty: These are operational matters for Network Rail. I have passed these questions to Network Rail, for them to respond directly to the hon. Member.

John Thurso: To ask the Secretary of State for Transport (1) what discussions he has had with the Strategic Rail Authority on the past and future funding for rail freight through *(a)* the Freight Small Schemes Fund, *(b)* incremental output statements for freight, *(c)* freight facilities grant and *(d)* track access charges. [180742]

(2) if he will list the Strategic Rail Authority Freight Small Schemes Fund schemes *(a)* which have commenced, *(b)* where feasibility studies (i) have been completed and (ii) are continuing, *(c)* which have been placed on hold and *(d)* which have been cancelled, indicating in each case funding from the Strategic Rail Authority, (A) awarded, (B) approved and (C) projected in 2004–05. [180743]

Mr. McNulty: Ministers and officials in the Department meet regularly with the Strategic Rail Authority about a wide range of issues. Details of the Freight Small Schemes Fund are shown in the Strategic Rail Authority's 2002 Strategic Plan. Of those listed Stirling-Alloa-Kincardine, is set to go ahead following approval by the Scottish Executive. Bletchley-Claydon is being developed by the SRA but remains unfunded.

John Thurso: To ask the Secretary of State for Transport if he will list out-of-court settlements to which *(a)* the Department, *(b)* the Strategic Rail Authority and *(c)* other agencies of the Department were party during the last 12 months, broken down by (i) date and (ii) amount; and who the other parties were in each case. [180748]

Mr. McNulty: The Department does not maintain a comprehensive central record of-out of court settlements entered into by itself, its Agencies and the Strategic Rail Authority (SRA). The table sets out payments by three of the Department's Agencies which were made in out of court settlements following the commencement of legal proceedings finalised in the financial year 2003–04. Disproportionate costs would be incurred in identifying generally ex gratia and other settlement payments. However, maladministration claims against the Maritime and Coastguard Agency have been settled for a total of around £0.5 million, including one case finalised at the very beginning of the current financial year. These claims followed on from a ruling by the Parliamentary Commissioner for Administration in an earlier similar case that there had been maladministration in the carrying out of certain statutory functions relating to the safety of vessels.

Full details of the names of the parties and the circumstances of the cases have not been disclosed as this could be in breach of confidentiality either formally agreed with, or reasonably expected by, the other party. It would be disproportionately expensive to review each case to confirm the position and/or to write to the parties concerned to seek their consent to any disclosure.

The SRA was party to one out of court settlement in 2003–04 but the terms of the settlement expressly prohibit the parties from disclosing any details including the date, parties or amount of the settlement sum.

Type of case	*Amount Settled (£)*
Driver and Vehicle Licensing Agency	
One compensation and six personal injury cases (Total)	31,508
Vehicle and Operator Services Agency	
Refund of a Single Vehicle Approval fee	80
Highways Agency	
Four claims by third parties relating to property	

Type of case	Amount Settled (£)
damage and personal injury on the trunk road network (Total)	172,148

For information on cases brought to Employment Tribunals, I refer to the answer I gave to the hon. Member for Gordon (Mr. Bruce) today (UIN ref 181465).

No non-employment based, out of court settlements following the commencement of legal proceedings are recorded for the central Department in the financial year 2003–04.

John Thurso: To ask the Secretary of State for Transport if he will place in the Library a copy of the W. S. Atkins report for the Strategic Rail Authority on a North/South rail line with all commercially sensitive information removed. [180821]

Dr. Howells: I have asked the SRA to arrange for a revised text to be produced on this basis, and, once it is available I will place a copy in the Libraries of the House.

Rescue Co-ordination Centres

Mr. Alan Reid: To ask the Secretary of State for Transport how many *(a)* incidents, *(b)* accidents and *(c)* deaths occurred within the areas covered by each of the former rescue co-ordination centres at (i) Oban, (ii) Pentland and (iii) Tyne Tees in each year since 1998. [185855]

Mr. Jamieson: The information requested is as follows:

	1998	1999	2000	2001	2002	2003
Incidents						
Oban	286	281	205	310	240	297
Pentland	111	106	110	180	192	153
Tyne Tees	443	473	342	492	448	441
Accidents						
Oban	241	230	159	245	209	231
Pentland	77	68	67	117	105	107
Tyne Tees	274	232	259	328	287	307
Deaths						
Oban	10	14	7	11	10	9
Pentland	4	4	3	5	1	3
Tyne Tees	16	12	6	11	6	10

Road Improvement Costs

Mrs. May: To ask the Secretary of State for Transport what the estimated cost is of the items in the programme of road improvements set out in Appendix 6 of the Highways Agency Business Plan which are dependent on the outcome of the Spending Review 2004. [176071]

Mr. Jamieson: The current estimated costs of the schemes referred to are:

	£ million
A249 Iwade-Queenborough Improvement	81
A5 Weeford—Fazeley Improvement	38
A14 Rookery Crossroads Grade Separated Junction	9
A421 Great Barford Bypass	43
A47 Thorney Bypass	28
A63 Melton Grade Separated Junction	23
M4 Junction 18 Eastbound Diverge	10
M5 Junctions 17–18 Northbound Climbing Lane	6

In most cases, the major costs of the schemes listed above will be incurred after 2004–05. The Highways Agency is proceeding with scheme preparation in order to allow the planned new starts to begin construction this year. Of the 8 new starts identified in the Business Plan, 2 are now under construction.

Road Schemes

Mr. Chope: To ask the Secretary of State for Transport if he will set out in respect of each of the projects in the Highways Agency Targeted Programme of Improvements *(a)* the estimated project cost, *(b)* the cost benefit ratios and *(c)* the estimated date for completion. [182587]

Mr. Jamieson *[holding answer 6 July 2004]:* The following projects, with their estimated cost and benefit cost ratio (BCR), are included in the Targeted Programme of Improvements (TPI).

Scheme	Last calculated BCR	Latest Estimated outturn cost (£ million)
A1 Adderstone to Belford Dualling	2.4	14
A1 Bramham—Wetherby (Including Wetherby Bypass)	6.1	62
A1 Dishforth to Leeming	1.5	325
A1 Leeming to Barton	1.5	1
A1 Kippings Cross to Lamberhurst Bypass	2.5	68
A1 Morpeth to Felton Dualling	2.2	84
A1 Peterborough—Blyth Grade Separated Junctions	8.6	86
A1 Stannington Junction	6.3	8
A1 (M) Ferrybridge—Hook Moor (DBFO)	4.5	161
A1 (M) Wetherby—Walshford (DBFO)	3.5	34
A1/A19/A1068 Seaton Burn Junction Improvement	2.4	30
A10 Wadesmill Colliers End	4.5	39
A11 Attleborough Bypass	2.5	29
A11 Fiveways—Thetford Improvement	2.4	60
A14 Ellington—Fen Ditton Improvement	1.8	490
A14 Haughley New St.—Stowmarket Improvement	2.6	31
A14 Rookery Crossroads GSJ	2.5	9
A19/A184 Testos Junction Improvement	5.6	21
A2 Bean—Cobham Phase 1 Bean—Tollgate	-1.5	20
A2 Bean—Cobham Phase 2 Tollgate—Cobham	1.6	101
A2/A282 Dartford Improvement	1.5	80
A21 Lamberhurst Bypass	2.3	19
A21 Tonbridge to Pembury	1.6	65
A23 Handcross to Warninglid Widening	4.4	41
A249 Iwade-Queenborough Improvement (DBFO)	2.1	81

Scheme	Last calculated BCR	Latest Estimated outturn cost (£ million)
A27 Southerham to Beddingham Improvement	7.7	19
A3 Hindhead Improvement	2.7	236
A30 Bodmin Indian Queens	3.2	69
A30 Garland Cross to Chiverton Cross	2.6	125
A30 Temple to Higher Carblake improvement	1.2	41
A30/A3 82 Merrymeet Junction	2.5	9
A303 Stonehenge	1.3	223
A34 Chieveley/M4 J13 Improvement	4.8	76
A38 Dobwalls Bypass	1.7	36
A419 Blunsdon	3.3	40
A419 Commonhead Junction	3.9	16
A421 Bedford to M1 Junction 13	4.2	171
A421 Great Barford Bypass	3	43
A428 Caxton Common to Hardwick Improvement	3	44
A45/A46 Tollbar End Improvement	3	57
A453 Widening (M1 J24 to A52 Nottingham)	1.5	89
A46 Newark—Widmerpool Improvement	7.9	186
A47 Blofield to North Burlingham Dualling	7.1	15
A47 Thorney Bypass	1.9	28
A483 Pant-Llanymynech Bypass	1.5	41
A5 Weeford—Fazeley Improvement	2.7	38
A500 City Road and Stoke Junction Improvement	2.4	60
A505 Dunstable Northern Bypass (A5 to M1 Link)	4.3	48
A5117/A550 Deeside Park Junctions Improvement	3	43
A57/A628 Mottram in Longdendale, Hollingworth and Tintwistle Bypass	9	103
A590 High and Low Newton Bypass	3	22
A595 Parton—Lillyhall Improvement	2.5	25
A63 Melton Grade Separated Junction	24.7	23
A64 Colton Lane Grade Separated Junction	1.2	11
A64 Rillington Bypass	1.3	12
A66 Carkin Moor to Scotch Corner Improvement	5.8	11
A66 Greta Bridge to Stephen Bank Improvement	6.9	9
A66 Long Newton Junction	1.4	8
A66 Temple Sowerby and Improvement at Winderwath	1.4	23
A69 Haydon Bridge Bypass	1.4	24
M1 J19 Improvement	1.8	124
M1 J21–30	2.6	1,915
M1 Junction 10 to 13 Widening	4.3	382
M1 Junction 6a to 10 Widening	2.1	241
M20 Junction 10A	4.2	46
M25 J12–15 Widening	2.3	105
M25 J16–23 Widening	5.5	496
M25 J1b-3 Widening	9.9	66
M25 J23–27 Widening	2.2	419
M25 J27–30 Widening	2.4	402
M25 J5–7 Widening	4.6	214
M4 Junction 18 Eastbound Diverge	2.6	10
M40 Junction 15 (Longbridge)	6	57
M40/A404 Handy Cross Junction Improvement	3.7	12
M5 Junctions 17–18 Northbound Climbing Lane	7.5	6
M5 Junctions 19–20 Northbound Climbing Lane	2.3	8
M5 Junctions 19–20 Southbound Climbing Lane	3.1	8
M6 Carlisle to Guardsmill extension	3	69
M60 J5–8 Widening	3.8	117
M62 Junction 6 Improvement	8.6	38

[1] Cost included above

These costs include the latest Treasury guidance on risk and optimism bias and allow for inflation at 2.5 per cent. per annum.

Of these, the following schemes have already started works or, if they have not, have provisional start dates in 2004–05, with anticipated completion dates as shown:

Scheme	Date of completion
A1 Stannmgton Junction	2004–05
A1 (M) Ferrybridge—Hook Moor	2006–07
A1 (M) Wetherby—Walshford	2005–06
A10 Wadesmill Colliers End	2004–05
A14 Rookery Crossroads Grade Separated Junction	2005–06
A2 Bean—Cobham Phase 1 Bean—Tollgate	2004–05
A21 Lamberhurst Bypass	2004–05
A249 Iwade—Queenborough Improvement	2006–07
A34 Chieveley/M4 J13 Improvement	2004–05
A421 Great Barford Bypass	2006–07
A47 Thorney Bypass	2006–07
A5 Weeford—Fazeley Improvement	2005–06
A500 City Road and Stoke Road Junction Improvement	2006–07
A63 Melton Grade Separated Junction	2006–07
A64 Colton Lane Grade Separated Junction	2005–06
M25 J12–15 Widening	2005–06
M4 Junction 18 Eastbound Diverge	2005–06
M5 Junctions 17—18 Northbound Climbing Lane	2005–06
M60 J5–8 Widening	2006–07

Decisions on start of works for the remainder of the programme will be made in due course.

Road Spending

Mr. Damian Green: To ask the Secretary of State for Transport if he will list the money spent in each county in England and Wales over the last year on roads by *(a)* the Highways Agency and *(b)* local authorities. [174161]

Mr. Jamieson: The table below sets out the latest available information on road spend by local authorities and the Highways Agency by county. Actual spend by local authorities in 2003/04 is not yet confirmed so the table provides the spend for 2002/03.

Information on Wales is available from the Welsh Assembly.

£million

County	Highways Agency Authority	Local	Total Spend
Bedfordshire	23.7	26.7	50.4
Berkshire	54.5	40.0	94.5
Buckinghamshire	64.6	39.3	103.9
Cambridgeshire	36.8	37.9	74.7
Cheshire	66.7	71.7	138.5
Cornwall	20.1	35.8	55.9
County Durham	21.6	47.3	68.9
Cumbria	16.4	38.0	54.4
Derbyshire	23.0	54.4	77.5
Devon	61.8	69.6	131.4
Dorset	9.2	34.7	43.9
East Riding of Yorkshire	18.9	24.5	43.4
East Sussex	12.0	33.7	45.7
Essex	98.4	97.2	195.6
Gloucestershire	72.0	62.8	134.7
Greater London	26.0	479.9	505.9
Greater Manchester	49.0	130.1	179.1
Hampshire	35.8	80.2	116.0
Herefordshire	20.6	12.4	33.0
Hertfordshire	53.6	56.3	109.9
Isle of Wight	0.0	13.0	13.0
Kent	79.5	83.5	163.0
Lancashire	94.7	81.8	176.5
Leicestershire	36.5	42.3	78.8
Lincolnshire	47.6	60.6	108.2
Merseyside	14.1	78.2	92.3
Norfolk	18.0	57.8	75.8
North Yorkshire	41.1	73.2	114.3
Northamptonshire	41.5	25.6	67.1
Northumberland	15.7	24.2	39.9
Nottinghamshire	52.5	56.4	108.8
Oxfordshire	55.3	34.4	89.7
Rutland	5.7	3.3	9.0
Shropshire	37.4	31.7	69.1
Somerset	18.5	52.9	71.4
South Yorkshire	54.4	57.1	111.5
Staffordshire	40.3	48.8	89.1
Suffolk	14.6	40.2	54.8
Surrey	33.2	57.0	90.2
Tyne & Wear	11.8	64.0	75.8
Warwickshire	53.1	25.6	78.7
West Midlands	64.4	122.7	187.1
West Sussex	11.1	33.9	45.0
West Yorkshire	34.9	106.2	141.1
Wiltshire	41.0	34.4	75.3S
Worcestershire	52.5	28.2	80.8
Grand Total	1,753.8	2,809.4	4,563.2

Note:
Numbers individually rounded to £0.1 million

Road Traffic Congestion

Richard Younger-Ross: To ask the Secretary of State for Transport what his latest estimates are of the level of road traffic congestion, as measured by *(a)* seconds per vehicle kilometre and *(b)* average peak-time speeds on inter-urban routes. [186165]

Mr. Jamieson: The White Paper The Future of Transport' which was presented to the House on Tuesday 20 July by my right hon. Friend the Secretary of State explains that we are developing new measures of traffic congestion. Estimates of average peak-time traffic speeds on weekdays were published in April of this year in Traffic Speeds on English Trunk Roads: 2003' available on the Department's website.

Roads

Richard Younger-Ross: To ask the Secretary of State for Transport what his Department's latest estimate is of *(a)* the cost of the local road repair backlog and *(b)* the proportion of principal local roads with no residual life as at 1 April. [186163]

Mr. McNulty: The Department does not yet have firm enough data to make a robust estimate of the maintenance backlog on roads and footpaths.

The structural condition of roads is represented by its "residual life". Where a road's residual life falls to or below zero its deterioration is no longer predictable. It may remain serviceable but needs to be monitored closely to see if maintenance is needed. In the most recent available figures, for 2003, 17 per cent. of English principal roads came into this category.

Richard Younger-Ross: To ask the Secretary of State for Transport what progress the Government has made towards its target of halting the deterioration of the local road network by April. [186164]

Mr. McNulty: Results of the National Road Maintenance Condition Survey show that there has been a significant improvement in the condition of English local roads between 2000 and 2003, the latest year for which results are available. The Government is therefore on track to meet its target of halting the deterioration by 2004.

Richard Younger-Ross: To ask the Secretary of State for Transport what progress the Government has made towards its target of completing or having under construction 40 schemes from the Highways Agency's targeted programme of improvements by 2005. [186170]

Mr. Jamieson: 31 out of the original 40 schemes, contained in the targeted programme of improvements (TPI), are already completed, under construction or will be on site by April 2005. A further three schemes are planned to start this year.

Rolling Stock

Norman Baker: To ask the Secretary of State for Transport (1) what steps he is taking to facilitate the design and production of less energy-intensive railway rolling stock; [182379]

(2) what steps he is taking to lessen the power consumption of railway rolling stock. [182380]

Mr. McNulty: These are matters for the industry. Increased train weight arising from safety and other design features and the wider use of air conditioning and power operated doors have tended to increase the power needs of modern trains. But current and future developments should offset that. For example, future technology in body construction is expected to lead to lighter trains which draw less power and regenerative braking, which produces new power during the braking process, is already being introduced where practicable.

Andrew Mackinlay: To ask the Secretary of State for Transport what powers *(a)* he and *(b)* other bodies have to require franchisees to maintain an adequate supply of rolling stock of acceptable quality. [185269]

Mr. McNulty: Rolling stock issues are among those considered when the terms of individual franchises are being drawn up. Where a need for rolling stock refurbishment or replacement is identified, the detailed requirements will be set out in the franchise agreement.

Franchises are currently awarded by the Strategic Rail Authority, though it is proposed that this responsibility will in due course pass to my right hon. Friend the Secretary of State as described in his statement to the House of 15 July.

Mr. Amess: To ask the Secretary of State for Transport if he will make a statement on progress with withdrawing Mark 1 slam door rolling stock from the train network. [185419]

Mr. McNulty: By early July 2004, 522 Mark 1 vehicles had been withdrawn. The remaining 1,200 or so will follow progressively over the coming months. The final date for the elimination of Mark 1s from passenger service is the subject of a consultation being conducted by Her Majesty's Railway Inspectorate who have indicated that they are minded to approve a proposal that the deadline should be November 2005. 908 new vehicles have been introduced into service.

Salary and Recruitment Costs

Mr. Wiggin: To ask the Secretary of State for Transport what the *(a)* recruitment costs and *(b)* total cumulative salary bill of (i) the Chairman of the UK Commission for Integrated Transport and (ii) the Chairman of the Strategic Rail Authority are. [185236]

Mr. McNulty *[holding answer 19 July 2004]:* For the Chairman of the UK Commission for Integrated Transport, the recruitment costs specifically attributable to this post are not held separately. The most recent Chair appointment was in March 2002. The remuneration for the post is £30,000 per annum with the Chair expected to work five days per month.

Full details of the payments made to the Chairman of the Strategic Rail Authority can be found in the Authority's Annual Reports. The recruitment costs specifically attributable to this post are not held separately.

Security Forces (Ships in British Ports)

Patrick Mercer: To ask the Secretary of State for Transport who is responsible for a decision to allow security forces to board a ship in a British port. [184602]

Mr. Jamieson: Ultimate responsibility for authorising the deployment of special forces in a British port will fall to Ministers, at the request of the Chief Constable dealing with the incident.

Smartcards

John Thurso: To ask the Secretary of State for Transport what progress is being made with the introduction of smartcard technology; what action he is taking to ensure national compatibility of smartcards; what support he is giving to the introduction of smartcard technology; and if he will make a statement. [185733]

Mr. McNulty: The Department published national interoperability specifications for smartcard ticketing in March this year (ISBN 0-9548042). The specifications enable a single bus or train ticket to be loaded at one location, used for travel across a network, and then used again at the new location. We are working with LAs and industry to set up the associated delivery framework that will provide the management, security and accreditation services to ensure ticketing schemes work seamlessly together.

We are supporting a number of projects to help existing schemes be compliant with the national specifications. The London Oyster Card is one example. Others are the conversion of existing schemes in Cheshire, Nottinghamshire and Southampton and a new rural scheme in Cumbria and Lancashire (known as NoWcard). The Department has also given provisional approval to the West and South Yorkshire major transport scheme Yorcard.

The Department is also working closely with ODPM and the Department for Education and Skills to ensure wider compatibility of smartcards, for example using the same card for school attendance, library access and travel.

Speed Cameras

Mr. Wilshire: To ask the Secretary of State for Transport for which *(a)* motorway, *(b)* trunk road and *(c)* other road locations in Spelthorne permission has been given for (i) fixed and (ii) mobile speed and traffic light cameras; and what criteria were taken into account when deciding whether to grant permission. [183299]

Mr. Jamieson: Surrey is one of five police force areas which does not at present participate in the national safety camera programme which provides for the costs of operating camera sites to be met from fixed fine resources. The camera sites operated by the police and local highway authorities in Surrey are therefore not subject to approval under the national programme.

Mr. Rosindell: To ask the Secretary of State for Transport how much money has been collected through fines imposed on those caught speeding by speed cameras in Havering since their introduction. [184246]

Caroline Flint: I have been asked to reply.

Information on the number of fixed penalties or fines paid for the offence of 'speeding detected by camera' is not collected centrally.

Sustainable Development (Government Estate)

John Thurso: To ask the Secretary of State for Transport what changes there have been in *(a)* road transport vehicle carbon emissions and *(b)* single occupancy car commuting from his Department against the baseline year set out in the Framework for Sustainable Development on the Government Estate. [185697]

Mr. McNulty: The Department of Transport was unable to establish a baseline for 2002–03 for either *(a)* road transport vehicle carbon dioxide emissions or *(b)* single occupancy car commuting, due to the lack of available data.

John Thurso: To ask the Secretary of State for Transport what have been identified as the most significant sustainable development impacts in relation to the operation of the estate of his Department. [185728]

Mr. McNulty: Most staff in the Department for Transport are located in about 100 larger properties while the remainder are located in relatively small properties belonging to the agencies. Consequently, the most significant sustainable development operational impacts of the main office estate are typically in respect of utility use, waste, paper, procurement and travel.

On the non-office estate there are also few sites that might be considered to have significant sustainable impacts beyond the typical and these are:

The Air Accidents Investigation Branch at Farnborough that handles crash wreckage from civil aircraft accidents and serious incidents within the UK, which they investigate.

The Maritime and Coastguard Agency Maritime Rescue Sub Centres and Co-ordination Centres which are manned and operational 24 hours a day and include air-conditioned emergency operational areas, rescue equipment, emergency generators etc.

The 24 acre Driving Standards Agency's training residential centre at Cardington.

Vehicle Inspectorate's goods vehicle testing stations provide statutory testing of vehicles.

The 100 HA motorway maintenance depots which provide a base from which to undertake routine motorway maintenance, and especially winter maintenance and could include one or more rock salt storage barns, a number of winter maintenance vehicles, weighbridge and washdown areas, and diesel fuel tanks.

The sustainable impacts at these sites vary considerably depending on the nature of the work undertaken at them but are likely to cover such aspects as biodiversity, estates management, control of pollution, handling hazardous substances or waste and the discharge of water.

John Thurso: To ask the Secretary of State for Transport what parts of his Department's estate will not be covered by the commitments set out in the Framework for Sustainable Development on the Government Estate. [185729]

Mr. McNulty: The parts of the Department's estate not currently covered by the Framework commitments are:

The Marine Accident Investigation Bureau which only has 28 staff in a small minor occupied office in Southampton.

Mobility Advice and Vehicle Information Service at Crowthorne which comprise only 11 staff.

The Traffic Area Offices at Birmingham and Edinburgh because they are minor occupiers in their buildings and useful utility and other environmental information is not available.

643 Marine and Coastguard sites that are typically unmanned radio masts, garages or sheds where a vehicle or marine rescue equipment is stored.

John Thurso: To ask the Secretary of State for Transport what steps have been taken by his Department to review arrangements for public reporting of sustainable development impacts since publication of the Framework for Sustainable Development on the Government Estate. [185730]

Mr. McNulty: Since the publication of the Framework the Department now reports publicly on its sustainable development impacts and performance on its website and through the Sustainable Development in Government annual report.

John Thurso: To ask the Secretary of State for Transport what arrangements his Department has in place to report publicly on its key sustainable development impacts. [185731]

Mr. McNulty: The Department reports on progress made in addressing the sustainable development impacts of its policies, in its Annual Report, and through our contribution to the Government's annual Sustainable Development Report.

We monitor our performance against the Government's sustainable development indicators, laid out in "Quality of Life Counts", by publishing them in "Transport Trends".

Thameslink 2000

Mr. Dismore: To ask the Secretary of State for Transport if he will make a statement on the future of Thameslink 2000. [186295]

Mr. McNulty: Network Rail's application for a Transport and Works Act order was considered at a public inquiry between June 2000 and May 2001. A decision on the project was deferred pending the resolution of three deficiencies identified by the inspector in his report, relating to the design of the scheme in central London. Network Rail has now submitted further applications addressing these issues, which are likely to be considered by a public inquiry next year.

Trunk Roads

Mr. Laws: To ask the Secretary of State for Transport what estimate he has made of public expenditure on new trunk roads in each year from 1990–91 to 2010–11; and if he will make a statement. [156694]

Mr. Jamieson: The following table sets out figures for outturn and forecast public expenditure on building new trunk roads and motorways and improving and widening existing roads from 1990–91 to 2005–06. The data do not allow expenditure on new trunk roads to be separately identified. Spending in future years is being reviewed as part of the Spending Review 2004.

For completeness, the table also sets out equivalent figures for private expenditure on building new trunk roads and motorways, and, improving and widening existing roads.

The table must be interpreted with care as, for a number of reasons, the trunk road network has reduced in size over the last few years and so the figures do not form a consistent series.

(1) The government's policy as set out in A New Deal for transport: Better for Everyone (1998 Cm 3950) is that there are a number of trunk roads which mainly serve local and regional traffic and are more appropriately managed at local level. Following negotiations we have, since 1999, transferred around 2,000kms of these non-strategic roads to local highway authorities—about 20 per cent. of the original network. The data have not been adjusted to take this into account. We would hope to complete the transfer of the remaining non-strategic roads, another 1,000kms, over the next two years.

(2) In addition, trunk roads (excluding motorways) within Greater London were transferred to Transport for London in July 2000.

(3) The public expenditure numbers include payments to private operators for their investment. The table sets out figures for the payments made to the private sector, which are deducted to produce the net expenditure figure.

£ million

Financial Year	*Public Expenditure*	*Private Expenditure Estimated*	*Shadow tolls*	*Net Expenditure*
1990–91	1,270	50	—	1,320
1991–92	1,277	29	—	1,306
1992–93	1,309	125	—	1,434
1993–94	1,345	75	—	1,420
1994–95	1,183	80	35	1,228
1995–96	1,100	101	25	1,176
1996–97	965	123	42	1,046
1997–98	787	238	88	937
1998–99	583	188	131	640
1999–2000	496	33	205	324
2000–01	506	28	202	332
2001–02	636	173	206	603
2002–03	731	223	220	734
2003–04	687	242	239	690
2004–05	724	150	261	613
2005–06	769	325	353	741

Notes:

Net expenditure equals public expenditure plus private expenditure less payments to private operators.

Private investment is that estimated in the Ten Year Plan.

Water

John Thurso: To ask the Secretary of State for Transport what changes there have been in water consumption by his Department in each year since 1997. [185699]

Mr. McNulty: The Department for Transport was formed in May 2002 and as a result the information provided relates to the period from then.

For the Department's London Headquarters building, Great Minster House, water consumption has fallen from 12,308m^3 to 11,380m^3 between 2002–03 and 2003–04 giving a per person ratio of 7.3m^3.

John Thurso: To ask the Secretary of State for Transport if he will list the non-office sites within his departmental estate which have been identified as being likely to provide opportunities for significant water savings. [185700]

Mr. McNulty: We have not identified any non-office sites within the departmental estate as being likely to provide opportunities for significant water savings.

Watermark Project

John Thurso: To ask the Secretary of State for Transport whether his Department has joined the Watermark project. [185698]

Mr. McNulty: Yes.

Written Answers to Questions

The following answers were received between Friday 23 July and Friday 27 August 2004

FOREIGN AND COMMONWEALTH AFFAIRS

Polygamous Spouses

Mr. Tynan: To ask the Secretary of State for Foreign and Commonwealth Affairs how many polygamous spouses were granted entry clearance in each of the last five years. [185670]

Mr. MacShane: UKvisas does not hold any records of how many polygamous spouses were granted entry clearance either for settlement or for other categories of application. However, polygamous spouses would not usually qualify for settlement under the Immigration Rules. Further details are set out in Chapter 13 Annex 3 of the Diplomatic Service Procedures available on the UKvisas website: www.ukvisas.gov.uk/dsps.

British Indian Ocean Territory

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs what rights Government officials have to visit Diego Garcia *(a)* unannounced and *(b)* announced under the terms of the lease granted to the US Administration for the use of Diego Garcia. [183932]

Mr. Rammell: Under the 1976 United Kingdom/ United States Exchange of Notes concerning the US Defence Facility on Diego Garcia, access to Diego Garcia is in general restricted to members of the Forces of the United Kingdom and of the United States, the Commissioner and public officers in the service of the British Indian Ocean Territory, representatives of the Government of the United Kingdom and of the United States and, subject to normal immigration requirements, contractor personnel.

Turkey

Mr. Nigel Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received from British citizens with shares in the Turkish companies Ceas and Kepez Elektrik who have received no compensation following the Turkish Government's takeover of these companies; and if he will make a statement. [185614]

Mr. Mike O'Brien: The Foreign and Commonwealth Office is not aware of any UK nationals who are shareholders in either of these companies. No British nationals have made representations to the Foreign and Commonwealth Office on this issue. Such individuals should seek legal advice in Turkey and the British Embassy in Ankara would be happy to advise any UK shareholders of suitable legal firms. The United Kingdom Investment and Promotion Protection Agreement should then be used to seek redress, if appropriate, from the Turkish Government.

Cuba

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Cuban Government on the detention and treatment of *(a)* Jorge Luis Garcia Perez and *(b)* Dr. Oscar Ellias Biscet; and if he will make a statement. [186113]

Mr. Rammell: I refer my hon. Friend to the reply I gave to my hon. Friend the Member for Stroud (Mr. Drew) today (UIN 185768).

Cyprus

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 15 July 2004, to question reference 184114, what financial assistance was set aside by *(a)* the Government and *(b)* the European Union specifically for facilities for the joint benefit of Greek and Turkish Cypriots in the town of Famagusta. [186138]

Mr. MacShane: EU member states are still negotiating the details of the European Commission's proposals for the disbursement of €259 million of financial aid for northern Cyprus. Until agreement has been reached on the details, it is not possible to say where the funds will be allocated and for what specific purpose. The UK does not at this stage have any plans for unilateral financial assistance but will pay its share of the EU funding.

Democratic Republic of the Congo

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what proposals his Department has *(a)* received and *(b)* made to amend the mandate of the United Nations Organisation Mission in the Democratic Republic of the Congo to include authority to monitor and report on natural resource exploitation in the Democratic Republic of the Congo; and if he will make a statement. [186228]

Mr. MacShane: We have received recommendations from some Non-Governmental Organisations to include the authority to monitor and report on natural resource exploitation in the United Nations' Mission in the Democratic Republic of the Congo's (MONUC) mandate. We await the Secretary-General's report and recommendations for the future of MONUC, due on 15 August, which we will consider carefully.

Departmental Administration Costs

Mr. Letwin: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total administration costs were in his Department in financial years *(a)* 1996–97 and *(b)* 1997–98. [186063]

Mr. MacShane: Details of the Department's gross running costs for 1996–97 and 1997–98 are contained in Table 5.5 of Public Expenditure Statistical Analyses 2000–01 (Cm 4601). These figures are on a cash basis.

From Public Expenditure Analyses 2001–02 (Cm 5101), Departments' administrative expenditure was reported on a resource basis, as administration costs.

Copies of Public Expenditure Statistical Analyses are in the Library of the House and are on HM Treasury's public website (www.hm-treasury.gov.uk).

China

Chris Grayling: To ask the Secretary of State for Foreign and Commonwealth Affairs how many visa applications from students in China have been refused *(a)* this year and *(b)* in each of the last five years. [184881]

Mr. MacShane: The information is as follows:

China[1]

	2003–04	*2002–03*	*2001–02*	*2000–01*	*1999–2000*	*1998–99*
Student applications received	35,508	34,477	29,338	18,933	12,574	5,429
Students refused	11,554	9,095	7,986	5,073	3,119	1,501
Refused as percentage of received	32.5	26.4	27.2	26.8	24.8	27.6

[1] Financial year running 1 April to 31 March.

The figures include statistics from our missions in Shanghai, Beijing and Guangzhou. The majority of student applications are made in Beijing.

Departmental Expenditure

Mr Michael Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent by the Foreign Office in *(a)* 1996–97 and *(b)* the last year for which figures are available on special advisers' (i) salaries and (ii) travel expenses. [184506]

Mr. Straw: During the period 1 April 1996 to 31 March 1997 the Foreign and Commonwealth Office spent £98,978 on Special Advisers' salaries.

During the period 1 April 2003 to 31 March 2004 the Foreign and Commonwealth Office spent £162,106 on Special Advisers' salaries and pension contributions.

The Foreign and Commonwealth Office spent a total of £23,192 on Special Advisers' travel expenses during the period 1 April 2003 to 31 March 2004. Figures for travel expenses going back to 1996/97 are not available.

Egypt

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Egyptian Government on bringing to justice those responsible for the deaths of 21 Christians in El-Khosheh in 2000. [185066]

Mr. Rammell: We were deeply concerned by the sectarian violence in El-Khosheh in January 2001, which left 20 Christians and 1 Muslim dead. We have followed the case closely, and made our concerns known at the time. We were encouraged that the Prosecutor-General persistently sought judicial review of early judgements in the case, reflecting the authorities' concern that justice be done. We are concerned that this process seems, following a decision of the Court of Cassation last month, to be at an end. We will continue to make our concerns known to the appropriate authorities.

European Union

Rev. Martin Smyth: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to commission a cost-benefit analysis of the economic impact of the UK's membership of the European Union. [186187]

Mr. MacShane: While there are no immediate plans to commission further research, the Government continue to monitor the need for further evaluation and assessment in this area, as elsewhere. The Government are convinced of the benefits of UK membership of the European Union.

Hague Convention

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer to the right hon. Member for Tonbridge and Malling (Sir John Stanley) of 12 July 2004, *Official Report*, column 1060W, on The Hague Convention, what strategy the Government have put in place, and what timeline they has drawn up, for enacting the primary and secondary legislation in order for the UK to ratify the UN Convention Against Corruption; and if he will make a statement. [186126]

Mr. MacShane: I refer the hon. Member to the answer I gave to the hon. Member for Gordon (Malcolm Bruce) on 27 May 2004, *Official Report*, column 1761W.

India

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs what impact the strategic alliance agreed in January between the Indian and Iranian governments has had on the Government's decision to issue licences for strategic exports to India. [186117]

Mr. Mike O'Brien: There has been no need to change how we decide on our criteria on export licence applications for India following the agreement between the Indian and Iranian governments to increase their economic and civil nuclear co-operation because the policy enables changes in circumstances to be considered. We assess all export licence applications on a case-by-case basis against: the Consolidated EU and National Arms Licensing Criteria; the statement made by my hon. Friend the then Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Mr. Bradshaw) on 15 March 2002, *Official Report*, column 1298W; and in light of the circumstances prevailing at the time. Under criterion 7, we consider the risk of re-export of equipment under undesirable conditions.

Iraq

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how the Iraqi police force is funded. [184271]

Mr. Rammell: The Iraqi police budget is financed through the Iraqi budget and administered by the Iraqi Ministry of Interior. Iraq's budget consists of funds paid into the Development Fund for Iraq (DPI), established under United Nations Security Council Resolution (UNSCR) 1483 of 22 May 2003. The DPI includes receipts from oil exports and transferred assets of the former Government of Iraq. Additional funding from donor countries and the US Supplemental are paying for specific projects associated with improving the Iraqi Police Service. Donor funds are either committed bilaterally or through the International Reconstruction Fund Facility for Iraq (IRFFI). US Supplemental funds are disbursed through the US-run Project and Contracting Office (formerly called the Project Management Office).

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received evidence that terrorists operating in Iraq have secured since May 2003 material that can be put to weapons of mass destruction use. [185149]

Mr. MacShane: We regularly receive intelligence assessments that address the situation in Iraq and its wider impact, including on the threat from international terrorism.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs whether any hon. Members had an input into the preparation of the September 2002 Dossier, Iraq's Weapons of Mass Destruction. [185225]

Mr. MacShane: As has already been made clear the dossier was drafted by the Joint Intelligence Committee (JIC), and any changes suggested by Ministers and other officials were accepted or rejected by them. This process was fully discussed in Lord Hutton's Report.

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs whether British officials were told of Abdel Bassel Turk's concern about human rights abuses in 2003. [185949]

Mr. MacShane: The then Iraqi Minister for Human Rights, Abdel Basit Turki, raised some aspects of Coalition detention practices with British officials in November 2003.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what proportion of Iraq's declaration of the status of its programmes of weapons of mass destruction, provided to the United Nations on 8 December 2002, had been translated up to 19 March 2003; what proportion has been translated to date; what plans there are for further translation; what efforts have been made to verify details of the declaration through the work of the Iraq Survey Group; and what plans he has to make public all or part of the translated text. [186182]

Mr. MacShane: Translation of the Iraqi declaration was complete by 19 March 2003.

The Iraq Survey Group was not tasked with verifying the December 2002 declaration.

The declaration was required by UN Security Council Resolution 1441. It is for the UN to decide whether to publish any part of the declaration.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs whether, in respect of the information Her Majesty's Government received from a foreign intelligence source suggesting that Iraq had attempted to procure uranium from Niger, checks were made with former Iraqi ambassador Wissam Al-Zahawi. [186183]

Mr. MacShane: No. In the circumstances prevailing in late 2002/early 2003 it would not have been possible for UK officials to have discussed the issue directly with ambassador Al-Zahawi.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he requested *(a)* the Secret Intelligence Service and *(b)* the Government Communications Headquarters for updated evaluations of the conclusions set out in the Government dossier on Iraq's weapons of mass destruction (i) following the dossier's publication up to 20 March 2003 and (ii) once the United Kingdom was in receipt of Iraq's declaration on its programmes of weapons of mass destruction, pursuant to the United Nations Security Council Resolution 1441 (2002), provided on 8 December 2002. [186216]

Mr. MacShane: Intelligence has been gathered and evaluated on an on-going basis since the publication of the dossier.

Israel

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with members of the Quartet concerning an arms embargo on Israel. [186161]

Mr. Rammell: Both our EU partners and we are guided by the EU Code of Conduct on arms exports which means that we will not issue licences where there is a clear risk that the equipment might be used for internal repression or aggressively against another country.

The UK government has had no discussions with the Quartet (UN, US, Russia, EU) concerning an arms embargo on Israel.

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs what advice his Department has given to contractors working on the Israeli security wall on the International Court of Justice ruling on the legality of the wall. [186246]

Mr. MacShane: The UK Government have consistently made clear their view that the building of the barrier on occupied land is illegal and harms the prospects for peace. We have urged the Israeli Government to re-route it away from occupied land, and continue to do so.

Although agreements between the Israeli Government and UK contractors are a commercial and contractual issue in which the Government cannot get directly involved, we hope that contractors will take our view on the barrier into account. The UK Government are not aware of any UK companies working on the construction of the Israeli barrier.

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the UK companies involved in the construction of the Israeli security wall. [186247]

Mr. MacShane: The UK Government is not aware of any UK companies involved in the construction of the Israeli barrier.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government concerning the Citizenship and Entry into Israel law due for review at the end of July; and what assessment he has made of the human rights aspects of this law. [185441]

Mr. Rammell: My noble Friend the Baroness Symons of Vernham Dean discussed this law and its effects with several human rights groups during her visit to Israel in October 2003. Our Embassy in Tel Aviv has also raised the law and its impact with representatives of the Israeli government.

The Israeli Cabinet has approved a number of amendments to this law and extended it for six months rather than one year. Nonetheless, the Government remains concerned that this law discriminates against Arab Israelis. Along with our EU partners, we will continue to monitor the law and its effect on Arab Israelis.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the UN concerning the positioning of a human rights rapporteur in the Occupied Palestinian Territories. [185444]

Mr. Rammell: The UK Government welcomes the efforts of John Dugard, the Special Rapporteur on the Situation of Human Rights in the Occupied Palestinian Territories. We remain gravely concerned by the humanitarian situation in the occupied territories, and we continue to raise our concerns with the Government of Israel.

My right hon. Friend the Foreign Secretary has made no specific representations to the UN about the positioning of a human rights rapporteur in the occupied territories.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government concerning underground aquifers and other water resources enclosed on the Israeli side of the security barrier. [185445]

Mr. Rammell: My right hon. Friend the Foreign Secretary and my noble Friend the Baroness Symons of Vernham Dean expressed concerns about the impact of the barrier, in particular the humanitarian impact on the lives of Palestinians, with a number of Israeli Ministers, most recently with the Israeli Foreign Minister Silvan Shalom. The damaging effect that the barrier has had on Palestinian access to water resources is one of the aspects our representations have focused on.

Ministerial Travel

Mr. Beggs: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total cost of air travel between Northern Ireland and Great Britain was for *(a)* Ministers and *(b)* officials in the Department in the last year for which figures are available. [184529]

Mr. Mike O'Brien: The information in the categories requested could only be provided at disproportionate costs. The Foreign and Commonwealth Office does not differentiate in its records between money spent by Ministers on air travel and money spent by officials accompanying Ministers. Nor do the records differentiate between travel to Northern Ireland and travel between other parts of the United Kingdom. In the Financial Year 2003–2004, the Foreign and Commonwealth Office spent £724,849 on domestic air travel for Ministers and officials.

Overseas Missions

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 7 June 2004, *Official Report*, column 57W, what proportion of the time that British missions overseas devote to trade development and investment work is for military goods at *(a)* UK embassies in general and *(b)* the UK embassy in Saudi Arabia. [184669]

Mr. Mike O'Brien: Responsibility for advice on the purchase of UK military equipment UK Diplomatic Missions overseas normally rests with Defence Attaches or staff from the Defence Export Services Organisation (DESO). In the case of Saudi Arabia, there is a dedicated First Secretary (Defence Supply) based in Riyadh. A number of other British Missions overseas also have both military and civilian staff who are dedicated to Defence sales. The duties of staff employed in Trade and Investment work in Embassy commercial sections world wide do not usually include defence sales, except in the few cases where neither DESO nor Defence Attache staff are represented at the Mission. To provide a more detailed breakdown would incur disproportionate costs. I refer my hon. Friend to the reply I gave to the hon. Member for Gordon (Malcolm Bruce) on 30 June 2004 *Official Report*, column 350W for the proportion of Defence Attache's time spent supporting legitimate defence exports and defence procurement collaboration activities in accordance with Government policy on arm exports at our overseas Missions.

Overseas Prisoners (Resettlement)

David Maclean: To ask the Secretary of State for Foreign and Commonwealth Affairs if his Department will develop a set of protocols to be followed in order to assist the resettlement of prisoners returning from abroad; and what actions his Department will take to ensure that *(a)* resettlement is as untraumatic as possible, and *(b)* returning prisoners are accorded sufficient assistance to begin rebuilding their lives. [186285]

Mr. MacShane: Her Majesty's Government believe that British nationals returning from imprisonment overseas need to be rehabilitated and reintegrated into society as quickly as possible. The best way for this to happen is through rapid entry into the benefit system when they return to the UK.

Returnees can be helped to do this by registering with "Prisoners Abroad", via their nearest UK Diplomatic Mission, as early as possible during their sentence.

'Prisoners Abroad' is an independent non-government organisation (NGO) and charity, co-funded by trust funds and private individuals as well as by government. It offers an excellent resettlement programme which aims to help eligible returning British nationals access the benefits available and looks after them while they do this.

The Foreign and Commonwealth Office's work with "Prisoners Abroad" is an excellent example of an effective partnership between government and the voluntary sector as envisaged by the Compact on relations between government and the voluntary and community sector in England. The Compact is a partnership agreement between government and the voluntary and community sector (VCS), providing a framework for their future relationship.

Palestine

Mr. Jenkins: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance the Government have offered the Palestinian Authority in trying to quell disturbances within Palestine. [185840]

Mr. Rammell: The UK has long said it is important that the Palestinian Authority build effective and transparently managed security services, which are able to deal with law and order on the Palestinian street. This will benefit the Palestinian public. It is also a commitment under the Roadmap. We have been working with the Palestinian Authority over recent months on improving their security capacity, and we continue to do so.

The UK has not, however, provided specific assistance to the Palestinian Authority's management of the disturbances in Gaza in recent days.

Sudan

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the government of Sudan about *(a)* the ratification of the UN Convention Against Torture and other Cruel, Inhuman or Degrading Treatment or Punishment and *(b)* the reflection of that ratification in national legislation. [185572]

Mr. Rammell: The UN Convention Against Torture was raised as recently as 19 July as part of the EU-Sudan dialogue. A draft law is currently before the Council of Ministers for ratification.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of people who have been sentenced to *(a)* death, *(b)* amputation, *(c)* cross-amputation and *(d)* flogging in Sudan in the last 12 months. [185577]

Mr. Rammell: The Sudanese Organisation Against Torture says that in the 12 months March 2003 to March 2004 they received reports of 71 people being sentenced to death and two to cross amputation. The UK Government supports NGOs and human rights organisations which catalogue and document reports of human rights violations, but exact numbers are not available. We are speaking to the Government of Sudan about making their own figures public. We continue to oppose the death penalty in all circumstances.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Sudan about the powers conferred on the Attorney-General and their compatibility with Article 9(3) of the International Covenant on Civil and Political Rights. [185578]

Mr. Rammell: The Attorney-General was ascribed the new powers under the National Security Act which was introduced in 1999 and has been regularly amended. Our Embassy in Khartoum regularly raises cases relating to incommunicado-detention with the Government of Sudan. On the signing of a comprehensive peace agreement, the Government of Sudan has committed itself to removing the emergency laws and implementing international human rights standards including the obligations of the International Convention for Civil and Political Rights.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Sudan about its adherence to Articles 10 and 13 of the UN Basic Principles on the Independence of the Judiciary. [185579]

Mr. Rammell: We have made representations to the Government of Sudan on the need for due process in their legal system and the need for independence of the judiciary.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with members of the United Nations Security Council about the need for a mandatory resolution under Chapter VII of the UN Charter in respect of the conduct of the Government of Sudan in Darfur. [185580]

Mr. Rammell: I refer the hon. Member to the answer I gave to my hon. Friend the Member for Stroud (Mr. Drew) on 21 July 2004, *Official Report*, column 344W.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has held with the President of Chad about the relationship between the Janjaweed in Sudan and the Renewed National Front of Chad. [185582]

Mr. Rammell: We have had no specific discussions with the President of Chad or his Government about the Renewed National Front of Chad. However we continue to monitor the situation with regard to cross-border attacks. The deployment of the African Union Ceasefire Commission in Darfur, to which we have donated £2 million should improve the overall security situation.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he had made to the Government of Sudan about the bombing in May 2004 by its forces of the Darfur town of Tabit, south of El Fashir. [185585]

Mr. Rammell: We regularly press the Government of Sudan to observe all its commitments under the 8 April ceasefire agreement. This includes refraining from aerial bombing.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Sudan about the operation of the specialised criminal courts in Darfur. [185591]

Mr. Rammell: Our Embassy in Khartoum, both bilaterally and through the EU-Sudan dialogue, regularly raises with the Sudanese Government cases that have passed through these courts; focusing not only on the sentences passed but also the lack of due legal process and the right to a fair trial.

Mr. Jenkins: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Department has made to the Sudanese Government regarding the use of rape by pro-government forces within the Darfur region. [185829]

Mr. Rammell: Reports of rape in Darfur are most alarming. We have made clear to the Government of Sudan that they must act now to improve the security situation and protect civilians from such atrocities, or the Security Council will need to take further action. These reports also underline the need to get the AU monitoring mission fully operational as quickly as possible, and to deploy Human Rights monitors. Three all-women commissions to investigate rape allegations have recently been established by the Government of Sudan. We are also encouraging the Government of Sudan to ratify the Convention of Elimination of Discrimination Against Women.

Weapons of Mass Destruction

Denzil Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the countries which the Government *(a)* knows and *(b)* believes, to possess weapons of mass destruction. [183679]

Mr. MacShane: Under the Nuclear Non-Proliferation Treaty (NPT), five states—the United Kingdom, the United States, France, Russia and China—are legally entitled to possess nuclear weapons. Additionally, India and Pakistan have both carried out tests of nuclear explosive devices. We regularly urge Israel to resolve international concerns about its nuclear status by acceding to the NPT as a non-nuclear weapons state. We continue to believe that the Democratic People's Republic of Korea (North Korea) has both the materials and the technical capability to produce nuclear weapons. We also remain very concerned that Iran continues to have ambitions to manufacture nuclear weapons.

All States Party to the Chemical Weapons Convention that have declared possession of chemical weapons are in the process of destroying their stocks of these weapons in accordance with their obligations under the Convention.

We warmly welcome recent moves by Libya to abandon its programmes for the development of weapons of mass destruction (WMD).

We continue to believe that Iraq, under Saddam Hussein, was pursuing programmes for the development of WMD and are also concerned by persistent reports that Syria is also pursuing such programmes.

We regularly urge all countries to sign, ratify and abide by the obligations of all Treaties and Conventions covering the proliferation of WMD.

CABINET OFFICE

Civil Service Management Code

Alistair Burt: To ask the Minister for the Cabinet Office what representations he has received to seek amendment to the Civil Service Management Code in order to allow an appeal process in relation to personnel matters which is independent of the Department in which the complaint arose; if he will take steps to make such an amendment; and if he will make a statement. [185624]

Mr. Alexander: Other than that received from the hon. Member no other representations have been received from hon. Members to seek amendment to the Civil Service Management Code's rules on personal grievance appeals.

Every civil servant has a right of appeal against a management decision that affects them adversely and departments and agencies have delegated authority to determine appropriate arrangements for hearing such appeals and I am not convinced that there are any compelling reasons to change the current arrangements.

Consultants

Mr. Cameron: To ask the Minister for the Cabinet Office (1) how much his Office spent on *(a)* head hunters and recruitment consultants and *(b)* management consultants in (i) 1996–97 and (ii) the last year for which figures are available; [185237]

(2) how much has been spent by his Office on *(a)* advertising and *(b)* public relations consultants in (i) 1996–97 and (ii) the last year for which figures are available. [185239]

Mr. Alexander *[holding answer 19 July 2004]*: Financial information prior to the 1997–98 financial year was produced on a previous accounting system and cannot be readily be retrieved without incurring disproportionate cost.

The Cabinet Office spent £282,000 on advertising and £15.244 million on external consultancy in 2003–04. This figure may change due to accounting adjustments and is subject to final audit. External consultancy incorporates consultancy in several areas including financial, information technology and communications.

Expenditure on headhunters, recruitment consultants, management consultants and public relations consultants is contained within the external consultancy figure and cannot be separately identified without incurring disproportionate cost.

Departmental Costs

Mr. Letwin: To ask the Minister for the Cabinet Office what the total administration costs were in his Department in financial years *(a)* 1996–97 and *(b)* 1997–98. [186064]

Mr. Alexander: Details of the Department's gross running costs for 1996–97 and 1997–98 are contained in Table 5.5 of Public Expenditure Statistical Analyses 2000–01 (Cm 4601). These figures are on a cash basis. From Public Expenditure Analyses 2001–02 (Cm 5101), departments' administrative expenditure was reported on a resource basis, as administration costs.

Copies of Public Expenditure Statistical Analyses are in the Library and are on HM Treasury's public website (www.hm-treasury.gov.uk).

Departmental Staff (Upper Age Limits)

Mr. Andrew Turner: To ask the Minister for the Cabinet Office whether *(a)* his Department and *(b)* agencies for which it is responsible (i) have a set retirement age which applies to all or most personnel and (ii) have a maximum age beyond which applications for employment will not be considered; and what the age is in each case. [186086]

Mr. Alexander: The Cabinet Office and its agencies (Government Car Despatch Agency and Central Office for Information) have flexible retirement and recruitment age policies.

The normal retirement age is 60 except for industrial staff in GCDA where the normal age is 65.

There is no set maximum age beyond which employment will not be considered.

Employment Tribunals

Malcolm Bruce: To ask the Minister for the Cabinet Office how many cases against his Office and the agencies for which it is responsible have been brought to employment tribunals in each year since 1997 in relation to *(a)* equal pay, *(b)* sex discrimination, *(c)* race discrimination, *(d)* disability discrimination and *(e)* unfair dismissal; how many cost awards were made against (i) respondents and (ii) applicants; and how much has been spent (A) settling and (B) contesting claims. [181462]

Mr. Alexander: The information in respect of the Cabinet Office and its two agencies, COI and the Government Car and Despatch Service (GCDA) is shown in the table.

	Equal pay	*Sex discrimination*	*Race discrimination*	*Disability discrimination*	*Unfair dismissal*
1997	0	2	0	0	0
1998	0	0	0	0	0
1999	0	0	0	0	0
2000	0	0	1	1	0
2001	0	0	1	1	2
2002	0	[1]1	0	0	1
2003	0	0	0	0	[2]1

[1] Same case as the one originally brought in 1997. The total cost of contesting the case is recorded in 2002.
[2] Case is on-going.

Notes:
1. Figures given are for current Cabinet Office agencies and the year the case was settled.
2. The figures are supplied by the Treasury Solicitor's Department, which is responsible for litigation on behalf of the Cabinet Office.

Total cost involved in contesting claims in each year and the number of settlements is shown in the table.

	Number of cost awards made:			
	(i) Respondents	*(ii) Applicants*	*Costs of contesting claims (£)*	*Number of settlements*
1997	0	0	1,674	0
1998	0	0	0	0
1999	0	0	0	0
2000	0	0	4,055	0
2001	0	0	15,800	1
2002	0	0	6,480	1
2003	0	0	4,000	1

Notes:
1. Figures given are for current Cabinet Office agencies and the year the case was settled.
2. The figures are supplied by the Treasury Solicitor's Department, which is responsible for litigation on behalf of the Cabinet Office.

The total cost of settlements over this period was £36,379. Information about how much was spent on settling individual claims has been withheld to protect the confidentiality of individuals.

Government Car and Despatch Agency

Mr. Bacon: To ask the Minister for the Cabinet Office how many people were employed in the Government Car and Despatch Agency *(a)* in 1997 and *(b)* at the latest date for which information is available, broken down by job title; what functions were performed by those holding each job title; and how many people were employed whose primary function was (i) human resource or personnel functions, (ii) finance and accounting functions, (iii) information technology functions and (iv) other support, back office or administration functions. [183579]

Mr. Alexander *[holding answer 14 July 2004]:* The responsibility for the provision of ministerial cars and drivers has been delegated under the terms of the Framework Document to the Government Car and

Despatch Agency. I have asked its Chief Executive Mr. Nick Matheson to write to the hon. member. Copies of his letter will be placed in the Library.

Prime Minister's Delivery Unit

Mr. Letwin: To ask the Minister for the Cabinet Office how many *(a)* civil servants and *(b)* special advisers work in the Prime Minister's Delivery Unit, broken down by salary bracket. [180536]

Mr. Alexander: As at 1 June 2004 31 civil servants and no special advisers were working in the Prime Minister's Delivery Unit. The information is based on headcount. The number of civil servants broken down by salary bracket is shown in the table.

Salary bracket	*Number of staff by headcount*
£15,570-£24,289[1]	3
£21,268-£32,361[2]	6
£35,819-£50,035	10
£51,250 and above	12

[1] This incorporates two pay ranges.
[2] This incorporates two ranges.

Refurbishment Costs

Mr. Cameron: To ask the Minister for the Cabinet Office what the total cost of refurbishments to the fabric of buildings owned by his Office has been since May 1997. [185238]

Mr. Alexander *[holding answer 19 July 2004]:* Costs of renovation and refurbishment of freehold buildings on the Cabinet Office's estate (excluding the Civil Service College's site at Sunningdale Park) since 1997–98 to 2003–04 are shown in the table:

	Cost (£)
1997–98	0
1998–99	2,161,402
1999–2000	15,209,224
2000–01	12,428,647
2001–02	14,817,674
2002–03	12,304,117
2003–04	7,496,154

The period from 1998–99 to 2003–04 includes costs associated with the major redevelopment of the previously vacant and highly dilapidated Admiralty Arch, 22 and 26 Whitehall buildings.

A PFI/PPP partnership in relation to the Civil Service College's Sunningdale Park site commenced on 13 May 2002. From that date, the college's private sector partner has spent around £12 million on an overall investment plan. This has included expenditure on renovation, refurbishment and new build projects.

TRANSPORT

Road Congestion

Mr. Amess: To ask the Secretary of State for Transport what progress has been made with reducing road congestion. [185420]

Mr. Jamieson: Significant progress has been made putting measures in place to tackle congestion. 100 road schemes have been completed since 2000, 22 of these delivered since June 2002. This includes the M6 Toll, which opened in December 2003. A further 12 strategic road schemes are currently under construction, including widening of the M25 between Junctions 12 to 15 around Heathrow. The London congestion charge has delivered significant benefits. Traffic Officers are already being deployed on the motorway network starting in the West Midlands, to improve the clearing of incidents, and new technologies are being introduced to help improve traffic flow. The Traffic Management Act gives new powers to the Traffic Officers, and to local authorities to improve the management of local roads.

Road Schemes

Tom Cox: To ask the Secretary of State for Transport what European Union financial support has been given for major inter regional road developments in the United Kingdom in each of the last five years. [185342]

Mr. Jamieson: The following table shows all the road projects and telematic schemes in the UK that have been awarded Trans-European Network (TENs) funding since the TENs fund was established in 1996.

At the current exchange rate this means that the UK has been awarded €30.618 million (equivalent to £20.413 million at present exchange rates). This is subject to confirmation from the Commission for two 2004 awards.

While TENs projects are awarded funding there can be a number of reasons as to why the payment could be less than the original award, including exchange rate fluctuations, changes in the scope of a project, or the Commission deciding that some costs are ineligible. It is therefore not possible to translate the awards into annual financial support.

Mr. Cameron: To ask the Secretary of State for Transport how many road schemes have been started in *(a)* the Thames Valley area and *(b)* Oxfordshire in each year since 1992. [186005]

Mr. Jamieson *[holding answer 22 July 2004]:* On the strategic road network construction has started on two major road schemes, since April 1998, in the Thames Valley area. These are as follows:

Scheme	Start of works	Actual/estimated completion
A41 Aston Clinton Bypass	August 2001	October 2003
A34 Chieveley/M4 J13 Improvement	March 2003	2004–05

Work has not started on any major strategic road schemes, Oxfordshire, since 1998. This information is available only for major road schemes costing in excess of £5 million starting after 1998 when the new Targeted Programme of Improvements was introduced.

On local roads there have been no starts on major schemes in the Thames Valley or Oxfordshire since 1998. For these roads the Department only make decisions about schemes over £5 million which are approved individually through the LTP process. Smaller schemes are funded by the local authorities out of their block allocations and the Department does not hold records of how that funding was used. We do not have records on major scheme starts before the new LTP system was introduced in 1999–2000 and getting it would be difficult, particularly since there have been changes to local authority structures. Trying to find the information would take time and be at a disproportionate cost.

Richard Younger-Ross: To ask the Secretary of State for Transport how his Department measures his target to maintain the strategic road network at optimum level; and what the level of the strategic road network was estimated to be at 1 April. [186166]

Mr. Jamieson: The Department sets the Highways Agency an indicator to measure its performance in maintaining the network in a safe and serviceable condition. A new way of measuring the performance was introduced in the 2004–05 Highways Agency Business Plan, with a target to "achieve a road surface condition index score of 100|".

In consultation with the Department the Agency has developed an index that measures road surface condition. This is a major improvement on the previous indicator that was based on the percentage of the network that required investigation. The measure of road surface condition is based on a wider range of surveys covering rutting, unevenness, cracking and skid resistance. The target takes account of the fact that it is not practical or sustainable to maintain the whole road network in an as-new condition. The condition of the network is established, using the principles of minimising whole life costs taking into account disruption to road users. The condition at which the road network is to be maintained has been equated to a road surface condition index score of 100 and is the target level at which the road network will be

maintained year-on-year. To allow for variability/ uncertainty in annual condition scores, a tolerance of 1 is allowed in the target.

We estimate that the level at 1 April was within the parameters set out i.e. an index of 1001. The actual figure will be calculated and the result audited during 2004–05.

Richard Younger-Ross: To ask the Secretary of State for Transport whether the Government is on track to achieve its target of widening 360 miles of strategic road network by 2010; and if he will list the schemes involved in the widening programme indicating the *(a)* miles of road widened, *(b)* construction cost, *(c)* scheduled start of construction, *(d)* expected completion date and *(e)* status at 1 April. [186167]

Mr. Jamieson: The Government are on track to deliver 360 miles of widening of the strategic road network by the end of 2010–11 (within the period of the 10 Year Plan).

The following table provides a list of current and completed major schemes that are expected to contribute 387 route miles of widening by the end of 2010–11. Alongside each scheme is detailed: the miles of route widened; the Stage Reached or 2004–05 Key/ Critical Event as at 1 April 2004; the latest estimated outturn cost; and the anticipated dates of completion for those schemes that have already started works, or are expected to start works in 2004–05

Firm decisions have yet to be made on start of works for the remainder of the current programme so no forecast dates of opening are possible.

Scheme	*Stage reached or 2004–05 key/critical event (as at 1 April 2004)*	*Latest estimated outturn cost (£m)*	*Route miles*	*Estimated dates of completion*

A2/M2 Cobham to Junction 4 Widening	Completed Scheme	280.0	10.6	—
Total		—	387.6	—

Richard Younger-Ross: To ask the Secretary of State for Transport whether the Government achieved its target of delivering 100 major trunk road junction schemes by 2003. [186169]

Mr. Jamieson: 97 out of 100 small trunk road improvements to tackle safety and congestion, announced in June 2000, have been completed. The remaining three will be completed during 2004–05.

Transport Expenditure

Chris Ruane: To ask the Secretary of State for Transport how much public money was spent on transport in each of the last 25 years. [186157]

Mr. Jamieson: Figures for total managed expenditure on transport between 1983–84 and 2002–03 (estimated outturn) are available in Public Expenditure Statistical Analyses published annually by Her Majesty's Treasury. Figures for earlier years are not available on a comparable basis.

Transport Funding (Warrington)

Helen Jones: To ask the Secretary of State for Transport how much Government funding has been allocated for transport improvements in Warrington in each of the past five years. [180082]

Mr. McNulty: Funding for transport improvements allocated to the local authority in each of the last five years is as follows:

£ million

	Improvement	Maintenance
2003–04	2.2	2.8
2002–03	2.2	2.5
2001–02	2	2.4
1999–2000	0.9	1.8

There have been three Government funded major schemes taken forward via Warrington's Local Transport Plan and the previous Transport policies and Programme systems. 1. Urban Traffic Management and Control (DfT funding of £5.195 million 2001–2002-this project has incurred expenditure to date, and is on-going)The following projects have yet to gain full approval from DfT, but have received provisional funding to the maximum cash figures stated; 2. Bridgefoot bypass (£5.895 million provisionally approved DfT funding 2001–2002); 3. Central Bus Interchange (£6.338 million provisionally approved DfT funding 2003/2004).

TREASURY

Aviation Fuel

Norman Baker: To ask the Chancellor of the Exchequer whether he supports the budget proposal from the European Commission for an EU tax on airline fuel. [186176]

John Healey: I refer the hon. Member to the answer he received from the Parliamentary Under-Secretary of State for Transport on 22 June 2004, *Official Report*, column 1315W.

National Debt

Chris Ruane: To ask the Chancellor of the Exchequer what the level of *(a)* national debt and *(b)* debt interest payment was in each of the last 25 years at today's prices. [186101]

John Healey: Figures for public sector net debt and central Government debt interest payments in current prices are available on the Office for National Statistics website: http://www.statistics.gov.uk/StatBase/tsdtables1.asp?vlnk=fsf

Table 1.1 A: Public Sector Finances (series RUTN and RUTO) shows figures for public sector net debt in £ billion and as a percentage of GDP. Table 1.1C: Central Government (series NMFX) shows debt interest payments in £ billions.

Figures for GDP deflators at market prices are available on the HM Treasury website: http://www.hm-treasury.gov.uk/economic_data_and_tools/gdp_deflators/data_gdp_fig.cfm

Public Relations

Dr. Cable: To ask the Chancellor of the Exchequer what the salary costs to the Department were for employees working in public relations and publicity in each year since 1997. [183856]

John Healey: The Treasury currently has a communications team consisting of a press office and a publishing and internet branch.

The press office manages the Treasury's and Treasury Ministers' communications with the media. For information on salary costs, I refer the hon. gentleman to the answer by the Financial Secretary to the Treasury to the hon. Member for Truro and St. Austell on 30 June 2004, Official Report, column 286W.

The publishing and internet branch manages the Treasury's formal publications of documents and other material, and maintains its public internet site. Total basic salaries for that branch were £268,000 for 2001–02, £314,000 for 2002–03 and £236,000 for 2003–04. Comparable figures for previous years are not available.

Retail Spending/Household Income

Mr. Kenneth Clarke: To ask the Chancellor of the Exchequer what the change in the level of *(a)* retail spending and *(b)* household income has been in each of the last seven years. [186214]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Kenneth Clarke, dated 5 August 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question on the change in the levels of retail spending and household income in each of the last seven years. (186214)

The information available is shown in the table below. Retail spending is measured by the value of retail sales. Household income is measured as the total resources in the combined household and non-profit institutions serving households (NPISH) sector account, ie before deduction of tax etc. The accounts for the household and NPISH sectors are currently combined: separate estimates are not available.

Annual percentage change in value of retail sales and Household[1] income UK 1997 to 2003

	Value of retail sales: annual percentage change	*Household income[1]: annual percentage change*
1997	6.3	5.6
1998	3.9	5.3
1999	3.3	5.6
2000	3.6	7.5
2001	5.9	6.0
2002	4.9	3.5
2003	2.4	4.3

[1] Household income of the combined household and non-profit institutions serving households sectors.

Trade Codings

Mr. Tynan: To ask the Chancellor of the Exchequer pursuant to his answer of 4 May 2004, *Official Report*, column 1484W, what proportion of trade recorded under these codings has been assessed to be *(a)* miscoding and *(b)* illegal importation; and how many prosecutions have resulted. [185674]

John Healey: HM Customs and Excise have examined the trade records for code 43031010 since 1 January 2003 and have found that all transactions have arisen as a result of miscoding. A similar analysis in respect of imports and exports in previous years would require examination of the records of the transaction held by the importer or exporter and could be undertaken only at disproportionate cost.

Customs have no information or record of any illegal importation and their assessment is that the low values of trade recorded in the period since 1998 have arisen from either:

(a) further examples of miscoding, or

(b) legitimate imports or exports involving either adult seal skins, non commercial trade or trade in goods that have resulted from traditional hunting by the Inuit people.

No trade has been recorded against codes 43017010, 43021941 or 43023051 since 1998.

There have been no prosecutions since 1998 in respect of breaches of the prohibition established by the Import of Seal Skins Regulations 1996.

Trainee Inspector of Taxes Programme

Mr. Prisk: To ask the Chancellor of the Exchequer what the estimated *(a)* advertisement and recruitment costs and *(b)* employment costs, including national insurance, will be for the Inland Revenue's Trainee Inspector of Taxes Programme for July 2004. [185931]

Dawn Primarolo: The information is as follows.

(a) Costs:

Advertising costs:

A variety of media were used to advertise the Inland Revenue's Tax Inspector Recruitment Programme, including a national broad-sheet newspaper and recruitment/diversity web-sites, some of which were sourced free of charge. The total cost of advertising is estimated at £14,000.

Recruitment costs:

The cost of the recruitment campaign is estimated at £314,000. This estimate is based on an expected volume of 10,000 applications. The recruitment campaign started on 19 July 2004 and the final costs cannot yet be confirmed.

(b) Employment costs:

The employment costs, including national insurance are estimated at £4.9 million per annum.

The Inland Revenue is currently implementing a number of changes in order to deliver efficiencies in costs and jobs. These particular jobs are part of a Spend to Save Strategy announced in this year's budget.

CULTURE, MEDIA AND SPORT

Positive Activities Programme

Mr. Willis: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the Positive Activities Programme; and what the level of funding will be made available for the programme in each year from 2003 to 2006. [185354]

Mr. Ivan Lewis: I have been asked to reply.

The Positive Activities for Young People (PAYP) programme was launched in spring 2003 offering diversionary activities aimed at young people most at risk of social exclusion, truancy and committing crime. The programme is being delivered across England from May 2003 to March 2006.

In 2003–04 PAYP funding of £25 million was provided by the Department for Education and Skills, the Big Lottery Fund and the Home Office to deliver a minimum of 22,000 full-time places during all school holiday periods. In addition to the activities, one-to-one support was made available for the most "at risk" young people. Baselines for 2004–05 and 2005–06 have yet to be finalised following this year's Spending Review.

Mr. Willis: To ask the Secretary of State for Culture, Media and Sport how many young people participated in the Positive Activities Programme in 2003. [185355]

Mr. Ivan Lewis: I have been asked to reply.

The Positive Activities for Young People (PAYP) programme was launched in spring 2003. At least 75,000 young people participated in PAYP activities during the summer holidays of 2003 with approximately another 40,000 taking part during the October half term and Christmas holidays.

Mr. Willis: To ask the Secretary of State for Culture, Media and Sport if she will list the local education authorities which participated in the Positive Activities Programme in *(a)* 2003–04 and *(b)* 2004–05. [185356]

Mr. Ivan Lewis: I have been asked to reply.

The Positive Activities for Young People (PAYP) programme is a cross-government programme which is administered by the Department for Education and Skills. Responsibility for managing programme delivery in each region is devolved to the nine regional government offices. Delivery plans prepared by each of the regional government offices show that the Positive Activities for Young People programme has operated in every local education authority area in both 2003–04 and 2004–05

DEFENCE

Army Training

Mr. Keetch: To ask the Secretary of State for Defence how many personnel can be trained at any one time at *(a)* ITR Catterick, *(b)* ATR Pirbright, *(c)* ATR Lichfield and *(d)* ATR Winchester; how many personnel underwent training at each site in each of the last 12 months; and if he will make a statement on Army and infantry recruitment and training. [184838]

Mr. Caplin: The following tables show the training capacity and numbers who underwent training by month during financial year 2003–04 for Army Training Regiment Pirbright (ATR(P)), ATR Lichfield (ATR(L)) and ATR Winchester (ATR(W)) and Infantry Training Centre (ITC) Catterick.

Table 1: Training capacity

Unit	*Training capacity*
ATR Pirbright	1,008
ATR Lichfield	520
ATR Winchester	520
ITC Catterick	2,360

The training capacity detailed for ATR(P), ATR(L) and ATR(W) is limited by the number of training teams that are available at any one time. For example, ATR(W) has an establishment of 15 training teams with a maximum capacity of 40 trainees per training team. However, due to leave and instructor training, the number of training teams that are available for training purposes at any one time is 13. This figure, multiplied by 40, provides the training capacity of 520 for ATR(W).

ITC Catterick combines both Phase 1 (initial) and Phase 2 (trade) training for the Infantry. Since the establishment of the Combined Infantry Training course at ITC Catterick in 2002, infantry training at Catterick cannot be divided into defined stages, as the course is essentially one seamless progression from Phase 1 to Phase 2.

Table 2: Numbers under training by month in FY 2003–04

	Unit			
	ATR(P)	*ATR(L)*	*ATR(W)*	*ITC(C)*
2003				
April	840	411	542	2,069
May	778	369	483	1,925
June	956	245	432	2,017
July	717	209	395	1,889
August	933	349	416	1,787
September	1,025	407	523	1,973
October	780	293	524	2,031
November	708	283	416	2,053
December	972	345	519	1,738
2004				
January	918	281	402	1,994
February	894	251	394	2,100
March	859	274	426	2,020

The figures in Table 2 include those trainees in remedial and rehabilitation training, who are additional to training capacity. Hence, in some months, the figures quoted will exceed the training capacity detailed in Table 1.

Recruitment is buoyant and the Army Training and Recruiting Agency has outperformed against mandated targets over the last two years. Although some battalions are understrength, the general situation across the infantry remains healthy. It is difficult to attain an even manning balance across all regiments. Some regiments benefit from excellent recruitment inflow and a balance has to be made. Where there are shortages elsewhere every effort is made to alleviate the situation.

C-17 Aircraft

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will make a statement on the leased C-17 aircraft; and who bears the cost, under the contract, should an aircraft be lost as a result of pilot error or in combat. [183405]

Mr. Caplin: At the conclusion of the current lease arrangement, we intend to buy the current fleet of four aircraft. We intend to purchase a further aircraft bringing our C-17 fleet up to five aircraft.

In the meantime, should a leased aircraft be lost as a result of pilot error or in combat, the contractual agreement requires that the Ministry of Defence pay the residual value and fulfil the remaining lease payments.

Combat and Operational Clothing

Mr. Hoyle: To ask the Secretary of State for Defence what steps he took to establish that the tender for combat and operational clothing supplies DC4BESL/1002 Cut and Sew had been conducted in accordance with EU tendering rules. [186202]

Mr. Ingram: All tenders for non-warlike stores are conducted in accordance with the Public Supply Contract Regulations 1995.

Mr. Hoyle: To ask the Secretary of State for Defence what estimate he has made of the number of jobs that would *(a)* be created in the UK if the contract for combat and operational clothing supplies DC4BESL/1002 Cut and Sew were to be let to a UK company and *(b)* be lost in the UK if the contract was awarded to a firm in China. [186203]

Mr. Ingram: The contract referred to has been awarded to a United Kingdom company creating a small number of quality jobs and it safeguards approximately 40 other jobs. Some new positions have already been advertised in both local and national press, and it is anticipated that further jobs will be created for UK staff during the life of the contract.

No direct contract has been awarded to China and as such its impact has not been measured.

Mr. Hoyle: To ask the Secretary of State for Defence what criteria were set down for shortlisting companies tendering for the combat and operational clothing contract DC4DESL/1002; and whether all the companies on the shortlist met all the criteria. [184363]

Mr. Ingram *[holding answer 15 July 2004]:* Criteria used, through a Pre-Qualification Questionnaire, were consistent with the Public Supply Contract Regulations 1995; specifically Regulations 14, 15, 16, 17 and 20. All companies selected for the Tender Panel met the criteria.

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on security of supply in relation to contract DC4BESL/1002 Cut and Sew from China. [184348]

Mr. Ingram: The production of these garments is considered low risk—the most significant technical aspect is the maintenance of the required Infra Red Reflective (IRR) standard. Not withstanding this, the Prime Contractor has identified controls to ensure performance levels are maintained. The Prime Contractor will also have in place a viable logistic system to maintain security of supply.

Defence Information Infrastructure

Mr. Connarty: To ask the Secretary of State for Defence (1) what in-house options have been considered for the Defence Information Infrastructure project; and whether a public sector comparator is being explored as part of his Department's approach to IT infrastructures; [183763]

(2) what intelligent customer elements are being explored as part of the possible privatisation of his Department's IT infrastructure; [183764]

(3) what consultation has taken place with the recognised trade unions regarding the privatisation of IT functions in his Department; and what documents have been passed to the trade unions as part of or as a result of this consultation process; [183768]

(4) if he will place in the Library information on the previous contract record of bidders from the Defence Information Infrastructure project; and what account is being taken of these records during the current bidding process. [183769]

Mr. Ingram: The Defence Information Infrastructure (DII) programme is not a privatisation of IT infrastructure. Under the terms of the Public Private Partnership arrangement, the MOD will continue to own the infrastructure but the delivery of the service will be the responsibility of the chosen commercial Delivery Partner.

A significant proportion of the Department's IT provision has been outsourced in recent years as part of wider initiatives to make greater use of the private sector in the provision of public services. The Department's policy is that when services already delivered under outsourcing arrangements are re-competed or rationalised, in-house bids should not normally be invited because the associated requirement for substantial reinvestment in management, training and support systems makes it unlikely that an in-house option would represent value for money. Where no in-house bid is invited, an estimate of the costs of a public sector option would normally be made, in order to provide a value for money benchmark.

In the case of the DII project, the Public Sector Comparator (PSC) is currently being developed with the Trades Unions and reflects the "fallback' option that the MOD would pursue if the commercial bids for DII failed. The PSC assumes the continuation of the current mix of in-house and commercial arrangements including some internal efficiencies and a capability uplift. It will be used within the DII Future Main Gate Business Case as a Value for Money comparator against which to assess the commercial bids. The Trades Unions have been briefed on the current scope of the first increment of DII Future and the related PSC. They have been given the opportunity to comment on the robustness of the PSC and associated risks by 30 July 2004. They have also been invited to submit alternative proposals in the context of the PSC.

It has also been agreed that the Trades Unions will be involved in the development of the Intelligent Customer Function (ICF) as it progresses. Work on the definition of the Intelligent Customer Function for DII is being taken forward under three main headings:

The MOD wide responsibilities for the ICF

The responsibilities of the ICF to be undertaken by the Defence Communications Services Agency (DCSA)

The ICF functions to be undertaken by the DII Integrated Project Team.

The elements of the ICF which are currently being explored include:

Customer and Account Management

Business and Financial Management

Service Development and Technical Assurance

Programme Delivery, including Project Assurance and Benefits Management

Commercial, Contract and Supplier Management

Service Assurance

Formal meetings between MOD staff and the Council of Civil Service Unions (CCSU) have been taking place since the beginning of 2003. We have provided the Trades Unions with access to the same information that has been provided to the two remaining bidders for DII Future. Some examples of the information provided include:

The DII Business Prospectus provides a comprehensive description of the intended scope of the programme and was made available to the TUs on 3 April 2003.

A copy of the Procurement Strategy Review Note was made available to the TUs on 3 April. At the request of the CCSU, on 13 February 2004, a copy of comments provided by HM Treasury on the Review Note was also provided.

A copy of the report produced at the end of the Personnel Impact Study was made available to TUs on 24 June 2003.

The current scope of DII(F) Increment 1 for which bids have been invited was provided to the TUs on 18 June 2004.

A copy of the draft Public Sector Comparator (PSC) was passed to the TUs on 28 June 2004 and also access was given to the IPT risk register.

Formal meetings will continue between officials and the Trades Unions according to an agreed timetable of engagement. This includes a workshop held with them on 2 July 2004 when the current scope of Increment 1 and the PSC was briefed to them.

Information relating to the track record of the two remaining bidders for the DII contract will not be placed in the Library of the House. This information is commercially sensitive and I am withholding it under Exemption 13 of the Code of Practice on Access to Government Information. However, track record is one of a number of factors included in the evaluation of bids. The Department's Supplier Relations Group has conducted research of bidding consortium members' performance both in Defence and across Government. In addition, the project has taken up references, by telephone and through visits, from existing customers of the key companies in the bidding consortia. Further reference visits will be conducted during the final phase of the procurement, targeting customers in receipt of a similar volume and range of services.

John McDonnell: To ask the Secretary of State for Defence (1) if he will place in the Library a copy of the full risk assessment setting out control measures proposed by the Government for the possible privatisation of IT infrastructure; [183082]

(2) how many employees fall within the scope of the Defence Information Infrastructure project, broken down by *(a)* civil servants and *(b)* staff provided by contractor support. [183083]

Mr. Ingram *[holding answer 14 July 2004]*: The Defence Information Infrastructure (DII) programme Integrated Project Team (IPT) is currently in negotiation with two potential commercial Delivery Partners (DP) for the provision of Information Systems services for Ministry of Defence.

The DII programme is not a privatisation of IT infrastructure. Under the terms of the proposed Public Private Partnership arrangement, MOD will continue to own the infrastructure but the delivery of support services will be the responsibility of the commercial Delivery Partner.

Risk management is a key feature of the business of any IPT and its associated Senior Responsible Owner (SRO). DII programme risks are managed on an on-going basis through a risk register; each risk has its own mitigation plan. The IPT also manages a joint risk register with each of the two bidders for the DII contract; each is therefore specific to the particular bidder's proposed solution. These registers are, by their nature, commercially sensitive, and cannot therefore be placed in the Library of the House without the on-going competition being prejudiced.

As part of the concept phase of the Smart Procurement process, the Initial Gate Business Case (IGBC) for the DII programme outlined the headline risks identified at that stage of the programme. The IGBC was approved in September 2002; the risks identified at that stage will be placed in the Library of the House. A copy of the DII Business Prospectus has already been placed in the Library. The Business Prospectus details why DII is necessary for MOD and how it will be procured.

The Main Gate Business Case, which is due to be presented to the Investment Approvals Board later this year will provide a current assessment of DII risks and their mitigation plans associated with the procurement. This Business Case will contain commercially sensitive information from the two bidders for the DII contract and therefore cannot be made publicly available.

Over the planned three main increments of the DII programme, it is estimated that up to 1,500 civilian staff fall within the full scope of the project, including both staff supporting current systems and those presently within the IPT. It has been necessary in some cases to supplement the skills of the civilian and military staff employed in the IPT by more specific expertise from the commercial sector.

There are currently 13 contractors occupying established civil service posts within the IPT.

Departmental Annual Report

Dr. Cable: To ask the Secretary of State for Defence how many copies of his Department's Annual Report were printed in each year since 1997; how many were sold in each year; and what the *(a)* publication costs and *(b)* sales revenue were. [183890]

Mr. Caplin: The Ministry of Defence's Annual Report (and Accounts[1]) is published by The Stationery Office (TSO). The numbers sold by TSO in each year are shown in the table.

[1] 2002–03 and 2003–04 only. Prior to 2002–03, the Annual Report was published separately from the Consolidated Departmental Resource Accounts.

Number of Report copies sold

	Total[1]	*To MOD*[2]
1996–97	1,200	520
1997–98	914	510
1998–99	1,117	600
1999–2000	1,287	800
2000–01	1,126	650
2001–02	1,113	450
2002–03	1,153	650
2003–04	[3]—	[3]—

[1] To date.
[2] At time of publication. (MOD subsequently bought 100 further copies of the 2002–03 Annual Report and Accounts).
[3] Still to publish.

The costs of printing and publishing MOD's Reports are not met by the Department but fall to TSO, with TSO retaining the revenues earned from sales.

Reports going back to 1998–99 are available on: www.mod.uk

Departmental Properties

Mr. Lyons: To ask the Secretary of State for Defence how many of his Department's properties were sold in 2003. [184235]

Mr. Caplin: In 2003 the Ministry of Defence sold over 160 parcels of land and properties.

Detainees (US)

Sir Menzies Campbell: To ask the Secretary of State for Defence whether the trilateral agreement governing the handover of prisoners to US authorities remains in force; and if he will make a statement. [185049]

Mr. Ingram: The arrangement for transferring internees between the United Kingdom, United States and Australia remains in force.

Future Role of Crombie

Rachel Squire: To ask the Secretary of State for Defence what the completion date for the study on the Future Role of Crombie will be; and what the date will be of the announcement of the outcome of the study. [184464]

Mr. Caplin *[holding answer 19 July 2004]:* The Future Role of Crombie Study was completed in March 2004. No decisions have been made and I am therefore not in a position to provide a definitive date of when an announcement will be made.

Green Minister

Mr. Horam: To ask the Secretary of State for Defence if he will make a statement on the activities of the Green Minister in the Department in financial year 2003–04. [185132]

Mr. Caplin: I represent the Ministry of Defence on the Ministerial Sub-Committee of Green Ministers. It has been established practice under successive Governments not to disclose information relating to the proceedings of Cabinet Committees. This information is withheld under Exemption 2 of the Code of Practice on Access to Government Information.

Hooding

Adam Price: To ask the Secretary of State for Defence pursuant to the answer of 15 July 2004, *Official Report*, column 1235W, on Iraq, on what basis military commanders concluded that hooding detainees could be harmful. [185974]

Mr. Ingram *[holding answer 22 July 2004]:* On the basis that hooding (if applied inappropriately) could be harmful.

Adam Price: To ask the Secretary of State for Defence what judgements by the United Nations Committee Against Torture he has studied on the issue of hooding detainees. [185886]

Mr. Caplin: Several reports by the United Nations Committee Against Torture have criticised the use of hooding in the context of interrogations and torture. I am not aware, however, of any judgements which would affect our view that temporarily obscuring a detainee's vision by blindfolding or hooding may be justified in certain circumstances such as during the arrest and transit of prisoners to prevent them viewing sensitive information.

Interrogation Policy

Adam Price: To ask the Secretary of State for Defence whether the 10 September document entitled Interrogation and Counter-Resistance Policy issued by the Combined Joint Task Force-7 was seen by British *(a)* service personnel, *(b)* officials and *(c)* Ministers. [183521]

Mr. Hoon *[holding answer 12 July 2004]:* The Combined Joint Task Force-7 document entitled Interrogation and Counter-Resistance Policy has not been seen by Defence Ministers. I am not aware that any British armed forces personnel or Ministry of Defence officials have seen the document.

Iraq

Adam Price: To ask the Secretary of State for Defence what information he has examined in relation to civilian casualties allegedly caused by UK forces on 24 June 2003 in Majar-al-Kabi. [177586]

Mr. Ingram: Ministry of Defence ministers received a number of submissions and reports on the tragic events that took place in Majar-Al-Kabir on 24 June 2003, in which six members of the Royal Military Police were killed and a number of British soldiers were wounded.

Harry Cohen: To ask the Secretary of State for Defence if he will make a statement about the killing of approximately 30 Iraqi civilians by British soldiers in Amara in May; whether complaints have been received about this; and if he will make a statement. [179411]

Mr. Ingram: During May, United Kingdom Forces were subject to a large number of attacks by armed elements. For example, on 8 May 2004 over 200 separate incidents were reported in which UK forces were engaged. These attacks included small arms fire, rocket-propelled grenades and mortar attacks. As we have previously made clear, although we record every incident in which we believe there has been a fatality, it is not always possible to determine accurately the number of fatalities that occur during a particular incident.

A complaint was reportedly made by a local Iraqi leader following an incident in Al Amarah on 14 May 2004, although he later denied making such an allegation. Photographs have also been passed to us by a National Newspaper, which are now being studied by the Royal Military Police.

Mr. Hancock: To ask the Secretary of State for Defence pursuant to his answer of 28 June, ref 166938, on Iraq, how many meetings have taken place between the International Committee of the Red Cross (ICRC) representatives and British military staff; what the dates and venues of the meetings were; how many reports have been produced by the ICRC as a result; and if he will make a statement. [182575]

Mr. Ingram: There have been four visits by the International Committee of the Red Cross to the Divisional Temporary Detention facility (DTDF) in Shaibah. These all occurred in 2004: 10–12 February; 1–3 April; 14 May; and 17–19 May.

In addition to these visits there have been four meetings between ICRC representatives and British military staff in 2003: 19–21 February; 28 May; 26 November; and 30 March 2004. These took place in the United Kingdom and Europe.

As well as the interim report produced on 10 February 2004 there have been two working papers produced by the ICRC following their visits to the DTDF in April and May of this year.

Dr. Cable: To ask the Secretary of State for Defence what his Department's estimate is of the number of Iraqi *(a)* civilian casualties, *(b)* civilian deaths, *(c)* military casualties and *(d)* military deaths during coalition operations in Iraq. [183802]

Mr. Caplin: I refer the hon. Member to the answer I gave on 14 June 2004, *Official Report*, column 641W, to my right hon. and learned Friend the Member for Rushcliffe (Mr. Clarke).

Tom Cox: To ask the Secretary of State for Defence how many qualified medical staff are employed at the British military detention centre in Iraq; what procedures are followed when a prisoner wishes to seek medical advice; and if he will make a statement. [183961]

Mr. Ingram: Medical cover is provided by the military unit responsible for the security of the Divisional Temporary Detention Facility and consists of a Regimental Medical Officer (RMO) and a compliment of Combat Medical Technicians.

Internees seeking medical advice are assessed in the first instance by the RMO. If necessary they are referred to the Field Hospital, manned by approximately 150 qualified medical staff, that is available at the same location.

Tom Cox: To ask the Secretary of State for Defence how many Iraqi prisoners held by United Kingdom forces in Iraq since the invasion have been released from custody without charge; and if he will make a statement. [183962]

Mr. Ingram: Up to the transition of authority on 28 June, British forces had the authority to intern people for imperative reasons of security in accordance with Article 78 of Geneva Convention IV. Since the 28 June, the authority to intern remains but it is in accordance with UNSCR 1546. In addition, British forces have the authority temporarily to detain people believed to have committed a crime under Iraqi law, who are then handed over to the Iraqi judicial system. It is the Iraqi authorities who are empowered to bring criminal charges.

In total, some 3,000 individuals have been either released as former Prisoners of War or internees judged no longer to pose a threat, or passed to the Iraqi authorities as suspected criminals.

Andrew Rosindell: To ask the Secretary of State for Defence how many attacks were made on British forces by Iraqi insurgents *(a)* in the five days leading up to the handover and *(b)* in the five days after the handover of sovereignty. [184274]

Mr. Caplin: During the week leading up to handover (28 June 2004) there were six attacks made on British forces by Iraqi insurgents and in the week after the handover there were nine attacks on British forces.

Mr. Lyons: To ask the Secretary of State for Defence what proportion of UK forces in Iraq are reserves. [184290]

Mr. Ingram: The precise number of personnel in the gulf fluctuates. As at 2 July approximately 15 per cent. of United Kingdom Forces deployed in Iraq are reservists.

Mr. Wood: To ask the Secretary of State for Defence what estimate he has made of the cost per week of reinstating the free postal packet scheme to Iraq for the duration of the present deployment; and how such costs are calculated. [184794]

Mr. Ingram: When the Ministry of Defence carried out its reviews of the free postal packet service to Iraq set out in my answer to the hon. Member for Uxbridge (Mr. Randall) on 5 May 2004, Official Report, column 1527W, the costs reviewed were calculated per calendar month. Factors involved in the calculation of such costs were: payment to the Royal Mail Group (£88,000), the hire of extra equipment (£12,500) and the cost of civil charter should military transport be unavailable (£3 per kilogram). Based on historical data, a packet ratio of 0.2 kg per serviceman per day was assumed.

The cost of extending the scheme in Iraq would cost approximately £290,000 per calendar month. In my answer to the hon. Member for Portsmouth, South (Mr. Hancock) on 5 March 2004, Official Report, column 1155W, I stated that we could not justify continuance of the scheme to Iraq when other operational theatres were not in receipt of the service; therefore, further calculations for the Iraq theatre of operations alone were not made. The cost of extending the scheme to all Service personnel deployed on overseas operations would be approximately £380,000 per calendar month.

Adam Price: To ask the Secretary of State for Defence what evidence he has studied in relation to the death of Rahim Hanoun Adiou. [185887]

Mr. Caplin: I refer the hon. Member to the formal response from my right hon. Friend the Minister for the Armed Forces (Mr. Ingram) to allegations made by Amnesty International, including the death of Rahim Hanoun Adiou, a copy of which was placed in the Library of the House on 2 July 2004.

Adam Price: To ask the Secretary of State for Defence whether he received representations warning about the dangers of hooding detainees prior to its prohibition on 26 September 2003. [185907]

Mr. Ingram: Amnesty International's 23 July 2003 Report, "Iraq—Memorandum on concerns relating to law and order", made reference inter alia to the use of "prolonged hooding" by coalition forces and stated that this and other measures would amount to "torture or inhuman treatment". This was consistent with Amnesty's longstanding view that hooding is unacceptable in all circumstances.

Although, hooding has been prohibited by the United Kingdom in the context of interrogations since the 1972 Heath Ruling, we consider that there are circumstances in which the temporary obscuring of a detainees vision is justified. For example, it may be necessary during the arrest and transit of prisoners to prevent them viewing sensitive information. Although the UK armed forces are currently under direction not to hood detainees in any circumstances, the use of hooding has not been ruled out in future conflicts.

As I said in my response to a question from the hon. Member on 15 May 2004, Official Report, column 1235W, the practice of hooding was stopped in Iraq as a result of concerns that the inappropriate use of hooding could be dangerous.

Adam Price: To ask the Secretary of State for Defence what discussions Major General Geoffrey Miller had with British service personnel during his stay in Iraq between 31 August and 9 September 2003. [185947]

Mr. Caplin: Major General Geoffrey Miller had no discussions with British service personnel during this time.

Adam Price: To ask the Secretary of State for Defence what involvement British *(a)* service personnel and *(b)* officials had in the drafting of interrogation regulations for Combined Joint Task Force 7. [185948]

Mr. Caplin: None. Interrogation regulations at the Multi National Force and Multi National Corps Headquarters (previously known as the Combined Joint Task Force HQ) were introduced by and for US personnel only.

Tom Cox: To ask the Secretary of State for Defence how many Iraqi prisoners were held by British military authorities at the Iraq military detention centre on 1 July; and if he will make a statement. [186217]

Mr. Caplin: On 1 July 2004, 41 men were held at the Divisional Temporary Detention Facility.

Tom Cox: To ask the Secretary of State for Defence how many Iraqi *(a)* men and *(b)* women are held in United Kingdom-run prisoners in Iraq; and how many have been charged with a specific offence. [173998]

Mr. Ingram: Up to the transition of authority on 28 June, British forces had the authority to intern people for imperative reasons of security in accordance with Article 78 of Geneva Convention IV. Since the 28 June, the authority to intern remains but it is in accordance with UNSCR 1546. In addition, British forces have the authority temporarily to detain people believed to have committed a crime under Iraqi law, who are then handed over to the Iraqi judicial system. It is the Iraqi authorities who are empowered to bring criminal charges.

As at 18 July, 25 male internees were held at the Divisional Temporary Detention Facility, and no female internees.

Llew Smith: To ask the Secretary of State for Defence if he will place in the Library a copy of manuals issued to British armed forces providing guidelines for those given responsibility to interrogate detainees or prisoners of war. [175065]

Mr. Ingram: Guidance for those with responsibility for interrogation of detainees and Prisoners of War is contained within a number of training directives. I am withholding publication of these directives in the Library of the House under Exemption 1a of the Code of Practice for Access to Government Information.

Adam Price: To ask the Secretary of State for Defence (1) pursuant to his answer to question 169404, what the names are of the three individuals who died of gunshot wounds; what the name is of the person who died in detention; and how much compensation was paid in each case; [186052]

(2) what the names are of those deceased individuals in Iraq whose families' claims have been rejected; [185935]

(3) what the names are of those deceased individuals in Iraq whose families' claims for compensation are still being considered. [185934]

Mr. Ingram: I am withholding the information requested in accordance with Exemption 12 (Privacy of an Individual) of the Code of Practice on Access to Government Information which relates to unwarranted disclosure to a third party of personal information about any person (including a deceased person) or any other disclosure which would constitute or could facilitate an unwarranted invasion of privacy.

Adam Price: To ask the Secretary of State for Defence what information he has examined in relation to the deaths of *(a)* Ammar Shakir Mahmoods, *(b)* Hussam Salih Owaid, *(c)* Jawad Gadhim Bahidh, *(d)* Ameen Ajman Ismail, *(e)* Ali Gadhim Slamkh, *(f)* Asrad Gadhim Jassim and *(g)* Ahmed Kareen Ali. [177581]

Mr. Caplin *[holding answer 20 July 2004]:* The deaths of all of the individuals referred to in the question have been raised in correspondence by Public Interest Lawyers (PIL) addressed to my right hon. Friend the Secretary of State for Defence on 13 July.

There is an ongoing Special Investigations Branch investigation into the circumstances surrounding the death of Ahmed Kareen Ali (Ahmed Jabbar Kareem Ali). Ministers receive a summary of the status of such investigations.

The death of Ahmed Kareen Ali has also been raised by PIL in judicial review proceedings brought against the Department and by Amnesty International in their letter to my right hon. Friend the Prime Minister of 14 May 2004.

The death of Asrad Gadhim Jassim (As'ad Kadhem Jasem) was also raised by Amnesty International.

I placed a copy of our response to this and other correspondence from Amnesty International in the Library of the House of Commons on 2 July 2004.

Harry Cohen: To ask the Secretary of State for Defence what changes he has proposed to the way in which UK forces keep Iraqi prisoners; and if he will make a statement. [172302]

Mr. Ingram: Guidance on prisoner handling is contained in Joint Warfare Publication 1 to 10 (Prisoner of War Handling). It emphasises that prisoners are at all times to be treated in accordance with the relevant Geneva protocols.

We keep the procedures for prisoner handling in Iraq under constant review but there are no amendments currently planned to the Standard Operating Instructions. The only amendment to the SOIs to date was in September 2003 when instructions were issued that all prisoner hooding was to cease.

A number of minor changes have been made to the procedures in place at the UK's Temporary Divisional Detention Facility in Shaibah, including for example adapting the arrangements for internees' laundry and meeting some dietary requirements stemming from religious beliefs.

Sir Menzies Campbell: To ask the Secretary of State for Defence how many persons captured by UK forces in Iraq and subsequently transferred to US control are being held by the United States *(a)* inside and *(b)* outside Iraq; and if he will make a statement on the UK's obligations towards such persons. [172697]

Mr. Tyrie: To ask the Secretary of State for Defence what steps the Government has taken in fulfilment of the UK's international obligations to assess the conditions of imprisonment of the prisoners captured by British forces in Iraq and handed to the US. [183784]

Mr. Ingram *[holding answer 17 May 2004]:* In Iraq, 341 Prisoners of War were handed over to the United States in April 2003, all but three were subsequently released by the US. Two, classed as high value detainees, have now been arraigned before an Iraqi judge and transferred to Iraqi custody and one was reclassified as a security internee and his case is under consideration by the Central Criminal Court of Iraq. We have also detained around 2,000 security internees since the end of the conflict. Between April 2003 and December 2003, these were held by the US. All but one of those individuals were either returned to United Kingdom custody or released. Under the terms of a Memorandum of Understanding we put in place with the US, which covered the transfer of detainees, the US are required to seek permission from the UK to remove from Iraq UK captured persons in their detention. No such requests have been made.

The UK has fulfilled all its obligations towards such individuals in accordance with the Geneva Conventions. Between May and December 2003 almost all UK detainees, both Prisoners of War and security internees, were held by US Forces at Camp Bucca in Southern Iraq. During this period there was a continuous UK presence at the Camp in the shape of a UK Prisoner of War Registration Unit and a Prisoner Monitoring Team. The monitoring team regularly inspected prisoner conditions and monitored family visits and the release of UK prisoners. The majority of early detainees were released during this period. The remainder were transferred to the UK custody with the opening of the UK's Divisional Temporary Detention Facility at Shaibah in December 2003.

The two UK prisoners of war, classed as high value detainees, were held by US forces at a different site. Although the UK did not maintain a permanent presence at the internment facility where they were held, reports were obtained on their conditions.

Adam Price: To ask the Secretary of State for Defence if he will list those deaths mentioned in the Amnesty International report on civilian deaths in Basra published on 11 May which are or have been the subject of a formal investigation, giving the stage reached by the investigation in each case. [173408]

Mr. Caplin *[holding answer 20 May 2004]:* I refer the hon. Member to the formal response from my right hon. Friend the Minister for the Armed Forces (Mr. Ingram) to the allegations made by Amnesty International, a copy of which I placed in the Library of the House on 2 July 2004. The stage reached by the investigations remains as stated in the response.

Tom Cox: To ask the Secretary of State for Defence how often the cases of Iraqi prisoners being held in United Kingdom-run prisons in Iraq are reviewed; and by whom. [173997]

Mr. Caplin: The only such facility run by the United Kingdom in Iraq is the Divisional Temporary Detention Facility in Shaibah. The Divisional Internee Review Committee considers cases at intervals often days, 28 days, three months and six months, and thereafter every three months. The Review Committee consists of Staff Officers from Army and tri-Service Legal and intelligence Branches, Provost Marshall and the

Commanding Officer of DTDF. They make a recommendation to the General Officer Commanding MND(SE), with whom the final decision lies.

Harry Cohen: To ask the Secretary of State for Defence what reports he has received about the death of civilians in Amarah, Iraq as a consequence of a UK armed forces helicopter strike; if he will investigate whether *(a)* this strike and *(b)* air strikes generally in areas where civilians live are a proportionate or proper response to a local disturbance including that involving the firing of guns by Iraqi militiamen; and if he will make a statement. [174180]

Mr. Ingram: We are not aware of any allegations of civilian deaths caused by air strikes conducted by United Kingdom helicopters in Al Amarah since the end of major combat operations.

During the warfighting and subsequent phases of Operation Telic, every effort has been made to minimise the impact of military operations on the Iraqi civilian population. For UK air operations, the targeting process has a hierarchical approvals system and includes stringent controls. At each level, UK Commanders, with legal advisors present, applied the relevant articles of the 1977 Geneva Protocol 1 to the Geneva Conventions (1949) which applies to targeting. In each case when attacks were approved, the UK Commander will have determined that legal requirements of necessity and distinction were met, and that estimated civilian casualties or damage were not excessive in relation to the concrete and direct military advantage that the attack was expected to produce.

Future Joint Combat Aircraft

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether the requirement for the Future Joint Combat Aircraft is dependent on the procurement of 50–60,000 tonne aircraft carriers; and what effect changes to the displacement of the future carriers would have on the requirement for the number of Joint Combat Aircraft. [182388]

Mr. Caplin: The physical size of any aircraft carrier will limit the maximum number of aircraft that can operate from it. The Department has not sought to fix the dimensions of the aircraft carriers during the assessment phase. The design of the ships will continue to evolve as we seek to balance the overall performance, time and cost parameters of this complex project as part of normal assessment phase activity. Decisions on the capability to be provided by CVF, including the number of aircraft capable of being deployed, will be taken at the Main Gate investment point.

Military Companies

Harry Cohen: To ask the Secretary of State for Defence how many approvals were given to armed forces personnel to take up appointments with military companies in each year from 1995, broken down by rank of personnel. [184732]

Mr. Caplin: The rules on acceptance of appointments by Crown servants (the "Business Appointment Rules") require all officers in the armed forces, in certain circumstances, to apply for permission before taking up an appointment with an outside organisation.

Due to a technical problem, complete information on the number of applications made by officers in the armed forces to join military (defence-related) companies since 1995 is not currently available. The information set out in the table covers only the period from 1 January 1999 to the end of June 2004. I shall write to the hon. Member with the remaining details as soon as they become available.

	1999	*2000*	*2001*	*2002*	*2003*	*2004*
Navy						
Admiral	2	0	0	3	2	3
Vice Admiral	0	2	0	4	0	0
Rear Admiral	3	6	3	3	3	1
Commodore	2	2	4	2	8	2
Captain	2	0	3	2	1	0
Commander	9	5	1	10	5	5
Lt. Command	7	6	10	8	17	1
Lieutenant	1	1	3	2	1	0
Army						
General	1	3	3	2	1	0
Lt. General	4	10	0	0	0	1
Major General	5	1	9	3	1	1
Brigadier	7	7	4	5	4	4
Colonel	1	0	6	1	3	5
Lt. Colonel	4	19	6	7	3	2
Major	4	3	10	3	4	6
Captain	1	1	4	0	0	2
Lieutenant	0	0	2	0	1	0
RAF						
Air Chief Marshall	0	9	1	1	1	0
Air Marshal	3	0	8	2	2	0
Air Vice-Marshall	1	13	6	7	5	2
Air Commodore	8	4	8	3	7	3
Group Captain	5	6	3	7	10	5
Wing Commander	24	7	10	22	16	10
Squadron Leader	9	11	7	8	8	2
Flt. Lieutenant	5	2	6	2	3	3

It is not known how many appointments were taken up.

Mr. Rhadi Numa

Adam Price: To ask the Secretary of State for Defence whether Mr. Rhadi Numa suffered *(a)* physical and *(b)* mental duress prior to his heart attack. [186219]

Mr. Ingram: The Special Investigation Branch of the Royal Military Police concluded that Mr. Rhadi Numa had not suffered any form of mistreatment while in military custody.

Naval Dockyards (Radiation Monitoring)

Mr. Hancock: To ask the Secretary of State for Defence what measures are in place for the secondary monitoring of radiation at naval dockyards. [186112]

Mr. Ingram: I refer the hon. Member to the answers I gave on 16 June 2004, Official Report, columns 938–939W, to the hon. Member for Mid Bedfordshire (Mr. Sayeed) and on 10 June 2004, Official Report, column 599W to the hon. Member for Moray (Angus Robertson). The measures, as described, are in place at the Naval Bases and Devonport Royal Dockyard, which is privately owned.

Parliamentary Questions

Adam Price: To ask the Secretary of State for Defence when he will write to the hon. Member for East Carmarthen and Dinefwr pursuant to his answer to question ref. 136924. [186026]

Mr. Ingram: I wrote to the hon. Member on 7 April 2004 and a copy of my reply was placed in the Library of the House.

PFI/PPP Contracts

Alan Simpson: To ask the Secretary of State for Defence what public safeguards his Department builds into its *(a)* private finance initiative and *(b)* public private partnership contracts to prevent the private sector partner from taking excess profits by way of re-financing schemes. [184664]

Mr. Ingram: Since November 2000, it has been the Ministry of Defence's policy, in common with other Government Departments, that all Private Finance Initiative (PFI) contracts and those Public Private Partnership contracts involving the use of private finance, must contain legally binding conditions whereby any gains from refinancing are shared with the MOD on an equal basis. For contracts signed before November 2000 this right is obtained under a code of conduct agreed with industry.

Alan Simpson: To ask the Secretary of State for Defence what contractual steps his Department plans to take to prevent *(a)* private finance initiative and *(b)* public private partnership partners from selling on their stakeholding. [184665]

Mr. Caplin: In common with other government departments, the Ministry of Defence does not seek to restrict unnecessarily the shareholders in Private Finance Initiative (PFI) and Public Private Partnerships (PPP) projects from transferring or selling their equity stakes to another commercial entity. Such restrictions would constrain the availability of capital for such projects and therefore adversely affect value for money. Exceptions to this can be made during the construction/introduction to service phase when some restrictions may be placed on sales or transfers of equity from shareholders who are also key subcontractors, as these might have an adverse impact on the success of the project. Additionally, provisions are usually included in MOD PFI and PPP contracts which place an obligation on the service provider and its shareholders to obtain the MOD's consent to any sale or transfer. This is to prevent any transfer that might be prejudicial to the national interest, e.g. for reasons of national security.

Post-Traumatic Stress Disorder

Mr. Keetch: To ask the Secretary of State for Defence how many personnel are being treated for post traumatic stress disorder after serving in Iraq; and if he will make a statement. [176804]

Tim Loughton: To ask the Secretary of State for Defence (1) how many British troops who have served in Iraq have been found to be suffering from post traumatic stress disorder; [183194]

(2) what estimate he has made of the percentage of troops who have returned from Iraq who are suffering from mental health problems. [183195]

Mr. Caplin *[holding answer Tuesday 8 June 2004]:* Over the period January 2003 to February 2004, the latest dates for which figures are available, 461 military personnel who served in Iraq were recorded as having experienced mental health problems. This represents 0.7 per cent. of those who had returned from deployment to Iraq at that time. Of these, 52 personnel were codified, under the International Codification of Disease system, as having Post Traumatic Stress Disorder.

Prisons

Tom Cox: To ask the Secretary of State for Defence how many *(a)* men and *(b)* women who have been held in British-run military and civilian prisons have been released during the last 12 months; and if he will make a statement. [177241]

Mr. Ingram: The only such facility run by the UK in Iraq is the detention facility in Shaibah, which opened in December 2003. Since then 274 men and one woman have been released.

Private Finance Initiative

Mr. Lyons: To ask the Secretary of State for Defence what the total value of private finance initiative contracts used by his Department was in 2003. [184237]

Mr. Ingram: The total capital value of private finance initiative contracts that were live during 2003 was £3,828 million.

The payments made by the Ministry of Defence during the financial year 2002–03 in respect of private finance initiative transactions was £542 million. Further

information is available in the MOD's Annual Report and Accounts 2002–03 which is published on the MOD's website www.mod.uk or from HMSO.

RAF Menwith Hill

Norman Baker: To ask the Secretary of State for Defence how many visits to RAF Menwith Hill were made by US personnel not resident or working on the base during 2002–03. [185896]

Mr. Ingram: During 2002–03 there were many visits to RAF Menwith Hill by US personnel. These ranged from VIP visits to short term visits associated specifically with work on various aspects of the Menwith Hill mission. The exact number of visits is not held centrally and could be provided only at disproportionate cost.

Norman Baker: To ask the Secretary of State for Defence whether requests for visits to RAF Menwith Hill are determined by his Department; and what discussions take place with the US authorities before the response to individual requests is determined. [185897]

Mr. Ingram: Her Majesty's Government retains control over the use of facilities at RAF Menwith Hill. Therefore any decision on who can and cannot visit RAF Menwith Hill, as well as other United States Visiting Force (USVF) bases, rests with the Government.

All requests by MPs to visit RAF Menwith Hill are referred to Defence Ministers. Due to national security considerations, visits to RAF Menwith Hill are restricted to those with an official oversight function such as Government Ministers and the members of the all-party Intelligence and Security Committee (ISC). US authorities have no part in this decision making process.

Working visits to the base by military and civilian staff are approved locally by the RAF Station Commander.

Norman Baker: To ask the Secretary of State for Defence what rules of engagement *(a)* the American National Guard and *(b)* the US security police personnel apply concerning peaceful protesters found at RAF bases where they are stationed. [185936]

Mr. Caplin: It is not our practice to comment on UK Rules of Engagement or those of our US allies and the information is therefore withheld under Exemption 1 (Defence, Security and International Relations) of the Code of Practice on Access to Government Information.

Norman Baker: To ask the Secretary of State for Defence what procedures have been agreed between the US visiting forces and personnel and the Ministry of Defence Police Agency to deal with peaceful protesters at RAF Menwith Hill. [185937]

Mr. Ingram: Peaceful protesters detected at RAF Menwith Hill are dealt with by Ministry of Defence Police using their powers according to their statutory office of Constable.

Norman Baker: To ask the Secretary of State for Defence how many RAF apprentices are *(a)* on secondment and *(b)* in training at RAF Menwith Hill; what the nature is of that training; and who is funding the training. [185939]

Mr. Caplin: The RAF apprentice scheme ceased in 1993.

Retirement Age

Mr. Andrew Turner: To ask the Secretary of State for Defence whether *(a)* his Department and *(b)* agencies for which it is responsible (i) have a set retirement age which applies to all or most personnel and (ii) have a maximum age beyond which applications for employment will not be considered; and what the age is in each case. [186091]

Mr. Caplin: In the Ministry of Defence and its Agencies over half of the civilian workforce has the option to retire any time between 60 and 65. The remainder, which encompasses most of those in management, professional and specialist grades, are normally required to retire at age 60. Extensions beyond normal retirement age are exceptional and for business reasons only, however, as detailed in the Civil Service Management Code, the maximum age at which staff must retire is 70.

There is no age limit set beyond which applications will not be considered. Applications for employment take account of whether the individual has the necessary competencies and skills required for the vacancy. The Department will also consider whether the successful applicant will provide a suitable return on the cost of employing and training the individual before they retire.

Royal Air Force

Patrick Mercer: To ask the Secretary of State for Defence what the irreducible manpower level is that needs to be maintained by the Royal Air Force such that an independent operational capability can continue for the UK. [184596]

Mr. Ingram: The RAF's requirement for trained manpower is dependant on a number of factors including changing commitments, both at home and abroad, the types of operations we may have to take in the foreseeable future and the introduction of new aircraft types and equipment. I refer the hon. Member to the statement made by my right hon. Friend the Secretary of State for Defence (Mr. Hoon) on 21 July 2004, *Official Report*, columns 343–70, which set out the future manpower requirements of the armed forces.

Royal Navy (Drug Enforcement)

Mr. Edwards: To ask the Secretary of State for Defence if he will make a statement on the role of the Royal Navy in the Caribbean and the deployment of HMS Monmouth in the fight against international drug trafficking. [185285]

Mr. Ingram: A Royal Navy ship, together with a royal fleet auxiliary support tanker, is allocated to the Atlantic Patrol Task (North) (APT(N)). The APT(N) duty ship provides a tangible presence in the Caribbean area of responsibility including throughout the hurricane season (May to November). For the remainder of the year they remain within 14 days sailing. APT(N) provides security to United Kingdom overseas territories including support to humanitarian operations and disaster relief. APT(N) also makes a major contribution as one element of HMG's broader counter-drugs activity and promotes UK interests in the region, supporting defence relations and military training assistance and the wider defence diplomacy effort through a series of high-profile port visits.

After six months as APT(N) ship, five of which were within the Caribbean AOR, HMS Monmouth handed over duties to HMS Richmond on 12 July and is currently en route home. During her deployment HMS Monmouth made two successful interdictions of suspected drug smugglers using "go fast" boats. While the contraband was jettisoned by the smugglers before being apprehended, it is thought that 150–200 kg of cocaine was removed from circulation in each operation.

Saudi Armed Forces Project

Mr. Cousins: To ask the Secretary of State for Defence what the whole-time equivalent staffing of the Saudi Armed Forces Project Office in his Department was over the past five years; what secondments to and from the Office have taken place in that period; and to which agencies or enterprises. [185170]

Mr. Ingram: The number of full-time staff employed on 31 March of each of the past five years was as follows:

	Number
2000	173
2001	185
2002	180
2003	180
2004	166

There were no secondments to or from the Saudi Armed Forces Project Office during this period.

Seyntex

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the performance of Seyntex in relation to his Department's contracts for Battlefield Support Section. [186204]

Mr. Ingram: The Battlefield Support Section of the Engineer Systems Support Integrated Project Team has placed a total of four contracts with Seyntex. The company has performed satisfactorily, aside from one incident where some tents were rejected following routine quality control checks. Corrective action was taken by the company and, as far as we are aware, no defective tents entered service.

Sonar 2087

Mr. Hancock: To ask the Secretary of State for Defence (1) what *(a)* research and *(b)* evaluation his Department has carried out on the likely impacts on marine wildlife of the trials of Sonar 2087 in the North West Approaches of the UK; [185200]

(2) how detailed environmental reports from the trials of Sonar 2087 will be used better to protect cetaceans; [185219]

(3) what plans he has to prepare a report on the environmental observations resulting from the trials of Sonar 2087; and if he will make a statement. [185175]

Mr. Caplin: The Ministry of Defence has a continuing programme of research into the effects of active sonar generally. This work is intended to inform Environmental Impact Assessments on marine environments in which sonars might be used by the Royal Navy, rather than in the specific context of United Kingdom territorial waters.

The environmental data gathered during the recent trial of Sonar 2087 in the UK's North West Approaches are being analysed and evaluated to determine the effectiveness of the monitoring and mitigation methods that were put in place and whether any changes are necessary for future trials and/or training activity. We plan to publish a report. I will place a copy in the Library of The House.

Suez Canal Zone Clasps

Mr. Nigel Jones: To ask the Secretary of State for Defence how many Suez Canal Zone clasps have been awarded to people who served in the Zone with the Royal Signals; and whether applications for the clasps first submitted in November 2003 are being dealt with. [185613]

Mr. Caplin: I refer the hon. Gentlemen to the answer I gave to the House on 19 July 2004, *Official Report*, columns 1–3, to my hon. Friend the Member for Nottingham, North (Mr. Allen).

Tarik S. Mahmud

Adam Price: To ask the Secretary of State for Defence whether Tarik S. Mahmud was *(a)* a prisoner of war and *(b)* a civilian arrested during combat. [179028]

Mr. Caplin: Tarik S. Mahmud was detained by the United Kingdom forces in April 2003. At the time of his detention it was not known whether he was a Prisoner of War or a security internee. In accordance with Article 5 of Geneva Convention III his status would have to be officially determined and recorded but he died before this could be undertaken.

Textile Contracts

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many and what percentage of departmental contracts over £250,000 for textile items went to *(a)* UK companies manufacturing (i) inside and (ii) outside the UK and *(b)* EU companies manufacturing in the EU in the latest year for which figures are available. [183780]

Mr. Caplin: During the period of the last twelve months there have been 21 clothing contracts let over the value of £250,000. This breaks down as follows:

(a) UK Manufacturer	17
of which:	
(i) Inside UK percentage	68
(ii) Outside UK percentage	32

(b) EU Manufacturer	4
of which:	
(i) Inside EU percentage	17.5
(ii) Outside EU percentage	82.5

Theatre Missiles

Mr. Cousins: To ask the Secretary of State for Defence what theatre missile defence capacity UK forces *(a)* have available now and *(b)* plan to have available; and over what timescale. [185167]

Mr. Ingram: I refer my hon. Friend to the answer given to him by my right hon. Friend the Secretary of State for Defence on 9 March 2004, *Official Report*, column 1403–04W. We expect to receive the report on the MOD's three year research programme into Theatre Ballistic Missile Defence soon. The UK is continuing to address the risks posed by ballistic missiles and to remain abreast of the technologies available to counter them. We are active members of the NATO Missile Defence Project Group which, with the encouragement of the Istanbul Summit discussions, is currently planning the first stages of work under the NATO Active Layered Theatre Ballistic Missile Defence programme. Decisions on the extent of UK involvement in this important research have yet to be taken and release of the NATO Staff Requirement for this capability to NATO industries has just been agreed.

Timber (Sustainable Sources)

Sue Doughty: To ask the Secretary of State for Defence what timbers will be used in the pre-fabricated barracks to be built at *(a)* Aldershot and *(b)* Salisbury Plain; and what steps will be taken to ensure that timber used at the barracks will come from (i) legal and (ii) sustainable sources. [184948]

Mr. Caplin: Although it is too early in the design development process to say what specific type of timbers will be used, any new buildings in Aldershot or Salisbury Plain constructed under the Allenby/Connaught Project will adhere to Sustainable Development principles and Environmental Management Systems. This will include assessment of accommodation in accordance with the Building Research Establishment's Environmental Assessment Method (BREEAM).

Welsh Regiments

Mr. Wiggin: To ask the Secretary of State for Defence what plans he has to change the number of Welsh regiments; and if he will make a statement. [183265]

Mr. Caplin: The Defence White Paper published last December established the policy context for shaping the future structure of our armed forces. For the Army, it outlined the vision of a more balanced force that is flexible, rapidly deployable and sustainable for the variety of operational tasks that we envisage it undertaking.

Against this policy guidance, we have been working through the detailed implications for the Army's force structure. We anticipate being in a position to make announcements about the conclusions of this work later in the year.

CONSTITUTIONAL AFFAIRS

Data Protection

Harry Cohen: To ask the Parliamentary Secretary, Department for Constitutional Affairs when he expects the legislation on the offence concerning Enforced Subject Access in the Data Protection Act 1998 to come into force. [185959]

Mr. Leslie: Section 56 of the Data Protection Act 1998, which gives effect to the enforced subject access provisions, will be brought into force when the arrangements for the issue of certificates of criminal conviction under Part V of the Police Act 1997 are fully in place.

Harry Cohen: To ask the Parliamentary Secretary, Department for Constitutional Affairs what representations he has received from the European Commission on Directive 95/46/EC and the Data Protection Act 1998. [185961]

Mr. Leslie: The European Commission has completed its initial consideration of the way in which all Member States have implemented the Data Protection Directive. The Commission has communicated its views on the UK's implementation to the Government. These views are now being considered and will be the subject of further discussion with the Commission.

Asylum Appeals

Mr. Djanogly: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many of the appeals in asylum cases for which legal aid had been provided failed in each year since 1997; and for what reasons. [185610]

Mr. Lammy: Information on asylum appeal outcomes from 1997 is published in the Home Office annual statistical bulletin Asylum Statistics United Kingdom. Copies are available in the Library of the House. Information on asylum appeal outcomes since 2002 is published quarterly.

Before January 2000 public funding was not available for representation at immigration and asylum appeals. We are currently establishing systems to record how many of the applications funded by legal aid are successful. The reasons for the dismissal of an appeal are not recorded centrally.

Community Legal Service Budget

Mr. Djanogly: To ask the Parliamentary Secretary, Department for Constitutional Affairs how much of the

Community Legal Service budget for 2004–05 is designated to each area of activity, expressed *(a)* as a proportion and *(b)* in monetary value. [185944]

Mr. Leslie: The following table shows the amount, in resource terms, that the Community Legal Service has been designated by the Treasury for 2004–05, split by civil and immigration work.

CLS Budget	*Resource (£ million)*	*Percentage*
Civil representation	593.62	79.40
Immigration	153.62	20.60
Total	747.24	100.00

Data Sharing

Harry Cohen: To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs, if he will publish a data-sharing bill; and how his data-sharing policy takes account of *(a)* the proposed identity card and *(b)* the population register being established by the Registrar General. [185962]

Mr. Leslie: The Government have no plans to publish a general data-sharing bill. The Government's overall approach to data sharing is set out in the document "Public Sector Data Sharing: Guidance on the Law", which was published by my Department in November 2003. The proposed identity card scheme and the Registrar General's proposals for a possible population register are fully compatible with the framework set out in that document.

Departmental Annual Report

Dr. Cable: To ask the Parliamentary Under Secretary of State, Department for Constitutional Affairs how many copies of the Department's and its predecessor Department's annual report were printed in each year since 1997; how many were sold in each year; and what the *(a)* publication costs and *(b)* sales revenue were. [183840]

Mr. Leslie: The information is set out in the table as follows. Costs of printing and publication are met directly by the publisher, TSO (The Stationery Office Limited) and do not fall to DCA. In return the Publisher retains the revenues which they earn from sales and which are aimed at ensuring recovery of their costs. The Department's Annual Report is also available on the Department's website free of charge at www.dca.gov.uk/department/report2004/dca2004.pdf. Web visits to the report since April 2004 number approximately 1,022.

	Quantity printed	*Quantity sold*	*(a) Publication costs[1] (£)*	*(b) Sales revenue*
1997	The Stationery Office advise that statistics are no longer available.			
1998	[2,3]—	990	13,500	[2]—
1999	[2]—	1,045	8,715	[2]—
2000	[2]—	932	14,615	[2]—
2001	[2]—	1,079	12,100	[2]—
2002	[2]—	1,726	28,800	[2]—
2003	[2]—	1,576	20,460	[2]—
2004	[2]—	[3]1,010	35,220	[2]—

[1] Cost for design, photography, typesetting and web conversion. Does not include cost to purchase copies from TSO.
[2] Not available from TSO.
[3] Commercial-in-confidence to TSO.
[4] Based on sales profile from previous years TSO expects to sell a further 100 copies in 2004.

Departmental Vehicles

Mr. Kidney: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many road vehicles are operated by the Department and its agencies; how many personal injury accidents involving road vehicles operated by the Department have occurred within each of the last five years; and what the Department's policy is for managing work-related road safety. [185912]

Mr. Leslie: My Department and its agencies currently have a total of 559 road vehicles within its fleet.

The provision of vehicles for ministers and the judiciary is through the use of The Government Car and Dispatch Agency, who will provide a response separately.

Within each of the last five years, the number of personal injury accidents involving road vehicles operated by my Department are recorded as follows:

1999–2000—9
2000–01—12
2001–02—5
2002–03—11
2003–04—5

My Department's road safety policy is currently covered by the general duty of care within the Department's main Health and Safety policy. [185912]

Duty Solicitor Scheme

Mr. Djanogly: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will identify the *(a)* cost and *(b)* number of hours claimed for under the duty solicitor scheme in (i) police stations and (ii) magistrates' courts in each year since 1997. [185929]

Mr. Lammy: The table shows the cost under the duty solicitor scheme of work carried out in police stations and magistrates' courts. The LSC records the total costs claimed and then reviews the number of hours on audit. It is not possible to calculate the number of hours from the figures because different combinations of rates are claimed.

£ million

	Police station duty solicitor scheme	*Magistrates' court duty solicitor scheme*
1997–98	100	15.22
1998–99	105.11	16.18
1999–2000	109.07	25.39
2000–01	117.34	[1]48.78

£ million

	Police station duty solicitor scheme	Magistrates' court duty solicitor scheme
2001–02	[2]154.39	27.86
2002–03	168.76	24.21
2003–04	175.51	23.68

[1] From November 1999 the duty solicitor payment system was also used to make payments to solicitors attending Early First Hearings and Early Administrative Hearings, resulting in sharp increases in both the number and average cost of claims paid. However, when the LSC introduced contracting in 2001 it split this work out from the court duty solicitor role, therefore the costs decreased.

[2] From the introduction of contracting in April 2001, claims were consolidated so that the police station claims also included all other pre-charge work, not just advice and assistance at the police station.

Employment Tribunals

Malcolm Bruce: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many cases against the Department, the agencies for which it is responsible and its predecessor organisations have been brought to employment tribunals in each year since 1997 in relation to *(a)* equal pay, *(b)* sex discrimination, *(c)* race discrimination, *(d)* disability discrimination and *(e)* unfair dismissal; how many cost awards were made against (i) respondents and (ii) applicants; and how much has been spent (A) settling and (B) contesting claims. [181461]

Mr. Lammy *[pursuant to his reply, 12 July 2004, Official Report, c. 972W]:* I listed in my previous answer the total number of cases in respect of each type issued since 1997. This answer failed to list the numbers of cases by year. The breakdown of those cases by type and year is shown in the following table.

	(a) Equal pay	*(b) Sex discrimination*	*(c) Race discrimination*	*(d) Disability discrimination*	*(e) Unfair dismissal*	*Total*
1997	—	—	2	—	1	3
1998	—	—	1	2	5	8
1999	—	9	1	8	8	26
2000	—	2	2	4	2	10
2001	—	2	4	2	5	13
2002	—	20	4	2	8	34
2003	1	—	1	3	7	12
2004	—	1	—	1	5	7
Total	1	34	15	22	41	113

Green Minister

Mr. Horam: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the activities of the Green Minister in the Department in financial year 2003–04. [185131]

Mr. Leslie: Lord Filkin is the Department for Constitutional Affairs Green Minister. In this role, Lord Filkin oversees work on sustainability within my Department and is also a member of the Ministerial Sub-Committee of Green Ministers.

My Department is committed to continue working with the Department for Environment, Food and Rural Affairs (DEFRA) on sustainable development and on achieving sustainability in all aspects of its work. To that end, it continues to progress action and respond positively to targets published by DEFRA against the strands of the "Framework for Sustainable Development in the Government Estate". As Green Minister, Lord Filkin oversees this work.

My Department focuses its activities to meet targets set out by DEFRA. My Department has also continued with its programme of energy works, aimed at reducing emissions and energy use, and has set up electricity supplies so that it receives over 10 per cent. from renewable sources. A pilot of Environmental Management Systems has been established at key sites, and consideration will be given to extending this to other locations in the coming year. During the year my Department's Court Standards and Design Guide has been updated so that it better reflects our sustainability requirements by, for example, providing guidance on biodiversity and the need to aim for an "Excellent" BREEAM (Building Research Establishment Environmental Assessment Method) rating on all new court buildings. Lord Filkin has also overseen the development of a staff training programme that will increase awareness within the Department of sustainability issues.

Looking more widely, my Department has a commitment to achieve sustainability in the delivery of its business through achieving its Public Service Agreement targets. These include ensuring effective delivery of justice, ensuring a fair and effective system of civil law, reducing social exclusion and increasing customer choice in legal services.

Legal Aid

Mr. Djanogly: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many firms have indicated to the Government in each of the last three calendar years that they plan to stop doing legal aid work. [185941]

Mr. Lammy: The question cannot be answered in the terms specified, as the information is not held centrally.

However information relating to firms which have had their contracts withdrawn since 2000 was provided in a previous parliamentary question answered on 21 July 2004, *Official Report*, column 375W.

Mr. Djanogly: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will break down the cost of providing legal aid in immigration cases in each year since 1997 by *(a)* purpose for which aid was sought and *(b)* stage of process at which the application was made. [185945]

Mr. Lammy: The Legal Services Commission is not able to provide the information in the format requested, as it does not differentiate between immigration and asylum cases.

The total cost of providing legal aid for immigration and asylum matters in England and Wales for each financial year since 1997–98 was as follows:

[1]£ million

	Total cost
1997–98	35.2
1998–99	53.3
1999–2000	61.4
2000–01	81.1
2001–02	129.4
2002–03	176.2
2003–04	200.5

[1] Net cash

Records do not enable us to identify the point in the process at which funding was granted.

Policies (Environmental Impacts)

Mr. Horam: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many new policy proposals or significant changes in policy were produced in *(a)* 2002–03 and *(b)* 2003–04; how many of these were screened for their environmental impacts; and how many were the subject of separate environmental appraisals. [185098]

Mr. Leslie: It is not possible to give figures for the number of new policy proposals or significant changes in policy that were produced in the two periods in question without incurring disproportionate cost.

A Regulatory Impact Assessment (RIA) was required for all policy proposals or significant changes in policy produced in 2002–03 and 2003–04, which were likely to have a direct or indirect impact on business, charities and the voluntary sector. In accordance with Cabinet Office guidance, the RIA covered the full range of potential impacts on stakeholders—including environmental impacts where relevant.

Press Officers

Mr. Alan Duncan: To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs how much his Department spent on press officers in *(a)* 1996–97 and *(b)* the latest year for which figures are available, broken down by grade. [185823]

Mr. Leslie: The Department for Constitutional Affairs (DCA) was created in June 2003. Figures are available for the period June 2003 to March 2004 only.

£

Grade	Numbers	Total salaries[1]
Span 9 (G6)	1	35,994
Span 8 (G7)	2	64,325
Span 7 (S10)	4	134,418
Span 6 (10)	8	190,966

[1] June 2003 to March 2004

These figures do not include the Director and Deputy Director of Communications, who speak to the media but on a far more infrequent basis than press officers.

INTERNATIONAL DEVELOPMENT

Burma

Mr. Bercow: To ask the Secretary of State for International Development whether his Department has completed its review of the feasibility of funding aid for internally displaced persons in Burma; what consultations he has undertaken with ethnic relief teams which operate within the conflict zones of Burma in order to obtain their input into the review; and what assistance he will be providing for organisations whose levels of accountability are not yet to the standards required by his Department so that they can improve their accountability in order to be eligible for UK funding. [185564]

Mr. Gareth Thomas: A review of DFID's role in meeting the needs of poor Burmese people on the Thai-Burma border is underway. Re-examining DFID's policy on providing cross-border assistance from Thailand to Burma was one part of the Mission's scope. A team recently visited the border as part of this work. During this Mission, the team met a large number of international agencies and Non-Governmental Organisations working on the border including some that provide programmes across the borders in Burma. I shall write to you with more information once the overall review has been completed.

Chad

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the state of supplies in refugee camps in Chad; when this assessment was last revised; and if he will make a statement. [186233]

Hilary Benn: The UN High Commissioner for Refugees (UNHCR) estimate that there are currently 180,000 refugees in Chad. This figure comprises 140,000 in nine displaced persons camps in Chad and 40,000 near the border. UNHCR are co-ordinating the aid efforts of UN agencies and non-governmental organisations on the ground in Chad and supplies are being delivered by the World Food Programme (WFP) and NGOs. In the month of July, the WFP estimates that 1,889 tonnes of food was distributed to 134,000 refugees. The WFP report that they have one tonne of dehydrated milk and nine tonnes of High Energy Biscuits in reserve. The UN published an update on current funding for Chad on 27 July. This report states that, since September 2003, the international community has allocated £47 million to Chad, of which the UK has contributed £3 million (£2 million to UNHCR, £1 million to WFP). However, it also estimates that an additional £22 million is required.

With the onset of the rains food, shelter and sanitation are the primary concerns. A UK assessment mission last visited Chad in April 2004. A further DFID/FCO Sudan Unit mission to Chad is planned for next week (w/c 2 August). They will liaise with the UNHCR to assess the current needs of the displaced persons in Chad and to review the relief operations so far. This mission will also consider further allocations of UK humanitarian assistance.

Departmental Expenditure

Mr. Bercow: To ask the Secretary of State for International Development how much was spent by *(a)* the Overseas Development Administration in 1996–97 and *(b)* the Department in the last year for which figures are available on (i) head-hunters and recruitment consultants and (ii) management consultants. [185565]

Mr. Gareth Thomas: In 2003–04 the Department spent £53,840 on a recruitment consultant to assist with our recruitment procedures. There was no similar expenditure in 1996–97 and no expenditure on head-hunters in either year.

DFID's departmental expenditure on overall consultancy services is made available in "Statistics on International Development", Table 12. A copy of this publication is available in the Library of the House. We do not keep a central record of management consultants in particular and this information could be provided only at disproportionate cost.

Mr. Bercow: To ask the Secretary of State for International Development how much was spent *(a)* by the Overseas Development Administration in 1996–97 and *(b)* by the Department in the latest accounting period for which figures are available on (i) mobile phones, (ii) hospitality, (iii) taxis and (iv) international travel. [185566]

Mr. Gareth Thomas: *(a)* Data for expenditure by the Overseas Development Administration by budget category for 1996–97 is not readily available and could not be provided without incurring disproportionate cost.

(b) Data for the latest accounting period of 2002–03 as set out by budget category is as follows:

2002–03	*£000*
Entertainment	82
Domestic and overseas travel inc. taxis	2,645

All expenditure on official entertainment is made in accordance with published Departmental guidance on financial procedures and propriety, based on the principles set out in Government Accounting.

Figures for travel reflect all domestic and overseas travel, including expenditure on taxis. All official travel is undertaken in accordance with the rules contained in DFID's staff handbook, which reflects the requirements of the Civil Service Management Code.

Recorded expenditure on mobile phones for 2002–03 is not readily available and could not be provided without incurring disproportionate cost.

Departmental Staff (Upper Age Limits)

Mr. Andrew Turner: To ask the Secretary of State for International Development whether *(a)* his Department and *(b)* agencies for which it is responsible (i) have a set retirement age which applies to all or most personnel and (ii) have a maximum age beyond which applications for employment will not be considered; and what the age is in each case. [186081]

Mr. Gareth Thomas: DFID staff below the Senior Civil Service can retire at age 60. However, they can also choose to work on until age 65 subject to their continued capability and satisfactory service. The normal retirement age for Senior Civil Servants is 60. But, DFID has the flexibility to retain members of the Senior Civil Service beyond age 60 if it is judged to be in the public interest and are satisfied about the fitness and efficiency of the individual to carry out his or her duties. Members of the Senior Appointments Selection Committee (SASC) Group retire at age 60 and DFID must obtain approval from the Cabinet Office before retaining staff in the SASC Group beyond this age.

DFID welcomes job applications from people of all ages. However, applicants are expected to be able to give DFID several years' service, or complete a substantial amount of any fixed term appointment, before retirement. There is no upper age limit for consultants. Consultants have to be suitably qualified, experienced and in a suitable physical condition to ensure that they can comply with all of their obligations under the contract.

Green Minister

Mr. Horam: To ask the Secretary of State for International Development if he will make a statement on the activities of the Green Minister in the Department in financial year 2003–04. [185124]

Mr. Gareth Thomas: In the past year, in my capacity as Green Minister, I have carried out the following:

Agreed clearance of the Sustainable Development in Government report (SDiG) (02–03), noting that DFID was in the forefront of progress on achieving SDiG targets and objectives and giving a commitment to ensuring further progress.

Written to Elliot Morley (Defra) on the following issues:

The incorporation into the SDiG Framework of a target relating to Combined Heat and Power systems;

Detailed response about how DFID is approaching the Sustainable Development agenda in policy-making.

The Government response to the House of Commons Environmental Audit Committee AC report "Greening Government 2003.

DFID participation in the UN expert meeting on social issues in public procurement taking place in May.

HIV/AIDS

Mr. Bercow: To ask the Secretary of State for International Development for what reason five of the planned guidance notes on the programmes designed to tackle HIV/AIDS have not yet been published by his Department. [185549]

Mr. Gareth Thomas: A large amount of information and guidance on HIV and AIDS is produced by the Joint United Nations Programme on HIV/AIDS (UNAIDS), other international bodies, other donors and researchers. The task is to ensure our staff are guided by the best possible information which already exists. DFID has therefore been developing an extensive web portal that will enable us to bring together a comprehensive and up to date range of information, for the use of DFID teams globally. This will be available to all UK staff in DFID, FCO and other government

departments as well as our key partners in developing country governments and NGOs. It will be launched in August.

DFID has been working with experts to develop new internal guidance on a range of areas. The areas where there is the greatest need—notably treatment and care—are also the most hotly debated issues among experts. In order to ensure a balanced response DFID has worked hard to articulate the most appropriate, evidence-based policy. Inevitably this has taken time and has been adapted as new initiatives evolve (such as the UNAIDS and WHO "3x5" target). DFID is therefore delighted that over the last few weeks the Department has published four new strategy and position papers: "Taking Action: The UK's Strategy for Tackling HIV and AIDS in the Developing World", "HIV and AIDS Treatment and Care Policy", "Sexual and Reproductive Health and Rights—a position paper", and "Increasing Access To Essential Medicines in the Developing World".

Natural Resource Governance

Angus Robertson: To ask the Secretary of State for International Development (1) what assessment his Department has made of the importance of natural resource governance in developing countries; when this assessment was last revised; and if he will make a statement; [186229]

(2) what his Department's policy is on the promotion of issues of natural resource governance; when this policy was initially drawn up; when it was last revised; and if he will make a statement; [186230]

(3) what assessment his Department has made of the relevance of natural resource governance to armed conflicts in *(a)* Africa and *(b)* South America; and if he will make a statement. [186232]

Hilary Benn: The Department for International Development (DFID) recognises that many of the poorest countries and the poorest people are highly dependent on natural resources for economic development and livelihoods. However, powerful groups sometimes deny poor people such access and revenues from natural resources—both renewable and non-renewable—have often fuelled conflict, corruption and exacerbated poverty. How natural resources are governed can fundamentally affect the contribution they make towards poverty reduction and sustainable development.

The Prime Minister launched the Extractive Industries Transparency Initiative (EITI) at the World Summit on Sustainable Development in Johannesburg, September 2002. Its aim is to improve governance and accountability in countries with a high reliance on oil, gas and minerals by increasing transparency of payments by companies to governments, and transparency of revenues received by those governments. EITI is now being implemented in Nigeria, Azerbaijan, Ghana and the Kyrgyz Republic, with discussions taking place on implementation in a number of other countries including several in Africa and South America.

DFID's assessment of the importance of natural resource governance in developing countries is carried out on a country-by-country basis, usually through poverty reduction strategies. DFID has supported work on natural resource governance in Cambodia, Cameroon, Ghana, Indonesia and a number of other countries through the Governance Learning Group.

Some recent examples of governance programmes supported by DFID in the renewable natural resource sector include:

support to regional forest law enforcement and governance (FLEG) processes in East Asia and Africa that help build awareness of governance problems, in particular illegal logging, and generate commitment to tackle them;

an active role within the EU Forest Law Enforcement, Governance and Trade (FLEGT) process. On 19 July the College of Commissioners adopted a package of proposals that includes a draft Regulation to control imports of illegally harvested timber into the single market;

support to Global Witness to analyse and publish trends concerning the governance of natural resource extraction—in particular the forestry sector—in the Democratic Republic of Congo;

support to the Overseas Development Institute to examine governance and poverty impacts of the illegal timber trade in Central America, with the aim of catalysing institutional and policy change by building awareness, dialogue and 'coalitions for change' among political institutions, government agencies, donors and civil society; and

pathways for Environmental Action in Kenya (PEAK), a programme to enable local communities to better understand their rights and economic opportunities under new environment legislation.

On the question of natural resource governance and armed conflict, responsibilities fall across Whitehall. DFID, the Foreign Office and Ministry of Defence collaborate on African conflict issues through a joint strategy called the Africa Conflict Pool. This has considered a range of natural resource and conflict issues within its work drawing on academic literature, the work of groups such as Global Witness and the work of various United Nations bodies.

Overseas Aid

Chris Ruane: To ask the Secretary of State for International Development if he will break down by recipient country aid given by the UK in each of the last 10 years *(a)* in total and *(b)* as a percentage of total expenditure. [186133]

Hilary Benn: I have arranged for copies of a document entitled "Bilateral Aid by Country (Total Gross Public Expenditure)" to be placed in the Libraries of the House. This includes details of the aid given by the UK to each recipient country in each of the last 10 years up until 2002–03, the last full year for which we have final figures. It also provides details of the percentage of total bilateral UK aid for the relevant year.

The UK also provides contributions to multilateral organisations from both DFID and the Government as a whole. By definition, this expenditure cannot be broken down by country as the UK contribution is pooled with those of other donors.

Chris Ruane: To ask the Secretary of State for International Development what the overseas aid budget expressed at today's prices was in each of the last 25 years; and what the projected budget is as a result of the Spending Review. [186135]

Hilary Benn: Expenditure on DFID programmes for the years 1978–79 to 2002–03, expressed in constant 2002–03 prices, is set out in the following table:

£ million (constant 2002–03 prices)

	Total DFID programmes
1978–79	2,811
1979–80	2,629
1980–81	2,675
1981–82	2,495
1982–83	2,361
1983–84	2,411
1984–85	2,431
1985–86	2,360
1986–87	2,386

Source:
DFID's annual statistical report Statistics on International Development 1998–99 to 2002–03.

As a result of Spending Review 2002 DFID's Resource Departmental Expenditure Limit rose from £3.596 billion in 2003–04 to £4.529 billion in 2005–06. This represented over 8 per cent. annual real growth for the Spending Review period.

Spending Review 2004 provided another excellent settlement which demonstrated the Government's continuing commitment to tackling global poverty and the United Nation's 0.7 per cent. oda/GNI target. DFID's Resource Departmental Expenditure Limit will rise to £5.028 billion in 2006–07 and £5.323 billion in 2007–08. This represents 9.2 annual average real growth for the period of the Spending Review.

Angus Robertson: To ask the Secretary of State for International Development how much *(a)* monetary aid and *(b)* aid in kind his Department has (i) pledged and (ii) delivered to (A) the Philippines, (B) Romania and (C) Ukraine (1) in each financial year since 1997–98 and (2) in each month since January 2003; what new programmes his Department has (x) initiated and *(y)* funded in each country since January 2003; and if he will make a statement. [185716]

Mr. Gareth Thomas: The following table shows what has been delivered to the Philippines, Romania and Ukraine in terms of aid in kind and monetary aid from 1997–98 to 2003–04 (latest figures). DFID does not keep monthly records of pledges or expenditures specifically in terms of aid-in-kind or monetary aid; DFID also does not keep records of how much has been pledged specifically in terms of aid in kind or monetary aid.

[1] Humanitarian assistance comprises food aid and other humanitarian assistance.
[2] This comprises both interest and principal foregone under Retrospective Terms Adjustment. Amounts reported are repayments which would have fallen.
[3] 2001–02 is a unique year in that total DFID expenditure is understated by around £140 million due to move to resource accounting. See glossary for details.
[4] The figures for 2003–04 are provisional.

Since 2003 DFID has committed a further £111,647 to support civil society organisations in the Philippines.

The following are new programmes initiated and funded in Romania since January 2003; all are extensions of existing activities in Romania.

	£000
Social and Healthcare Linkages—To assist local authorities in the equitable and sustainable delivery and development of social and health care services	200
Social Development Scheme Fund—To support social development, build social capital and contribute to poverty alleviation in the communities most affected by mining industry restructuring	200
Social Development Strategy for Romanian Mining Regions—to support the "National Strategy for Mining Industry" through providing a social development strategy.	84
Social Mitigation Strengthening Cohesion and Lesson Learning—To enhance the capacity of the National Agency for Mining through strengthening cohesion and lesson learning within the mining sector Social Mitigation Project	76
Advisory support to the National Agency for Civil Servants (NACS)—To improve the Government's management of its civil servants by assisting the agency to clarify its role and function	134
Assistance to National Agency for Civil Servants—Human resource Planning, Establishment Control and Pay Bill Modelling—to assist NACS gather and analyse the data required to formulate a Human Resource Plan, to determine the number and level of public positions and to formulate pay proposals for 2004.	30
Technical Assistance to the General Secretariat of the Government for building a coherent Policy Making and an Accountable Administration—to assist the Unit for Policy Planning and General Secretariat in the design of institutional procedures of policy formulation, monitoring and evaluation.	65
Public Admin Reform Strategy Adviser—The establishment of a strategic framework which clearly sets out Government public administration reform actions, and identifies the role of the EC, World Bank and other international organisations.	100
Support to the National Co-ordinator and Romanian Commission for Poverty Prevention and Social Inclusion (CASPIS)—To strengthen understanding and strategic approach to poverty reduction, including support to the CASPIS Technical Secretariat, line ministries and at local level.	90
Adviser on Anti-Poverty Strategies to CASPIS—to enhance capacity within CASPIS to adopt a strategic approach to poverty reduction policies and to promote the implementation of poverty reduction plans.	95
Strategic Planning Support to the Romania Social Development Fund—(RSDF) to develop the sustainable capacity to measurably contribute towards national and/or local poverty alleviation and social inclusion plans.	90
High Level Group for Romania Children Co-ordinator—To promote child rights and protection and the prevention of child abuse and neglect using an holistic approach in the broader context of child health and development.	42

The following are new programmes initiated and funded in Ukraine since January 2003.

	£ million
Democratising Ukraine Project	1.5
Lviv Economic and Social Development Project	1.46
Ukraine Trade Policy Project	0.99
World Bank Ukraine Social Investment Fund (DFID Technical Assistance Input)	0.3
World Bank Public Administration Reform Programme (DFID TA Input)	0.3
Support to Ministry of Education and Sciences (Part of UN global Fund to fight HIV/AIDS in Ukraine)	0.035
HIV/AIDS Small Project Support	0.025

DEPUTY PRIME MINISTER

Brent Council Properties

Sarah Teather: To ask the Deputy Prime Minister what has been the cost to the London borough of Brent of vouchers given to tenants for refurbishment of Brent homes in each year since the scheme has been in operation; and for how many properties the vouchers were given each year. [186299]

Keith Hill: The London borough of Brent does not provide vouchers to tenants for the refurbishment of Brent owned homes. Vouchers for the decoration of council owned properties are issued in two instances:

1. Void property—assistance can be given to a tenant moving into a new property.

2. Decoration following Repair—in cases where we have damaged decorations whilst carrying out repairs.

This scheme has been running since the late 1970s. Information on the costs of maintaining properties prior to 2001–02 is not available.

The cost of the scheme and the numbers of properties refurbished over the last three years are as follows:

2001–02: 553 properties at a cost of £54,450

2002–03: 648 properties at a cost of £62,900

2003–04: 591 properties at a cost of £52,700.

Sarah Teather: To ask the Deputy Prime Minister what the cost of refurbishing and redecorating Brent council-owned homes was in each of the 10 years before the voucher scheme was introduced; and how many properties were refurbished and redecorated in each year. [186300]

Keith Hill: London Borough of Brent have advised that no records are held that could provide that information.

Departmental Buildings

Mr. Llwyd: To ask the Deputy Prime Minister what *(a)* renovation and *(b)* maintenance projects on buildings (i) owned and (ii) rented by his Department were undertaken in each of the last five years; and what the associated costs were of each. [163957]

Phil Hope *[pursuant to the reply, 4 May 2004, Official Report, c. 1433W]:* The Office of the Deputy Prime Minister was established in May 2002. Since that date the following renovation and maintenance projects have been undertaken at the properties (i) owned and (ii) rented by the office. All figures are exclusive of VAT.

£

	2002–03		2003–04	
	Renovation	*Maintenance*	*Renovation*	*Maintenance*
(i) Owned				
Burlington House	0	83,400	0	55,000
QEIICC	29,000	139,418	1,853,300	3,127,511
Fire Service College	230,257	108,097	956,008	182,151
Government Office Network	0	0	0	0
(ii) Rented				
ODPM—HQ				
Eland House	1,777,879	0	655,862	79,174
Ashdown House	0	0	70,343	570,220
Portland House	311,062	0	0	0
PINS	0	0	0	109,316
Fire Service Improvement—Marchington	0	42,416	13,318	52,766
Valuation Tribunal	42,822	255,204	115,166	193,059
Government Office Network	101,496	214,000	803,820	256,311
Rent Service	976,000	89,500	118,000	218,500

With regard to the maintenance figures, the Office of the Deputy Prime Minister records an item of work as a project if it exceeds £15,000. Work of lower value is funded from bulk maintenance. The number of projects has prevented detailing each, as this could have been provided only at disproportionate cost.

The figures provided are gross expenditure and do not reflect receipts from other building occupants. Although the Office of the Deputy Prime Minister has overall responsibility for the buildings occupied by Government offices, they carry out functions on behalf of 10 Departments.

Departmental Costs

Mrs. Spelman: To ask the Deputy Prime Minister how much his Department spent on *(a)* refurbishment and *(b)* office furniture in the last year for which figures are available. [185777]

Phil Hope: For information in respect of refurbishment, I refer the hon. Member to the answer given today in respect of parliamentary question 180362.

The Office of the Deputy Prime Minister does not collect data on its expenditure on office furniture.

Mrs. Spelman: To ask the Deputy Prime Minister what the *(a)* running costs and *(b)* total expenditure of (i) the Greater London Authority, (ii) each of the Government offices for the regions, (iii) the regional observatories and regional intelligence groups and (iv) the regional housing boards was in each year since each was established. [185009]

Phil Hope: The Greater London Authority's net expenditure on services (excluding reserve transfers) since its establishment in May 2000 is as follows:

	£ million
2000–01	[1]20.5
2001–02	32.9
2002–03	45.5
2003–04	[2]50.1
2004–05	[3]63.3

[1] Part year only.

[2] Provisional outturn.

[3] Budget.

Information about how much of this expenditure is specifically for running costs are not held by the Office of the Deputy Prime Minister.

The running costs for each Government Office for the period 1995-/96 until 2003–04, and their budgets for the current year, are detailed in the following table. The Government Offices now carry out activity on behalf of 10 Government Departments compared with four Departments in 1995–96. In 2002–03 they managed or influenced around £9 billion of Government expenditure broken down by region as follows: North East—£664 million; North West—£1,430 million; Yorkshire and the Humber—£1,036 million; West Midlands—£1,285 million; East Midlands—£428 million; East of England—£349 million; South West—£499 million; South East—£876 million; and London—£2,592 million.

Regional observatories obtain their resources from a number of different sources and information about their running costs and expenditure are not held by the Office of the Deputy Prime Minister.

Regional Housing Boards' running costs are funded from the budgets of the core Board members: Government Offices, Regional Chambers/Assemblies, Regional Development Agencies, the Housing Corporation and English Partnerships. Information about their running costs are not held by the Office of the Deputy Prime Minister.

[1] Allocations for 2004–05.

Note:
GO-North West and GO-Merseyside merged during 1998–99.

Mrs. Spelman: To ask the Deputy Prime Minister how much his Department spent on replacing light bulbs in the last year for which figures are available. [185774]

Phil Hope: The Office of the Deputy Prime Minister does not collect data on this.

Departmental Mobile Phones

Mrs. Spelman: To ask the Deputy Prime Minister how many mobile phones owned by his Department have been reported lost or stolen since 2001. [185797]

Phil Hope: The Office of the Deputy Prime Minister was created on 29 May 2002. The information requested is not held centrally and could be provided only at disproportionate cost.

Departmental Refurbishment Costs

Mrs. Spelman: To ask the Deputy Prime Minister how much his Department and its predecessors spent on refurbishment of its buildings in each year since May 1997, broken down by building. [180362]

Phil Hope: The Office of the Deputy Prime Minister was established in May 2002. Since that date the following has been spent on refurbishment. All figures are exclusive of VAT.

£

	2002-03	2003-04
Portland House	311,062	0
Eland House	1,777,879	655,862
Ashdown House	0	70,343
QEII Conference Centre	29,000	1,853,300
Fire Service College	230,257	956,008
Government Office North West—Sunley Tower	44,110	0
Government Office South East—Bridge House	44,000	490,000
Government Office London—Riverwalk House	8,500	97,000
Government Office West Midlands—Paradise Circus	4,886	23,820
Government Office East Midlands—The Belgrave Centre	0	193,000
Fire Service Improvement—Marchington	0	13,318
Valuation Tribunal Office Network	42,822	115,166
Rent Service Office Network	976,000	118,000

The figures provided, which exclude VAT, are gross expenditure and do not reflect receipts from other building occupants.

Although the Office of the Deputy Prime Minister has overall responsibility for the buildings occupied by Government Offices, they carry out functions on behalf of 10 Departments.

The Rent Service became an Executive Agency of the Department for Work and Pensions on 1 April 2004, but was part of the Office of the Deputy Prime Minister in the period in question.

Departmental Staff (Upper Age Limits)

Mr. Andrew Turner: To ask the Deputy Prime Minister whether *(a)* his Department and *(b)* agencies for which it is responsible (i) have a set retirement age which applies to all or most personnel and (ii) have a maximum age beyond which applications for employment will not be considered; and what the age is in each case. [186082]

Phil Hope: The normal retirement age in the Office of the Deputy Prime Minister and its agencies is 60. Staff below the senior civil service may choose to continue in service until 65. Senior civil servants may exceptionally be invited to continue in service after 60 and other staff after 65.

There is no set age limit beyond which staff will not be recruited.

Empty Houses

Mr. Webb: To ask the Deputy Prime Minister for how many empty houses his Department is responsible; and if he will make a statement. [182142]

Keith Hill: The Fire Service College, an Executive Agency of the Office of the Deputy Prime Minister, owns 39 residential properties of which one is empty but is expected to be occupied by a member of staff on secondment by the end of July 2004.

Green Minister

Mr. Horam: To ask the Deputy Prime Minister if he will make a statement on the activities of the Green Minister in the Department in financial year 2003–04. [185133]

Phil Hope: As the Green Minister in the Office of the Deputy Prime Minister, I am a member of ENV, the Cabinet Committee on the Environment, and ENV(G), the Cabinet Sub-Committee of Green Ministers. I have also considered issues surrounding the ad hoc Ministerial Group on Climate Change and the Sustainable Building Task Group. However, it has been established practice under successive governments not to disclose information relating to the proceedings of Cabinet Committees.

I am a member of the Sustainable Development Task Force, and have attended its regular meetings. In February, I presented a paper, "Sustainable Communities", to the task force, which set out the many ways in which the Office of the Deputy Prime Minister's overarching aim of creating sustainable communities contributes to sustainable development.

I also represent the Office of the Deputy Prime Minister on the Ministerial Group for the Implementation of the Energy White Paper. I presented a paper to this group in October on the Office of the Deputy Prime Minister's contribution to this agenda, including energy efficiency and renewable energy.

I am also the lead Minister on the Sustainable and Secure Buildings Bill.

Homelessness

David Davis: To ask the Deputy Prime Minister how many homeless people there were in the East Riding of Yorkshire in each of the past five years. [181590]

Phil Hope: Information collected about local authorities' actions under homelessness legislation is in respect of households, rather than persons. A summary of information reported by East Riding of Yorkshire district council about the number of households

accepted under homelessness legislation as eligible for assistance, unintentionally homeless and in priority need, in each year since 1999–2000, is as follows.

East Riding of Yorkshire DC homeless household acceptances

	Number
1999–2000	305
2000–01	289
2001–02	361
2002–03	516
2003–04	459

Source:
ODPM P1E homelessness returns (quarterly)

Mr. Edward Davey: To ask the Deputy Prime Minister by what proportion the number of statutory homelessness acceptances changed between 1 May 1997 and 31 March 2004. [182904]

Phil Hope: Information about local authorities' actions under homelessness legislation is collected quarterly. Estimates of the number of households accepted as eligible for assistance, unintentionally homeless and in priority need show an increase of 34 per cent. between 1997–98 (102,430) and 2003–04 (137,000).

Local Government Finance

Chris Ruane: To ask the Deputy Prime Minister how much central Government funding was provided for local government in each of the last 25 years, at today's prices. [186158]

Mr. Raynsford: The amount of central Government funding provided for local government from 1981–82 to 2004–05, at 2003–04 prices, are shown as follows.

Central Government funding

	£ billion
1981–82	26.336
1982–83	25.280
1983–84	24.788
1984–85	24.411
1985–86	22.729
1986–87	22.468
1987–88	22.655
1988–89	21.973
1989–90	20.962
1990–91	33.660
1991–92	42.175
1992–93	43.799
1993–94	42.657
1994–95	43.438
1995–96	42.614
1996–97	42.480
1997–98	41.566
1998–99	42.595
1999–2000	44.130
2000–01	47.084
2001–02	49.525
2002–03	50.647
2003–04[1]	53.135
2004–05[1]	57.094

[1] Budget figures.

Notes:
1. Central Government funding consists of: 1981–82 to 1989–90: Aggregate exchequer grant 1990–91 onwards: revenue support grants, specific and special grants within AEF, community charge grant (1991–92), teachers pay award additional grant (1992–93), SSA reduction grant (1994–95 to 2001–02), police grant (1995–96 onwards), Central Support Protection grant (1999–2000 to 2001–02), General GLA grant (2000–01 onwards), and distributable amount from non-domestic pool (1990–91 onwards).
2. Funding at 2003–04 prices have been calculated using Her Majesty's Treasury's GDP Deflator.

Ministerial Travel Costs

Mr. Beggs: To ask the Deputy Prime Minister what the total cost of air travel between Northern Ireland and Great Britain was for *(a)* Ministers and *(b)* officials in the Department in the last year for which figures are available. [184527]

Phil Hope: The Office of the Deputy Prime Minister does not separately identify costs of air travel to different parts of the United Kingdom by officials and this information could be obtained only at disproportionate cost. The total cost of air travel to Northern Ireland by Ministers in the Office of the Deputy Prime Minister was £903 in 2003–04.

Parish Councils

Bob Spink: To ask the Deputy Prime Minister if he will set out the powers and responsibilities of parish councils. [180513]

Mr. Raynsford: Pursuant to my answer of 29 June 2004, *Official Report*, column 228W, in the following table are revised lists of parish council's main statutory functions.

Powers and duties of parish councils

Function	Powers and duties	Statutory provisions
Access land	Power to enforce bye-laws made by another authority	Countryside and Rights of Way Act 2000, s. 17
Allotments	Duty to provide allotments. Power to improve and adapt land for allotments, and to let grazing rights	Small Holdings and Allotments Act 1908, ss. 23, 26 and 42
Baths and washhouses	Powers relating to provision of public baths, washhouses and bathing huts	Public Health Act 1936, ss. 221–223 and 225–227
Burial grounds, cemeteries and crematoria	Power to acquire and maintain Power to provide Power to agree to maintain monuments and memorials Power to contribute towards expenses of cemeteries	Open Spaces Act 1906, Ss 9 and 10; Local Government Act 1972, s. 214; Parish Councils and Burial Authorities (Miscellaneous Provisions) Act 1970, s. 1 Local Government Act 1972, s. 214(6)
Bus shelters	Power to provide and maintain shelters	Local Government (Miscellaneous Provisions) Act 1953, s. 4

Powers and duties of parish councils

Function	*Powers and duties*	*Statutory provisions*
Bye-laws	Power to make bye-laws in regard to pleasure grounds	Public Health Act 1875, s. 164
		Road Traffic Regulation Act 1984, s. 57(7)
	Cycle parks	Public Health Act 1936, s. 223
	Baths and washhouses	Open Spaces Act 1906, ss. 15 and 12
	Open spaces and burial grounds	Public Health Act 1936, s. 198
	Mortuaries and post-mortem rooms	Public Health Act 1936, s. 87
	Public Conveniences	
Clocks	Power to provide public clocks	Parish Councils Act 1957, s. 2
Closed churchyards	Powers as to maintenance	Local Government Act 1972, s. 215
Commons	Power for parish council to contribute to expense relating to scheme for the regulation and management of a common	Commons Act 1899, s. 5
Common pastures	Powers in relation to providing common pasture	Smallholdings and Allotments Act 1908, s. 34
Conference facilities	Power to provide and encourage the use of facilities	Local Government Act 1972, s. 144
Community centres	Power to provide and equip buildings for use of clubs having athletic, social or recreational objectives	Local Government (Miscellaneous Provisions) Act 1976 s. 19
Crime prevention	Powers to install and maintain equipment and establish and maintain a scheme for detection or prevention of crime	Local Government and Rating Act 1997, s. 31
Drainage	Power to deal with ponds and ditches	Public Health Act 1936, s. 260
Entertainment and the Arts	Provision of entertainment and support of the arts	Local Government Act 1972, s. 145
Financial assistance	Duty to require information	Local Government Act 1872, s. 137A
General powers	Power to incur expenditure for certain purposes	Local Government Act 1972, s. 137
Gifts	Power to accept	Local Government Act 1972, s. 139
Highways	Power to maintain footpaths and bridle-ways	Highways Act 1980, ss. 43, 50
	Power to light roads and public places	Parish Councils Act 1957, s. 3;
	Provision of litter bins	Highways Act 1980, s. 301
	Powers to provide parking places for bicycles and motor-cycles, and other vehicles	Litter Act 1983, ss. 5,6
		Road Traffic Regulation Act 1984, ss. 57, 63
	Power to enter into agreement as to dedication and widening	Highways Act 1980, ss. 30, 72
		Parish Councils Act 1957, s. 1
	Power to provide roadside seats and shelters	Highways Act 1980, ss. 47, 116
	Consent of parish council required for ending maintenance of highway at public expense, or for stopping up or diversion of highway	Highways Act 1980, s. 130
		Road Traffic Regulation Act 1984, s. 72
		Highways Act 1980, s. 96
	Power to complain to highway authority as to unlawful stopping up or obstruction of highway or unlawful encroachment on roadside wastes	
	Power to provide traffic signs and other objects or devices warning of danger	
	Power to plant trees and lay out grass verges etc. and to maintain them	
Investments	Power to participate in schemes of collective investment	Trustee Investments Act 1961, s. 11
Land	Power to acquire by agreement, to appropriate, to dispose of	Local Government Act 1972, ss. 124, 126, 127
	Power to accept gifts of land	Local Government Act 1972, s. 139
Litter	Provision of receptacles	Litter Act 1983, ss. 5,6
Lotteries	Powers to promote	Lotteries and Amusements Act 1976, s. 7
Mortuaries and post mortem rooms	Powers to provide mortuaries and post mortem rooms	Public Health Act 1936, s. 198
Open spaces	Power to acquire land and maintain	Public Health Act 1875, s. 164
		Open Spaces Act 1906, ss. 9 and 10
Parish documents	Powers to direct as to their custody	Local Government Act 1972, s. 226
Public buildings and village hall	Power to provide buildings for public meetings and assemblies	Local Government Act 1972, s. 133
Public conveniences	Powers relating to provision of public conveniences	Public Health Act 1936, s. 87
Recreation	Power to acquire land for or to provide public walks, pleasure grounds and open spaces and to manage and control them.	(*see* Local Government Act 1972, Sched. 14 para. 27)
		Public Health Act 1875, s. 164
	Power to provide gymnasiums, playing fields, holiday camps	Public Health Acts Amendment Act 1890 s. 44
		Open Spaces Act 1906, ss. 9 and 10
	Provision of boating pools	Local Government (Miscellaneous Provisions) Act 1976, s. 19
		Public Health Act 1961, s. 54
Town and country planning	Right to be notified of planning applications	Town and Country Planning Act 1990, Sched. 1, para. 8
Tourism	Power to encourage visitors and provide conference and other facilities	Local Government Act 1972, s. 144
Traffic calming	Powers to contribute financially to traffic calming schemes	Highways Act 1980, s.274A

Powers and duties of parish councils

Function	*Powers and duties*	*Statutory provisions*
Transport	Powers in relation to car-sharing schemes, taxi fare concessions and information about transport	Local Government and Rating Act 1997, s. 26, 28 and 29
	Powers to make grants for bus services	Transport Act 1985, s. 106A
War memorials	Power to maintain, repair, protect and alter war memorials	War Memorials (Local Authorities' Powers) Act 1923, s.1; as extended by Local Government Act 1948, s. 133
Water Supply	Power to utilise well, spring or stream and to provide facilities for obtaining water from them	Public Health Act 1936, s. 125

Policies (Environmental Impacts)

Mr. Horam: To ask the Deputy Prime Minister how many new policy proposals or significant changes in policy were produced in *(a)* 2002–03 and *(b)* 2003–04; how many of these were screened for their environmental impacts; and how many were the subject of separate environmental appraisals. [185096]

Keith Hill: The number of consultations on new policy proposals were:

(a) 2002–03—24 (only from 29 May 2002 when the Office of the Deputy Prime Minister was established);

(b) 2003–04—32.

All policy proposals are accompanied by a Regulatory Impact Assessment (RIA) where applicable, and this assessment includes consideration of environmental impacts. From April 2004 the importance of the assessment of environmental impacts has been more strongly emphasised within the RIA process.

Theft

Mrs. Spelman: To ask the Deputy Prime Minister what the equivalent monetary cost of theft has been to *(a)* his Department in each year since it was established, *(b)* the executive agencies affiliated to his Department in each year since his Department was established and *(c)* the Government Offices of the Regions in each year since 1997. [185781]

Phil Hope: Losses due to theft in each financial year since the Office of the Deputy Prime Minister was created are as follows:

£

Financial year	*Office of the Deputy Prime Minister*	*Executive agencies*	*Regional Coordination Units/ Government Office*
2002–03	1,901	41,579	1,000
2003–04	6,350	7,581	12,350
2004–05	0	0	9,800

Assets have been valued at cost, net book value or replacement cost depending on the circumstances of the individual case. Recoveries from perpetrators have been netted off. Some incidents are still under investigation and final values may change.

TRADE AND INDUSTRY

Address Preference Service

Sarah Teather: To ask the Secretary of State for Trade and Industry how many *(a)* residential and *(b)* commercial addresses have been registered under the address preference service in each year since it has been operational. [186241]

Mr. Timms: The address preference service is the operational concern of Royal Mail Group and I have therefore asked the Chief Executive to reply direct to the hon. Member.

Advertising

Dr. Cable: To ask the Secretary of State for Trade and Industry how much money was spent on advertising and promotional literature for her Department's initiatives, broken down by year since 1997. [183808]

Ms Hewitt: For expenditure on advertising by my Department through COI from 1997–98 to 2000–01, I refer the hon. Member to the answer I gave to the hon. Member for Twickenham on 20 November 2001, *Official Report*, column 162W. Advertising expenditure for 2001–02, 2002–03 and 2003–04 was £6,610,240, £13,741,906 and £4,547,749 respectively. Figures include advertising by the Small Business Service and exclude VAT.

Figures relating specifically to promotional literature are not held centrally and could be produced only at disproportionate cost.

Biomass Energy Industry

Nick Harvey: To ask the Secretary of State for Trade and Industry how she intends to protect existing and well established wood-based industries from power stations whose raw material is the same wood residues. [185842]

Mr. Timms: The Woodfuel Resource Study published earlier this year found that 10 per cent. of potential resource in small roundwood and sawmill product, used by woodpanel industries, remains unused after needs of existing industries have been taken into account.

I understand my officials will be meeting with the Forestry Commission and the Wood Panel Industries Federation to discuss the Federation's concerns shortly. I met representatives of the Federation to discuss their concerns on 23 October 2003.

Brazil

Mr. Rosindell: To ask the Secretary of State for Trade and Industry what the trade barriers are to imported Brazilian products entering the United Kingdom. [184185]

Mr. Mike O'Brien: In terms of Brazil-specific measures for which this Department has responsibility, there is an anti-dumping duty of 32 per cent. imposed by the European Community on imports of malleable tube or pipe fittings originating in Brazil.

Business Start-ups

Mr. Norman: To ask the Secretary of State for Trade and Industry how many technology business start-ups there were in each year since 1995. [185332]

Nigel Griffiths: DTI figures based solely on VAT registrations in technology industries are shown as follows for the period 1995 to 2002. Data for 2003 will be available in Autumn 2004.

UK VAT registrations: 1995–2002

	Technology industries
1995	17,315
1996	20,410
1997	26,740
1998	30,600
1999	22,220
2000	23,755
2001	19,180
2002	15,860

Source:
Business Start-ups and Closures:
VAT Registrations and De-registrations 1994–2002;
Small Business Service, www.sbs.gov.uk/analytical/statistics/vatstats.php

VAT registrations and de-registrations do not capture all start-up activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which has risen in each year since 1995. Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 3.8 million enterprises were registered for VAT at the start of 2002.

Call Centres

Mr. Bellingham: To ask the Secretary of State for Trade and Industry (1) what research her Department has conducted into the security implications of call centres being outsourced to other countries; and if she will make a statement; [185456]

(2) what representations have been made to her Department by representatives of British industry regarding security concerns which have arisen from outsourcing call centres from the UK. [185455]

Ms Hewitt: Companies wanting to transfer personal data from the UK to other countries must comply with the Data Protection Act's requirements, including its eight rules of good information handling known as the Data Protection Principles.

Where a company overseas is processing personal data under contract to a company in the UK, the UK Company, as controller of the data, retains full responsibility for the actions of the second company. This situation applies whether the processing is being carried out in the UK or abroad.

Responsibility for administering and enforcing the Act lies with the Information Commissioner, Richard Thomas, who carries out these duties independently of the Government. Any directly affected person who believes that one of the Act's requirements has been broken can ask the Commissioner to assess whether this is the case. If he concludes that there has been a significant breach, it is open to him to take enforcement action against the organisation concerned. To date, the Information Commissioner has not received any substantive complaints that the Act has been breached as a result of the offshoring of call centre work.

Common Agricultural Policy

Mr. Wiggin: To ask the Secretary of State for Trade and Industry what research her Department has commissioned on the effects of the Common Agricultural Policy on non-European Union trade, with particular reference to less-developed countries. [184046]

Mr. Mike O'Brien: The DTI has not commissioned its own research into the effects of the Common Agricultural Policy on non-European Union trade. However, our view, based on the ample research on others such as the World Bank and the OECD, is clearly set out in the recent White Paper on Trade and Investment and in the Economics Paper which accompanied it.

Departmental Accountancy Practice

Mr. Bacon: To ask the Secretary of State for Trade and Industry who the Finance Director of *(a)* the Department, *(b)* UK Trade and Investments Service, *(c)* Postal Services Commission, *(d)* Ofgem, *(e)* Office of Fair Trading and *(f)* Export Credits Guarantee Department is; what accountancy qualifications each Director holds; and on how many occasions there has been a qualified opinion on (i) the resource accounts and (ii) other accounts of each in the last five years. [183454]

Ms Hewitt: The Finance Director for the Department of Trade and Industry is David Evans, and he is a Doctor of Philosophy. He does not hold a CCAB qualification. There has not been a qualified audit opinion to the Department's resource and other accounts in the last five years.

The Finance Director for UK Trade and Investments Service is Susan Haird. She has an MA in Economics and Modern History and does not hold a CCAB qualification. There have been no qualifications to the resource accounts in the last five years. The appropriation account for 2000–01 received an excess vote qualification.

The Finance Director of the Export Credit Guarantees Department is Ian Dickson. He is a qualified accountant and is a member of the following accountancy bodies: Institute of Chartered Accountants of Scotland; Chartered Institute of Management Accountants; and the Association of Corporate Treasurers. There have been no qualifications to the resource or other accounts in the last five years.

The Postal Services Commission, Ofgem and the Office of Fair Trading have elected to respond to the Member directly.

Departmental Annual Report

Dr. Cable: To ask the Secretary of State for Trade and Industry how many copies of her Department's annual report were printed in each year since 1997; how many were sold in each year; and what the *(a)* publication costs and *(b)* sales revenue were. [183888]

Ms Hewitt: The cost incurred by the Department for producing the Departmental Reports is limited to the design and artwork, and, since 1999, the costs incurred in placing an electronic version of the report on the Departmental website. Other costs of printing and publication are met directly by the publisher, TSO (The Stationery Office Limited), which recoups these costs through sales. TSO uses its commercial judgement as to the number of copies printed.

Total sales revenue is impacted by the number of copies sold at a discount, and is a commercial matter for TSO, but TSO has confirmed that the total numbers of copies sold are:

Year	*Number Sold*
1997	not avail.
1998	1,346
1999	1,219
2000	1,244
2001	1,145
2002	1,085
2003	1,000
2004	765[1]

[1] to date (mid July)

The number of hard copies ordered is reducing as recipients are being encouraged to use the web-based electronic version of the Report.

Departmental Expenditure

Mr. Swayne: To ask the Secretary of State for Trade and Industry how much was spent by her Department on public relations consultants in *(a)* 1996–97 and *(b)* the latest year for which figures are available. [185275]

Ms Hewitt *[holding answer 20 July 2004]:* Figures relating to past and current expenditure on public relations consultants by my Department are not held centrally and could be produced only at disproportionate cost.

Mr. Randall: To ask the Secretary of State for Trade and Industry what the total cost of printing departmental headed notepaper was in *(a)* 1996–97 and *(b)* the latest year for which figures are available. [185380]

Ms Hewitt *[holding answer 20 July 2004]:* The information is as follows:

(a) The total costs of printing departmental headed notepaper in 1996–97 is unavailable.

(b) The total costs of printing departmental headed notepaper in 2003–04 was £29,848.

Departmental Vehicles

Mr. Kidney: To ask the Secretary of State for Trade and Industry how many road vehicles are operated by the Department and its agencies; how many personal injury accidents involving road vehicles operated by the Department have occurred within each of the last five years; and what the Department's policy is for managing work related road safety. [185923]

Ms Hewitt: The DTI currently has nine fleet vehicles.

There have not been any personal injury accidents involving road vehicles operated by the Department within the last five years.

The lease car company is responsible for ensuring the vehicle is roadworthy. The driver is responsible for ensuring that the vehicle is maintained and suitable insurance is in place.

Chief Executives of the DTI Agencies will be writing to you direct in response to your question.

Letter from Claire Clancy to Mr. Kidney, dated 3 August 2004:

I am responding to your recent Parliamentary Question to the Secretary of State for Trade and Industry on behalf of Companies House, which is an Executive Agency of the DTI.

Companies House operates one company vehicle which is a van.

We have had no personal injury accidents involving the vehicle during the last five years.

We do not have a separate road safety policy. When on company business this is addressed within the overall Health & Safety Policy, and where legislation has been introduced as in the use of mobile phones. This information is provided and instructions given to all employees.

Letter from Ron Marchant to Mr. Kidney, dated 3 August, 2004:

I am replying to this parliamentary question, tabled on 20 July concerning how many road vehicles are operated by the Department and its agencies; how many personal injury accidents involving road vehicles operated by the Department have occurred within each of the last five years; and what the Department's policy is for managing work-related road safety.

The Patent Office van is our only leased vehicle and there has been no personal injury accidents over the last five years. The Office has not got a specific policy for managing work-related road safety. However, the PO van is equipped with a hands free mobile, is regularly serviced and drivers must have a valid clean driving licence.

Letter from Desmond Flynn to Mr. Kidney, dated 3 August, 2004:

The Secretary of State for Trade and Industry has asked me to reply to your question to you directly on behalf of The Insolvency Service in respect of your question (2003/3950) asking how many road vehicles are operated by the Department and its agencies; how many personal injury accidents involving road vehicles operated by the Department have occurred within each of the last five years; and what the Department's policy is for managing work-related road safety.

The only part of The Insolvency Service that operates any road vehicles is Redundancy Payments, which currently has four leased motor vehicles used by visiting officers. There have been no reported personal injuries involving vehicles in the last five years. We require all vehicles to be maintained in a good state and to be serviced regularly. All journeys must be notified in advance and officers must not drive their vehicles when tired or for excessive hours. Finally, all accidents, whether involving personal injury or not, must be reported.

Letter from Dr. J. W. Llewellyn to Mr. Kidney, dated 3 August, 2004:

The Secretary of State for Trade and Industry has asked me to reply on behalf of the National Weights and Measures Laboratory (NWML) to your three questions regarding road vehicles and safety.

1. Road vehicles operated by the Agency.

The National Weights & Measures Laboratory operates two official vehicles.

2. Personal injury accidents involving Agency vehicles within the past 5 years.

None

3. The Agency's policy for managing work-related road safety.

NWML produced its own policy on managing work-related road safety. A copy of this has been placed in the Library.

E-mail Preference Service

Sarah Teather: To ask the Secretary of State for Trade and Industry if the Government will introduce an e-mail preference service; and if she will make a statement. [186240]

Mr. Timms: The Government introduced the Privacy and Electronic Communications (EC Directive) Regulations in December 2003, which cover, among other things, the regulation of unsolicited commercial e-mails. The Government have no plans to introduce an e-mail preference service.

The Government have not ruled out extending the "opt-in" right to corporate subscribers. However, as the regulations have only been in force for seven months, it is too early to assess how the new provisions are working in practice, and what areas, if any, might need to be reviewed.

Employment Agency Standards Inspectorate

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry whether the Employment Agency Standards Inspectorate has powers to investigate the in-house employment agency of the national health service. [183223]

Mr. Sutcliffe: The Employment Agency Standards (EAS) Inspectorate enforces the provisions of the Employment Agency Act 1973 (the Act) and the associated Regulations. The Act regulates the conduct of employment agencies and employment businesses.

Section 9 of the Act sets out the powers of the EAS Inspectorate to enter any relevant business premises to inspect any records or to require any person on the premises to provide all such information as may be required to ascertain whether the provisions of the Act are being complied with.

The Act does not apply to the Crown or those bodies that are listed in section 13(7) of the Act. The in-house employment agency of the national health service, NHS Professionals, is not part of the Crown or listed as an exempt body in the Act.

EU Emissions Trading

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what formal assessment she has made of the *(a)* effect on the competiveness of UK industry, *(b)* the cost to UK consumers and *(c)* the incentives for UK industry to cut carbon emissions of the proposals for allocating national allowances under the EU Emissions Trading Scheme recently approved by the EU Commission. [185504]

Mr. Timms: The Department has undertaken extensive analysis of the implications of the EU Emissions Trading Scheme for UK industry and consumers. A paper on the implications for UK competitiveness is available at: www.dti.gov.uk/energy/sepn/euetsimplications .pdf

Work on the implications of the scheme for electricity prices was undertaken for the Department by ILEX Energy Consulting and is available at www.dti.gov.uk/energy/sepn/ilex_report.pdf. ILEX are currently expanding this work, including to give some consideration to the implications of the National Allocation Plans from individual member states.

At a carbon price of €5 per tonne of carbon dioxide the Department estimates that electricity prices to industry might increase by around 6 per cent. and prices to the domestic consumer by around 3 per cent. A carbon price of €5 is estimated to lead to a reduction in carbon dioxide emissions of around 1MtC in 2010. A carbon price of €10 may lead to more than double this level of reduction. These results are sensitive to assumed fossil fuel prices and the fuel mix in generation in 2010.

Green Minister

Mr. Horam: To ask the Secretary of State for Trade and Industry if she will make a statement on the activities of the Green Minister in the Department in financial year 2003–04. [185127]

Mr. Timms: I am DTI's Green Minister and in this role I am a member of the Ministerial Sub-Committee of Green Ministers. However, it has been established practice under successive governments not to disclose information relating to the proceedings of Cabinet Committees.

My ministerial responsibilities include, amongst others, Energy, Sustainable Development and Corporate Social Responsibility and these overlapped with my work as Green Minister in the financial year 2003–04.

Important pieces of work with which I have been involved in the past year include the publication of a UK Framework for Sustainable Consumption and Production in conjunction with Defra, the setting up of an academy for corporate social responsibility, and action on implementation of the Energy White Paper.

High Technology Jobs

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what steps she is taking to minimise the export of high technology jobs to *(a)* Eastern Europe and *(b)* Asia. [185490]

Ms Hewitt: The Government want to keep as many jobs in this country as possible and we will act to ensure that the conditions remain favourable for this. The UK has a skilled workforce, a strong and stable economy, and a flexible and dynamic business environment, all of which will ensure that we continue to attract and retain investment and high quality jobs.

Late Bill Payments

Mr. Bellingham: To ask the Secretary of State for Trade and Industry if she will make a statement on the late payment of bills in the UK. [185489]

Nigel Griffiths: This Government have always recognised that late payment of debts can have serious effects on the cash flow of smaller companies, which is why we had a manifesto commitment to introduce a Late Payment Act to allow small businesses to:

claim interest on late payment from other business or public sector bodies;

allow creditors to claim a fixed sum of compensation to cover debt recovery costs should late payment happen.

The Government also established the Better Payment Practice Group whose website lists the payment record of companies.

The package of measures has had a positive effect on payment times. The Grant Thornton European Business Survey showed that the average time taken in the UK to settle accounts in 1997 was 49 days. By 2002 this had fallen to 41 days. By comparison, the average settlement time in our European neighbours was 50 days. A recent survey by the REL Consultancy Group looked at average days payable outstanding (DPO) and concluded that UK companies' payment performance is 33.6 days against 42.4 days for Europe as a whole.

Because of concerns that suppliers would not utilise the legislation for fear of reprisals or boycotts, I have also undertaken as Minister to write, in cases where invoices are not disputed, on behalf of small businesses to the managing directors of companies to convey their complaint and seek an explanation and appropriate action. I urge all Members of Parliament to do the same on behalf of constituents.

National Minimum Wage

Mr. Pope: To ask the Secretary of State for Trade and Industry how many people in Hyndburn have benefited from the national minimum wage. [181302]

Mr. Sutcliffe: It is not possible to provide estimates specifically for the constituency of Hyndburn. However, based on the Office for National Statistics' Low Pay data released in October 2003, the DTI estimates that around 140,000 people in the North West stood to benefit from the introduction of the national minimum wage in April 1999. Between 130,000 and 160,000 people were expected to have benefited from the October 2003 uprating of the national minimum wage.

John Barrett: To ask the Secretary of State for Trade and Industry what estimate she has made of the number of homeworkers being paid below the national minimum wage. [182415]

Mr. Sutcliffe: The DTI's full regulatory impact assessment on "Regulations to Introduce Fair Piece Rates for Output Workers, including Homeworkers", published in February 2004, estimated that employers of around 70,000 home workers have been in breach of the minimum wage regulations. As a result of the 2004 amendment introducing the new system of fair piece rates, the DTI estimates that a total of around 110,000 home workers stand to benefit in October 2004 as a result of both extended coverage of the minimum wage and greater compliance.

John Barrett: To ask the Secretary of State for Trade and Industry what percentage of people in employment she estimates are in receipt of the national minimum wage. [183111]

Mr. Sutcliffe: Based on the Office for National Statistics' Low Pay data released in October 2003, the DTI estimates that between 1.0 million (4.0 per cent. of those in employment) and 1.2 million UK workers (4.8 per cent. of those in employment) were expected to have benefited from the October 2003 uprating of the national minimum wage.

Nirex

Llew Smith: To ask the Secretary of State for Trade and Industry when she expects to announce her decision on the future of Nirex. [186053]

Mr. Morley: I have been asked to reply.

My right hon. Friend, the Secretary of State, provided a written ministerial statement to the House on the future of Nirex on 21 July 2004.

Policy (Environmental Impact)

Mr. Horam: To ask the Secretary of State for Trade and Industry how many new policy proposals or significant changes in policy were produced in *(a)* 2002–03 and *(b)* 2003–04; how many of these were screened for their environmental impacts; and how many were the subject of separate environmental appraisals. [185103]

Mr. Timms: In most instances, environmental screening and appraisal are undertaken as an integral part of the policy-making process, and separate records are not currently maintained. Nor are separate records maintained of the number of new policy proposals or significant changes in policy requiring Regulatory Impact Assessments made each year.

A Regulatory Impact Assessment (RIA) would have been required for all departmental policy proposals in 2002–03 and 2003–04 which were likely to have a direct or indirect impact (whether benefits or cost) on business, charities and the voluntary sector. In accordance with Cabinet Office guidance, the RIA should have covered the full range of potential impacts on all stakeholders—including environmental impacts where relevant.

Post Offices

Mr. Gill: To ask the Secretary of State for Trade and Industry how many post offices in Leicester, South have disabled access. [186265]

Mr. Timms: This is an operational matter for Post Office Ltd. and I have therefore asked the Chief Executive to reply direct to the hon. Member.

Regional Development Agencies

Chris Ruane: To ask the Secretary of State for Trade and Industry what budget has been set for each regional development agency as a result of the spending review. [186160]

Jacqui Smith: The Spending Review 2004 White Paper (published on 12 July 2004) states the total Single Programme budget for England's RDAs (2005–06: £2,163 million, 2006–07: £2,244 million, 2007–08: £2,297 million). The budget for each RDA for the years 2005–08 will be set later this year.

Regulatory Impact Assessments

Mr. Bellingham: To ask the Secretary of State for Trade and Industry (1) what regulatory impact assessments have been carried out on the EU directives that came into force over the past 12 months; [185540]

(2) what regulatory impact assessments *(a)* have been and *(b)* will be made for those EU directives which will come into force over the next 12 months. [185538]

Mr. Alexander: I have been asked to reply.

In August 1998, my right hon. Friend the Prime Minister announced that no proposal for regulation which has an impact on business, charities or the voluntary sector should be considered by Ministers without a regulatory impact assessment (RIA) being carried out. Where EU Directives impose significant costs on business, charities and the voluntary sector, RIAs are carried out to gain collective ministerial agreement for a negotiating line and RIAs accompany the explanatory memorandum produced for parliamentary scrutiny. Departments will then refocus the RIA when determining the options for implementing the directives.

In May 2004, I presented a Command Paper to Parliament, listing all the final regulatory impact assessments completed by Departments during the period 1 July-31 December 2003.

Research and Development

Chris Ruane: To ask the Secretary of State for Trade and Industry how much her Department spent on science research and development in each of the last 25 years; and what the projected budgets are as a result of the spending review. [186137]

Ms Hewitt: The following table sets out science budget expenditure since 1987–88, including projected spend following the 2004 spending review. Responsibility for administration of the science budget transferred from the Cabinet Office to the Department of Trade and Industry in 1995. Figures prior to 1987–88 are not available on a consistent basis.

	Science budget (£ million)
1987–88	650
1988–89	697
1989–90	803
1990–91	890
1991–92	915
1992–93	1,051
1993–94	1,163
1994–95	1,223
1995–96	1,295
1996–97	1,312
1997–98	1,331
1998–99	1,334
1999–2000	1,394
2000–01	1,514
2001–02	1,707
2002–03	2,032
2003–04[1]	2,366
2004–05[2]	2,575
2005–06[2]	2,913
2006–07[2]	3,067
2007–08[2]	3,282

[1] Provisional
[2] Plan

Note:
The accounting treatment of expenditure has changed over the period. Figures to 2000–01 are on a cash basis. Figures for 2001–02 and 2002–03 are on the RAB stage 1 basis, i.e. including timing adjustments. Figures for 2003–04 onwards are on a full resource budgeting basis, net of depreciation.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry pursuant to the answer of 30 June 2004, *Official Report*, column 282W, on research and development, what further assessment she has made, following the publication of the Spending Review 2004, of *(a)* the effectiveness and *(b)* future dates of the competition for the Grant for Research and Development. [186141]

Nigel Griffiths: Assessments under the current competition are expected to be concluded in September and I refer the hon. Member to the answer I gave on 30 June.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry pursuant to her answer of 8 June 2004, *Official Report*, column 382W, on research and development, how many applicants have received funding; what the total value is of the funding allocated; and how much funding remains to be allocated for the grant for research and development for the current fiscal year. [186162]

Nigel Griffiths: In the first quarter of the current financial year 134 applicants were offered Grants for Research and Development worth £11.5 million. A planned £24.5 million remains to be allocated.

Overall spend on programmes to improve UK innovation performance and accelerate business exploitation of science and technologies is planned to increase from £377 million in 2004–05 to over £387 million in 2005–06.

Sellafield Site Remediation Strategy

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what funding has been *(a)* provided and *(b)* guaranteed to enable the acceleration of previous programmes within the Sellafield Site Remediation Strategy as referred to in the Nuclear Installations Inspectorate's quarterly report for Q1 2004. [186116]

Mr. Timms: The Energy Act 2004 provides for the establishment of the Nuclear Decommissioning Authority (NDA). The NDA will be established in October and become operational in April 2005. The Treasury White Paper dated 12 July on the outcome of the 2004 spending review provided in respect of my Department that the NDA will have an annual budget

of approximately £2 billion, comprised of central government grant and income from its commercial activities.

The NDA will determine the allocation of funding to its 20 sites—including Sellafield—following discussions with key stakeholders such as the regulators. The NDA will consult on its proposed first annual work plan in the autumn. Acceleration of work will be possible under the proposed contract for Sellafield with the British Nuclear Group, depending on the company's performance.

Small Businesses (Tamworth)

Mr. Jenkins: To ask the Secretary of State for Trade and Industry what support has been offered to small businesses in Tamworth constituency in each year since 1997. [185835]

Nigel Griffiths: Between 1997 and 2000 support to small businesses in Tamworth was provided by Staffordshire Training and Enterprise Council and subsequently it has been provided by the Business Link Operator for Staffordshire, Staffordshire Business Support Limited.

The total number of businesses advised or helped by Staffordshire Business Support Limited since April 2000 is 1,552. Specific support has included business start-up advice to 118 enterprises with workforce development, Investors in People, international trade, marketing and financial advice also being provided. Of the total enterprises assisted, 111 were female run and 35 were ethnic minority run enterprises.

Within the Tamworth constituency, businesses have been eligible for help from the Small Firms Loan Guarantee Scheme, the SMART Award and the Enterprise Grant Scheme. Since 1997, the SMART Award and its successor, the Research and Development Scheme, awarded grants totalling £480,000 to four enterprises and the Enterprise Grant scheme has enabled a further six enterprises to receive grants totalling £130,350.

Solar PV Major Demonstration Programme

Mrs. Calton: To ask the Secretary of State for Trade and Industry how many new companies have been accredited under her Department's Solar PV Major Demonstration Programme since its launch. [185986]

Mr. Timms: 41 different organisations have been accredited so far since the start of the programme, and all retain their accreditation.

Grid connected:

19 have provisional accreditation

21 have full accreditation.

Off-grid:

10 have provisional accreditation

3 have full accreditation.

Spending Review

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry if she will identify the *(a)* top priority programmes and *(b)* lower value business support administered by her Department referred to in the 2004 Spending Review, page 141. [185028]

Ms Hewitt: My Department provides a range of solutions to help business overcome barriers to success and improve productivity. A set of nine broad, cross-sectoral business support products has replaced the previous complex array of schemes.

Significant increases in funding for science and innovation reflect the priority accorded to maximising the potential of the UK's science base and translating this into innovation by business. Five of the nine business support products are specifically designed to help business to succeed through innovation.

Telecommunications

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will make a statement on measures taken by the EU to open up the telecommunications industry across Europe; if she will estimate the impact of such policies on the price of *(a)* telephone calls and *(b)* internet access; and if she will estimate (i) the average change in costs per household and (ii) the total value of such changes for each region in the UK as a result of such measures in the last year for which figures are available. [185326]

Mr. Timms: I welcome the measures which opened up the telecommunications industry across Europe, which created opportunities for British companies to contribute in newly liberalised markets across Europe. The impact of these measures on prices is a matter for the Office of Communications (Ofcom) as independent regulator. Accordingly, my officials have asked the Chief Executive of Ofcom to respond directly to the hon. Member on that point. Copies of the Chief Executive's letter will be placed in the Libraries of the House.

Terrorism

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what plans her Department has to offer emergency assistance and advice to *(a)* industry and *(b)* small businesses in the event of a terrorist attack. [185469]

Ms Hewitt: My Department works closely with those businesses which form part of the critical national infrastructure and for which it has lead responsibility to ensure those businesses are resilient to terrorist attack and have robust business continuity plans in place in response to a range of disruptive challenges.

My Department also works with business more generally to ensure it has access to advice and guidance on preparing for and responding to a terrorist incident, and has established business sector business continuity champions.

Unsolicited Faxes/Telephone Calls

Sarah Teather: To ask the Secretary of State for Trade and Industry where money received from fines for making unsolicited telephone calls and faxes is paid. [186236]

Mr. Timms: If a company or individual were to contravene an enforcement notice issued by the Information Commissioner's Office (ICO) and were to be successfully prosecuted in a magistrates court and

subjected to a fine, the fine would be paid to the local Magistrates Court Committee (MCC) and would then be forwarded to HM Treasury.

Sarah Teather: To ask the Secretary of State for Trade and Industry what costs to *(a)* industry and *(b)* consumers she estimates to have been incurred each year since 1999 as a result of unsolicited (i) telephone calls and (ii) faxes. [186237]

Mr. Timms: The Government do not have an estimate of the cost to industry and consumers of receiving unsolicited telephone calls and faxes. The Telephone Preference Service (TPS) scheme for consumers started as an industry-led voluntary scheme until EU regulations required that member states introduce a statutory provision for consumer registration.

In deciding to extend the right of consumers to register with the TPS to corporate subscribers at the end of 2003, the Government produced a regulatory impact assessment, which concluded that the benefits of having the option to register outweighed the additional cost to marketing businesses for cleaning up their telephone lists.

Sarah Teather: To ask the Secretary of State for Trade and Industry what the maximum penalty is for *(a)* sending unsolicited faxes and *(b)* making unsolicited telephone calls; and how many times it has been incurred in each year since 1999. [186238]

Mr. Timms: The Information Commissioner's Office (ICO) has responsibility for enforcing the rules on unsolicited marketing including the sending of unsolicited marketing faxes to numbers registered on the Fax Preference Service (FPS) and making unsolicited marketing calls to numbers registered on the Telephone Preference Service (TPS). The ICO has issued formal enforcement notices against more than a dozen companies and individuals in respect of unsolicited marketing faxes.

A company or individual that contravenes an enforcement notice commits a criminal offence and, upon successful prosecution, could be subject to a fine of up to £5,000 in a magistrates court. As the ICO has no evidence that the companies and individuals against whom notices have been issued warrant prosecution, to date no fines have been imposed in respect of contravention of these rules.

Sarah Teather: To ask the Secretary of State for Trade and Industry (1) how many prosecutions there have been in each year since 1999 for *(a)* sending unsolicited faxes and *(b)* making unsolicited telephone calls; [186239]

(2) how much money has been raised in each year since 1999 from fines resulting from prosecution of persons making unsolicited telephone and fax calls. [186248]

Mr. Timms: The Information Commissioner's Office (ICO) has responsibility for enforcing the rules on unsolicited marketing including the sending of unsolicited marketing faxes to numbers registered on the Fax Preference Service (FPS) and making unsolicited marketing calls to numbers registered on the Telephone Preference Service (TPS). The ICO has issued formal enforcement notices against more than a dozen companies and individuals in respect of unsolicited marketing faxes.

A company or individual that contravenes an enforcement notice commits a criminal offence and, upon successful prosecution, could be subject to a fine of up to £5,000 in a magistrates court. As the ICO has no evidence that the companies and individuals against whom notices have been issued warrant prosecution, to date no fines have been imposed in respect of contravention of these rules.

Sarah Teather: To ask the Secretary of State for Trade and Industry how many *(a)* individual and *(b)* business numbers have been registered under (i) the telephone and (ii) fax preference schemes in each year since they have each been operational. [186242]

Mr. Timms: The table shows the total number of telephone numbers registered under the TPS since 2001. Corporate registration to the TPS began on 25 June 2004, since when there have been 48,183 corporate registrations.

	Number registered
2001	1,737,028
2002	2,535,094
2003	3,908,440
2004	5,214,737

EDUCATION AND SKILLS

Adoption Cases

Vera Baird: To ask the Secretary of State for Education and Skills what consideration is being given in the review of children's cases in the area of the *(a)* Cumbria County Council, *(b)* Durham County Council, *(c)* Northumberland County Council, *(d)* Sunderland City Council, *(e)* South Tyneside Council, *(f)* North Tyneside Council, *(g)* North Yorkshire County Council, *(h)* Newcastle City Council, *(i)* Hartlepool Council, *(j)* York City Council, *(k)* Gateshead Borough Council, *(l)* Darlington Unitary Authority, *(m)* Middlesbrough Borough Council, *(n)* Stockton Council and *(o)* Redcar and Cleveland Council following the judgement in R *v* Cannings to what a child should be told about why it was removed from its birth parents, in cases where (i) evidence about Munchhausen's syndrome by proxy, (ii) evidence about factitious disorder by proxy and (iii) other evidence from (A) Professor Meadow and (B) Dr Southall may have played a role in the child's removal but the authority's judgment is that the best interests of the child are in the status quo. [179921]

Mr. Stephen Twigg: Information about individual cases in the named local authority areas is not held centrally.

Existing guidance says that:

"Every young person needs to develop a secure sense of identity and all those with parental or caring responsibilities have a duty to offer encouragement and support in this task. All children—whether living at home or not—are entitled to expect information about their personal and family history and need to understand their past as well as their present situation."

Obviously in practice the imparting of information of this nature is difficult and anyone undertaking this task, for example adopters, foster carers, birth parents or indeed professionals, may need support to be able to help the child to understand their life history in a way that is appropriate to their age and understanding.

Advertising

Dr. Cable: To ask the Secretary of State for Education and Skills what the salary costs to the Department were for employees working in public relations and publicity in each year since 1997. [183846]

Mr. Miliband: Financial data for 1997 salary details could be provided only at disproportionate cost.

Annual Report

Dr. Cable: To ask the Secretary of State for Education and Skills how many copies of his Department's and predecessor Department's annual report were printed in each year since 1997; how many were sold in each year; and what the *(a)* publication cost and *(b)* sales revenue were. [183879]

Mr. Stephen Twigg: The following were the number of copies issued by TSO (The Stationery Office Ltd.) for the years 1998–2004. The number of copies supplied to DfES/DfEE for their own use is also provided for your information—please note these are in addition to the copies TSO have issued.

Edition	*Copies issued by TSO*	*Copies supplied to DfES/DfEE*
1998	894	2,110
1999	669	2,189
2000	632	2,516
2001	641	1,004
2002	514	765
2003	471	654
2004	336	650

Costs of printing and publication are met directly by the publisher, TSO and do not fall to government.

In return the publisher retains the revenues which they earn from sales and which are aimed at ensuring recovery of their costs.

Bullying

Mr. Jenkins: To ask the Secretary of State for Education and Skills what action the Department is taking to reduce incidences of bullying in Staffordshire schools. [185830]

Mr. Ivan Lewis: We attach a high priority to helping schools prevent and combat bullying: it is a serious problem which puts the emotional well-being and educational achievement of pupils at risk. Our guidance pack "Bullying: Don't Suffer in Silence", the anti-bullying Charter for Action and the anti-bullying website www.dfes.gov.uk/bullying offer detailed advice on preventing and addressing bullying.

In November 2003 I launched our anti-bullying Charter for schools, which schools are now signing. It is accompanied by a summary of effective practice to help schools review and enhance their anti-bullying policies. The Charter was launched at the first of the Make The Difference series of regional conferences. The programme of conferences began in November 2003 and culminated with a final event on 14 June. These conferences, the West Midlands one of which was well attended by Staffordshire head teachers, offered an opportunity for schools and other partners to share good practice on this issue and to learn at first hand about what has worked elsewhere. Details of the conferences can be accessed online at www.teachernet.gov.uk/antibullying. Our new public information film, 'Tell Someone', also encourages children and young people to tell someone if they are being bullied.

Last week, we announced funding of £570,000 for the Anti Bullying Alliance; an umbrella group of over 50 voluntary sector organisations, professional associations and leading local authorities. The Alliance will work to support schools in addressing bullying behaviour and lead on preparations for the first national anti-bullying week in November. Schools in Staffordshire will have access to an anti-bullying coordinator based in the West Midlands region, and working with the National Strategies, who can provide practical help, advice and support in tackling all forms of bullying in schools.

Child Care

Chris Ruane: To ask the Secretary of State for Education and Skills how many child care places were available in each of the last 25 years, broken down by local authority area, and listed in descending order according to the biggest percentage increase in such places over the last seven years. [186106]

Margaret Hodge: I refer my hon. Friend to the reply given on 25 May 2004, *Official Report*, column 1528W, when I stated that statistics have only been collected by Local Authorities (LAs) since 1999 following the introduction of the National Childcare Strategy for England.

Details of the places created by LA across England since 1999 were provided in the table attached to the previous question. The actual stock number of childcare places available each year was only made available with the first publication of Ofsted statistics in March 2003.

The following table provides details of registered places across England available in March 2003 compared to March 2004, broken down by LA and showing the percentage change in descending order.

LA Name	*Ofsted March 2003 Data*	*Ofsted March 2004 Data*	*Net Growth 2003–04*	*Percentage Increase*

Children's Homes

Tim Loughton: To ask the Secretary of State for Education and Skills how many *(a)* announced and *(b)* unannounced inspections of children's homes have taken place in the past year; how many homes have been inspected; and what percentage of the total this represents. [185523]

Mr. Miliband *[holding answer 20 July 2004]*: A total of 3,663 inspections of registered children's homes were carried out by the Commission for Social Care Inspection during the year ending 31 March 2004, of which 1,862 were announced and 1,801 were unannounced. Information on the number of registered children's homes inspected is available only at disproportionate cost.

Class Sizes

Mr. Gill: To ask the Secretary of State for Education and Skills what the average class size in Leicester, South for *(a)* primary and *(b)* secondary schools was in each year since 1997. [186260]

Mr. Stephen Twigg: The requested information is given in the table.

Maintained primary and secondary schools[1]: Average size of classes taught by one teacher[2]—Position in January each year 1997 to 2004 (Provisional v2)

	Leicester South Parliamentary Constituency[3]					
	Primary			*Secondary*		
	Number of pupils	*Number of classes*	*Average class size*	*Number of pupils*	*Number of classes*	*Average class size*
1997	8,760	320	27.0	3,680	150	24.2
1998	8,750	310	28.0	3,880	160	24.3
1999	8,410	310	27.1	3,910	160	24.0
2000	8,190	310	26.9	3,960	160	24.6
2001	8,490	320	26.3	3,920	160	24.7
2002	8,890	340	26.4	4,070	160	25.3
2003	8,720	330	26.3	4,050	160	24.8
2004[4]	8,560	320	26.4	4,060	160	25.4

[1] Includes middle schools as deemed.
[2] Classes as taught during the one selected period in each school on the day of the census in January.
[3] Figures have been rounded to the nearest 10.
[4] Provisional.

Annual Schools Census

Course Cancellation

Mr. Willis: To ask the Secretary of State for Education and Skills if he will list higher education institutions in England which have cancelled *(a)* undergraduate and *(b)* postgraduate courses for academic years (i) 2003–04 and (ii) 2004–05; which courses were affected; what the reasons for the course cancellation were in each case; how many students were affected in each case; and if he will make a statement. [185810]

Mr. Miliband *[holding answer 22 July 2004]*: Decisions on courses are a matter for individual HE Institutions: information on course closures is not held centrally.

Data Protection Act

Harry Cohen: To ask the Secretary of State for Education and Skills whether he intends to make *(a)* the pupil identification number and *(b)* the identifier used in relation to children in the Children Bill a general identifier as defined under the Data Protection Act 1998; and if he will make a statement. [185955]

Margaret Hodge: There are no current plans to make the pupil identification number a general identifier. A unique identifying number will be important for the successful operation of the databases for which provision is made in the Children Bill. Feasibility work is underway to identify the best source of such a unique identifying number. This will include advice as to whether the number will need to operate as a general identifier as described in the Data Protection Act 1998.

Harry Cohen: To ask the Secretary of State for Education and Skills in what way the provisions of the Children Bill in relation to the security of personal information held in the child database about children extend the security afforded under the Seventh Principle of the Data Protection Act 1998; and if he will make a statement. [185956]

Margaret Hodge: The databases to be established and operated under clause 9 of the Children Bill will operate in accordance with all eight principles of the Data Protection Act 1998. The seventh data protection principle concerns appropriate technical and organisational measures against unauthorised or unlawful processing of personal data and against accidental loss or destruction of, or damage to, personal data. Detailed arrangements for how such measures should operate for databases will be set out in regulations, guidance and directions to be made under clause 9 of the Children Bill.

Dentistry

Mr. Burstow: To ask the Secretary of State for Education and Skills what steps he is taking to make academic dentistry more attractive to dental graduates. [181641]

Ms Rosie Winterton: I have been asked to reply.

On 16 July, my right hon. Friend the Secretary of State, announced that we are to provide 170 additional training places for undergraduates in dentistry from October 2005. The increase will be supported by capital investment of £80 million over the next four years and

additional revenue funds reaching £29 million by 2010–11. Not only will this expansion increase the pool of dentists from which trainees are drawn, but, by improving the environment in dental schools and teaching hospitals, it will make academic dentistry a more attractive career.

Departmental Administration Costs

Mr. Letwin: To ask the Secretary of State for Education and Skills what the total administration costs were in his Department in financial years *(a)* 1996–97 and *(b)* 1997–98. [186077]

Mr. Stephen Twigg *[holding answer 22 July 2004]:* Details of the Department's gross running costs for 1996–97 and 1997–98 are contained in Table 5.5 of Public Expenditure Statistical Analyses 2000–01 (Cm 4601). These figures are on a cash basis and include the former Employment Service and Ofsted. From Public Expenditure Analyses 2001–02 (Cm 5101), departments' administrative expenditure was reported on a resource basis, as administration costs.

Copies of Public Expenditure Statistical Analyses are in the Library of the House and are on HM Treasury's public website (www.hm-treasury.gov.uk).

Departmental Staff

John McDonnell: To ask the Secretary of State for Education and Skills how much money his Department expects to save as a result of the job cuts in his Department announced in the 2004 spending review. [184740]

Mr. Stephen Twigg *[holding answer 21 July 2004]:* The spending review announcement included a reduction of 1,460 posts in DfES. These will be achieved by April 2008 and equate to a steady state paybill reduction for the Department of £38 million at today's prices.

Departmental Staff (Upper Age Limits)

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills whether *(a)* his Department and *(b)* agencies for which it is responsible (i) have a set retirement age which applies to all or most personnel and (ii) have a maximum age beyond which applications for employment will not be considered; and what the age is in each case. [186080]

Mr. Stephen Twigg: Within my Department all staff below the Senior Civil Service can choose when they retire between age 60 up to a maximum retirement age of 65. This is subject to satisfying normal fitness and efficiency requirements. Staff in the Senior Civil Service normally retire at age 60.

My Department has no maximum age beyond which applications for employment will not be considered.

Departmental Staffing

Mr. Bacon: To ask the Secretary of State for Education and Skills how many people were employed in the Department *(a)* in 1997 and *(b)* at the latest date for which information is available, broken down by job title; if he will list the job functions performed by those holding each job title; and for how many people the primary function was (i) human resource or personnel functions, (ii) finance and accounting functions, (iii) information technology functions and (iv) other support, back office or administrative functions (A) in 1997 and (B) at the latest date for which information is available. [183459]

Mr. Charles Clarke *[holding answer 14 July 2004]:* As at 1 July 2004, 4,440 people were employed in my Department. The numbers employed in the functions listed were:

(i) 239 (5 per cent.) in human resources;

(ii) 67 (1.5 per cent.) in finance and accounting;

(iii) 248 (6 per cent.) in information technology, and

(iv) 359 (8 per cent.) in other support, back office or administrative functions.

By 2008, we have plans in place to reduce these to:

(i) 145 in human resources;

(ii) 51 in finance and accounting;

(iii) 183 in information technology, and

(iv) 299 in other support, back office or administrative functions.

On 1 April 1997, 33,662 people were employed in the former Department for Education and Employment, of whom 29,181 were in the Employment Service Agency. My Department does not hold numbers by the listed functions as at this date.

A breakdown of people by job title and job function could be obtained only at disproportionate cost.

Education (Islington)

Mr. Chris Smith: To ask the Secretary of State for Education and Skills what funding has been made available in each year since 1997 and for projected future years for education in schools within the area of the London Borough of Islington; whether these amounts include those sums made directly to headteachers of both primary and secondary schools; and whether it is possible to provide a breakdown of overall funding on a school-by-school basis. [184722]

Mr. Miliband: The Department does not produce projected figures for future years. The available information about funding in Islington local education authority is contained in the following tables.

Total funding available in cash terms in Islington LEA for all pupils

£ million

	Aged 3–10	*Aged 11–15*
1997–98	45.2	30.9
1998–99	48.7	32.7
1999–2000	54.2	34.8
2000–01	60.6	40.8
2001–02	66.1	44.2
2002–03	70	46.6
2003–04	75.9	51
2004–05	79.5	54.3

Notes:

1. The funding and budget figures quoted are derived from different sources and are not directly comparable.
2. The funding figures in the table are not available by sector as this is not how allocations are made to LEAs.

3. Therefore, these figures are not those sums given directly to headteachers, but the funding allocated to LEAs in terms of Education Formula Spending for pupils fading into age groups 3–10 and 11–15.
4. Figures reflect education Standard Spending Assessment/ Education Formula Spending settlement (all sub-blocks), plus all revenue grants in DfES Departmental Expenditure Limits relevant to EFS pupils aged 3–10 and 11–15.
5. Figures exclude Education Maintenance Allowance and grants not allocated at LEA level and the pensions transfer to EFS and Learning and Skills Council for 2003–04 and 2004–05.
6. The pupil numbers used are those underlying the SSA/EFS settlement calculations plus PLASC 3-year-olds maintained pupils and estimated 3–4 year olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.
7. 1997–98 figures for LEAs subject to Local Government Reorganisation in that year have been estimated, pro-rata to their post LGR figures.
8. 2003–04 and 2004–05 figures are provisional as some grants have not yet been finalised/audited.
9. Figures are rounded to the nearest £0.1 million.

Notes:
1. The funding and budget figures quoted are derived from different sources and are not directly comparable.
2. The total funding figure for 2000–01 comprises the following grants: Budget share (excludes SSG), Standards Fund Devolved (includes EiC grant).
3. The total funding figure for 2001–02 comprises the following grants: Budget share (excludes SSG), Standards Fund Devolved (includes EiC grant).
4. The total funding figure for 2002–03 comprises the following grants: Budget share (excludes SSG), Standards Fund Devolved (includes EiC grant).
5. The total funding figure for 2003–04 comprises the following grants: Budget share (excludes SSG), Standards Fund Devolved (includes EiC grant), School Standards Grant.
6. The total funding figure for 2004–05 comprises the following grants: Budget share (excludes SSG), Standards Fund Devolved (includes EiC grant), School Standards Grant, Devolved EiC Grant.
7. Data are as reported through the Section 52 statements and do not capture all grant funding. Data for budget 2003–04 and 2004–05 are likely to change.
8. Table 2 of the section 52 statements records the amounts of grants allocated to schools and the amount unallocated at the point at which the section 52 return was compiled. In budget 2004–05, Table 1 indicates that Islington had allocated £463,000 for "support for schools in financial difficulty" and £300,000 for "advance of transitional grant" but this was not broken down to school level on Table 2.
9. All data are as reported by LEAs as at 20 July on the Section 52 budget statements and does not capture all grant funding.

Education Funding

Chris Ruane: To ask the Secretary of State for Education and Skills what the *(a)* lowest, *(b)* average and *(c)* highest per pupil funding was for each local education authority in England in each of the last 25 years, listed in descending order according to the highest average per pupil spend for the most recent year available. [186104]

Mr. Miliband: Funding for education is provided by the Government to each local education authority. Figures on the total revenue funding per pupil by local education authority are available from 1997–98 onwards. The following table shows the lowest and highest funding per pupil and the national average for each year. Figures are all in real terms.

	1997–98	*1998–99*	*1999–2000*	*2000–01*
National average	2,900	2,950	3,080	3,330
Lowest (£)	2,530	2,640	2,750	2,940
Lowest LEA	Dudley	South Gloucestershire	Swindon	South Gloucestershire
Highest (£)	4,550	4,580	4,800	5,160
Highest LEA	Lambeth	Lambeth	Tower Hamlets	Tower Hamlets

	2001–02	*2002–03*	*2003–04*	*2004–05*
National average	3,490	3,580	3,710	3,840
Lowest (£)	3,040	3,140	3,260	3,370
Lowest LEA	South Gloucestershire	South Gloucestershire	Leicestershire	Leicestershire
Highest (£)	5,450	5,620	5,820	6,000
Highest LEA	Tower Hamlets	Tower Hamlets	Tower Hamlets	Tower Hamlets

2004–05 and 2003–04 figures are provisional as some grants have not yet been finalised/audited. Updates will be available in the autumn.

Chris Ruane: To ask the Secretary of State for Education and Skills how much capital investment there has been in education, at today's prices, in each local education authority in each of the last 25 years. [186105]

Mr. Miliband: The information requested has been placed in the Libraries.

Educational Attainment

Mr. Hoban: To ask the Secretary of State for Education and Skills if he will provide a breakdown of achievement at each Key Stage in 2003 by ethnicity subdivided into those *(a)* in receipt of and *(b)* not in receipt of free school meals. [185805]

Mr. Miliband *[holding answer 22 July 2004]*: The information requested has been placed in the House Library.

Ethnic Minority Students

Chris Grayling: To ask the Secretary of State for Education and Skills what proportion of *(a)* full-time undergraduate students, *(b)* post-graduate students and *(c)* full-time students taking higher degrees through taught courses were from ethnic minority backgrounds (i) in 1997 and (ii) in the most recent period for which figures are available. [183411]

Alan Johnson: The latest available figures are shown in the table.

Proportion of HE students from ethnic minorities[1] UK HE institutions

Percentage

	1996/97	*2002/03*[2]
Full-time undergraduates	15	20
All postgraduates	15	22
Full-time taught postgraduates	26	34

[1] Based on those students who provided details of their ethnicity.
[2] A new classification of ethnicity was introduced in 2001/02. The figures for 2002/03 include students recorded as "mixed white/ethnic" who were not separately identified in 1996/97.

Full- and Part-time Students

Chris Grayling: To ask the Secretary of State for Education and Skills how many students pursuing a higher degree through taught courses were *(a)* full-time and *(b)* part-time in (i) 1996–97 and (ii) 2002–03; and if he will make a statement. [183412]

Alan Johnson: The figures are shown in the table.

Students on postgraduate taught courses[1] UK HE institutions

	1996/97	*2002/03*
Full-time	71,400	137,900
Part-time	152,300	193,900
Total	223,700	331,800

[1] Covers students on taught Masters, taught Doctorates and other postgraduate taught courses

Gap Year

Chris Grayling: To ask the Secretary of State for Education and Skills how many students are expected to take a gap year in 2004–05. [183641]

Alan Johnson: Information for 2004/05 is not yet available. The latest available information from the Universities and Colleges Admissions Service (UCAS) shows that 26,400 students who obtained a place on a full-time undergraduate course in autumn 2003, deferred entry to 2004. This figure will not however include students who take a gap year before they apply to UCAS.

Green Minister

Mr. Horam: To ask the Secretary of State for Education and Skills if he will make a statement on the activities of the Green Minister in the Department in financial year 2003–04. [185123]

Mr. Miliband: The Secretary of State for Education and Skills, is DfES's Green Minister and in this role is a member of the Ministerial Committees of Green Ministers. However, it has been established practice under successive Governments not to disclose information relating to the proceedings of Cabinet Committees.

This Department leads on education for sustainable development, and to promote this and raise public awareness and understanding of sustainable development, my right hon. Friend the Secretary of State launched the Sustainable Development action plan for Education and Skills on 23 September 2003. This plan commits this Department to work with our partner organisations and other Government Departments to ensure that sustainable development is an integral part of education and in skills development of this country and its economy.

Higher Education

Mrs. Fitzsimons: To ask the Secretary of State for Education and Skills how many and what percentage of people from the constituency of Rochdale have participated in higher education in each year since 1997; and what percentage are of South Asian descent. [183535]

Alan Johnson: Participation rates are not calculated by the Department for each parliamentary constituency. The available information covering students domiciled in Rochdale constituency who are enrolled on a higher education course is given in the table. Enrolments by those of South Asian descent are not held centrally. The available information covers those of Asian descent.

Number[1] of HE enrolments at UK HE institutions by students domiciled in Rochdale constituency and the percentage of Asian[2] descent

		Of which:	
Academic year	*HE students from Rochdale*	*Number with known ethnicity*	*Percentage Asian descent*
1997/98	1,880	1,640	26
1998/99	1,935	1,695	27
1999/2000	2,155	1,925	28
2000/01	2,205	1,995	29
2001/02[3]	2,435	2,210	30
2002/03	2,570	2,395	32

[1] Figures are rounded to the nearest 0 or 5.
[2] "Asian" includes the ethnic categories "Asian or Asian British—Indian, Asian or Asian British—Bangladeshi", "Asian or Asian British—Pakistani", Chinese/Other Ethnic Background—Chinese', "Other Asian Background" and for 2001/02 onwards, "Mixed—White and Asian".
[3] In 2001/02 a more detailed ethnicity categorisation was introduced by HESA which included new codes for those of mixed ethnicity. Prior to 2001/02 we do not know if those in the category "Mixed—White and Asian" would have classed themselves in the "white" category or in one of the Asian categories. Thus, figures for 2001/02 onwards may not be directly comparable with those for earlier years.
Source:
Higher Education Statistics Agency (HESA).

Mrs. Fitzsimons: To ask the Secretary of State for Education and Skills what the average participation rate in higher education is of each parliamentary constituency; and what the average level of participation in higher education is of those of South Asian descent. [183536]

Alan Johnson: Higher Education participation rates are not calculated by the Department at constituency level.

Information on HE participation by ethnic group is published in Table A1 of the publication "Why the Difference? A Closer Look at Higher Education Minority Ethnic Students and Graduates", copies of which can be downloaded from: http://www.employment-studies.co.uk/pubs/report.php?id = rr552

Holiday Playschemes

Mr. Willis: To ask the Secretary of State for Education and Skills if he will estimate the average weekly cost in each region of a place on a holiday playscheme; and if he will make a statement on holiday playscheme provision. [185358]

Margaret Hodge: The Government does not collect data on the cost of holiday playschemes.

Job Losses (Civil Servants)

Mr. Evans: To ask the Secretary of State for Education and Skills how many of the reductions in the numbers of civil servants in his Department announced in the comprehensive spending review will be of special advisors. [185471]

Mr. Charles Clarke: I refer the hon. Member to the reply I have given to my right hon. Friend the Chief Secretary to the Treasury, on 20 July 2004, *Official report*, column 90W.

Ministerial Travel

Mr. Beggs: To ask the Secretary of State for Education and Skills what the total cost of air travel between Northern Ireland and Great Britain was for *(a)* Ministers and *(b)* officials in the Department in the latest year for which figures are available. [184531]

Mr. Miliband: Information relating to travel within the UK for both Ministers and officials is not held centrally and hence could be supplied only at disproportionate cost. However, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information reaching back to 1995–96. Information for 2003–04 is currently being assembled and will be published shortly. All ministerial and civil service travel is undertaken in accordance with the rules set out in the Ministerial Code, Travel by Ministers, and Civil Service Management Code, copies of which are available in the Libraries of the House.

Nursery Education

Tim Loughton: To ask the Secretary of State for Education and Skills what criteria are used for admission to neighbourhood nurseries which are oversubscribed. [185524]

Mr. Stephen Twigg: Neighbourhood nurseries are intended to provide child care and early education places for children under five in the most disadvantaged areas of the country. Providers that have set up a neighbourhood nursery are required to ensure that they give priority to children and families who live within the target area. It is for individual providers to establish their own admissions policy and determine how they will deal with oversubscription. However, in doing so they must meet this requirement. We expect providers and the local authority to monitor the position on an annual basis.

Mr. Simmonds: To ask the Secretary of State for Education and Skills how the nursery education grant budget was spent in 2003–04. [185735]

Margaret Hodge: The information is not available in the form requested. From April 2003, local authorities (LAs) no longer received funds through the Nursery Education Grant. Funds were consolidated within the under-fives sub-block of the Education Formula Spending Share (EFSS)—their main education budget. It is for individual LAs in consultation with local partners to determine how overall resources should be used.

All LAs received sufficient funding to enable them to meet their statutory responsibilities to provide free nursery education for three and four year olds. The overall EFSS under fives sub-block in 2003–04 was worth some £2.6 billion.

Out-of-school Clubs

Mr. Willis: To ask the Secretary of State for Education and Skills how many out of school clubs are operating in England; and how many places are available at these clubs for children aged *(a)* five to 10 years and *(b)* 11 years and over. [185359]

Margaret Hodge: The Department is unable to provide the data in the form requested. In March 2004 there were 9,200 registered out of school childcare clubs[1] offering 326,700 places for children aged five to seven years. At the same time there were more than 2,600 unregistered out of school childcare clubs[1] offering more than 89,300 places. These are mainly for children aged over seven, but also include breakfast clubs of less than two hours, which may cater for younger children and do not need to be registered.

The Government's objective is that all schools should offer a programme of out of school hours study support. For 2004–05, all local education authorities and schools have received Government funding through the School Development Grant to support such activities. This is in addition to funding to support the creation of new childcare places made available as part of the General Sure Start Grant for 2004–06. It is for local authorities and schools to determine what provision will best meet the needs of the young people in the area.

[1] These figures include holiday play schemes.

Policies (Environmental Impacts)

Mr. Horam: To ask the Secretary of State for Education and Skills how many new policy proposals or significant changes in policy were produced by his Department in *(a)* 2002–03 and *(b)* 2003–04; how

many of these were screened for their environmental impacts; and how many were the subject of separate environmental appraisals. [185107]

Mr. Miliband: The Department for Education and Skills produces a Regulatory Impact Assessment where a proposed policy is likely to have an impact on business, charities and the voluntary sector. The Regulatory Impact Assessment includes an environmental impact appraisal where this is deemed appropriate. In 2002–03, 2003–04, none of the Department's Regulatory Impact Assessments have included an environmental assessment.

Pre-school Education

Chris Ruane: To ask the Secretary of State for Education and Skills how much, at today's prices, was spent on education of children aged under three years in each of the last 10 years. [186016]

Margaret Hodge: This information is not available centrally. All funding for under fives has been consolidated within the Education Formula Spending Share (EFSS)—the main source of funding for local authorities and schools. The resources are unhypothecated and it is for individual local authorities to determine funding priorities in the light of local needs and circumstances. In doing so, they must meet their statutory obligation to provide free part-time early education for three and four year olds. In 2003–04 overall funding in the EFSS under fives sub-block was worth some £2.6 billion.

My right hon. Friend the Chancellor announced in the context of SR 2004, proposals to provide free early education and care for more disadvantaged children through running pilots to reach 12,000 two year olds in disadvantaged areas. Details have yet to be finalised, although we are clear that any offer to two year olds should be underpinned by the widely welcomed 'Birth to three matters: A framework to support children in their earliest years'.

Primary Education (Tamworth)

Mr. Jenkins: To ask the Secretary of State for Education and Skills what the average *(a)* infant and *(b)* primary school class size was in Tamworth constituency in each year since 1992. [185831]

Mr. Miliband: The requested information at constituency level is available from 1997 and is given in the table.

Maintained primary schools[1] average size of classes taught by one teacher[2] position in January each year 1997 to 2004 (provisional v2) Tamworth Parliamentary Constituency[3]

	Key stage one			*Primary*		
	Number of pupils	*Number of classes*	*Average class size*	*Number of pupils*	*Number of classes*	*Average class size*
1997	3,510	130	26.4	8,670	320	27.5
1998	3,550	140	25.5	8,600	320	26.9
1999	3,500	140	25.5	8,330	310	27.1
2000	3,370	130	25.5	8,300	310	27.0
2001	3,150	130	23.8	8,100	310	25.9
2002	3,200	140	23.3	8,020	320	25.2
2003[4]	2,970	120	24.0	7,580	300	25.4
2004[4,5]	3,020	120	24.5	7,570	300	25.4

[1] Includes middle schools as deemed
[2] Classes as taught during the one selected period in each school on the day of the census in January.
[3] Figures have been rounded to the nearest 10.
[4] Includes reception classes.
[5] Provisional
Source:
Annual schools census

Private Children's Homes (Inspections)

Tim Loughton: To ask the Secretary of State for Education and Skills what his Department's target is for the percentage of *(a)* announced and *(b)* unannounced inspections of private children's homes which should be undertaken by the Commission for Social Care Inspectorate. [185526]

Margaret Hodge: The frequency of inspections for children's homes regulated by the Commission for Social Care Inspection (CSCI) is set out in The Commission for Social Care Inspection (Fees and Frequency of Inspections) Regulations. The Regulations require CSCI to inspect children's homes a minimum of twice in a 12 month period. Each of these inspections may be unannounced, however, general practice by CSCI Inspectors is to perform one announced inspection and one unannounced inspection in a 12 month period. These are minimum requirements and do not preclude CSCI visiting any number of times if there is cause for concern.

Regional Employment and Skills

Mrs. Spelman: To ask the Secretary of State for Education and Skills how much has been spent on the *(a)* Regional Skills Partnerships and *(b)* Regional Employment and Skills forums since their inception. [185773]

Mr. Ivan Lewis: No additional central funding has been made available for either Regional Skills Partnerships or Regional Employment and Skills Forums.

The creation of *(a)* effective Regional Skills Partnerships and *(b)* Regional Employment and Skills Forums was funded from within the existing budgets of partner organisations.

School Choices

Tim Loughton: To ask the Secretary of State for Education and Skills how many children in *(a)* Adur,

(b) Worthing and *(c)* West Sussex failed to get into the school of their first choice in each year since 1997; and how many of those subsequently appealed in each of those years. [185784]

Mr. Miliband: Information on the number of pupils admitted to their first choice school is not collected centrally.

Admission appeal data are not available at parliamentary constituency level. A table giving admission appeal information for all local education authority areas has been placed in the House of Commons Library (*Official Report* column 1430W on 23 June 2004). Final figures from 1997/98 to 2001/02 have been provided. Further details on the latest 2002/03 (provisional) figures on admission appeals by local education authority can be found on http://www.dfes.gov.uk/rsgatewav/DB/SFR/s00047Q/index.shtml.

School Furniture

Mr. Burstow: To ask the Secretary of State for Education and Skills what *(a)* assessment his Department has made and *(b)* guidance he has issued on the ergonomics of school furniture. [186145]

Mr. Miliband: In 2001 my Department oversaw and part-funded the largest data collection of children's sizes since the 1950's, and contributed to a European Standard on School Furniture (due at the end of this year) to allow children to be better "fitted" to several furniture size marks. An interactive website is being prepared which will enable specifiers to accurately determine the size of furniture that a child should be using. Published in 2000, my Department's Furniture and Equipment Guide has detailed section on design quality with ergonomic considerations for various types of adjustable furniture. The Department is represented on relevant BSI committees and works closely with, amongst others the British Educational Supplies Association, the furniture Industry Research Association and the Design Council on furniture issues.

Mr. Burstow: To ask the Secretary of State for Education and Skills what research his Department has commissioned into the impact on children's long term health of poorly designed school furniture. [186146]

Mr. Stephen Twigg: My Department has neither undertaken nor commissioned research into the effects on children's health of poorly designed furniture, but is aware of a number of studies carried out by others on issues such back pain. We are advised that the main cause of such problems is often the use of inappropriately sized furniture rather than poor design.

School Staff (Tamworth)

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* education support staff there were in Tamworth constituency in each year since 1992. [185832]

Mr. Miliband: The following table gives the full-time equivalent number of regular teachers and support staff employed in maintained sector schools in Tamworth constituency for each year from 1997 to 2003, the latest year available. Data are not available at constituency level prior to 1997.

	Teachers	*Support staff*[1]
2003	780	380
2002	780	350
2001	760	330
2000	750	280
1999	750	270
1998	750	250
1997	760	230

[1] Includes teaching assistants, administrative staff, technicians, medical and other child care and education support staff.

Source:
Annual School Census

School Teachers (Retirement)

Mr. Bill O'Brien: To ask the Secretary of State for Education and Skills if he will make a statement on the effects of the Government's proposals in the Pensions Bill on the future retirement of school teachers. [186289]

Mr. Miliband: In line with proposals in the Pensions Bill, the normal pension age in the Teachers' Pension Scheme will be increased to 65. This will apply to new entrants from 2006 and to the future service of existing teachers from 2013. Teachers will, however, still be able to retire at, before or after age 60 as they do now. Where pension benefits are drawn earlier than the normal pension age, they will be reduced to reflect the fact that the benefits will be in payment for longer.

We are also looking at ways of offering teachers more flexibility in the way they manage the transition from work to retirement as well as examining the scope for increasing the options for teachers who wish to build up higher pension benefits by paying additional contributions during their working life.

Mr. Bill O'Brien: To ask the Secretary of State for Education and Skills what assessment has been made by his Department of the changes that will take place in the terms and conditions of the Teacher's Pensions Scheme with the introduction of the Government's new pension proposals; and if he will make a statement. [186290]

Mr. Miliband: As part of a package of changes to the Teachers' Pension Scheme (TPS) relating to the increase in the normal pension age (NPA) from 60 to 65, consideration is being given to a number of changes that will improve scheme benefits, increase flexibility and offer greater retirement options for teachers. Suggestions for change to the TPS are included on the TeacherNet website www.teachernet.gov.uk/pensions which will form the basis of a consultation planned to take place during the Autumn term 2004. One of the priorities that has been recognised is the introduction of pension benefits for unmarried partners. It is expected that the introduction of NPA of 65 will enable this improvement to be introduced without an increase in the contribution to the TPS made by individual teachers.

Mr. Bill O'Brien: To ask the Secretary of State for Education and Skills what discussions his Department has had with teachers' unions on the impact of the Government's pension proposals; and if he will make a statement. [186291]

Mr. Miliband: Teachers' Unions, are fully and actively involved in the review of the Teachers' Pension Scheme through their membership of the Teachers'

Superannuation Working Party (TSWP) and its sub-group, the Teachers' Pensions Review Group (TPRG), that is taking forward the detailed work on the scheme review. The TPRG has met on five separate occasions during 2004 and the TSWP met on 13 October 2003 and 29 June 2004. Further meetings will take place with the teacher unions throughout the remainder of the scheme review.

Student Debt

Chris Grayling: To ask the Secretary of State for Education and Skills what estimate his Department has made of the amount of debt a student graduating in *(a)* 2004, *(b)* 2005 and *(c)* 2006 will have. [183643]

Alan Johnson: Information on the total amount of debt on leaving higher education, including private sector debt, is not collected annually, although we do estimate it in successive student income and expenditure surveys. It will depend on a wide range of factors, including: whether an individual takes out a Government student loan; how much student loan they are eligible for; how many years they spend in HE over which to amass their debt; whether they take out any commercial debt or build up overdrafts; and whether they have any loans from family or friends. The latest 2002/3 Student Income and Expenditure Survey showed that students graduating in 2003 anticipated leaving with an average total debt of £8,666. During the passage of the Higher Education Act through Parliament we estimated that this might rise to an average debt of about £15,000, once students paying variable fees have graduated. The 2004/5 Student Income and Expenditure Survey—which is expected to report in early 2005—will provide an estimate of total debt on leaving HE for those graduating in 2004.

Individuals with government student loans leaving higher education in 2004—whether on course completion or withdrawal—will enter repayment status in April 2005. The average income-contingent student loan debt to government, for full-time students entering repayment status in April 2005, is estimated at around £7,700. Estimates for those entering repayment in April 2006 and 2007 are, respectively, around £8,000 and £9,000. Figures are reported in nominal prices including inflation.

Sure Start

Alan Simpson: To ask the Secretary of State for Education and Skills whether the budget cuts recently announced for Sure Start were cuts previously announced for the 2004–05 budget; if he will make a statement on how the cuts will be made; and what impact assessment his Department has made of the effect of the cuts on the Sure Start programme. [181300]

Margaret Hodge: The Government remain strongly committed to Sure Start. The 2004 spending review settlement is £1,167 million, £1,483 million and £1,667 million for 2005–06, 2006–07 and 2007–08 respectively.

In addition the Government are streamlining the administration of the programme in order to concentrate resources on the front line. The Sure Start Unit's administrative budget has been reduced by approximately 5 per cent. on a broadly like for like basis between 2003–04 and 2004–05. Programme budgets have not been reduced.

Ms Keeble: To ask the Secretary of State for Education and Skills pursuant to his answer of 13 July 2004, to question reference 182841, on Sure Start, how many children are receiving services from the Sure Start centre at King's Heath, Northampton. [184773]

Mr. Stephen Twigg: Pursuant to the previous question answered on 13 July, which asked "how many children in Northampton North have received services from a Sure Start centre". The Sure Start centre in King's Heath is one of two satellite centres developed by the Northampton Sure Start local programme. The programme operates out of its main building, the Camrose Centre, and has developed two satellite centres at Kings Heath and St. James. The Kings Heath satellite delivers a range of Sure Start services, including a medical service and "need to know" shop, which gives a range of advice on areas such as benefits, housing and other statutory services.

Monitoring figures are collected only for the Sure Start Local Programme as a whole. We are not able to give a separate breakdown of figures for the two satellite centres. Sure Start Northampton (Camrose Centre) has a register of 685 children who access its services. In March 2004 155 (23 per cent.) children under four years living in the catchment area had accessed services. The annual average of children seen is 19 per cent.

These figures include the St. James and Kings Heath centres.

Mr. Simmonds: To ask the Secretary of State for Education and Skills how much of the 2003–04 budget for Sure Start was allocated to *(a)* capital expenditure, *(b)* internal management costs, *(c)* running costs for children's centres, *(d)* health within children's centres and *(e)* nursery education in Sure Start. [185720]

Margaret Hodge: In 2003–04, £116 million was spent on Sure Start capital programmes. Over this period total administration expenditure was £13 million.

Funding for children's centres was due to start on 1 April 2004. However, £3.2 million of revenue funding was brought forward to allow local authorities to make an early start with development in 2003–04.

Children's centre health services are integrated with other services and are mainly paid for by Primary Care Trusts. It is not possible to provide a separate figure for health expenditure in children's centres.

The information on nursery education is not available in the form requested. From April 2003, Nursery Education Grant was consolidated within the under-fives sub-block of the Education Formula Spending Share (EFSS)—local authorities' main education budget. It is for individual LAs in consultation with local partners to determine how overall resources should be used.

All LAs received sufficient funding to enable them to meet their statutory responsibilities to provide free nursery education for three and four-year-olds. The overall EFSS under fives sub-block in 2003–04 was £2.6 billion.

University Students/Results

Mr. Wiggin: To ask the Secretary of State for Education and Skills what research his Department has commissioned on changes in results achieved on university courses over the last 10 years. [185198]

Alan Johnson: Information on the degree classifications of newly qualified graduates has been collected and published annually since 1994/95 by the Higher Education Statistics Agency (HESA) at www.hesa.ac.uk. The latest figures show that, in 2002/03, 55 per cent. of graduates gained a first class or upper second class degree, compared to 47 per cent. in 1994/95.

Chris Grayling: To ask the Secretary of State for Education and Skills how many students were offered university places for 2003–04; how many students took up places at universities in 2003–04; and how many students dropped out during the academic year 2003–04. [183640]

Alan Johnson: Details of the offers made to students are matters for individual institutions and are not held centrally. The latest information from the Higher Education Funding Council for England (HEFCE) shows that 646,000 students began undergraduate courses in English institutions in autumn 2003/04. Information on the non-completion rates of these students is not yet available, but the latest figures from HEFCE (based on students entering in 2000/01) indicate that 16 per cent. of full-time first degree students in the UK did not complete their studies.

WORK AND PENSIONS

BACS

Brian White: To ask the Secretary of State for Work and Pensions what progress his Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-IP system for electronic payments. [164322]

Mr. Pond: The Department is not part of the current programme to move to the new BACSTEL-IP method of transmitting data for benefit payments. DWP has a full and active liaison in place with its sponsor bank and BACS Ltd., to change over to another new system within a longer timeframe.

Employment Records

Harry Cohen: To ask the Secretary of State for Work and Pensions if he will bring forward legislation to permit employees to gain access to records of their employment stored by employers in unstructured manual form; and if he will make a statement. [185899]

Mr. Leslie: I have been asked to reply.

Individuals' right of access to their employment and other records is regulated by the Data Protection Act 1998, as amended by the Freedom of Information Act 2000. We have no plans to extend the application of the 1998 Act to unstructured manual personnel records.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Dog Excrement

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many tonnes of dog excrement is estimated to have been collected by local authorities from public byways and spaces in the last year for which figures are available, broken down by authority; [185900]

(2) what the estimated cost to local authorities of collecting dog excrement from public byways and spaces was in the latest period for which figures are available; and what percentage of local council budgets this figure represents; [185901]

(3) how many personnel she estimates are employed by local authorities *(a)* full-time and *(b)* part-time in the collection of dog excrement from public byways and spaces; [185902]

(4) what she estimates the cost of employing personnel in *(a)* cleaning up and *(b)* recycling dog excrement from public byways and spaces was in each year for which figures are available, broken down by local authority. [185903]

Alun Michael: The Government does not collect consolidated figures on how much each local authority spends on collecting dog excrement but the ENCAMS report on local environmental quality showed that there was a reduction in dog fouling in 2003 compared to 2002.

Agriculture

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate her Department has made of agriculture *(a)* gross value and *(b)* gross profitability for each year for the last 10 years for which records are available, broken down by (i) region and (ii) agricultural sector. [184760]

Alun Michael: We do not have data for gross value and gross profitability by region and agricultural sector. We do, however, have data for total farm output (a reflection of gross value) and net farm income. The trends shown by net farm income could reasonably be expected to reflect those shown by gross profitability.

Total farm output and net farm income in England are shown by region and by farm type in the tables.

Table 1: Total output and net farm income by regions in England—All farm types

£ per farm

Source: Farm Business Survey

Net farm income is the return to the principal farm and spouse for their manual and managerial labour and to the tenant-type capital of the business.

Agriculture and Fisheries Council

Mr. Connarty: To ask the Secretary of State for Environment, Food and Rural Affairs what the outcome was of the Agriculture and Fisheries Council on 19 July; what the Government's stance was on the issues discussed, including its voting record; and if she will make a statement. [185932]

Margaret Beckett: I represented the United Kingdom at a meeting of the Agriculture and Fisheries Council in Brussels on 19 July 2004.

The new Dutch Presidency presented its work programme for the next six months. Key themes will be sustainable agriculture and its public responsibilities, and initiatives to reduce the administrative burden on the industry.

The Presidency and Commission presented plans for greater member state co-operation on agricultural research in order to maximise value for the money spent. The UK Government strongly supports this initiative.

The Commission reported on negotiations with Russia to renew certification arrangements covering animal and animal product imports from the EU. The negotiations are currently deadlocked and the Presidency indicated that it was planning an intervention at political level in an attempt to unblock them.

Member states were asked whether their views had changed with regard to a Commission proposal to authorise the marketing of a variety of GM maize which had failed to get qualified majority support in the Standing Committee on the Food Chain and Animal Health. The UK has supported this approval on the basis of the safety assessments carried out and our position remained unchanged. Member states failed to give the proposal majority support, but if the Council fails to act within three months the Commission will have the authority to proceed with its approval.

The Commission presented its proposal for a European Fisheries Fund to replace the existing Financial Instrument for Fisheries Guidance (FIFG). The main focus will be to eliminate excess fishing capacity and use structural measures to reinforce stock recovery plans.

The Council held a public debate on the Commission's new proposals for changes to the Rural Development Regulation. I stressed the need for more flexibility and better value, for a greater transfer of resources from Pillar 1 to Pillar 2 of the Common Agricultural Policy, for more emphasis on environmental schemes and for a fairer allocation of rural development resources. There will now be detailed negotiation at official level which will extend over a number of months.

The Council also debated a new Commission communication on its preferred option for reform of the CAP sugar regime. The proposal calls for significant cuts in EU price support with a further review of the regime in 2008. I gave a general welcome to the proposals as a step in the right direction, while urging a swifter end to quotas and emphasising the need to address urgently the impacts on those developing countries which currently enjoy preferential access to the EU market. Again, the proposal will now be remitted for detailed consideration at official level.

The Council was asked to vote on proposals to change the import tariffs for rice which the Commission has been negotiating with India, Pakistan, Thailand and the United States. The Commission had failed to get agreement with the last two countries which felt that the proposals increased tariffs to a degree that breached WTO rules. While welcoming the agreement with India and Pakistan, I voted against the proposal on the grounds that the Commission was seeking to implement the changes on a basis which was contested by some of the parties and that they should instead continue negotiations. The Council, however, voted by qualified majority to adopt the proposal although a number of those voting in favour urged the Commission to continue negotiating with the United States and Thailand with a view to reaching an agreed conclusion.

The Presidency urged the Commission to come forward soon with proposals to address the illegal timber trade. I endorsed this call.

In an informal exchange of views after the Council had ended, the Commission updated Ministers on the latest developments in the current round of WTO negotiations. I supported the Commission's efforts towards securing a framework agreement at the WTO General Council on 27 and 28 July.

Animal Welfare Bill

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs when she intends to publish the Animal Welfare Bill; and whether it will be a draft bill for pre-legislative scrutiny. [182278]

Mr. Bradshaw: The draft Animal Welfare Bill was published on 14 July 2004 and will be subject to pre-legislative scrutiny by the EFRA Select Committee.

Auction Marts

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the role of auction marts in rural life; and if she will make a statement. [186096]

Alun Michael: Auction markets play an important role in the marketing of farm animals, particularly between the different stages of production. As part of the wider rural development agenda, we are alert to the opportunities for business diversification in livestock auction markets. Processing and Marketing Grants and the Rural Enterprise Scheme have been used to develop the role of auction markets, such as at the Craven Cattle Market in Skipton.

We also provide funds to the Red Meat Industry Forum which is working on ways of helping industry improve the competitiveness of red meat supply chains. This work includes auction markets.

Biodiversity

Mrs. Helen Clark: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what action

the Government is taking to promote a biodiversity indicator for Europe to measure progress towards halting biodiversity decline by 2010; [186130]

(2) whether the Government intends to make representations to the European Commission to include a biodiversity indicator on the shortlist of indicators presented in its synthesis report to the 2005 EU Spring Summit. [186131]

Mr. Bradshaw: The Department has worked with the Commission, other Member States and stakeholders to agree a set of fifteen headline indicators to be used to measure progress towards the target of halting biodiversity loss in Europe by 2010. At the Council meeting in June, European Environment Ministers welcomed these proposals and urged the Commission to develop, test and finalise this set by 2006. Officials and experts from the UK are now engaged in a process led by the European Environment Agency to develop and test these indicators using the data which are currently available. The Government has advocated that one of the fifteen headline indicators should be used to represent biodiversity in the list of structural indicators reported to the Spring Council of Ministers.

Mrs. Helen Clark: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the robustness of the Pan-European Common Bird Index as an indicator of biodiversity; and whether she will promote this index as the biodiversity indicator for Europe. [186132]

Mr. Bradshaw: My officials, and statutory advisors, will review the suitability of indicators proposed by the Commission with regard to their scientific validity, relevance to the 2010 biodiversity target and public appeal. Provisional versions of a Pan-European Common Bird Index seen by officials appear to offer strong potential and present a similar picture for Europe as the UK farmland bird index.

Biofuels

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with the Chancellor of the Exchequer on tax on biofuels; and if she will make a statement. [185212]

Mr. Morley: The Department is in regular contact with Treasury Ministers to discuss a whole range of matters related to energy and environmental policy. In addition, my right hon. Friend, the Secretary of State, meets regularly with the Chancellor of the Exchequer on a wide range of matters that affect the business of the Department. As with all tax matters, decisions on tax incentives rest with the Chancellor of the Exchequer.

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether reported incidence of bovine TB in *(a)* 2002 and *(b)* 2003 offer a secure statistical baseline against which differences in incidence in 2004 may be measured. [184694]

Mr. Bradshaw: TB testing was all but suspended during the foot and mouth disease (FMD) outbreak in 2001 and did not fully recover to pre-FMD levels until February 2002. The effect of this suspension of testing on the underlying trends in TB incidence for 2001 and subsequent years is hard to gauge, for the following reasons:

- The TB testing effort in 2002 was initially aimed at high-risk herds.
- Disease would have had more time to spread in herds where normally it might have been detected more quickly.
- Restocking of herds after FMD led to the disease being spread to areas it had not been found for some time.
- The level of testing in 2002 and 2003 required to clear the backlog was much higher than normal (the backlog was reduced to pre-FMD level by spring 2003).

The trends seen in TB herd incidence and number of reactors slaughtered in 2001 and 2002 should, therefore, be treated with caution and are probably not comparable with those of earlier years. TB incidence rates and testing patterns for 2003 and 2004 appear to have settled down enough to make valid comparisons with pre-FMD trends.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the average costs to UK dairy farmers of providing biosecurity to ensure complete separation of cattle and badgers. [184808]

Mr. Bradshaw: Defra has not carried out an assessment of the cost of complete separation. These will vary significantly from farm to farm. Improving biosecurity provides a range of benefits for many diseases. The measures that are taken should be based on a risk assessment approach and the costs of any specific measure balanced against its likely benefits. Complete separation of wildlife and farmed livestock may not be either practical or cost effective, but farmers should consider what measures they can take to reduce the interaction of wildlife with their animals.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what guidelines her Department *(a)* issues and *(b)* plans to issue to secure full biosecurity of grazing pastures in order to ensure complete separation of cattle and badgers. [184809]

Mr. Bradshaw: Complete biosecurity is seldom possible where wildlife is concerned, but farmers are advised to minimise contact between their cattle and wildlife. Currently advice is issued to farmers in the form of the booklet "TB in cattle: reducing the risk." Advice to individual farms that suffer a TB breakdown will normally be offered by a Veterinary Officer of the State Veterinary Service.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what guidelines her Department issues on when it is appropriate to carry out a survey to establish the adequacy of biosecurity measures on a working farm. [184810]

Mr. Bradshaw: There are no specific Departmental guidelines setting out advice on the conduct of surveys to establish the adequacy of biosecurity measures on a working farm.

The Department has published advice on biosecurity—Better Biosecurity Provides Peace of Mind, Healthy Stock and a More Viable Business, and through the Codes of Recommendations for the Welfare of Livestock for specific species, which while primarily concerned with welfare, also provide guidance on biosecurity issues. These Codes support the statutory requirements under the Welfare of Farmed Animals (England) Regulations 2000, that animals shall be cared for by a sufficient number of staff who possess the appropriate ability, knowledge and professional competence. The Codes give clear recommendations on biosecurity measures and the need for written health and welfare plans, prepared with the farmer's veterinary surgeon and, where necessary, other technical advisers. Farm assurance schemes may require evidence of such health and welfare plans when auditing farms.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the effects on badger population levels should the farming community succeed in securing complete biosecurity of their farms and crops and excluding badgers from these areas. [184811]

Mr. Bradshaw: While no formal assessments have been made, research currently under way at the Central Science Laboratory suggests that badgers exploit growing crops (mainly cereals) close to or at maturity, especially during extended dry periods. Also, they may feed on poorly-stored farm feeds at all times of the year, but particularly during extended dry periods. These represent times when the badgers' natural food sources are of very limited availability and when badger mortality may otherwise be higher.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the change in incidence of bovine TB in cattle is when compared against a baseline of incidence in 1999. [184812]

Mr. Bradshaw: The incidence of TB in cattle herds in Great Britain in 1999, measured as the percentage of tests on unrestricted herds resulting in a confirmed breakdown, was 2.3 per cent. In 2003, the (provisional) incidence was 3.5 per cent. In absolute terms, this represents an increase in herd incidence for Great Britain of 1.2 percentage points.

Source:

National Statistics

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what studies her Department has undertaken of the extent to which the level of bovine TB in cattle reported on the Somerset levels is attributable to the population density of badgers in the same area. [184813]

Mr. Bradshaw: There are no data on the relationship between badger population density and the incidence of TB in cattle, nor are there any published data on the density of badger populations at a county scale. The National Badger Survey reports on estimated badger numbers at a regional level (eg the south-west). Although there are certainly areas of Somerset that are not ideal badger country, it is not possible to categorically state that badger density in Somerset is significantly lower than elsewhere in the south-west.

Since 1997 until earlier this year, investigation of the prevalence of TB in wild badgers has been restricted to the Randomised Badger Culling Trial and the Road Traffic Accident survey of badgers found dead in seven counties (Somerset is not one of the counties selected for this survey). The trial will provide some information on badger numbers within the triplet areas, which could be related to cattle herd breakdown rates. However, badger density estimates may not be very reliable even in trial areas (they would be based on trapping returns and field survey information). This year, an additional limited survey of badgers found dead in Cumbria is being undertaken.

Part of the recent consultation on Defra's proposed short term strategy incorporated surveillance of badgers found dead in emerging TB hotspots (the concept of an emerging hotspot is explained in Chapter 5.3 of the consultation document "Preparing for a new GB strategy on bovine tuberculosis" which was published in February 2004).

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to receive results from the Irish trials into Bovine TB. [185195]

Mr. Bradshaw: Defra officials are in regular contact with officials from the Republic of Ireland, and they have undertaken to inform me as soon as a publication date is known.

Paul Flynn: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of deer as a potential source of infection for bovine TB. [185609]

Mr. Bradshaw: A recently published report by the Central Science Laboratory funded by Defra confirmed the presence of *Mycobacterium bovis* (the causative organism for bovine tuberculosis) in a number of wildlife species. Bovine TB was found in five out of the six deer species in Great Britain, including, for the first time, muntjac deer.

The report adds to the body of evidence on TB in wildlife, but it is not clear what level of risk deer pose as a potential source of bovine TB infection in cattle. Defra is currently considering what future research is required in this area.

BSE

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs which countries have identified cases of BSE. [184234]

Mr. Bradshaw: In addition to the United Kingdom, the following countries have identified cases of BSE:

Austria
Belgium
Canada
Czech Republic
Denmark
Finland
France
Germany
Greece
Ireland

Israel
Italy
Japan
Liechtenstein
Luxembourg
Netherlands
Poland
Portugal
Slovakia
Slovenia
Spain
Switzerland
USA.

Cage and Aviary Birds

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 5 July 2004, *Official Report*, column 437W, on cage and aviary birds, what measures her Department takes to ensure that the Pet Animals Act 1951 is enforced at exhibitions of cage and aviary birds where sales take place; and if she will make a statement. [183290]

Mr. Bradshaw: Local authorities are responsible for enforcing the Pet Animals Act 1951 and how it should be applied to events where the selling of cage and aviary birds takes place.

Captive Birds and Animals

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to propose legislation to ban the sale of captive birds and animals at fairs and exhibitions; and if she will make a statement. [183444]

Mr. Bradshaw: The Government have no plans to introduce legislation to specifically prohibit the selling of animals at fairs and exhibitions.

CITES Permits

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many permits for the *(a)* export and *(b)* re-export of species listed in Appendix II to the Convention on International Trade in Endangered Species (CITES) have been (i) approved and issued by UK authorities and (ii) received by UK authorities from other CITES member states since January 2001. [185889]

Mr. Morley: The number of CITES permits for Appendix II listed species issued by UK the Management Authority since January 2001 were as follows:

17,418 exports;

76,74 re-exports.

The Management Authority does not record the number of export permits issued by other CITES member states for Appendix II specimens imported into the UK. However, the number of Appendix II import permits issued by the UK Management Authority for the period in question was 30489.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many permits for the *(a)* export and *(b)* import of species listed in Appendix I to the Convention on International Trade in Endangered Species (CITES) have been (i) approved and issued by UK authorities and (ii) received by UK authorities from other CITES member states since January 2001. [185890]

Mr. Morley: The number of CITES permits for Appendix I listed species issued by the UK Management Authority since January 2001 were as follows:

4,126 imports;

1,930 exports;

11,897 re-exports.

There is a corresponding permit issued by the exporting country for each Appendix I specimen imported into the UK.

Climate Change

Mr. Bellingham: To ask the Secretary of State for Environment, Food and Rural Affairs, if she will make a statement on the UK Climate Change Programme targets. [185449]

Mr. Morley: The UK remains on course to achieve its Kyoto target to reduce greenhouse gas emissions by 12.5 per cent. below 1990 levels by 2008–12. Provisional estimates suggest that greenhouse gas emissions in 2003 were about 14 per cent. below the baseline.

The Government has a separate goal to reduce carbon dioxide emissions by 20 per cent. below 1990 levels by 2010. Emissions of carbon dioxide for 2003 are provisionally estimated at about seven per cent. lower than in 1990.

Commercial Sea Fishing

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her estimate is of the financial contribution to the economy of commercial sea fishing. [184709]

Mr. Bradshaw: The recent report by the Prime Minister's Strategy Unit, "Net Benefits: A sustainable and profitable future for UK fishing", estimates the UK catching industry lands over £540 million in catches each year, resulting in between £800 and £1,200 million of directly related economic activity in the UK. This estimate does not include indirect expenditure arising from commercial sea fishing.

Committee Examining Radiation Risks of Internal Emitters

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs whether her attention was brought to recent e-mailed communications by individual members of the Committee Examining Radiation Risks of Internal Emitters critical of the work of the Committee prior to the completion of the Committee's work; and if she will examine the actions of these Committee members in respect of their compatibility with the commitments entered into as conditions of membership of the Committee. [185522]

Mr. Morley: I have been made aware of the recent e-mailed communication by individual members of the Committee Examining Radiation Risks of Internal Emitters (CERRIE), although this was not sent directly to the Department. CERRIE held its last formal meeting on 24 June, and its report is currently being finalised by the Committee members, who anticipate that it will be ready for publication in the autumn. It is regrettable that members of the Committee have chosen to pre-empt publication by issuing a statement critical of the report and of other members of the Committee. We will welcome an informed debate on the scientific issues in the CERRIE report, once it is published. In the meantime, I have asked officials to consider with the Committee Chairman whether there are any lessons to be learned from the experiences with the CERRIE Committee that should be taken into account in the future.

Departmental Costs

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of printing departmental headed notepaper was in *(a)* 1996–97 and *(b)* the latest year for which figures are available. [185942]

Alun Michael: Defra came into being in June 2001. As part of the Department's information and communications strategy electronic templates were made available on desktop PCs enabling staff to generate letterheads from local laser printers, replacing the need for overprinting pre-printed stationery. There are occasional requirements for specialist headed paper which in the financial year 2003–04 totalled £4,297 in value.

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of running her Department's canteen facilities was in *(a)* 1996–97 and *(b)* the latest year for which figures are available. [185943]

Alun Michael: Defra came into being in June 2001. From information held centrally, the cost of running the Department's canteen facilities in financial year 2001–02 was £398,058 and in financial year 2003–04 the cost was £443,025.

Departmental Staff (Upper Age Limits)

Mr. Andrew Turner: To ask the Secretary of State for Environment, Food and Rural Affairs whether *(a)* her Department and *(b)* agencies for which it is responsible (i) have a set retirement age which applies to all or most personnel and (ii) have a maximum age beyond which applications for employment will not be considered; and what the age is in each case. [186092]

Alun Michael: The normal age at which staff may retire with immediate payment of pension is 60. However, subject to continued organisational need and to their continued efficiency, staff other than those in the senior civil service may elect to stay beyond age 60 subject to a maximum retirement age of 65.

Applications for employment, again for all grades other than the senior civil service, are accepted from those over the age of 60, subject to the maximum retirement age of 65. In real terms this normally means that age 63 or 64 is the maximum age at which staff are recruited. It would be uneconomic, in terms of payback on recruitment and training costs, to recruit closer to the age at which they would be required to retire.

All of the agencies also follow these rules with the exception of the Rural Payments Agency which has undertaken to apply them at the end of its change programme, scheduled for completion by the end of 2004.

Currently the normal age maximum for the senior civil service, as set by the Cabinet Office, is 60.

Departmental Vehicles

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs how many road vehicles are operated by the Department and its agencies; how many personal injury accidents involving road vehicles operated by the Department have occurred within each of the last five years; and what the Department's policy is for managing work-related road safety. [185915]

Alun Michael: Details relating to vehicles provided to Ministers by the Government Car Dispatch Agency will be covered by the Minister for the Cabinet Office. A separate response will be provided by Cabinet Office.

Defra and its agencies currently have some 611 road vehicles including cars, 4x4s, vans and lorries.

The number of personal injury accidents, reported officially via accident reporting arrangements, involving road vehicles operated by the department, (including all Agencies) occurring within each of the last five years is as follow:

1999—18

2000—10

2001—23

2002—15

2003—19

It should be noted that these figures relate to all road traffic accidents on official business, whether in fleet, hire or private vehicles. Fleet data on its own can only be extracted manually and would thereby incur disproportionate costs.

The core department has a policy to assist with the management of work-related road safety and encouragement of safe driving. The policy is based on risk and consists of a generic risk assessment and guidance documentation. Defra Agencies have equivalent policies in compliance with the Defra Safety Policy.

Ducks (Factory Farming)

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the welfare of factory farmed ducks with reference to *(a)* access to water other than drinking water and *(b)* the practice of de-beaking. [186027]

Mr. Bradshaw: In determining the welfare requirements of farmed ducks for water, other than drinking water, a balance needs to be struck between the

behavioural needs of the birds and the risks to health, hygiene, and food safety if they are given unlimited access to open water.

Defra is shortly to fund a research project which will assess the extent to which different commercial systems currently in use in this country fulfil the welfare needs of farmed ducks. Part of the study aims to quantify a duck's motivation to gain access to water.

Our existing Code of Recommendations for the Welfare of Ducks and our consultation document on a new code, propose that the practice of de-beaking or bill trimming should be avoided and only used if veterinary advice is that the procedure is essential to prevent worse welfare problems, such as the birds injuring each other.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what plans the Government has to improve the welfare standards of factory farmed ducks. [186028]

Mr. Bradshaw: The welfare of ducks is protected by The Agriculture (Miscellaneous Provisions) Act 1968, which makes it an offence to cause unnecessary pain or unnecessary distress. More detailed standards are laid down in The Welfare of Farmed Animals (England) Regulations 2000 (S.I. 1870). These Regulations include specific requirements on inspections, record keeping, freedom of movement, buildings and equipment and feed and water.

There is also a specific Code of Recommendations for the Welfare of Ducks. Flock-keepers are required by law to have access to, and be familiar with this code, which encourages all those who care for ducks to adopt the highest standards of husbandry.

We are currently revising the duck welfare code and a three month public consultation ends on 10 September.

Eaton Farm

Mr. Luff: To ask the Secretary of State for Environment, Food and Rural Affairs if she will allow Mr. Andrew Morris of Eatons Farm, Tibberton, to sell calves under 42 days of age from that farm. [180355]

Mr. Bradshaw: When a herd is under movement restrictions, movements of cattle from the premises (except direct to slaughter) will only be licensed where a pre-movement isolation unit has been agreed with the Divisional Veterinary Manager, and all the isolated cattle have tested clear twice at 60-day intervals from the date of isolation. Testing of the isolated calves must take place at the same time as the rest of the herd (that is, although the isolated calves can be treated as a separate epidemiological unit, the whole herd including the adult animals needs to be fully up-to-date with its testing before any movements will be permitted).

Electronic Tagging

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the progress of the trials for the electronic tagging of animals. [185142]

Mr. Bradshaw: The Sheep EID/EDT Pilot Study is examining the practical application of electronic identification (EID) and electronic data transfer (EOT) in sheep. Commercial farms are taking part in the trial and we are examining both eartags and boluses and a range of EID equipment. We are also planning to include a small number of selected markets and abattoirs later in the trial.

Study findings will be published on the Defra website www.defra.gov.uk. An interim report is due in September 2004 and the final report in June 2005.

Correspondence

Andrew Mackinlay: To ask the Secretary of State for Environment, Food and Rural Affairs when she will reply to the letter from the hon. Member for Thurrock sent in May about the UK National Allocation Plan for carbon and the EU Emissions Trading Scheme. [185687]

Mr. Morley: I responded to my hon. Friend's letter on 22 July 2004.

Energy Efficiency

Mrs. Curtis-Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs how much money was spent on grants to aid energy efficiency in *(a)* Merseyside, *(b)* Crosby and *(c)* the North West in each of the last three years. [177860]

Mr. Morley: Defra currently provides grant funding for energy efficiency through four main routes. These organisations or programmes undertake work at a national or UK level.

The Warm Front programme—to provide energy efficiency measures to the vulnerable.

The Community Energy programme—capital and development funding to refurbish existing and install new community heating schemes.

The Carbon Trust—to support and promote energy efficiency and low carbon innovation for business and public sector.

The Energy Saving Trust—to support and promote energy efficiency in the household sector.

Warm Front

Total costs of measures under the Warm Front scheme are as follows:

	Merseyside (£ million)[1]	*Crosby (£000)*[1]	*North West (£ million)*[1]
2001–02	13	315,000	18
2002–03	14.5	450,000	8
2003–04	12	530,000	9

Community Energy

Community Energy figures as follows:

2001–02: Programme not up and running until 02/03

2002–03: No spend

2003–04: £19,000

These spend figures relate to development grant money to fund feasibility studies, business plans and bids for capital grants, and form part of £2 million set aside for developing bids within the £50 million pot. There were no capital grants awarded to schemes in the North West in either 2002–03 or 2003–04 as no bids were submitted of sufficient quality which met the

programme's criteria. The programme's publicity has very much focused on regions that have had a poor take up of grant.

Carbon Trust and Energy Saving Trust

The Trusts' programmes have no specific levels of funding attributed to particular regions.

Total Funding

The total funding made available by the Department to support and promote efficiency measures for these programmes (The Carbon Trust, The Energy Saving Trust, Community Energy and Warm Front) in each of the last three years is set out as follows:

	£ million
2001–02	256
2002–03	225
2003–04	[1]243

[1] Budget

Environmental Business Growth Action Programme

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what funding her Department has provided for the Environmental Business Growth Action Programme in 2004–05; [184148]

(2) what the *(a)* objectives, *(b)* aims and *(c)* targeted outputs are of the Environmental Business Growth Action Programme; and if she will make a statement. [184149]

Mr. Morley: The Environmental Business Growth Action Plan aims to help the West Midlands to develop its potential to be a leading region in the area of environmental technologies, products and services. Its primary focus is support for SMEs and for the expansion of growth sector industries in this field. The business plan estimates that the programme will help to modernise and diversify the region's economy by assisting 2,600 SMEs across the region, creating an estimated 700 new jobs and safeguarding a further 2,000 jobs.

The plan provides funding for a range of initiatives supporting business growth in environmental technologies and improving environmental management practice in all businesses. It is operated by the Environment Agency, and draws on funding support from Advantage West Midlands and from European Structural Funds via Government Office West Midlands. It acts on behalf of a partnership comprising Advantage West Midlands, Government Office West Midlands, together with other regional organisations, with the Environment Agency acting as accountable body. Advantage West Midlands also participates in the management board of the plan together with other regional partner organisations.

EU Bycatch Regulation

Mr. Sanders: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to ensure that the UK Bycatch Response Strategy takes steps to protect harbour porpoises in coastal waters where vessels under 12 metres operate. [184897]

Mr. Bradshaw: Agreement was reached at the March Agriculture and Fisheries Council on Community legislation to address this issue. The legislation makes the use of acoustic deterrent devices ("pingers") mandatory for vessels of 12 metres and over involved in specified fixed gear fisheries in the Celtic Sea, Channel and North Sea. Alongside this, on 22 July I announced my intention to request the European Commission to close the pair trawl fishery for bass for the forthcoming season, using the provisions for emergency measures under Article 7 of Council Regulation (EC) No. 2371/2002 in the light of research results showing significant dolphin bycatch in this fishery. We are considering whether further measures are required to protect porpoises and other cetaceans in the context of the implementation of the UK Small Cetacean Bycatch Response Strategy.

External Costs (Agriculture)

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the external costs associated with agricultural activities, with particular reference to the environmental costs. [184583]

Alun Michael: Defra and the devolved administrations commissioned a project to develop a framework for valuing the external costs associated with the positive and negative impacts of agriculture on the environment. Eftec, who carried out the research, are in the process of finalising their report on the "Framework for Environmental Accounts for Agriculture", which will be published on the Defra website soon.

I will write to the right hon. Member for Lewes to inform him when the report is published.

Fallen Stock

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs what recent estimate she has made of the costs which might be incurred by *(a)* intensive livestock farmers and *(b)* extensive livestock farmers in the collection of fallen stock in the event of a ban on hunting. [176300]

Alun Michael: No estimate has been made with regard to the impact on intensive livestock farmers. However, the effect of a ban on hunting is likely to be small as hunt kennels generally do not collect fallen stock from intensive pig and poultry farms.

In relation to extensive livestock farmers, I refer the hon. Member to the estimate of extra costs given in the Report of the Committee of Inquiry into Hunting with Dogs in England and Wales, the Burns Report, dated June 2000.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what security standards are expected from operators and receivers of fallen stock; what checks are made on such operators; how many prosecutions there have been since the beginning of the scheme; and if she will make a statement. [185232]

Mr. Bradshaw: The fallen stock scheme is due to start in the autumn. A set of detailed terms and conditions, including strict bio security conditions, will apply to all those wishing to collect fallen stock under the scheme. Operators' premises are already subject to approval and inspection by the State Veterinary Service under the Animal By-Products Regulations, but for those

premises which join the scheme additional checks on compliance with scheme rules will also apply. The scheme has no legislative basis so the question of prosecutions does not arise: However, operators found not to be in compliance with scheme rules will be subject to exclusion from the scheme.

Farm Animal Exports

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many farm animals, by species, were exported from the UK for each year, from 1994 to date; and if she will make a statement. [184856]

Alun Michael: The following table shows UK exports of farm animals by species 1994 to 2003. Cattle exports from the UK have been banned since 27 March 1996 under EU rules relating to BSE.

UK Exports of live farm animals by species 1994 to 2003

Number of head

	Type					
	Poultry	*Ovines (sheep)*	*Porcines (pig)*	*Bovines (beef)*	*Other live animals (horse)*	*Caprines (goat)*
1994	28,656,876	1,803,684	204,961	480,857	4,196	128
1995	26,240,265	1,668,931	248,909	450,158	5,506	161
1996	23,831,384	1,545,111	218,724	67,358	5,289	287
1997	19,730,084	1,186,126	362,647	—	6,565	375
1998	23,428,527	1,382,607	250,420	—	5,875	402
1999	25,240,783	1,811,842	175,504	—	6,169	483
2000	34,945,573	1,362,344	159,372	—	6,439	448
2001	33,375,306	380,729	31,314	—	5,913	2
2002	51,194,199	370,573	32,914	—	4,798	2
2003	32,114,728	344,949	40,220	—	7,904	350

Farm Animal Imports

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many farm animals, by species, were imported live to the UK for each year from 1994 to date; and if she will make a statement. [184849]

Mr. Bradshaw: The following table shows UK imports of farm animals by species 1994 to 2003.

UK Exports of live farm animals by species 1994 to 2003

Number of head

	Type					
	Poultry	*Porcines (pig)*	*Ovines (sheep*	*Bovines (beef)*	*Other live animals (horse)*	*Caprines (goat)*
1994	6,002,194	72,909	152,433	26,126	2,474	7
1995	7,450,440	120,939	112,637	16,808	2,474	8
1996	4,748,591	457,332	102,414	6,452	2,649	—
1997	6,017,532	185,243	109,391	10,064	5,288	—
1998	6,157,693	198,418	96,785	3,430	3,446	—
1999	9,134,640	180,251	127,697	3,036	3,124	13
2000	7,681,502	267,511	169,999	6,242	6,579	—
2001	11,005,083	63,895	24,292	34,157	3,581	—
2002	5,002,415	231,427	21,743	23,128	3,828	—
2003	6,333,253	330,810	34,593	11,221	4,118	41

Farming

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs when she last visited an agricultural show; and what plans she has to visit a show. [180716]

Margaret Beckett: The last Agriculture Show I visited was on 5 July. I have no further visits to Agriculture Shows planned in my diary this year.

Fly-tipping

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what volume of waste she estimates was illegally fly-tipped in the most recent year for which figures are available, broken down by *(a)* the nature of the waste and *(b)* whether it was fly-tipped in urban or rural areas. [184855]

Mr. Morley: Both the Environment Agency and local authorities have responsibilities for tackling fly-tipping. Prior to the launch of the Flycapture database on 5 April 2004, there was no national system for gathering and reporting data on fly-tipping dealt with by the Environment Agency and local authorities. However, the Agency did have its own incident reporting system that did record summary data on fly-tipping incidents dealt with by the Agency.

The most recent year for which complete data is currently available is 2002. Data for 2003 will be released on the 27 July 2004 with the Agency's Spotlight report.

During 2002, the Agency dealt with 4,997 fly-tipping incidents. Of these, 1,392 incidents involved Construction, Demolition or Excavation wastes (including asbestos), 891 involved Household waste, 432 involved Tyres and 197 involved Fuels/oils.

No data are available on the volume of wastes fly-tipped during 2002 and the Agency does not currently collect data on the urban/rural split.

In future years, the Flycapture database will be able to provide more comprehensive data on the nature and scale of the problem dealt with by both local authorities and the Agency.

Foot and Mouth

Mr. Yeo: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what actions on the part of the UK authorities were *(a)* required and *(b)* recommended by the European Union with regard to the September 2000 foot and mouth disease outbreak in KwaZulu-Natal; and when these were implemented; [183401]

(2) what actions the UK authorities took in regard to the November 2000 foot and mouth disease outbreak in Mpumalanga that were not taken in regard to the September 2000 outbreak in KwaZulu-Natal. [183403]

Margaret Beckett: If there is an outbreak of disease likely to present a risk to human or animal health, European Community legislation allows us to take appropriate safeguard action, which may include a ban on imports of meat from all, or parts, of that country. At the time of the outbreak in KwaZulu-Natal, it was not deemed necessary to take safeguard action since the South African authorities had prohibited the issue of export certificates for fresh meat from the area in which the outbreak had occurred. This meant that exports from South Africa could not take place.

On 7–8 November 2000 the European Commission informed the Standing Veterinary Committee (SVC) (now known as the Standing Committee on the Food Chain and Animal Health) of the outcome of an inspection and indicated that safeguard measures may be necessary. On 25 November the Commission published legislation prohibiting imports into the Community of fresh meat from 16 districts in the province of KwaZulu-Natal.

On 5 January the Government issued a Declaration under Regulation 35 of the Products of Animal Origin (Import and Export) Regulations 1996, prohibiting imports into England and Wales of meat from all of South Africa. Similar action was taken in Scotland and Northern Ireland.

The outbreak in Mpumalanga was confirmed on 30 November. The Commission took action in February 2001 to extend EU restrictions on imports of meat in respect of Mpumalanga. By that time, the UK had already banned imports of meat from the whole country, so no further action was necessary.

Greyhounds

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to propose that a new code to protect racing greyhounds will have statutory backing. [185209]

Mr. Bradshaw: Under the Animal Welfare Bill we are considering the possibility of introducing secondary legislation to cover racing greyhounds. A decision on the content of any regulations will be made in light of the outcome of work currently being done within the industry to raise welfare standards.

Hazardous Waste

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what Environment Agency *(a)* procedures and *(b)* resources will be used to ensure that all hazardous waste producers, including those producing small and sporadic quantities of hazardous waste are (i) made aware of and (ii) comply with the requirement to register as a hazardous waste producer. [185011]

Mr. Morley: We expect to go out to consultation on the new hazardous waste regulations, including the proposed requirement for hazardous waste producers to notify their premises to their Environment Agency, later this month. The Environment Agency will consider during the consultation period both how to make producers aware of their obligations and how to ensure compliance.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 15 July 2004, *Official Report*, column 1258W, on hazardous waste, when she expects the landfill sites which have applied for a licence to accept hazardous waste to be judged as fit for that purpose and have their licences granted. [185611]

Mr. Morley: Tables 1, 2 and 3 as follows show sites whose operators have applied for permits to be merchant dedicated hazardous waste landfill sites (which would receive hazardous waste on a commercial basis) or in-house dedicated hazardous waste landfill sites (which are used to dispose of waste from their own operations such as factory process waste).

These tables are drawn from information used to provide that published on the Environment Agency website (www.environment-agency.gov.uk). Also included is information about when the application is

likely to be determined, where this is known. For some sites, the determination date is not yet known.

Please note that the tables also include some sites whose applications have been refused.

Table 1: Sites whose operators have applied for permits to be merchant landfills for hazardous waste

Site name	Operator	Location	EA region	Range of hazardous wastes applied for	Proposed input (000 Te/Yr)	Permitting progress
1. Purton Brickworks	Hills Minerals and Waste Ltd.	Swindon, Wilts.	Thames	Range includes contaminated soils, filter cakes, packaging	99	Permit issued
2. Port Clarence	Zero waste	Teesside, N. Yorks	North East	Wide range	100	Permit issued
3. Southwood Landfill	Southwood Waste Mgt.	Shepton Mallett, Somerset	South West	Asbestos only. Quantity is same as current WML	22	Permit issued
4. Pinden Quarry	Pinden Plant	Dartford, Kent	Southern	Asbestos only. Quantity is same as current WML	26	Permit issued
5. Slipe Clay cliffe, King's Cliffe	Atlantic Waste Services	King's Cliffe	Anglian	Wide range of wastes	249	Permit issued—but site not operational
6. Eardswick Hall	Brock plc	Crewe, Cheshire	North West	Contaminated soils	75	Permit likely to be determined by end August 2004
7. Whitemoss	J. Routledge and Sons	Skelmersdale, Lancs.	North West	Range of hazardous waste although mainly contaminated soils	150	Permit likely to be determined by end August 2004
8. ICI no. 3	Impetus Waste Mgt.	Teesside, N. Yorks	North East	Wide Range of hazardous wastes	25	Permit likely to be determined by end July 2004
9. Randle Landfill	Ineos Chlor Ltd.	Runcorn, Cheshire	North West	Treated hazardous wastes arising from the chemical manufacturing process	150	Permit likely to be determined by end August 2004
10. Winterton South	Integrated Waste Mgt. Ltd.	Winterton, North Lincs.	Anglian	Wide range	250	Permit issued
11. Meece 2	Biffa	Stone, Staffs.	Midlands	Limited range of "Chapter 19" Hazardous wastes: 19 01 05, 19 01 07, 19 01 10, 19 01 13, 19 01 15	50	Permit likely to be determined by end October 2004
12. Warboys	Fenside Waste Mgt.	Huntingdon, Cambs.	Anglian	Wide range but slightly narrower range and lower quantities than existing WML allows	100	Pending—planning refused so unable to progress
13. Wingmoor Farm	Grundon	Cheltenham, Glos.	Midlands	Wide range	120 haz. and 30 inert cover	Permit likely to be determined by end July 2004
14. Thornhill Quarry	Dernex Ltd.	Dewsbury, West Yorkshire	North East	Asbestos fibres only	5,000 per year (total 120,000)	Application refused
15. VHE Construction	VHE Construction	Rotherham, S. Yorkshire	North East	Hazardous but mainly contaminated soil no asbestos	Only 50,000T remaining then full	Application refused
16. Rushton	CSG Ltd.	Kettering Northants.	Anglian	Full range of haz.	15	Application refused

Table 2: New sites whose operators have applied for permits to be merchant landfills for hazardous waste

Site name	Operator	Location	EA region	Range of hazardous wastes	Proposed input (000 Te/Yr)	Permitting progress
17. Winsford Rock Salt Mine	Minosus	Winsford, Cheshire	North West	Range of inorganic, non-flammable waste currently in negotiation with agency over detail of waste types	100	Dependent on resolution of planning issues and range of waste to be accepted
18. Lillyhall Phase 4	Alco Waste Management	Distington, Cumbria	North West	Wide range	35 per year plus 15 inert for cover	Pending—application received recently

Table 3: Sites whose operators have applied for permits to be in-house landfills for hazardous waste

Site name	Operator	Location	EA region	Range of wastes	Proposed input (000 Te/Yr)	Permitting progress
1. Grange Top Quarry	Castle Cement	Ketton, nr. Stamford	Anglian	Haz. (CKD) only	5	Permit issued
2. Royal Ordnance Landfill	BAE Systems	Chorley, Lancs.	North West	Contaminated land and other hazardous waste including asbestos	10	Permit issued
3. Bradley Park Landfill	Syngenta	Huddersfield, West Yorkshire	North East	Wide range of wastes	350	Refused
4. Southam	Rugby Cement	Southam, Warks.	Midlands	CKD and on site road sweepings	24.9	Determination pending
5. Alcan Pot Linings	Alcan Aluminium	Newbiggin, Northumberland	North East	Spent pot linings	14.4	Determination pending
6. Coplow Quarry	Castle Cement	Clitheroe, Lancashire	North West	CKD	20	Determination pending

Table 3: Sites whose operators have applied for permits to be in-house landfills for hazardous waste

Site name	Operator	Location	EA region	Range of wastes	Proposed input (000 Te/Yr)	Permitting progress
7. National security request	National security request	National security request	National security request	Unable to respond due to unresolved claim for national security	—	Unknown—outstanding national security request
8. National security request	National security request	National security request	National security request	Unable to respond due to unresolved claim for national security	—	Unknown—outstanding national security request
9. Morfa	Corus	South Wales	Wales	Wide range	100	Permit likely to be determined by end August 2004
10. Tripcock Point	Tilfen Land Ltd.	Thamesmead, London	Thames	Mainly contaminated soils	100	Pending—Tranche 3 app. received recently
11. Minworth Landfill	Severn Trent Water	Minworth, Sutton Coldfield	Midlands	Incinerator ash from incineration of digested sewage sludge	27	Permit likely to be determined by end September 2004
12. Rugby Works	Rugby Cement	Rugby, Warks.	Midlands	CKD and on site road sweepings and soils from excavation on site	24.9	Permit refused

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 21 June 2004, *Official Report*, columns 1188–89W, on hazardous waste, what the annual capacity in tonnes of hazardous waste is of each site listed in Tables 2 and 3. [185988]

Mr. Morley: The annual capacity in tonnes of hazardous waste of each site in the tables referred to is set out in the following tables, and are correct as of 22 July. It is important to note that the figures show capacity applied for in each individual PPC permit and not necessarily capacity available when and if permits are issued.

Table 1: Sites whose operators have applied for permits to be Merchant Landfills for Hazardous Waste

Site name	Operator	Location	EA region	Range of hazardous wastes applied for	Proposed input (000Te/Yr)	Permitting progress
1. Purton Brickworks	Hills Minerals and Waste Ltd.	Swindon, Wilts	Thames	Range includes contaminated soils, filter cakes, packaging	59	Permit Issued
2. Port Clarence	Zero Waste	Teeside, N.Yorks	North East	Wide Range	100	Permit Issued
3. Southwood Landfill	Southwood Waste Mgt.	Shepton Mallett, Somerset	South West	Asbestos only. Quantity is same as current WML	22	Permit Issued
4. Pinden Quarry	Pinden Plant	Dartford, Kent	Southern	Asbestos only. Quantity is same as current WML	26	Permit Issued
5. Slipe Clay Cliffe, King's Cliffe	Atlantic Waste Services	King's Cliffe	Anglian	Wide range of wastes	249	Permit Issued—but site not operational
6. Eardswick Hall	Brock Plc	Crewe, Cheshire	North West	Contaminated soils	75	Permit likely to be determined by end August 2004
7. Whitemoss	J. Routledge and Sons	Skelmersdale, Lanes.	North West	Range of haz waste although mainly contaminated soils	150	Permit likely to be determined by end August 2004
8. ICI no. 3	Impetus Waste Mgt.	Teeside, N.Yorks	North East	Wide Range of haz wastes	25	Permit likely to be determined by end July 2004
9. Randle Landfill	Ineos Chlor Ltd.	Runcorn, Cheshire	North West	Treated haz wastes arising from the chemical manufacturing process	150	Permit likely to be determined by end August 2004
10. Winterton South	Integrated Waste Mgt Ltd.	Winterton, North Lines.	Anglian	Wide Range	250	Permit Issued
11. Meece 2	Biffa	Stone, Staffs.	Midlands	Limited range of 'Chapter 19' Haz wastes: 19 01 05*, 19 01 07*, 19 01 10*, 19 01 13*, 19 01 15*	50	Permit likely to be determined by end October 2004
12. Warboys	Fenside Waste Mgt.	Huntingdon, Cambs.	Anglian	Wide range but slightly narrower range and lower quantities than existing WML allows	100	Pending—planning refused so unable to progress
13. Wingmoor Farm	Grundon	Cheltenham, Glos.	Midlands	Wide range	120 haz and 30 inert cover	Permit likely to be determined by end July 2004
14. Thornhill Quarry	Dennex Ltd.	Dewsbury, West Yorkshire	North East	Asbestos fibres only	5,000 per year (total 120,000)	Application refused
15. VHE Construction	VHE Construction	Rotherham, S. Yorkshire	North East	Hazardous but mainly Contaminated soil no asbestos	only 50,000T remaining then full	Application refused
16. Rushton	CSG Ltd.	Kettering Northants	Anglian	Full range of haz	15	Application refused

Table 2: New sites whose operators have applied for permits to be Merchant Landfills for Hazardous Waste

Site name	Operator	Location	EA region	Range of hazardous wastes	Proposed input (000 Te/Yr)	Permitting progress
17. Winsford Rock Salt Mine	Minosus	Winsford, Cheshire	North West	Range of inorganic, non-flammable waste currently in negotiation with Agency over detail of waste types	100	Dependent on resolution of planning issues and range of waste to be accepted
18. Lillyhall Phase 4	Alco Waste Management	Distington, Cumbria	North West	Wide range	35 per year plus 15 inert for cover	Pending—application received recently

Table 3: Sites whose operators have applied for permits to be In-house Landfills for Hazardous Waste

Site Name	Operator	Location	EA Region	Range of Wastes	Proposed Input (000 Te/Yr)	Permitting Progress
1. Grange Top Quarry	Castle Cement	Ketton, Nr Stamford	Anglian	Haz (CKD) only	5	Permit issued
2. Royal Ordnance Landfill	BAE Systems	Chorley, Lanes	North West	Contaminated land and other haz waste including asbestos	10	Permit issued
3. Bradley Park Landfill	Syngenta	Huddersfield, West Yorkshire	North East	Wide range of wastes	350	Refused
4. Southam	Rugby Cement	Southam, Warks	Midlands	CKD and on site roadsweepings	24.9	Determination pending
5. Alcan Pot Linings	Alcan Aluminium	Shotbiggin, Northumberland	North East	Spent pot linings	14.4	Determination pending
6. Copkow Quarry	Castle Cement	Clitheroe, Lancashire	North West	CKD	20	Determination pending
7. National security request	National security request	National security request	National security request	Unable to respond due to unresolved claim for national security	—	Unknown—outstanding national security request.
8. National Security request	National security request	National security request	National security request	Unable to respond due to unresolved claim for national security	—	Unknown—outstanding national security request.
9. Morfa	Corus	South Wales	Wales	Wide range	100	Permit likely to be determined by 2004
10. Tripcock Point	Tilfen Land Ltd	Thamesmead, London	Thames	Mainly cont soils	100	Pending—Tranche 3 app received recently
11. Minworth Landfill	Severn Trent Water	Minworth, Sutton Coldfield	Midlands	Incinerator ash from incineration of digested sewage sludge	27	Permit likely to be determined by end September 2004
12. Rugby Works	Rugby Cement	Rugby, Warks	Midlands	CKD and on site roadsweepings and soils from excavation on site	24.9	Permit refused

Mr. Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs whether the new hazardous waste regulations will make it an offence for householders to dispose of *(a)* fluorescent light tubes and *(b)* used batteries in domestic refuse. [186120]

Mr. Morley: It is not proposed that the Hazardous Waste Regulations, to be implemented in 2005, should make it an offence for householders to dispose of such items in the municipal waste stream. Mixed domestic waste containing small amounts of hazardous wastes such as fluorescent tubes and used batteries will continue to be dealt with as non-hazardous municipal waste.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs whether *(a)* used disposable nappies, *(b)* used continence pads and *(c)* cat litter and other animal wastes are classified as hazardous waste; what guidance her Department has issued to waste collection authorities on this matter; and if she will make a statement. [186156]

Mr. Morley: For a waste to be classified as "hazardous", it must normally be listed as such in the European Waste Catalogue. Nappies, incontinence pads and cat litter are not listed as hazardous. It is open to Member States to determine that other wastes are hazardous where these display one or more of the hazardous properties specified in the Hazardous Waste Directive at above the thresholds the Directive specifies. Waste such as used disposable nappies and incontinence pads would be considered under property H9 (infectious). However, to be considered hazardous there would need to be a high risk that infectious substances were present in the waste at a concentration above that naturally encountered. Since the source population for household waste is healthy, the risk of infection is very low and nappies and incontinence pads do not therefore meet the criteria necessary for a "hazardous" classification. Where an individual is being treated by a health professional in their own home, it is for the health professional to make a clinical decision on whether or not the nature of the patient's illness would render the patient's hygiene waste infectious.

Small amounts of animal waste arising in households, such as cat litter, can be placed in the bin, if suitably wrapped, and dealt with as municipal household waste.

Defra is working with stakeholders to issue guidance for local authorities on dealing with hazardous household waste which will be issued prior to new hazardous waste regulations coming into force in July 2005.

Mr. Yeo: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate her Department has made of the amount of hazardous waste that will be stock-piled per month in the six month period following 16 July owing to the short-term shortfall of disposal capacity. [183394]

Margaret Beckett *[holding answer 12 July 2004]*: No such estimate has been made. Our aim is to ensure as smooth a transition as possible of the implementation of the Landfill Directive and to avoid the need for storage of hazardous waste over and above that which normally occurs at the site of production or at waste transfer stations.

Alternatives to disposal via landfill, such as high temperature incineration and use as a fuel, remain unchanged. There are also a number of alternatives to disposal such as minimisation, recycling and treatment to render the waste non-hazardous.

Mr. Yeo: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to increase the *(a)* re-use and *(b)* recycling of hazardous waste. [183395]

Margaret Beckett *[holding answer 12 July 2004]*: In the main hazardous waste originates from the business sector and it is generally in their economic interest to reduce, reuse and recycle their hazardous waste.

However, Defra has taken some specific steps to assist business increase
the re-use and recycling of hazardous waste. These include support for:

Envirowise, which supports small to medium sized businesses in the management of their waste, provide free consultations, waste audits, and sector specific guidance.

Waste Implementation Programme (WIP) which is looking at how research and development technologies could assist the recycling and recovery of waste, including hazardous waste.

Waste Resources Action Programme (WRAP) which is developing markets for recycled materials and products across the board.

In addition, implementation of the Landfill Directive and rises in landfill tax will encourage business to look further at their management of hazardous waste.

Mr. Yeo: To ask the Secretary of State for Environment, Food and Rural Affairs what she expects her Department to publish the criteria for the treatment of toxic waste. [183396]

Margaret Beckett *[holding answer 12 July 2004]*: The criteria for stabilised non-reactive granular hazardous waste and for granular hazardous waste and are set out in Part 3, Paragraphs 14 and 17 of Schedule 1 of the Landfill (England and Wales) Regulations 2002 as amended by the Landfill (England and Wales)(Amendment) Regulations 2004. Equivalent criteria for monolithic wastes are being developed and will shortly be issued for consultation.

Incineration

Mr. George Osborne: To ask the Secretary of State for Environment, Food and Rural Affairs what studies the Department has commissioned into the *(a)* health and *(b)* environmental effects of incineration; and how much each study cost. [186152]

Mr. Morley: Defra commissioned the independent 'Review of Environmental and Health Effects of Waste Management: Municipal Solid Waste and Similar Wastes', which was published on 6 May. The review, which was carried out by Enviros consulting, and peer reviewed by The Royal Society brings together the available evidence of the health and environmental effects of the main different kinds of waste management facility, including incineration.

Defra estimates that the final cost of the report will be in the region of £175,000 (excluding VAT).

Landfill

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received on the EU Landfill Directive; and if she will make a statement on progress in its implementation. [184400]

Mr. Morley: In the course of six consultation exercises and the many formal and informal meetings with stakeholders, the Government has received a large number of representations on all aspects of the Landfill Directive. The Landfill (England and Wales) Regulations 2002, as amended by the Landfill (England and Wales) (Amendment) Regulations 2004, implement the technical and regulatory aspects of the Directive in England and Wales.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how many landfill sites have applied for permits under the provisions of the Directive; when they will be in a position to accept and process the waste; and what the length of time is for *(a)* permits to be granted and *(b)* planning permission to be given. [183041]

Mr. Morley: For hazardous waste, the Environment Agency has received 18 applications for permits to operate merchant landfills post July 2004, and a further applications to operate in-house landfills. Of these 30 applications, permits have been issued for seven sites, five applications have been refused, two have planning issues to resolve and the remainder are under consideration. The aim has been to complete the consideration process for as many sites as possible before 16 July. However where that date is not met, sites with a current waste management licence to accept hazardous waste can continue to accept only that waste after 16 July.

In addition to the above, the Environment Agency has received 39 applications to operate separate cells for stable, non-reactive hazardous waste at non-hazardous waste landfills; six permits have been issued, two applications have been refused and the remainder are under consideration.

Further details on all these applications is available on the Environment Agency website (www.environment-agency.gov.uk).

Mr. Page: To ask the Secretary of State for Environment, Food and Rural Affairs when the detail of the change to the Landfill Regulation 2002 regarding the management of landfill sites was published; and how many days this was before implementation. [184627]

Mr. Morley: The Landfill (England and Wales) (Amendment) Regulations 2004 came into force on 15 June 2004. These amend the Landfill (England and Wales) Regulations 2002 in order to implement Council Decision 2003/33/EC on criteria and procedures for accepting waste at landfill. This met the deadline of 16 July 2004 set out by the Council Decision for the requirements to be transposed. A formal consultation on the Amendment Regulations was held from September to December 2003.

The Amendment Regulations were published on 18 June 2004, some 392 days before the Waste Acceptance Criteria come into force on 16 July 2005.

The co-disposal of hazardous wastes with non-hazardous wastes in the same landfill (with some specified exceptions) will be banned from 16 July 2004. This ban is a requirement of the 1999 Landfill Directive. Implementing the Directive was the subject of two formal consultations by Defra, in October 2000 and August 2001. The co-disposal ban was a provision in the Landfill (England and Wales) Regulations 2002. These Regulations came into force and were published on 15 June 2002, some 731 days before the implementation of the ban.

Mr. Bill O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs what the outcome was of the negotiations between her Department, the Environment Agency and the non-ferrous metal industry over the impact that the Landfill Directive and Landfill Regulations 2004 will have on the industry; and if she will make a statement. [185265]

Mr. Morley: The aim of the Landfill Directive is to provide for measures, procedures and guidance to prevent or reduce as far as possible, negative effects on the environment, including on groundwater pollution and global warming, as well as any resulting risk to human health, from landfilling waste. The Government are totally committed to this aim, as well as believing that landfilling waste is a lost opportunity to obtain economic value from discarded materials. While there is no doubt that one consequence of the Landfill Directive is to increase costs, it is true to say that in the past, the cost of landfill has not reflected its adverse environmental impact. In the many meetings with the non-ferrous metal industry, the Government have been encouraging it to reduce as far as possible the waste output from its operations, look at alternative treatments to landfill, see how the industry can still dispose of waste to landfill when there is no alternative disposal option currently available and encourage it to come forward with research proposals to achieve those above aims that may be able to draw on landfill tax funding.

Mr. Bill O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs what consultations took place between members of the non-ferrous metals industry and the Environment Agency concerning the requirements of the Landfill Directive Regulations 2004, with particular reference to waste categorised as H12; and if she will make a statement. [185266]

Mr. Morley: The non-ferrous metals industry is in regular contact with the Environment Agency via its trade association, the Non-Ferrous Alliance (NFA). Both organisations are also members of the Hazardous Waste Forum.

The agency has discussed the requirements of the Landfill Directive implementation at liaison meetings with the NFA, and made presentations on waste classification at the NFA's recent Environment Forum.

The Government's intention is that the agency should regulate the requirements of the Landfill Regulations during the period July 2004-July 2005 via the application of site-specific assessments. The agency is actively undertaking this work in order to provide for an appropriate level of environmental protection, conscious of any potential implications for hazardous waste capacity. This includes ensuring consideration of wastes that display hazard category H12 (substances and preparations which release toxic or very toxic gases in contact with water, air or an acid).

Mr. Bill O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs what her assessment is of the impact on the non-ferrous metal industry of the change in the number of landfill sites to take hazardous waste; what guidance was given to the non-ferrous metal industry before 18 July; when the new requirements were introduced; and if she will make a statement. [185267]

Mr. Morley: The cost of landfill disposal for the non-ferrous metal industry, as for other industries, is likely to rise. This will act as an encouragement to waste producers to examine their processes to see if waste arisings can be reduced and to consider other treatment and disposal options that may be more environmentally and economically sustainable than landfill. Defra and Environment Agency officials have met with representatives of the non-ferrous metal industry on a number of occasions in the past year to help them understand their obligations and to discuss any issues that arise. In addition, the Non-Ferrous Alliance is a member of the Hazardous Waste Forum, a group that consists of waste producers, waste managers, central and local government and regulators and looks at issues surrounding hazardous waste.

Magpies

Mr. David Marshall: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effects of the increasing number of magpies on the small bird population of the UK; and if she will make a statement. [182367]

Mr. Bradshaw: The Magpie is known to take songbirds although the available evidence suggests that this does not have a significant adverse effect on their population levels. Defra issues a general licence allowing year round control of Magpies, and a small number of other species, to conserve wild birds. This licence may be used by authorised persons only and the landowners' permission must be obtained. This licence is among a number of general licences relating to birds that is currently the subject of a consultation exercise.

The decline in farmland birds has come to prominence during the last 10 years, but long term data on bird numbers indicates that many of these declines began over 25 years ago. The precise reason for the declines in different species varies, but in the majority of cases can be attributed to an intensification of farming practices during recent decades. This is demonstrated by the fact that population declines have been more marked in intensively managed arable farmland habitats compared with other habitats. The population status of songbird and farmland bird species are monitored and Defra is aware of declines in certain species.

Marine Nature Reserves

Richard Younger-Ross: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of British waters are *(a)* marine nature reserves and *(b)* closed to fishing. [185111]

Mr. Bradshaw: There are three Marine Nature Reserves (MNRs)—Strangford Lough in Northern Ireland (165 km^2), Lundy in England (13.9 km^2) and Skomer in Wales (13.24 km^2). Data from the Joint Nature Conservation Committee's "Offshore Nature Project" gives the total area of UK territorial waters as 161,200 km^2. The three MNRs together cover 0.12 per cent. of territorial waters.

Of the three MNRs, only one, Lundy, includes an area within it which is closed to fishing covering 3.3 km^2. The remaining MNRs are closed only to certain types of fishing: Skomer MNR is closed to beam trawling, dredging and scallop fishing by any means; Strangford Lough MNR has a temporary ban in place on fishing with mobile gear. In addition there are small areas closed to fishing as a result of oil and gas explorations and defence activities.

There are also a number of areas where restrictions on certain types of fishing are in place to protect both habitats and species. These include: the Darwin Mounds cold water coral reefs where bottom trawling is prohibited in an area covering 1,381 km^2; the Mackerel Box, a large area in the Western Channel and the Cornish peninsular where mainstream mackerel fishing is prohibited; the Sandeel Box, off the north-east coast of the UK where industrial fishing is banned to protect the food source of a range of predators including sea-birds; and, 37 bass nursery areas around the coast of England and Wales. Data on inshore and offshore restricted areas is not collated centrally to enable calculation to be made of the percentage of UK territorial waters encompassed by these areas.

Marine Protection

Richard Younger-Ross: To ask the Secretary of State for Environment, Food and Rural Affairs what the Government's policy is on marine protection following recommendations at the World Parks Congress in Durban last year. [186212]

Mr. Morley: The proposals for marine protection that emerged from the World Parks Congress were taken account of in the decision and work programme on marine and coastal biodiversity that was adopted at the Seventh Conference of the Parties to the Convention on Biological Diversity in February.

The Government are working through the European Union and the OSPAR Convention for the Protection of the Marine Environment of the North East Atlantic to contribute to a global network of marine and coastal protected areas as agreed by the Parties. This is in line with the Government's Marine Stewardship initiative to better protect and manage the marine environment.

Richard Younger-Ross: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of *(a)* the economic benefits and *(b)* the environmental benefits of creating a series of marine parks. [186280]

Mr. Bradshaw: A meaningful assessment of the economic and environmental benefits of a series of marine parks would depend on factors such as the purpose, number and magnitude of marine protected areas and which activities are regulated. Assessments of environmental benefits are undertaken for new sites designated under the Habitats and Birds Directives to assess their value in contributing to the restoration or maintenance of natural habitats and species of Community interest.

The Review of Marine Nature Conservation Working Group gave consideration to the economic and environmental benefits of providing improved protection for important marine features and ecosystems, including an assessment of the relative efficiency with which environmental benefits were likely to be delivered by a range of designated areas, including marine parks. The Working Group's report was submitted to Government on 26 July. The Government will consider the recommendations of the report, including the future role of protected areas within an overall strategy for marine conservation.

Richard Younger-Ross: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received on *(a)* designating the River Exe in Devon a marine park and *(b)* creating a series of marine parks. [186281]

Mr. Bradshaw: The Exe Estuary is classified as a Special Protection Area under the EC Wild Birds Directive. I am not aware of any formal representations made regarding designating the Exe Estuary as a marine park. I have, however, received a number of representations from a variety of organisations on providing improved protection to marine areas and the Government are considering these in the context of developing an overall strategy for marine conservation.

Meat Products (Injected Water)

Clive Efford: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the implications for meat producers of supermarkets injecting water into meat products. [185884]

Alun Michael: Defra has not made such an assessment, but the Food Standards Agency held a stakeholder meeting earlier this year about the control and labelling of added water in meat products.

The meeting concluded that these products should be clearly labelled, so that consumers can make informed choices about the products they buy. The agency is currently drawing up best practice guidelines to encourage clear labelling of these products.

Mercury

Mr. Olner: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the amount of mercury present in ashes after cremation. [181691]

Alun Michael: The question relates specifically to the residue of ashes left after cremation. The report of the monitoring undertaken by AEA Technology for the Federation of British Crematorium Authorities showed that all mercury is released into the atmosphere during cremation. It follows that we do not see mercury in ashes to be an issue.

Ministerial Travel Costs

Mr. Beggs: To ask the Secretary of State for Environment, Food and Rural Affairs what the total cost of air travel between Northern Ireland and Great Britain was for *(a)* Ministers and *(b)* officials in the Department in the last year for which figures are available. [184530]

Margaret Beckett: No DEFRA Minister has visited Northern Ireland during the past year.

Ministerial Visits

Matthew Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list visits made by each Minister in the Department between December 2003 and April 2004, broken down by *(a)* date, *(b)* constituency visited and *(c)* cost. [171569]

Margaret Beckett: Between December 2003 and April 2004 departmental Ministers have undertaken 63 visits in the UK. Information on constituencies visited and details of the cost of each individual visit could be provided only at disproportionate cost.

David Davis: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the travel costs incurred *(a)* by her Department and its predecessors and *(b)* by each Minister within her Department, for each of the last 10 years. [175643]

Margaret Beckett: In respect of overseas travel by Ministers, since 1999 the Government has published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The Government has also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information reaching back to 1995–96. Information for earlier years could be obtained only at disproportionate cost and in some cases will no longer be held. Information for 2003–04 will be published in due course.

The following table shows domestic ministerial and overall departmental expenditure recorded since the Department was formed.

£000

Year end 31 March	Ministerial travel	Departmental travel
2001–02	53	11,249
2002–03	91	7,272
2003–04	64	7,135

The figures for 2001–02 and 2002–03 include travel expenses (£4,579,000 and £469,000 respectively) incurred as a result of foot and mouth disease.

The figures for both departmental and ministerial travel include the use of helicopters, chartered planes, airline tickets and trains and can be broken down further only at disproportionate cost.

David Davis: To ask the Secretary of State for Environment, Food and Rural Affairs how many journeys were made by helicopter by each Minister in her Department and its predecessors in each of the last 10 years; and what the journey length was in each case. [175743]

Margaret Beckett: There is no central record of RAF Helicopter journeys made by DEFRA Ministers in the financial year 2001–02. Since the financial year 2002–03, only one helicopter journey of 45 minutes duration has been made by any DEFRA Minister.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs which of her Ministers will be attending the Country Landowner's Association Game Fair on 23–24 July. [183068]

Margaret Beckett: None.

Nappies

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with *(a)* ministerial colleagues within the Department of Health and *(b)* management within the NHS in respect of the use of (i) disposable and (ii) reusable nappies within hospitals. [186177]

Mr. Morley: The use of disposable nappies in the NHS is well established. We want to ensure that parents who are interested in re-usable nappies are provided with information about that option alongside information on disposables. As such, I attended a meeting with my hon. Friend, the Parliamentary Under Secretary for Public Health (Melanie Johnson), in July last year and the Women's Environmental Network (WEN). I have also written to her with a view to meeting again to discuss the case for a strong lead from hospitals and health trusts on the issue of re-usable nappies.

I have had no discussions with NHS management.

Fisheries

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether she plans to modify the days at sea restrictions in the Western Channel sole fishery to enable fishermen to exploit non-Total Allowable Catch species. [184716]

Mr. Bradshaw: There are no days at sea restrictions in the western Channel.

Official Engagements

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 15 July 2004, *Official Report*, column 1300W, on official engagements, if she will give a daily breakdown of her diary for the period in question, giving dates and times of each meeting. [185977]

Margaret Beckett *[holding answer 22 July 2004]*: I have nothing to add to my answer to the hon. Member of 15 July, *Official Report*, Column 1300W.

Older Cattle

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when she plans to implement the Food Standards Agency recommendation that older cattle may now enter the food chain. [184233]

Mr. Bradshaw: The Government are still considering Food Standards Agency (FSA) advice. No decision has been made as yet.

Over-30 Month Scheme

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what proposals she has to amend the over-30 month scheme; and if she will make a statement. [185147]

Mr. Bradshaw: The over-30 month scheme is kept under review. It may be amended in line with any change to the over-30 month (OTM) rule. The Government are still considering advice from the Food Standards Agency on the OTM rule. No decision has been made as yet.

Parliamentary Questions

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs when she will reply to the question tabled by the hon. Member for Maldon and East Chelmsford on 27 May 2004, ref 177397. [183834]

Mr. Bradshaw *[holding answer 13 July 2004]*: I replied to the hon. Member on 15 July 2004, *Official Report*, column 1294W.

Polish/UK Fishing Fleets

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what European community funds have been allocated to *(a)* Poland and *(b)* the UK in the same period for the modernisation, restructuring and decommissioning of the fishing fleet; and when such funds were first made available. [184710]

Mr. Bradshaw: The Polish plan for allocating the Community financial provision under the EU FIFO fisheries structural fund envisages about 16.3 million euros being spent on modernisation of existing vessels, and about 80.1 million euros on decommissioning vessels. This covers the period from Poland's accession to the EU in May 2004 to the end of 2006.

The Fisheries Departments in the UK are currently reviewing what expenditure should be allocated to modernising, restructuring and decommissioning vessels for the equivalent period, and equivalent figures to the Polish plans are not available.

The current programme under the FIFO scheme began in 2000.

Post-consumer Paper Waste

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what strategy is in place to increase the collection of post-consumer paper waste for recycling in the UK over the next five years; what specific targets have been set; and what measures are in place to ensure that these targets are met. [184950]

Mr. Morley: The Government have introduced a number of measures to increase the recycling of paper. For example, the Waste and Resources Action Programme (WRAP) is developing markets for waste paper as one of it's priority materials, and has been allocated £30 million over three years to increase awareness of waste issues, and particularly recycling, amongst householders. The Government have also set statutory weight-based recycling targets, for every local authority. Measures taken to help authorities meet their targets include a Performance Reward Grant (PRG). This will be funded by £45 million in 2005–06, rising to £90 million in subsequent years; and will replace the Waste Minimisation and Recycling Fund that has been contributing to improving local authorities performance over the past three years.

Regulations implementing the Directive on Packaging and Packaging Waste (2004/12/EC) have set targets for recycling paper packaging waste, peaking at 70 per cent. in 2008. Voluntary agreements are in place with the Newspaper Publishers Association and the Direct Marketing Association (DMA). These will increase the recycled content of newsprint to 70 per cent. in 2006 and of DMA literature to 70 per cent. in 2013. Targets set so far have been exceeded. Government are negotiating a similar agreement with the Periodical Publishers Association, to increase the recycling of post consumer magazines. In addition, under the Household Waste Recycling Act 2003, local authorities will have to collect at least two recyclable materials separate from other household waste by 2010.

Purfleet Industrial Estate

Andrew Mackinlay: To ask the Secretary of State for Environment, Food and Rural Affairs when the Environment Agency last inspected the potential for the flooding of the Purfleet Industrial Estate, Essex consequent on the surface water flow from the A13 road; and if she will make a statement. [185802]

Mr. Morley *[holding answer 22 July 2004]*: Surface water flooding through run off from roads is the responsibility of the relevant highways authority.

I understand however that the highways authority consulted the National Rivers Authority (the Environment Agency's predecessor) over proposed surface water discharges from the A13 improvements during the early 1990s. Consultation at that time would

have involved both specific and general technical assessments of existing surface water drainage capacities within the surrounding area. One of the options considered would have been attenuation of increased flow from the A13 improvement works.

Radioactive Waste Management Advisory Committee

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the future of the Radioactive Waste Management Advisory Committee. [186051]

Mr. Morley: I provided a written statement on the future of the Radioactive Waste Management Advisory Committee to this House on 22 March 2004. There is nothing to be added to this.

Ragwort

Mrs. Gillan: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department has issued written advice to *(a)* local authorities and *(b)* the Highways Agency setting out their responsibilities under the Code of Practice on How to Prevent the Spread of Ragwort; and if she will make a statement. [186074]

Alun Michael: I launched the Code of Practice on How to Prevent the Spread of Ragwort at the Royal Show on 4 July. The code provides comprehensive guidance for all those with land management responsibility, including the Highways Agency and local authorities, on how to develop a strategic approach to ragwort control where there is a risk to animal welfare. It sets out clearly the responsibilities of horse and livestock owners, as well as those of land managers. The code provides advice on how to assess the risk posed by ragwort to horses and other grazing animals, the different control methods available, environmental factors, and health and safety issues.

A copy of the code has been sent to the Highways Agency and to all local authorities. I have urged all landowners and land managers to work with horse and animal owners to implement the recommendations of the code which have legal underpinning in enforcement proceedings under the Weeds Act 1959. A representative of the Highways Agency was involved last year when I launched an earlier draft of the code at Hickstead as a voluntary code, prior to completion of the legislation and spoke in support of the code.

Recreational Sea Fishing

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her estimate is of the financial contribution to the economy of recreational sea fishing in Britain broken down by principal categories of expenditure. [184708]

Mr. Bradshaw: A recent report commissioned by Defra on the economic contribution of sea angling estimates a figure of £538 million for England and Wales. This figure relates to total direct and indirect expenditure on the sport. Expenditure varies between shore and boat anglers, but on average about 42 per cent. of the total is spent on purchase and operation or chartering of boats, 26 per cent. on tackle, and 32 per cent. on food, accommodation, transport and other costs.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether catches landed by recreational fishing vessels are subject to the Common Fisheries Policy quota restrictions. [184814]

Mr. Bradshaw: EU Regulations governing the Common Fisheries Policy require account to be taken of all landings, with certain specified exceptions, for the purposes of quota management: there is no exemption for landings made by recreational fishing vessels. However, within the UK, vessels engaged in recreational fishing are not generally subject to quantitative restrictions on landings: they might be prohibited from making further landings if it became necessary to close a fishery to the commercial inshore fleet, or to the UK fleet as a whole, when the UK's quota for that fishery had been taken in full.

Recycling (Greater London)

Tom Cox: To ask the Secretary of State for Environment, Food and Rural Affairs what the amount of *(a)* household and *(b)* industrial waste recycled by boroughs within the Greater London area was in each of the last three years. [185341]

Mr. Morley: Latest results from the Defra Municipal Waste Management Survey show the following amounts of household waste recycled or composted in the Greater London area:

	Tonnes
2000–01	304,000
2001–02	319,000
2002–03	368,000

The latest results available for industrial and commercial waste, reused or recycled are from the Environment Agency, National Waste Production Survey, 1998–99. Greater London results show 2,454,000 tonnes.

Sewers and Drains Review

Liz Blackman: To ask the Secretary of State for Environment, Food and Rural Affairs when she intends to publish her findings on the Review of Existing Sewers and Drains in England and Wales consultation document published in July 2003. [185392]

Mr. Morley: The Department plans to publish a response to the consultation in the early autumn. This will summarise responses, give the Government's views and set out the issues that need to be addressed before a final decision can be made. A decision paper should be published early next year.

Sites of Special Scientific Interest

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the *(a)* number, *(b)* percentage and *(c)* location of sites of special scientific interest that have been subject to inappropriate development since May 1997. [184864]

Mr. Bradshaw: For the purposes of this answer, "inappropriate development" is taken to mean development that is causing the unfavourable condition[1] of a site of special scientific interest (SSSI). To provide this information since 1997 would involve disproportionate cost. Factors adversely affecting sites of special scientific interest (SSSIs) are continually updated according to the latest condition assessment completed by English Nature conservation officers. All SSSIs are assessed on a rolling basis at least once every six years. English Nature carried out the first round of condition assessments on the complete SSSI series in England between 1997–2003.

According to the latest condition assessments[2] for each unit, 1,052 hectares of SSSI land[3], on 55 different SSSIs, were in unfavourable condition due to activities authorised by development or mineral planning permission, excluding peat permissions. This is equivalent to 0.1 per cent. of the total SSSI area in England. The SSSI name, county and unit area adversely affected are detailed in the following table.

County	*SSSI Name*	*Unit area (ha)*
Avon	Severn Estuary	39.18
Bedfordshire	Totternhoe Chalk Quarry	1.21
Buckinghamshire	Stone	0.13
Cambridgeshire	Little Paxton Pits	6.97
Cornwall	Gwithian to Mexico Towans	0.18
Cornwall	River Camel Valley and Tributaries	21.58
Cumbria	Ash Fell Edge	7.96
Cumbria	Duddon Estuary	4.46
Cumbria	River Kent and Tributaries	1.14
Dorset	Canford Heath	4.14
Dorset	Ebblake Bog	9.95
Dorset	Holt and West Moors Heaths	1.24
Dorset	Parley Common	0.99
Dorset	Povington and Grange Heaths	9.44
Dorset	Slop Bog and Uddens Heath	5.79
Dorset	Wareham Meadows	57.11
Durham	Fairy Holes Cave	213.6
East Sussex	Maplehurst Wood	13.81
East Sussex	Rye Harbour	8.2
Essex	Purfleet Chalk Pits	4
Essex	West Wood, Little Sampford	23.79
Hampshire	Avon Valley (Bickton to Christchurch)	155.19
Hampshire	Castle Bottom to Yateley Common and Hawley Commons	77.02
Hampshire	Hurst Castle and Lymington River Estuary	45.24
Hampshire	Moorgreen Meadows	10.37
Hampshire	Pamber Forest and Silchester Common	0.18
Hampshire	Portsdown	2.91
Hampshire	Shortheath Common	6.01
Hereford and Worcester	Puxton Marshes	5.18
Isle of Wight	Briddlesford Copses	0.91
Isle of Wight	Prospect Quarry	4.34
Isle of Wight	Whitecliff Bay and Bembridge Ledges	1.51
Kent	Darenthwood	4.11
Kent	Dungeness	Not available
Kent	Sandwich Bay to Hacklinge Marshes	120.99
Kent	Southborough Pit	1.08
Kent	The Swale	61.19
Leicestershire	Enderby Warren Quarry	1.71
Norfolk	River Wensum	2.84
North Yorkshire	Acaster South Ings	23.05
Northamptonshire	Bozeat Meadow	2.6
Northamptonshire	Cowthick Quarry	1.21
Northamptonshire	Higham Ferrers Gravel Pits	3.76
Northamptonshire	Southfield Farm Marsh	1.06
Northumberland	The Scroggs	1.37
Shropshire	Allscott Settling Ponds	28.16
Shropshire	Fenn's, Whixall, Bettisfield, Wem & Cadney Mosses	2.02
South Yorkshire	Sprotbrough Gorge	12.89
South Yorkshire	Wadsley Fossil Forest	0.21
Staffordshire	Biddulph's Pool and No Man's Bank	43.73
Staffordshire	Chasewater Heaths	1.33
Staffordshire	Doxey and Tillington Marshes	1.39
Suffolk	Cavenham—Icklingham Heaths	11.62
West Yorkshire	Bingley South Bog	4.33
West Yorkshire	Nostell Brickyard Quarry	11.44

[1] Unfavourable condition comprises the condition categories of unfavourable no change, unfavourable declining, part destroyed and destroyed, according to the Joint Nature Conservation Committee Common Standards.

[2] Data extracted on 14 July 2004

[3] SSSIs are divided into units. A factor affecting part of a SSSI unit is attributed to the entire unit area for the condition assessment purposes.

Sugar

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what aspects of the reform of the EU Sugar Regime are designed to encourage farmers to produce biomass and biofuels. [186095]

Mr. Morley: The European Commission's latest Communication on sugar reform, presented to the Agriculture Council on 19 July, aims to move away from the present systems of price and production support towards a sustainable decoupled, market-based approach in line with other recent CAP reforms. It would involve both price and quota cuts in an initial phase, followed by a further review in 2008. This approach, which the Government welcomes as an important step in the right direction, should help to make sugar beet itself more competitive with other sources of biomass and biofuels, as well as promoting diversification among existing growers.

Warm Front

Mr. Chaytor: To ask the Secretary of State for Environment, Food and Rural Affairs what the role of local government is in delivering the Warm Front programme. [185311]

Mr. Morley *[holding answer 21 July 2004]*: Warm Front is managed on behalf of Defra by two Scheme Managers—Eaga Partnership Ltd. and Powergen Warm Front Ltd. Both Scheme Managers work closely with a range of national and local organisations, including local authorities, to help promote the availability of Warm Front and to encourage take up.

Both scheme managers work with local authorities in a range of activities such as local roadshows and events, promotional campaigns, the development of affordable warmth strategies, energy awareness days also involving local MPs and include local authorities in regular updates about the scheme.

In addition to this, both Scheme Managers provide information to local authorities in their area for their returns to the Department under the Home Energy Conservation Act.

Waste Management

Mr. Bill O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance was given to waste producers on the conditions of storage on pollution prevention and control sites of orphan wastes; what requests she received from waste producers for advice; and if she will make a statement. [185264]

Mr. Morley: The Environment Agency is responsible for regulating the storage of wastes, in accordance with environmental legislation, in England and Wales. Normally, some form of authorization, a licence or permit, is required; in some cases an exemption may be appropriate.

Anyone, including producers, who either wishes to alter his/her authorisation or requires a new one, should apply to the agency. Guidance on how to apply is available on the agency's website: www.environment-agency.org.uk.

Whaling

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs whether it is the Government's policy to continue to oppose the re-introduction of whaling other than by certain indigenous peoples. [185809]

Mr. Bradshaw *[holding answer 22 July 2004]:* The UK Government are opposed to all forms of whaling other than limited subsistence whaling by indigenous people to meet a defined and substantiated need. We strongly support the current International Whaling Commission moratorium on commercial whaling.

Wind Farms

Mr. Hurst: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of wind farms on wild birds. [184493]

Mr. Timms: I have been asked to reply.

The Government believes that the generation of electricity from wind farms can make a major contribution to achieving the 2010 targets for renewable energy. It is estimated that, if global warming continues as at present, 25 species of bird in Britain will be extinct by 2050.

The Department for Trade and Industry works closely with the Department for the Environment, Food and Rural Affairs (which, like the DTI, has regulatory functions for offshore wind farm developments), the statutory nature conservation and other organisations as appropriate, to ensure that decisions on whether to grant consent for wind farm developments are considered in the light of the best available information about impacts on the environment and on birds in particular.

One of the outcomes of this close working is that applicants for consents for those offshore wind farm developments proposed under Round 2 of Crown Estate leasing, will be required to provide two years of bird survey data as part of the environmental reports that are submitted with consent applications.

HOME DEPARTMENT

Asylum Seekers

Mr. Rosindell: To ask the Secretary of State for the Home Department how many asylum seekers requested entrance to European Union member states in *(a)* 1997, *(b)* 1999, *(c)* 2001, *(d)* 2003 and *(e)* 2004. [184262]

Mr. Browne: Information on the number of asylum seekers requesting entrance to European Union member states is not available and could be obtained only at disproportionate cost. For example for the UK the majority of applications are made in country and it is therefore not possible to identify such cases as asylum seekers prior to entry.

Including dependants, applications for asylum in the UK fell by 41 per cent. in 2003 compared with a fall of 10 per cent. in applications to the rest of the EU (excluding Italy). When the relative size of domestic populations is taken into account, the UK ranks seventh among EU countries (excluding Italy) in terms of asylum seekers per head of population.

Information on the number of asylum seekers applying for asylum in European Union member states is given in the table. (Data for 2004 are not currently available and hence data for the 10 new EU member states are not included.)

Applications[1] received for asylum in Europe, including dependants, by year of application, 1997 to 2003

European Union Countries	*1997*	*1998*	*1999*	*2000*
Austria	6,700	13,800	20,100	18,300
Belgium[2]	13,300	25,000	40,800	48,700
Denmark	5,100	5,700	6,500	10,100
Finland	1,000	1,300	3,100	3,200
France[2]	24,200	25,500	35,100	44,200
Germany	104,400	98,600	95,100	78,600
Greece[3]	4,400	3,000	1,500	3,000
Ireland	3,900	4,600	7,700	10,900
Italy[4]	1,700	9,500	33,400	18,000
Luxembourg[3]	400	1,700	2,900	600

[8] Source: 2003 World Population Data Sheet, Population Reference Bureau website.

Information on asylum applications in EU member states is published in quarterly web pages and in the annual statistical bulletin 'Asylum Statistics United Kingdom'. Asylum Statistics United Kingdom 2003 will be available from the end of August 2004. Copies of these publications and others relating to general immigration to the UK are available from the Library and from the Home Office Research Development and Statistics Directorate web site at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Wiggin: To ask the Secretary of State for the Home Department what research his Department has commissioned to establish the number of failed asylum applicants who remain in the United Kingdom illegally; and if he will make a statement. [184025]

Mr. Browne: The Government have commissioned research into the methods used in other countries to estimate the size of their illegal populations in order to define methods appropriate for the UK. The work on this is ongoing.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department if he will make a statement on the current time taken to return failed asylum seekers. [184175]

Mr. Browne: I refer my hon. Friend to a reply given to a similar question posed by Gareth Thomas MP on 12 June 2003.

The Immigration Service (IS) is fully committed to removing failed asylum seekers and others who have no entitlement to be in the United Kingdom.

There are no publishable guidelines or data on how quickly removal should take place. The speed with which a failed asylum seeker is removed very much depends on the individual circumstances of each case, whether there are any barriers to removal (including lack of co-operation by the government of their country of origin) and how quickly these can be overcome.

Tom Brake: To ask the Secretary of State for the Home Department what discussions he has had with the Department for International Development and the Foreign and Commonwealth Office regarding the conditions of failed Somali asylum seekers who have been returned to Somalia. [181483]

Mr. Browne: The Department for International Development (DFID) and the Foreign and Commonwealth Office (FCO) were informed of our programme of enforced returns to Somalia and we keep in close contact with these Departments at official and ministerial level on the situation in Somalia. The Home Office's Country Information and Policy Unity (CIPU) produce country information materials that are used as the background against which asylum applications are considered. The FCO are consulted about these country information materials, prior to the publication of the documents in order to ensure that this material is accurate and comprehensive.

Caseworkers also have access at all times to senior caseworkers with specific country knowledge, as well as to CIPU which provides up-to-date and specific information on request, drawing on a range of reliable sources, including the FCO, with which CIPU maintains regular contact. If, on the basis of the available information, a Somali asylum applicant is found not to be in need of protection by the Home Office and by the independent Immigration Appellate Authority, then it is considered safe for that person to be returned to Somalia, and they will be considered for removal. We do not routinely monitor the conditions of failed asylum seekers once they have been returned to their country, having been found to have no protection needs.

It is also worth noting that according to the UNHCR's 2003 Global Refugee Report, 9,543 Somali refugees were assisted to return to North West Somalia (Somaliland) from Ethiopia and Djibouti, while 680 returned to North-west Somalia (Puntland) and four to Mogadishu, bringing the total number of assisted Somali returnees to 10,227 last year.

Lynne Jones: To ask the Secretary of State for the Home Department (1) how many single additional payments were made to asylum seekers, under Regulation 11 of the Asylum Support Regulations 2000, in each financial year since 2000–01; [176073]

(2) what the estimated cost savings are of the proposed abolition of the £50 single additional payment available to National Asylum Support Service supported asylum seekers. [176074]

Mr. Browne: The estimated number of Single Additional Payments made since 2000–01 is set out in the following table:

Financial Year	Number
2000–01	2,000
2001–02	32,000
2002–03	47,000
2003–04	63,000

We estimate that abolition will save the Exchequer approximately £4 million in the next financial year.

Single Additional Payments were introduced when financial assistance was paid by way of vouchers. Now that support is provided entirely in cash, asylum seekers are no longer limited to where they can shop and can get better value for their money. Moreover, as applications are being processed more quickly, with 80 per cent. of initial claims processed within two months, the justification for one-off payments every six months is reduced.

Asylum seekers can still apply for a £300 maternity payment and since March 2003 additional support for pregnant women and children under three has meant that the level of asylum support has increased overall for these more vulnerable groups.

Autopsies

Mr. Sheerman: To ask the Secretary of State for the Home Department how many autopsies have been carried out in *(a)* the UK, *(b)* Huddersfield and *(c)* Kirklees in each of the last 10 years. [166730]

Paul Goggins: Information on the total number of autopsies (post-mortem examinations) in the UK is not collected centrally. The recording of information at the time of registration of death is not considered to be sufficiently reliable to give definite figures or to monitor trends.

Information on post-mortem examinations other than those ordered by a coroner or procurator fiscal is not available for Scotland and Northern Ireland, and is only available for England and Wales since 1997. Figures are given in the first column of the table.

The table also gives (where known), for each year since 1993, the number of post-mortem examinations conducted in those deaths which were investigated by coroners in England and Wales, and in Northern Ireland, and by Procurators Fiscal in Scotland; and in the last column, in the coroner's district of the western part of West Yorkshire metropolitan county (which includes both Huddersfield and Kirklees).

Information on post-mortem examinations carried out in Huddersfield and Kirklees in deaths where the coroner was not involved is not available.

Post-mortems conducted in the UK, 1993–2002

Year	*England and Wales, certified by doctor, with post-mortem*	*England and Wales coroner post-mortems*	*Scotland: post mortems ordered by Procurator Fiscal*[1]	*Northern Ireland coroner post-mortems*	*Post mortems carried out on the order of the West Yorkshire (West) coroner (includes Huddersfield and Kirklees)*
1993	n/a	129,148	n/a	1,428	1,829
1994	n/a	125,176	5,868	1,471	1,815
1995	n/a	126,398	5,905	1,524	1,963
1996	n/a	126,184	5,875	1,479	2,022
1997	3,061	123,015	5,680	1,525	1,995
1998	3,524	124,356	5,757	1,672	2,068
1999	3,496	124,780	5,946	1,517	1,858
2000	4,228	124,536	5,771	1,333	1,775
2001	2,546	121,112	5,685	1,408	1,864
2002	n/a	117,684	5,699	1,436	1,754

n/a—not available

[1] "Fiscal" post-mortems are reported by financial year. In this table the figure has been assigned to the year containing the April-December portion of the financial year.

Sources:

Second column-ONS; third column-Home Office; fourth and fifth columns-Crown office and Courts office in Scotland and Northern Ireland respectively.

Cultural Objects

Mr. Don Foster: To ask the Secretary of State for the Home Department what research his Department has commissioned into the link between the black market in stolen or otherwise tainted cultural objects and organised crime; and if he will make a statement. [185679]

Caroline Flint: We commissioned independent consultants to carry out an Options Appraisal on the potential establishment of a database of stolen or illegally removed cultural items. As part of that work, the consultants spoke to the police and others in the public and private sectors about the link with organised crime and the likely impact of such a database on crime levels. This work produced no evidence that a database of stolen cultural items will reduce crime, nor any data on the extent of organised crime involvement. This confirms the evidence we gave to the Culture, Media and Sport Select Committee on 11 November 2003.

Universities (Charitable Status)

Chris Grayling: To ask the Secretary of State for the Home Department what plans the Government have to change the charitable status of universities. [184964]

Fiona Mactaggart: The Government intend, as set out in the Draft Charities Bill, that the Higher Education Funding Council for England would regulate English universities in regard to Charity Law. The regulation of Welsh universities has not been fully decided although they would also be regulated in regard to Charity Law. This is a change in regulation, not in charitable status, and universities will remain charities.

"Reducing Crime—Changing Lives"

Mr. Llwyd: To ask the Secretary of State for the Home Department if he will publish a summary of responses to "Reducing Crime—Changing Lives". [182308]

Paul Goggins: A summary of the responses to "Reducing Crime—Changing Lives" will be published in due course in accordance with the Cabinet Office code of practice on consultation.

999 Services

Mr. Amess: To ask the Secretary of State for the Home Department which police constabularies have a centralised 999 service; and if he will make a statement. [184508]

Ms Blears: All forces deal with 999 calls from their service provider, either BT or Cable and Wireless, locally. These calls are sent to specific numbers provided by each force to a central point within the force; this can be the Force Control Room for those forces that do not have a centralised call handling function or to a designated Communication Centre in the case offerees that have centralised their call handling functions. The manner in which forces deal with the 999s from that point varies depending on whether the Force Control takes ownership or whether they have a centralised control/communication centres and they take ownership or whether they pass command and control to their Divisions, Basic Command Units or OCUs.

At the present time there are about 32 forces who have a centralised function in one form or another and most other forces are in the planning stages to go down that route. However, information on how each force deals with the calls locally is not collated centrally.

Mr. Amess: To ask the Secretary of State for the Home Department how many 999 control centres there are, broken down by police constabulary; and if he will make a statement. [184509]

Mr. Blunkett: 32 forces have a centralised call handling function for dealing with 999 calls. Most other forces are currently in the process of planning to establish such a function.

Mr. Amess: To ask the Secretary of State for the Home Department how many calls were made to 999 police services in *(a)* Essex and *(b)* Southend-on-Sea in the last year for which figures are available; and if he will make a statement. [184510]

Ms Blears: A file will be sent to the Library. The Home Office does not collect total calls for service at a Basic Command Unit level, only at force level data.

Mr. Amess: To ask the Secretary of State for the Home Department what the average time taken for a call to be answered by the 999 police service was in each year since 1997, broken down by police constabulary; and if he will make a statement. [184511]

Ms Blears: This information is not collected. However, we are able to state what percentage of calls are answered within target time, for example 90 per cent. of all 999 calls were answered within 10 seconds. Forces will set their own target time, so it is not comparable when 90 per cent. of 999 calls are answered within 10 seconds and 80 per cent. are answered within 15 seconds.

Mr. Amess: To ask the Secretary of State for the Home Department what performance targets are in place for the 999 Police Service, relating to customer satisfaction; and if he will make a statement. [184513]

Ms Blears: We are committed to improving the quality of service the police provide to the public when they are in contact with them.

Call handling is a particularly important aspect of this service. A member of the public should be able to expect the same high quality service whenever they are in contact with the police, which is responsive to their needs, irrespective of where they live.

We are working with partners, including the Association of Chief Police Officers, to introduce minimum standards for service to the public, including the answering of telephone calls. We will also ensure that people are clear about the best way to contact the police.

New performance measures for user satisfaction with police services were introduced in April 2004, as part of the Policing Performance Assessment Framework (PPAF). These include measures which report satisfaction of users who have contacted the police by 999 and other means with:

ease of making contact with the police,

the actions taken by the police,

how well they were kept informed of progress and

the way they were treated by police staff and

the overall service provided.

The measures recognise that it is the quality of service provided, and not just speed of the initial answer that is important to users of police services.

Age Cards

Mr. Oaten: To ask the Secretary of State for the Home Department what assessment he has made of the *(a)* availability and *(b)* misuse of fake proof of age cards; and if he will make a statement. [181503]

Mr. Browne: We have been working closely with the British Retail Consortium (BRC) on the Proof of Age Standards Scheme (PASS) which aims to ensure that different proof of age schemes comply with common standards. This is indicated by displaying the PASS holographic logo on the card. Through the BRC and other groups we encourage retailers to accept only PASS compliant cards. A person using a fake proof of age card commits an offence if it is used to deceive.

In the longer term, the introduction of ID cards will also provide retailers with a single, clear and highly reliable means of verifying proof of age.

Alcohol Promotions

Julie Morgan: To ask the Secretary of State for the Home Department if he will ban *(a)* happy hours and *(b)* one-price-for-all-you-can-drink promotions in pubs. [184807]

Ms Blears: We are currently having discussions with the industry around the development of the social responsibility scheme for alcohol retailers. This was one of the recommendations contained in the Alcohol Harm Reduction Strategy for England, published by the Prime Minister's Strategy Unit on 15 March 2004. Alcohol retailers will be encouraged to sign up to the scheme which will include a commitment from pubs and clubs to clamp down on irresponsible promotions.

The scheme will be voluntary, but we will be assessing its effectiveness early in the next parliament. If the impact is not as we would expect, we will look to further measures, including the possibilfty of legislation.

Animal Research

Mr. Djanogly: To ask the Secretary of State for the Home Department how many police officer hours were spent by the Cambridgeshire police force in tackling criminal activity linked to animal rights extremism in each year since 1999. [185073]

Caroline Flint *[holding answer 19 July 2004]:* Information on police hours spent tackling criminal activity linked to animal rights extremism is not collected centrally.

However, Cambridgshire Constabulary tell me that since 1 January 2000 they have spent a total of 35,569 days or 357,548 hours on the response to activities of animal rights protestors.

Anti-terrorism

Tony Lloyd: To ask the Secretary of State for the Home Department what information he has collated about the number of arrests under the anti-terrorism legislation over the last 12 months; how many led to *(a)* charges and *(b)* release; and if he will make a statement. [184737]

Ms Blears: Due to the method by which Terrorism Act arrests are recorded, figures for the requested period are not available. The closest period we can compile is 11 March 2003 to 30 June 2004. For this period, 274 people were arrested under the Terrorism Act 2000. 46 of these were charged under the Act. The remainder were either released without charge, bailed to return, cautioned, charged under other legislation or dealt with under immigration or mental health legislation.

Tony Lloyd: To ask the Secretary of State for the Home Department what the reasons were for the arrests of seven people in Greater Manchester and three others in other parts of England on 19 April under terrorism legislation; and if he will make a statement. [185091]

Ms Blears *[holding answer 21 July 2004]:* This was an intelligence-led operation and the police would have been failing in their duty if they did not act on any available information and investigate its veracity.

The police decided not to press charges and all the suspects were released without charge.

Appeals Processing

Tony Lloyd: To ask the Secretary of State for the Home Department when the appeal in the case of NA, reference D1038877, was received by *(a)* the Home Office and *(b)* the Appeals Processing Centre; and when he expects the Appeals Processing Centre to pass it to the Independent Appellate Authority. [184965]

Mr. Browne *[holding answer 22 July 2004]:* This appeal was received by the Home Office, Immigration and Nationality Directorate Appeals Processing Centre, on 18 May 2004. The appeal has been processed and was forwarded to the Immigration Appellate Authority on 19 July 2004.

Burglaries

Mr. Clifton-Brown: To ask the Secretary of State for the Home Department how many three strike rule burglaries there were in the last year for which figures are available; how many resulted in a prison sentence; and what the average period was prior to remission. [182911]

Paul Goggins: The number of persons sentenced in 2002 under the Powers of Criminal Courts (Sentencing) Act 2000 has been published in Criminal Statistics England and Wales 2002, Table 4G. The corresponding average sentence imposed by the courts is three years.

CCTV (Tamworth)

Mr. Jenkins: To ask the Secretary of State for the Home Department how much public money has been spent on CCTV cameras in Tamworth constituency since 1995–96. [185833]

Ms Blears: Since 1996 the Home Office has provided Tamworth borough council with £382,000 for close circuit television schemes.

Allocation of that funding locally is a matter for Tamworth borough council and the Staffordshire police.

Community Sentences

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment has been made of the success rate of community sentences. [182284]

Mr. Browne: Data on breach rules are published in Criminal Statistics England and Wales 2002.

Community Support Officers

Mr. Martyn Jones: To ask the Secretary of State for the Home Department how many *(a)* community support officers and *(b)* community wardens there are in each police authority area in Wales; and what the projected change in numbers is over the next four years [186098]

Mr. Browne: At the end of June this year the number of Community Support Officers (CSOs) on patrol in each police authority area in Wales and new ones successfully bid for in the recent third round of funding was as follows:

Force	*CSOs already on patrol*	*Additional CSOs for 2004–05*
Dyfed-Powys	4	6
Gwent	48	10
North Wales	8	25
South Wales	50	5

The new Neighbourhood Policing Fund will support the recruitment of 20,000 extra Community Support Officers and wardens by 2008.

Community or Neighbourhood wardens are not employed by police authorities but by organisations such as local authorities or housing associations. Information on their numbers is not held centrally.

Parliamentary Questions

Mr. Webb: To ask the Secretary of State for the Home Department when he will answer question number 163249 regarding computer misuse in his Department, tabled by the hon. Member for Northavon on 18 March. [183207]

Fiona Mactaggart *[holding answer 12 July 2004]*: I replied to the hon. Member on 22 July 2004, *Official Report*, column 578W.

Contingency Planning

Mr. Tynan: To ask the Secretary of State for the Home Department if he will make a statement on emergency planning arrangements in the UK. [184906]

Ms Blears *[holding answer 20 July 2004]*: My right hon. Friend the Home Secretary makes regular statements to the House on emergency planning arrangements in the UK. The last such statement was made on 25 February 2004, *Official Report*, column 41WS, and these issues were addressed in the Intelligence Security Commission (ISC) debate on 8 July and extensively in a joint evidence session the Home Secretary gave to a special joint meeting of the Home Affairs and Defence Select Committees.

In addition, the 2004 Spending Review (Cm6237) set out details of the significant new investment that the Government have made in this field.

Correctional Services Review

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department for what reasons Patrick Carter was selected to carry out the correctional services review. [182291]

Paul Goggins: Patrick Carter, a non-executive member of the Prison Service Board and the Home Office Board, was selected to carry out the correctional services review on the strength of his previous experience within the correctional services.

Correspondence

Kate Hoey: To ask the Secretary of State for the Home Department when his officials at the Immigration and Nationality Directorate will answer letters dated 12 March and 20 April from the hon. Member for Vauxhall about a constituent, reference number: A571357. [184699]

Mr. Browne: A response to the letter of 12 March 2004 was sent to my hon. Friend on 9 July 2004. The Immigration and Nationality Directorate do not have a record of receiving my hon. Friend's letter of 20 April 2004 but they are contacting her office to clarify the matter.

David Winnick: To ask the Secretary of State for the Home Department when a reply will be sent to the hon. Member for Walsall, North's letter of 8 June concerning a constituent, ref 5835523. [185290]

Mr. Browne: I wrote to my hon. Friend on 24 August.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he intends to reply to the letter to him dated 2 June 2004 from the right hon. Member for Manchester, Gorton with regard to Ms K Akhtar. [185347]

Mr. Blunkett: I wrote to my right hon. Friend on 27 July 2004.

Country Status

Mr. Wiggin: To ask the Secretary of State for the Home Department how many countries had their status changed from unsafe to receive failed asylum seekers in the last 12 months. [185208]

Mr. Browne: Countries of origin of asylum seekers are not designated as safe or unsafe to receive failed asylum seekers. All asylum and human rights claims are considered on their individual merits in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Individual asylum seekers found by both the Home Office and the independent Appellate Authority not to be at risk of persecution and not in need of humanitarian protection are considered for removal on a case by case basis.

Separately, section 94 of the Nationality, Immigration and Asylum Act 2002 provides for the designation of countries which are considered to be generally safe and from which many asylum claims are likely to be clearly unfounded.

Crime (Public Expenditure)

Chris Ruane: To ask the Secretary of State for the Home Department how much was spent in real terms on tackling crime in each of the last 25 years, broken down by police authority area. [186159]

Ms Blears: This information is not available. General government grants (Principal Home Office police grant and Office of the Deputy Prime Minister Revenue Support grant) are normally distributed to police authorities using the police funding formula that takes account of the whole range of policing activity, including tackling crime.

Force net expenditure on policing in England and Wales has increased from £1,468 million in 1979–80 to an estimated £9,157 million in 2003–04, an increase of 100 per cent. in real terms.

Crime Reduction Policy

Mr. Oaten: To ask the Secretary of State for the Home Department if he will make a statement on the progress made towards local crime reduction targets in each area participating in the Small Retailers in Deprived Areas scheme. [160202]

Ms Blears *[pursuant to her reply, 10 March 2004, Official Report, c.1573W]*: Due to a printing error, the percentage sign was missing from the answer given. A corrected version is as follows.

In June 2001, my right hon. Friend the Home Secretary announced funding of £15 million over three years for a project to improve the security of small retailers in the 10 per cent. most deprived areas throughout England and Wales.

Individual projects are developed by local Crime and Disorder Reduction Partnerships in conjunction with Regional Home Office Directors. Part of this process is to ensure adequate local targets have been set, and systems put in place to measure performance against them.

A detailed evaluation of the scheme is currently under way and will be completed in the autumn. The findings, which will be widely disseminated, will identify effective interventions that have been shown to have a beneficial impact on crime against small retailers. The evaluation will also examine other ways in which the scheme has impacted upon businesses and the surrounding retail environment—such as the fear of crime among business, fear of crime among customers, business viability and partnership working.

Criminal Justice Act 2003

Bob Russell: To ask the Secretary of State for the Home Department if he will amend the Criminal Justice Act 2003 to exempt all police officers from being required to be available for jury service; and if he will make a statement. [181750]

Ms Blears: We have no intention of amending the provisions in the Criminal Justice Act 2003 relating to jury service. Under these provisions a large number of occupations ceased to be exempt from, or to have a right to decline, serving on juries. This will allow juries to be more representative of the communities that they serve.

Criminal Records Bureau

Andrew Mackinlay: To ask the Secretary of State for the Home Department (1) what advice Essex police have given to the Criminal Records Bureau as to their estimated despatch time for returning applications; what factors affect the time scale for the process; and if he will make a statement; [185801]

(2) what the cause of delay to processing Criminal Records Bureau (CRB) application No. 4881924 is; on which date the CRB forwarded this application for checking by the Essex police; and when the constituent of the hon. Member for Thurrock can expect a reply. [185803]

Ms Blears *[holding answer 22 July 2004]:* The Criminal Records Bureau (CRB) received application No. 4881924 on 7 May 2004. Following initial checks, the application was sent to Essex Constabulary in mid-May and it was returned to the bureau on 19 July. The Disclosure was completed and issued to your constituent on this date and I trust that it has now been received. I apologise for any inconvenience caused by its delay.

The Criminal Records Bureau aims to complete 90 per cent. of all Enhanced Disclosures within four weeks and has been regularly meeting these targets since June 2003.

Factors such as the volume of applications, the number and availability of staff, the number and type of police data bases searched and the existence of any relevant intelligence on Disclosure applicants can affect processing time scales at any police force, including Essex Constabulary. The estimated despatch time for returning applications can therefore fluctuate, depending upon variations of these factors.

In recent months, and due to a combination of these factors, checks undertaken by Essex Constabulary have been taking longer to complete and a backlog of cases has built up.

Although this work is the responsibility of the constabulary, the CRB has been working closely with them to manage the backlog of cases and to minimise any disruption and inconvenience to Disclosure applicants.

The CRB has in fact seconded a number of its staff in recent months to Essex and will shortly be sending more staff to help clear the outstanding work. This work is expected to be finished during the next two-three months and the backlog eliminated.

Departmental Annual Report

Norman Lamb: To ask the Secretary of State for the Home Department how much the production of his Department's latest annual report cost; how many copies were printed; how many copies of it were sold at its cover price; to whom copies of the report have been provided free of charge; and how many copies were provided free of charge. [171146]

Fiona Mactaggart: The Home Office Departmental Report 2004 (Cm 6208) is the main vehicle by which the Home Office explains its aims and performance for 2003–04, and how it organised itself to deliver. As such it plays an important part in maintaining accountability to both Parliament and the public. It also provides key external stakeholders with an overview of the Department's activities as a whole.

In order to ensure transparency, the report is structured around our key aims and the key PSA targets and other priorities that underpin these.

The report's publication was handled by the Stationery Office Ltd. (TSO). Under the terms of the contract with TSO that company generally meets the costs of printing and publication and uses its commercial judgement as to the number of copies which it prints and the sale price.

The direct costs of production borne by the Home Office and the printing costs of those copies ordered by the Department came to £65,282 excluding VAT and £72,210 including VAT. This excludes the costs of staff time within the Department, obtaining estimates of which would involve disproportionate cost. 1,150 copies were purchased by the Department for distribution within its headquarters (to directors, board members and on request to other members of the Senior Civil Service) and to senior managers in key delivery partners such as probation areas, police forces, and Government offices. Copies were also made available to Parliament and the press. The report is also available without charge on the Department's website.

Departmental Staff

Mr. Goodman: To ask the Secretary of State for the Home Department how many people have left employment in his Department because of *(a)* anxiety, *(b)* stress, *(c)* depression and *(d)* other mental health reasons in each year since 1997. [175677]

Fiona Mactaggart: The Home Office does not record the reasons for employees leaving employment in the level of detail requested.

However, since 2003 the Home Office has operated a voluntary exit survey which indicates that seven staff have stated stress as their reason for leaving the Department in 2003 and (to date) four staff in 2004.

The Department is legally obliged to providing a safe working environment for employees and has a number of initiatives in place to reduce work related stress, including return to work interviews and managing sick absence by line managers and stress seminar and workshops run by the Home Office Health and Welfare Service.

Domestic Violence

Mr. Djanogly: To ask the Secretary of State for the Home Department what policies are in place to tackle female-on-male domestic violence. [185075]

Mr. Browne: The 2001 British Crime Survey's Inter-Personal Violence Module shows that one in four women and one in six men have suffered domestic violence at some point in their lives, though women form the overwhelming majority of those subject to the heaviest abuse in terms of frequency, range of violence and severity of injury. The Government's definition of domestic violence is clear that domestic violence can occur regardless of gender or sexuality and the important measures in the Domestic Violence, Crime and Victims Bill will protect both male and female victims.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what the procedure is for women to press charges against their male partners in cases of domestic violence. [185813]

Mr. Browne *[holding answer 22 July 2004]:* A decision on whether or not to proceed with a case and press charges is a matter for the CPS, having received a file of evidence from the police. Decisions will be made on the appropriate level of charge once the two tests in the code for Crown Prosecutors have been passed. These are firstly whether there is sufficient evidence to provide a realistic prospect of conviction, and secondly that of the public interest. Victims' views are taken into consideration as part of the public interest test. The two tests must be passed before any criminal case can proceed. The procedure is the same regardless of gender or sexuality.

Drug Rape

Sandra Gidley: To ask the Secretary of State for the Home Department what assessment he has made of the recommendations of the Sturman Report on drug rape published in June 2000; and if he will make a statement. [177572]

Caroline Flint: I refer the hon. Member to the answer I gave on 6 July 2004, *Official Report*, column 202W.

Drug Testing and Treatment

Mr. Drew: To ask the Secretary of State for the Home Department how many drug testing and treatment orders were issued in Gloucestershire in each month since the scheme's inception. [184204]

Caroline Flint: The drug treatment and testing order (DTTO) was piloted in Gloucestershire, Liverpool and Croydon between October 1998 and March 2000. The number of DTTOs made in Gloucestershire in each month during the pilot phase, including April to September 2000 during which the pilots were allowed to continue post-evaluation until the order was rolled-out, was:

Month/year	*DTTO commencements*
1998	
October	0
November	0

Drugs (Prisons and Probation Service)

Mrs. Helen Clark: To ask the Secretary of State for the Home Department if he will define best value in respect of the provision of drug services for prisons and probation services in England and Wales. [184894]

Paul Goggins: The Prison Service assesses the delivery of service against the specifications for each type of intervention. There are a number of ways "best value" can be judged, which include the effectiveness, accessibility, impact on reoffending and cost efficiency of drug services.

In England, the Probation Service does not directly commission drug services in relation to community Drug Treatment and Testing Orders (DTTOs). Drug Action Teams (DATs) in the community contract local treatment providers to deliver the required treatment.

Mrs. Helen Clark: To ask the Secretary of State for the Home Department how many offenders in *(a)* jail and *(b)* the community have been dealt with by the major drug agencies which have contracts with the prisons and probation services in the latest year for which figures are available. [184895]

Paul Goggins: The total number of prisoners for 2003–04 entering each type of drug treatment service where the service was delivered partly or solely by an external drug agency is given in the table.

Prison entrants into drug treatment services provided, at least in part, by external agencies 2003–04

Entrants onto – clinical services[1]	CARATs[2] initial assessments	Drug treatment programmes entrants
4,386	51,080	3,076

[1] This does not include clinical services provided through Primary Care Trusts
[2] Counselling, Assessment, Referral, Advice and Throughcare Service

In England, the Probation Service does not directly commission drug services. Drug Action Teams (DATs) in the community contract local treatment providers to deliver the required treatment. Information on the extent of involvement of major drug agencies is not available centrally.

Dungavel Removal Centre

Annabelle Ewing: To ask the Secretary of State for the Home Department what plans he has to expand Dungavel Removal Centre. [184572]

Mr. Browne: On 16 March 2004 we announced publicly the decision to create a new building on the Dungavel site designed to hold up to 44 single males which will achieve the capacity of 194 places. In February 2004, work on the construction of that new building began and is now nearing completion. We expect this to be operational during August.

There are no plans to increase the capacity of Dungavel beyond 194 places.

Either-way Cases

Bob Spink: To ask the Secretary of State for the Home Department what his estimate is of the proportion of contested cases triable either-way in the magistrates court that resulted in acquittal in *(a)* the Crown courts and *(b)* magistrates courts in each of the last five years. [183591]

Paul Goggins: Information collected centrally by the Home Office does not contain details on defendants' plea at magistrates courts (nor therefore data on the number of contested cases).

The available information contained in the table provides figures for the number of defendants who pleaded "not guilty" to a triable either-way offence (where that offence was the principal offence) at the Crown court, and the number who were acquitted, in England and Wales, for the years 1998 to 2002.

Statistics on court proceedings for 2003 will be published in the autumn.

Number of defendants[1] who pleaded "not guilty"[2] at the Crown court, who were acquitted[3] for triable either-way only offences, England and Wales 1998 to 2002

	Number of defendants who pleaded not guilty	Number of defendants who pleaded not guilty who were acquitted	Proportion of defendants pleading not guilty who were acquitted (Percentage)
1998	21,501	12,578	58
1999	21,324	12,847	60
2000	21,493	13,477	63

Number of defendants[1] who pleaded "not guilty"[2] at the Crown court, who were acquitted[3] for triable either-way only offences, England and Wales 1998 to 2002

	Number of defendants who pleaded not guilty	Number of defendants who pleaded not guilty who were acquitted	Proportion of defendants pleading not guilty who were acquitted (Percentage)
2001	20,863	13,230	63
2002	19,076	11,771	62

1 Table excludes the figures of those defendants who pleaded "not guilty" who were not tried.
2 Not guilty plea to the principal offence.
3 Acquitted—includes, not guilty, no evidence offered, charge withdrawn, judge rules no case to answer.

Electoral Fraud

Mr. Tony Clarke: To ask the Secretary of State for the Home Department how many *(a)* arrests and *(b)* convictions for electoral fraud there have been in each of the last four years. [185272]

Paul Goggins: Arrest data are not collected centrally at the level of detail requested.

The information collected centrally by the Home Office is limited to various fraud related offences under the Representation of the People Act 1983 and is shown in the table. Similar offences, under other fraud and forgery provisions, cannot be separately identified.

Offenders[1] found guilty at all courts of various fraud related offences under the Representation of the People Act 1983, England and Wales 1999 to 2002

Offence description: Tampering with nomination and ballot papers etc., making false declarations as to election expenses, bribery, treating, undue influence and personation offences

	Number
1999	5
2000	1
2001	10
2002	1

[1] These data are on the principal offence basis.

Highly Skilled Migrants Programme

Mr. Crausby: To ask the Secretary of State for the Home Department how many applications have been *(a)* made and *(b)* accepted for the Highly Skilled Migrants Programme, broken down by (i) the top 20 nationalities and (ii) occupation, since the inception of the programme. [172596]

Mr. Browne: I regret that a full breakdown of the information requested is not readily available in the format requested and could be obtained only at disproportionate cost.

However, we are able to provide a breakdown of the number of applications received and approved by the top 10 nationalities up to the 23 June 2004. They are as follows:

	Number
Applications Received	
India	4,798
Pakistan	2,840
Nigeria	1,570
United States of America	1,448
South Africa	1,176
Australia	1,173
China	712
New Zealand	539
Zimbabwe	395
Russian Federation	332
Applications Approved	
India	1,569
United States of America	1,094
South Africa	686
Pakistan	639
Australia	588
Nigeria	377
China	273
New Zealand	266
Canada	198
Russian Federation	179

Fear of Crime

Mr. Ivan Henderson: To ask the Secretary of State for the Home Department what assessment he has made of fear of crime among the people of the Harwich constituency. [184994]

Ms Blears: Tendring's Crime and Disorder Reduction Partnership and Tendring district council (which includes the Harwich constituency) both conduct surveys, which include an assessment of fear of crime. The partnership and council are in the process of completing the next surveys and the results will be available in August/September this year.

Home Detention Curfew Scheme

David Davis: To ask the Secretary of State for the Home Department how many juveniles have been released from prison under the Home Detention Curfew Scheme sinces its inception; and how many offences have been committed by juveniles released under the Home Detention Curfew Scheme since its inception. [184803]

Paul Goggins: One hundred and twenty one juveniles, aged under 18, have been released on Home Detention Curfew since eligibility for the scheme was extended to juveniles under the age of 18 on 14 July 2003. Of those released from custody, 12 have been reported as having been cautioned, convicted or awaiting prosecution for committing 19 offences during the period they were subject to the scheme.

Identity Cards

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent discussions he has had on the introduction of identity cards; and if he will make a statement. [181699]

Mr. Browne *[holding answer 5 July 2004]*: We are involved in a wide range of discussions across Government and with key stakeholders. In addition to the evidence, my right hon. Friend, the Home Secretary and I gave to the Home Affairs Select Committee on

identity cards, he has discussed this matter at meetings he attended on smartcard technology at Sheffield Council and with representatives of the Board of Deputies of British Jews.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment has been made of the impact identity cards will have on the relationship between the citizen and the state. [182233]

Mr. Browne: The identity cards scheme will not change the relationship between the citizen and the state. The scheme is about helping people safeguard identity, protecting citizens from illegal migration and working, organised crime and terrorism, identity theft and unauthorised access to public services. The introduction of identity cards is one of a range of steps the Government are taking to meet these challenges.

Illegal Immigrants

Bob Spink: To ask the Secretary of State for the Home Department what recent estimate he has made of the number of illegal immigrants who have entered the UK concealed in lorries. [182725]

Mr. Browne: There is no official estimate of the number of clandestine entrants to the UK.

Illegal entry action is initiated against those people who are detected having entered or attempting to enter the country clandestinely or by means of deception, either verbal or documentary.

The available figures include those people who were identified as having entered the country clandestinely, they are not separately identifiable as such information would be available only by examination of individual case-files at disproportionate cost.

The Immigration Service has deployed a range of initiatives to deter and detect illegal entry to the UK including moving controls overseas, enhancing juxtaposed controls in Paris, Lille and Calais, deploying New Detection Technology in France and Belgium, the Airline Liaison Officer Network, visa regimes and close co-operation with carriers, port authorities and our ED colleagues. These measures successfully prevented over 9,000 people reaching the UK from France during 2003.

Immigration

Kate Hoey: To ask the Secretary of State for the Home Department when his officials at the Immigration and Nationality Directorate will resolve the immigration status of constituents of the hon. Member for Vauxhall, reference numbers *(a)* O164833 and *(b)* O150701. [185696]

Mr. Browne: The information is as follows:

O164833 has raised human rights issues and these will be considered by an Immigration and Nationality Directorate caseworker as a matter of priority.

O150701 was forwarded to the Immigration Appellate Authority on 9 July. A preliminary hearing has been scheduled for August and a substantive appeal hearing will take place on 9 September.

Immigration Detention (Electronic Monitoring)

Annabelle Ewing: To ask the Secretary of State for the Home Department under what conditions individuals seeking asylum will be required to wear an electronic tagging device; and what sanctions will be imposed for failure to comply with such a condition. [183919]

Mr. Browne: Section 36 of the Asylum and Immigration (Treatment of Claimants etc) Act 2004 will allow for electronic monitoring of those aged 18 years and over who are liable to detention under immigration legislation and will be used as an alternative to detention.

Individuals who are liable to detention may be required to wear an electronic tagging device if a Chief Immigration Officer, adjudicator or judge of the Special Immigration Appeals Commission considers, following an individual risk assessment, that the risk of absconding can be managed through the additional safeguard of electronic monitoring by tagging.

Tagging involves wearing a bracelet similar to a wristwatch, which emits a signal to a receiver at the subject's home address to confirm that they are complying with a residence restriction.

The consent of the individual will be required in order for an electronic monitoring provision to be applied. This is intended to ensure that the subject complies with the necessary practical arrangements for monitoring specified by the person imposing the requirement.

Failure to comply with an electronic monitoring condition (for example through tampering with the equipment or failing to be at the specified address during the specified period) will be treated as a failure to comply with a residence or reporting requirement attached as a condition of immigration bail, temporary release or temporary admission. Sanctions available include detention and/or prosecution under immigration legislation with a penalty of up to £5,000 or six months imprisonment.

John Thurso: To ask the Secretary of State for the Home Department what his policy is on trials for electronic tagging of asylum seekers in Scotland. [185732]

Mr. Browne: Section 36 of the Asylum and Immigration (Treatment of Claimants etc.) Act 2004 will allow for the electronic monitoring of those aged 18 years and over who are liable to detention under immigration legislation and will be used as an alternative to detention.

Electronic monitoring may be applied where it is felt that the risk of absconding can be managed with this additional safeguard, and an individual risk assessment will be conducted in each case.

A pilot is planned for the autumn in England, Wales and Scotland. The pilot will encompass a total of 200 people for voice recognition and up to 50 people for tagging (including up to 10 on satellite tracking). Numbers will be divided between the three contractors operating under the existing Home Office contract for England and Wales, and an interim contractor in Scotland. Satellite tracking is currently only available in a limited number of locations in England and will therefore not be applied in Scotland or Wales at present.

Alistair Burt: To ask the Secretary of State for the Home Department what assessment he has made of the likely impact on asylum detention centres of the electronic tagging of those seeking asylum in the UK; and if he will make a statement. [186139]

Mr. Browne: Electronic monitoring will be applied where it is felt that the risk of absconding can be managed with this additional safeguard. An individual risk assessment will be conducted in each case and I am not therefore able to estimate at this stage how many of the individuals held in immigration detention centres will apply to be released with such a condition, nor how many would be considered suitable. A pilot planned for the autumn should help inform the position.

Alistair Burt: To ask the Secretary of State for the Home Department what plans he has to pilot a programme of tagging by electronic means those seeking asylum in the UK; and if he will make a statement. [186140]

Mr. Browne: Clause 36 of the Asylum and Immigration (Treatment of Claimants etc.) Bill will allow for the electronic monitoring of those aged 18 years and over who are liable to detention under Immigration legislation.

Electronic Monitoring may be applied where it is felt that the risk of absconding can be managed with this additional safeguard, and an individual risk assessment will be conducted in each case. A pilot is planned for the autumn in England, Wales and Scotland. The pilot will encompass a total of 200 people for voice recognition and up to 50 people for tagging (including up to ten on satellite tracking). Numbers will be divided between the three contractors operating under the existing Home Office contract for England and Wales, and an interim contractor in Scotland. Satellite tracking is currently only available in a limited number of locations in England and will therefore not be applied in Scotland or Wales at present.

Alistair Burt: To ask the Secretary of State for the Home Department what his plans are in relation to the numbers of those being detained at the Yarl's Wood Detention Centre over the next *(a)* six, *(b)* 12 and *(c)* 18 months; what assessment he has made of the likely impact on these numbers of his proposals in relation to the electronic tagging of those seeking asylum in the UK; and if he will make a statement. [186148]

Mr. Browne: Our plans are to increase the number of detainee's at the Yarl's Wood Removal Centre from 60 at present to 120 in September 2004 and 407 in January 2005 when building work is completed.

Electronic monitoring will be applied where it is felt that the risk of absconding can be managed with this additional safeguard and an individual risk assessment will be conducted in each case. I am not therefore able to estimate how many of the individuals held at Yarl's Wood Removal Centre will apply to be released with such a condition, nor how many would be considered suitable.

Mr. Patrick Hall: To ask the Secretary of State for the Home Department how many people liable to detention under the Immigration Acts he is planning to include in the electronic monitoring pilot his Department is launching this autumn; how many he estimates will at the time be held at the Yarl's Wood Removal Centre; whether he plans to include *(a)* men, *(b)* women and *(c)* children among those he is planning to include in the pilot; how many he estimates will be subject to (i) tagging, (ii) satellite tracking and (iii) voice recognition; how he is planning to monitor the progress of the pilot; when he expects to evaluate the outcome; and if he will make a statement. [185978]

Mr. Browne *[holding answer 22 July 2004]:* Section 36 of the Asylum and Immigration (Treatment of Claimants etc) Act 2004 will allow for electronic monitoring of those aged 18 years and over who are liable to detention under immigration legislation and will be used as an alternative to detention.

The pilot to test the effectiveness of electronic monitoring in an immigration context will include 200 individuals for voice recognition and up to 50 people for tagging (10 of whom may be subject to satellite tracking).

Electronic monitoring will be applied where it is felt that the risk of absconding can be managed with this additional safeguard and an individual risk assessment will be conducted in each case. Therefore, it is not possible to estimate how many of the individuals held at Yarl's Wood detention centre will apply to be released with such a condition, nor how many would be considered suitable.

Electronic monitoring may be applied only to men and women of 18 years of age and over. Therefore no children will be included in the pilot.

Evaluation of the pilot will commence after a three-month period.

Immigration Detention Facilities

Alistair Burt: To ask the Secretary of State for the Home Department what the expected date is of *(a)* decommissioning and *(b)* closure of the immigration detention facility at Oakington, Cambridgeshire. [185623]

Mr. Browne: South Cambridgeshire district council is considering a planning notification to extend the use of Oakington until the end of 2006, when it is expected that the site will close. Decisions on decommissioning have yet to be finalised.

Alistair Burt: To ask the Secretary of State for the Home Department how many detention places he expects to be available for immigration control purposes over the next three years; where they will be; and if he will make a statement. [185625]

Mr. Browne: We expect to have around 2,800 places available for immigration control purposes by January 2005. From January 2007 this number will fall to around 2,500 places which will be located at Campsfield House (292 spaces), Colnbrook (326 spaces) Dover (316 spaces), Dungavel (194 spaces), Harmondsworth (551 spaces), Haslar (160 spaces), Lindholme (112 spaces), Tinsley House (150 spaces), Yarl's Wood (407 spaces).

Alistair Burt: To ask the Secretary of State for the Home Department what his long-term plans are for the Yarl's Wood Detention Centre; and whether these include housing those detained prior to deportation. [186149]

Mr. Browne: There are currently no plans to develop the site at Yarl's Wood further. Some of those held there may be awaiting deportation.

Insurance Cover

Mr. Andrew Turner: To ask the Secretary of State for the Home Department what progress has been made towards the implementation of an action plan based on the report of the Insurance Cover Working Group entitled "Research into Insurance Cover for the VCS in England"; and when it will be completed. [181008]

Fiona Mactaggart *[holding answer 29 June 2004]:* On Friday 16 July 2004 the Home Office published a paper responding to the suggestions made by independent consultants in their report "Research into Insurance Cover for the VCS in England", which was commissioned by the Home Office Insurance Cover Working Group (ICWG).

The paper outlines the practical action that is and has been taken across Government to address the challenges facing voluntary and community organisations in obtaining insurance cover for their activities.

Five action points have been agreed between the insurance industry, the voluntary and community sector (VCS) and Government:

1. The Home Office Minister responsible for communities will champion the cause of insurance for the voluntary and community sector.

2. Government work on employers' liability insurance, legal costs and full cost recovery, will be taken forward by The Department for Work and Pensions, the Department for Constitutional Affairs and the Home Office Active Communities Directorate, ensuring that the interests of the voluntary and community sector are taken into account.

3. Sources of practical advice and expertise on the required needs of the insurance industry will be brought together by providing access to relevant information on the Home Office, Association of British Insurers, and various voluntary and community sector organisation's websites, in order to increase the capacity of the sector to deal with insurance issues.

4. Better practical arrangements for working with local government will be investigated by the Home Office, working with the Office of the Deputy Prime Minister and the Local Government Association.

5. There will be an on-going dialogue between the voluntary and community sector, the insurance industry and government, facilitated by the Home Office through the Insurance Cover Working Group (ICWG) meeting to discuss progress and on-going issues, as appropriate.

Implementation of the plan has already started and will continue over the coming months as parcels of work are completed. The ICWG will be an "honest broker" between the VCS, the insurance industry and other key players, highlighting and discussing specific issues of concern to the VCS. I will champion this insurance issue for the VCS.

The actions we are taking are practical measures to empower the VCS. For example, by encouraging greater understanding of the issues facing the VCS within the insurance industry, by facilitating greater dialogue, encouraging the principle of "full cost recovery" across Government and providing better and more accessible information regarding such things as risk management/ bulk purchasing schemes/and basic details to do with the provision of insurance cover, all adding up to practical help for the VCS. However, these are just the first steps in an area where there can be no overnight changes. Therefore, the Government and their partners are committed to making a difference over the long term.

In tandem with this longer term commitment, I have now set in motion a process for the delivery of a policy framework designed to address the increasing insurance burden and other concerns in the voluntary and community sector, particularly those parts of the sector that undertake activities with a greater element of risk. From this process we expect guidance to emerge on risk and its management as well as the development of a document similar to "Making the Market Work", an initiative the Association of British Insurers (ABI) developed for the assessment of Trade Associations Health and Safety schemes.

This work will undoubtedly draw on the Working Group's report and benefit from the group's input. Copies of the paper "Programme of Action", can be viewed and downloaded from the Home Office website: http://www.homeoffice.gov.uk/comrace/active/developing/icwg.html.

Means-tested Benefits

Mr. Viggers: To ask the Secretary of State for the Home Department if he will list the means-tested benefits available through the Department and the agencies for which it is responsible *(a)* in May 1997 and *(b)* now. [182572]

Mr. Browne: The Home Office was not responsible for any means tested benefits in 1997.

Since 3 April 2000 the Home Office has been responsible for administering the support available to destitute asylum seekers under part VI of the Immigration and Asylum Act 1999.

Money Laundering Offences

Mr. Cousins: To ask the Secretary of State for the Home Department how many deposit-taking institutions reported possible money laundering offences to the National Criminal Intelligence Service in *(a)* 2001, *(b)* 2002 and *(c)* 2003; and what proportion of the total disclosures and reports were made by the top 10 sources of such reports in each year. [185590]

Caroline Flint: The Proceeds of Crime Act 2002 imposes an obligation upon individuals and business in the regulated sector undertaking relevant business such as accepting deposits, to make disclosures to the National Criminal Intelligence Service (NCIS) where they have knowledge, suspicion or reasonable grounds to know or suspect that another person is engaged in money laundering. These disclosures are commonly known as Suspicious Activity Reports (SARs).

The information requested, based on disclosures input on to the NCIS database, is set out in the table.

	2001	2002	2003
Total Suspicious Activity Reports (SARs) from deposit taking banks	19,355	36,694	63,601
Percentage of above SARs from top 10 bank sources	82.29	91.57	90.38
Total SARs from building societies	2,294	3,704	5,210
Percentage of above SARs from top 10 building society sources	74.28	66.79	66.55
Total SARs from deposit takers	21,649	40,398	68,811
Percentage of above SARs from top 10 deposit taking sources	79.56	83.61	83.76

National Offender Management Service

Mrs. Gillan: To ask the Secretary of State for the Home Department who will have statutory responsibility for prisoners' families under the National Offender Management Service arrangements. [176677]

Paul Goggins: The Prison Service will continue to have responsibility for making arrangements for offenders to maintain meaningful links with their families and vice versa. Maintaining family support will be a specific objective build into the induction phase of the offender management process for offenders received into custody. The Reducing Re-offending National Action Plan published on 19 July recognises that the families and children of offenders are a vulnerable group and sets out a specific workstream to take forward work to further develop support arrangements.

Hywel Williams: To ask the Secretary of State for the Home Department what arrangements have been made to ensure that the National Offender Management Service will have an approved Welsh language scheme from its first day of operation. [180945]

Paul Goggins: The National Offender Management Service will build on the existing Welsh language schemes within the Prison and Probation Service in accordance with the requirements of the Welsh Language Act 1993.

John McDonnell: To ask the Secretary of State for the Home Department how the relevant trade unions will register disputes under the National Offender Management Service arrangements. [181583]

Paul Goggins *[holding answer 7 July 2004]:* Trade unions will continue to register disputes with the employing body. In the case of Prison Officers represented by the POA this will be the Prison Service, with existing procedures remaining in place. The unions recognised by the National Probation Service (Napo, UNISON and GMB-Scoop) will continue, as under existing procedures, to register a dispute with an individual Probation Board.

Mrs. Gillan: To ask the Secretary of State for the Home Department when details of governance arrangements for the National Offender Management Service will be published. [181826]

Paul Goggins: On 20 July 2004 I made a statement on the National Offender Management Service which outlines the way I intend to introduce the new single service. The statement includes some additional details of governance arrangements. I will make available further clarification of governance arrangements as the service develops.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment has been made of the impact of the introduction of the National Offender Management Service on the input of the voluntary sector to the criminal justice system. [182319]

Paul Goggins: It is expected that the development of National Offender Management Service (NOMS) will open up new opportunities for the involvement of voluntary organisations as a provider of services. The National Offender Management Service is preparing a strategic review of existing and future relationships with the voluntary and community sector. A draft strategy will be circulated for consultation in the autumn.

Mr. Llwyd: To ask the Secretary of State for the Home Department how many consultees responded to the recent consultation document on the National Offender Management Scheme. [182381]

Paul Goggins: The Home Office has received 177 responses to the consultation paper on the National Offender Management Service's organisational design.

Denzil Davies: To ask the Secretary of State for the Home Department what his estimate is of the efficiency savings that will be achieved by establishing the proposed National Offender Management Service. [184406]

Paul Goggins: The establishment of the National Offender Management Service will lead to efficiency savings through the better targeting of interventions and an increase in the number of completed orders. Substantial savings will also be made by combining HQ functions which in turn will contribute to the 20 per cent. overall reduction in Home Office HQ costs. In addition, over the spending review 2004 period we will continue a target of three per cent. efficiency savings across the services.

Mrs. Helen Clark: To ask the Secretary of State for the Home Department whether the Home Office's equal opportunities policy was followed in respect of the appointment of the national offender manager for the National Offender Management Service. [185263]

Mr. Browne: Yes. The Home Office's equal opportunities policy is applied to all recruitment and appointment processes.

Miss McIntosh: To ask the Secretary of State for the Home Department what structure will be put in place for joint working on public protection between the Probation Service and the police under the new National Offender Management Service structure. [163027]

Paul Goggins: The National Offender Management Service (NOMS) will build upon the range of work probation boards undertaken at a local level. The significant contribution the multi-agency public protection arrangements (MAPPA) have made to public protection will form a key part of the core offender management function within the NOMS. Operationally MAPPA usually function at a local rather than area level and will continue to do so under the arrangements for NOMS. The multi-agency public protection panels, which oversee the management of the

highest risk offenders, will continue to operate at whatever level is most appropriate—usually local, sometimes area but occasionally wider—to manage the risks posed by the individual offenders in question.

Mr. Oaten: To ask the Secretary of State for the Home Department how many staff are employed in the National Offender Management Service Team, broken down by *(a)* grade and *(b)* function. [172411]

Paul Goggins: Currently the Prison Service has around 47,500 members of staff and the National Probation Service has around 19,000 full-time equivalent employees. The correctional services headquarters has around 400 staff.

All of these employees now come under the ambit of the National Offender Management Service (NOMS). However, as the NOMS senior management are currently developing proposals for the shape, size and structure of the new service it is not yet possible to provide details on the grade and function split of NOMS staff.

Neighbourhood Watch

Mr. Hoyle: To ask the Secretary of State for the Home Department what instructions have been given to police forces in England and Wales regarding the National Neighbourhood Watch Association. [186194]

Ms Blears: Officials wrote to all Chief Constables on 25 May 2004 to set out the Home Office's position in relation to the National Neighbourhood Watch Association. This letter encouraged Chief Constables to continue to support Neighbourhood Watch in their force areas. No instructions were given.

Mr. Hoyle: To ask the Secretary of State for the Home Department what his policy is on agreements for commercial sponsorship of the National Neighbourhood Watch Association. [186195]

Ms Blears: The commercial sponsorship agreements of the National Neighbourhood Watch Association are a matter for the association and any sponsors.

The Home Office generally has no interest in the commercial sponsorship deals of voluntary organisations. The only exception would be when the proposed deal involved the use of a public asset, for example the Neighbourhood Watch logo. In such a case the Home Office would act to ensure that the asset was used properly and that it continued to be publicly available.

Mr. Hoyle: To ask the Secretary of State for the Home Department what evidence his Department provided to the Direct Line Insurance Company in 2002 that it *(a)* had designed and *(b)* owned the artwork for the Neighbourhood Watch logo. [186196]

Ms Blears: The Neighbourhood Watch logo was designed by the Central Office of Information in 1985 on behalf of the Home Office, it is therefore Crown Copyright.

The Home Office is unaware of providing evidence that this was the case to the Direct Line insurance company in 2002.

Mr. Hoyle: To ask the Secretary of State for the Home Department if his Department will provide a loan to the National Neighbourhood Watch Association. [186198]

Ms Blears: My right hon. Friend the Home Secretary and I have decided not to give further funding to the National Neighbourhood Watch Association on the basis of a financial audit which was undertaken earlier this year. Under these circumstances it would be inappropriate for us to provide them with a loan.

Nuclear Terrorism

Llew Smith: To ask the Secretary of State for the Home Department what proportion of the time commitment entered into by participating members of the Joint Terrorism Analysis Centre is devoted to nuclear terrorism threats. [184402]

Ms Blears: It is not possible to give a precise figure. The Joint Terrorism Analysis Centre (JTAC) analytical effort devoted specifically to nuclear threats is variable, proportionate to the number and credibility of such threats.

Obscene Publications Acts

Tim Loughton: To ask the Secretary of State for the Home Department what plans he has to amend the Obscene Publications Acts 1959 and 1964. [185434]

Mr. Browne *[holding answer 20 July 2004]:* We are concerned about the availability of obscene material, particularly on the internet. We are currently considering whether the law governing obscene publications should be strengthened. This issue was debated in the Adjournment debate on 18 May, which was obtained by my hon. Friend the Member for Brighton, Pavilion (Mr. Lepper).

Obscene Websites

Mr. Djanogly: To ask the Secretary of State for the Home Department what plans there are for meetings to be held between Ministers, credit card companies and collection agents to discuss ways of limiting access to obscene websites. [184460]

Paul Goggins *[holding answer 19 July 2004]:* The Home Office has been working closely with the Association for Payment Clearing Services, (APACS) who have a clear policy that acquiring banks routinely monitor the transaction activity of their internet merchants and that they will not knowingly do business with sites that sell content inciting, advocating or perpetuating violence against persons, including scenes of sexual assault. APACS have also been developing a range of work with the Internet Watch Foundation to assist in tracking and identifying illegal sites.

Mr. Djanogly: To ask the Secretary of State for the Home Department what plans he has to encourage international co-operation and an international unified policy on obscene publications on the internet. [184461]

Paul Goggins *[holding answer 19 July 2004]:* International co-operation is essential if we are to have any impact on the availability of any particular kind of material on the internet. We have raised this matter in

the United States, and are considering what scope there is for a wider initiative to influence other countries, and for specifically targeting those questions at the G8.

Offender Behaviour Programmes

John McDonnell: To ask the Secretary of State for the Home Department (1) if he will list the accredited offender behaviour programmes available in each prison; [183996]

(2) how many places were available on each accredited offender behaviour programme in each prison in the last year for which figures are available. [183997]

Paul Goggins *[holding answer 19 July 2004]:* A table has been placed in the Library which gives information on the programmes available in each prison in the public and contracted sectors in 2003–04. We are not able to provide information in terms of the number of places, but have provided the number of accredited offending behaviour programmes completed by prisoners and the numbers of accredited drug programme starts in that year.

Mrs. Gillan: To ask the Secretary of State for the Home Department what new offender behaviour programmes are being considered; who is developing them; and when each is expected to become accredited. [184689]

Paul Goggins: Since 2000 the National Probation Directorate and Her Majesty's Prison Service have successfully designed and gained accreditation for 15 probation and 10 prison offender behaviour programmes covering a comprehensive range of offender needs.

Programmes for further work in connection with women's offending, domestic violence, drugs and sex offending will be submitted for accreditation at the Correctional Services Accreditation Panel in line with the schedule in the table.

Offending behaviour programmes currently in development or awaiting accreditation

Programme	*Status*	*Expected accreditation date*	*Lead responsibility for development*
A booster module for the accredited violence programmes	Designed by the Canadian Technica Software Corporation. Implementation of this programme has been delayed due to resource limitations. A review of resources for the financial year 2005–06 will determine whether this is to be rolled out. If so, a submission to CSAP will be made.	2005–06 (see note, left)	NPS
The second Domestic Violence programme (CDVP)	Designed by the Correctional Services Canada and is also accredited for use by HMPS for those offenders in custody. It is currently being piloted in NPS areas.	March 2005	NPSNPS
A community version of the prison adapted sex offender treatment programme	Development of this programme will be subject to resources.	Provisionally October 2005	NPS
A sex offender one to one internet offenders programme	Developed by NPS it has been piloted.	Provisionally October 2005	NPS
Healthy sexual functioning	To complement an existing sex offender programme. Currently being piloted. A community version of HMPS Healthy Sexual Functioning (HSF) will be adapted when resources permit.	October 2004	HMPS/NPS
JETS	Juvenile Enhanced Thinking Skills	October 2004	HMPS
Programme for violent psychopathic offenders	A complex intervention, across a number of modules, which aims to reduce recidivism in high risk, violent offenders who have high levels of psychopathy. The programme emphasises the need for staff training and support, integration of treatment across the wider regime and progression and resettlement. Currently being piloted in the DSPD units at HMP Frankland and Rampton High Security Hospital.	February 2005	HMPS
C.A.R.E a multi-modal intervention for women in custody	Choices, Actions, Relationships and Emotions. In development, to be piloted later in 2004. The programme is being developed by Offending Behaviour Programmes Unit in partnership with the Women's Team. It targets medium to high risk women with multiple needs and who have been convicted for violent or substance-related offences. At this stage it is only likely to be available for women in custody.	2005	HMPS/NPS
FOR	Focus on Resettlement—short pre-release motivational programme	2005	HMPS/NPS
Short duration programme for substance abusers	The programme is being developed by the Prison Service Drug Strategy Unit (DSU)	November 2004	HMPS
Prisons-Addressing Substance Related	The newly formed Women's Team has responsibility to develop intensive drug	P-ASRO (For Women) March 2006	HMPS

Offending behaviour programmes currently in development or awaiting accreditation

Programme	*Status*	*Expected accreditation date*	*Lead responsibility for development*
Offending PASRO Action on Drugs	treatment programmes for women in custody. The team intends to modify and develop two programmes, which are already accredited for men and are currently being piloted in women's prisons—PASRO and "Action on Drugs".		

Parliamentary Questions

Mr. Wood: To ask the Secretary of State for the Home Department when he will reply to the question tabled by the hon. Member for Batley and Spen on 19 April, reference 167051, on police sickness reduction schemes. [184799]

Ms Blears: I replied to my hon. Friend on 20 July 2004, *Official Report*, column 223W.

Passport Checks

Mr. Gummer: To ask the Secretary of State for the Home Department what comparative studies he has conducted as to the time taken for *(a)* EU and *(b)* non-EU passengers to complete immigration formalities in the airports of EU capital cities. [185395]

Mr. Browne: No comparative studies have been undertaken on the time taken for EU and non-EU passengers to complete immigration formalities in the airports of EU capital cities.

Mr. Gummer: To ask the Secretary of State for the Home Department whether he sets service standards that the Immigration Service should seek to process foreign nationals *(a)* more slowly, *(b)* more quickly or *(c)* at the same speed as those arriving at Heathrow from other EU countries. [185396]

Mr. Browne: The UK Immigration Service is committed to clearing bona fide passengers with minimal delay, and has set standards for passenger processing times, which comply with international standards previously adopted. These standards are embedded in the UK Immigration Service's annual business objectives, and are kept under regular review.

The standards are to clear:

90 per cent. of non-EEA passengers in 30 minutes and all such passengers within 45 minutes

EEA passengers with minimal delay.

Passports (Over-75s)

Mr. Brady: To ask the Secretary of State for the Home Department when he will implement his proposal announced on 19 May to make passports available free of charge for people over the age of 75 years. [184433]

Mr. Browne: I refer the hon. Member to the answer I gave to my hon. Friend, the Member for Wrexham (Ian Lucas) on 23 June 2004, *Official Report*, column 1421W.

Police

Bob Russell: To ask the Secretary of State for the Home Department what recent representations he has received about the provisions of the Criminal Justice Act 2003 removing the exemption for police officers from jury service. [181755]

Ms Blears: We have had a number of recent discussions with police representatives in relation to the new jury service provisions which were introduced by the Criminal Justice Act 2003. We will be working with the police to provide appropriate guidance to police officers and civilian police staff who are called upon for jury service.

Mr. Gill: To ask the Secretary of State for the Home Department what percentage change there has been in the number of police officers in each year since 1997 in *(a)* Leicester, *(b)* Leicestershire and *(c)* England. [186261]

Ms Blears: Information on the strength for the Leicestershire Constabulary and for England for each year since 1997 is set out in Table 1. Information on strength at Basic Command Unit (BCU) level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002 and is set out in Table 2.

Leicestershire Constabulary restructured its BCUs in 2002–03 resulting in a reduction from five to four BCUs by 31 March 2003. Table 2 therefore sets out strength for each BCU. Overall BCU strength increased between March 2002 and March 2003 by 1.2 per cent. (from 1,555 to 1,574 officers). BCU numbers for March 2004 will be published later in the year. The deployment of officers to BCUs is a matter for the Chief Constable (Matthew Baggott) and within each BCU deployment of officers is a matter for the Divisional Commander.

Table 1: Police strength—(a) Leicestershire Constabulary 1997 to 2004, (b) England 1997 to 2004

	Police strength[1]	*Percentage change*
(a) Leicestershire police strength: 1997–2004		
31 March 1997	1,949	
31 March 1998	1,983	+1.7
31 March 1999	1,993	+0.5
31 March 2000	1,993	—
31 March 2001	2,033	+2.0
31 March 2002	2,100	+3.3
31 March 2003	2,114	+0.7
31 May 2004	2,264	+7.1
(b) Police strength: England 1997–2004		
31 March 1997	118,459	
31 March 1998	118,139	−0.3
31 March 1999	117,195	−0.8
31 March 2000	115,324	−1.6
31 March 2001	116,440	+1.0
31 March 2002	120,073	+3.1
31 March 2003	124,158	+3.4

Table 1: Police strength—(a) Leicestershire Constabulary 1997 to 2004, (b) England 1997 to 2004

	Police strength[1]	*Percentage change*
31 May 2004	130,272	+4.9

[1] Source for 1997 to March 2003 is the Home Office Research, Development and Statistics Directorate (RDS). May 2004 was collected separately outside of the normal data collection arrangements and has not been subject to the same validation as RDS data. All figures are full-time equivalents.

Table 2: Basic Command Unit strength—Leicestershire Constabulary

Basic Command Unit	*March 2002*	*March 2003*
Central	325.7	415
East	305.5	399
North	279.4	354
South	291.8	—
West	352.5	406

Note:
All figures are full-time equivalents.

Bob Spink: To ask the Secretary of State for the Home Department what guidance he has issued to the police on the definition of conducting a search of premises immediately after a suspect has emerged, in relation to section 32 of the Police and Criminal Evidence Act 1984. [186224]

Ms Blears: None apart from paragraph 4.2 of Code B of the Police and Criminal Evidence Act 1984 (PACE), Codes of Practice. Paragraph 6 of Code B covers general considerations on searches.

Mr. Ivan Henderson: To ask the Secretary of State for the Home Department what changes there have been in police numbers in *(a)* the Harwich constituency, *(b)* Tendring district and *(c)* Essex since 1997. [184995]

Ms Blears: The table sets out police strength in Essex since March 1997. Information on the number of officers within Basic Command Units has only been collected from March 2002. It is not possible to identify the number of officers at constituency level. The deployment of officers to Divisions is a matter for the Chief Constable (David Stevens) and within the D (Tendring) Division deployment of officers is a matter for the Divisional Commander.

	Officer strength	
	Essex police[1]	*D (Tendering) Division*
31 March 1997	2,961	—
31 March 1998	2,928	—
31 March 1999	2,891	—
31 March 2000	2,806	—
31 March 2001	2,887	—
31 March 2002	2,946	178.2
31 March 2003	3,007	169
31 May 2004	3,130	Not available[2]

[1] Source for 1997 to March 2003 is the Home Office Research, Development and Statistics Directorate (RDS). May 2004 was collected separately outside of the normal data collection arrangements and has not been subject to the same validation as RDS data.

[2] Basic Command Unit data for 31 March 2004 will be published later in the year.

Mr. Cameron: To ask the Secretary of State for the Home Department how many special constables there are in *(a)* the Thames Valley Police Force and *(b)* Oxfordshire; and how many there were in (i) 2001 and (ii) 1997. [186002]

Ms Blears *[holding answer 22 July 2004]:* The latest published police service strength figures are contained in Home Office Statistical Bulletin 11/03 and are for the year ending 31 March 2003. Figures for March 2004 will be published later this year.

The number of Special Constables in Thames Valley Police Force for the years requested are as follows:

As at 31 March	*Number*
2003	369
2001	418
1997	656

There are no separate statistics published for the number of Special Constables in Oxfordshire, which area forms part of the Thames Valley Police Force. Deployment of Specials within the Force area is a matter for the Chief Officer.

Mr. Paice: To ask the Secretary of State for the Home Department how many measures are to be reported by the police under the 2004–05 Statutory Performance Indicators for policing; and how many were to be reported under *(a)* the 2003–04 Police Best Value Performance Indicator and *(b)* the Best Value Performance Indicator applicable to police authorities in previous years. [184898]

Ms Blears *[holding answer 19 July 2004]:* Statutory Performance Indicators (SPIs) for 2004–05 were set by Statutory Instrument 2004/644 under the Local Government Act 1999. In previous years the 1999 Act was used to set "Best Value Performance Indicators (BVPIs)".

Individual SPIs and BVPIs are based on one or more "component measures". The number of SPIs for 2004–05, plus the number of BVPIs set in previous years, is listed as follows together with an estimate of the number of component measures:

In 2004–05 there were 13 indicators comprised of 36 measures;

In 2003–04 there were 19 indicators comprised of 44 measures;

In 2002–03 there were 21 indicators comprised of 48 measures;

In 2001–02 there were 32 indicators comprised of 47 measures.

Prisons

Mr. Gerrard: To ask the Secretary of State for the Home Department how many prison officers, in full-time equivalent terms, were employed by the Prison Service on 31 March in each of the last five years; and what the planned number of officers was in each case. [183952]

Paul Goggins: The table shows the number of full-time equivalent officer grade staff employed since 1999 against the best available estimate of planned officer posts. The figures include prison officers, senior officers and principal officers.

As at 31 March	Full-time equivalent officers	Operational staffing requirement	Forecast planned posts
2004	23,952	24,709	—
2003	23,332	—	24,147
2002	22,881	—	23,666
2001	23,672	—	23,901
2000	24,020	—	24,158
1999	23,831	—	23,876

The figures for the planned number of officer posts prior to 2004 are not an accurate reflection of the operational staffing requirement. These figures, based on forecast planned posts, included staff nominally identified for special units within prisons that were used infrequently and were staffed using additional supplementary hours from existing staff; and the staffing requirements for new accommodation that had not yet opened. The Prison Service introduced new arrangements for the collection of workforce data earlier this year to eliminate these anomalies and to reflect more accurately the operational staffing requirement. Before April 2001 the figures were collected as part of a general planning process and were not specifically designed for workforce planning purposes.

A contract supplementary hours scheme has been in operation since April 2001, which allows governors to deploy existing staff on pre-arranged, additional hours contracts, to meet any shortfall in actual staffing availability. In April 2004 this scheme contributed the equivalent of 373 full-time officers. As a result, actual staffing availability at April 2004 (full-time equivalent staff in post plus the use of contracted supplementary hours) was (24,325) compared to the operational staffing requirement of (24,709). This represents a gap of 1.6 per cent, which the Director General considers to be an acceptable operating margin.

Figures on the use of contract supplementary hours are not available prior to April 2004.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the effect of additional investment on delivery in prison and probation services since 1998. [182322]

Mr. Browne: In its Public Service Agreement, published in 2000, the Home Office committed itself to reducing by 2003–04 the proportion of offenders given prison or community sentences who are subsequently reconvicted by 5 per cent. compared to a 1997 baseline. The target was carried forward in the 2002 Public Service Agreement, with a new baseline of 2000. Latest published figures, for 1999, show that 3.2 per cent. fewer offenders were reconvicted than predicted. The Home Office also committed itself to maintaining the (then) current low number of escapes, including Category A escapes. There has been no escape of a Category A prisoner since 1995. The baseline for the total number of escapes in 1997–98 was 0.17 per cent. of the average prison population. The outcome for 2003–04 was 0.067 per cent.

Mrs. Gillan: To ask the Secretary of State for the Home Department pursuant to the answer of 11 March 2004, *Official Report*, column 1673W, on prisons, what moneys will be made available to *(a)* build and *(b)* manage the projected prison establishments. [163273]

Mr. Browne *[holding answer 23 March 2004]:* The Prison Service plans to ensure that its operating assets are fit for purpose. To that end, it seeks potential sites for new establishments, whether to expand capacity or as part of improving the mix of existing capacity. The business cases for acquisition of sites, for options for the construction of buildings and for future management of sites will be made within the constraints of resources that become available through the spending review process.

Mr. Osten: To ask the Secretary of State for the Home Department what minimum nutritional standards have been set for prison food. [183933]

Paul Goggins *[holding answer 13 July 2004]:* The requirements for Prison Service catering—for all types of establishment—are set out in the Prison Service Catering Manual (Prison Service Order 5000). Chapter 3 of the manual sets out the mandatory provisions required to produce nutritional meals. These include ensuring that:

Catering management systems deliver a high standard of menus economically

There is a multi-choice, pre-select menu that includes healthy options and reflects prisoners' preferences

Prisons maintain high standards in the presentation and serving of food to prisoners

There are regular independent inspections of food production and servery arrangements.

All Prison Service establishments have the objective of offering a range of foods that enable prisoners to make healthy eating choices. All establishments must offer at least one lower fat/high fibre/lower sugar or lower salt item on each menu and there must be a clearly marked healthy eating option included on all menus. In particular prisons are required to offer a wide range of interesting fresh fruits, vegetables and salads. As well as being monitored during the cooking process nutrition is also monitored in food specifications via purchasing. Prison Service caterers are required to look objectively at menu selection and continually seek to modify their recipes, cooking methods and service towards more healthy guidelines.

Catering staff are provided with training information and the skills required to produce healthy food—this includes guidelines on how to cook food so as to retain as high a range of vitamins and minerals as possible. The Prison Service runs nutrition training courses at intermediate level for prison caterers—these lead to a formal qualification from the Royal Institute of Public Health. Some establishments involve the local hospital dietician in their menu planning and some have obtained Healthy Eating Awards (Heartbeat) from their local authorities.

Increasingly—and through a partnership between prisons catering, education and PE departments—the Prison Service is encouraging individual prisoners to eat more healthily by:

Reduction of fat intake, especially saturated fats which are thought to raise cholesterol levels in the blood

Promotion of starchy, fibre-rich foods such as wholemeal bread, potatoes, pasta and rice together with fruit and vegetables

The reduction of sugar intake

The avoidance of excessive salt.

Mr. Hancock: To ask the Secretary of State for the Home Department pursuant to the answer of 27 April 2004, *Official Report*, column 938W, on prisons, for what reasons his Department does not propose to extend this further to mirror the two-tier workforce provisions contained in the Local Government Code of Practice on Workforce Matters. [183982]

Mr. Browne: The Home Office complies fully with the policies that currently apply to central Government and agencies, including the Cabinet Office Statement of Practice "Staff Transfers in the Public Sector" and its annex "A Fair Deal for Staff Pensions".

There are no immediate plans to mirror the local government arrangements but as we move forward with our reforms we will work with other Departments to further address the "two-tier" issue.

Mrs. Gillan: To ask the Secretary of State for the Home Department pursuant to his Oral Answer to the hon. Member for Rochford and Southend, East (Sir Teddy Taylor) 12 July 2004, *Official Report*, column 1116, on prisons, what factors have contributed to prison operational capacity increasing by 500 places in recent months; and in which prison establishments these places are located. [185363]

Paul Goggins: The additional places referred to in my reply of 12 July to the hon. Member for Rochford and Southend, East (Sir Teddy Taylor) are the result of additional houseblocks which have opened at Her Majesty's Prison Wymott (180 places); Her Majesty's Young Offender Institution Swinfen Hall (120 places); Her Majesty's Prison Wealstun (180 places); and Her Majesty's Prison Winchester (40 places). In addition, a new prison, Her Majesty's Prison Bronzefield, opened in June 2004 and, as at 12 July, had 150 places available.

At the same time some accommodation has been taken out of use for refurbishment.

Tom Cox: To ask the Secretary of State for the Home Department how many suicides of *(a)* men and *(b)* women there were in each London prison in each of the last five years. [186220]

Mr. Browne: The information requested is provided in the table.

		Number of self-inflicted deaths[1]						
Establishment	*Gender*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*Total*
Belmarsh	Male	1	1	1	0	1	3	7
Brixton	Male	1	4	2	2	2	1	12
Feltham	Male	0	0	1	1	0	0	2
Holloway	Female	1	2	1	1	1	0	6
Latchmere House	Male	0	0	0	0	0	0	0
Pentonville	Male	0	1	1	3	1	0	6
Wandsworth	Male	2	0	7	1	2	3	15
Wormwood Scrubs	Male	0	1	1	1	1	1	5
Total		5	9	14	9	8	8	53

[1] The Prison Service employs the term "self-inflicted death" rather than "suicide". This includes all those deaths where it appears the person may have acted specifically to take his/her own life.

Tackling the number of self-inflicted deaths of prisoners is a key ministerial and Prison Service priority. Central to the suicide prevention strategy that I announced on 31 March is the need to reduce levels of distress in prisons and to promote the well being of all staff and prisoners. The strategy has strong support from partner agencies and external organisations, and is being developed in close partnership with the Department of Health. The developing strategy will link existing programmes and planned investment in five broad areas of work. These are:

Regime, activities and care planning for all prisoners;

Improved knowledge and outlooks of all staff at all levels;

Meeting the special needs of the most vulnerable prisoners;

Training and support for staff;

Design solutions to minimise impulsive acts.

Tom Cox: To ask the Secretary of State for the Home Department how many women prisoners were held in prisons in England and Wales on 1 July *(a)* 2004, *(b)* 2003, *(c)* 2002 and *(d)* 2001. [186225]

Mr. Browne: The number of female prisoners held in prison establishments in England and Wales on 30 June in each of the last four years is provided in the following table.

Population of female prisoners England and Wales, 30 June

	Number
2001	3,713
2002	4,394
2003	4,595
2004	4,452

Mrs. Gillan: To ask the Secretary of State for the Home Department what the salary ranges are for prison custody officers at each privately run prison establishment. [184693]

Paul Goggins: The salary ranges for prison custody officers at each of the privately run prisons in England and Wales are shown in the table (as provided by each of the four contractors):

£

Establishment	Salary range	Comment
HMP and YOI Ashfield	15,008–16,043	Attracts an additional £1,500 local economy allowance
HMP Altcourse	14,758–16,773	—
HMP Bronzefield	14,700–22,400	—
HMP Doncaster	14,500–18,500	—
HMP Dovegate	12,500–17,000	The maximum salary after two years service is £17,000
HMP Forest Bank	14,700–22,400	—
HMP Lowdham Grange	12,000–17,100	Salary after graduation £14,200
HMP Parc	14,608–17,657	—
HMP Rye Hill	14,758–15,893	—
HMP Wolds	15,726–21,576	—

Julie Morgan: To ask the Secretary of State for the Home Department if he will *(a)* carry out an access audit of prisons and *(b)* develop a strategy for disabled prisoners. [184836]

Mr. Browne: The Prison Service is currently undertaking access audits across the prison estate to ensure that establishments are able to comply with the requirements of the Disability Discrimination Act 1995.

The Prison Service treats all prisoners as individuals and prisons are required to address all individual prisoner needs. However, Prison Service Order 2855 adds to this general duty of care and sets out mandatory requirements including that every establishment must ensure that they have a local policy to prevent discrimination on the grounds of disability and that each establishment should nominate an appropriate member of staff (Disability Liaison Officer) to act as a contact on matters concerning disability.

Pubwatch Scheme

Mr. George Osborne: To ask the Secretary of State for the Home Department what support the Government is providing to the national Pubwatch scheme in *(a)* England, *(b)* the North West and *(c)* Cheshire. [183677]

Ms Blears: The Home Office does not provide direct financial support to Pubwatch schemes. But the Government welcomes the contribution that Pubwatch can make in helping to tackle alcohol-related violence and disorder. The Alcohol Harm Reduction Strategy for England published on 15 March 2004 highlighted how solutions involving the industry such as Pubwatch can contribute to targeting the problem of alcohol related violence at source.

Re-offending

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department if he will make a statement on his Department's strategy to reduce crimes committed by re-offenders. [185811]

Paul Goggins *[holding answer 22 July 2004]:* On 19 July, the Home Office published its strategic plan "Confident Communities in a Secure Britain", setting out how it will cut crime in the next five years, including its goal of reducing re-offending through the rehabilitation of offenders.

Some of the key elements include:

The development of a new strategy to target the most prolific offenders in our communities. Local areas have been asked to focus on the individuals who, in their judgement, are the most prolific, most persistently antisocial and who pose the greatest threat to the safety and confidence of their local communities. All local areas will be expected to have a scheme in place to tackle these offenders by 6 September 2004.

More work with the parents of young offenders and greater use of supervised community programmes, including using electronic tagging and tracking.

The parallel publication of a National Action Plan to reduce re-offending through greater strategic direction and collaborative working. Over 60 action points have been agreed across Government within the main areas to support the rehabilitation of offenders. A complementary approach is being developed in Wales.

The Action Plan has been set within our proposals for improving the management of offenders, with the establishment of a National Offender Management Service, providing better targeted interventions and clearer accountability for reducing re-offending.

Finally, because drug use contributes to an enormous proportion of re-offending, directing drug-using offenders into treatment is fundamental to our strategy. The development of through-care and after-care provisions are at the heart of the Criminal Justice Interventions Programme addressing the need and bridging the gap particularly for those drug misusing offenders leaving the criminal justice system and treatment.

Retail Crime

David Davis: To ask the Secretary of State for the Home Department what estimate he has made of *(a)* the proportion of retail crime that was reported to the police and *(b)* the actual level of retail crime in each year since 1997. [185604]

Ms Blears *[holding answer 22 July 2004]:* The Business Crime Team within the Home Office is working with the police, retailers and the Research, Development and Statistics Directorate to enhance the information on business and retail crime. This work is on-going.

Information on retail crime is available from the British Retail Consortium who publish an annual retail crime survey, which is a national and international commentary on retail crime.

Security Officers (Licensing)

Mr. Keith Simpson: To ask the Secretary of State for the Home Department (1) for what reasons under the Private Security Industry Act 2001 a security officer pays a much higher sum for licences than the actual cost of the licensing and criminal record check; [184536]

(2) for what reasons under the Private Security Industry Act 2001 an individual private security officer will be required to pay for separate licences if during the course of his duties he patrols a shopping centre, monitors CCTV or applies a wheel clamp in a car park; [184537]

(3) for what reasons under the Private Security Industry Act 2001 licensing of the manned guarding sector of the security industry commences in January 2005 when compliance is not required until early 2006; [184538]

(4) for what reasons it was decided that in-house manned guarding teams should be exempt from licensing under the Private Security Industry Act 2001. [184539]

Ms Blears *[holding answer 16 July 2004]*: The cost of the Security Industry Authority (SIA) licence, which is valid for three years, reflects the licence application process and includes the current cost of a Criminal Records Bureau Standard Disclosure (28). It also funds the associated activities undertaken to secure the future of the private security industry. These include compliance with and enforcement of the licensing scheme, raising awareness, accommodation, personnel, and research costs. The licence fee is tax deductible.

The private security industry contains a number of sectors each requiring their own skills and competencies. The SIA has worked closely with the industry to both identify and tailor training for these sector specific competencies. The nature of the sectors will mean that some training and competencies require sector specific licences. However, wherever possible, when competencies overlap between sectors, the SIA has exploited opportunities for one licence to be valid across a range of licensable activities.

The manned guarding sector is expected to commence rollout in January 2005. The industry has been supporting the SIA by working in partnership to find a mutually beneficial approach to the transition to licensing and developing the most appropriate process. The 12 months between commencement and legal requirement will allow business to spread their employees' training requirements and applications over a mutually agreeable time frame that meets both the commercial needs of the industry and the implementation of regulation.

The Government's White Paper published in 1999 envisaged that in-house staff employed on manned guarding duties would be covered by licensing arrangements. However, it was subsequently decided that, in light of differences in needs and circumstances between in-house provision and that under external contract, licensing requirements under the Act should not extend to in-house staff. More recently, the SIA has commissioned a detailed examination of in-house security provision, and a report is expected towards the end of the year.

Sexual Offences

Mr. Andrew Turner: To ask the Secretary of State for the Home Department how many offences of unlawful sexual intercourse with a child under 16 years were *(a)* recorded and *(b)* successfully prosecuted in each police area in the last year for which information is available. [182382]

Paul Goggins: In England and Wales during 2002–03 there were 1,514 recorded crimes for the offence of unlawful sexual intercourse with a girl under 16. In 2002, in all courts in England and Wales, there were 228 convictions for this offence. For the offence of unlawful sexual intercourse with a girl under 13, there were 187 recorded crimes in 2002–03 and 47 convictions in 2002. There were no equivalent recorded crimes for a boy of these ages.

These statistics are not published at Police Force Area level.

Stop and Search

Mr. Drew: To ask the Secretary of State for the Home Department how many cases are outstanding from the stop and search orders issued under Section 44 of the Anti-Terrorism, Crime and Security Act 2001 at the time of the use by the US Air Force of RAF Fairford. [183826]

Ms Blears: Stop and search powers under Section 44 of the Terrorism Act 2000 were in force in Gloucestershire Constabulary between 6 March and 27 April 2003. During this period, as a result of a Section 44 stop and search, six people were arrested for suspected drug related offences, one person for a suspected breach of the peace and one person for suspected criminal damage. None of these cases are outstanding. Five of those arrested were released, two were cautioned and one received a conditional discharge.

Mr. Wood: To ask the Secretary of State for the Home Department what assessment he has made of the 2002–03 stop and search figures for West Yorkshire; and if he will make a statement. [184795]

Ms Blears: The Home Office's Stop and Search Action Team has analysed the figures relating to the use of stop and search powers in West Yorkshire during 2002–03. There was a significant rise in the overall number of people who were stopped and searched by the police, but the figures do not suggest that there is evidence that the police had targeted any particular racial or ethnic group. Between 2001–02 and 2002–03 there was not a significant change in the proportion of people from different racial and ethnic backgrounds that were stopped and searched by the police.

Simon Hughes: To ask the Secretary of State for the Home Department if he will review the operation of stop and search powers in England *(a)* generally and *(b)* under counter-terrorism legislation. [183120]

Ms Blears: In July 2004 the Stop and Search Action Team (SSAT) was launched to ensure that police forces use the stop and search power fairly and as effectively as possible.

SSAT's programme of work will include further research looking at the disproportionate impact of these powers on communities; work with selected forces to understand the causes of disproportionality; and the development of a good practice package.

The SSAT will be working with both police and community representatives to deliver their work programme. The use of stop and search powers under terrorism legislation is included within the work programme and this will include work to reassure

Muslim communities that these powers, including counter-terrorism powers, are being used proportionately and appropriately.

Street Crime (London)

Mr. Rosindell: To ask the Secretary of State for the Home Department how much was spent on policing in central London and each of its surrounding boroughs in 2003–04. [184278]

Ms Blears: The Metropolitan Police Service (MPS)'s net budget requirement in 2003–04 was £2,207.8 million. Distribution of resources within the Service is a matter for the Commissioner of Police of the Metropolis and the Metropolitan Police Authority.

Resources are allocated directly to borough operational command units using the Service's resource allocation formula. In addition, borough units are able to call upon all-London Units (such as dog sections, Territorial Support Group, Traffic and Air Support Units) when operational priorities dictate.

The Commissioner informs me that the budget for the Westminster borough operational command unit in 2003–04 was £81.4 million. The cost of policing public order, specialist units, non-operational support units providing service to Westminster, the Royal Palaces, Palace of Westminster and Diplomatic Protection was additional. Total police spending in Westminster could be calculated only at disproportionate cost.

I understand from Chamberlain to the Corporation of London that the net budget for the City of London Police in 2003–04 was £67.2 million.

Mr. Rosindell: To ask the Secretary of State for the Home Department how many street crimes were reported in London in *(a)* 1997, *(b)* 1999, *(c)* 2001, *(d)* 2003 and *(e)* 2004; and how many were prosecuted in each year. [184288]

Ms Blears: Information specifically relating to street crimes is not collected centrally. The statistics that are collected on recorded crime relate to offences of business and personal robbery. Prosecution data does not distinguish between these two types of robbery and is only available for all robbery offences.

Terrorism/Security Legislation

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what assessment he has made of the recent findings on the percentage of people of Asian origin arrested under terrorism and security legislation. [184174]

Ms Blears *[holding answer 19 July 2004]:* Published figures on arrests under terrorism legislation do not include information on ethnic origin. The statistics published recently in the report under section 95 of the Criminal Justice Act 1991 included the ethnic breakdown of those stopped and searched under section 44 of the Terrorism Act 2000.

We are concerned about any issues of disproportionality and are committed to improving and developing a close partnership with all communities towards the shared aim of combating terrorism. We are undertaking specific work to reassure communities that counter-terrorism powers are being used proportionately and appropriately.

The Home Office has formed the Stop and Search Action Team to take work forward to ensure that stop and search as a police power is used fairly and as effectively as possible in the prevention and detection of crime. We have also published guidance for police forces on the authorisation of powers under section 44 of the Terrorism Act 2000, which emphasises the need to consider as wide a range of factors as possible when authorising the use of these powers.

The powers within the Terrorism Act are aimed at terrorists, whatever their background or section of society they may come from. They are not aimed at a particular race, religion, or any other social group. In using them, the police have regard to the threat we face in this country from terrorism. That threat is mainly, but not exclusively, from international terrorism in connection with Al Qaida and its associated networks.

Terrorist Attack

Patrick Mercer: To ask the Secretary of State for the Home Department whether he plans to post advice for citizens on actions to be taken during terrorist attacks on the *(a)* Home Office and *(b)* UK resilience websites. [184600]

Mr. Blunkett: I refer the hon. Member to my statement of 20 March 2003, *Official Report*, column 51WS.

The UK Resilience website already directs the public to the Home Office website and the advice on what measures they can take to protect themselves from terrorism at work, home and when preparing to go abroad http://www.homeoffice.gov.uk/terrorism/protect/index.html.

The hon. Member will also be aware that on Monday 26 July my colleague Caroline Flint MP launched a public information booklet called "Preparing for Emergencies—What You Need To Know" which will be delivered to every household in the UK during August. This booklet can be accessed on the following website: www.preparingforemergencies.gov.uk.

Victim Support

Chris Ruane: To ask the Secretary of State for the Home Department how much was spent by his Department supporting victims of *(a)* crime and *(b)* domestic violence in each of the last 25 years; and what the planned budgets for each are as a result of the Spending Review for each police authority area in England and Wales. [186136]

Ms Blears: The information is as follows:

(a) A large part of the budget of the criminal justice agencies goes to help support victims of crime—it is estimated that around £650 million is invested at national level. However, it is not possible to break down the specific amounts, or to separate different types of crime. The following table shows the expenditure over the last 25 years that can be identified as being directly allocated from the Home Office to support victims of crime.

Allocation to organisations directly supporting victims

Financial year	*Total (£ million)*
1978–79	14.624
1979–80	17.658
1980–81	24.402
1981–82	25.238
1982–83	33.203
1983–84	36.635
1984–85	39.518
1985–86	46.068
1986–87	53.979
1987–88	60.563
1988–89	79.602
1989–90	85.696
1991–92	162.432
1992–93	173.702
1993–94	191.081
1994–95	202.940
1995–96	208.820
1996–97	240.829
1997–98	234.841
1998–99	229.437
1999–2000	247.466
2000–01	267.368
2001–02	326.535
2002–03	268.110

(b) The Home Office also provides funding for numerous initiatives and pilot projects including the Road Traffic pilot projects and support for victims of human trafficking. The Home Office also announced in April 2004 that it would provide additional funding of £4 million over two years, specifically to boost the development of services for victims of sexual offending, including developing and extending the network of Sexual Assault Referral Centres (SARCs).

(c) The Government are committed to tackling domestic violence. The Home Office is spending £14 million on domestic violence in the 2002 Spending Review period (2003–04 to 2005–06). This money is being used to help support victims, bring perpetrators to justice and prevent domestic violence in the first place, all of which will help make victims and their children safer. In earlier spending rounds, domestic violence related projects have included the piloting of a range of interventions through the Violence Against Women Initiative, part of the £10.7 million Crime Reduction Programme.

(d) Spending programmes and support for police authorities from the provisions of the 2004 Spending Review are under consideration.

Visiting Forces Act

Norman Baker: To ask the Secretary of State for the Home Department on how many occasions since 1974 US forces personnel have submitted certificates of immunity under the Visiting Forces Act 1952 to British courts. [178709]

Mr. Browne *[holding answer 14 June 2004]:* Statistics on certificates of immunity are not collected centrally.

Volunteering

Mr. Alan Duncan: To ask the Secretary of State for the Home Department what steps he is taking to encourage voluntary activity among *(a)* senior civil servants and *(b)* members of the Cabinet. [185081]

Fiona Mactaggart *[holding answer 19 July 2004]:* Volunteering within the Home Office is encouraged at all levels including senior civil servants particularly through a new scheme called the "Out of Office Experience," which has been running for the last 12 months. As part of this initiative staff are encouraged to apply for up to five days Special Annual Leave per year, with pay, to undertake voluntary work. The initiative encourages volunteering and enables staff to see Home Office policies being delivered at the front line.

There is no specific initiative in place to encourage volunteering among Cabinet members, but all ministers witness at first hand the dedication of many volunteers and the valuable contribution their activity makes in many areas of life when they undertake official visits to agencies that use volunteers.

Witness and Victim Intimidation

David Davis: To ask the Secretary of State for the Home Department how many incidents of intimidation of *(a)* witnesses and *(b)* victims have been recorded in each year for which figures are available. [184961]

Mr. Blunkett: An exact answer to the question is not available.

The table shows recorded crime figures since 1997 for the offence of perverting the course of justice in England and Wales.

	Number
1997	6,779
1997–98	7,108
1998–99	9,216
1998–99[1]	9,265
1999–2000	9,637
2000–01	9,763
2001–02	10,287
2002–03	11,295

[1] The number of crimes recorded in that financial year using the expanded offence coverage and revised counting rules which came into effect on 1 April 1998.

The following table gives figures on Court Proceedings by offence:

Number of defendants proceeded against at magistrates' courts and found guilty at all courts, England and Wales 2002 [1]

Offence description	*Statute*	*Proceeded against*	*Found guilty*
Intimidating a juror or witness or person assisting in investigation of offenders	Criminal Justice and Public Order Act 1994 Sec. 51(1)	2,046	415
Harming or threatening to harm a juror, witness or person assisting in investigation of offences	Criminal Justice and Public Order Act 1994 Sec. 51 (2)	249	65
Intimidating or intending to intimidate a witness	Criminal Justice and Police Act 2001 Sec. 39	15	3

Number of defendants proceeded against at magistrates' courts and found guilty at all courts, England and Wales 2002 [1]

Offence description	*Statute*	*Proceeded against*	*Found guilty*
Harming or intending to harm a witness	Criminal Justice and Police Act 2001 Sec. 40	3	1

[1] These data are on the principal offence basis.

HEALTH

EU Clinical Trials Directive

Mr. Bellingham: To ask the Secretary of State for Health what assessment he has made of the impact of the EU Clinical Trials Directive in the UK. [185535]

Ms Rosie Winterton: The United Kingdom Clinical Trials Regulations[1] to implement the Clinical Trials Directive[2] came into force on 1 May 2004. It is still early to fully assess the impact of the Directive in the UK. Transitional arrangements allowed holders of existing authorisations or exemptions to roll them over as clinical trial authorisations without applying again to the Medicines and Healthcare products Regulatory Agency (MHRA) or paying a fee. The MHRA has met its deadline of 14 days for Phase I applications and of 30 days for all other applications. Generally the new procedures have been introduced without disruption of clinical trials. Industry and academia have both given early positive feedback on the UK's implementation of the Directive.

[1] The Medicines for Human Use (Clinical Trials) Regulations 2004 S.I. 1031.

[2] Directive 2001/20/EC of the European Parliament and of the Council of 4 April 2001 on the approximation of the laws, regulations and administrative provisions of the member states relating to the implementation of good clinical practice in the conduct of clinical trials on medicinal products for human use.

Meat Products (Added Water)

Clive Efford: To ask the Secretary of State for Health (1) what assessment the Food Standards Agency has made of the effects of producers injecting water into meat products; [185885]

(2) what assessment he has made of the effects of supermarkets injecting water into meat products. [185882]

Miss Melanie Johnson: The Food Standards Agency (FSA) is aware of concerns about trade in products which appear to be raw unprocessed meat but which have been injected with excess added water, in some cases as high as 50 per cent., and moisture retaining ingredients. While there are no food safety concerns the FSA's view is that this practice is unacceptable. It is therefore pressing for stronger legislative controls at European Union level to prohibit use of moisture retaining ingredients, introduce limits on addition of water and improve labelling.

The FSA is aware of concerns about the labelling of some pork products with lower levels of added water which are sold in United Kingdom supermarkets. A stakeholder meeting held earlier this year concluded that label declarations of added water on these products should be sufficiently prominent that consumers can make informed choices about the products they buy. The FSA is currently drawing up best practice guidelines to encourage clearer labelling.

Milk Products

Mr. Paterson: To ask the Secretary of State for Health whether liquid or powdered milk, from EU member states used in the production of milk products produced in another EU member state can be identified by UK authorities on its import to the UK. [184719]

Miss Melanie Johnson: Milk products from other European Union Member States are in free circulation and would not be subject to any special checks when entering the United Kingdom. They must carry a health mark identifying the establishment from which they come and, through that establishment, it would be possible for enforcement authorities to trace the origin of the milk used to make them.

Abortions

Jim Dobbin: To ask the Secretary of State for Health (1) how many abortions have been performed in each year since 1990 at *(a)* 22 weeks gestation and *(b)* 23 weeks gestation; [185596]

(2) what the gestational age was of each of the recorded abortions since 1990 for *(a)* cleft lip and *(b)* cleft palate; [185601]

(3) how many abortions for *(a)* cleft lip and *(b)* cleft palate were performed prior to 1990. [185602]

Miss Melanie Johnson: The available information is contained in the annual Office for National Statistics publication, "Abortion Statistics, series AB"; Office for National Statistics, "Congenital Anomaly Statistics notifications, series MB3" and Department of Health, "Statistical Bulletin 2003/23", copies of which have been placed in the Library.

Adur, Arun and Worthing Primary Care Trust

Tim Loughton: To ask the Secretary of State for Health what percentage of staff in Adur, Arun and Worthing Primary Care Trust are agency staff. [185519]

Ms Rosie Winterton: The information requested is not collected centrally.

The NHS Professionals special health authority has been established to provide strategic management of the temporary labour market within the national health service. This new organisation, which became fully operational on April 1, 2004, will in future collect and analyse information on agency usage in the NHS trusts, in which the service is implemented. However, this will not capture all agency usage within the NHS, as not all organisations utilise NHS Professionals.

Asthma

Chris Ruane: To ask the Secretary of State for Health what the incidence of *(a)* child and *(b)* adult asthma was in each of the last 25 years, broken down by region. [186100]

Dr. Ladyman: This information is not collected centrally.

Breast Screening

Sandra Gidley: To ask the Secretary of State for Health what percentage of breast screening sites provide screening for women aged between 65 and 70 years; and if he will make a statement. [186268]

Miss Melanie Johnson: As at 30 June 2004, 51 per cent. of the 81 local breast screening programmes in England had begun inviting women aged 65 to 70 for breast screening. All local programmes are expected to begin inviting the older women by December 2004 and we are closely monitoring the achievement of this target. Since the age extension began in April 2001, over 250,000 more women have been invited for breast screening. 400,000 more women a year will be invited once the extension is fully implemented.

Care Homes

Sandra Gidley: To ask the Secretary of State for Health what percentage of people had their needs reviewed within three months of placement in a care home in each local authority. [182642]

Dr. Ladyman: We have issued guidance to local councils under the "Fairer Access" to Care Services in May 2002, which stated that there should be an initial review within three months of help first being provided to the individual. The information on the percentage of people whose needs are reviewed within three months of placement in a care home is not held centrally.

Mr. Cameron: To ask the Secretary of State for Health how many beds were available for the elderly in care homes in the Thames Valley in *(a)* 2004, *(b)* 1997 and *(c)* 2001. [186001]

Dr. Ladyman *[holding answer 22 July 2004]:* The table shows the number of places available for adults aged 65 and over in residential and nursing care homes in the Thames Valley, at 31 March for the years 1997 and 2001.

Number of care home places for adults aged 65 and over in the Thames Valley[1], 1997 and 2001, as at 31 March

	Residential	*[2,3]Nursing*
1997	6,300	—
2001	6,500	4,600

[1] For 1997 residential care, the Thames Valley has been taken as Berkshire, Buckinghamshire and Oxfordshire local authorities. For 2001, the Thames Valley has been taken as Bracknell Forest, Milton Keynes, Reading, Slough, West Berkshire, Windsor and Maidenhead and Wokingham local authorities for residential care; and Berkshire, Buckinghamshire and Oxfordshire health authorities for nursing care.

[2] Nursing home figures include places in general nursing homes, mental nursing homes and private hospitals and clinics.

[3] Information is not available by age band at health authority level for 1997.

Note:
Numbers of rounded.

I understand from the chair of the Commission for Social Care Inspection (CSCI) that figures for later years were collected by the National Care Standards Commission, and now CSCI, but comparable details are not available.

Children's Health Services

Tim Loughton: To ask the Secretary of State for Health which hospitals operate children's accident and emergency departments. [185404]

Ms Rosie Winterton: The Department does not collect this information in the form requested.

Mr. Dawson: To ask the Secretary of State for Health what changes in funding for children's health services he intends to make as a consequence of the 2004 Spending Review. [186071]

Dr. Ladyman *[holding answer 22 July 2004]:* In the 2004 spending review, my right hon. Friend, the Chancellor of the Exchequer confirmed sustained high levels of investment in the national health service of 7.1 per cent., in real terms. The large majority of this funding will be allocated directly to primary care trusts and it will be local decision making that determines the level of investment required to achieve national standards and meet local priorities.

Chiropractors

Mr. Cameron: To ask the Secretary of State for Health what representations the Government have received about the availability of chiropractic treatment on the NHS; and if he will make a statement. [185501]

Miss Melanie Johnson: The only representation we have received so far this year on this subject was from the hon. Member for Witney (Mr. Cameron) on behalf of a constituent. I replied on 9 May.

Chlamydia/Ectopic Pregnancies

John Cryer: To ask the Secretary of State for Health if he will list *(a)* the rate for the detection of chlamydia and *(b)* the rate of ectopic pregnancies for each of the hospital trusts in London and the South East in the last year for which figures are available. [182779]

Miss Melanie Johnson: Information on the rate of detection of chlamydia for each hospital trust in London and the South East is not available.

Data on ectopic pregnancies are shown in the table:

Number of hospital episodes with a primary diagnoses of ectopic pregnancy (ICD10 Code 000), 2002-03

Trust name	*Total episodes*
London	
Royal Free Hampstead NHS Trust	36
North Middlesex University Hospital NHS Trust	71

Continuing Care

Sandra Gidley: To ask the Secretary of State for Health how many primary care trusts have successfully implemented the Single Assessment Process as outlined in Standard Two of the National Service Framework for Older People; and if he will make a statement. [185993]

Dr. Ladyman: Localities were required to complete an audit of progress regarding their implementation of the single assessment process for older people up to 1 April 2004. Progress reports should have been forwarded by localities to strategic health authorities (SHAs) by the end of June. SHAs have a further three months to take stock of the reports and approach individual localities over issues of significant concern.

Sandra Gidley: To ask the Secretary of State for Health pursuant to the answer of 8 June 2004, *Official Report*, column 361W, on continuing care, on what date the report of the review of NHS continuing care will be published. [186304]

Dr. Ladyman: I refer the hon. Member to the reply I gave on 8 June 2004, *Official Report*, column 361W and also to the written ministerial statement I made on 22 June 2004, *Official Report*, column 78WS.

Cosmetic Surgery

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 8 July 2004, *Official Report*, column 800W, on cosmetic surgery, if he will accept the Select Committee's recommendation that health warnings be placed on all advertising for cosmetic surgery. [184209]

Dr. Ladyman: The Government's response to all the recommendations in the Health Select Committee's fifth report on the regulation of private and other independent healthcare was published on 3 December 1999. Copies are available in the Library.

The Government did not support the Committee's recommendation that health warnings be placed on all advertising for cosmetic surgery. As the Committee noted, all surgery carries an element of risk—it is not exclusive to cosmetic procedures. It is the professional duty of all surgeons to discuss with each patient the possible risks, to secure informed consent.

Dentistry

Mr. Baron: To ask the Secretary of State for Health how many training places were available in dental schools for trainee dentists in each year since 1991. [184210]

Ms Rosie Winterton *[holding answer 15 July 2004]:* The quota of training places available for dentists in dental schools in England shown in the table has remained unchanged since the last dental workforce review conducted in 1987. Information on the number of dentists admitted to dental schools, which is available from 1997 and is included in the table, shows that intakes have increased. On 16 July, we announced that funding would be provided for an extra 170 undergraduate dental training places in England from October 2005.

Number of training places available in England

Dental school	Number of training places	Number of students admitted each year						
		1997	1998	1999	2000	2001	2002	2003[1]
Birmingham	65	69	71	71	69	73	77	76
Bristol	50	59	55	57	56	55	58	60
King's College, London	145	173	148	138	152	50	168	151
Leeds	55	58	52	62	54	61	65	59
Liverpool	55	59	56	57	53	57	56	66
Manchester	60	59	66	81	89	79	87	90
Newcastle	68	80	78	65	73	70	70	72
QMW (Barts and The London)	55	55	56	60	65	68	61	78
Sheffield	47	56	51	56	61	59	69	72

Number of training places available in England

Dental school	*Number of training places*	*Number of students admitted each year*						
		1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*[1]
Total	600	668	633	647	672	672	711	724

[1] Provisional figures.

Dr. Murrison: To ask the Secretary of State for Health how much his Department spent on the recent returning to NHS dentistry advertisements in national newspapers; how many advertisements have been placed; for what period of time; what other media are being used to urge dentists to return to working in NHS dentistry; what budget this spending will come from; and what indicators he will use to test the effectiveness of this advertising campaign. [184570]

Ms Rosie Winterton: The Department has spent around £120,000 on media for this campaign. Five different case studies of dentists who have returned to national health service work or joined the "Keeping in Touch" scheme have been used in 15 insertions in some national and professional press titles and magazines. Press is the only advertising medium being used, but free information leaflets have been produced for enquirers. Information is also available from the NHS careers service helpline and website.

The campaign started on 30 June and will continue throughout August in some monthly titles. The effectiveness of the campaign will be judged by the numbers of calls to the response line and by applications to join the "Keeping in Touch" scheme.

Mr. Brady: To ask the Secretary of State for Health whether it is his Department's policy to allow newly qualified dentists from other EU countries to practise in the UK where their training has included no clinical experience. [185826]

Ms Rosie Winterton *[holding answer 22 July 2004]*: Dentists, who are nationals of and who qualified in a European Economic Area (EEA) State, are entitled to automatic recognition throughout the EEA on the basis that their qualifications must comply with specified minimum training requirements, which include mandatory practical instruction. Where these requirements are not met, recognition may be subject to proof of a specified minimum period of professional experience.

Mr. Evans: To ask the Secretary of State for Health how many patients have moved from NHS to private dental treatment in the last seven years. [185860]

Ms Rosie Winterton: This information is not held centrally but, in its report, "The private dentistry market in the UK", the Office of Fair Trading estimated that the private dentistry market was valued at over £1 billion in 2001, with 7 million people regularly receiving private dental treatment. We accept that the difficulties people have in accessing national health service dentistry in some areas has contributed to the growth in private dentistry. To address this problem, we are undertaking the most significant reform of NHS dentistry since the inception of the NHS. On 16 July, my right hon. Friend the Secretary of State, announced that an extra £368 million has been allocated to recruiting 1,000 more dentists, funding an extra 170 training places for undergraduates in dental schools and increasing the overall expenditure on primary care NHS dental services by 19 per cent. Commissioning of these services is to be devolved from the Department so that, from October 2005, each primary care trust will have a duty to provide and secure the dental care it considers necessary to meet all reasonable requirements of its population.

Mr. Evans: To ask the Secretary of State for Health what estimate he has made of the average distance a person from the BB7 postcode area would need to travel to see a NHS dentist if he were to register on 19 July with the nearest available dentist. [185869]

Ms Rosie Winterton: The average distance to a general dental service surgery is 1.51 miles for people living in the BB7 postcode area.

Mr. Evans: To ask the Secretary of State for Health how many people are on waiting lists to register with a NHS dentist. [185870]

Ms Rosie Winterton: There are no official waiting lists to register with a National Health Service dentist, although some primary care trusts may keep lists of people who have indicated that they wish to register.

Mr. Evans: To ask the Secretary of State for Health pursuant to his written statement of 16 July 2004, *Official Report*, columns 90–1WS, on NHS dentistry, how many patients will be able to register with the additional NHS dentists. [185872]

Ms Rosie Winterton *[holding answer 22 July 2004]*: We estimate that 1,000 whole-time equivalent dentists, who we plan to recruit to the national health service by October 2005, will be capable of treating two million people who cannot at the moment access a NHS dentist.

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 12 July 2004, *Official Report*, column 934W, on NHS dentistry, what assessment he has made of the impact of shortages of dentists accepting NHS patients on levels of emergency hospital admissions for dental treatment. [186199]

Ms Rosie Winterton: Very few dental emergencies require hospital admission. People requiring urgent dental treatment are advised to telephone NHS Direct. Reports indicate that some 93 per cent. of callers to NHS Direct are being advised of available sources of national health service dentistry within locally agreed standards and about 19,000 people a month are doing so.

Mr. Brady: To ask the Secretary of State for Health if he will list the UK schools of dentistry that have agreed to increase their undergraduate places in *(a)* 2004 and *(b)* 2005, broken down by number of places. [185825]

Ms Rosie Winterton *[holding answer 22 July 2004]*: We are providing an extra 170 extra undergraduate dental training places in England from October 2005,

supported by £80 million capital expenditure over four years and revenue funding reaching £29 million by 2010–11. The chief dental officer will chair a working party to decide where the extra training places will be provided.

Departmental Age Policy

Mr. Andrew Turner: To ask the Secretary of State for Health whether *(a)* his Department and *(b)* agencies for which it is responsible (i) have a set retirement age which applies to all or most personnel and (ii) have a maximum age beyond which applications for employment will not be considered; and what the age is in each case. [186087]

Ms Rosie Winterton: The retirement age for most staff within the Department and its agencies is currently set at 60. However, the requirement to retire at 60 has been amended from November this year to enable staff to remain in employment until they reach 65 years if they wish. Staff in the senior civil service may also apply to stay on beyond 60 if they wish but this is subject to approval by the Permanent Secretary, or Cabinet Office for the most senior staff.

Departmental Consultancy and Accountancy Costs

Mr. Lansley: To ask the Secretary of State for Health what the cost has been to the Department of *(a)* management consultants and *(b)* accountancy advice in the past year. [180321]

Ms Rosie Winterton: Expenditure by the Department for management consultants and accountancy advice for the year 2003–04 is £10.031 million. The central accounting system does not identify separately management consultants and accountancy advice.

Departmental Energy Efficiency

Mr. Lansley: To ask the Secretary of State for Health if he will make a statement on energy efficiency in his Department's buildings. [185866]

Ms Rosie Winterton: This Department fully supports the Government's strategy to reduce carbon emissions and improve the energy efficiency of the Government estate. We have reduced our total annual energy consumption, and are committed to achieving further energy efficiency savings wherever possible. At least 50 per cent. of the Department's energy is now purchased from renewable sources.

Departmental Furnishings

Mr. Lansley: To ask the Secretary of State for Health how much his Department spent in the last year for which figures are available on *(a)* refurbishment and *(b)* office furniture. [185876]

Ms Rosie Winterton: For the financial year 2003–04 the Department spent £2,840,000 on refurbishment and £437,595.07 on the purchase of furniture.

Departmental Light Bulbs

Mr. Lansley: To ask the Secretary of State for Health how much his Department spent on replacing light bulbs in the last year for which figures are available. [185865]

Ms Rosie Winterton: The cost of replacing lamps on the Department's estate during the financial year 2003–04 was £79,083, inclusive of parts and labour.

Departmental Mobiles

Mr. Lansley: To ask the Secretary of State for Health what the *(a)* capital and *(b)* running cost was to the taxpayer of mobile phones in his Department in each year since 2001. [185864]

Ms Rosie Winterton: The capital and running costs to the taxpayer of mobile phones in the Department, in each financial year since 2001, are shown in the table.

£

Financial year	*Capital costs*	*Running costs*
2001–02	Nil	270,000
2002–03	Nil	280,000
2003–04	Nil	304,000

Mr. Lansley: To ask the Secretary of State for Health how many mobile phones owned by his Department have been reported lost or stolen since 2001. [185867]

Ms Rosie Winterton: The Department takes the protection of all its assets, including mobile phones very seriously. All users are made aware of their obligation to safeguard departmental property and security procedures are kept under constant review. Departmental records do not differentiate between lost and stolen mobile phones and all losses are investigated.

The number of mobile phones owned by the Department, reported lost or stolen since 2001 is shown in the table.

Financial year	*Numbers lost/stolen*
2001–02	37
2002–03	34
2002–04	29

Departmental Theft

Mr. Lansley: To ask the Secretary of State for Health what the cost of theft was to *(a)* his Department in each of the last 10 years and *(b)* the executive agencies for which his Department is responsible in each year since 1997. [185874]

Ms Rosie Winterton: The Department has records of losses and thefts from 1997 to date. The table shows the value in replacement terms for each financial year. It is not possible to break these figures down further to show the split between the Department and its agencies.

£

	Value
1997–98	44,648
1998–99	44,204
1999–2000	40,432
2000–01	47,049
2001–02	33,866
2002–03	66,004
2003–04	56,917

Departmental Vehicles

Mr. Kidney: To ask the Secretary of State for Health how many road vehicles are operated by the Department and its agencies; how many personal injury accidents involving road vehicles operated by the Department have occurred within each of the last five years; and what the Department's policy is for managing work-related road safety. [185920]

Ms Rosie Winterton: The Department and its executive agencies operate 82 vehicles.

There have been five personal injury accidents involving Department operated vehicles within the last five years. Records are no longer held centrally for dates of accidents.

The Department has introduced a number of measures to enhance drivers' safety, including revising the vehicle choice list and developing guidance to promote safer driving.

Diabetes

Mr. Burstow: To ask the Secretary of State for Health how many finished consultant episodes there were for *(a)* paediatric, *(b)* adolescent and *(c)* adult treatment for type two diabetes in (i) England and (ii) each strategic health authority in each year since 1996. [184102]

Ms Rosie Winterton: Counts of finished consultant episode statistics for paediatric, adolescent and adult treatment for non-insulin-dependent diabetes mellitus, which includes cases of type two diabetes in England and each strategic health authority of residence for 1996–97 to 2002–03 have been placed in the Library. Figures specific to type two diabetes are not held centrally.

Diagnostic and Treatment Centres

Andy King: To ask the Secretary of State for Health whether the Government will achieve their target of developing 20 diagnostic and treatment centres by 2004; and what the state of progress was at 1 April. [182454]

Mr. Hutton: The Government have already achieved their planned target of opening 20 treatment centres (TCs) by 2004. By 1 April 2004 there were 27 national health service TCs and two independent sector (IS) TCs open and two mobile IS cataract treatment centres.

Andy King: To ask the Secretary of State for Health whether the Government are on track to achieve their target of developing 47 diagnostic and treatment centres by 2008; and what the state of progress was at 1 April. [182456]

Mr. Hutton: The Government are on track to achieve their target of opening 47 treatment centres (TCs) by the end of 2005. By 1 April 2004, 29 fixed site TCs were open: 27 run by the national health service and two run and managed by the independent sector. In addition, there are two mobile units run by the independent sector providing ophthalmology procedures.

Dog Excrement

Norman Baker: To ask the Secretary of State for Health (1) how many people are estimated to be treated in hospitals and health centres as a consequence of falls following contact with dog excrement on public byways and in public spaces; [185894]

(2) what the estimated cost to public health authorities of treating patients for injuries incurred as a result of falls due to contact with dog excrement *(a)* on public byways and *(b)* in public spaces has been in each year since 1997, broken down by strategic health authority. [185895]

Miss Melanie Johnson: The information requested is not available centrally and it is not possible to estimate the cost.

E-recruitment

Mr. Burstow: To ask the Secretary of State for Health what assessment he has made of the impact on professional body journals of the introduction of NHS e-recruitment of allied health professions. [186271]

Mr. Hutton: The Department has had regular meetings with representatives from the healthcare professions to discuss the national health service e-recruitment project and will continue to work with them. In addition, the Department of Health and the Department of Trade and Industry are working with members of the Periodical Publishers Association to share information about the development of the service, assess its impact and explore ways in which the service and the health journals can work together to support cost effective recruitment into the NHS.

Mr. Burstow: To ask the Secretary of State for Health what arrangements his Department has made to ensure that non-NHS employers will have access to e-recruitment for allied health professionals. [186272]

Mr. Hutton: The first phase of the e-recruitment service for the national health service is to extend the service to NHS employers. When the service has bedded in there will be an opportunity to consider extending the service to other employers and organisations.

Mr. Burstow: To ask the Secretary of State for Health what plans he has to monitor the implementation of NHS e-recruitment in respect of NHS trusts spending on hard copy advertisements. [186273]

Mr. Hutton: National health service employers joining the e-recruitment service are asked to report annually on their spend in hard copy advertisements and how savings are being reallocated to direct patient care.

Fall/Osteoporosis Services

Sandra Gidley: To ask the Secretary of State for Health what discussions *(a)* he and *(b)* his officials have had with primary care trusts with regard to the integration of falls and osteoporosis services. [181437]

Dr. Ladyman: In the development of support for local action on putting in place integrated falls services officials have had continued interaction with colleagues within primary care trusts and councils. This has included involvement in the development of the national service framework for older people, published in 2001, which contains a service model for an integrated falls

service, including appropriate links to osteoporosis, and of supporting information on service development and good practice.

The national primary care development team's healthy communities collaborative on falls and the falls collaborative have also provided opportunities for primary care trusts and departmental officials to come together to consider these issues.

Mr. Burstow: To ask the Secretary of State for Health what osteoporosis-specific activities his Department is engaged with; and which relate particularly to osteoporosis sufferers who have not fallen. [182734]

Dr. Ladyman: Local health trusts are taking measures to reduce the risk of fracture by indentying individuals at risk and ensuring appropriate interventions. This is supported by the work of the National Institute for Clinical Excellence (NICE), which is currently undertaking a technology appraisal looking at five osteoporosis durgs. The Department has also asked NICE to produce a clinical guideline on the assessment of risk fracture and prevention of osteoporotic fractures in individuals at high risk. The guideline will refer to, update and extend the evidence base of previously published guidelines and technology appraisals and those currently under development. Work on the clinical guideline is underway and expected to be published in 2005.

Fluoridation

Mr. Brady: To ask the Secretary of State for Health (1) what peer review has been undertaken of the Newcastle University report "Bioavailability of fluoride in drinking water—a human experimental study", funded by his Department; [185052]

(2) where he expects the Newcastle University report funded by his Department, "Bioavailability of fluoride in drinking water—a human experimental study", to be published. [185053]

Miss Melanie Johnson: A draft of the final report was submitted for peer review to five eminent academic experts in this field at universities in Sweden, the United States, London, Sheffield and Leicester. In addition, Professor Andy Renwick of the University of Southampton provided advice on the project and on the draft report as an independent member of the Department's steering group. All of these comments were provided to the Newcastle team to help with its preparation of the final report. The university has put the report on its website at http://www.ncl.ac.uk/dental/research/diet/fluoride.htm.

I understand that the researchers plan to submit an article about their findings to an academic journal.

Foundation Trusts

Kate Hoey: To ask the Secretary of State for Health what the average turnout of *(a)* public voters and *(b)* patient voters has been in elections for boards of foundation trust hospitals. [185640]

Mr. Hutton *[holding answer 21 July 2004]:* I am informed by the chairman of the independent regulator that, in respect of the first 20 national health service foundation trusts authorised to date, the average turnout in elections of public voters and patient voters was 52 per cent. and 27 per cent. respectively.

General Practitioners (Out-of-hours Service)

Alan Simpson: To ask the Secretary of State for Health what comparative assessment he has made of the impact on hospital emergency services of *(a)* out-of-hours service cover by general practitioners in (i) Sheffield and (ii) other areas which have chosen not to use an arm's length service provider and *(b)* the cover provided in (A) Nottingham and (B) other areas using arm's length providers. [184969]

Mr. Hutton: No central comparison has been made of the impact of out-of-hours services on emergency services of areas where general practitioners have not opted-out and areas where organised providers, such as GP co-ops, have been commissioned by primary care trusts (PCTs) to provide the service.

As recommended by the independent review of GP out-of-hours services, PCTs should be developing integrated networks of unscheduled care, which bring together accident and emergency, ambulance services, walk-in centres and in-hours services, to meet the full range of patient needs and to reduce unnecessary referrals to emergency services.

There is to be no change to the pattern of provision for 80 per cent. of Nottingham residents already served by the GP co-operative, Nottingham Emergency Medical Services (NEMS) and which have been so for six years. NEMS is an active participant of the local emergency care network and no adverse impact on emergency care has been identified locally.

Alan Simpson: To ask the Secretary of State for Health what steps he is taking to encourage general practitioners to ensure that out-of-hours cover services are supported by appropriate access to patient records and history. [184970]

Mr. Hutton: The national quality standards, which all providers of out-of-hours services must meet, include specific requirements that there is rapid and effective transmission of patient data between general practitioner practices and out-of-hours services, a system for transmitting information on patients with special needs from the practice to the provider, and all providers must be able to supply full clinical details of all consultations to the patient's GP practice by the next working day.

This will be further improved through the introduction of the electronic patient record. In Nottingham local providers and practices are establishing systems for sharing patient information. Nottingham Emergency Medical Services, in partnership with the local emergency care network and NHS Direct, has already established a database of important information provided by GPs on the most vulnerable members of their practice population. This is being extended and access to this is being enabled for other emergency care providers.

Alan Simpson: To ask the Secretary of State for Health what comparative assessment he has *(a)* made and *(b)* commissioned of patient safety under

(i) National Emergency Medical Services cover and (ii) general practitioners running their own out-of-hours service. [184974]

Mr. Hutton: All organised out-of-hours providers must meet the national quality standards. The standards, which cover clinical governance, organisational and service standards, and access and clinical assessment, are designed to ensure that patients receive the highest-quality care, and were recommended by the independent review of general practitioner out-of-hours services in 2000.

The national quality standards are currently being reviewed by an expert group, to reflect the new contractual mechanisms in primary care. The new standards will come into effect on 1 January 2005 and from this date all providers of out-of-hours services, including GP practices which choose not to opt-out, will have to meet the quality standards as a contractual obligation.

Primary care trusts (PCTs) will monitor all providers in the delivery of their services to ensure they meet the standards and the strategic health authorities in turn will performance manage the PCTs in delivering these services.

GP Contract

Dr. Murrison: To ask the Secretary of State for Health pursuant to the answer to the hon. Member for Vale of York (Miss McIntosh) of 25 March 2004, *Official Report*, column 1050W, on general practitioners, what assessment his Department has made in *(a)* money and *(b)* manpower terms of the potential impact of the new GP contract on ambulance services providing out-of-hours cover. [178176]

Mr. Hutton: No central assessment has been made; however, the new contract provides the opportunity for primary care trusts to commission and resource out-of-hours services together with ambulance services, to provide integrated unscheduled care. This should ensure that patients receive easy access to the treatment they need and that the most effective and appropriate use is made of ambulance services.

GPs (Saturday Morning Surgeries)

Alan Simpson: To ask the Secretary of State for Health what assessment he has made of the likely impact on hospital emergency services of the choice general practitioners will have after October to opt out of Saturday morning surgeries. [184973]

Mr. Hutton: Under the new general medical services contract, primary care trusts (PCTs) have responsibility for ensuring a high quality service is available to patients during the out-of-hours period, which now includes Saturday mornings. PCTs have consequently built this extra demand into their capacity assumptions and their commissioning. They are also communicating details of changes, where necessary, to patients and other local services.

Health Expenditure

Chris Ruane: To ask the Secretary of State for Health what the level of public expenditure on health was in real terms at today's prices in each of the last 25 years. [186103]

Mr. Hutton: The table shows total net national health service expenditure in England for the period 1980–81 to 2004–05, at 2004–05 prices.

Total net NHS expenditure at 2004–05 prices[1]

	£ billion
1980–81[2,3]	26.2
1981–82[3]	26.8
1982–83[3]	27.2
1983–84[3]	27.5
1984–85[3]	28.0
1985–86[3]	28.1
1986–87[3]	29.2
1987–88[3]	30.4
1988–89[3]	31.4
1989–90[3]	31.6
1990–91[3]	32.9
1991–92[3]	35.3
1992–93[3]	37.7
1993–94[3]	38.0
1994–95[3]	39.6
1995–96[3]	40.2
1996–97[3]	40.1
1997–98[3]	41.1
1998–99[3]	42.2
1999–2000[3,4]	45.3
2000–01[3]	49.0
2001–02[3]	53.3
2002–03[3]	56.8
2003–04[5,6]	65.1
2004–05[7]	69.4

[1] Figures are not directly comparable across the period.
[2] Expenditure for the period 1980–81 to 1998–99 is on a cash basis.
[3] Outturn.
[4] Expenditure for the period 1999–2000 to 2002–03 is on a stage 1 resource budgeting basis.
[5] Expenditure for the period 2003–04 and 2004–05 is on a stage 2 resource budgeting basis.
[6] Estimated outturn.
[7] Plan.

Note:
Gross domestic product series as at 30 June 2004.

Health Protection Agency

Mr. Hancock: To ask the Secretary of State for Health what formal relationship his Department has with the Health Protection Agency. [184299]

Miss Melanie Johnson: The Health Protection Agency (HPA) is a special health authority (SHA), created by the Health Protection Agency (Yr Asiantaeth Diogelu Iechyd) Establishment Order 2003 (SI 2003/505), with further provision made in the Health Protection Agency (Yr Asiantaeth Diogelu Iechyd) Regulations (SI 2003/506). Further material relevant to the Secretary of State's relationship with the SHA is in the Secretary of State's directions to the HPA conferring functions and directing how they should be exercised (dated 1 April 2003) and in the management statement agreed with the authority, copies of which are available in the Library.

The Health Protection Agency Act received Royal Assent on 22 July 2004. This makes provision for establishing the HPA as a non-departmental public body, which will take up the functions of both the HPA

SHA and the National Radiological Protection Board, both of which will be wound up. Our intention is that this should happen on 1 April 2005.

Health Services (Non-EU Nationals)

Mr. Nigel Jones: To ask the Secretary of State for Health whether the changes to the entitlement of non-EU nationals to treatment by British *(a)* general practitioners and *(b)* dentists will also apply to children travelling from outside the EU. [185631]

Mr. Hutton: The Department is currently consulting on "Proposals to Exclude Overseas Visitors from Eligibility to Free National Health Service (NHS) Primary Medical Services". The consultation ends on 13 August. Copies of the consultation document can be obtained from www.dh.gov.uk/consultation or from the national health service response line on 08701 555455. A copy of the consultation document is available in the Library.

The proposals are intended to provide clarity regarding the eligibility of overseas visitors, including non-European Union nationals and their dependents, to receive free NHS primary medical services, and therefore apply only to those services provided by general practitioners.

The consultation does not cover primary dental services.

Health Workers (West Sussex)

Tim Loughton: To ask the Secretary of State for Health how many health workers were recruited to work in West Sussex in 2003–04, broken down by profession. [185505]

Ms Rosie Winterton: The latest available data (September 2003) on the number of health workers employed in West Sussex have been placed in the Library.

Heart Bypass Surgery

Sandra Gidley: To ask the Secretary of State for Health how many people aged *(a)* 25, *(b)* between 26 and 50, *(c)* between 51 and 60, *(d)* between 61 and 70 and *(e)* 71 years have had heart bypass surgery in each of the last three years; and if he will make a statement. [186269]

Miss Melanie Johnson: The information requested is shown in the table.

Finished in-year admissions all operations count of episodes for patients treated for coronary artery bypass graft, by age at start of episode—NHS hospitals, England, 2000–02

Age group	2000–01	2001–02	2002–03
All ages	18,980	18,981	20,058
Under 25	10	7	7
25	0	0	3
26–50	1,499	1,405	1,394
51–60	4,711	4,524	4,701
61–70	7,929	7,638	7,865
71	709	764	838
Over 71	4,117	4,636	5,234
Not known	5	7	16

Notes:

1. A finished in-year admission is the first period of in-patient care under one consultant within one health care provider, excluding admissions beginning before 1 April at the start of the datayear. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

2. All operations count of episodes—these figures represent a count of all finished consultant episodes where the procedure was mentioned in any of the 12 (four prior to 2002–03) operation fields in a hospital episode statistics record. A record is only included once in each count, even if an operation is mentioned in more than one operation field of the record.

3. Figures are grossed for both coverage and missing/invalid clinical data for 2000–01, but ungrossed for 2001–02 and 2002–03, which are not yet adjusted for shortfalls.

Hospital episode statistics, Department of Health.

Hepatitis B

Tim Loughton: To ask the Secretary of State for Health what assessment he has made of the *(a)* costs and *(b)* benefits of universal vaccination for hepatitis B. [185403]

Miss Melanie Johnson: The joint committee on vaccination and immunisation, the Government's expert advisory committee, is currently reviewing our national hepatitis B immunisation programme. This review will consider whether the programme might need to be expanded or strengthened.

Dr. Stoate: To ask the Secretary of State for Health if he will introduce a vaccination programme in babies for hepatitis B; and if he will make a statement. [184987]

Miss Melanie Johnson: Immunisation is already recommended for babies born to mothers infected with hepatitis B to prevent them developing chronic infection. The joint committee on vaccination and immunisation, the Government's expert advisory committee, is currently reviewing our national hepatitis B immunisation programme. This review will consider whether the programme might need to be expanded or strengthened.

Hospital Appointments

Mr. Burstow: To ask the Secretary of State for Health what representations he has received about patients having difficulty using call centres to pre-book hospital appointments under pilot pre-booking and patient choice initiatives. [186009]

Mr. Hutton: Since the launch of the new national health service "Choose and Book" system in the early adopter sites, the Department has not received any representations from patients, or their carers and representatives, about difficulties using the booking management service call centre.

Mr. Burstow: To ask the Secretary of State for Health what options will be available for patients booking hospital

appointments other than via call centres following implementation of the Government's proposals for the pre-booking of hospital appointments. [186010]

Mr. Hutton: Under the proposals for electronic booking, patients will be able to book hospital appointments at their local surgery with the help of their general practitioner or the practice staff. Patients will also be able to book their appointments online from home, at an internet kiosk or by telephone through the dedicated call centre.

Mr. Burstow: To ask the Secretary of State for Health what guidance has been issued to primary care trusts on establishing call centres to handle requests for booked appointments in pursuance of the Government's proposals for all hospital appointments to be pre-booked. [186011]

Mr. Hutton: The national programme for information technology has issued the following implementation guidance to primary care trusts (PCTs):

The electronic booking implementation document (March 2003).

The booking management services resource pack (December 2003).

The booking management service plan development framework (March 2004).

These documents provided guidance to PCTs in developing their call centre options so that their patients can book their first hospital outpatient appointment by telephone, if they choose not to book the appointment within the primary care surgery.

Hospital Beds

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 12 July 2004, *Official Report*, column 931W, on hospital beds, how many hospital beds were available in total in the NHS in England in *(a)* 1979 and *(b)* 1997. [186200]

Mr. Hutton: The table shows data on the total number of national health service available hospital beds, including both psychiatric and non-psychiatric hospitals.

The measure, "Average daily number of NHS available hospital beds" refers to the total number of NHS available beds in a year. The yearly total is the average of the daily totals in that year. The term "available" means that the beds are available for patient use.

Thousand

Average daily number of NHS available hospital beds

Annual Abstract of Statistics

Hospital Building

Mr. Wiggin: To ask the Secretary of State for Health how much the Government owe to the private sector with regard to hospital building programmes in *(a)* England and *(b)* Herefordshire and Worcestershire. [185197]

Mr. Hutton: Under the private finance initiative (PFI), national health service trusts make regular payments (unitary payments) to their private sector partner once the hospital is open; payments are subject to satisfactory performance of the contract. The total PFI unitary payments in 2003–04 were £346 million. This figure includes Hereford Hospitals NHS Trust and Worcestershire Acute Hospitals NHS Trust's unitary payments of £10.5 million and £17.8 million respectively.

The payments figure does not include schemes with a capital value below £10 million as information on them is not held centrally.

Hospital Building Programme

Andy King: To ask the Secretary of State for Health whether the Government are on track to achieve its target of 114 hospitals by 2010; and what the *(a)* anticipated construction cost, *(b)* expected date for start of construction and *(c)* planned date for completion is of each (i) major and (ii) medium-sized building programme. [182453]

Mr. Hutton: Currently there are 132 privately financed and public capital funded hospital schemes counting towards the NHS Plan target of 100 new hospital schemes by 2010. 46 of these are already open, so we are well on course to meet this target.

The tables show the estimated capital value, which incorporates construction costs, start on site and first patient date. Planned financial close dates are given for schemes yet to reach financial close and these are subject to change. The tables include the 15 new projects given the go-ahead by my right hon. Friend the Secretary of State, on 27 July.

Private finance initiative (PFI) schemes which have reached financial close which are completed and operational

	Capital value (£ million)	*Start on site*	*First patient date*

Hospital Hygiene

Mr. Norman: To ask the Secretary of State for Health (1) what plans he has to improve and update the hospital cleanliness rating system; [185334]

(2) what proposals he has to amend hospital cleanliness inspections to reflect the disparity between inspection outcomes and patient experience noted in the Healthcare Commission State of Healthcare Report 2004. [185622]

Mr. Hutton: The patient environment action team (PEAT) process for measuring hospital cleanliness was redesigned for the 2004 inspection round, following discussions with a number of representative bodies. The number of areas assessed this year was increased from 18 to 24.

This has significantly extended the information available to hospitals about their performance. A new rating system was designed around a five-point scale and introduced an "excellent" category. The scoring process continues to be weighted in relation to cleanliness issues in wards and accident and emergency departments.

The new national healthcare standards, published on 21 July, include cleanliness and performance against them will be rated in the Healthcare Commission's annual assessments of national health service bodies in England. The Commission will undertake a review of hospital cleanliness and infection control shortly.

Mr. Norman: To ask the Secretary of State for Health what evidence he has collected on whether the results of hospital cleanliness inspections differ depending on whether they are pre-announced. [185621]

Mr. Hutton: Since 2000, all patient environment action team inspections of hospital cleanliness have been unannounced.

Mr. Norman: To ask the Secretary of State for Health what data he collects on the *(a)* cleanliness and *(b)* hygiene of NHS operating theatres; and if he will publish them. [185629]

Mr. Hutton: Information concerning the specific cleanliness and hygiene of operating theatres is not collected centrally. Guidance was issued in the form of a standard measure of cleanliness for hospitals in the national standards of cleanliness 2002 (further revised in 2003). In this guidance, operating theatres are classified as very high risk and it is stressed that constant cleaning is deemed critical.

Mr. Norman: To ask the Secretary of State for Health what *(a)* research he has commissioned and *(b)* evidence he has collected on the influence of the control of laundering of nurse and medical staff uniforms on hospital-acquired infection rates. [185633]

Mr. Hutton: The Department published evidence-based guidelines for the prevention and control of healthcare acquired infection in 2001, which included the standard principles covering the use of personal protective clothing and equipment.

It is for the chief executives of national health service trusts to ensure that nurses have enough suitable clothing and equipment to carry out their work effectively. The decision as to whether nurses' uniforms are laundered through the hospital laundry services or whether nurses clean the uniforms themselves is made locally.

Hospital Waste Incineration

Norman Baker: To ask the Secretary of State for Health what estimate he has made of the volume of material arising from NHS hospitals which was incinerated *(a)* on site and *(b)* elsewhere in each year since 1997. [186178]

Ms Rosie Winterton: National Health Service trusts are legally autonomous bodies and they will tender for waste disposal services taking into account local requirements. Data is not collected centrally in relation to the precise method of disposal.

Insulin

Mr. Sanders: To ask the Secretary of State for Health pursuant to the answer of 23 June 2004, *Official Report*, column 1434W, on insulin, if he will place in the Library details of contacts between his Department and companies that supply insulin. [184405]

Ms Rosie Winterton: The information requested cannot be provided without incurring disproportionate cost, or without breaching commercial confidentiality (exemption 13 of the open government code applies).

My noble Friend, the Parliamentary Under-Secretary of State (The Lord Warner), who has responsibility for pharmaceutical industry matters will write to the hon. Member with an overview of the current situation regarding the supply of insulin shortly. A copy of this letter will be placed in the Library.

Mr. Amess: To ask the Secretary of State for Health pursuant to his answer of 28 June 2004, *Official Report*, column 106W, whether the licensing process compared mortality rates, the development of diabetic complications and the quality of life of those using animal and synthetic insulin; and if he will make a statement. [184700]

Ms Rosie Winterton: All authorised insulins, whether human (synthetic) insulin or animal insulin, have been demonstrated to be efficacious in people with diabetes mellitus. As part of the licensing approval process for

any medicinal product, including insulins, the applicant has to provide evidence that the product meets appropriate standards of quality, safety and efficacy. These standards are set out in European Guidance documents, including, for example, "Notes for Guidance on Clinical Investigation of Medicinal Products in the Treatment of Diabetes Mellitus" (CPMP/EWP/1080/00). This will include clinical trial data of appropriate duration in patients with diabetes as set out in the guidance document. The primary purpose of the confirmatory studies involving the assessed insulin is to demonstrate a favourable effect on blood glucose control (this is considered clinically relevant in terms of risk reduction of diabetic complications).

Data on mortality rates, development of diabetic complications and quality of life are not necessarily required for the licensing process. Additionally, there are no requirements for comparative studies between animal and synthetic insulins as part of the licensing process. Therefore, the licensing process has not compared mortality rates, development of diabetic complications or the quality of life of patients using animal and synthetic insulins. After licensing, all drugs, including insulins, are continually monitored for safety. The decision to use one or other of the insulins rests with the physician in consultation with the patient.

The committee on safety of medicines and its sub-committee on pharmacovigilance (SCOP) have kept the safety of synthetic (human) insulins under close review and have considered the available data on a number of occasions. Most recently in 2002, the SCOP considered the findings of an independent review of controlled clinical trial data by the Cochrane collaboration. The conclusions of the Cochrane review were that there is no difference in blood glucose control or the incidence of adverse events between patients on synthetic insulin compared with patients on animal insulins. The SCOP confirmed its previous advice that there is no clear evidence of a safety problem specific to human insulin.

Intermediate Care

Sandra Gidley: To ask the Secretary of State for Health pursuant to the answer of 7 June 2004, *Official Report*, column 158W, on intermediate care, when the validation process of data regarding intermediate care beds and places will be completed. [186286]

Dr. Ladyman: The intermediate care data validation process is now complete and the information has been placed in the Library.

Kidney Dialysis

Sandra Gidley: To ask the Secretary of State for Health how many people aged *(a)* 25, *(b)* between 26 and 50, *(c)* between 51 and 60, *(d)* between 61 and 70 and *(e)* 71 years have received kidney dialysis in each of the last three years; and if he will make a statement. [186270]

Ms Rosie Winterton: The table shows the latest information from the 2002 renal survey for people who were receiving haemodialysis or peritoneal dialysis at 31 December 2002. Figures exclude patients who dialysed during 2002 but were either transplanted or died prior to 31 December 2002.

Equivalent information for other years is not available.

Age	*Number of dialysis patients at 31 December 2002*
Under 26 years	554
26–50 years	4,181
51–60 years	3,024
61–70 years	3,741
71 years plus	4,894
Total	16,394

Kidney Disease

Tim Loughton: To ask the Secretary of State for Health how many children are being treated for kidney disease. [185410]

Ms Rosie Winterton: There were 827 paediatric patients receiving renal replacement therapy for kidney failure in the United Kingdom in 2002, the latest year for which figures are available.

King's College Hospital Foundation Trust

Kate Hoey: To ask the Secretary of State for Health whether, following the decision not to award King's College Hospital Trust foundation status, the elections held so far will be declared void. [185637]

Mr. Hutton *[holding answer 21 July 2004]:* Section 4(1) of the Health and Social Care (Community Health and Standards) Act 2003 provides that a national health service trust may make an application to the independent regulator for authorisation to become a NHS foundation trust, if the application is supported by the Secretary of State. Section 4(4)*(a)* provides that once a NHS trust has made this application, the provisions of the trust's proposed constitution will have effect for the purpose of establishing an initial membership, electing a board of governors and appointing a board of directors, and enabling boards to make preparations for the performance of their functions. Applicant trusts are expected to implement their governance arrangements while the independent regulator considers their application.

The independent regulator has deferred consideration of the application made by King's College Hospital NHS Trust for authorisation on 1 July. The chairman of the independent regulator has asked the trust to submit further evidence by the end of the year, against which he will consider the application for authorisation. Therefore, prospective NHS foundation trust functions arising from that application continue to exist.

Litigation Expenditure

Mr. Hancock: To ask the Secretary of State for Health pursuant to his answer dated 13 July 2004, *Official Report*, column 1098W, what legal actions involving NHS funds have been initiated over the last five years, excluding those for clinical negligence; and if he will make a statement. [185210]

Ms Rosie Winterton: The liabilities to third parties scheme (LTPS) is a risk pooling scheme for national health service trusts, primary care trusts and special

health authorities, which provides indemnity for non-clinical risks such as employers' and public liabilities. The scheme was introduced in 1999 and is operated by the NHS Litigation Authority (NHSLA).

The table shows information provided by the NHSLA on the number of NHS resources spent on defending and initiating legal actions for non-clinical claims under the LTPS for the last five years.

£

	Defence costs	*Claimant costs*	*Damages*	*Total*
1999–2000	17,075	7,534	9,218	33,827
2000–01	35,686	265,166	664,608	965,460
2001–02	380,412	1,487,848	3,048,665	4,916,925
2002–03	1,815,517	3,974,607	9,608,353	15,398,477
2003–04	3,214,576	3,643,407	6,881,042	13,739,025
Total	5,463,266	9,378,562	20,211,886	35,053,714

Notes:
The amounts include funds from the LTPS and trusts' own funds for any excesses for which they may have been liable.
Trusts may insure outside of the LTPS scheme in certain circumstances. The amounts above do not include costs for insurance taken outside of the LTPS scheme.

Lost/Stolen Departmental Property

Mr. Lansley: To ask the Secretary of State for Health if he will list the items that his Department has reported lost or stolen to the police from his Department's buildings and property since 2001. [185861]

Ms Rosie Winterton: The table lists the items reported lost or stolen from departmental buildings since January 2001 which have been reported to the police.

Item	*Number*
Laptops	19
Projectors	2
Printers	3
Digital cameras	1
PC base units	4
Keyboard	1
Mouse	1
Monitors	4
External modem	1
Phone charger	1

Medical Instruments

Mr. Amess: To ask the Secretary of State for Health pursuant to his answer of 7 June 2004, *Official Report*, column 160W, on medical instruments, how much of the figure shown for each year was spent on *(a)* hildebrandt vaginal irrigating tubes, *(b)* suction curettes diameter 28 cm graduated, (i) 4 mm, (ii) 6 mm, (iii) 8 mm, (iv) 10 mm, (v) 12 mm and (vi) 14 mm and *(c)* hose connections curved, 11 mm diameter; and if he will make a statement. [179298]

Ms Rosie Winterton: Information is only held on vacuum curettes at 8 mm, 10 mm and 12 mm graduation. This is shown in the table. The information on the other instruments requested is not held centrally. The figures provided are based on instrument sales via the national health service purchasing and supply national contracts. These contracts are not mandatory, and therefore some NHS trusts buy instruments from other sources, as possibly are the other instruments in which the hon. Member has expressed an interest. These figures do not, therefore, cover the total NHS spend.

	Amount (£)
2001–01	26,737
2001–02	26,525
2002–03	28,102
2003–04	31,265

Medical Secretaries

Sue Doughty: To ask the Secretary of State for Health if he will take action to improve the remuneration of medical secretaries throughout the NHS; and if he will make a statement. [185010]

Mr. Hutton: Medical secretaries, along with other health workers, will receive a minimum 10 per cent. increase in basic pay over the three years 2003–04 to 2005–06. In addition, subject to a positive outcome of the planned second ballots by some national health service trades unions on the new pay system, many medical secretaries should also benefit under the assimilation arrangements provided by the new system.

The impact of "Agenda for Change" for all staff groups is currently being tested across 12 early implementer sites to ensure that the new system, which is underpinned by a job evaluation framework, provides a fair and comparable basis of employment for all staff, including medical secretaries.

Mental Health

Mr. Heald: To ask the Secretary of State for Health pursuant to the answer of 27 May 2004, *Official Report*, column 1836W, on mental health, at what level such information is collected; if he will collect the information centrally in respect of the period sought; and if he will make a statement. [184695]

Ms Rosie Winterton: The national confidential inquiry (NCI) into suicide and homicide by people with mental illness collects information nationally on all people who complete suicide who were in contact with mental health services in the 12 months prior to death. In-patients are a priority for the NCI who collect information specifically related to those people who complete suicide whilst in in-patient care.

The NCI collects data on specific ligature points used for hanging; for example, bed curtain rails, hooks, handles, doors, bed heads and "other'. It does keep a list of "other' ligature points. The question about ligature points has been in the NCI questionnaire since 2000.

Mr. Heald: To ask the Secretary of State for Health what procedures are in place to ensure the safety of *(a)* patients and *(b)* the public when electrical power cuts disable automatic door release mechanisms in acute mental health wards; and if he will make a statement. [184934]

Mr. Hutton: National health service trusts are responsible for the safety procedures that apply when there are power cuts in acute mental health wards. NHS Estates produced guidance in 1993, under Health

Technical Memorandum (HTM) 2011 "Emergency Electrical Services—Management Policy", which is still extant, stating that each NHS site should have and be able to implement emergency procedures.

Mr. Heald: To ask the Secretary of State for Health what account is taken of the risk of suicide in guidance given for the building of acute mental health wards; and if he will make a statement. [184941]

Mr. Hutton: Health Building Note 35 (Part 1), published in 1996, is a guide to the accommodation requirements for acute mental health services. It focuses on acute units where patients may be disturbed or suicidal. It provides guidance on general functional and design requirements and stresses the need for the provision of a safe and therapeutic environment that helps patients feel at ease.

Midwives

Harry Cohen: To ask the Secretary of State for Health what actions his Department has taken to encourage a return to NHS practice by those who had previously worked in the NHS as midwives; how many such individuals have returned to practice in each year since 1992; what targets have been set in this area; and if he will make a statement. [185964]

Mr. Hutton: All midwives deciding to return to the national health service are eligible for a returners package including a £1,500 bursary to support them whilst they are retraining. There is also financial support for childcare, travel and books. The chief nursing officer has contacted former midwives by letter to encourage them to return to the NHS. To support this, the Department allocated £750,000 to workforce development confederations in 2003–04 to fund 500 return to practice places for midwives. To encourage returners, a new NHS careers return to practice guide for midwives was published in January 2004. Copies are available in the Library. In addition, the Department has funded the Royal College of Midwives, in collaboration with Open University, to design a flexible return to practice open learning programme.

Since the national return to practice programme commenced in 1999, over 17,000 former nurses, midwives and health visitors have returned to the NHS. Data for the period prior to 1999 is not available.

Milk

Norman Baker: To ask the Secretary of State for Health what studies he has *(a)* commissioned and *(b)* reviewed concerning the presence of rocket fuel in milk. [182242]

Miss Melanie Johnson *[holding answer 5 July 2004]*: The Food Standards Agency (FSA) has monitored a number of environmental contaminants in milk. The FSA has not commissioned or reviewed studies on the presence in milk of rocket fuel.

Myalgic Encephalomyelitis

Mr. Nigel Jones: To ask the Secretary of State for Health what assessment has been made of the availability through the NHS of respite care for sufferers of myalgic encephalomyelitis (ME); what comparative assessment has been made of the level of respite care available in different regions; how much funding has been allocated on average per strategic health authority for the provision of respite care for sufferers of ME in this financial year; and what funding has been allocated to Avon, Gloucestershire and Wiltshire Strategic Health Authority for this purpose in this financial year. [185615]

Dr. Ladyman: We do not collect information on the provision of respite care for people with specific illnesses. No specific funding is allocated to the national health service for the provision of respite services. It is for primary care trusts, in partnership with strategic health authorities and other local stakeholders, to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services.

National Poisons Information Service

Mr. Drew: To ask the Secretary of State for Health whether any of the poisons information specialists at the National Poisons Information Service and the West Midlands Poisons Unit, received income from agrochemical companies; what disclosure systems are in place, including for patients; and if he will make a statement. [184569]

Miss Melanie Johnson: No member of the medical, scientific (including poisons information specialists) and nursing staff of the National Poisons Information Service, Birmingham centre and the associated clinical unit, the West Midlands Poisons Unit, has ever received income or any other funds from agrochemical companies.

National Service Framework for Older People

Sandra Gidley: To ask the Secretary of State for Health when his Department will publish its review of the April 2004 milestones for the National Service Framework for Older People; and if he will make a statement. [183661]

Dr. Ladyman: The Department will not be publishing a review of the April 2004 milestones in the national service framework (NSF) for older people. However, the Healthcare Commission is currently conducting an inspection of implementation of the NSF and will release its findings in 2005.

New Hospitals

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 13 July 2004, *Official Report*, column 1100W, on new hospitals, what each of the 46 new hospital schemes entails. [185989]

Mr. Hutton: The table gives brief details for each of the 46 schemes as requested.

Trust	*Description*
North Cumbria Acute Hospitals National Health Service Trust	Redevelopment of District General Hospital (DGH) scheme to replace much of the existing accommodation.

Trust	*Description*
Dartford and Gravesham NHS Trust	New DGH hospital on Darent Valley site.
South Buckinghamshire NHS Trust	Rationalisation of DGH acute services onto two sites at Wycombe and Amersham.
Queen Elizabeth Hospital NHS Trust	Refurbishment and new-build of a DGH at Greenwich.
North Durham Health Care NHS Trust	New DGH for North Durham on existing Dryburn site
Calderdale and Huddersfield NHS Trust	Rationalisation of DGH acute services and refurbishment of existing hospital site in Halifax
South Manchester University Hospitals NHS Trust	Redevelopment of existing DGH on Wythenshawe site
Norfolk and Norwich NHS Trust	New DGH
Hereford Hospitals NHS Trust	New DGH together with refurbishment of some existing wards.
Barnet and Chase Farm Hospitals NHS Trust	Rationalisation of services across the existing Barnet DGH site
Worcestershire Acute Hospitals NHS Trust	New DGH
South Durham Healthcare NHS Trust	Redevelopment and refurbishment of existing DGH site in Bishop Auckland
King's Healthcare NHS Trust	New Clinical Block and refurbishment of some existing stock on DGH site.
Swindon and Marlborough NHS Trust	New DGH
Leeds Community and Mental Health Services Teaching NHS Trust	Relocation of mental health services into seven, modern, purpose-built facilities enabling the closure of poor quality Victorian institutional design buildings.
Bromley Healthcare NHS Trust	New DGH
Hull and East Yorkshire Hospitals NHS Trust	New three-storey building to accommodate gynaecology, obstetric and neonatal services at Hull Royal Infirmary
Berkshire Healthcare NHS Trust	New mental health hospital.
West Middlesex University Hospital NHS Trust	Redevelopment of DHG site
South Tees Acute Hospitals NHS Trust	Extension of existing South Cleveland hospital to centralise acute hospital services onto single site.
St. George's Hospital NHS Trust	New Building for Neurosurgery and Cardiac Services
Rochdale Primary Care NHS Trust	New development on Rochdale Infirmary site.
Central Sheffield University Hospitals NHS Trust	New maternity facility
Royal Berkshire and Battle Hospitals NHS Trust	Consolidation of DGH acute services on a single site.
Queen Mary's Hospital Sidcup NHS Trust	Reprovision of Bexley Mental Health Services
Queens Medical Centre Nottingham University Hospital NHS Trust	New ENT and Opthalmology Unit
West Sussex Health and Social Care Trust	Reprovision of Mental Health Services
North Staffordshire Combined Healthcare NHS Trust	Reprovision of Mental Health Services
Oxleas NHS Trust	Reprovision of Mental Health Services
North East London Mental Health NHS Trust	Reprovision of Mental Health Services
Birmingham and Solihull Mental Health NHS Trust	Reprovision of Mental Health Services
Cornwall Partnerships NHS Trust	New clinical oncology department at Bodwin
East London and The City Mental Health NHS Trust	Reprovision of Mental Health Services in Newham
Luton and Dunstable Hospital NHS Trust	New wing for the provision of all therapy and elderly care services.
Northumbria Healthcare NHS Trust	Centralisation of acute and maternity services at Wansbeck DGH
Royston, Buntingford and Bishop Stortford PCT	Hertford and Essex hospital redevelopment
Royal Wolverhampton Hospitals NHS Trust	New heart centre
Northumbria Healthcare NHS Trust	Redevelopment of Hexham DGH
Guildford and Waverley PCT	NHS Local Care Centre for intermediate care, outpatient, diagnostic, mental health and community services linked with social service facilities and local GP facilities in Farnham.
County Durham and Darlington Acute Hospitals NHS Trust	New Community Hospital in Chester-le-Street
Newbury and Community PCT	New Community Hospital
Mid Devon PCT	New Community Hospital in Tiverton
Swale PCT	New Community Hospital in Sheppey
West London Mental Health NHS Trust	Charing Cross Mental Health Unit
Northern Lincolnshire and Goole Hospitals NHS Trust	New Women and Children's Unit at Diana, Princess of Wales Hospital
Wrightington, Wigan and Leigh NHS Trust	Phase IV development to Royal Albert Edward Infirmary, Wigan

NHS Commercial Activity

Norman Baker: To ask the Secretary of State for Health what controls regulate the distribution within NHS premises of commercial products to patients where the giving of permission to distribute generates an income stream for NHS trusts. [186179]

Mr. Hutton: Income generation schemes are those that rely on Section 7(1) of the Health and Medicines Act 1988. My right hon. Friend, the Secretary of State has delegated these income generating powers to all national health service trusts, including ambulance and mental health trusts, primary care trusts and strategic health authorities. Guidance, clearly setting out under what circumstances income generation powers can be used, was issued to the NHS in November 2001. A copy of the guidance is available in the Library.

NHS Direct (Isle of Wight/Hampshire)

Mr. Andrew Turner: To ask the Secretary of State for Health how many calls were received by NHS Direct in the Isle of Wight and Hampshire in each month since the facility opened; and what categories of information he collects about the types of *(a)* call received and *(b)* response given. [185804]

Ms Rosie Winterton *[holding answer 22 July 2004]*: The available information concerning calls received by the NHS Direct call centre serving Hampshire and the Isle of Wight since November 2001 is shown in the table.

Month and year	*Hampshire and the Isle of Wight—calls answered*
2001	
November	19,025
December	23,691
2002	
January	24,876
February	19,804
March	20,196
April	20,153

Mr. Andrew Turner: To ask the Secretary of State for Health who took the decision to locate the NHS Direct call centre which serves the Isle of Wight and Hampshire in Southampton; when the decision was taken; when the facility opened; how many full-time equivalent staff were employed there in each year since opening; what criteria were used in determining its location; what the cost of *(a)* the premises and *(b)* staffing is in the current financial year; whether the staff are directly employed by the national health service; how many are on each grade; what the cost was of furnishing and equipping the premises; and what other premises were considered. [185808]

Ms Rosie Winterton *[holding answer 22 July 2004]:* Due to an increase in call volumes and the success of the pilot NHS Direct service for Hampshire and the Isle of Wight, the existing premises at Highcroft in Winchester, which had been the location of the initial call centre since March 1999, were considered to be unsuitable for the growth of the service. In February 2001, the NHS Direct management team within the Department, in consultation with external estates advisers and NHS Estates, decided to locate a new call centre at Berrywood Business Village, Hedge End. The selection criteria used for deciding the location of the new call centre included access by public and private transport and security for staff attending and leaving work. The new call centre was opened in September 2001. Other locations considered were Silver Hill in Winchester, Link 414 in Chandlers Ford, Easton Lane in Winchester and Belbins Business Park in Romsey.

The cost of furnishing and equipping the premises was £1.6 million. Current accommodation costs and capital charges are £750,000 per year.

There are currently 136 whole time equivalent (wte) staff employed by the NHS Direct special health authority at the call centre. 58 of the staff are nurses (G grade), 47 are health information advisers (administrative and clerical 5) and the rest are managers or support staff. Staffing costs for the current financial year are £4.53 million. Staff numbers in previous years were 125 (wte) in 2001–02, 140 (wte) in 2002–03 and 140 (wte) in 2003–04.

NHS Health and Safety

Andy King: To ask the Secretary of State for Health (1) whether the Government achieved their target of eradicating the fire safety backlog on the NHS estate by March 2003; [182450]

(2) what further progress has been made towards meeting his earlier target of making 90 per cent. of the NHS estate health and safety compliant by March; [182451]

(3) what percentage of the NHS estate was health and safety compliant and what the cost was of the health and safety repair backlog, in *(a)* March 2003 and *(b)* March 2004. [182452]

Mr. Hutton: Trusts that did not report full compliance will cover a wide variety of conditions, including that which is only just below standard. At 31 March 2003, 9 per cent. of patient-occupied floor area was below health and safety compliance and 7.10 per cent, below statutory fire safety standards.

Trusts manage high-risk deficiencies as a priority in order to ensure that premises are intrinsically safe and not of concern to local enforcement bodies.

The cost of the health and safety repair backlog is currently being validated and on completion I will write to my hon. Friend.

NHS Improvement Plan

Mr. Chope: To ask the Secretary of State for Health (1) for what reason there are targets in the NHS improvement plan for reducing deaths from some medical conditions but not others; and if he will make a statement; [183695]

(2) for what reason the NHS improvement plan target for reducing deaths from *(a)* heart disease, *(b)* stroke and *(c)* cancer is limited to those aged under 75 years. [183699]

Miss Melanie Johnson *[holding answer 13 July 2004]:* Deaths from coronary heart disease, stroke and cancer account for around 65 per cent. of all deaths each year—346,792 in England and Wales in 2002.

Targets for these conditions are included in the NHS Improvement Plan, as they are the major killers and the Government wishes to focus on tackling those diseases, which will have the greatest impact on public health.

The impact of preventative and treatment measures in coronary heart disease, stroke and cancer is more likely to be demonstrated in changing trends of those aged under 75. These changes can only be demonstrated using robust data, which is suitable for international comparisons. The quality of assignment of cause of death is stronger for people under age 75 and we have focused the targets on them.

We are committed to ensuring that treatment should be available based on clinical need and there should not be discrimination of any kind. It is important to note

that monitoring activity is not restricted to the age range of the target and we will continue to monitor closely trends for those over the age of 75.

NHS IT Programme

Mr. Burstow: To ask the Secretary of State for Health if he will publish the gateway review of the elements of the National Programme for IT in the NHS; and if he will make a statement. [185963]

Mr. Hutton: I have no current plans to do so.

The Office of Government Commerce Gateway process is an integral part of the assurance mechanism for ensuring that large-scale procurement projects and programmes meet prescribed planning and governance requirements and that they can progress successfully to the next stage. Gateway reports, in the form of advice guidance from experienced practitioners, are provided at key stages in a project or programme's development cycle. They are made direct to the senior responsible owner (SRO) and are confidential in order not to impair the value of the advice. The SRO has responsibility for ensuring that any recommendations are addressed before the project is permitted to proceed.

NHS Number

Harry Cohen: To ask the Secretary of State for Health whether he intends to make the NHS Number a general identifier as defined by the Data Protection Act 1998; and if he will make a statement. [185957]

Mr. Hutton: National health service numbers are assigned to all patients who receive NHS care, and underpin the development of electronic care records. Departmental officials have formed the view that the widespread use of the NHS number means that it is a "general identifier" within the meaning of the European data protection directive and the United Kingdom Data Protection Act and therefore formal regulations should be introduced to regulate its use.

NHS Overspend (South-east)

Tim Loughton: To ask the Secretary of State for Health what the NHS over-spend in the South East was in 2003–04. [185507]

Ms Rosie Winterton: Audited accounts information for 2003–04 will not be available centrally until autumn 2004.

NHS Professionals

Mr. Brady: To ask the Secretary of State for Health (1) what the budget of National Health Service Professionals was in financial year 2003–04; and what its main sources of revenue were; [184883]

(2) what audit arrangements are in place in respect of National Health Service Professionals; [184884]

(3) why it is his policy to exclude National Health Service Professionals from the process of audit by the NHS Purchasing and Supply Agency that is applied to commercial recruitment agencies; [184885]

(4) what assessment he has made of the *(a)* performance, *(b)* effectiveness and *(c)* value for money delivered by National Health Service Professionals. [184886]

Mr. Hutton: NHS Professionals was operating through various national health service bodies until 1 January 2004, when it was established as a special health authority (SHA) in shadow form. From 1 April 2004 it became a fully established SHA. The Department was NHS Professionals' main source of funding in 2003–04. Anticipated investment was £22 million in the financial year 2003–04. NHS Professionals will be audited by the National Audit Office for 2003–04 and accounts for the period it was in shadow form in 2003–04 will be published shortly.

The NHS Purchasing and Supplies Agency will audit NHS Professionals' compliance with the standards laid down in the agency framework agreements in exactly the same way that it audits compliance by commercial agencies.

The Department has set up formal performance review arrangements with NHS Professionals. The benefits from the establishment of NHS Professionals will be achieved by reduced costs and higher standards in the recruitment and development of temporary staff. NHS trusts have already seen a reduction in temporary staffing costs and improvement in bank fill rates due to NHS Professionals. Local agency agreements have also saved an estimated £50 million over the past year.

Mr. Burstow: To ask the Secretary of State for Health what evidence of fraud he has collated in the running of NHS Professionals; and if he will make a statement. [186142]

Mr. Hutton: No evidence of fraud has been collated in the running of NHS Professionals but any cases relating to individuals registered with NHS Professionals are dealt with by the national health service counter fraud and security management service (CFSMS).

NHS Professionals is in the process of drawing up a counter fraud charter with the CFSMS.

NHS Repairs

Andy King: To ask the Secretary of State for Health whether the Government achieved their target of reducing disrepair on the NHS estate by 25 per cent. between April 1999 and March 2004; what the total repair backlog on the NHS estate was in *(a)* March 2003 and *(b)* March 2004; and if this information is not currently available, when will he make it available. [182459]

Ms Rosie Winterton: NHS estates collects data on backlog maintenance from national health service trusts through its estates return information collection. The latest data relate to 2002–03 and this remains the subject of a statistical validation exercise, which will be completed shortly. Once the validation exercise is complete I will write to my hon. Friend.

NHS Staff

Mr. Norman: To ask the Secretary of State for Health what the average salary for NHS *(a)* chief executives and *(b)* chairmen was in each year since 1997. [182786]

Mr. Hutton: Information about the pay of national health service chief executives is not held centrally by the Department.

Information about the remuneration of NHS chairs has been held by the NHS appointments commission since its inception in April 2001.

The remuneration for NHS chairs since 2001–02 is shown in the table.

£

	Band 1	Band 2	Band 3
2001–02	20,420	18,154	16,017
2002–03	20,930	18,608	16,407
2003–04	21,453	19,073	16,827
2004–05	21,882	19,454	17,164

Remuneration for NHS chairs was handled by the Department until April 2001 when the NHS appointments commission was established. Remuneration for NHS chairs from 1997–98 to 2000–01 is shown in the table.

£

	Band 1	Band 2	Band 3
1997–98	19,285	17,145	15,125
1998–99	19,285	17,145	15,125
1999–2000	19,825	17,625	15,550
2000–01	19,825	17,625	15,550

For 2001–02, the remuneration of chairs of primary care trusts (PCTs) was:

Level 4: £12,967

Level 3: £10,373

Given the new responsibilities and anticipated time commitments of PCT chairs, their remuneration was increased to the same level, and on the same banding basis as NHS trusts, from 1 April 2002.

Mr. Gill: To ask the Secretary of State for Health how much money was spent by the NHS on agency staff in Leicester South in each year since 1997. [186259]

Dr. Ladyman: The information requested is shown in the following table.

Expenditure on total non-national health service staff—1997–98 to 2002–03

Expenditure (£)

	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03
Leicestershire Royal Infirmary NHS Trust	585,888	897,878	1,600,196	—	—	—
Leicester General Hospital NHS Trust	710,045	917,586	1,223,520	—	—	—
Glenfield Hospital NHS Trust	139,214	343,663	448,662	—	—	—
University Hospitals of Leicester NHS Trust	—	—	—	4,673,825	6,734,372	8,218,180
Eastern Leicester PCT	—	—	—	n/a	106,895	151,238
South Leicestershire PCT	—	—	—	n/a	n/a	155,162

Sources:

1. Annual financial returns of NHS trusts, 1997–98 to 2002–03.
2. Annual financial returns of primary care trusts, 2001–02 to 2002–03.

Mr. Gill: To ask the Secretary of State for Health how many staff vacancies there were in the NHS in Leicestershire in each year since 1997. [186267]

Dr. Ladyman: The information requested is shown in the table.

Department of Health vacancies survey, 1999–2004

Vacancies in the Leicestershire Health Authority area by trust and by all staff groups

Three month vacancy rates and numbers

Leicestershire Health Authority (1999–2001) and Leicestershire, Northamptonshire and Rutland SHA (2002–2004)	1999		2000		2001	
	3 month vacancy rate (per centage)	3 month vacancy number	3 month vacancy rate (percentage)	3 month vacancy number	3 month vacancy rate (percentage)	3 month vacancy number
GP				44		89
Consultant and other Doctors (excluding Doctors in training)	3.10	13	3–	3–		0
All nursing, midwifery and health visiting staff (excluding HA staff)	0.6	37	2.2	131	0.8	47
All scientific, therapeutic and technical staff (excluding HA staff)	0.6	11	0.9	17	0.1	2
All other staff (excluding HA staff)	0.1	5	1.1	41	0.1	3

Leicestershire Health Authority (1999–2001) and Leicestershire, Northamptonshire and Rutland SHA (2002–2004)	2002		2003		2004	
	3 month vacancy rate (per centage)	3 month vacancy number	3 month vacancy rate (percentage)	3 month vacancy number	3 month vacancy rate (percentage)	3 month vacancy number
GP		123[1]		85[2]		
Consultant and other Doctors (excluding Doctors in training)	1.70	9		0	3.40	20

	2002		2003		2004	
All nursing, midwifery and health visiting staff (excluding HA staff)	3.0	285	2.8	281	1.7	192
All scientific, therapeutic and technical staff (excluding HA staff)	3.3	98	3.4	112	2.8	78
All other staff (excluding HA staff)	0.2	17	0.6	47	1.2	97

[1] In 2002,1 HA in Leicestershire, Northamptonshire and Rutland did not respond to the survey. No figures for PCTs are available before 2003 as previous years vacancy numbers were collected from Health Authorities. Vacancy numbers for each year refer to the number of vacancies occuring in the 12 month period between 1 April and 31 March.
[2] Vacancy numbers for Leicestershire PCTs (3) 2000 data not available.
[3] 2000 data not available.

Nurse Employment

Dr. Murrison: To ask the Secretary of State for Health what estimate his Department has made of the number of experienced senior nurses who are not currently employed and are available for recruitment as community matrons. [184565]

Mr. Hutton: Our work force modelling takes account of the 200,000 nurses whose Nursing and Midwifery Council registration has lapsed. There are established routes for nurses not currently working to return to the national health service. We expect that experienced nurses currently working in the NHS will fill the majority of the community matron posts after they have received the appropriate training and development.

Mr. Burstow: To ask the Secretary of State for Health how many nurse training places there were in England in *(a)* 1979 and *(b)* 1997. [185967]

Mr. Hutton: Information on the number of training places for nurses and midwives in 1979 is not available. In 1996–97, there were 14,984 pre-registration training places for nurses and midwives.

Nurses' Uniforms

Mr. Hoyle: To ask the Secretary of State for Health (1) what system of monitoring is carried out by NHS trusts to ensure nurses' uniforms laundered domestically are free from infection; and if he will make a statement; [186038]

(2) what the policy is in NHS trusts on the laundering of nurses' uniforms by individuals at home; and if he will make a statement; [186041]

(3) what proportion of nurses' uniforms in NHS trusts are laundered *(a)* at home and *(b)* under contract arrangements; [186042]

(4) what the policy is in NHS trusts on the wearing by nurses of their hospital uniform while travelling to and from their place of work. [186044]

Mr. Hutton: It is the responsibility of each national health service trust to determine its own policies regarding the supply, laundering and wearing of uniforms by nurses. The trust's chief executive has responsibility for ensuring that nurses have enough suitable clothing and equipment to carry out their work effectively. Generally, nurses would use protective clothing, such as aprons and gloves to prevent soiling of their uniforms. We are not aware of any evidence that uniforms are a significant source of hospital infections.

Information relating to the proportion of nurses' uniforms that are laundered at home or under contract arrangements is not collected centrally.

Mr. Hoyle: To ask the Secretary of State for Health (1) whether HSG (95) 18 applies to the laundering of nurses' uniforms; and if he will make a statement; [186039]

(2) at what temperatures nurses' uniforms should be laundered to ensure they are free from bacteria; and if he will make a statement; [186043]

(3) what research his Department has carried out to establish whether domestic washing machines are capable of washing nurses' uniforms to the required hygiene standards; and if he will make a statement. [186201]

Mr. Hutton: Health Service Guidelines, reference (HSG(95)18), set out in detail the proper procedures for the handling of used and infected laundry and linen, including uniforms.

The Department has not carried out research related to domestic washing machines. However, the advice from microbiologists is that a wash at a domestic washer temperature of 60 degrees C, followed by a rinse cycle, is more than adequate to ensure the removal of bacteria.

Operations

David Davis: To ask the Secretary of State for Health how many operations were carried out in NHS hospitals in each of the past five years. [181591]

Mr. Hutton: Recent trends in operations carried out in hospital both as in-patients and out-patients for General and Acute specialties are available in the statistical supplement—Chief Executive's Bulletin of May 2004 [table 3.5.5], which is available in the Library. Detailed information by different operations is available from hospital episode statistics also on the Department's website.

Orchards

Mr. Heathcoat-Amory: To ask the Secretary of State for Health what plans he has to exclude grazing animals from fruit orchards. [185744]

Miss Melanie Johnson: I refer the hon. Member to the reply I gave to the hon. Member for Maldon and East Chelmsford (Mr. Whittingdale) on 15 July 2004, *Official Report*, column 1299W.

Paediatric Consultants

Tim Loughton: To ask the Secretary of State for Health how many *(a)* male and *(b)* female paediatric consultants work in the NHS, shown by (i) headcount and (ii) whole time equivalent. [185407]

Mr. Hutton: Information on the number of headcount and whole time equivalent consultants in the paediatric group working in the national health service broken down by gender is shown in the table.

Hospital, public health medicine and community health services (HCHS)—consultants within the paediatric group of specialties, by gender. England, as at 31 December 2003

	All consultants	*Male*	*Female*
Paediatric group			
Number	1,821	1,085	736
Whole time equivalents	1,650	1,008	642
of which:			
Paediatric cardiology			
Number	68	57	11
Whole time equivalents	61	53	8
Paediatrics			
Number	1,753	1,028	725
Whole time equivalents	1,589	954	634

Note:
The paediatric group comprises of specialties of paediatric cardiology and paediatrics.
Source:
Department of Health medical and dental workforce census.

Patientline

Mr. Burstow: To ask the Secretary of State for Health (1) what costs to patients are incurred by *(a)* registering with Patientline and *(b)* making a request for a bedside television set to be switched off; [186188]

(2) whether patients have been charged for *(a)* registering with Patientline and *(b)* making a request for bedside televisions to be switched off. [186189]

Mr. Hutton: There are no costs to patients for either registering with Patientline or making a request for a bedside television set to be switched off and no such charges have been levied in the past.

Mr. Burstow: To ask the Secretary of State for Health if he will list the services offered by Patientline, including costs to patients. [186190]

Mr. Hutton: The table shows the range of services provided by Patientline to patients and the cost of those services.

Services	*Cost*
Radio (typically six stations)	No charge at any time
Television (typically 16 channels)	Free for one hour per day and to children aged 16 or under at all times. TV viewing costs £3.20 to £3.50 for a day's viewing, with concessions for those aged 60 years or over, or those in hospital for longer periods.
Outgoing telephone calls	10 pence per minute (minimum 20 pence) for all local and national calls to fixed lines; charges for calls to mobiles, overseas numbers and special numbers vary.
Internet and email	4 pence per minute
Games	50 pence per game

Mr. Burstow: To ask the Secretary of State for Health how many requests have been made to Patientline for bedside television sets to be switched off. [186191]

Mr. Hutton: The Patientline service has been operational for over nine years and is currently being used by some 40,000 patients each day. We are advised by Patientline that during this time requests to turn the units off have never been significant; therefore the company has not recorded how many requests have been made.

All units are capable of being turned off by patients registered on the system, using the on/off switch located on the front of the terminal 2 units and all of those currently being manufactured. In the case of the earlier models—terminal 1 units—a sequence of buttons can be used. Terminals where there is no patient registered on the system can be switched off by Patientline staff at any time, if a request is made to do so.

Pesticides

Mr. Drew: To ask the Secretary of State for Health what updated information has been received from pesticide companies by the National Poisons Information Service for their pesticide product database since 31 March 1998; what toxicological details it contained; and if he will publish the information. [184450]

Miss Melanie Johnson: The National Poisons Information Service (NPIS) requests and receives several thousand safety data sheets annually from pesticide companies. These data sheets are circulated monthly to all NPIS centres as the pesticide product database. The pesticide product database contains only safety data sheets, which are in the public domain. The NPIS Birmingham centre regularly requests from companies additional and detailed toxicological information on specific formulations, some of which is commercially sensitive.

Policies (Environmental Impact)

Mr. Horam: To ask the Secretary of State for Health how many new policy proposals or significant changes in policy were produced in *(a)* 2002–03 and *(b)* 2003–04; how many of these were screened for their environmental impacts; and how many were the subject of separate environmental appraisals. [185104]

Ms Rosie Winterton: The Department published 17 regulatory impact assessments (RIAs) in 2002–03 and 18 in 2003–04. In preparing RIAs, Cabinet Office guidance states that Departments should cover the full range of potential impacts on all stakeholders—including environmental impacts where relevant.

The Department's NHS Estates Agency has published a guidance document, "Sustainable Development in the NHS" (June 2001, updated February 2003), to help hospital trusts identify environmental impacts when they are setting their policies and procedures in key areas, such as waste, energy, transport, water and procurement.

In addition the Department's Purchasing and Supplies Agency carries out environmental appraisals of its major policies and activities.

Portable Nebulisers

Mr. Burstow: To ask the Secretary of State for Health what his policy is in respect of the supply of portable nebulisers by the NHS free of charge. [185778]

Ms Rosie Winterton: Portable nebulisers are not available on National Health Service prescription from general practitioners, but are available free of charge, on loan from primary care and NHS trusts.

We think that it is most appropriate for them to remain as NHS property to monitor their usage and ensure that NHS resources are used most effectively.

Prescription Drugs

Tim Loughton: To ask the Secretary of State for Health how many patients are receiving prescriptions for *(a)* Donepezil (Aricept), *(b)* Rivastigmine (Exelon) and *(c)* Galantamine (Remings). [185415]

Dr. Ladyman: No information is available on the number of patients who receive prescriptions for donepezil, rivastigmine and galantamine. However, the number of prescription items that were dispensed in the community in 2003 in England were:

	Number
Donepezil Hydrochloride	254,100
Galantamine	51,500
Rivastigmine	45,000

Primary Care Trust Mergers

Mr. Chidgey: To ask the Secretary of State for Health what his policy is regarding the use of financial savings made in one component trust to offset excessive expenditure in another where the managements of previously autonomous primary care trusts are merged to form a trust cluster. [185980]

Mr. Hutton *[holding answer 22 July 2004]:* There is no national policy regarding the use of financial savings by each component trust where the management arrangements of adjacent primary care trusts (PCTs) are shared. This is a local issue, for consideration by PCTs with support from their respective strategic health authority.

Where the management arrangements for PCTs are shared, PCTs will continue to be considered separate for financial management purposes and consequently underspends generated in one trust cannot be automatically used to offset overspends in another trust.

Prisons

Ross Cranston: To ask the Secretary of State for Health whether primary care trusts will be required to fund the post of prison healthcare officers; and if he will make a statement. [185135]

Dr. Ladyman: Within the framework set out in the NHS plan and the "Shifting the Balance of Power" initiative, decisions about funding for local health services, including those in prisons after the transfer of commissioning responsibility, are made by primary care trusts, in partnership with strategic health authorities and other local stakeholders.

Radiologists/Biomedical Scientists

Mr. Bill O'Brien: To ask the Secretary of State for Health how many *(a)* radiologists and *(b)* biomedical scientists have been recruited into the NHS in each of the last five years; and if he will make a statement. [183011]

Mr. Hutton: The data requested are shown in the table.

National health service hospital, public health medicine and community health services: biomedical scientists and medical and dental staff with a specialty in clinical radiology in England as at 30 September each year

Headcount

	Biomedical scientists	*All medical and dental staff with a specialty in clinical radiology*	*of which: Consultant*
1999	12,714	2,164	1,507
2000	12,379	2,303	1,585
2001	12,742	2,454	1,645
2002	13,117	2,538	1,702
2003	12,898	2,693	1,810

Sources:
Department of Health Non-Medical Workforce Census.
Department of Health Medical and Dental Workforce Census.

Since 1999, the number of biomedical scientists employed in the national health service has increase by 184 or 1.4 per cent., the overall number of qualified staff working in pathology in the NHS has increased by 1,466 or 9 per cent. and the numbers working in support to these staff has increased by 2,221 or 25 per cent.

In terms of the medical work force, the number of clinical radiology staff has increased by 529 or 24 per cent. and the numbers of consultant clinical radiologists specifically have increased by 303 or 20 per cent. since 1999.

Furthermore, training places for biomedical scientists are being increased considerably to ensure increases in the work force in future years. Latest figures from strategic health authorities (SHAs) suggest that in 2003–04, around 200 or 74 per cent. more biomedical scientist students were supported by SHAs than were the previous year.

We are also ensuring that trained specialists are available in the future by investing in training places. We have centrally funded 186 additional specialist registrar places in clinical radiology between 2002–03 and 2005–06.

Reciprocal Health Care Arrangements

Mr. Ian Taylor: To ask the Secretary of State for Health what reciprocal health care arrangements are in place between the UK and other EU states; how many people were treated under these arrangements in the UK in each of the last five years, broken down by region; and what the cost of this arrangement to the UK was for each of the past five years, broken down by region. [184370]

Mr. Hutton *[holding answer 20 July 2004]:* Regulations (EEC) 1408/71 and 574/72 co-ordinate the social security and health care schemes of the European economic area countries (EEA). These regulations apply to employed or self-employed people and pensioners who are insured for health care under the state health system of a member state. The regulations provide, among other things, for health care for persons temporarily visiting another member state, referrals of patients specifically for treatment in another member state and health care for pensioners who relocate to another member state. Non-employed persons are also covered but only for health care during temporary visits.

Member states reimburse each other for treatments given to each others people. The following table shows costs for the last four years. Numbers of patients treated are not available since claims may cover several episodes of care for a single individual. No data are available on patients' United Kingdom region of origin.

Table 1: UK obligation under the (EEC) Regulation 1408/71—Resource estimates

£000

	Member states claims against the United Kingdom	*UK claims against member states*
1999–2000	176,400	26,500
2000–01	188,000	25,000
2001–02	231,900	31,300
2002–03	249,700	31,500

Notes:

1. Figures are based on latest available information and used in the 2002–03 Resource Accounting and Budgeting (RAB) outturn exercise. This information is compiled in line with the requirements of "Government Accounting 2000" and National Audit Office (NAO). Information for 1998–99 is not on a comparable basis.
2. Claims against UK are made in national currency and converted in sterling by using the quarterly mean exchange rates published by the Commission.

Refurbishment Costs

Mr. Burns: To ask the Secretary of State for Health what the cost of refurbishment of Department of Health owned buildings has been since May 1997. [184554]

Ms Rosie Winterton: For the seven years until 31 March 2004, the cost of refurbishment of the Department of Health's owned buildings has been as follows:

	£
1997–98	1,980,802
1998–99	1,271,733
1999–00	1,453,483
2000–01	652,456
2001–02	559,009
2002–03	1,874,284
2003–04	2,613,000
Total:	10,404,767

Seroxat

Mr. Burstow: To ask the Secretary of State for Health for what reason the manufacturers of Seroxat were permitted to market that product in a 30 mg tablet size. [179677]

Ms Rosie Winterton: I refer the hon. Member to the reply I gave to the hon. Member for East Worthing and Shoreham (Tim Loughton) on 21 June 2004, *Official Report*, column 1268W.

Sexually Transmitted Diseases

Mr. Burstow: To ask the Secretary of State for Health how many teenagers were treated for sexually transmitted diseases in *(a)* England, *(b)* each region and *(c)* each strategic health authority in each year since 1996. [177794]

Miss Melanie Johnson: I refer the hon. Member to the replies I gave him on 1 March 2004, *Official Report*, column 709W and on 25 March 2004, *Official Report*, column 1067W. I regret, however, that investigation has revealed that the data previously provided, on 1 March at column 709W in respect of strategic health authorities, was incorrect. Revised data are shown in the table.

New diagnoses of selected sexually transmitted infections (STIs)[1] in teenagers (under 20 years of age) by strategic health authority (SHA) in England, 1995–2002

Health Protection Agency, KC60 returns.

Shared Services Special Health Authority

Mr. Burstow: To ask the Secretary of State for Health what plans he has to establish a shared services special health authority; and if he will make a statement. [182656]

Mr. Hutton: There are no plans to establish a shared services special health authority.

Slaughter Processes

Norman Baker: To ask the Secretary of State for Health if he will take steps to ensure that all meat or meat products on sale which are the result of a slaughter process where pre-stunning has been absent are required to be labelled accordingly. [182246]

Miss Melanie Johnson: There is currently no requirement in United Kingdom law to provide the method of slaughter on labels. The Government recognise that some consumers may wish to have access to this information. This issue was one of the points raised by the Farm Animal Welfare Council's report on welfare at slaughter, the Government's response to which went out to public consultation. The Food Standards Agency will consider the responses to that consultation before deciding what action it might take on this issue. In the interim industry may wish to consider voluntary labelling to assist consumer choice in this area.

St. Helens and Knowsley Hospital Trust

Mr. Watts: To ask the Secretary of State for Health what the revenue and capital budgets were for the St. Helens and Knowsley Hospital Trust for each year from 1997 to 2004. [184617]

Miss Melanie Johnson: The information requested is not available in the format requested.

Information on revenue budgets for the national health service trust is only available for 1998–99 onwards. The revenue budget for the St. Helens and Knowsley Hospital NHS Trust is shown in the table.

£

	Amount
1998–99	104,391,000
1999–2000	112,857,000
2000–01	124,978,000
2001–02	140,625,000
2002–03	139,610,000

Note:
The figures represent the total income or "turnover" of the trust.
Source:
Audited summarisation schedules of St. Helens and Knowsley NHS Trust 1998–99 to 2002–03.

Prior to 2003–04, capital budget was allocated to the Department's former regional offices. The operational capital budget for the St. Helens and Knowsley Hospital NHS Trust is shown in the table.

£

	Amount
2003–04	2,674,000
2004–05	3,053,000
2005–06	3,454,000

Strategic Health Authorities

Mr. Spring: To ask the Secretary of State for Health if he will make a statement on the *(a)* remit and *(b)* activities of strategic health authorities. [184152]

Mr. Hutton: Strategic health authorities (SHAs) are the local headquarters of the national health service.

The main functions of SHAs are:

Creating a strategic framework to deliver the NHS Plan in their areas.

Managing the performance of NHS organisations in their areas.

Building capacity and supporting performance improvement across all local health agencies.

Surrey and Sussex Health Authority

Tim Loughton: To ask the Secretary of State for Health how much funding Surrey and Sussex Health Authority received in 2003–04. [185518]

Ms Rosie Winterton: The final resource limit for Surrey and Sussex Strategic Health Authority in 2003–04 was £126.8 million.

Tamworth

Mr. Jenkins: To ask the Secretary of State for Health what assessment he has made of the impact his Department's policies have had on *(a)* dealing with sickness rates and *(b)* promoting health in Tamworth constituency since 1997. [185837]

Dr. Ladyman: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded considerable benefits for the Tamworth constituency.

For example:

Inpatient and outpatient waits

In June 2002, there were 261 people in the Burntwood, Lichfield and Tamworth Primary Care Trust (PCT) area waiting nine months or longer for inpatient treatment, including day cases. In May 2004, no one was waiting nine months or longer.

In June 2002, there were 16 people in the Burntwood, Lichfield and Tamworth PCT area waiting 21 weeks or longer. In December 2003 there were none.

Accident and emergency waits

At Burton Hospitals NHS Trust, 93.3 per cent. of patients were admitted, transferred or discharged within four hours in the quarter to March 2004. The year average is 92.8 per cent., up from 89.2 per cent. in September 2002.

At Good Hope Hospital NHS Trust, 92.4 per cent. of patients were admitted, transferred or discharged within four hours in the quarter to March 2004. The year average is 94.3 per cent., up from 81.2 per cent. in September 2002.

Staffing

Between September 1997 and December 2003 the number of consultants at Burton Hospitals NHS Trust increased from 60 to 83. The number of nurses increased from 632 to 774 between September 1997 and September 2003.

Between September 1997 and December 2003 the number of consultants at Good Hope Hospital NHS Trust increased from 54 to 67. The number of nurses increased from 809 to 847 between September 1997 and September 2003.

Across the Burton, Lichfield and Tamworth PCT area, the number of general medical practitioners increased from 85 in September 2001 to 90 in December 2003.

Access to care

Figures for April 2004 show that all patients within Burntwood, Lichfield and Tamworth PCT are able to be offered an appointment with a general practitioner within two working days and with a primary care professional within one working day.

In Burton Hospitals NHS Trust, 100 per cent. of people with suspected cancer are now seen by a specialist within two weeks of being urgently referred by their GP.

In Good Hope Hospital NHS Trust, 99.8 per cent. of people with suspected cancer are now seen by a specialist within two weeks of being urgently referred by their GP.

Between 1998 and 2001 in Burntwood, Lichfield and Tamworth PCT there was a 35 per cent. decrease in the mortality rates for cardiovascular disease (Coronary Heart Disease, Stroke and related conditions) in the under 75s.

Allocations

From 2003–04 to 2005–06, Burntwood, Lichfield and Tamworth PCT's allocation has risen by £32.2 million or 30.4 per cent.

New Capital

A new £20 million independent sector treatment centre is being created at Burton Hospital NHS Trust, which will allow extra capacity for orthopaedic and ophthalmology surgery cases across the county.

Burntwood, Lichfield and Tamworth PCT is on course to build the new community hospital in Lichfield, ready for the summer of 2006. The enabling works have already been completed on site and the business case has been signed off. The overall cost is around £16 million. All the services presently available to the local population will be re-provided in the new Lichfield Hospital, with the exception of day surgery, which has transferred to the Sir Robert Peel Hospital in Tamworth.

Scanners

An additional computed tomography (CT) scanner was delivered to Good Hope Hospital NHS Trust in January 2004.

An additional magnetic resonance imaging (MRI) scanner was delivered to Good Hope Hospital NHS Trust in April 2001.

A replacement CT scanner was delivered to Burton Hospitals NHS Trust in February 2001.

An additional CT scanner will be delivered to Burton Hospitals NHS Trust by December 2004.

An additional MRI scanner will be delivered to Burton Hospitals NHS Trust by December 2004.

Source of information:

Department of Health, Office of National Statistics.

Temporary Staff

Mr. Flook: To ask the Secretary of State for Health whether, when hiring temporary clerical and administration staff, hospitals are required to comply with the national framework agreement. [185185]

Mr. Hutton: There is no mandatory requirement for national health service trusts to comply with the national framework agreement (NFA) set up by the NHS Purchasing and Supplies Agency (PASA). The benefits of using the NFA are clear. NHS trusts are encouraged to use the NFA by PASA.

Trainee Doctors

Tim Loughton: To ask the Secretary of State for Health (1) how many *(a)* whole-time equivalent and *(b)* headcount paediatric consultant specialists in kidney disease are working in the NHS; and how many vacant posts there are; [185411]

(2) how many trainee doctors specialising in paediatrics have been working in the NHS in each of the last seven years, broken down by gender; [185412]

(3) how many and what percentage of paediatric trainee doctors have gone on to take up consultancy posts in each of the last seven years. [185413]

Mr. Hutton: As at 31 December 2003, there were 1,589 whole-time equivalent and 1,753 headcount paediatric consultants working in the national health service. Data held by the Department do not distinguish how many of these consultants specialise in kidney disease.

As at 31 March, the three-month vacancy number for paediatric consultants was 43. The three-month vacancy rate was 2.7 per cent. This is lower than the average consultant three-month vacancy rate across all specialties, which was 4.7 per cent.

Table 1 shows the number of doctors in training in the paediatric specialty since 1997, broken down by gender.

Table 2 shows the cumulative total and percentage by year of first appearance as a consultant in the medical and dental workforce census.

Table 1: Hospital, public health medicine and community health services (HCHS) Staff, Paediatric group training grades by gender and specialty, 1997–2003, England, as at 30 September

Number (headcount)

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*

2002–03 cohort	—	—	—	—	—	—	—	—	—	—	50	21

[1] Expected certificate of completion of specialist training (CCST) date can change. If data have changed and moved later it is possible for the same trainee to appear under multiple years. Totals of each year appearing should therefore not be taken.
[2] All cohorts consist of specialist registrars with an expected CCST date of within one year of the date of the planning extract collection.
Note: Paediatrics is the paediatrics group, which covers paediatrics, paediatric neurology, paediatric cardiology.
Source: Medical and dental workforce census and planning extract.

United Healthcare

Mr. Burstow: To ask the Secretary of State for Health on what dates special advisers from his Department have met with United Healthcare since 1 May 1997; where each meeting was held; and which of his special advisers took part in each meeting. [184105]

Ms Rosie Winterton: Special Advisers Paul Corrigan and Darren Murphy met with United Healthcare on 24 June 2002 at No. 10 Downing street. Paul Corrigan met with United Healthcare again on 23 July 2002 at Church House, Great Smith street.

Waiting Times

Mr. Jenkins: To ask the Secretary of State for Health if he will list, for each of the last 10 years, the total number of patients in Tamworth constituency, or the nearest relevant unit of population, waiting for NHS operations for longer than *(a)* 18, *(b)* 15, *(c)* 12, *(d)* nine and *(e)* six months. [185836]

Dr. Ladyman: The information requested is not collected centrally on a constituency basis, but is collected at a primary care trust level (PCT) and the earliest available data are shown in the table.

Patients waiting for elective admission: Commissioner based

			Patients waiting for admission by months waiting				
Organisation	Month-end	Total number of patients waiting for admission	6 to 8 months	9 to 11 months	12 to 14 months	15 to 17 months	Over 18 months
South Staffordshire Health Commission	March 1996	9,404	343	15	5	0	0
South Staffordshire HA	March 1997	11,326	1,190	248	20	1	0
South Staffordshire HA	March 1998	15,817	2,422	1,316	591	62	0
South Staffordshire HA	March 1999	13,584	1,963	1,164	529	143	0
South Staffordshire HA	March 2000	12,997	2,046	1,203	610	173	0
South Staffordshire HA	March 2001	12,633	1,887	1,179	522	119	0
South Staffordshire HA	March 2002	11,827	1,766	731	9	0	0
Burntwood, Lichfield and Tamworth PCT	March 2003	3,081	383	114	0	0	0
Burntwood, Lichfield and Tamworth PCT	March 2004	2,891	183	0	0	0	0
Burntwood, Lichfield and Tamworth PCT	May 2004	2,998	233	0	0	0	0

Note:
In 2002, health authorities were abolished. Burntwood, Lichfield and Tamworth PCT covers the Tamworth constituency. The data from March 2003 onwards are therefore not comparable with previous data.
Source: Department of Health form QF01.

Mr. Burstow: To ask the Secretary of State for Health what account he takes in pursuing his plans for reducing bed occupancy in NHS hospitals, of the target to reduce waiting times to 18 weeks between GP referral and start of treatment. [186147]

Mr. Hutton: We have asked strategic health authorities and primary care trusts to take account of bed occupancy in their current capacity planning work to deliver 18-week waiting times.

Waiting Times

Mr. Burstow: To ask the Secretary of State for Health which health professionals will not immediately be covered by the 18-week target from general practitioner referral to treatment set in the Spending Review. [185965]

Mr. Hutton: Currently, the 18-week target covers general practitioner referrals to consultants. Work is continuing on whether and how to extend the range of guarantees. Further details will be available in the technical guidance to the public service agreement, which will be published by Her Majesty's Treasury. Final guidance will be issued in the autumn.

Mr. Lansley: To ask the Secretary of State for Health what plans his Department has to reconfigure departmental waiting list statistics so that they measure total waiting time to treatment as outlined in the NHS improvement plan. [184326]

Mr. Hutton *[holding answer on 15 July 2004]:* The national health service already measures total waiting time to treatment for cancer services with targets for maximum waiting times set in the "Cancer Plan" (2000).

The Government will shortly be setting out its plans for delivering the target outlined in the NHS Improvement Plan 2008, including how waiting times for diagnostic procedures and total waiting times will be measured.

Written Answers to Questions

Tuesday 7 September 2004

MINISTER FOR WOMEN

Beijing Platform for Action

Joan Ruddock: To ask the Minister for Women what her plans are for involvement in the Beijing Platform for Action, known as Beijing + 10. [187535]

Ms Hewitt: The celebration and evaluation of the 10 years since the Beijing Platform for Action will be an integral part of the UK Government's work on gender equality in 2005. The 49th Session of the Commission for the Status for Women (CSW) at the United Nations in March 2005 will review and appraise the implementation of Beijing over the last 10 years. The cross-Whitehall UK Government delegation will actively participate at CSW. We have already begun feeding into this process, completing a United Nations questionnaire on progress made since 1995 in the UK (available at www.womenandequalityunit.gov.uk), which will feed into the UN Secretary-General's report. During the UK Presidency of the EU, July to December 2005, we will host a major European conference and a Ministerial Informal meeting to consider best practice across the EU in relation to national implementation of the Beijing Platform. The UK Government are a strong advocate of the Beijing Platform for Action and UN initiatives to further gender equality.

LEADER OF THE HOUSE

Divisions

36. **Norman Baker:** To ask the Leader of the House if he will seek to amend the practice of Divisions to allow abstentions to be recorded. [187676]

Mr. Woolas: I have no plans to do so.

Sitting Hours

Kevin Brennan: To ask the Leader of the House when he expects to publish proposals for revised sitting hours of the House. [187672]

Mr. Hain: The Modernisation Committee, which I chair, is conducting an inquiry into the sitting hours of the House. I hope that it will report its findings to the House by the end of the year.

Parliamentary Publications

Mr. Truswell: To ask the Leader of the House what representations he has received since 27 April from the Plain English Campaign regarding the language used in parliamentary publications. [187674]

Mr. Woolas: My right hon. Friend has received no representations from the Plain English Campaign since March of this year, when representatives of that organisation met with the Modernisation Committee as part of its inquiry into Connecting Parliament with the Public.

SCOTLAND

Immigration

7. **Pete Wishart:** To ask the Secretary of State for Scotland when he last met the First Minister to discuss Scottish immigration issues. [187632]

Mrs. McGuire: My right hon. Friend and I have regular meetings with Scottish Ministers and the Home Office to discuss the Government's asylum and immigration policies. I last met the Minister for Citizenship, Immigration and Nationality and the Minister for Communities on 2 June this year.

Infantry Regiments

8. **Mr. Alan Reid:** To ask the Secretary of State for Scotland what recent discussions he has held with the Secretary of State for Defence regarding the Scottish infantry regiments. [187633]

Mr. Darling: My right hon. Friend and I have had recent discussions on a range of issues including the Scottish infantry regiments.

Consumer Debt

9. **Mr. Carmichael:** To ask the Secretary of State for Scotland if he will make a statement on the level of consumer debt in Scotland. [187634]

Mrs. McGuire: Growth in personal debt across the United Kingdom is slowing down. Estimates of Scottish consumer indebtedness are not readily available. However, at the end of July 2004 the total UK personal debt was £1,014.5 billion.

Post Office Closures

10. **John Barrett:** To ask the Secretary of State for Scotland what recent discussions he has had with the Secretary of State for Trade and Industry about the number of post office closures in Scotland. [187635]

Mr. Darling: My right hon. Friend the Parliamentary Under Secretary of State for Scotland and I have regular discussions with the Secretary of State for Trade and Industry about a variety of issues.

Civil Service Relocation

11. **Tony Worthington:** To ask the Secretary of State for Scotland if he will make a statement on the dispersal of Government jobs to Scotland. [187636]

Mr. Darling: Decisions about the relocation of jobs within Government Departments have yet to be made but will be based on Departments' operational needs and individual business cases rather than the particular

needs of specific areas or geographies. However, I have made quite clear to other Government Departments the advantages Scotland offers as a location.

13. **Mr. Donohoe:** To ask the Secretary of State for Scotland if he will make a statement on the impact of the Lyons review in areas in Scotland not named in the King Sturge report; and what active role his Department is taking towards public sector job relocation to Scotland. [187638]

Mr. Darling: Decisions about the relocation of jobs within Government Departments have yet to be made but will be based on Departments' operational needs and individual business cases rather than the particular needs of specific areas or geographies. However, I have made quite clear to other Government Departments the advantages Scotland offers as a location and have encouraged them to consider Scotland when reviewing relocation plans.

Small Business Regulation

12. **Mr. Bellingham:** To ask the Secretary of State for Scotland what recent representations he has received from small business organisations regarding regulation. [187637]

Mr. Darling: I met representatives from Chambers of Commerce throughout Scotland yesterday when a number of regulatory issues were discussed. Furthermore, my hon. Friend., the Parliamentary Under Secretary of State, is a member of the Small Business Consultative Group chaired by the Scottish Executive and all meetings of this group have a standing agenda item on regulatory issues. The Government and the Scottish Executive are committed to ensuring that businesses do not face unnecessary regulatory burdens.

Scottish Parliament

14. **Sir Teddy Taylor:** To ask the Secretary of State for Scotland if he will take steps to provide an opportunity to enable the people of Scotland to decide whether they wish to retain a Scottish Parliament. [187639]

Mr. Darling: No. The Scottish Parliament represents the settled will of the Scottish people expressed convincingly in the referendum of 1997.

Postal Services

15. **Mr. Weir:** To ask the Secretary of State for Scotland what recent representations he has received regarding postal services in Scotland. [187640]

Mrs. McGuire: My right hon. Friend and I receive a wide range of representations on Scottish matters.

Designated Accommodation

Bob Spink: To ask the Secretary of State for Scotland how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion and *(c)* nursing mothers and pregnant women in each building and set of offices for which his Department is responsible. [187322]

Mrs. McGuire: The Scotland Office has one room set aside for smokers. No rooms are currently set aside for worship or for nursing mothers and pregnant women and no requests for such rooms have been received, but appropriate arrangements can be made if necessary.

Parliamentary Boundaries

Mr. Peter Duncan: To ask the Secretary of State for Scotland what indications he has received from the Boundary Commission for Scotland as to when it expects to deliver to him its report on Parliamentary Boundaries in Scotland. [186383]

Mr. Darling: It is a matter entirely for the Boundary Commission for Scotland when, before December 2006, it reports to me. The Commission is aware that, following the Scottish Parliament (Constituencies) Act 2004 receiving Royal Assent on 22 July, it is no longer under a duty to review the regional boundaries for the Scottish Parliament. In light of its progress so far, it seems likely that the Commission will report much sooner than its deadline, but the timing is a matter for it.

WALES

Departmental Staff (Upper Age Limits)

Mr. Andrew Turner: To ask the Secretary of State for Wales whether his Department has *(a)* a set retirement age that applies to all or most personnel and *(b)* a maximum age beyond which applications for employment will not be considered; and what the age is in each case. [186089]

Mr. Hain: Staff working in the Wales Office before June 2003 were on secondment or loan from other Departments—predominantly from the National Assembly for Wales. Their home departments therefore set the retirement age and any retirement taken would be from the home department rather than from the Wales Office.

Since June 2003 the Wales Office has operated the retirement policy of the Department for Constitutional Affairs for those staff who are not on loan.

Devolved Government

Mr. Wiggin: To ask the Secretary of State for Wales when he next plans to meet the First Secretary of the National Assembly for Wales to discuss the future of Devolved Government in Wales. [184032]

Mr. Hain: I have regular meetings with the First Minister to discuss a number of different issues that effect Wales, including the future of Devolved Government.

Public Relations

Dr. Cable: To ask the Secretary of State for Wales what the salary costs to the Department were for employees working in public relations and publicity in each year since 1997. [183845]

Mr. Hain: The Wales Office does not have the executive responsibilities which would generally require publicity or public relations expenditure.

The Wales Office does employ three Press Officers, whose basic salary scales currently range from £23,764 to £31,003, £26,688 to £35,214 and £42,999 to £56,737.

Referendum Threshold

Mr. Wiggin: To ask the Secretary of State for Wales whether it is his policy that a turnout threshold be included in plans for a referendum on granting tax-raising powers to the Welsh Assembly. [183390]

Mr. Hain: No.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Automotive Emissions

Richard Burden: To ask the Secretary of State for Environment, Food and Rural Affairs what information she has sought about the emissions level that has been established for the automotive sector under the *(a)* German, *(b)* French, *(c)* Spanish and *(d)* Italian national allocation plans; what this represents as a proportion of actual emissions in 2002; and if she will make a statement. [186276]

Mr. Morley: We understand that the French, Spanish and Italians are proposing to adopt a narrow interpretation of the scope of the Directive that will exclude, inter alia, installations in the automotive sector from the scheme in those member states. We have already raised this issue with the Commission and will continue to press for them to resolve this issue as soon as possible.

The German allocation plan does not contain information on sectoral or individual installation allocations so it is not possible to provide an assessment of the emissions levels for their automotive sector. We are pressing Germany and other member states to publish the details of the projections used in their allocation plans to improve transparency in the assessment process.

Richard Burden: To ask the Secretary of State for Environment, Food and Rural Affairs when she last met representatives of the automotive sector to discuss the UK implementation of the EU Emissions Trading Scheme. [186277]

Mr. Morley: Officials from Defra and DTI have met with representatives of the automotive sector on a number of occasions, including a meeting with the Society of Motor Manufacturers and Traders (SMMT) in February to discuss the draft National Allocation Plan. Defra officials have attended meetings of the DTI-led Vehicle Industry Policy and European Regulation (VIPER) meetings to discuss the implementation of the EU Emissions Trading Scheme (EU ETS).

Representatives of the automotive sector have also attended numerous Government seminars covering a range of issues related to the EU ETS.

Officials from Defra, DTI, Treasury and Number 10 are also due to be meeting with SMMT officials in early August to discuss the EU ETS.

Departmental Accounting Practice

Mr. Bacon: To ask the Secretary of State for Environment, Food and Rural Affairs who the Finance Director of *(a)* the Department, *(b)* the Office for Water Services and *(c)* the Forestry Commission is; what accountancy qualifications each Director holds; and on how many occasions there has been a qualified opinion on (i) the resource accounts and (ii) other accounts of each in the last five years. [183427]

Alun Michael: Defra was formed in June 2001. Currently the Finance Director is Andrew Burchell who took up his post in October 2001. He is a career civil servant who does not hold any CCAB recognised qualification.

Audit opinion on the Core Department's accounts for the last five years has been as follows:

Since the formation of Defra, the NAO's Opinion on published accounts has been as follows:

	Resource account	*Vote account*
2001–02	Qualified opinion	Not applicable
2002–03	No qualification	Not applicable
2003–04	Audit not yet completed	Not applicable

Ofwat's Finance Director is Roger Dunshea (joined Ofwat 1998) who does not hold any CCAB recognised qualifications. There have been no qualified opinions on the accounts in the last five years. The 2003–04 audit has not yet been completed.

Emissions Trading

Mr. Anthony D. Wright: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to *(a)* maintain UK emissions targets in relation to the EU Emissions Trading Scheme National Allocation Plan and *(b)* incorporate a proportion of benchmarking into allocations for individual installations under these proposals; and if she will make a statement. [186254]

Mr. Morley: The UK emissions targets in relation to the EU Emissions Trading Scheme National Allocation Plan are set out in the plan that was notified to the Commission in April 2004. We have pointed out that the figures in the plan are subject to further change for a number of reasons, including final updates to the emissions projections.

Generally, the allocation to incumbent installations (those in operation prior to 1 January 2004) is calculated based on historic emissions. The allocation to new entrant installations (those in operation subsequent to a January 2004) will be calculated using a standardised benchmarking methodology.

Mr. Trimble: To ask the Secretary of State for Environment, Food and Rural Affairs whether the percentage allocation of emission permits under the European Union's Emissions Trading Scheme to Northern Ireland's power stations will be at the same level as the Great Britain average. [186306]

Mr. Morley: The UK National Allocation Plan that was notified to the European Commission in April, stated that the UK had yet to make a final decision on whether the particular characteristics of the electricity

supply industry in Northern Ireland made it appropriate to split the power station allocation prior to distribution to installations.

We are continuing to discuss this with officials from Northern Ireland and intend to make an announcement later this year.

Richard Burden: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the impact of UK implementation of the EU Emissions Trading Scheme on the competitiveness of vehicle manufacturing in the UK. [186278]

Mr. Morley: In the UK National Allocation Plan, sectors that are subject to international competition have been allocated according to projected need. The impact of the scheme on these sectors is expected to be similar to that of existing national policies. In those member states where more effort needs to be made to reach Kyoto targets, the impact of the scheme is expected, over time, to be that much greater.

We are aware of different proposed implementation in the French and Spanish allocation plans, which would result in the vehicle manufacturing industries in those member states not being included in the scheme. We are continuing to press the Commission to resolve this issue as soon as possible. The UK has also been lobbying the Commission to ensure their assessment of allocation plans is robust, consistent and transparent.

Flood Defences

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs what specific resources have been allocated to river and coastal flood defences between 2005–06 and 2007–08; and if she will make a statement. [186569]

Mr. Morley: Defra funds most of the Environment Agency's flood defence activities and provides grant aid on a project-by-project basis to the other flood and coastal defence operating authorities (local authorities and internal drainage boards) to support their investment in improvement projects to manage flood and coastal erosion risk.

The Department plans to invest at least £564 million each year between 2005–06 and 2007–08 in the management of flood and coastal erosion risk and related expenditure. The amount for flood defence projects (as opposed to projects primarily for coastal erosion or other activities such as funding of the Storm Tide Forecasting Service) will be decided later this year.

Landfill

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* complaints, *(b)* court actions and *(c)* fines against landfill sites for problems related to (i) odours, (ii) water pollutions, (iii) air pollution and (iv) human health impact there were in each year since 1995, broken down by region. [184862]

Mr. Morley: The Environment Agency holds information on reported incidents of pollution on the National Incident Recording System and information on court actions and fines, separately on the National Enforcement Database. It is not possible to present the data in the form requested so a document setting out the available information will be deposited in the Library of the House.

INTERNATIONAL DEVELOPMENT

Venezuela

Mr. Pike: To ask the Secretary of State for International Development what support the British Government offered to Venezuela following the floods in Caracas in December 1999; and if he will make a statement. [186412]

Mr. Gareth Thomas: DFID provided over £770,000 to Venezuela following the floods in December 1999. This was mainly through the World Health Organisation, the United Nations Children's Fund and the British Red Cross. These funds went towards providing emergency assistance for those affected and initiating long-term rehabilitation for up to 10,000 families.

Designated Accommodation

Bob Spink: To ask the Secretary of State for International Development how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion and *(c)* nursing mothers and pregnant women in each building and set of offices for which his Department is responsible. [187316]

Mr. Gareth Thomas: DFID's two main UK offices at 1 Palace Street, London, and Abercrombie House, East Kilbride, both have a smoking room, a room set aside for worship (not designated for any specific faith) and a nursing mothers room. The provision of facilities such as those for religious groups and nursing mothers is a small but important contribution to our Commitment to creating a workplace which embraces diversity, one of DFID's core values.

Kenya

Mr. Dodds: To ask the Secretary of State for International Development what proportion of the international aid budget was spent in Kenya in each year since 1997. [187409]

Hilary Benn: The proportion of DFID's total aid budget which was spent in Kenya in each year since 1997 is set out in the first column of the following table. The second column gives the proportion of DFID's bilateral programme spent in Kenya. In addition to the funding disbursed under DFID's bilateral programme, we estimate that about £10 million is disbursed annually to Kenya through the contributions which we make to multilateral institutions.

Expenditure in Kenya as percentage of DFID programme

	Percentage of total programme	*Percentage of bilateral programme*
1997–98	1.4	2.8
1998–99	1.4	2.9
1999–2000	1.0	2.0
2000–01	1.8	3.7
2001–02	0.9	1.8
2002–03	1.3	2.4
2003–04	0.7	1.3

Mr. Dodds: To ask the Secretary of State for International Development what recent discussions he has had with the Kenyan Government on aid from the UK in relation to corruption within Kenya. [187410]

Hilary Benn: DFID is in regular contact with the Kenyan Government on the issue of corruption and its impact on our development assistance. DFID's Kenya Country Assistance Plan recognises that poverty reduction budget support is the Government of Kenya's preferred form of aid. It also makes clear that the level of British aid to Kenya, and whether or not we will provide bilateral poverty reduction budget support, will depend on the pace with which the Kenyan Government implements its Economic Recovery Strategy, especially in tackling corruption, preparing and implementing budgets that benefit the poor, and strengthening public financial management. Progress is not yet sufficient to enable us to provide such support. This point was most recently reinforced in a meeting with President Kibaki on 1 September.

We are particularly concerned about recent reports of corruption allegedly involving senior members of the Kenyan Government and have urged President Kibaki, in previous meetings, to ensure that appropriate and firm action is taken to investigate these reports, make the results public and take appropriate action against all those found to have acted corruptly. Some progress is being made, i.e. in the establishment of anti-corruption institutions, but it still remains to be seen whether this will lead to decisive action in the short-term.

We will, therefore, continue to use sector support and project aid where we believe that it can have a sustainable impact on poverty reduction and progress towards the Millennium Development Goals in Kenya.

PFI/PPP Contracts

Matthew Taylor: To ask the Secretary of State for International Development how many contracts his Department had with *(a)* Barclays, *(b)* Royal Bank of Scotland, *(c)* UBS Warburg and *(d)* Bank of Scotland for advice on private finance initiative and public private partnership contracts in each financial year since 2001–02; and what fees were paid in each case. [186693]

Hilary Benn: None.

Political and Economic Liberalisation

Mr. Wiggin: To ask the Secretary of State for International Development what research his Department has commissioned regarding connections between political and economic liberalisation and improvements in human security in developing countries. [186775]

Hilary Benn: DFID funded research in this area as part of a three year programme on 'Globalisation and Poverty Elimination' between 2000 and 2003. The website address is www.gapresearch.org

DFID currently funds the Crisis States Development Research Centre based at the London School of Economics. Website www.crisisstates.com.

Somalia

Mr. Liddell-Grainger: To ask the Secretary of State for International Development what support he is giving to humanitarian operations in Somalia. [186443]

Hilary Benn: So far in 2004 DFID has agreed to provide £2,941,534 for the following ongoing humanitarian operations in Somalia (DFID contribution in brackets):

African Medical and Research Foundation (AMREF) "Gedo Regional Health Care programme" (£287,521);

International Committee of the Red Cross "2004 Appeal" to provide humanitarian assistance—food, health, shelter, water, sanitation and hygiene—to those affected by instability and conflict (£400,000);

International Medical Corps "Primary Health Care in Bay, Bakool and Hiraan regions" (£480,000);

Medecins sans Frontieres "Basic Health and Nutrition, Lower Juba" (£1,225,390)

Medecins Sans Frontieres "Primary Health Care, Middle Shabelle" (£424,013);

United Nations Children's Fund (UNICEF) "Nutritional Supplementation to children and pregnant women" (£300,000);

United Nations Children's Fund (UNICEF) "Expanded Programme on Immunisation, including Polio Eradication Initiative" (£300,000);

United Nations Office For The Coordination Of Humanitarian Affairs (OCHA): "Coordination Support Services" (£250,000);

United Nations Office For The Coordination Of Humanitarian Affairs (OCHA): "Humanitarian Response Fund" (£500,000).

The Somali population, due to instability and severe poverty, remains highly vulnerable to climatic and conflict generated crisis. DFID's continuing humanitarian assistance to Somalia will be based on assessed needs and will address immediate and critical problems in order to reduce suffering and save lives.

Sugar Protocol

Tony Cunningham: To ask the Secretary of State for International Development whether under Common Agricultural Policy reform of the sugar protocol there are mechanisms in place to prevent short-term dumping on developing countries. [186323]

Mr. Gareth Thomas: The European Commission presented a communication to the Agriculture Council on 19 July that set out their preferred option for reform. The communication proposes to substantially reduce sugar exports and export refunds, abolish intervention, reduce ELI production and the internal sugar price and grant a de-coupled payment to sugar beet farmers. The reform process will start in July 2005. This should make the regime more market oriented and reduce the quantity of EU sugar exported to third markets. If the option were to be agreed, the Commission estimate that the combined, aggregate effect of the proposals on support price and quota reduction would be a significant reduction in the level of EU production under quota, from 17.3 million to 14.5 million tonnes per year. In turn, as a consequence of the substantial reduction in the overall level of EU production, EU subsidised sugar exports dumping are projected to fall by around 2 million tonnes. The Commission communication will be the subject of discussion between the EU Member States over the coming months.

Tony Cunningham: To ask the Secretary of State for International Development whether under Common Agricultural Policy reform of the sugar protocol there are transitional arrangements for African, Caribbean and Pacific countries. [186324]

Mr. Gareth Thomas: The European Commission (EC) presented a Communication to the Agriculture Council on 19 July that set out their preferred option for reform. To address the impact on the African, Caribbean and Pacific countries (ACP)s, the European Commission will work with affected countries on the basis of an action plan to be produced by the end of 2004 to define appropriate trade and development measures. Tailor made programmes should help ACPs adapt and improve the competitiveness of their sugar industry where viable or help to support their diversification out of sugar. DFID welcomes this commitment in the Communication and are keen to help facilitate the dialogue between the EC and the ACP on this action plan. DFID is commissioning a study from the Overseas Development Institute that should help those countries affected determine their priorities for a transitional package.

Tony Cunningham: To ask the Secretary of State for International Development whether the Department is funding research into alternative uses for sugar, with particular reference to developing countries, in the light of Common Agricultural Policy reform of the sugar protocol. [186325]

Mr. Gareth Thomas: DFID has always stressed the need to take account of the impact that reform of the EU sugar regime will have on our developing country preferential suppliers. DFID is conscious that substantial reform will give rise to transitional problems for the African, Caribbean and Pacific countries (ACP)s that currently benefit from preferential access to the EU market at existing price levels and for the Least Developed Countries (LDC)s seeking to develop an export trade to Europe under the EBA initiative.

In order to help inform the debate and ensure the impact on developing countries is taken sufficiently into consideration, DFID commissioned a study last year with LMC International and Oxford Policy Management, 'Addressing the Impact of Preference Erosion in Sugar on Developing Countries'. The study is divided into two sections. The first part assesses the economic and social impact on the ACP Sugar Protocol countries of the various reform scenarios suggested by the European Commission. The latter part of the study assesses alternative options for addressing the impact of preference erosion in sugar. The purpose of this analysis was to identify various options for debate by the ACP and the EU.

DFID has recently commissioned two further pieces of work on this issue. The first report has been commissioned with LMC International, 'EU Sugar Reform: the Implications for the Development of LDCs and should be finalised early next month. The second report has been commissioned from the Overseas Development Institute, 'Forthcoming changes in EU sugar/banana markets: a menu of options for an effective EU transitional assistance package' and should also be finalised next month. This report should help those countries affected by reform determine their priorities for a transitional package. This report will include some analysis of alternative uses for sugar.

Vietnam

Angus Robertson: To ask the Secretary of State for International Development (1) if he will outline his Department's strategy with regard to the Montagnard people of Vietnam since 1997; and if he will make a statement; [187268]

(2) how much *(a)* monetary aid and *(b)* aid in kind his Department has (i) pledged and (ii) delivered to projects directly impacting on the Montagnard people of Vietnam since 1997; and if he will make a statement. [187269]

Mr. Gareth Thomas: The Department for International Development's (DFID) engagement in Vietnam since 1997 has focused on supporting the Vietnamese Government in implementing its own strategies for poverty reduction. In their five-year plans, the Government of Vietnam has highlighted the severe poverty issues facing the Central Highlands where the majority of the Montagnard people live.

From 1997 to 2003 DFID's strategy focused on working with other donors. During this period DFID has developed two projects with the Asian Development Bank (ADB) which aim to improve the quality of services provided by the Vietnamese Government to poor people in four provinces of the Central Highlands region. The projects focus on greater participation by poor people in planning and monitoring services, which should ensure that the services provided are more appropriate and of better quality. In addition, DFID has funded UNICEF to improve water supplies to rural areas in three Central Highlands provinces.

In DFID's Vietnam Country Assistance Plan, 2004–06, a key strategic objective is to strengthen the Government's efforts to achieve development which is socially inclusive. In addition to the co-financed ADB projects mentioned above, DFID is currently addressing the development needs of the Montagnard people through co-financing a number of national programmes, which include Central Highlands provinces, districts and communes along with those in other poor areas of Vietnam. In education, our two national programmes with the World Bank, Primary Education for Disadvantaged Children and Primary Teachers Development Project, are strengthening the capacity of local government to improve the quality of primary education for all children. In transport, DFID is working with the World Bank to improve access to rural roads for poor people and building Government capacity to monitor and forecast associated recurrent budget costs. DFID also co-finance two United Nations Development Programme projects aimed at strengthening the capacities of the National Assembly and a number of provincial People's Councils, including several in the Central Highlands region.

The only programmes where DFID can explicitly disaggregate it's monetary aid, and aid in kind, for the Montagnard people are for our Rural Transport Programmes, and our Central Region Livelihoods Improvement Programme (CRLIP). Since 1997 our

Rural Transport Programmes have disbursed £512, 427 in the two Central Highland provinces of Dak Lak and Gia Lai. The CRLIP has pledged £2,766,667 to the Central Highland Province of Kon Turn.

The following table details monetary aid from DFID's national programmes that cover the Central Highlands provinces where most of the Montagnard people live in Vietnam.

Project title	*Allocation (£)*	*Project duration*	*Project location*
Primary Education for Disadvantaged Children (PEDC)	26,500,000	2003–09	38 provinces including four central highland provinces—Dak Lak, Gia Lai, Kon Turn, Lam Dong
Primary Teacher Development Project (PTDP)	8,256,000	2002–05	10 provinces including one central highland province—Kon Turn
Capacity Building for Central Region Poverty Reduction (CBCRPR)	1,800,000	2002–04	Four provinces including one central highland province—Kon Turn
Support to the Office of the National Assembly and People's Councils (ONA project)	330,000	2004–08	15 provinces including two central highland provinces—Dak Lak, Kon Turn
Support to the Committee for Economic and Budgetary Affairs (CEBA)	672,000	2003–08	11 provinces including one central highland province—Lam Dong
Vietnam: Rural Water Supply and Environmental Sanitation Programme—UNICEF Core Funding Project	2,880,000	1999–2002	14 provinces including three central highland provinces—Kon Turn, Gia Lai, Dak Lak

Water and Sanitation Goals

Mrs. Helen Clark: To ask the Secretary of State for International Development how much of the Departmental Expenditure Limits agreed up to 2007–08 will be spent in pursuit of the water and sanitation Millennium Development Goals targets *(a)* directly and *(b)* indirectly through (i) budget support and (ii) other programmes which require access to safe water and sanitation to be fully effective. [186127]

Mr. Gareth Thomas: DFID's support for the water sector is predominantly through our country programmes and support to multi-lateral institutions. This includes direct water sector activities, improvements attributed through assistance to other sectors such as health and education, as well as through our poverty reduction budget support, where expenditure reflects developing countries' own priorities and our assistance is coordinated with that of other donors. DFID works to assist countries to use their budgets to make the biggest impact on reducing poverty. DFID's Water Action Plan published in March 2004 and available on our website: www.dfid.gov.uk emphasises the importance of water and sanitation in all aspects of development.

DFID does provide significant support to the water sector; DFID's bilateral expenditure alone was estimated at £87 million in 2001–02. DFID is currently undertaking work to update it's estimates and project our likely expenditure on water-related activities through to 2007–08, both bilaterally and multilaterally, including the results of DFID's initial resource allocation round in autumn 2004.

Critically, during 2005, the international community will be reviewing progress against all the MDGs, including the water and sanitation targets, and there will be a special UN General Assembly discussion. Leading up to that, the UK and other parties will be reviewing what further action needs to be taken on water and sanitation at the UN Commission for Sustainable Development in April 2005.

HOUSE OF COMMONS COMMISSION

Summer Recess Visitors

37. **Mr. Pike:** To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission how many people visited the House during the summer recess. [187678]

Sir Archy Kirkwood: Up to and including 1 September, a total of 72,450 people had visited Parliament during the summer recess; 67,757 were on public (paying) tours and 4,693 were on Members' tours.

The total number of people who have pre-booked and paid for tours on 2, 3 and 4 September and during the conference recess is 6,795. Another 2,161 people have pre-booked, but not yet paid for tours.

Crèche Facilities

Harry Cohen: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission, what assessment the Commission has made of the need for crèche facilities to be made available for people attending official meetings with hon. Members in the House.(187677)

Sir Archy Kirkwood: It is important that visitors are made to feel welcome on the Parliamentary Estate. However, the Commission has not made any assessment of the need for crèche facilities to be made available for people attending official meetings with hon. Members. I should point out that very little use is made of the baby care and changing facilities we already provide, and that the reception desks have no record of any request for crèche facilities for visitors.

HOME DEPARTMENT

Advertising

Dr. Cable: To ask the Secretary of State for the Home Department how much money was spent on advertising and promotional literature for his Department's initiatives, broken down by year since 1997. [183807]

Fiona Mactaggart: The amount spent by the Home Office on advertising and publications over this period is set out as follows. Printing and publishing costs were not centralised within the Home Office until 1999–2000 and it is not possible to produce spending figures prior to this. The figures for publications include all Home Office publications including command papers and other policy documents, as well as campaign related literature.

1996–97

Advertising spend was £5.23 million in a total communication budget of £8.328 million. Communication spend represents 0.13 per cent. of total Home Office public expenditure of £6,416 million Campaigns included car crime, recruitment of special constables, fire safety and electoral registration.

1997–98

Advertising spend was £1.4 million in a total communication budget of £3.372 million. Communication spend represented 0.05 per cent. of total Home Office public expenditure of £6,747 million. Campaigns included recruitment of special constables, fire safety, absent voting and electoral registration.

1998–99

Advertising spend was £1.8 million in a total communication budget of £4.194 million. Communication spend represents 0.00005 per cent. of total Home office public expenditure of £7,608,178 million.

Campaigns included smoke alarms, recruitment of special constables, crime partnerships and electoral registration.

1999–2000

Advertising spend was £5.65 million in a total communication budget of £10.08 million which included £2.626 million on publications. Communication spend represents 0.000012 per cent. of total Home Office public expenditure of £7,996,184 million. Campaigns included chip pan safety, fire safety, recruitment of special constables, European parliament elections and electoral registration.

2000–01

Advertising spend was £28.36 million in a total communication budget of £35.637 million which included £3.128 million on publications. Communication spend represents 0.00039 per cent. of total Home Office public expenditure of £9,068,695 million. Campaigns included fire safety, vehicle crime and the recruitment of police officers.

2001–02

Advertising spend was £14.4 million in a total communication budget of £25 million which included £2.995 million on publications. Communication spend represents 0.00023 per cent. of total Home Office public expenditure of £10,820,813 million. Campaigns included fire safety, vehicle crime, internet child protection, drugs, recruitment of police officers and special constables, and postal voting.

2002–03

Advertising spend was £9.9 million in a total communication budget of £18.3 million which included £2.493 million on publications. Communication spend represented 0.00013 per cent. of total Home office public expenditure of £13,493,081 million. Campaigns included vehicle crime, internet child protection, drugs, the firearms amnesty and the recruitment of police officers.

2003–04

Advertising spend was £12.487 million in a total communication budget of £22,083 million which included £2.986 million on publications. Communication spend represents 0.00017 per cent. of total Home Office expenditure of £12,605,526 million. Campaigns included vehicle crime, internet child protection, drugs, recruitment of police officers and domestic violence.

Note:

Please note that the total public expenditure figures for 1996–97 and 1997–98 were compiled under a different accounting system to later years—and are therefore not directly comparable.

Antisocial Behaviour Orders

Mr. Tony Clarke: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been served in Northampton in each year since their introduction. [186467]

Ms Blears: By 31 March 2004, as notified to the Home Office, one antisocial behaviour order has been issued within the Northampton borough council local government area. This was issued in June 2003.

Mr. Cummings: To ask the Secretary of State for the Home Department how many antisocial behaviour orders were *(a)* applied for and *(b)* granted in the County of Durham in the last 12 months for which figures are available, broken down by magistrates court. [186439]

Ms Blears: The available information is given in the following table.

Number of ASBOs, as notified to the Home Office, for all courts in the County of Durham, by complainant and type of court, 1 April 2003 to 31 March 2004

		By application			
		Applications by complainant			
Type of court	*Total applications*	*Local authority*	*Police*	*On conviction*[1]	*Total issued*
Magistrates court					
North Durham PSA	8	4	4	2	10
South Durham PSA	3	—	3	—	3
Crown court					
Durham CC				1	1
County court	—	—	—	—	—
Total	11	4	7	3	14

[1] Type of applicant not applicable.

Mr. Ruffley: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in *(a)* the constituency of Bury St. Edmunds and *(b)* Suffolk since their introduction. [187192]

Ms Blears: The available information is given in the following table.

Number of ASBOs, as notified to the Home Office, for all courts in Suffolk, by area, 1 April 1999 to 31 March 2004

Area	*Total issued*
Suffolk	45
From 1 April 1999 to 31 May 2000 by pfa[1]	3
From 1 June 2000 to 31 March 2004 by local authority area	42
of which:	
Mid Suffolk DC	—
St. Edmundsbury BC	2

[1] Between 1 April 1999 to 31 May 2000 data are available by police force area (pfa) only.

Note:
The constituency of Bury St. Edmunds comprises 16 wards of the District of Mid Suffolk and 14 wards of the Borough of St. Edmundsbury.

Community Safety

Sandra Gidley: To ask the Secretary of State for the Home Department what steps he is taking to consult older people on issues of community safety. [186449]

Ms Blears: Within the Crime and Disorder Act 1998, local authorities are required to work with the police to conduct a review of levels and patterns of crime and disorder. They are then required to consult widely with key agencies, community groups, charities (such as Help the Aged and Age Concern) and the community about these findings. Each of the 376 Crime and Disorder Reduction Partnerships across England and Wales conduct resident surveys on a variety of issues to find out what people's concerns are, and then act on them as necessary. The survey covers a whole spectrum of residents from young people to older people.

In addition, the Fear of Crime Team within the Home Office have presented to, and facilitated, workshops at the Help the Aged National and Regional Senior Safety Conferences, developed and published a vulnerability strategy which identifies and addresses fear of crime issues among older people, and developed Fear of Crime reassurance cards, which challenge misperceptions about local crime issues. These cards are being disseminated to older people by Help the Aged handyvan fitters and neighbourhood wardens.

Community Sentences

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the reporting procedures are for the performance of prison alternatives. [182285]

Paul Goggins: The National Probation Service (NPS) will shortly publish its annual report for 2003–04. In addition, each of the 42 operational areas of the NPS is required to produce its own annual report by the end of October.

The National Probation Directorate produces a quarterly Performance Report, which sets out the extent to which local probation areas are performing against targets and how the key strategic objectives are being delivered. The reports are available on the NPS website (www.probation.homeoffice.gov.uk/output/page34.asp).

The Home Office Research, Development and Statistics Directorate publishes Probation Statistics for England and Wales on an annual basis. This presents statistics and trends relating to the work of the service, including the number of offenders under different types of supervision, the number of reports produced and staff in post. The most recent edition, published in January 2004, covers the year 2002 and is available on the Home Office website (www.homeoffice.gov.uk/rds/probation1.html). The web address also provides access to a number of Home Office Research Studies on themes relevant to the work of the NFS.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) what plans the Government have to publicise successful outcomes of community sentencing; [182287]

(2) what plans he has to use the media to communicate information on community sentencing to the public; [182290]

(3) what measures *(a)* are in place and *(b)* he will introduce to demonstrate to the public that community sentences are serious penalties for offenders. [182294]

Paul Goggins: There is in place a communication strategy to improve public knowledge, understanding of, and confidence in, community sentences.

The Home Office and local Probation Areas are also working to increase the public's understanding and knowledge of the range of community sentences available to the courts. The aim is to demonstrate that community punishment can be tough and demanding, making sure that offenders put something back into the community. A national visibility scheme for community. The reparation marque 'Making Amends' identifies locations that have benefited from community work.

We will also promote public awareness of the new community sentences created by the Criminal Justice Act 2003, including Custody Minus and the new generic community sentence, as they come on stream next year.

Contingency Planning

Kali Mountford: To ask the Secretary of State for the Home Department if he will make a statement on emergency planning arrangements in the UK. [184912]

Mr. Blunkett *[holding answer 20 July 2004]:* I refer my hon. Friend to the answer given to my hon. Friend the Member for Hamilton, South (Mr. Tynan) on 27 July 2004, *Official Report*, column 844W.

Crime (Great Yarmouth)

Mr. Anthony D. Wright: To ask the Secretary of State for the Home Department what recent assessment has been made of the level of fear of crime among the people of Great Yarmouth. [186715]

Ms Blears: A Citizens' Panel is currently being conducted across Norfolk which includes questions about crime, the fear of crime and antisocial behaviour. The results will be broken down to district council level and will be published in December this year on the Norfolk Citizen Panel website, the address is: www.norfolk.gov.uk/citizenspanel/content/panellist_results.asp.

Departmental Expenditure/Staff

David Davis: To ask the Secretary of State for the Home Department what the *(a)* capital and *(b)* running costs of mobile phones in his Department were in each year since 2001. [185291]

Fiona Mactaggart *[holding answer 20 July 2004]:* The accounting policy of the Home Office is to only capitalise assets whose cost is greater than £5,000. Mobile phones purchased as part of a contract are treated as a revenue expense.

The running costs for each year since 2001 are as follows:

	£
2001	890,715.68
2002	1,260,983.99
2003	1,282,909.33

Mr. Oaten: To ask the Secretary of State for the Home Department how many full-time equivalent staff there have been in *(a)* his Department and *(b)* agencies of the Department in each year since 1997. [182219]

Fiona Mactaggart: The following table provides a reply to the question based on the civil service statistics staff levels since 1996.

These are full-time equivalent figures, based on civil service statistics, 1997 onwards available from the available civil service statistics. All figures are as at April.

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Central Home Office and IND (excluding agencies)	9,358	8,037	7,711	9,270	13,020	13,550	16,540
Fire Service College	215	253	188	180	190	—	—
Forensic Science Service	1,185	1,238	1,638	1,780	2,190	2,420	2,660
United Kingdom Passport Agency	1,407	1,276	1,245	1,320	2,270	2,770	2,600
Prison Service	37,704	39,363	38,719	40,560	41,940	41,780	43,210
Home Office Total	49,869	50,167	49,501	53,110	59,610	60,520	65,010

In accordance with the policy objectives of the spending review and strategic plan commitments to staff cuts, we are streamlining departmental Head-Quarters (HQ) and reducing staff numbers by 30 per cent. in order to focus resources on the front-line. We are committed to similar reductions in the HQ of Corrections and the Immigration and Nationality Directorate. Reducing our HQ staff numbers by 2,700 full-time equivalents will free up around £100 million in real terms to be spent on the front-line.

Designated Accommodation

Bob Spink: To ask the Secretary of State for the Home Department how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion and *(c)* nursing mothers and pregnant women in each building and sets of offices for which his Department is responsible. [186536]

Fiona Mactaggart: In the Departments seven main central London buildings there is *(a)* one smoking room in each building, *(b)* one building with a multi-faith room and one building with a Muslim prayer room, and *(c)* a designated room for nursing mothers and pregnant women in three of the buildings. This information is not held centrally for the remainder of the Home Office Estate.

English Language Training (Leeds)

Mr. Battle: To ask the Secretary of State for the Home Department what English language training is available to *(a)* adult refugees and *(b)* adult asylum seekers in Leeds. [186736]

Mr. Ivan Lewis: I have been asked to reply.

These are matters for the Learning and Skills Council. Mark Haysom, the Council's Chief Executive, will write to my hon. Friend with this information and a copy of his reply will be placed in the Library.

Essex Police

Mr. Ivan Henderson: To ask the Secretary of State for the Home Department what change in funding Essex Police Authority has received in each year since 1997. [186315]

Ms Blears: The information is set out in the table.

	General government grants[1] £ million	*Annual percentage change in general government grants Percentage*	*Specific grants and capital provision[2] £ million*	*Total £ million*	*Annual percentage change in all government grants Percentage*
1997–98	129.7		6.7	136.4	
1998–99	131.5	1.4	2.1	133.6	-2.0
1999–2000	134.8	2.5	3.1	137.9	3.2
2000–01	143.8	6.7	4.3	148.1	7.4

	General government grants[1] £ million	Annual percentage change in general government grants Percentage	Specific grants and capital provision[2] £ million	Total £ million	Annual percentage change in all government grants Percentage
2001–02[3]	151.9	5.6	7.9	159.8	7.9
2001–02[3]	147.9	—	7.9	155.8	—
2002–03	151.3	2.3	16.0	167.3	7.4
2003–04	155.9	3.0	17.7	173.6	3.7
2004–05	160.9	3.3	16.7	177.6	2.4

[1] General government grants comprise Home Office principal police grant, Office of the Deputy Prime Minister Revenue Support Grant and National Non Domestic Rates. Figures include £2.0 million in 1999–2000, £1.25 million in 2000–01 and £14,000 in 2001–02 for the transitional costs associated with changes in boundaries of the Metropolitan Police District from April 2000.
[2] Includes funding from the Crime Fighting Fund, Rural Policing Fund, South East Allowance Payments, Basic Command Unit funding, Community Support Officer funding, Special Priority Payments, DMA Expansion Programme, Capital grant (including Supplementary Credit Approvals), Airwave (£4.6 million in 2002–03, £2.3 million in 2003–04 and £0.4 million this year) and the Premises Improvement Fund. Specific grants in 2004–05 are an estimate.
[3] Figures for 2001–02 are not directly comparable with 2002–03 due to the change in funding arrangements for National Crime Squad/ National Criminal Intelligence Service. Adjusted figures for 2001–02 are therefore included.

Female Prisoners (Substance Misuse)

Sandra Gidley: To ask the Secretary of State for the Home Department what percentage of female prisoners have a substance misuse problem; and if he will make a statement. [186862]

Mr. Browne: The Prison Service relies on the findings of epidemiological studies to determine drug treatment need in female establishments. A survey carried out in 2001[1] showed that up to 60 per cent. of female prisoners had a drug problem. The same survey also suggested that over 33 per cent. of women in prison had patterns of hazardous drinking.

[1] Borrill, J., Maden, A., Martin, A., Weaver, T., Stimson, G., Farrell, M. and Barnes, T. Differential substance misuse treatment needs of women, ethnic minorities and young offenders in prison: prevalence of substance misuse and treatment needs. Online report 33/03, Home Office.

Harassment

Bob Spink: To ask the Secretary of State for the Home Department what provisions are available for the psychiatric assessment of persons *(a)* under a stage one warning for harassment and *(b)* convicted of harassment under the Protection from Harassment Act 1997. [186529]

Ms Rosie Winterton: I have been asked to reply.

As set out in the national service framework for mental health, any service user who contacts their primary health care team with a common mental health problem should have their mental health needs identified and assessed.

Anyone sent to prison is screened on first reception to identify any health-related, including psychiatric, problems that need prompt attention or more thorough investigation.

Home Detention Curfews

Mr. Liddell-Grainger: To ask the Secretary of State for the Home Department how many people have been released on the home detention curfew scheme. [186563]

Paul Goggins: Information reported to the Home Office shows that there were 95,810 prisoners released on the Home Detention Curfew Scheme between January 1999 and 30 June 2004.

Job Losses (Civil Servants)

Mr. Evans: To ask the Secretary of State for the Home Department how many of the reductions in the numbers of civil servants in his Department announced in the comprehensive spending review will be of special advisors. [185462]

Fiona Mactaggart: Special Advisers are appointed by Ministers, with the approval of the Prime Minister, in accordance with Article 3(2) of the Civil Service Order in Council 1995 (as amended).

The 2004 spending review published planned reductions in Home Office posts of 2,700 by 2008. The Home Office will report progress through its departmental report and on its website.

Litigation Costs

Lynne Jones: To ask the Secretary of State for the Home Department what the cost to public funds was of the A *v.* West Yorkshire Police case. [185140]

Ms Blears: I understand from the chief constable of West Yorkshire Police that costs incurred by the force totalled £90,000, including costs for 'A', the cost of hearings and taking the matter to the House of Lords. Expenditure incurred by Treasury solicitors in this case totalled £66,638, including disbursements such as counsels' fees.

Paedophiles

Tim Loughton: To ask the Secretary of State for the Home Department (1) how many people convicted of paedophile offences have had restrictions imposed on their ownership of credit and debit cards as part of their punishment; [185432]

(2) what provisions exist for limiting the use or issue of credit and debit cards to convicted paedophiles. [185433]

Paul Goggins *[holding answer 20 July 2004]:* The Sexual Offences Act 2003 introduced a new civil preventative order; the sexual offences prevention order (SOPO). A court may make a SOPO against someone with a conviction or caution for a relevant sexual offence (those listed in schedules 3 or 5 to the Act) where it is satisfied that such an order is necessary to protect the

public or any particular member of the public from serious sexual harm from the defendant. A SOPO prohibits the offender from doing anything described in the order. This means protecting the public from serious physical or psychological harm caused by the defendant committing one or more of the offences listed in schedule 3.

It is possible that a court could make a SOPO that would limit the use of credit or debit cards by the offender, if it was thought that limiting this use would protect the public from serious sexual harm. For example, a SOPO could prohibit an offender from making online purchases. Such a restriction would have to be compatible with a defendant's rights under Article 8 of the Convention.

Statistics on the forms of prohibitions contained in SOPOs are not held by the Home Office.

In addition, the Home Office has been working closely with the Association for Payment Clearing Services (APACS), who have a clear policy that acquiring banks routinely monitor the transaction activity of their internet merchants, and that they will not knowingly do business with sites that sell content inciting, advocating or perpetuating violence against persons, including scenes of sexual assault. APACS have also been developing a range of work with the Internet Watch Foundation to assist in tracking and identifying illegal sites.

PFI/PPP Contracts

Matthew Taylor: To ask the Secretary of State for the Home Department how many contracts have been let by his Department in each financial year since 2001–02 to *(a)* PricewaterhouseCoopers, *(b)* Deloitte and Touche, *(c)* KPMG and *(d)* Ernst and Young for advising his Department on private finance initiative and public private partnership contracts; and what fees were paid in each case. [182262]

Fiona Mactaggart: From the best information available, the number of contracts let with these suppliers, and the fees paid, are as follows:

Fees £000

Supplier/Project	*2001–02*	*2002–03*	*2003–04*
PricewaterhouseCoopers			
2 Marsham Street[1]	757	183	9
Criminal Records Bureau[2]	0	0	163
Passports[3]	0	0	63
Deloitte and Touche			
Secure Training Centres	0	252	153
HM Prisons Bronzefield and Peterborough[4]	0	0	18
KPMG			
Criminal Records Bureau	0	25	0
Ernst and Young			
n/a	—	—	—

[1] 2 Marsham Street—financial advice prior to contract close and arrangements to launch a variation bond

[2] Criminal Records Bureau—PricewaterhouseCoopers provided internal audit services, and KPMG provided financial advice and support

[3] Passports—Scoping Study for Development of Sampling Strategy (Fraudulent Passports). Note: This is the contract value.

[4] HM Prisons—advice on accounting treatment of Bronzefield and Peterborough

The use of external consultants helps the Department to successfully deliver projects across the office, particularly where the in-house resources are insufficient in number, or do not possess the specialised skills and expertise required.

The Department also benefits from strategic business advice and the transfer of skills and knowledge to staff.

Police (Northampton)

Mr. Tony Clarke: To ask the Secretary of State for the Home Department what percentage change there has been in the number of police officers in Northampton in each year since 1997. [186417]

Ms Blears: Information on strength at Basic Command Unit (BCU) level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002. BCU strength for 31 March 2004 will be published shortly.

The Northampton Area Basic Command Unit (BCU) includes Collingtree, Great Houghton, Hardingstone, Northampton and Wootton. Between March 2002 and March 2003 police strength for the Northampton BCU decreased by 0.3 per cent. (from 346 to 345). The deployment of officers to BCUs is a matter for the chief constable (Peter Maddison) and within the Northampton BCU deployment of officers is a matter for the divisional commander.

Police Officers (Restricted Duties)

Bob Spink: To ask the Secretary of State for the Home Department how many hours were worked per week, on average, by police officers working on restricted or recuperative duties in *(a)* England and *(b)* Essex in the last year for which figures are available. [186475]

Ms Blears: The Home Office does not publish data on restricted or recuperative duties for police officers in England and Wales.

Bob Spink: To ask the Secretary of State for the Home Department how many police officers are *(a)* working on restricted recuperative duties, *(b)* unable to work night duty and *(c)* absent through sickness in (i) England and (ii) Essex. [186444]

Ms Blears: For the period 2002–03 a total of 1,364,067 officer days were lost to sickness absence—an average of 10.4 days per officer per year. For the same period, Essex constabulary lost 31,785 officer days to sickness absence—an average of 10.3 days per officer per year. This represents a fall in sickness absence from 1996–97 where the national rate was 12.8 days per officer per year—a reduction of over 18 per cent.

These figures were published in the annual Her Majesty's Inspectorate of Constabulary report for 2002–03.

The Home Office does not publish data on the number of police officers working on restricted or recuperative duties or who are unable to work on night duty.

Policies (Environmental Impacts)

Mr. Horam: To ask the Secretary of State for the Home Department how many new policy proposals

or significant changes in policy were produced in *(a)* 2002–03 and *(b)* 2003–04; how many of these were screened for their environmental impacts; and how many were the subject of separate environmental appraisals. [185099]

Fiona Mactaggart: Central records are not kept of the number of policies for which environmental screenings are undertaken. However, advice on the need to screen policies for environmental impacts is contained on the Department's policy makers checklist and the ministerial website on the Department's intranet site states that policy submissions should contain a section on environmental considerations.

No formal environmental appraisals have been conducted on policy issues, although policy proposals which are likely to have a direct or indirect impact on business, charities and the voluntary sector are required to have a Regulatory Impact Assessment (RIA). RIAs require examination of the potential impacts of relevant policy developments on all stakeholders including environmental impacts.

Assessments of environmental impacts are undertaken on building developments as required by planning authorities.

Prison

Mr. Oaten: To ask the Secretary of State for the Home Department what the budget is for each prison library in 2004–05; and how many local authority-employed librarians work in prison establishments on a *(a)* full-time and *(b)* part-time basis. [187237]

Mr. Browne: The following table shows allocations to each prison establishment to purchase library services. The figures include maintenance of the book stock, exchange of stock within a year and off-site administration of the service.

Information on the number of local authority-employed librarians working in prison establishments is not held centrally. A survey conducted in February 2004 found that Public Library Authority (PLA) library managers delivered 2,608 on-site hours per week while PLA library assistants delivered 2,230 per week. This equates to 134 full-time equivalent library staff across the prison estate.

The Prison Service is currently working in partnership with the Public Library Authorities to develop a new and wider ranging specification for prison libraries that addresses the learning and skills agenda as well as providing information, advice and guidance. A new framework for resourcing the new service is also being developed.

Mr. Oaten: To ask the Secretary of State for the Home Department if he will publish the 10-year custodial population projections referred to in paragraphs D18 and D19 of the Home Office Online Report 38/04. [187235]

Paul Goggins: Long-term prison population projections are produced for a seven year period. The latest published projections cover the period up to 2009. These were first presented in the April 2003 prison population monthly brief, published in September 2003, which can be found on the Home Office website at http://www.homeoffice.gov.uk/rds/prisons1 .html

David Taylor: To ask the Secretary of State for the Home Department what review of the policy towards *(a)* prison workplace and *(b)* prisoner smoking is planned; and if he will make a statement. [185643]

Paul Goggins *[holding answer 22 July 2004]*: No departmental review of smoking in prison workplaces (where this is permitted) and prisoner smoking is planned. Governors are still operating under Instruction to Governors 16 of 1996, which instructs them where to ban smoking in prisons and gives them discretionary powers to extend this ban to other parts of the prison. Smoking policies are included in the Health and Safety Standard and are audited by the Prison Service Standards Audit Unit.

In 2003 the Department of Health and the Prison service published 'AQUITTED: Best practice guidance for developing smoking cessation services in prisons'. Extra funding of £500,000 has been made available for each of the three years up to 2006. The launch of 'AQUITTED' was supported by a programme of training seminars for staff of prisons and their local Primary Care Trusts. The effectiveness of the initiative is being evaluated and a report is expected in 2005.

Mrs. Gillan: To ask the Secretary of State for the Home Department what the estimated cost was of the new healthcare centre at HMP Holloway in the Department's budget on 1 January; what the latest estimate is of expenditure on the new centre; and how many *(a)* inpatient beds and *(b)* day centre places (i) were planned on 1 January and (ii) are planned for the new centre. [186109]

Paul Goggins: On 1 January 2003, the estimated capital cost of the new healthcare centre at Holloway prison was £5.85 million with 23 in-patient beds and 30 day centre places planned. The latest estimates for costs, in patient beds, and day centre places remain the same.

Mr. Oaten: To ask the Secretary of State for the Home Department how many *(a)* prisoners, *(b)* women in prison, *(c)* juveniles and *(d)* young offenders are held (i) over 50 miles and (ii) over 100 miles from their committal court town. [187060]

Paul Goggins: An individual prisoner's court details are recorded to show first court appearance, committal, remand, conviction or sentencing. Information specifically on committal court details could only be obtained at disproportionate cost. As at 7 July 2004, the latest date for which information is available, details were available for 70,213 prisoners, or 93 per cent. of the total prison population of 74,771, on that day. This information is shown in the following table.

Distance	Total population	Female population	Juvenile population	Young offender population
Under 50 miles				
Total number of prisoners	45,632	2,151	1,639	5,184
Percentage	65	52	63	65
50–100 miles				
Total number of prisoners	14,990	1,039	814	1,828
Percentage	21	25	31	23
100+ miles				
Total number of prisoners	9,591	930	167	944
Percentage	14	23	6	12
Total	70,213	4,120	2,620	7,956

Public Services Funding

Mr. Gale: To ask the Secretary of State for the Home Department if he will identify for *(a)* his Department and *(b)* the agencies and task forces for which it is responsible each funding stream for public services in (i) the Isle of Thanet and (ii) Canterbury City local authority area. [181702]

Fiona Mactaggart: Home Office funding streams for the Kent area consist of the following:

General Police Grant
Capital Grant
Crime Fighting Fund
Rural Policing Fund
DNA Expansion Programme
Airwave
Basic Command Unit Fund
Community Support Officers
Special Priority Payments
South East Allowance
Building Safer Communities to CDRP partnership
Antisocial behaviour funding to CDRP partnership
Home Office Connecting Communities Project
Home Office Time Limited Development Fund

We do not hold information by local authority area, within each county.

Following the spending review, my right hon. Friends the Home Secretary and Deputy Prime Minister have announced a new Safer and Stronger Communities Fund (White Paper "Confident Communities in a Secure Britain", published on 19 July 2004) which will bring together a number of funding streams for community safety and improving public spaces.

Alongside the intention to bring together a number of funding streams, the Home Office strategic plan intends to further promote local audits of priorities for community safety and the resources used to prevent and respond to crime and other issues. In particular, an assessment of resources and needs will be a feature of new local area agreements covering community safety, in areas in which these agreements will be developed. The Home Office is looking to build on the existing work of Crime and Disorder Reduction Partnerships and Drug Action Teams who audit crime and drugs issues in local areas.

For reference, these are outlined on page 36 of the strategic plan.

Sellafield

Llew Smith: To ask the Secretary of State for the Home Department what assessment he has made of the adequacy of the off-site emergency plans, including evacuation plans, in place in West Cumbria for circumstances involving an accident or other incident resulting in a significant release of radioactivity from Sellafield. [187286]

Mr. Timms: I have been asked to reply.

There are well tried and tested emergency plans to deal with a release of radioactive material from Sellafield's nuclear facilities. These plans are maintained under the licence condition arrangements for all such sites and have been reviewed and tested at regular intervals over many years. The off-site emergency plan, prepared by Cumbria county council in consultation with the emergency services and British Nuclear Group, has been published in accordance with the Radiation (Emergency Preparedness and Public Information) Regulations 2001. The plan covers procedures, facilities and equipment, and includes evacuation arrangements. REPPIR is monitored and enforced by the Health and Safety Executive.

There is an ongoing programme of regular off-site exercises for civil nuclear installations such as Sellafield. These test the local off-site facility for each site, and involve a wide range of local and national agencies. The last such exercise at Sellafield was held on 24 September 2003 and this tested all aspects of Cumbria county council's off-site emergency plan which clearly covers evacuation aspects. The lessons of off-site nuclear exercises are taken forward locally through a standing local Emergency Planning Consultative Committee. Any issues of national relevance are taken forward through the Nuclear Emergency Planning Liaison Group, which is administered and chaired by DTI, and are fed as appropriate into central Government's contingency planning.

Travel Costs

Dr. Cable: To ask the Secretary of State for the Home Department what the travel costs were of civil servants in *(a)* his Department and *(b)* its related agencies in each year since 1997. [183904]

Fiona Mactaggart: The information is set out in the following table:

Travel costs

£

	UK	Overseas	Total
1997			
Department	3,898,126.65	1,224,570.48	5,122,697.13
Agencies	7,620,389.45	42,316.98	7,662706.43
Total	11,518516.10	1,266,887.46	12,785403.56
1998			
Department	3,270,766.30	886,831.19	4,157,597.49
Agencies	8,290,722.40	50,802.42	8,341,524.82
Total	11,561,488.70	937,633.61	12,499,122.31
1999			
Department	3,187,174.89	1,441,260.08	4,628,434.97
Agencies	8,294,957.22	81,651.74	8,376,608.96
Total	11,482,132.11	1,522,911.82	13,005,043.93

Travel costs

£

	UK	Overseas	Total
2000			
Department	4,245,879.25	1,396,593.81	5,642,473.06
Agencies	9,133,124.06	63,087.76	9,196,211.82
Total	13,379,003.31	1,459,681.57	14,838,684.88
2001			
Department	6,348,417.71	2,077,311.00	8,425,728.71
Agencies	9,774,147.78	18,987.40	9,793,135.18
Total	16,122,565.49	2,096,298.40	18,218,863.89
2002			
Department	8,732,248.97	2,355,805.87	11,088,054.84
Agencies	10,467,841.11	36,290.14	10,504,131.25
Total	19,200,090.08	2,392,096.01	21,592,186.09
2003			
Department	12,406,053.11	4,449,971.03	16,856,024.14
Agencies	10,780,887.32	9,053.09	10,789,940.41
Total	23,186,940.43	4,459,024.12	27,645,964.55

The marked increases in travel costs since 2001 can be largely attributed to changes in strategy within the Immigration and Nationality Directorate (IND) where increased staff numbers and the need to travel as a result of new policy initiatives and targets for improved IND performance. Other contributing factors have been related to providing advice to the organisers of the 2002 Football World Cup in Japan and Euro 2004 in Portugal and the creation of new units to support the police reform agenda.

Criminal Records Bureau only commenced operations in 2000.

Employees of the National Probation Service are not civil servants and their costs have therefore not been included in the above.

Under-age Drinking

Bob Spink: To ask the Secretary of State for the Home Department (1) if he will issue guidance to police forces that parents should, where possible, be informed when alcohol is removed from their children under the under-age drinking legislation; and if he will make a statement; [186474]

(2) if he will investigate the impact of requiring the police to inform schools or colleges when alcohol is removed from pupils under the under-age drinking legislation; and if he will make a statement; [186479]

(3) if he will issue guidance to the police that police schools liaison officers should be made aware of which pupils have had alcohol removed from them by the police under the under-age drinking legislation; and if he will make a statement. [186480]

Ms Blears: There is no specific requirement for police forces to inform parents, schools or an education institute when alcohol is removed from children or pupils under the under-age drinking legislation. A decision to inform parents or an education institute is an operational matter for individual police forces. However, a child who commits an offence and is reported for the offence can be seen in the presence of his or her parent or a responsible adult.

Police forces would have their own arrangements for involving Social Services or an education institute if the child might be at risk. The role of the police school liaison officers in schools is a matter for the individual police force and the school.

There is a statutory requirement to educate children and young people about the effect of alcohol. All schools are encouraged to have systems in place to identify and support those young people for whom drugs (including alcohol) may be a problem. Where concerns have been raised schools can provide support either through the curriculum, pastoral system or through referral to more specialised agencies, perhaps co-ordinated through the Connexions Service.

Mr. Paice: To ask the Secretary of State for the Home Department (1) how many people were *(a)* cautioned and *(b)* found guilty of selling intoxicating liquor to a person aged under 18 in 2003; [184870]

(2) how many people were *(a)* cautioned and *(b)* found guilty under section 169 (2) of the Licensing Act 1964 in 2003. [184871]

Paul Goggins *[holding answer 16 July 2004]:* Figures for England and Wales 2002 show that 59 people were cautioned and 103 found guilty for "selling etc, intoxicating liquor to persons under 18 for consumption on the premises" (Licensing Act 1964, S169(1); Licensing (Occasional Permissions) Act 1983, schedule (section 3) para. 4(1).) and a further two cautioned for "wholesaler selling intoxicating liquor to a person under 18" (Licensing Act 1964, section 181A as added by Licensing Act 1988, section 17). Those cautioned and found guilty under section 169(2) of the Licensing Act 1964 in 2002 were nine and 18 respectively.

Statistics on court proceedings for 2003 will be published in the autumn.

SOLICITOR-GENERAL

Katharine Gun

Lynne Jones: To ask the Solicitor-General what the costs have been to date to the Government of the prosecution of the Katharine Gun case. [156197]

The Solicitor-General: I can only provide details of the costs incurred to the Crown Prosecution Service for whom the Attorney-General and I have ministerial responsibility. The Crown Prosecution Service estimates that the prosecution costs in this case to date are in the region of £18,552. This figure comprises of counsel's fees. The CPS is unable routinely to assess and attribute its own overhead costs to individual cases.

Butler Report

Llew Smith: To ask the Solicitor-General if she will place in the Library copies of *(a)* the account given to the Butler Committee on the Review of Intelligence on Weapons of Mass Destruction of the legal advice provided to the Butler Committee, to which reference is made at paragraph 379 of the Butler Report and *(b)* the letter from the Prime Minister's Private Secretary to the

Legal Secretary to the Law Officers, dated 15 March 2003, to which reference is made at paragraph 384 of the Butler Report. [186192]

The Solicitor-General: The account given by the Attorney-General to the Butler Committee of his legal advice was given in oral evidence to the Committee. As is clear from footnote 17 to the Butler Report, the account of the Attorney-General's advice was given in confidence without intending to waive the legal professional privilege to which the advice is subject. The substance of the letter from the Prime Minister's Private Secretary to the Legal Secretary to the Law Officers, dated 15 March 2003 is set out at paragraph 384 of the Butler Report.

Crown Prosecution Service

Mr. Fisher: To ask the Solicitor-General how many prosecutions for alleged child abuse were brought by the Crown Prosecution Service in each of the last five years for which figures are available; and how many resulted in a conviction. [183616]

The Solicitor-General: The following tables show aggregated information about child abuse cases that were finalised on the new Compass system during the year ending March 2004. No information is held for earlier periods, and could be obtained only through an analysis of individual case files at disproportionate cost.

Table 1 shows the number of child abuse cases in magistrates courts, broken down into unsuccessful outcomes and convictions. Unsuccessful outcomes comprise: cases discontinued by the Crown Prosecution Service; cases written off because the defendant could not be traced by the police, had died or been found unfit to plead; cases discharged in the course of committal proceedings; cases dismissed because of no case to answer; and dismissals after full trial. Convictions are divided into guilty pleas and convictions after trial.

Table 2 shows the number of finalised child abuse cases recorded at the crown court. Unsuccessful outcomes in the crown court comprise: cases dropped by the Crown Prosecution Service before a jury was sworn, in which the judge ordered a formal acquittal; cases written off because the defendant could not be traced by the police, had died or been found unfit to plead; judge directed acquittals; and acquittals after trial. Convictions are divided into guilty pleas and convictions after full trial.

It should be noted that these figures are not collected from a specific list of offences. The identification of prosecution cases as child abuse is made by a member of CPS staff when a case is received from police, or within a subsequent review. Police officers and Administrators may also bring a child abuse case to CPS attention within the initial file submission.

Outcome of child abuse cases in magistrates courts 2003–04

	Number	*Percentage*
Discontinued	366	28.3
Written off	14	1.1
Discharged committals	21	1.6
Dismissed no case to answer	13	1.0
Dismissed after trial	53	4.1
Unsuccessful outcomes	*467*	*36.1*
Guilty Pleas	694	53.7
Convicted after trial	132	10.2
Convictions	*826*	*63.9*
Total	1,293	—

Outcome of child abuse cases in the Crown court 2003–04

	Number	*Percentage*
Judge ordered acquittals	145	16.5
Written off	6	0.7
Judge directed acquittals	25	2.8
Jury acquittals	111	12.6
Unsuccessful outcomes	*287*	*32.6*
Guilty pleas	446	50.7
Convicted after trial	147	16.7
Convictions	*593*	*67.4*
Total	880	—

Tom Cox: To ask the Solicitor-General on how many occasions in each of the last three years the Crown Prosecution Service has not proceeded with a prosecution of an assault committed *(a)* on a police officer and *(b)* by an inmate on a prison officer on the grounds that prosecution would not be in the public interest. [183928]

The Solicitor-General: The Crown Prosecution Service (CPS) central records do not include the level of detail required to answer the present question. Information at this level of detail could be obtained only by examining individual case files in each CPS office, which would incur disproportionate cost (Code of Practice on Access to Government Information, part 2, clause 9).

David McGee

Dr. Starkey: To ask the Solicitor-General what the cost to public funds was of the prosecution of Mr. David McGee; at what level in the Crown Prosecution Service the decision on what charges to proceed with was taken; and what other potential charges were considered. [170407]

The Solicitor-General: The Crown Prosecution Service estimates that the prosecution costs in this case to date are in the region of £6,250. This figure comprises counsels' fees and witness expenses. The CPS is unable routinely to assess and attribute its own overhead costs to individual cases.

The decision to prosecute was made by a level E special casework lawyer within the Crown Prosecution Service, following advice from leading counsel.

The other potential charges considered were under section 4 of the Official Secrets Act 1989; section 3 of the Forgery and Counterfeiting Act 1981; section 16 of the Theft Act 1968; and the common law offence of misfeasance in a public office.

Elmley Prison Officers (Case Costs)

Mr. Wyatt: To ask the Solicitor-General what the *(a)* legal costs of the defendants' two trials and *(b)* total

cost to the Crown Prosecution Service were in the case against Prison Officers Rowland, Kerry and Watkins at Elmley Prison. [166226]

The Solicitor-General: I can only provide details of the costs incurred by the Crown Prosecution Service, for which both the Attorney and I have ministerial responsibility.

The Crown Prosecution Service costs are approximately £146,878.04. However, this figure may be reduced as the Crown Prosecution Service is currently seeking a reduction in the amount of counsel's fees claimed.

The prosecution's costs are broken down in the following table:

	Prosecution's costs (£)
(a) Counsel's fees:	
at the magistrates' court to include the old style committal	12,978.35
for the preliminary hearing in 2001	27,766.19
the final invoice (being challenged) to include re-instituting proceedings and the trial	96,033.50
Total	136,778.04
(b) Experts' fees:	1,100.00
(c) charges for enhancement of the recordings of intercepted telephone calls and for their compilation and indexation on a compact disc:	9,000.00

The CPS is unable routinely to assess and attribute its own overhead costs to individual cases.

Iraq

Llew Smith: To ask the Solicitor-General if she will place in the Library copies of the intelligence assessment briefings on Iraq of September 2002 and February 2003, to which reference is made in paragraph 367 of the Butler Committee Report on intelligence on weapons of mass destruction, HC898. [185192]

The Solicitor-General: The intelligence briefings of September 2002 and February 2003 referred to in paragraph 367 of the Review of intelligence on weapons of mass destructions were oral briefings given to the Attorney-General by the Chairman of the Joint Intelligence Committee.

Serious Fraud Office (Bribery)

Malcolm Bruce: To ask the Solicitor-General from which *(a)* companies and *(b)* organisations the Serious Fraud Office have requested (i) co-operation and (ii) information with regard to investigations relating to the enforcement of anti-bribery legislation since 2000. [184168]

The Solicitor-General *[holding answer 15 June 2004]:* The information requested could be obtained only by examining individual case files in each dating back to 2000 and would incur disproportionate cost (Code of Practice on Access to Government Information, part 2, clause 9).

CABINET OFFICE

Counter-terrorism Grants

Patrick Mercer: To ask the Minister for the Cabinet Office how the Government calculates counter-terrorism grants to front-line responders, with particular reference to *(a)* police forces, *(b)* fire brigades and *(c)* ambulance services. [184599]

Mr. Blunkett: I have been asked to reply.

Of the emergency services, only the police carry out counter-terrorism work. Funding for police counter-terrorism and other national-security functions is predominantly funded through mainstream funding mechanisms rather than direct grant. However since 2002–03 the Home Office has provided additional funding to the Police Service to enable it to respond to the increased threat posed by international terrorism since September 2001. In 2004–05 this will amount to £84 million. The allocation of this funding to individual forces is determined following full consultation between individual police forces, the Association of Chief Police Officers and the Home Office.

Funding for counter-terrorism has to be considered within the wider context of funding for national security in the round, which will rise from £980 million in 2001 to over £2.1 billion in 2007, including the doubling of the size of M15.

In addition, an extra £20 million per year from 2005–06 will be allocated to the Civil Defence Grant. This will double to £40 million per year, the contribution the Government previously allocated to local authorities.

EDUCATION AND SKILLS

Tannery Arts Ltd.

Mr. Boris Johnson: To ask the Secretary of State for Education and Skills if he will make a statement on the compulsory purchase order placed on Tannery Arts Ltd.'s premises. [187473]

Mr. Charles Clarke: We are exploring the feasibility of establishing an academy on the site of the former Laburnum primary school following a proposal from the London borough of Hackney and the UBS Investment Bank. There is strong need for new school places in Hackney.

Provision of a suitable site is a matter for Hackney council and they have begun a compulsory purchase order process on land next to the Laburnum school given the restricted nature of that site. This is entirely a matter for them.

We are conscious of the concerns raised about the future of Tannery Arts and discussions are taking place. It would be premature to say anything more at this stage. However, the academy would play a key role in transforming educational opportunities and standards for young people in the area.

Adult Education (Great Yarmouth)

Mr. Anthony D. Wright: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Great Yarmouth in each of the last five years. [186716]

Mr. Ivan Lewis: The estimated total spend on Skills For Life (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Norfolk Learning and Skills Council (LSC) area is set out in the following table:

£000

	April 2001 to July 2001[1]	*August 2001 to July 2002*	*August 2002 to July 2003*
Basic skills	874	2,145	2,936
Key skills	358	524	1,022

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Advertising

Dr. Cable: To ask the Secretary of State for Education and Skills how much money was spent on advertising and promotional literature for his Department's initiatives, broken down by year since 1997. [183805]

Mr. Miliband: The information is as follows.

1. Expenditure details from the Department's central advertising and public budget, for advertising and promotional work is listed as follows:

	Expenditure (£ million)
1997–98	11.0
1998–99	13.4
1999–2000	9.9
2000–01	14.6
2001–02	11.7
2002–03	14.1
2003–04	15.5
2004–05 expenditure (budgeted)	15.3

2. Financial information for any other advertising and promotional work from outside of the central marketing team could be provided only at a disproportionate cost.

Alderman Blaxill Secondary School, Colchester

Bob Russell: To ask the Secretary of State for Education and Skills what representations he has received about the closure of classrooms at Alderman Blaxill Secondary School, Colchester, following the discovery of asbestos; what action he is taking to ensure that the school has sufficient operational classrooms for the new school year; and if he will make a statement. [187012]

Mr. Miliband: I am not aware of any representations having been received regarding the matter referred in the question other than your letter to the Secretary of State dated 21 July 2004. Essex LEA is working closely with the school to ensure that suitable accommodation is available to the Alderman Blaxill Secondary School for the new school year. The bulk of schools capital is now allocated by formula to authorities and schools so that they can address their local priorities, including accommodation issues. Prioritisation of need should be through an open, rigorous and consultative asset management process, based on assessments of the needs of all schools. This Government have increased their support for capital investment in schools from under £700 million in 1996–97 to £3.8 billion this year and this will increase further to over £5 billion by 2005–06.

Autism

Mr. Wiggin: To ask the Secretary of State for Education and Skills what research he has commissioned regarding the school exclusion rates of *(a)* autistic students and *(b)* students with Asperger's Syndrome; and if he will make a statement on his policy on whether autistic students should remain in mainstream schools. [186943]

Margaret Hodge: The statistics published by the Department do not record the types of special educational need (SEN), such as autism and Asperger's syndrome, which excluded pupils with SEN have. The most recent provisional statistics, for 2002/03, do show that children with SEN, both those with and without statements of SEN, account for two-thirds of permanent exclusions and that children with SEN were nine times more likely to be permanently excluded than those without SEN. As part of the SEN strategy "Removing Barriers to Achievement", published in

February, we are carrying out research into exclusions and children with SEN, including those with autistic spectrum disorders (ASDs), and we will act on its findings.

Research by the National Autistic Society in 2000 suggested that children with ASDs, including Asperger's syndrome, were far more likely to be excluded than their peers. The Society is represented on our Autism Working Group which produced Good Practice Guidance on ASDs in 2002. This guidance aims to raise awareness of the disorders and to give good practice pointers to schools, local education authorities and others to help develop and audit their autism provision. It is available to assist schools make the reasonable adjustments to their policies and practice with respect to children with ASDs required by the Disability Discrimination Act 1995, as amended by the Special Educational Needs and Disability Act 2001, which they need to consider when meeting their duty not to discriminate against disabled pupils, without justification, by excluding them because of behaviour caused by their disability.

Children with autism display a range of strengths and difficulties of differing levels of severity and complexity. Those with SEN statements should be placed in a setting where their profile of needs can be met. The Good Practice Guidance recommends that LEAs, either singly or in regional groupings, should develop a range of provision in mainstream, special and specialist schools so that children with statements can be placed appropriately with the placement being monitored and changed as necessary.

Child Care

Mr. Woodward: To ask the Secretary of State for Education and Skills what the Government's policy is on extending child care provision; and what plans the Government have to extend child care provision. [186813]

Margaret Hodge: Between 1997 and 2004 the Government aimed to create around 900,000 new child care places to help 1,600,000 children. By March 2004 some 1,000,000 new child care places had been created helping some 1,800,000 children. The Government have a target to create a further 250,000 new child care places for at least 450,000 children by March 2006 and to increase the stock of registered child care places across England by at least 10 per cent. by March 2008.

Mr. Woodward: To ask the Secretary of State for Education and Skills what the Government's policy is on the promotion of the National Childcare Strategy; and what plans the Government has to extend the strategy. [186814]

Margaret Hodge: The National Childcare Strategy is promoted, as part of the Government's Sure Start programme, through a variety of channels and campaigns, targeting parents and those working with parents and children. These include: articles in the daily, local and specialist press; leaflets available in locations such as health centres, Job Centres and Post Offices, and sent to Sure Start programmes, health visitors, midwives and employment advisers; publications such as the "Choosing Childcare" booklet; and National Sure Start Month held each June. Children's Information Services (CISs) in each of the 150 local authorities provide detail and advice to parents on Childcare and other Sure Start programmes in their areas.

The Government are continuing to expand and strengthen Childcare provision. Our PSA Target is 10 per cent. growth in the stock of registered places between 2004 and 2008. The Department for Education and Skills "Five Year Strategy for Children and Learners" (published on 8 July) makes clear that much of the future expansion will be provided on school premises, or in integrated children's centres, so child care becomes part of a web of personalised services, including good quality health and family support, that best suits families and their children. We will link the free early education entitlement for 3 and 4-year-olds more effectively with the hours of child care for which parents pay, to offer integrated education and care for a full day, while extended schools—both primary and secondary—will provide, or host, a wide range of services, including child care and a range of family learning and parental support, on-site.

In addition, the Chancellor confirmed in his "Spending Review" 2004 statement that the Government will publish a plan in the pre-Budget report later this year outlining our vision of choice for parents and high quality provision for young children for the period up to 2015.

Mr. Woodward: To ask the Secretary of State for Education and Skills what estimate the Government have made of the number of *(a)* child care places and *(b)* childminders that will be created by the Neighbourhood Nurseries initiative. [186815]

Margaret Hodge: The Neighbourhood Nursery Initiative will provide 45,000 integrated care and education places for children under the age of five living in the most disadvantaged areas of the country. Currently over 42,600 places are being delivered through 1,218 nurseries. We expect the 45,000 place target to be reached in the next few months.

Mr. Woodward: To ask the Secretary of State for Education and Skills (1) what estimate the Government has made of how many registered child care places there were in (i) St. Helens and (ii) the UK, broken down by region, in each year since 1997; [186827]

Mr. Woodward: To ask the Secretary of State for Education and Skills (2) how many local authority nurseries there were in each year since 1997, *(a)* broken down by region and *(b)* in St. Helens; [187364]

(3) what estimate the Government has made of the number of nurseries which have closed in each year since 1997 *(a)* broken down by region and *(b)* in St. Helens. [187365]

Margaret Hodge: The information is not available in the form requested. The available information on the numbers of day nurseries or full day care facilities for St. Helens and the regions are shown in the following tables.

With the introduction of the National Day Care Standards and the transfer of responsibilities for registration and inspection to Ofsted, child care providers are now classified according to whether they are full day care, sessional day care, childminder, out of

school day care or crèche day care places. Previously, child care providers were classified according to whether they were day nurseries, playgroups and pre-schools, childminders, out of school clubs or holiday schemes. Therefore, figures for 2003 are not directly comparable with figures for earlier years because they are collected on a different basis.

Statistics on the number of child care facilities registered in England were published on 22 July 2004 in a report by Ofsted "Registered Childcare Providers and Places in England, 30 June 2004". The report is available on the Ofsted website, www.ofsted.gov.uk/publications.

Number of day nurseries[1,2] in St. Helen local authority area and by Government Office Region: 1999–2001

	Position at 31 March each year			
	1999	*2000*	*2001*	*2002*

Children's Information Services

Mr. Woodward: To ask the Secretary of State for Education and Skills how many children's information services *(a)* have been opened and *(b)* are planned to be opened in (i) St Helens and (ii) England, broken down by region. [186810]

Margaret Hodge: Since the introduction of the National Childcare Strategy in 1998 each local authority in England has been required to have a Children's Information Service (CIS). However, in some cases bordering local authorities have provided a joint service. There are currently 146 CISs in England. St Helens has one CIS. The table below breaks down by region the local authorities in England that operate a CIS.

Children's Information Services in England

East Midlands

City Academies

Mr. Liddell-Grainger: To ask the Secretary of State for Education and Skills what representations he has received about the effectiveness of city academies in tacking social deprivation. [186468]

Mr. Miliband: My right hon. Friend the Secretary of State for Education and Skills receives many representations on a variety of issues. The academies programme is specifically designed to address the intractable problems of poor standards of teaching and learning, under-achievement and low aspirations in the most socially and economically deprived parts of the country.

It will take time for the new leadership, buildings and curriculum to turn things round. However, of the three academies with GCSE results in 2003 the number of 5A*–C grades rose to 21 per cent. and 35 per cent. respectively from 7 per cent. and 25 per cent. in 2002, and the other had results broadly comparable with its predecessor schools. Academies are also improving behaviour and attendance.

Civil Service Recruitment

Mr. Simon Thomas: To ask the Secretary of State for Education and Skills what the anticipated impact is of staff reductions in his Department on the delivery of services to *(a)* children under five, *(b)* school age children, *(c)* young people, *(d)* 14 to 19-year-olds, *(e)* adults and *(f)* families. [187096]

Mr. Charles Clarke: My Department is undertaking a radical transformation in its role and ways of working to deliver the ambitious agenda for reform set out in the Five Year Strategy for Children and Learners. Putting people at the heart of public services, building on the existing significant progress and substantial achievement, these changes will enable us to reduce the department's staffing levels and provide strategic leadership to the system, working with our partners and delivering resources to the front line to ensure the further improvements we are determined to secure in the services that we provide for children, young people adults and families.

School Computers

Mr. Anthony D. Wright: To ask the Secretary of State for Education and Skills how many pupils per computer there were in schools in *(a)* Norfolk and *(b)* Great Yarmouth in each year since 1996. [186705]

Mr. Miliband: The information requested is not available centrally.

Figures for England, which were derived from a sample of schools, are shown in the following table.

Average number of pupils[1] per computer (used solely or mainly for teaching and learning purposes) by type of school, England

	Maintained		
Year end March	*Primary*	*Secondary*	*Special*
1996	19.0	9.0	4.0
1997	n/a	n/a	n/a
1998	17.6	8.7	4.5
1999	13.4	8.4	3.7
2000	12.6	7.9	3.7
2001	11.8	7.1	3.2
2002	10.1	6.5	3.4
2003	7.9	5.4	3.0
2004	7.5	4.9	3.1

n/a = Not available.
[1] Full-time equivalent numbers of pupils.

The latest provisional data on ICT in schools was published in Statistical First Release 'Survey of Information and Communications Technology in Schools 2004', which is available on the Department's website www.dfes.gov.uk/rsgateway/.

Departmental Administrative Costs

Mr. Willis: To ask the Secretary of State for Education and Skills what measures he is taking to reduce his Department's central administrative costs. [187488]

Mr. Charles Clarke: The 2004 Spending Review White Paper (Table 7.1) shows that the administrative costs of the Department (including Ofsted) will fall from £276 million in 2005–06 to £262 million in 2007–08. This reduction will be principally achieved by reducing staffing by 1,460 posts in the Department by April 2008, but will also reflect other improvements arising from the Efficiency Review.

Departmental Expenditure

Mr. Hoban: To ask the Secretary of State for Education and Skills how much the Department spent on press officers in each year since 1996–97, broken down by grade. [184322]

Mr. Charles Clarke: The information requested is set out in the following table.

	Staff numbers	*Spend (£000)*
1996–97	19: SCS × 1, SIO × 6.5, IO × 11.5	702
1997–98	20.5: SCS × 1, G7 × 1, SIO × 7.5, IO × 10, AIO × 1	729
1998–99	29.5: SCS × 2, G7 × 2, SIO × 11.5, IO × 10, AIO × 3	969
1999–2000	28: SCS × 2, G7 × 3, SIO × 10, IO × 11, AIO × 2	997
2000–01	28: SCS × 2, G7 × 3.5, SIO × 13.5, IO × 6, AIO × 3	1,307
2001–02	28: SCS × 2, G7 × 4.5, SIO × 9.5, IO × 10, AIO × 2	1,097
2002–03	23.4: SCS × 2, G7 × 3, SIO × 9.5, IO × 7, AIO × 2	1,314
2003–04	18.5: SCS × 2, G7 × 4, SIO × 4.5, IO × 6, AIO x2	1,120

Key:
SCS—Senior Civil Service
G7—Grade 7
SIO—Senior Information Officer
IO—Information Officer
AIO—Assistant Information Officer

Mr. Hoban: To ask the Secretary of State for Education and Skills how much money the Department spent on *(a)* advertising and *(b)* public relations in each year since 1996–97. [184323]

Mr. Charles Clarke *[holding answer 15 July 2004]:* Expenditure for both advertising and public relations is listed as follows:

£ million

	Advertising	*Public relations*
1996–97	8.0	0
1997–98	11.0	0
1998–99	16.8	0.6
1999–2000	12.4	0.1
2000–01	29.7	0.8
2001–02	20.5	1.7
2002–03	11.3	2.4
2003–04	19.5	1.9

As can be seen from the figures, spend on advertising fluctuates from year to year. Some campaigns will run over financial years and billing will fall in the later period. The increase in Public Relations (PR) relates to an increase in the use of external organisations to contact those elements of our key audiences that prove more difficult to reach through traditional advertising methods. Examples of this are in the promotion of adult basic skills, Aimhigher and Connexions. Since 2001–02, the Department has changed its approach by concentrating on having fewer, larger, more focused communications, such as that for adult basic skills (to help adults improve their reading, writing, language and maths) instead of numerous smaller campaigns.

Departmental Press Officers

Matthew Taylor: To ask the Secretary of State for Education and Skills how many press officers are employed in his Department. [187158]

Mr. Charles Clarke: The Department for Education and Skills has 17 press officers.

Departmental Staffing

Mr. Willis: To ask the Secretary of State for Education and Skills what plans he has to reduce staffing levels within his Department. [187489]

Mr. Charles Clarke: I refer the hon. Member to the answers I gave on 14 May 2004, *Official Report*, columns 624W, to the right hon. Member for West Dorset (Mr. Letwin).

Departmental Stress Policy

Mr. Simon Thomas: To ask the Secretary of State for Education and Skills if he will make a statement on the introduction of a stress policy in his Department. [187092]

Mr. Charles Clarke: My Department and the Trade Union Side are agreed on the importance of addressing workplace stress. My Department is working closely with the Trade Union Side to develop a stress policy based on the Health and Safety Executive Management Standards of good management practice.

Departmental Theft

Mr. Hoban: To ask the Secretary of State for Education and Skills how many mobile phones owned by his Department have been reported lost or stolen since 2001. [186681]

Mr. Ivan Lewis: Our records show that, since January 2001, twenty-six mobile telephones owned by my Department have been reported stolen and eight reported lost.

Mr. Hoban: To ask the Secretary of State for Education and Skills if he will list the items that his Department has reported lost or stolen to the police from his Department's buildings and property since 2001. [186676]

Mr. Charles Clarke: The following table details the items that the Department for Education and Skills has reported lost or stolen to the police from the Department's buildings and property since 2001.

Financial year	*Item and quantity*	*Approximate value per item (£)*	*Total approximate value (£)*
2001–02	Laptop PC (1)	1,150	1,150
2002–03	0	0	0
2003–04	CD Player/Radio (1)	100	100
	CDs (6)	10	60
2004 to date	0	0	0
Total	8 items	n/a	1,310

Mr. Hoban: To ask the Secretary of State for Education and Skills what the equivalent monetary cost of theft to *(a)* his Department and *(b)* the Executive Agencies affiliated to his Department has been in each year since his Department was established. [186682]

Mr. Ivan Lewis: The following table provides details of the equivalent monetary cost of theft to the Department for Education and Skills in each year since the Department was established in June 2001. We do not record similar data for any Executive Agency.

Financial year	*Cost of theft (£)*
2001–02	9,087
2002–03	4,910
2003–04	1,101
2004 to date	5,858
Total	20,956

Designated Accommodation

Bob Spink: To ask the Secretary of State for Education and Skills how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion and *(c)* nursing mothers and pregnant women in each building and set of offices for which his Department is responsible. [187314]

Mr. Charles Clarke: The following table shows the number of rooms which have been set aside in each of the five Department for Education and Skills buildings for *(a)* smokers *(b)* worship and *(c)* nursing/pregnant women.

Site/Building	Smokers room	Worship room	Nursing/Pregnant women's facilities
Darlington	1 1	1 (non denominational)	1 room
London:			
Caxton House	1	1 Muslim prayer room and 1 non denominational	1 room and use of the first aid room
Sanctuary Buildings	1	1 Muslim prayer room and 1 non denominational	1 room
Sheffield	1	1 (non denominational)	1 room
Runcorn	3	1 (non denominational)	Nursing chairs provided within on-site Nursery

Early Excellence Centres

Mr. Woodward: To ask the Secretary of State for Education and Skills how many Early Excellence centres *(a)* have been opened and *(b)* are planned to be opened in (i) St. Helens and (ii) England, broken down by region. [186809]

Margaret Hodge: There is one Early Excellence Centre (EEC) in St. Helens based at Legh Vale school in Haydock ward.

No further EECs will be developed. The Government are establishing children's centres across England many of which will be developed from existing EECs.

There are 107 EECs in England six of which are special projects. The special projects are run by RNIB which works with four EECs (two in London and two in the South East) and NHS Newborn which works with two London based EEC's.

A list of EECs in England, broken down by local authority region follows:

Annex A

Local authority	Number of Early Excellence Centres
Bath and NE Somerset	1
Bedfordshire	2
Birmingham	2
Blackpool	1
Bolton	1
Bradford	1
Bristol	2
Bury	1
Cambridgeshire	2

Westminster	1
West Sussex	1
Wigan	2
Wiltshire	2
Wirral	2
Wokingham	1
Wolverhampton	1

Note:
Six special projects are operated by NHS Newborn and RNIB. The RNIB project works with four EECs (two in North West and two in South East). The NHSP Newborn initiative works with two EECs in London.

Early-years Initiatives (Funding)

Mr. Love: To ask the Secretary of State for Education and Skills how much funding has been made available to *(a)* Sure Start projects, *(b)* Early Excellence centres, *(c)* Neighbourhood Nurseries and *(d)* other early years

initiatives in the London borough of Enfield in each year since their inception; what the projected funding is over the period of the Spending Review; and if he will make a statement. [187007]

Margaret Hodge: The London borough of Enfield has one Sure Start local programme, five neighbourhood nursery projects, and no Early Excellence Centres. In addition grant was paid for a range of early year's initiatives within the Childcare Grant until 2003, and under the Sure Start General Grant between 2004–06. The funding for each initiative since its inception is as follows:

Edmonton Sure Start local programme (revenue)

	£
1999–2000	42,000
2000–01	924,000
2001–02	1,300,000
2002–03	1,300,000
2003–04	1,300,000
2004–05	1,300,000
2005–06	1,300,000

Note:
The programme was also allocated £1,250,000 capital funding.

Neighbourhood Nursery Initiative (revenue)

	£
2003–04	133,500
2004–05	531,600
2005–06	297,600
2006–07	90,300

Note:
2006–07: £90,300 (funding agreed for this year due to slippage of last project). The authority has also been allocated £327,298 capital.

Childcare Grant 1998–2003

Support Childminder Scheme	105,367
Total	6,150,257

The Chancellor announced in the Spending Review that the Sure Start Unit will be allocated £1,167 million, £1,483 million and £1,667 million for 2005–06, 2006–07 and 2007–08 respectively for England. At this stage it is not possible to say how much will be allocated to individual local authorities.

Educational Attainment

Mr. Hoban: To ask the Secretary of State for Education and Skills what percentage of *(a)* girls and *(b)* boys in receipt of free school meals achieved (i) Level 2 or more at Key Stage 1 in (A) reading, (B) writing and (C) mathematics, (ii) Level 4 or above at Key Stage 2 for (1) English, (2) mathematics and (3) science, (iii) Level 5 and above at Key Stage 3 in (x) English, *(y)* mathematics and *(z)* science, (iv) five or more A*-C GCSE/GNVQ and (v) no passes at GCSE/GNVQ in each year since 1997; and what the percentages were for those not in receipt of free school meals. [185807]

Mr. Miliband *[holding answer 22 July 2004]:* I refer the hon. Member to the answer given to my hon. Friend the Member for North Swindon (Mr. Wills) on 4 May 2004, *Official Report*, column 1424W.

A copy of the Statistical First Release 04/2004 was placed in the Libraries in response to this question.

Food Education

Mr. Sheerman: To ask the Secretary of State for Education and Skills whether food skills training is provided in primary school teachers' initial teacher training. [187458]

Mr. Miliband: All trainee teachers must demonstrate the standards set out in "Qualifying to teach", which represent the minimum that trainees must know, understand and be able to do to be awarded qualified teacher status. Although the standards as they apply to

primary school trainees do not specify food skills training, they require that they should be familiar with the National Curriculum Framework for personal, social and health education, which at Key Stage 2 includes teaching about the benefits of healthy eating. Once employed within schools, teachers can look to professional development programmes to develop food technology skills.

Mr. Sheerman: To ask the Secretary of State for Education and Skills (1) what action is being taken to help primary school teachers to teach cookery in addition to the Food in Schools programme; [187459]

(2) what action his Department is taking to improve food education in schools; [187460]

(3) how many primary schools have the *(a)* necessary equipment and *(b)* purpose built facilities to enable pupils to prepare and cook food; [187461]

(4) how much schools have spent on average for each pupil in each of the last 10 years on food education in *(a)* primary and *(b)* secondary schools. [187462]

Mr. Stephen Twigg: On 6 September, the Government published the Healthy Living Blueprint for Schools. A copy is being placed in the House of Commons Library. The Blueprint and a supporting website will help teachers access support, advice and information to create a healthy school environment. It includes food education within the National Curriculum, and wider opportunities through, for example, cookery and growing clubs.

In addition to the Food in Schools programme, there are food technology teachers in Technology Specialist Schools and food technology Advanced Skills Teachers who support their feeder primary schools in food education as part of their outreach work.

The Department does not collect detailed information about expenditure on equipment or per pupil for individual subjects; or on facilities for food education in primary schools. This year, the Government have increased its support for capital investment in schools to £4.5 billion. This includes direct capital funding to every primary school, which a school could allocate for food technology facilities.

Fraud

Mr. Hoban: To ask the Secretary of State for Education and Skills what estimate his Department has made of the cost of fraud to *(a)* his Department and *(b)* the Executive Agencies affiliated to his Department in the last year for which figures are available. [186683]

Mr. Charles Clarke: The total amount of departmental funds under investigation in the financial year 2003–04 was £177,300. All cases of fraud or alleged fraud were investigated by the Department's Special Investigations Unit. Fully trained, professionally qualified fraud examiners staff this unit.

The Department has no Executive Agencies.

General Teaching Council/Teacher Training Agency

Mr. Willis: To ask the Secretary of State for Education and Skills if he will break down the 2002–03 administration cost of the Teacher Training Agency by main budget heading. [187400]

Mr. Miliband: Part 14 of the TTA's Financial Statements 2002–03 outlines a total of 5 budget lines contributing to a total administration expenditure of £10.479 million of which: staff costs totalled £6.651 million and other administration costs totalled £3.828 million.

Mr. Willis: To ask the Secretary of State for Education and Skills what the cost of the General Teaching Council was in 2002–03, broken down by main budget heading. [187399]

Mr. Miliband: The total expenditure incurred by the GTC in 2002–03 totalled £11.237 million of which staff costs were £3.559 million. Other costs totalled £7.678 million.

A more detailed breakdown of the figures can be found on page 20 of the GTC's Annual Report and Accounts 2002–03.

Mr. Willis: To ask the Secretary of State for Education and Skills how many staff were employed in the *(a)* Teacher Training Agency and *(b)* General Teaching Council in 2002–03; and what the staff costs were in each case. [187401]

Mr. Miliband: The Teacher Training Agency employed an average of 193 staff during the financial year 2002–03. The total staff costs for the year were £6.651 million.

The General Teaching Council for England employed an average of 109 staff during the financial year 2002–03. The total staff costs for the year were £3.559 million.

The staff costs included temporary staff and secondees, and are disclosed in the organisations' accounts.

Graduate Employment

Mr. Wiggin: To ask the Secretary of State for Education and Skills what research his Department has commissioned regarding the number of university graduates who enter graduate jobs within six months of graduating. [186942]

Alan Johnson: The Department's main data source for monitoring the destination of graduates is the First Destination Survey (FDS), which is collected annually by the Higher Education Statistics Agency (HESA). This records the employment position of graduates six months after graduation, including the type of work obtained by those graduates entering employment. These figures are published by HESA annually in 'First Destinations of Students leaving Higher Education Institutions', a copy of which can be found in the House Library.

Following a comprehensive review, the FDS has been expanded for 2002–03 to cover students completing part-time courses and to collect additional information on the student's employment.

Higher Education (Newcastle upon Tyne)

Mr. Cousins: To ask the Secretary of State for Education and Skills how many and what percentage of 18-year-olds were accepted for entry to higher education through UCAS in the City of Newcastle-upon-Tyne in each year since 1995. [186860]

Alan Johnson: The available information is taken from the Universities and Colleges Admissions Service (UCAS) and covers 18-year-old applicants accepted through UCAS to full-time first degree and HND courses. Figures are given in the table.

18-year-old applicants domiciled in the Newcastle-upon-Tyne LEA, accepted through UCAS to full-time first degree and HND courses

Year of entry	*Number*	*Percentage*
1995	607	22.2
1996	603	21.0
1997	527	16.4
1998	593	18.0
1999	553	17.2
2000	609	18.9
2001	754	23.3
2002	826	24.4
2003	872	25.1

Source:
Universities and Colleges Admissions Service (UCAS) and population figures based on projections from the Government Actuary's Department and the Office for National Statistics.

IT Training

Sandra Gidley: To ask the Secretary of State for Education and Skills what plans he has to improve *(a)* IT training and *(b)* access to the internet for older people. [186794]

Mr. Ivan Lewis: The information is as follows:

(a) DfES colleagues are currently working with partners, developing a strategy to take forward the commitments to ICT user skills made in the White Paper, 21st Century Skills, realising our potential, which include designating ICT as a Skill for Life.

A project called "Cybrarian" is currently being developed which aims to help reduce the digital divide by facilitating access to the Internet and to learning opportunities for those who currently do not, or cannot, use the Internet. This may be because of a lack of skills or confidence, or because of physical or cognitive disabilities.

(b) DfES has established a network of 6,000 UK online centres to help those who have not used computers or the Internet before, or who do not have access to a computer of their own. These centres provide free or low cost access to ICT and the Internet, with support from staff on hand to help individuals get started. One of the target groups is older people. Everyone in England should be able to find a UK online centre near to their home. Around 3,000 are based in libraries and the rest are located to provide easy access for all.

Learner Satisfaction Survey

Chris Grayling: To ask the Secretary of State for Education and Skills (1) how much was spent by the Learning and Skills Council on producing the Learner Satisfaction Survey in 2003; [186602]

(2) what funding methodology was used for setting budgets for local learning and skills councils in 2003–04; [186604]

(3) how much money has been allocated to each local learning and skills council in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06. [186605]

Mr. Ivan Lewis: These are matters for the Learning and Skills Council. Mark Haysom the Council's Chief Executive will write to the hon. Gentleman with the information requested and a copy of his reply will be placed in the Library.

Learning Difficulties/Disabilities (Coventry, South)

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills how many Coventry, South students in *(a)* primary and *(b)* secondary schools suffer from learning (i) difficulties and (ii) disabilities. [187299]

Margaret Hodge: Learning difficulties and learning disabilities are covered within the definition set out in section 312 of the Education Act 1996 which states that children have special educational needs if they have a learning difficulty which calls for special educational provision to be made for them.

Children have a learning difficulty if they:

(a) have a significantly greater difficulty in learning than the majority of children of the same age

(b) have a disability which prevents and hinders them from making use of educational facilities of a kind generally provided for children of the same age in schools within the area of the local authority.

The table shows numbers of pupils with SEN in Coventry, South.

Maintained primary and secondary schools[1]: number of pupils with special education needs (SEN)—January 2004 (provisional)

Coventry, South parliamentary constituency[2]	*Maintained primary*	*Maintained secondary*
Total pupils	7,780	7,410
Pupils with statements of SEN	80	150
Percentage	1.0	2.0
Pupils with SEN but without statements[3]	1,340	1,270
Percentage	17.3	17.1

[1] Includes middle schools as deemed.
[2] Figures have been rounded to the nearest 10.
[3] Includes children at "School Action" and "School Action Plus" as described in the SEN Code of Practice.

Minimum Pupil Numbers

Andrew Selous: To ask the Secretary of State for Education and Skills what plans he has to require small schools to have a minimum number of pupils. [186476]

Mr. Miliband: We have no plans to require small schools to have a minimum number of pupils.

Decisions on proposed changes to schools, including opening and closing, are taken by each area's local School Organisation Committee, or an independent schools adjudicator, and the Department's guidance makes clear that they must not assume a school must be of a certain size to be a good school. LEAs have a statutory duty to ensure sufficient and efficient school provision in their area and we will expect them to take parental preferences into account in their planning process. LEAs must also ensure that each area offers high quality education in a cost effective way.

New Schools (Great Yarmouth)

Mr. Anthony D. Wright: To ask the Secretary of State for Education and Skills how many new *(a)* primary and *(b)* secondary schools were opened in the Great Yarmouth constituency between 1979 and 1997; and what proposals have been made for building new schools within the Great Yarmouth constituency since 1997. [186706]

Mr. Miliband: Information is only available for new school openings since 1988. Between 1988 and 1997 no new schools were established in Great Yarmouth. Since 1997, approval has been given for four new Primary schools, namely:

School name	*Reason for opening*
Herman Community Primary School	Amalgamation of Herman First and Herman Middle School
Peterhouse Community Primary School	Amalgamation of Peterhouse First and Peterhouse Middle School
Martham Foundation Primary School	Amalgamation of Martham First School and Nursery and West Flegg Middle School
Belton Voluntary Community Primary School	Amalgamation of Waveney First School and Breydon Middle School

Proposals for the new schools were approved by the local School Organisation Committee on 6 December 2002 and they are due to open this coming September.

Plans for any future organisation of schools are a matter for the local authority.

Education (Northampton, South)

Mr. Tony Clarke: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* education support staff there were in Northampton, South in each year since 1992. [186462]

Mr. Miliband: The following table gives the full-time equivalent number of regular teachers and support staff employed in maintained sector schools in Northampton, South constituency for each year from 1997 to 2003, the latest year available. Data are not available at constituency level prior to 1997.

	Teachers	*Support staff*[1]
2003	851	683
2002	860	659
2001	858	633
2000	765	464
1999	756	446
1998	749	397
1997	763	398

[1] Includes teaching assistants, administrative staff, technicians, medical and other child care and education support staff.

Source:
Annual School Census.

Mr. Tony Clarke: To ask the Secretary of State for Education and Skills if he will break down achievement at each key stage in 2003 in Northampton by ethnicity, subdivided into those *(a)* in receipt of and *(b)* not in receipt of free school meals. [186509]

Mr. Miliband: The requested information has been placed in the Libraries.

Mr. Tony Clarke: To ask the Secretary of State for Education and Skills what the average class size in Northampton, South for *(a)* primary and *(b)* secondary schools was in each year since 1997. [186521]

Mr. Miliband: The requested information is given in the table.

Maintained primary and secondary schools[1]: Average size of classes taught by one teacher[2] Northampton, South parliamentary constituency[3]

	Primary			*Secondary*		
Position in January each year: 1997 to 2004 (provisional)	*Number of pupils*	*Number of classes*	*Average class size*	*Number of pupils*	*Number of classes*	*Average class size*
1997	7,400	270	27.1	6,930	330	21.3
1998	7,340	270	27.4	6,790	300	22.9
1999	7,360	270	27.4	6,890	290	23.5
2000	7,310	270	27.1	7,010	290	23.8
2001	7,170	270	26.3	8,480	380	22.5
2002	7,170	290	25.2	7,840	330	23.8
2003	7,440	300	25.0	7,320	320	22.7
2004[4, 5]	9,500	370	25.8	5,700	260	22.0

[1] Includes middle schools as deemed.
[2] Classes as taught during the one selected period in each school on the day of the census in January.
[3] Figures have been rounded to the nearest 10.
[4] Difference in figures from 2003 to 2004 is due to some schools within Northampton, South parliamentary constituency changing status from middle deemed secondary schools to primary school status.
[5] Provisional.

Annual Schools' Census.

Offender Education

Mr. Oaten: To ask the Secretary of State for Education and Skills how many *(a)* full-time and *(b)* part-time teachers and tutors are in post at each (i) prison and (ii) young offender institute. [187216]

Mr. Ivan Lewis: There are currently 405 full-time teachers and tutors in post in prisons and 271 in Young Offenders Institutions. For part-time teachers the figures are 225 in prisons and 103 in Young Offenders Institutes.

Mr. Oaten: To ask the Secretary of State for Education and Skills how many prison education tutors have *(a)* resigned and *(b)* been made redundant in each of the last five years; and how many vacancies there are for these staff. [187217]

Mr. Ivan Lewis: This information is not held centrally by HM Prison Service. Learning and skills in prisons are delivered by 28 educational providers in 137 prisons.

Matters relating to the employment status of tutors are the responsibility of the contractors.

Mr. Oaten: To ask the Secretary of State for Education and Skills what plans he has for the Offenders' Learning and Skills Unit within his Department. [187218]

Mr. Ivan Lewis: The OLSU continues to play a key role in managing improvements to offender learning and skills, working in partnership with a range of Departments and agencies across Government; including the Learning and Skills Council and the prison and probation services. From April 2004, the role of the unit extends to learning and skills for offenders in the community, as well as in custody.

As we develop plans for improving future delivery of learning and skills for offenders, the unit expects to work increasingly closely with the Learning and Skills Council and other regional partners. As part of the Government's commitment to moving resources closer to the front line of delivery, we will consider how the unit's regional advisory staff could work most effectively within the regions for the future.

Mr. Oaten: To ask the Secretary of State for Education and Skills what role the regional Learning and Skills Councils will have in the *(a)* commissioning and *(b)* delivery of offender education in (i) prisons and (ii) the community; [187220]

(2) whether the new contracts for prison education will provide funding for *(a)* staff development, *(b)* lesson planning, *(c)* marking of students' work and *(d)* pastoral education. [187215]

Mr. Ivan Lewis: The DfES is working closely with the Learning and Skills Council, the Prison Service, the Probation Service, the Youth Justice Board and JobCentreplus on new arrangements to support improvements in the learning and skills of offenders in the community as well as those in custody.

The Learning and Skills Council already works in partnership at local level with probation services in order to deliver learning and skills to offenders under supervision in the community. From next year, starting in the three development regions of the north east, north west and south west, the LSC will also assume lead responsibility for planning and funding, education and work related skills training for offenders in custody.

The precise balance between local, regional and national commissioning in arrangements for the future service for offenders, and the detailed content of any new contracts, will be agreed as we develop a new delivery framework over the next year.

This work is still at an early stage. We expect the LSC to ensure flexibility in contracting arrangements, and to adopt a funding formula which will promote consistency in the funding of offender learning across all regions. In the meantime, in order to ensure stability, we are extending the current prison education contracts in broadly their existing form.

Pensioner Education

Sandra Gidley: To ask the Secretary of State for Education and Skills what plans he has to improve access to education for pensioners. [186451]

Mr. Ivan Lewis: Our plans were set out in the White Paper "21st Century Skills; Realising Our Potential" published in July 2003. We are committed to safeguarding a wide range of opportunities for pensioners. This is why we have agreed a budget with the Learning and Skills Council of £207.4 million in 2004–05 for adult and community learning secured through local education authorities, compared with £206 million in 2003–04. 28 per cent. of learners on these courses are aged 65 or over.

PFI/PPP Contracts (Financial Advice)

Matthew Taylor: To ask the Secretary of State for Education and Skills how many contracts his Department had with *(a)* Barclays, *(b)* Royal Bank of Scotland, *(c)* UBS Warburg and *(d)* Bank of Scotland for advice on private finance initiative and public private partnership contracts in each financial year since 2001–02; and what fees were paid in each case. [186690]

Mr. Miliband: There are no records of contracts with the organisations listed, or of any payments to them, for these purposes.

Pre-school Education

Mr. Woodward: To ask the Secretary of State for Education and Skills (1) what the Government's policy is on pre-school education access; and if he will make a statement; [186803]

(2) whether the Government expects to meet its target of providing free part-time nursery education places to all three and four year old children by September; and if he will make a statement; [186808]

(3) what plans the Government has to expand access to pre-school education; and if he will make a statement. [186802]

Margaret Hodge: In 1997 access to free nursery education was effectively a postcode lottery. We have since invested more than £11 billion as part of an unprecedented expansion of early years provision. From 1 April 2004, six months ahead of the original target, we have amended the regulatory framework to

require all local authorities to ensure there is sufficient provision to deliver a free part time nursery education place for all three and four-year-olds whose parents want one. Provisional data from the January 2004 Early Years Census, published in May, confirmed that around 93 per cent. of three-year-olds and virtually all four year olds were already benefiting from some free provision. The Department's Five Year Strategy for Children and Learners, presented to Parliament in July (Cm 6272) outlined our plans to transform and build on the basic free entitlement by enabling parents to use it more flexibly as part of a wider integrated offer of education and child care.

Mr. Anthony D. Wright: To ask the Secretary of State for Education and Skills how many free *(a)* nursery and *(b)* pre-school places were available for (i) three and (ii) four-year-olds in Great Yarmouth in each of the last seven years. [186713]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by three and four-year-olds in Norfolk local education authority area are shown in the table.

Number of free nursery education places[1,2] taken up by three and four-year-old children in maintained nursery and primary schools and private, voluntary and independent providers Norfolk local education authority area, 1997–2003

Position in January each year	Three-year-olds	Four-year-olds
1997	1,500	8,200
1998	1,800	8,400
1999	1,900	8,500
2000	1,900	8,900
2001	2,000	8,400
2002	4,800	8,400
2003	6,100	8,400

[1] Part-time equivalent number of free nursery education places taken up by three and four-year-old children.
[2] A free nursery education place comprises five two-and-a-half hour sessions of early years education per week, for 33 weeks of the year, usually three terms of 11 weeks.

The latest figures on provision for three and four-year-olds in England were published in a Statistical First Release, "Provision for Children Under Five Years of Age in England—January 2004", which is available on the Department's website: www.dfes.gov.uk/rsgateway/

From April 2004, six months ahead of our original target, all three-year-olds in England whose parents want one, are eligible for a free, part-time early education place.

Primary Schools (Non-teaching Grant)

Mr. Dhanda: To ask the Secretary of State for Education and Skills if he will ring-fence a specific grant in 2005–06 for planning, preparation and assessment time for primary school teachers. [186308]

Mr. Miliband: I refer the Member for Gloucester to the written statement I laid before the House on 13 July 2004, *Official Report*, column 55WS, on school funding for 2005–06. On the same day there was also a press notice issued by the Department (DfES press notice 2004/0137), which included a statement welcoming the school funding settlement by those school workforce unions represented on the Workforce Agreement Monitoring Group.

The written statement to the House sets out how we have considered, with our partner signatories, the costs of implementation of the National Agreement. It announces what funds will be available to schools to implement the Agreement in 2005–06.

Prison Education

Mr. Oaten: To ask the Secretary of State for Education and Skills when his Department will *(a)* release full details of the new contracts for prison education, *(b)* begin accepting tenders, *(c)* make decisions on which tenders will be successful and *(d)* announce a start date for the new contracts. [187238]

Mr. Ivan Lewis: We announced in January that we would not re-tender prison education contracts. With the creation of the new National Offender Management Service and the drive to get more resources to front-line services, we are looking to incorporate offender learning and skills more fully into mainstream further education provision.

The Offenders' Learning and Skills Unit and the Learning and Skills Council are working with the Prison and Probation Services to develop a new integrated service, initially in three development regions in England. The outcome of this work will inform the national implementation of a new, fully integrated service to offenders from September 2006.

In the meantime, in order to ensure stability as we develop the new service delivery arrangements, Prison Service officials are negotiating extensions to existing contracts from September 2004.

Pupil Exclusions

Mr. Anthony D. Wright: To ask the Secretary of State for Education and Skills how many pupils were excluded from schools in *(a)* Great Yarmouth and *(b)* Norfolk in each year since 1997. [186710]

Mr. Ivan Lewis: The available information is given in the table.

Exclusions data for 2000/01, 2001/02 and 2002/03 are known to have been under-reported by some schools. The Department carried out a checking exercise, but this was at LEA level only. As a result this information is not available at parliamentary constituency level for the three most recent years.

Maintained primary and secondary schools[1] number and percentage of permanently excluded pupils 1997–98 to 2002–03[2,3]

	Primary		Secondary	
	Number	Percentage[4]	Number	Percentage[4]
Great Yarmouth parliamentary constituency				
1997–98	10	0.09	20	0.59
1998–99	10	0.07	30	0.76

[5] Less than 5.

Source:
Annual Schools Census

Mr. Love: To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary pupils on average were (i) permanently excluded from school and (ii) unable to access a place in school in each of the last five years in (A) the London borough of Enfield, (B) Inner London and (C) England; and if he will make a statement. [187005]

Mr. Ivan Lewis: Requested information on the number and percentage of excluded pupils is given in the tables.

Maintained primary schools[1]: Number and percentage of permanently excluded pupils, 1997/98 to 2002/03 (provisional)[2]

	Enfield LEA		Inner London		England	
	Number	Percentage[3]	Number	Percentage[3]	Number	Percentage[3]

[4] Provisional.
Source:
Annual Schools Census.

We do not hold information centrally on the numbers of excluded pupils unable to access a place in school. However, from September 2002 all local education authorities (LEAs) have been committed to providing suitable full-time education for permanently excluded pupils from the sixteenth day of their exclusion. Since then all but a handful of LEAs have met this commitment. Currently only two LEAs are not meeting it and the Department is working with them to help them achieve it.

Pupil Expenditure (Great Yarmouth)

Mr. Anthony D. Wright: To ask the Secretary of State for Education and Skills how much public money was spent per pupil in the Great Yarmouth constituency in each year since 1997. [186709]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than constituency level. The figures provided are for Norfolk LEA and are shown in the following table:

Net current expenditure (after recharges) per pupil

	Total
1997–98	2,380
1998–99	2,470
1999–2000	2,570
2000–01	2,850
2001–02	3,180
2002–03	3,400

Notes:
1. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEA. This is divided by the number of pupils educated in mainstream schools to calculate a unit cost.
2. Section 52 is collected at local authority level, not constituency level, so the figures provided are for Norfolk LEA.
3. 1999–2000 figures reflect the return of GM schools to local authority maintenance.
4. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. This change in calculation is identified by the dotted line. The 2002–03 figure is calculated by taking all the LEA expenditure, excluding CERA and Youth and Community, and dividing it by the FTE pupil numbers in maintained pre-primary, primary, secondary and special schools.
5. Data as reported by Norfolk LEA as at 22 July 2004.
6. Figures are reported in Cash Terms and are rounded to the nearest £10.
7. The financial data are taken from Norfolk LEAs' Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement previously. 2002–03 data remains provisional and is subject to change by the LEA.
8. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Pupil Referral Units

Mr. Wiggin: To ask the Secretary of State for Education and Skills what plans he has to permit academically-orientated students who have been expelled from mainstream education and who are in Pupil Referral Units to study in academic surroundings to complete their education. [186941]

Mr. Ivan Lewis: As part of their legal responsibilities, LEAs are able to make arrangements for all students within Pupil Referral Units (PRUs), including those who have been excluded, to attend other educational establishments (for example Further Education Colleges) in order to complete their education. This is in addition to the core curriculum that must be provided within PRUs. LEA's responsibilities are emphasised in the new guidance "Guidance for LEAs on PRUs and Alternative Provision", which will be issued in the autumn, but is already accessible by them in draft form.

School Budgets

Mr. Liddell-Grainger: To ask the Secretary of State for Education and Skills what action he is taking to give head teachers more control over school budgets. [186470]

Mr. Miliband: Governing bodies and head teachers are already free to deploy the resources allocated to them through local education authorities' school funding formulae in accordance with their own assessment of their schools' needs and priorities. From April 2006, individual schools will receive guaranteed three-year budgets and this will give them even more control of their own resources by enabling them to take a much more strategic approach to their budgets.

In addition to recurrent funding, each maintained school in England is also allocated direct capital funding which it can use for its investment priorities. This year, a typical secondary school will get about £85,000 of its own capital, and a typical primary school about £25,000.

Mr. Liddell-Grainger: To ask the Secretary of State for Education and Skills what plans he has to conduct research into how school budgets are spent. [186471]

Mr. Miliband: The DfES is actively involved in a programme of research into how schools use their budgets. This includes a detailed analysis of school expenditure patterns from the Consistent Financial Reporting data, which will provide schools with an indication of how their own expenditure compares to the overall national picture. This work complements the existing Schools Financial Benchmarking web site that allows schools to compare their income and expenditure with other similar schools.

As well as analysis of expenditure information, qualitative analysis will be carried out in schools to identify the process by which schools allocate their resources to develop better advice.

Finally there is a work stream in progress developing measures of school efficiency and productivity. These methods look specifically at the relationship between the way in which a school allocates its resources and the outcomes it achieves given the context in which it operates.

School Refurbishment (Great Yarmouth)

Mr. Anthony D. Wright: To ask the Secretary of State for Education and Skills how much funding has been given to *(a)* primary and *(b)* secondary schools in the Great Yarmouth constituency for the refurbishment of school buildings since 1997. [186711]

Mr. Miliband: We do not hold information in the form requested. The bulk of capital funding is allocated to local education authorities (LEAs) and schools by formula so that they can decide their priorities for investment in line with locally decided asset management plans. It is therefore for them to decide the balance of investment between primary and secondary schools.

The Department allocates capital funding at local authority and school level. The following table sets out the capital support provided by the Department to Norfolk LEA and its schools since 1996–97.

Capital allocations to Norfolk and its schools

	£000
1996–97	4,786
1997–98	4,907
1998–99	9,199
1999–2000	10,589
2000–01	25,545
2001–02	21,219
2002–03	[1]123,526
2003–04	39,292
2004–05	[2]106,619

[1] Includes £92 million of Private Finance Initiative (PFI) credits.
[2] Includes £60 million of PFI credits.

School Start Date

Barbara Follett: To ask the Secretary of State for Education and Skills what plans he has to allow children to start primary education in the September of the calendar year in which the child has its sixth birthday. [187529]

Mr. Miliband: We have no plans to change from the current statutory provisions which require that children start primary education in the term after their fifth birthday.

Science and Innovation Consultation

Mr. Pollard: To ask the Secretary of State for Education and Skills what assessment he has made of the potential benefits to *(a)* science in schools and *(b)* biology fieldwork following the science and innovation consultation; and if he will make a statement. [186465]

Alan Johnson: The Government's Science and Innovation 10-year Investment Framework sets out our comprehensive strategy for tackling skills shortages in the science, engineering and technology. We outlined how we would improve science teaching and learning in schools by providing additional incentives to recruit more people to train to be science teachers, making better use of specialist science support staff and, subject to the advice of the School Teacher Review Body, enabling science Advanced Skills Teachers to be paid more. We also outlined the importance of a science curriculum that inspires young people, with opportunities for exciting science practical work in and outside the classroom.

To improve teacher confidence in using fieldwork, we have funded the Field Studies Council in association with the Geographical Association, the Association of Science Education and the Open University to develop a training course for geography and science teachers. Complementary courses on fieldwork will also be offered through the new national network of Science Learning Centres. Our Growing Schools programme supports teachers to educate pupils about food cultivation, farming, and understanding the natural environment, as well as how to use the outdoors for teaching subjects across the curriculum.

Secondary School Targets

Mr. Liddell-Grainger: To ask the Secretary of State for Education and Skills what representations the Department has received regarding its new secondary school targets. [186469]

Mr. Miliband: The DfES has received no formal representations on the new secondary school PSA targets since their announcement on 12 July.

Special Educational Needs and Disabilities (Great Yarmouth)

Mr. Anthony D. Wright: To ask the Secretary of State for Education and Skills how much public funding has been spent in Great Yarmouth on measures within the Special Educational Needs and Disability Act 2001. [186720]

Margaret Hodge: The information requested is not held in this format.

Norfolk county council will spend an estimated £45 million on special educational needs in 2004–05. This includes the amount delegated to schools and the authority's central spend on special needs. In addition, Norfolk has £1,352,236 available in 2004–05 through the Schools Access Initiative.

Strategic Area Reviews

Chris Grayling: To ask the Secretary of State for Education and Skills what the cost of strategic area reviews was in 2003–04; and how much is budgeted for *(a)* 2004–05 and *(b)* 2005–06. [186603]

Mr. Ivan Lewis: The Learning and Skills Council (LSC) was established in 2001 to plan and fund post-16 education and training. LSC led strategic area reviews were introduced in April 2003 and are an integral part of this planning role. No extra funding was allocated to carry out these reviews and it is therefore not possible to disaggregate their specific cost from the overall cost of the wide range of planning activities carried out by local LSCs.

Student Grants/Loans

Mr. Cousins: To ask the Secretary of State for Education and Skills if he will place in the Library the survey referred to in his answer of 10 May 2004, *Official Report*, columns 53–54W, on student grants. [186849]

Alan Johnson: The specially commissioned survey referred to in the answer of 10 May 2004, *Official Report*, columns 53–54W, was collected from local education authorities in England and Wales and completion of it was on a voluntary basis. The response rate means that the survey results cannot be used safely at the level of individual LEAs, although we can use it nationally when also combined with income data from other sources. That is how we constructed the estimate of the proportion of students anticipated to receive the full grant of £2,700. However because of the data quality issues it is not possible to publish the raw survey data itself.

Annabelle Ewing: To ask the Secretary of State for Education and Skills what monetary sums were transferred to the Scottish Office further to the sale of portfolios of student loans in *(a)* 1998 and *(b)* 1999. [182984]

Alan Johnson *[holding answer 8 July 2004]:* The sums paid to the Scottish Office in respect of the two student loan debt sales were as follows:

	£
1998	110,186,867.85
1999	110,000,778.97

Sure Start

Mr. Woodward: To ask the Secretary of State for Education and Skills how many Sure Start programmes *(a)* have begun and *(b)* are planned in (i) St. Helens and (ii) England, broken down by region. [186811]

Margaret Hodge: Five Sure Start local programmes have been established in St. Helens since 1999. No further Sure Start local programmes will be developed. As part of our policy to mainstream Sure Start principles, the Government are establishing children's centres across England, many of which will be developed from existing Sure Start local programmes.

524 Sure Start local programmes have been established in England; these break down by region as follows.

Region	Number
East of England	24
East Midlands	44
London	96
North East	62
North West	108
South East	33
South West	31
West Midlands	58
Yorkshire and Humber	68

Mr. Woodward: To ask the Secretary of State for Education and Skills what plans the Government have to extend Sure Start beyond the 20 per cent. most deprived wards; and if he will make a statement. [187362]

Margaret Hodge: Sure Start benefits children, parents and communities across the country, delivering free early education for all three and four-year-olds, improving the quality and affordability of child care, and creating at least 250,000 new child care places by 2006. Sure Start children's centres are being established initially in the 20 per cent. most disadvantaged wards and areas where pockets of disadvantage exist in England. By March 2008 we will have up to 2,500 children's centres which will cover all the 20 per cent. wards and beyond. The Government's long-term aim is to develop a children's centre in every community.

Mr. Anthony D. Wright: To ask the Secretary of State for Education and Skills what funding has been allocated to the Great Yarmouth constituency under the Sure Start scheme. [186712]

Margaret Hodge: A total of £8,101,348 Sure Start funding has so far been allocated to the constituency of Great Yarmouth, comprising £3,136,535 capital and £4,706,921 revenue towards the development of two Sure Start local programmes, two neighbourhood Nurseries and two Children's Centres. The combined programmes will provide Sure Start services for around 1,596 children and families in the six most disadvantaged wards in the constituency. These figures does not include local authorities funding for child care and nursery education allocated to Norfolk county council.

Teachers

Alan Simpson: To ask the Secretary of State for Education and Skills what assessment he has made of the impact in Nottingham of reductions in numbers of teachers and teaching assistants on the introduction of planning, preparation and assessment time for all teachers. [187084]

Mr. Miliband: Individual schools will decide how they introduce planning, preparation and assessment (PPA) time for all teachers from September 2005. That is because schools make changes in their staffing levels every year in response to a range of issues including changing pupil numbers, new school priorities and the resources available to them.

The calculation of the Education Formula Spending Share has a floor and ceiling component which ensures that all authorities see a minimum increase per pupil which is in part funded by having a ceiling which imposes a maximum increase per pupil. In 2004–05 Nottingham City local education authority received the ceiling increase (6.8 per cent. per pupil and percentages provide for average cost of implementing PPA time).

I refer also to the written statement I laid before the House on 13 July 2004, *Official Report*, column 55WS, on school funding for 2005–06. On the same day there was also a press notice issued by the Department (DfES press notice 2004/0137), which included a statement welcoming the school funding settlement by the Workforce Agreement Monitoring Group (made up of the majority of the school workforce unions and other partners).

The written statement to the House sets out how we have considered, with our partner signatories, the costs of implementation of the National Agreement. It announces what funds will be available to schools to implement the Agreement in 2005–06.

At local level, the funding allocation for each local education authority for 2005–06 will be announced in the provisional local government finance settlement in the autumn. However, every authority will receive an increase in the Schools Formula Spending Share of at least 5.5 per cent. per pupil. Primary and nursery schools will receive a minimum funding increase per pupil of 5 per cent. and secondary schools of 4 per cent. where pupil numbers do not change.

We will continue to monitor trends in the schools workforce through the Annual Schools Census each January. There are now 427,800 full-time equivalent teachers—28,600 more than in 1997 and the highest number since 1981—and the number of support staff has increased to 241,700, having more than doubled since 1997. These figures illustrate the trend of the significant increases in teachers and support staff since 1997.

The next School Workforce Volume will be available in the autumn.

Mr. Love: To ask the Secretary of State for Education and Skills what the most recent estimate is of the average total salary of a *(a)* primary school teacher and *(b)* secondary school teacher in (i) Enfield, (ii) Inner London and (iii) England; and if he will make a statement. [187003]

Mr. Miliband: The following table shows the average salary of full-time teachers employed in maintained nursery/primary and secondary schools in Enfield local education authority, Inner London and England in March 2002, the latest information available.

£

	Nursery and primary	Secondary
Enfield LEA	29,700	32,070
Inner London	30,880	33,660
England	27,600	29,550

Source:
The Database of Teacher Records. Figures cover all grades and include all allowances.

Mr. Hoban: To ask the Secretary of State for Education and Skills what level of proficiency participants in *(a)* the Post Graduate Certificate of Education, *(b)* Teach First and *(c)* the Graduate

Teacher Programme need to reach with regard to (i) ICT and (ii) special educational needs to be deemed to have met the course requirements. [186421]

Mr. Miliband: Before they can be recommended for qualified teacher status, all trainee teachers, whatever training route they follow, must demonstrate that they have achieved the professional standards for QTS set out in "Qualifying to teach". This applies to all the standards, including those related to ICT and special educational needs.

Mr. Love: To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary teacher vacancies there were at the start of each of the last five academic years in (i) the London borough of Enfield, (ii) inner London and (iii) England; what the percentage salary rate was in each year; and if he will make a statement. [187006]

Mr. Miliband: The tables show teacher vacancy numbers and rates in maintained nursery/primary and secondary schools in the London borough of Enfield, inner London and England in January of each year since 1999. January 2003 is the latest year available.

	Nursery and Primary				
	1999	*2000*	*2001*	*2002*	*2003*
Vacancies[1]					
Enfield	19	13	29	27	16
Inner London	367	355	510	321	153
England	1,374	1,420	2,110	1,796	1,114
Rates[2]					
Enfield	1.9	1.2	2.7	2.5	1.8
Inner London	3.8	3.6	5.4	3.4	1.6
England	0.8	0.8	1.2	1.0	0.6

	Secondary				
	1999	*2000*	*2001*	*2002*	*2003*
Vacancies[1]

DfES annual survey of teachers in service (Form 618g)

Mr. Ruffley: To ask the Secretary of State for Education and Skills how many full-time equivalent teachers have been employed in Suffolk in each of the last 10 years. [187194]

Mr. Miliband: The following table gives the full-time equivalent number of regular teachers in the maintained schools sector in Suffolk local education authority in each January since 1994. 2003 is the latest year available.

	Number
2003	5,700
2002	5,660
2001	5,490
2000	5,450
1999	5,450
1998	5,380
1997	5,330
1996	5,330
1995	5,360
1994	5,270

DfES annual survey of teachers in service (Form 618G).

Westgate College, Newcastle

Mr. Cousins: To ask the Secretary of State for Education and Skills what bids he has received for Westgate College, Newcastle under the Building Schools for the Future programme; when he expects to make a decision; and what funding mechanism he expects to use. [186834]

Mr. Miliband: While I can confirm that West Gate Community College is included in Newcastle-upon-Tyne's proposal for the renewal of its secondary school estate to be funded in wave 1 of Building Schools for the Future, the authority is still working with my officials to develop its proposals in detail.

We hope to confirm approval of Newcastle's proposals later this year, at which point the relevant funding mechanisms will also be confirmed.

Working Age People (Qualifications)

Mr. Cousins: To ask the Secretary of State for Education and Skills what the change in *(a)* basic skills and *(b)* proportion of working age people (i) with no qualifications, (ii) qualified to level 2 and (iii) qualified to level 4 has been in the constituency of Newcastle-upon-Tyne Central since 1997. [186838]

Mr. Ivan Lewis: *(a)* The 2003 Skills for Life survey provides the latest estimate of literacy and numeracy levels for England, the North East and the Tyne and Wear Learning and Skills Council area in particular. At present it is not possible to estimate levels of need for the Newcastle-upon-Tyne area although such figures will be available via DfES's website this autumn. The Skills for Life survey maps skill levels to the National Standards for Adult Literacy and Numeracy and is not directly comparable with previous estimates of basic skills need. This means we are unable to look at changes in basic skills levels since 1997.

The survey highlights that 22 per cent. of North East respondents were classified at Entry Level 3 or below for literacy (below a GCSE grade G). The figure for England as a whole is 16 per cent. If the North East's population is approximately 2.6 million, this would mean that over 500,000 people would have literacy skills at entry level 3 or below. For Tyne and Wear LSC area, 22 per cent. of respondents were at Entry Level 3 or below for literacy.

For numeracy, 55 per cent. of North East respondents were classified at Entry Level 3 or below for numeracy. This compares with a figure of 47 per cent. for England as a whole. If the North East's population is 2.6 million,

this would mean that approximately 1.4 million people would have entry level 3 or below numeracy skills. 50 per cent. of respondents were at Entry Level 3 or below for Tyne and Wear LSC area.

Available data show that between the launch of the Skills for Life strategy in April 2001 and July 2003, Learning and Skills Council funded learners in the North East achieved some 35,000 Skills for Life qualifications, 18,000 within the Tyne and Wear Learning and Skills Council area. These figures are in addition to achievements funded through the Offenders' Learning and Skills Unit and the Department for Work and Pensions.

(b) The following table shows the proportion of working age[1] people (i) with no qualifications, (ii) qualified to level 2 and (iii) qualified to level 4. Figures are given for the Newcastle-upon-Tyne Central Parliamentary Constituency Area (PCA), the Tyne and Wear local Learning and Skills Council (LSC) area, and the North East Government Office Region (GOR). Data comes from the Local Area Labour Force Surveys conducted annually from 1999–2000 to 2002–03.

[1] Working age population refers to males aged 16 to 64 and females aged 16 to 59.

	Qualification level (percentage)[1]

Working Time Directive

Mr. Simon Thomas: To ask the Secretary of State for Education and Skills how many staff at each grade in his Department have opted out of the Working Time Regulations; and what the average number of hours these staff work per week is. [187097]

Mr. Charles Clarke: My Department is committed to reducing the number of employees who work in excess of the Working Time Directive maximum to an absolute minimum. 64 staff have signed a formal opt out from the Working Time Directive. The following table shows the number of staff at each grade:

Grade	*Number*
Administrative Officer	7
Executive Officer	22
Higher Executive Officer	15
Higher Executive Officer (Development)	2
Senior Executive Officer	10
Grade 7	7
Senior Civil Service	1
Total	64

The average number of hours that these staff work per week is not kept centrally and could be provided only at disproportionate cost.

TRADE AND INDUSTRY

Book Selling

Mr. Don Foster: To ask the Secretary of State for Trade and Industry what assessment she has made of the effect of the ending of the Net Book Agreement in 1995 on *(a)* authors, *(b)* publishers and *(c)* booksellers; and if she will make a statement. [185676]

Mr. Sutcliffe: A recent report, "The Benefits from Competition: some Illustrative UK Cases" (available at: http://www.dti.gov.uk/economics/economics_paper9.pdf), prepared for DTI by Professor Steve Davies of University of East Anglia and his team, explored the impact of removing the Net Book Agreement as one of six case studies on the impact of enhanced competition.

The Davies Report concluded that the ending of the Net Book Agreement was largely beneficial as prices, at least for the more popular books fell, more channels to market have increased competition and access and choice of books, and the feared adverse side effects for small booksellers and book production did either not occur or were smaller scale than expected.

Mr. Don Foster: To ask the Secretary of State for Trade and Industry what assessment she has made of the likely effect of the proposed removal of the

Recommended Retail Price from book sleeves on *(a)* authors, *(b)* publishers and *(c)* booksellers; and if she will make a statement. [185677]

Nigel Griffiths: After consultation with industry, we are not aware of any proposals to remove the current system of displaying pricing on books.

Innovation

Keith Vaz: To ask the Secretary of State for Trade and Industry what action the EU is taking to improve its policy on encouraging innovation. [186503]

Ms Hewitt: The EU has been encouraging innovation within the framework of the Lisbon strategy. The EU Innovation Scoreboard (published each year www.cordis.lu/scoreboard/) shows progress against this. The European Commission has carried out a public consultation on its draft Innovation Action Plan (http://www.europa.eu.int) and a revised version is due to be published in November 2004. The EU's sixth Framework Programme already provides a mechanism for funding collaborative research and provides substantial financial support to support research activity aimed at improving the EU's innovation performance. The Commission has published a Communication (Com (2004) 353) on 16 June 2004 (www.cordis.lu) setting out its ideas for the seventh Framework Programme, due to start at the end of 2006 and the UK will endeavour to ensure that this is structured in ways which further reinforce the EU's support for innovation.

Age Discrimination

Sandra Gidley: To ask the Secretary of State for Trade and Industry what steps she is taking to eliminate age discrimination in the workplace. [186857]

Jacqui Smith: The Government are preparing legislation outlawing unjustified age discrimination in employment and vocational training in accordance with the Employment Directive (2000/78/EC). This legislation will come into force on 1 October 2006. In addition, the Government are promoting the business benefits of an age diverse workforce through the Age Positive campaign. The campaign uses publications, research, press, events, awards initiatives and its website to get the message across. They also encourage employers to adopt the voluntary "Code of Practice: Age Diversity at Work, A Practical Guide for Business".

Mr. Woodward: To ask the Secretary of State for Trade and Industry (1) what the Government's policy is on preventing age discrimination; and if she will make a statement; [186938]

(2) what the Government's policy is on *(a)* direct and *(b)* indirect discrimination by employers against the employment of workers over the age of 50. [186947]

Malcolm Wicks: I have been asked to reply.

Through the Age Positive campaign the Government are combating age discrimination in the workplace. Age Positive is vigorously promoting the business benefits of an age diverse workforce by encouraging employers in both the public and private sector to adopt the voluntary Code of Practice: Age Diversity at Work, A Practical Guide for Business.

The Age Positive campaign is promoted to employers and individuals through advertising, the website and press features in national, local and specialist publications. It features existing good practice by employer champions, research, and strongly promotes to employers at exhibitions and workshops. Age Positive awards help to widely publicise the achievements of businesses and individuals who overcome ageism in employment.

Legislation will come into force to outlaw unfair discrimination on the grounds of age in employment and vocational training in 2006. We are currently developing proposals for draft legislation. This will cover both direct and indirect discrimination and will apply to all those in employment or vocational training and not just those aged 50 and over.

As the White Paper 'Fairness for All' has outlined, the Commission for Equality and Human Rights (CEHR) will provide institutional support for the provisions on age discrimination, working closely with partner organisations and key stakeholders to provide advice and assistance. The CEHR will be able to advise individuals of their rights under the legislation, and provide support for some people to bring their cases before the courts. In addition, the CEHR will have the powers to conduct an investigation into a named party where it has reasonable suspicion that the person is not complying with the statutory requirements of the age legislation. If unlawful discrimination or harassment is found, the CEHR will be able to require the discrimination to stop.

Mr. Woodward: To ask the Secretary of State for Trade and Industry how she expects the 2006 age discrimination legislation to be implemented; and which bodies will have responsibility for implementation. [186944]

Jacqui Smith: We will consult on regulations to outlaw age discrimination in employment and vocational training, which will come into force on 1 October 2006. The CEHR will enforce this legislation and promote awareness and best practice in relation to equality of opportunity for people of different ages more generally, providing information, advice and in some strategic cases, legal representation. The CEHR will not be fully operational until the end of 2006 at the earliest.

Biomass Energy Industry

Nick Harvey: To ask the Secretary of State for Trade and Industry how many planning applications for the construction of biomass power stations are being considered; and how many have been granted permission. [185847]

Mr. Timms: Proposals to construct and operate generating stations with a capacity greater than 50 megawatts (MW) in England and Wales require the Secretary of State for Trade and Industry's consent under section 36 of the Electricity Act 1989. No application has been made to the Secretary of State for Trade and Industry for consent to construct a biomass power station.

Generating stations below 50 MW fall to be determined by the local planning authority under the normal planning regime.

Departmental Policies (Middlesbrough, South and Cleveland, East)

Dr. Kumar: To ask the Secretary of State for Trade and Industry if she will set out, including statistical information relating as directly as possible to the constituency, the effect on Middlesbrough, South and Cleveland, East constituency of her Department's policies and action since 8 June 2001. [184733]

Jacqui Smith: The Department of Trade and Industry (DTI) promotes a wide variety of areas' policies and are working with businesses, employees and consumers to drive up UK productivity and competitiveness to deliver prosperity to all. To achieve this the Department is involved in a number of regional programmes, with some being delivered through the Small Business Service (SBS), One North East and Business Links.

Although Department for Trade and Industry policies as a whole lead to increased prosperity and competitiveness throughout the country it is not possible to assess their impact at an individual constituency level. Some examples of specific initiatives benefiting Middlesbrough South and East Cleveland constituency are included in the information set out as follows:

Business Support

In his Budget statement the Chancellor announced a number of steps to help small businesses including an increase of capital allowances to 50 per cent. and raising VAT registration threshold to 58 per cent., all of which helps small businesses in your constituency. The Chancellor also announced that the Employer Training Pilot, run in Tyne and Wear for the last 15 months, would be made available to businesses throughout the north east. This will help businesses to improve workforce skills by providing training tailored to their needs.

Since the spring of 2001, the Business Link has assisted a total of 1,397 businesses to increase productivity and wealth in the Redcar and Cleveland council area. These businesses have been helped in a wide variety of disciplines including workforce development, finance, marketing and regulation.

In addition in the same area since the spring of 2002 316 businesses have been helped to start up. Business Link has helped would-be entrepreneurs to develop over 1,700 pre-start business ideas, stimulating an enhanced enterprise culture. From June 2001 to June 2004 190 Tees Valley Business Link customers have accessed a range of public funding (e.g. Innovation Action Fund and West Middlesbrough Neighbourhood Trust New Deal for Communities funding).

From April 2002 to date in the Tees Valley area, 69 Department of Trade and Industry grants exceeding £14 million in total value have been awarded. These include Selective Finance for Investment in England—and its predecessors Enterprise Grant and Regional Selective Assistance (RSA)—and SMART. The projects being supported are expected to generate investment in excess of £138 million, creating over 1,600 jobs and safeguarding 695. These grants are administered by One North East and the Small Business Service on behalf of the Department for Trade and Industry.

European Funding and Tees Valley

In the north east, the European Social Fund Objective 3 Programme commenced in July 2000 and continues to 31 December 2007. The Programme funds organisations which seek to help individuals (employed and unemployed) to improve their skill levels and obtain employment. Funds can be accessed through co-financing organisations (CFOs) or through the Programme Secretariat. The Tees Valley Learning and Skills Council and Job Centre Plus are Co-Financing (CFO's) funded projects with a total value of £19 million. There is an additional £34 million available to support Co-Financing (CFO) projects in Tees Valley from 2004–07. Between 2001–04 under direct bidding arrangements projects from the Middlesbrough area received a total of £18.6 million.

The North East of England Objective 2 Programme (2000–06) provides a total of £434 million in support in the north east. Within this £267.97 million is made up of £69.62 million in Priority 1 and £198.35 million in Priority 2 and is available for a wide range of business support activity including generic business support, technology and transfer access to finance. Tees Valley benefits from regional projects as well as those aimed directly at the sub-

Cross Government coordination

The Department for Trade and Industry has led the coordination of area specific initiatives with other Departments, such as the foot and mouth grants from the Department of Environment, Food and Rural Affairs (DEFRA), Farm Business Advisory Service and recently the targeted use of Department of Environment, Food and Rural Affairs (DEFRA) support to increase the uptake of business support in the disadvantaged areas of east Cleveland.

ECGD

Mr. Cousins: To ask the Secretary of State for Trade and Industry what the Export Credits Guarantee Department's administration costs were in each of the last five financial years *(a)* in total and *(b)* broken down into (i) staff costs, (ii) accommodation costs, (iii) consultancy costs and (iv) IT costs. [186840]

Mr. Mike O'Brien: The following table lists ECGD's administration costs by year for the last five financial years.

£000

	Administration costs	Breakdown of administration costs				
		Staff costs	Accommodation costs (rent)	Consultancy costs	IT costs	Others
1999–2000	23,218	13,548	1,506	515	3,516	4,133
2000–01	27,746	14,136	3,152	758	4,377	5,323
2001–02	29,371	15,523	3,262	628	5,403	4,555
2002–03	26,546	14,022	3,373	1,031	4,388	3,732
2003–04	30,226	14,806	3,645	833	5,676	5,266

Mr. Cousins: To ask the Secretary of State for Trade and Industry what savings in administration costs the Export Credits Guarantee Department is required to achieve in 2005–06; and what the projected savings in such costs for the next five financial years are. [186841]

Mr. Mike O'Brien: DTI is to invest £10 million into ECGD over the two years from April 2005 to improve ECGD's efficiency and effectiveness (I refer you to the Secretary of State for Trade and Industry's announcement about the future of ECGD on 1 July 2004, *Official Report*, column 22WS). The intention is that the cost savings achieved by ECGD during this period will be sufficient to ensure that the premium reduction of up to £5 million per annum can be sustained after April 2007.

Mr. Cousins: To ask the Secretary of State for Trade and Industry whether it is her practice to offer Export Credits Guarantee Department cover in Government to Government defence export and sales agreements; and what the total amount of cover outstanding on such agreements is. [186848]

Mr. Mike O'Brien: UK companies are eligible for support from ECGD under Government to Government contractual arrangements which could result in the UK company incurring a loss as a consequence of the overseas' Government's failure to pay.

The total amount of cover outstanding in respect of Government to Government contracts underwritten after 1991 currently stand at around £1,060 million.

Mr. Simon Thomas: To ask the Secretary of State for Trade and Industry to what extent a capitalised trading fund will give the Export Credits Guarantee Department autonomy from HM Treasury and her Department. [187094]

Mr. Mike O'Brien: As a Trading Fund, ECGD will have greater operational freedom to manage its financial affairs.

HM Treasury's future role will be more focused on strategic oversight, while the Shareholder Executive within the DTI will offer Ministers advice on aspects of the Department's corporate governance, financial targets and performance as a Trading Fund.

Mr. Simon Thomas: To ask the Secretary of State for Trade and Industry under what terms the £10 million investment in the Export Credits Guarantee Department from her Department's shareholder executive can be spent; and if she will make a statement. [187095]

Mr. Mike O'Brien: The £10 million to be invested by the DTI over two years from April 2005 will be spent to improve the operational efficiency and effectiveness of ECGD. The intention is that the cost savings achieved will be used to ensure that the premium reduction of up to £5 million per annum (as detailed in the Secretary of State for Trade and Industry's Trading Fund announcement of 1 July 2004, *Official Report*, column 22WS) can be sustained after April 2007.

ECGD's new Chief Executive is currently preparing a detailed plan for these cost reductions.

Mr. Simon Thomas: To ask the Secretary of State for Trade and Industry if she will estimate what the average reduction in the Export Credits Guarantee Department premium rates will be in *(a)* 2005–06 and *(b)* the subsequent five financial years; and if she will make a statement. [187098]

Mr. Mike O'Brien: As my right hon. Friend , the Secretary of State for Trade and Industry announced on 1 July, *Official Report*, column 22WS, ECGD will seek to reduce its premium rates to customers by up to £5 million per annum from April 2005. This is around 6 per cent. of its current premium income.

Mr. Simon Thomas: To ask the Secretary of State for Trade and Industry what the terms of reference of the Export Credits Guarantee Department business plan are. [187099]

Mr. Mike O'Brien: My right hon. Friend the Secretary of State for Trade and Industry's announcement of 1 July 2004, *Official Report*, column 22WS, is the basis of the terms of reference for ECGD's business plan. The plan will explain how ECGD will meet the key aims and objectives for the ECGD Trading Fund set out in that statement.

Eco-Labelling

Mr. Lazarowicz: To ask the Secretary of State for Trade and Industry what her Department's policy is on the European eco-label. [185328]

Mr. Timms: The Government have played a full part in building up this scheme at EU level and we fully support the aims of this high-quality voluntary label, which helps to promote products with genuinely lower environmental impacts.

Defra administers the scheme in the UK and consults the DTI on matters such as the proposed technical criteria for the product groups covered by the scheme. Defra also consults other Departments and the Devolved Administrations, as well as business and other stakeholders. It has publicised the scheme in a number of ways, including currently an electronic newsletter for business about the use of environmental claims and labelling, and a free guide to consumers about reliable green labels.

Employment Protection

Sandra Gidley: To ask the Secretary of State for Trade and Industry what plans she has to expand employment protection to those aged 65 years and over. [186960]

Mr. Sutcliffe: The great majority of employment protection legislation already applies to workers aged 65 and over. We are reviewing upper age limits on statutory redundancy payments and general unfair dismissal claims in the light of responses to the public consultation on age discrimination carried out last year.

English Partnerships

Sue Doughty: To ask the Secretary of State for Trade and Industry what total tonnage of hazardous waste was *(a)* treated and *(b)* disposed of by English Partnerships projects in each of the last five years; what tonnage in each year was (i) consigned to landfill and (ii) decontaminated through onsite remediation; and what the projected tonnages are for 2004–05 in each case. [187161]

Keith Hill: I have been asked to reply.

English Partnerships does not itself record the tonnages of materials—hazardous or otherwise—treated or disposed of from projects where it has a core interest. To collate such information from records maintained by partner regional development agencies (who usually lead on coalfields projects) and contractors across the country could only be achieved at a disproportionate cost.

However, a sense of the scale of activity involved may be drawn from the following estimated numbers of projects contributing to EP's "area of land reclaimed" outputs in each of the last five years. The bulk of activity is through EP's well developed business and projects in the National Coalfields Programme and land reclamation works for sites in the Urban Regenaration Companies' and Millennium Communities' areas.

	No. of projects involving treatment of disposal of hazardous/contaminated material in any given year[1]	
Year	*National Coalfields Programme*	*Other projects*
1999–00	19	1
2000–01	25	0
2001–02	17	0
2002–03	15	1
2003–04	10	5

[1] For most sites remediation works carry over a number of years and will therefore appear more than once in the totals.

These totals are expected to increase in 2004–05 and beyond as EP's involvement in large scale brownfield site assembly increases in line with its business focus as set out in the Sustainable Communities Plan.

Enterprise Insight

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what targets have been set by her Department for the number of new start up small businesses which will be created with help from Enterprise Insight. [186341]

Nigel Griffiths: Enterprise Insight has a target of raising enterprise awareness amongst the 14–25 age group, measured by survey before and after Enterprise Week.

Mr. Bellingham: To ask the Secretary of State for Trade and Industry if she will make a statement on the *(a)* objectives and *(b)* organisational structure of Enterprise Insight. [186342]

Nigel Griffiths: Enterprise Insight is fostering an entrepreneurial spirit in the UK, by stimulating and encouraging enterprise attitudes, culture and values primarily in young people and those who influence them.

Enterprise Insight was created in 2000 as a company limited by guarantee. The three founder members are: the British chambers of commerce, the Institute of Directors and the CBI. The Federation of Small Businesses is also a member.

An advisory board provides guidance on Enterprise Insight's operations and campaign functions. Members of the advisory board include some of the UK's principal enterprise education and awareness delivery organisations.

Environmental Business Growth Action Programme

Mr. Kidney: To ask the Secretary of State for Trade and Industry how many projects have been funded under the Environmental Business Growth Action Programme by regional development agencies in *(a)* England and *(b)* the West Midlands. [184146]

Jacqui Smith: The Environmental Business Growth Action Plan is administered by the Environment Agency and is restricted to supporting SMEs in the eligible West Midlands Objective 2 area. Through European Structural Funds the Action Plan has supported four projects with a total value of some £5.4 million:

Groundwork UK 'Bridge-It';

Technology and Innovation Centre 'Enviroinnovate';

EBG Action Plan Measure 1.4; and

EBG Action Plan Measure 1.11.

Equal Opportunities/Pay

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what mechanisms her Department has put in place to monitor *(a)* sex discrimination, *(b)* race discrimination, *(c)* disability discrimination and *(d)* unfair dismissal affecting her Department's staff; and if she will make a statement on her Department's performance in promoting equal opportunities within (i) her Department and (ii) the bodies for which it is responsible. [186697]

Ms Hewitt: As an equal opportunities employer, my Department regularly monitors all processes and policies to identify any potential sex, race or disability discrimination. Mechanisms include collection, publication and discussion of equality data; training for human resources staff; frequent consultation with staff equality groups; and involvement of the DTI Equality and Diversity team in HR policy and process development.

All departmental procedures that may lead to dismissal comply fully with the ACAS Code of Practice on Disciplinary and Grievance procedures. The procedures include the opportunity for an individual to appeal against their dismissal to a senior officer within the Department, to the civil service appeal board and at an employment tribunal. Dismissals, and the outcome of any related appeals, are monitored at a senior level.

Good progress is being made in promoting equal opportunities within the Department while our priorities for future action are laid out in our Diversity Strategic Plan.

Mr. Woodward: To ask the Secretary of State for Trade and Industry what information the Government have collated on the percentage of *(a)* public and *(b)* private sector organisations which have committed to carry out equal pay reviews. [186876]

Ms Hewitt: The Equal Opportunities Commission (EOC) commissioned Incomes Data Services to carry out research on equal pay reviews. Their findings were published in the EOC's report 'Monitoring Progress on equal pay reviews' in March 2004. The report concluded that 57 per cent. of public sector organisations had conducted, were in the process of conducting, or had plans to conduct an equal pay review by the end of 2004. This compares with 31 per cent. of private sector organisations.

Mr. Woodward: To ask the Secretary of State for Trade and Industry what information the Government have collated on the percentage of public sector organisations which have *(a)* committed to and *(b)* declined to carry out equal pay reviews. [186877]

Mr. Sutcliffe: The Equal Opportunities Commission (EOC) commissioned Incomes Data Services to carry out research on equal pay reviews. Their findings were published in the EOC's report 'Monitoring Progress on equal pay reviews' in March 2004. The report concluded that 57 per cent. of public sector organisations had conducted, were in the process of conducting, or had plans to conduct an equal pay review by the end of 2004. It was found that 32 per cent. had no plans to conduct an equal pay review. As pay reviews are voluntary, there is no mechanism for recording organisations who have 'declined' to carry out an equal pay review.

Mr. Woodward: To ask the Secretary of State for Trade and Industry what information the Government have collated on the percentage of *(a)* public sector and *(b)* private sector organisations with over 500 employees which have carried out equal pay reviews. [186878]

Ms Hewitt: The Equal Opportunities Commission (EOC) commissioned Incomes Data Services to carry out research on equal pay reviews. Their findings were published in the EOC's report 'Monitoring Progress on equal pay reviews' in March 2004. The report concluded that:

(a) 20 per cent. of public sector organisations with 500 employees and over had carried out an equal pay review; and

(b) 13 per cent. of private sector organisations with 500 employees and over had carried out an equal pay review.

Mr. Woodward: To ask the Secretary of State for Trade and Industry what information the Government have collated on the percentage of *(a)* public sector and *(b)* private sector organisations with less than 500 employees which have carried out equal pay reviews. [186879]

Ms Hewitt: The Equal Opportunities Commission (EOC) commissioned Incomes Data Services to carry out research on equal pay reviews. Their findings were published in the EOC's report 'Monitoring Progress on equal pay reviews' in March 2004. The following table summarises their findings in relation to the percentage of public sector and private sector organisations with less than 500 employees, which have carried out equal pay reviews.

	Number of employees	*Percentage completed equal pay reviews*
Private sector	25–99	15
	100–499	17
	25–499	16
Public sector	100–499	13
	25–499	15

Mr. Woodward: To ask the Secretary of State for Trade and Industry what information the Government have collated on the percentage of *(a)* public sector organisations and *(b)* private sector organisations which have carried out equal pay reviews. [186880]

Ms Hewitt: The Equal Opportunities Commission (EOC) commissioned Incomes Data Services to carry out research on equal pay reviews. Their findings were published in the EOC's report 'Monitoring Progress on equal pay reviews' in March 2004. The report concluded that 18 per cent. of public sector organisations and 14 per cent. of private sector organisations had carried out an equal pay review.

Mr. Woodward: To ask the Secretary of State for Trade and Industry what the Government's policy is on tackling occupational segregation in relation to the gender pay gap; and if she will make a statement. [186902]

Mr. Sutcliffe: Occupational segregation has been identified as one of the key causes of the gender pay gap. We know that women are concentrated in just two industrial sectors within low-paid occupations. Men in comparison are spread much more evenly across the labour market in typically higher-paid occupations. They also typically hold more senior positions within the labour market than women.

The Government aims to break down the barriers of occupational segregation as part of a raft of measures to tackle the pay gap. It aims to increase young women's awareness of the importance of education and career choices; address the problems women face getting access to appropriate training or re-skilling and inform employers about their potential in various male-dominated sectors such as information technology, engineering and science.

We have set up Sector Skills Councils and Learning and Skills Councils to address industry specific training needs and to broaden post-16 learning opportunities. These are addressing occupational segregation issues through various research and initiatives. E-skills Sector Skills Council for example launched initiatives in the South East such as 'Go 4 IT' workshops, Computer

Clubs for Girls and IT Beat, to challenge girls' perceptions of Information Technology (IT). These target schools and young teen publications after a 2001 MORI poll found girls formed negative images of IT between 11 to 13-years-old.

Other examples of government initiatives include: A new Science Engineering and Technology (SET) resource centre to be set up aimed at working with SET employers; raising the profile of women in SET; funding pilot schemes such as mentoring and networking; and providing help for SET women returners.

The government are also taking an active interest in the Equal Opportunities Commission (EOC), general formal investigation (GFI) into occupational segregation and the correlation with skills and pay gaps in the UK. The report is due in the autumn and will inform government policy in this area.

Mr. Woodward: To ask the Secretary of State for Trade and Industry what plans the Government has to change legislation on equal pay; and if she will make a statement. [186912]

Ms Hewitt: The Government is continuing to take action to improve the way equal pay legislation works in practice. From 1 October 2004, subject to Parliamentary approval, we shall be introducing changes to the way in which employment tribunals deal with the complex equal value cases. The aim is to streamline tribunal procedures and help to prevent very long running cases. The key features of the new procedures include the early exchange of information, the use of tribunals with specialist knowledge and new case management powers.

We also intend to amend the Equal Pay Act to remove the "no reasonable grounds" defence in section 2A(1)(b) of the Equal Pay Act 1970 and limit the circumstances in which a tribunal could refuse to consider an equal value claim. Subject to Parliamentary approval, the legislation is due to come into effect on 1 October 2004, at the same time as new tribunal procedures for equal value cases. These form part of a wider package of measures to speed up and simplify equal pay cases, such as amendments that were made to the Equal Pay Act in 2003 to introduce the Equal Pay Questionnaire, and make changes to time limits and payment of arrears.

Mr. Woodward: To ask the Secretary of State for Trade and Industry what the Government's policy is on the promotion of equal pay. [186913]

Ms Hewitt: The Government continues to lead the way in undertaking equal pay reviews. We believe that the best way to achieve lasting change is through working alongside the business community, employers, trade unions and the Equal Opportunities Commission (EOC) to drive forward action on equal pay and to promote voluntary pay reviews. We have toughened our equal pay review target to 45 per cent. of large organisations having carried out equal pay reviews by 2008.

The EOC published a revised Code of Practice on Equal Pay, which recommends equal pay reviews as the best way of ensuring that a pay system delivers equal pay. By helping employers to check the pay gap in their organisation and by encouraging good equal pay practice, the Code reinforces the Government's commitment to promoting equal pay and closing the gender pay gap.

In addition to pay discrimination, occupational segregation has been identified as another cause of the gender pay gap and the Government is putting in place a range of educational and employment measures to address this. The EOC is conducting an investigation into occupational segregation and we await the results of this with interest.

The Government has provided funding to the EOC to prepare a model for voluntary pay reviews and have also provided funding to trade unions to train representatives in equal pay issues in the workplace. Over 400 representatives have now been trained and as a result a number of unions and employers are now carrying out joint training on how to do an equal pay review.

Mr. Woodward: To ask the Secretary of State for Trade and Industry what the Government's policy is on implementing the recommendations in the Equal Opportunities Commission's 2002 Equal Pay Task Force Report; and if she will make a statement. [186914]

Ms Hewitt: The Government welcomed the Equal Opportunities Commission's (EOC) Equal Pay Task Force report in 2001 as a springboard for action to tackle the gender pay gap. It remains our belief that the best way to achieve lasting change is through working alongside the business community, employers, trade unions and the EOC to drive forward action on equal pay and to promote voluntary pay reviews. This is being reinforced by a Government target of 45 per cent. of large organisations to undertake pay reviews by April 2008.

The Government have continued to lead the way in undertaking pay reviews. All Government departments and agencies, have now completed pay reviews and submitted action plans. Recent figures from the EOC show that 45 per cent. of large employers had completed an equal pay review, were in the process of completing one or were planning to do so in 2004. Among those that had carried out a pay review or were planning to do one, 41 per cent. said that government policy and publicity had influenced them.

We provided funding to the EOC to prepare a model for voluntary pay reviews, including a separate system for small businesses, and these were produced in 2002 and 2003.

The Government are also encouraging voluntary pay reviews by funding the TUC's Equal Pay Partnership Project. The project aims include: setting up a panel of recognised experts in the field of equal pay who have the confidence of both employers and unions; encouraging companies and organisations to undertake voluntary equal pay reviews; offering technical support to unions and employers; and building on the TUC Equal Pay project which has trained over 400 union equal pay representatives from government funding of £295,000.

We are working with the EOC to promote pay reviews in specific sectors. The Government also welcomes the EOC's investigation into modern apprenticeships and

the concentration of men and women in different professions. An interim report was published in May 2004.

As regards legal change, in April 2003 the Equal Pay Act was enhanced with changes to time limits and payment of pay arrears, and amendments so that the statutory questionnaire procedure for discrimination claims can apply to equal pay claims. The EOC produced a revised statutory Code of Practice on equal pay which was laid in Parliament and came into force in December 2003. From October 2004, subject to Parliamentary approval, we shall be introducing changes to the way in which Employment Tribunals deal with complex cases involving the question of whether jobs are of equal value. We also intend to amend the Equal Pay Act to remove the 'no reasonable grounds' defence in section 2A(1)(b) of the Equal Pay At 1970 to limit the circumstances in which a tribunal could refuse to consider an equal value claim.

Mr. Woodward: To ask the Secretary of State for Trade and Industry how many pay discrimination lawsuits have been filed each year since 1997, broken down by region. [186916]

Mr. Sutcliffe: The following table shows the number of pay discrimination applications that have been registered with the Employment Tribunals Service since 1997. A regional breakdown of pay discrimination cases could be produced only at disproportionate cost.

	Main jurisdiction
1997–98	1,845
1998–99	5,018
1999–2000	2,391
2000–01	6,586
2001–02	5,314
2002–03	3,077
2003–04	3,217

Mr. Woodward: To ask the Secretary of State for Trade and Industry how many pay discrimination lawsuits on the grounds of gender discrimination have been filed in each year since 1997, broken down by region. [186917]

Ms Hewitt: The following table shows the number of equal pay applications that have been registered with the Employment Tribunals Service since 1997. A regional breakdown of equal pay cases could be produced only at disproportionate cost.

	Main jurisdiction
1997–98	1,845
1998–99	5,018
1999–2000	2,391
2000–01	6,586
2001–02	5,314
2002–03	3,077
2003–04	3,217

Mr. Woodward: To ask the Secretary of State for Trade and Industry what estimate the Government have made of the average length of time taken to process pay discrimination lawsuits in the last period for which figures are available. [186918]

Ms Hewitt: The Employment Tribunals Service (ETS) does not report on the average length of time taken to process applications made to the Service. However, ETS has a target of 85 per cent. for cases to come to a first hearing within 26 weeks of an application being received. In 2003–04 75 per cent. of pay discrimination cases which went before a Tribunal (i.e. were not settled or withdrawn) achieved this target.

Mr. Woodward: To ask the Secretary of State for Trade and Industry what estimate the Government has made of the cost to businesses of pay discrimination lawsuits in each year since 1997. [186919]

Jacqui Smith: The DTI has not made an estimate of the cost to business of equal pay claims to employment tribunal, which comprise about 3 per cent. of all Tribunal cases.

The Department and the Employment Tribunal Service carried out a sample survey of employment tribunal claims—the Survey of Employment Tribunal Applications 2003. But there were not enough equal pay claims in the sample to allow a reliable estimate of the costs to business of equal pay claims in the period, or to extrapolate to other years.

The survey of employment tribunal applications contains a sample of all discrimination cases in 2002–03—race, sex, disability and equal pay claims—which would be large enough to allow an estimate of the average cost to business of such discrimination claims. This average mean cost has been calculated as £5,813. However, this estimate would not be representative of the cost to business of equal pay claims, since equal pay claims tend to be of longer duration than the average discrimination claim. Nor, on the other hand, would it include the lower costs of the many cases that are settled, for example there were 578 ACAS conciliated settlements of equal pay cases in 2003–04.

European Space Agency

Mr. Page: To ask the Secretary of State for Trade and Industry how much in pounds sterling she calculates has been under-returned to the UK over the last four years under the funding agreement with the European Space Agency. [186752]

Ms Hewitt: The European Space Agency (ESA) began a new set of return statistics on 1 January 2000. The cumulative UK under-return for the four years 1 January 2000 to 31 December 2003 was €41.2 million (£29 million). At 31 December 1999 when the earlier set of ESA return statistics were terminated, UK over-return stood at €94.0 million (£66 million). The British National Space Centre is working closely with ESA officials to ensure that the return requirements for the UK as set out in the ESA Convention are fully met.

Flexible Working

Sandra Gidley: To ask the Secretary of State for Trade and Industry what estimate she has made of the percentage of employees who work some form of flexible working arrangement in each of the last three years; and if she will make a statement. [186666]

Mr. Sutcliffe: The Labour Force Survey, conducted by the Office for National Statistics, asks respondents about their agreed work arrangement. The number of employees who reported that they work some form of flexible working (defined as part-time, flexitime, annualised hours, term time working, job sharing, compressed working week, zero hours contract) was 41.0 per cent. in 2001, 41.5 per cent. in 2002 and 42.0 per cent. in 2003. If the definition of flexible working is narrowed to exclude part-time working, the respective figures are 21.6 per cent. in 2001, 22.0 per cent. in 2002 and 22.4 per cent. in 2003. Figures for 2004 will be available in early 2005.

Sandra Gidley: To ask the Secretary of State for Trade and Industry what assessment she has made of the demand for flexible working patterns; and if she will make a statement. [186667]

Mr. Sutcliffe: The DTI has collected evidence on the demand for flexible working patterns from a number of sources. The first DTI Flexible Working Employee Survey was carried out between September 2003 and February 2004. The survey indicated that 13 per cent. of all employees had requested a flexible working pattern since April 2003. The percentage of employees with children aged under six years who requested a flexible working pattern (and for whom their employer is legally obliged to consider the request) was higher, at 24 per cent. Of all employees who requested flexible working arrangements, 38 per cent. requested to change to a part-time working arrangement; 25 per cent. requested flexi-time; 13 per cent. requested reduced hours for a limited time; 10 per cent. requested to work from home on a regular basis and 8 per cent. requested a compressed working week.

The second Work-Life Balance Study—employees' survey, carried out during January and February 2003, asked employees whether they worked particular flexible working patterns. If they did not (or had not in the past year), they were then asked whether they would like to. Table 1 shows the percentages of these employees who said they would like to take up particular flexible working practices.

Table 1: Demand for specific flexible working practices

Flexible working practice	*Percentage who would like to take up the flexible working practice*
Work part time	22
Work only during school term time[1]	33
Job-share	17
Work flexitime	49
Work a compressed working week	34
Work annualised hours	25
Work reduced hours for a limited period	36
Work from home on a regular basis	29

[1] In addition, representative of employees with dependent children aged under 19 (base: 747 employees).

Note:

All percentages are representative of employees who have not used the particular flexible working practice in past year with current employer (base: >1,463 employees).

Source:

Palmer, T. (2004) Results of the first Flexible Working Employee Survey. Employment Relations Occasional Papers, DTI.

Both the results of the first Flexible Working Employee Survey and the Work Life Balance study reports, which provide greater analysis, are available at http://www.dti.gov.uk/er/inform.htm under 'EMAR Publications'. Both surveys are to be repeated, with the second Flexible Working Employee Survey expected to be available in 2005; the third Work-Life Balance study is due to be conducted in early 2006.

Fraud

Mr. Wiggin: To ask the Secretary of State for Trade and Industry what research her Department has commissioned on fraud in large businesses; and what measures she has taken to prevent such fraud in the UK. [186663]

Jacqui Smith: My right hon. Friend the Secretary of State has not commissioned any research into fraud in large businesses. But the Department has engaged in a considerable range of activity post Enron as the Secretary of State announced to the House on 29 January 2003 in a speech on strengthening corporate governance.

A number of those measures are now taken forward in the Companies (Audit, Investigations and Enterprise) Bill which is currently before Parliament. The Bill amends the current regime for investigating companies. It contains provisions giving investigators a new power to get relevant information from anyone and strengthening their document-gathering powers, while retaining the existing protection for legally privileged material and banking confidentiality. There is also a provision giving investigators the power to require entry to, and remain on, a company's business premises without obtaining a warrant. This will make it easier to require documents and other information and to see the business in operation.

The Bill will also increase the independence of the regulation of the audit profession and give the independent regulator, the Financial Reporting Council, the powers and resources it needs to do its job more effectively. Further the Bill will enable company auditors to carry out their duties more effectively by entitling the auditor to require information and explanations from a wider group of people than at present, in particular from employees.

The Financial Reporting Review Panel will be given a power to require companies to provide it with the information it needs to carry out its investigations. This body currently reviews the annual accounts and reports of public and large private UK companies. The Bill will allow the Government to extend this to reviewing the interim reports of listed companies. The FRRP will also take a more proactive approach to enforcement.

I would also like to draw the hon. Member's attention to the proposal by the Home Office to establish the Serious Organised Crime Agency. This body will be part of a comprehensive strategy to target organised criminals. It will exploit hi-tech 21st century technology to uncover the new wave of crime bosses whose lucrative illegal enterprises range from drug trafficking and people smuggling through to fraud and money laundering.

The Government has recently completed a consultation on legislation to reform the law of fraud. The Government proposals for change are based mainly on the Law Commission Report on Fraud published in 2002. The main proposal is for the general offence of fraud which can be committed in three different ways: by false representation, by wrongfully failing to disclose information, or by abuse of office. In each case the behaviour must be dishonest, and must aim at securing a gain for the defendant or a loss for another.

Additionally the Government sought the views of business and other interested parties on the best means of creating and maintaining effective partnerships to reduce opportunities for crime against business and to enhance the contribution that business could make to crime reduction in England and Wales.

Gershon Review

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what the estimated savings are from the efficient devolution of business support products from the Central Department to the regional development agencies as part of Sir Peter Gershon's efficiency review into public services. [185110]

Jacqui Smith: As stated in Peter Gershon's report on his independent review of public sector efficiency "Releasing Resources to the Front Line", the Regional Development Agencies have agreed to deliver 2.5 per cent. efficiencies per year in the Spending Review period, at least half of which will be cash-releasing back into the Single Programme budget, which brings together allocations from all the Departments that fund them. DTI as the lead sponsor Department, will work with the Regional Development Agencies to identify further efficiencies where possible. The Regional Development Agencies will be expected to identify efficiencies in delivering on the additional responsibilities that have been devolved to them. These additional responsibilities include the delivery of regional and local Business Link services and the grant for Research and Development. The Regional Development Agencies will report to my Department on how these savings are to be achieved.

Inward Investment

Miss Kirkbride: To ask the Secretary of State for Trade and Industry how much inward investment the East Midlands has received from *(a)* Germany, *(b)* Sweden, *(c)* France, *(d)* USA, *(e)* Canada, *(f)* Singapore, *(g)* India, *(h)* Australia and *(i)* Belgium in each year since 1997. [187222]

Mr. Mike O'Brien: Since 1997 UK Trade and Investment recorded the following number of inward investment projects from Germany, Sweden, France, USA, Canada, Singapore, India, Australia and Belgium to invest in the East Midlands region. Figures for 1997–98 to 2002–03 have been updated since the publication of our Annual Reports that have been laid in the Libraries of the House in each financial year.

These figures are based on information provided by companies at the time of the announcement of the decision to invest in the UK. The figures take no account of subsequent developments.

There is no requirement to notify UKTI and so the figures include only those projects where UKTI's Inward Investment Group and its regional partners were involved or which have come to their notice.

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*

Sweden	1	0	0	1	3	0	0
France	0	0	5	0	0	3	2
USA	9	9	8	8	11	11	14
Canada	0	0	2	0	1	2	0
Singapore	0	0	0	0	0	0	0
India	0	0	0	0	0	0	0
Australia	0	0	1	1	0	0	0
Belgium	0	1	1	0	0	0	1

Miss Kirkbride: To ask the Secretary of State for Trade and Industry how much inward investment the region of Yorkshire and the Humber received from *(a)* Japan and *(b)* China in each year since 1997. [187223]

Mr. Mike O'Brien: Since 1997 UK Trade and Investment recorded the following number of inward investment projects from Japan and China to invest in the Yorkshire and Humberside region. Figures for 1997–98 to 2002–03 have been updated since the publication of our Annual Reports that have been laid in the Libraries of the House in each financial year.

These figures are based on information provided by companies at the time of the announcement of the decision to invest in the UK. The figures take no account of subsequent developments.

There is no requirement to notify UKTI and so the figures include only those projects where UKTI's Inward Investment Group and its regional partners were involved or which have come to their notice.

1998–99	25	1	0
1999–2000	17	0	0

	USA	Belgium	China
2000-01	21	1	0
2001-02	28	0	0
2002-03	11	1	0
2003-04	25	3	1

Miss Kirkbride: To ask the Secretary of State for Trade and Industry how the Government measures inward investment. [187282]

Mr. Mike O'Brien: The Government measure Inward Investment in two ways.

Foreign Direct Investment (FDI) statistics are collected and published by Office of National Statistics (ONS). FDI is a financial measure collected primarily to measure balance of payments, and internationally comparable statistics are published by the statistical offices of other countries and by international bodies.

Information on the number of projects and jobs created by region of investment and country of origin are recorded by UKTI based on information provided by companies at the time of the decision to invest in the UK. There is no requirement to notify UKTI, so only those projects where UKTI and its regional partners were involved, or which have come to their notice will be recorded.

Information on inward investment is also available from a range of commercial sources.

Iraq

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what estimate her Department has made of the total value to date of the contracts awarded to British businesses in Iraq since the start of the occupation. [186335]

Ms Hewitt: British companies are not obliged to give details of contracts won and there is no central organisation that publishes such information. However, It is estimated that to date, British companies are involved in contracts for reconstruction and other work in Iraq to the value of US $2.6 billion.

Low Pay Commission

Mr. Bellingham: To ask the Secretary of State for Trade and Industry how many people are employed by the Low Pay Commission. [187109]

Mr. Sutcliffe: The Low Pay Commission has nine Commissioners, including the Chairman.

The Commission is supported by a Secretariat which currently has 10 members of staff plus one vacancy.

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what the annual salaries are of each of the commissioners on the Low Pay Commission. [187114]

Mr. Sutcliffe: Commissioners on the Low Pay Commission do not receive an annual salary. Remuneration is paid on the basis of a daily attendance fee, which is set at £481.06 for the chair and £213.80 for other members of the commission. In addition appropriate expenses are reimbursed.

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what the total annual resource budget for the Low Pay Commission has been since its inception. [187115]

Mr. Sutcliffe: The Low Pay Commission (LPC) was established as a result of the National Minimum Wage Act 1998. 1998/99 was the first financial year that the LPC were fully operational. The table below sets out the financial information for the LPC since that date:

Financial Year	Expenditure (£000)
1998-99	627,000
1999-2000	578,737
2000-01	605,751
2001-02	531,710
2002-03	771,032
2003-04	658,631

The above figures are total costs and include salaries, Commissioners fees, research and Travel and Subsistence.

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what the total wage budget is for the Low Pay Commission. [187144]

Mr. Sutcliffe: The total wage bill for the Low Pay Commission secretariat in 2003/04 was £401,725.

Mandatory Retirement Ages

Sandra Gidley: To ask the Secretary of State for Trade and Industry what plans she has to abolish mandatory retirement ages. [186792]

Jacqui Smith: The Government are committed to prohibiting age discrimination at work and encouraging more flexibility around retirement. In some circumstances, different treatment on grounds of age can be justifiable, and last year's Age Matters consultation set out some of the issues. We are in the process of considering the best way of tackling retirement ages in the light of the responses to the consultation. Legislation will come into force on 1 October 2006.

Manufacturing Advisory Service

Dr. Kumar: To ask the Secretary of State for Trade and Industry which firms have been helped by the Manufacturing Advisory Service in the *(a)* Northern Region, *(b)* Tees Valley area and *(c)* Middlesbrough, South and East Cleveland constituency; and which of those firms were given advice on added value. [184701]

Jacqui Smith: The regional centre of the Manufacturing Advisory Service in the North East (MAS-NE) dealt with 1,323 inquiries from manufacturing companies in the period June 2002 to June 2004. Of these, 1,257 inquiries came from companies based in the North East region, 304 were from companies based in the Tees Valley, and seven were from companies in the Middlesbrough, South and East Cleveland constituency. 146 companies who contacted MAS-NE in this period have gone on to receive in-depth help. The direct impact of this help on company productivity is measured by the "added value". The total added value generated as a result of MAS-NE interventions stood at just over £705, 000 at March 2004.

The names of all companies that have received in-depth assistance from MAS are given in the MAS 2004 Annual Report, which can be found at: www.dti.gov.uk

National Institute for Medical Research

Dr. Gibson: To ask the Secretary of State for Trade and Industry what discussions have taken place with *(a)* University College London and *(b)* King's College London concerning the future site of the National Institute for Medical Research (NIMR); what consideration was given by the Medical Research Council's Task Force on the NIMR to locating it at other institutions (i) in London and (ii) outside London; and if she will make a statement. [185136]

Ms Hewitt: The Task Force set up by the Medical Research Council (MRC) to consider the future of the National Institute for Medical Research (NIMR) has, following national and international consultation, published its vision for the institute: a multidisciplinary biomedical research facility focused on basic and translational research. The Task Force strongly believes that partnership and co-location with a leading university and hospital would strengthen NIMR to deliver its renewed vision and will enhance:

the multidisciplinary nature of NIMR's work, providing access to other biologists, physical scientists, engineers and mathematicians; and

opportunities to collaborate more closely with clinicians and strengthen the focus on translational research.

The Task Force wishes to keep the critical mass of NIMR's existing excellent science as a foundation for the institute's future scientific portfolio and invited four institutions—Imperial College, King's College London, Queen Mary and University College London to submit partnership proposals. It also asked NIMR management to submit a proposal. All attended a meeting of the Task Force on 21 June for discussion.

The Task Force has recommended that the renewed institute should be co-located with either King's College London or University College London and was expected to produce a full report to the MRC Council meeting on 29 July 2004.

National Minimum Wage

Tony Wright: To ask the Secretary of State for Trade and Industry how many workers in Great Yarmouth have benefited from the national minimum wage. [186700]

Mr. Sutcliffe: It is not possible to provide estimates specifically for the constituency of Great Yarmouth. However, based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that around 90,000 people in the eastern region stood to benefit from the introduction of the national minimum wage in April 1999. Between 80,000 and 90,000 people were expected to have benefited from the October 2003 uprating of the national minimum wage.

NCP (Communications)

Norman Lamb: To ask the Secretary of State for Trade and Industry if she will list *(a)* letters, *(b)* e-mails, *(c)* telephone calls and *(d)* meetings between her Department's officials, including the National Contact Point (NCP), and representatives of companies whose dossiers were forwarded to the NCP for investigation or monitoring in the last 12 months. [186181]

Mr. Timms: The information requested forms part of the dialogue process between the companies and the NCP. This process is confidential under Exemption 13—Third Party Commercial Confidences, and Exemption 14—Information Given in Confidence of the Code of Practice on Access to Government Information. The NCP will make a public statement at the end of the dialogue.

A statement has already been issued on the allegations against DeBeers (www.dti.gov.uk/ewt/debeers.doc). A statement regarding the allegations against Avient will follow shortly.

Newspaper Market

Mr. Peter Duncan: To ask the Secretary of State for Trade and Industry if she will refer the wholesale newspaper market to the Office of Fair Trading for investigation. [186258]

Mr. Sutcliffe: Any such investigation into the wholesale newspaper market would be a matter for the Office of Fair Trading (OFT).

Nuclear Power

Llew Smith: To ask the Secretary of State for Trade and Industry what estimate she has made of the proportions of expenditure by the planned nuclear decommissioning authority that will be spent on *(a)* discharging nuclear liabilities, *(b)* funding nuclear spent fuel reprocessing and *(c)* power generation. [184397]

Mr. Timms: The 2004 Spending Review announced on 12 July provided funding, subject to the successful adoption of the then Energy Bill (now the Energy Act), for the Nuclear Decommissioning Authority (NDA) of approximately £2 billion per year including income from trading.

The NDA will set out its spending priorities for 2005–06 in its first annual plan. The draft plan will be subject to public consultation during this autumn. The Secretary of State will approve the plan early next year.

In autumn 2005, the NDA will publish its strategy for the first five years of its operation. This too will provide further information on spending priorities.

Norman Baker: To ask the Secretary of State for Trade and Industry what the *(a)* total costs to date and *(b)* projected future costs to public funds are of decommissioning nuclear power stations; and if she will make a statement. [184578]

Mr. Timms: The Government's July 2002 White Paper, "Managing the Nuclear Legacy: A strategy for action", estimated the undiscounted cost of the Magnox decommissioning liabilities at £12 billion and the total cost of treating civil public sector nuclear liabilities at £48 billion. From April 2005, the Nuclear Decommissioning Authority (NDA) will take responsibility for the Magnox power stations, all of which are scheduled to close by 2010.

The cost of decommissioning British Energy's nuclear power stations, which are all operational, is covered in its annual report and accounts. Under British Energy's proposed restructuring plan, the company will continue to contribute to a Nuclear Liabilities Fund (NLF) that will meet British Energy's decommissioning liabilities. To ensure safety and environmental protection, the Government will underwrite the NLF to the extent that the company's contributions are insufficient. The treatment of liabilities by British Nuclear Fuels Ltd. (BNFL), including Magnox, is also discussed in BNFL's accounts.

Llew Smith: To ask the Secretary of State for Trade and Industry what assessment has been made by her office of civil nuclear security in respect of providing guidance to *(a)* nuclear operators, *(b)* regulators, *(c)* other non-departmental public bodies and *(d)* relevant Government Departments on the release of sensitive nuclear information. [187306]

Mr. Timms: Such guidance has been issued by the Office for Civil Nuclear Security (OCNS) and is available on the DTI website.

Llew Smith: To ask the Secretary of State for Trade and Industry what additional protection measures have been taken at *(a)* Sellafield, *(b)* other nuclear sites operated by BNFL and *(c)* nuclear installations operated by the UK Atomic Energy Authority since 11 September 2001. [187307]

Mr. Timms: The UK's civil nuclear sites apply stringent security measures regulated by the Office for Civil Nuclear Security (OCNS), the security regulator. The security regulator works closely with the Health and Safety Executive, the safety regulator, which provides advice on the safety implications of events, including external hazards such as plane crashes, at nuclear installations. Security at nuclear sites is kept under regular review in the light of the prevailing threat and has been significantly enhanced since the terrorist attacks in the USA on 11 September 2001. Under Exemption 1—information whose disclosure would harm national security—of the Code of Practice on Access to Government Information, it is not Government policy to disclose details of these measures which could potentially be of use to terrorists.

Llew Smith: To ask the Secretary of State for Trade and Industry what assessment she has made of the report published by the Parliamentary Office of Science and Technology on 22 July on assessing the risk of terrorist attacks on nuclear facilities. [187304]

Mr. Timms: The Parliamentary Office of Science and Technology report is an excellent overview of the publicly-available information in this field. My Department and the civil nuclear industry were among the many who contributed in providing the public domain information required for the report.

Llew Smith: To ask the Secretary of State for Trade and Industry what assessment she has made of the additional requirements for personnel vetting that will arise from the contractorisation of *(a)* nuclear waste management and *(b)* nuclear installation decommissioning under the guidance of the Nuclear Decommissioning Authority. [187284]

Mr. Timms: Security vetting for the civil nuclear industry is conducted by the Office for Civil Security (OCNS). We believe that the initial impact of the formation of the Nuclear Decommissioning Agency (NDA) on vetting requirements will be within existing resources. However, as the NDA moves toward open bidding for contracts, OCNS will monitor the situation closely in order to ensure that the high standards of vetting within the civil nuclear industry are maintained.

PFI/PPP

Matthew Taylor: To ask the Secretary of State for Trade and Industry how many contracts her Department had with *(a)* Barclays, *(b)* the Royal Bank of Scotland, *(c)* UBS Warburg and *(d)* the Bank of Scotland for advice on private finance initiative and public private partnership contracts in each financial year since 2001–02; and what fees were paid in each case. [186688]

Mr. Sutcliffe: There have been no contracts for advisory work on PPP or PFI contracts let by the Department with any of the companies mentioned since 2001–02.

Pharmaceutical Services

Mr. Stunell: To ask the Secretary of State for Trade and Industry by what date she has been advised she will receive the Office of Fair Trading report on pharmaceutical services; and if she will make a statement. [186321]

Mr. Sutcliffe: My right hon. Friend the Secretary of State for Industry received the Office of Fair Trading report on pharmaceutical services on 17 January 2003.

I made a statement to the House of Commons setting out the Government's response to the OFT report on 17 July 2003.

My colleague, the Minister of State at the Department of Health responsible for Pharmacies, announced on 18 August the implementation of the Government's response to the OFT report.

Post Offices (Disabled Access)

Mr. Tony Clarke: To ask the Secretary of State for Trade and Industry how many post offices in Northampton, South have disabled access. [186584]

Mr. Timms: This is an operational matter for Post Office Ltd. and I have therefore asked the Chief Executive to reply direct to the hon. Member.

Postal Service

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what change there has been in the number of delays in the postal service in *(a)* urban and *(b)* rural areas since 1997; and if she will make a statement. [187113]

Mr. Timms: The issue of the postal service is an operational matter for Royal Mail Group plc and I have therefore asked the Chief Executive to reply direct to the hon. Member.

Regional Development Agencies

Miss Kirkbride: To ask the Secretary of State for Trade and Industry which regional development agencies have *(a)* an office and *(b)* representatives outside the UK. [183537]

Jacqui Smith: The answer to the question updates answers previously given to the hon. Member for Essex north on 26 January 2004, *Official Report*, columns 73–76W and 5 February 2004, *Official Report*, columns 999–1000W.

I have been advised of the following answers by England's Regional Development Agencies (RDAs).

Advantage West Midlands

Advantage West Midlands has offices in France, Germany, Sweden and Belgium.

In north America, Advantage West Midlands shares representation with their partner agency, EMDA, under the British Midlands' brand. Together they have a total of five offices and seven full-time staff based in Washington, Boston, Chicago, San Jose and Toronto; they also employ the services of a telemarketing agency in north America. The British Midlands is also represented on a full-time basis in Japan with two staff. In south east Asia, India and Australia, the British Midlands has part-time representation with offices in Singapore, Mumbai and Sydney and a total of six part-time agents.

The cost incurred by AWM in maintaining these offices in 2003–04 was:

	£
Australia	63,259
Belgium	107,625
Canada	29,863
France	71,082
Germany	102,784
India	49,817
Japan	101,780
Singapore	44,386
Sweden	85,198
USA	468,574
Total	1,124,367

East of England Development Agency

The East of England Developments Agency (BED A) has an inward investment office in San Jose (Silicon Valley) a joint project between EEDA and Invest East of England. There are no representatives as the office is co-ordinated by the vice-president for business development at Invest East of England.

EEDA also subscribes to the East of England partnership office in Brussels and the Essex and East of England International Trade office in Jiangsu Province China (but does not have offices or representatives).

The cost incurred by EEDA in maintaining these offices in 2003–04 was:

	£
Belgium	56,500
China	63,000
USA	250,000
Total	369,500

East Midlands Development Agency

The East Midlands Development Agency (EMDA) is represented in Europe by part-time agents in Germany (Munich-two staff) and Scandinavia (Malmo-one person);

EMDA also employs a telemarketing agency in France.

In north America, EMDA shares representation with their partner agency, Advantage West Midlands, under the British Midlands' brand. Together they have a total of five offices and seven full-time staff based in Washington, Boston, Chicago, San Jose and Toronto; they also employ the services of a telemarketing agency in north America. The British Midlands is also represented on a full-time basis in Japan with two staff. In south east Asia, India and Australia, the British Midlands has part-time representation with offices in Singapore, Mumbai and Sydney and a total of six agents.

EMDA is also a partner in the East Midlands European Office (EMEO), based in Brussels. The partnership also includes the region's strategic local authorities, the Regional Assembly and the East Midlands Regional Local Government Association. In addition, EMDA line manages EMEO on behalf of the regional partnership.

The cost incurred by EMDA in maintaining these offices in 2003–04 was:

	£
Australia	60,000
Belgium	50,000
France	20,000
Germany	70,000
India	50,000
Japan	90,000
North America	402,000
Scandinavia	60,000
Singapore	75,000
Total	877,000

London Development Agency

The London Development Agency is a partner in the London European Office, a staffed Greater London Authority partnership office in Brussels. The cost incurred in maintaining this office in 2003–04 was £50,000.

North West Development Agency

The North West Development Agency (NWDA) has an office with two members of staff (one full-time and one part-time) in Japan (in conjunction with Yorkshire Forward).

As part of a north of England collaboration (a joint venture with One NorthEast and Yorkshire Forward) there are offices in Australia (Sydney) and north America: Chicago (five people), Boston (two people), Atlanta (one person) and Los Angeles: (one person full-time and one person part-time).

The NWDA with the North West Regional Assembly (NWRA) jointly fund an office and one member of staff in Brussels.

The cost incurred by NWDA in maintaining these offices in 2003–04 was:

	£
Australia	55,000
Belgium	103,000
Japan	135,000
USA	392,000
Total	685,000

One NorthEast

One NorthEast has offices in China (Shanghai), Japan (Tokyo) and Korea (Seoul). Until the end of 2003–04 it also operated an office in Taiwan.

As part of a north of England collaboration (a joint venture with North West Development Agency and Yorkshire Forward) there are offices and representatives in Australia (Sydney) and north America (Chicago, Boston, Atlanta and Los Angeles).

The cost incurred by ONE in maintaining these offices in 2003–04 was:

	£
Australia	50,000
China	66,525
Japan	185,086
Korea	73,208
North America	396,000
Taiwan	51,855
Total	822,673

South East England Development Agency

The South East of England Development Agency (SEED A) shares an officer post with the Regional Assembly operating from South East England House in Brussels, co-located and working with other partners from around the Region. SEEDA is also represented in Washington DC by Odell Simms and Associates and has a representative in each of the following cities: Berlin, San Diego, Boston, Shanghai, Seoul, Tokyo,Osaka and Sydney, the latter post being part-time.

The cost incurred by SEEDA in maintaining these offices in 2003–04 was:

	£
Australia	56,006
Belgium	131,658
China	26,331
Germany	101,683
Japan	127,655
Korea	33,699
USA	558,735
Total	1,035,766

South West of England Regional Development Agency

The South West of England Regional Development Agency (SWRDA) has an office in Japan. There are two representatives in north America—one in Boston and one in Sonoma, California.

It also has just opened an office in Guangdong province in southern China and taken on a new representative in Melbourne, Australia. No costs were incurred for these in 2003–04.

The cost incurred by SWRDA in maintaining these offices in 2003–04 was:

	£
Japan	394,364
USA	468,514
Total	862,878

Yorkshire Forward

Yorkshire Forward has an office and representatives in China and in Japan (the latter joint with the North West Development Agency).

As part of a north of England collaboration (a joint venture with North West Development Agency and OneNorth East) there are offices and representatives in Australia (Sydney) and north America (Chicago, Boston, Atlanta and Los Angeles). Yorkshire Forward also provide a contribution of £60,000 towards the running costs of the Yorkshire and Humber European Office, managed by the Yorkshire and Humber Assembly.

The cost incurred by Yorkshire Forward in maintaining these offices in 2003–04 was:

	£
Australia	58,000
Belgium	60,000
China	28,000
Japan	201,000
USA	412,000
Total	759,000

Mrs. Spelman: To ask the Secretary of State for Trade and Industry what offices outside the United Kingdom are maintained by regional development agencies; and what the cost of maintaining each one was in the last financial year for which figures are available. [184984]

Jacqui Smith: The answer to the question updates answers previously given to the hon Member for Essex North on 26 January 2004, *Official Report*, columns 73–76W and 5 February 2004, *Official Report*, columns 999–1000W.

I have been advised of the following answers by England's Regional Development Agencies (RDAs).

Advantage West Midlands

Advantage West Midlands has offices in France, Germany, Sweden and Belgium.

In North America, Advantage West Midlands shares representation with their partner agency, EMDA, under the British Midlands' brand. Together they have a total of five offices and seven full time staff based in

Washington, Boston, Chicago, San Jose and Toronto; they also employ the services of a telemarketing agency in North America. Yorkshire Forward

Yorkshire Forward has an office and representatives in China and in Japan (the latter joint with the North West Development Agency).

As part of a North of England collaboration (a joint venture with North West Development Agency and One North East) there are offices and representatives in Australia (Sydney) and North America (Chicago, Boston, Atlanta and Los Angeles). Yorkshire Forward also provide a contribution of £60,000 towards the running costs of the Yorkshire and Humber European Office, managed by the Yorkshire and Humber Assembly.

The cost incurred by Yorkshire Forward in maintaining these offices in 2003–04 was:

	£000
Australia	58,000
Belgium	60,000
China	28,000
Japan	201,000
USA	412,000
Total	759,000

Mrs. Spelman: To ask the Secretary of State for Trade and Industry whether regional development agencies are required to meet performance indicators for central Government. [185772]

Jacqui Smith: I refer the Member to my answer given on 22 July, *Official Report*, columns 514–515W.

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what funding from her Department in 2004–05 is devoted by regional development agencies specifically towards promoting the development of minority ethnic businesses. [186350]

Jacqui Smith: Through the framework provided by their Regional Economic Strategies (RES), RDAs work with a range of local partners, to contribute to the development of ethnic minority businesses. Examples of this are in the document "RDA Activities supporting Ethnic Minority Businesses" which provides a list of RDA supported activities that stimulate ethnic business growth. I have placed this document in the House of Commons Library. Unfortunately, information about costs cannot be easily disaggregated and could be provided only at disproportionate cost.

The East Midlands Development Agency (emda) have a lead role to co-ordinate policy on ethnic minority businesses on behalf of all the RDAs. They have jointly established with De Montfort University the Centre for Research into Ethnic Minority Entrepreneurship (www.crème-dmu.org.uk). As part of their work emda are also organising the eighth Ethnic Business Conference in Leicester in September 2004.

Regional Supply Offices

Mrs. Spelman: To ask the Secretary of State for Trade and Industry if she will make a statement on the *(a)* purpose and *(b)* role of the regional supply offices; and what their budget was in the most recent year for which figures are available. [184985]

Jacqui Smith: Regional Supply Offices (RSOs) were designed to provide a means by which small businesses could gain access to the supply chain business of large firms. The market failure was that large firms were often unaware of smaller, potential suppliers in their regions, and for their part small businesses were unable to talk to chief buyers etc because they lacked the status to do so. The role of the RSO Advisers was to go out and learn of the large suppliers' supply chain requirements, and then offer to locate (small business) suppliers for them. In parallel, the RSO Advisers would help the small

suppliers to develop their services to meet the customer requirements. Practical examples of these activities included seminars and workshop to highlight the benefits companies could gain from understanding supply chain development programmes, briefing on special topics such as manufacturing issues, subsidised stand space for companies at major trade shows and exhibitions as well as the organisation of business to business events. In April 2001, responsibility for the RSOs was transferred to the Regional Development Agencies (RDAs) in the English regions.

The RDAs integrated their RSOs but services of a similar nature continue to be provided in all regions as part of the RDAs' and Partners' range of business support. However, as supply chain support has been mainstreamed in this way, information about costs cannot be easily disaggregated and could only be provided at disproportionate cost.

Rural Postal Services

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what research her Department has carried out into the possible effects on small businesses in rural areas of further plans for restrictions to the postal services; and if she will make a statement. [186532]

Mr. Timms: The provision of postal services to small businesses in rural areas is an operational matter for the Royal Mail. I have therefore asked the Chief Executive to reply direct to the hon. Member .

Sellafield Site Remediation Strategy

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what progress has been made by BNFL towards completing a full structural analysis of the B30 facility at Sellafield. [186118]

Mr. Timms: Following discussion with HSE's Nuclear Installations Inspectorate, BNFL has carried out a structural analysis of the B30 facility. HSE expects to receive the main findings of the report in September, after which further plans will be developed.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what progress BNFL has made in removing sludges from B30 Sellafield in order to comply with the Nuclear Installations Inspectorate's specification 325 issued in 2000; and what assessment has been made of whether the deadline of removing and treating 90 per cent. of the sludges will be met by August 2010. [186119]

Mr. Timms: BNFL are developing plans to meet the specification requirement of 90 per cent. of sludge removal by August 2010. Sludge removal requires modification to the plant at B30 and the building of a new structure to house and treat the sludge. Some preliminary refurbishment work has started. This and other projects form the basis for carrying out sludge removal and are being incorporated into both the short and long term plans for the site. HSE's Nuclear Installations Inspectorate will continue to monitor these plans so that the August 2010 date will be met.

Turner and Newall

Mr. Dismore: To ask the Secretary of State for Trade and Industry what assessment she has made of the implications of Chapter 11 bankruptcy of Turner and Newall for compensation for victims of asbestos-related injuries in the UK; and if she will make a statement. [R] [186491]

Jacqui Smith: The treatment of claims of US asbestos related creditors in the Federal Mogul Chapter 11 proceedings is a matter for the parties in interest in those proceedings to determine, under the supervision of the bankruptcy court. In the UK asbestos related claims against the Turner and Newall companies which are in administration are matters for the administrators of those companies. Where required the administrators can seek the direction of the court as to the conduct of the administration.

UN Sales Convention

Ross Cranston: To ask the Secretary of State for Trade and Industry when she expects to be in the position to introduce legislation implementing the UN Sales Convention; and if she will make a statement. [186750]

Ms Hewitt: Any legislation needed to implement the 1980 UN Convention on Contracts for the International Sale of Goods will be introduced when Parliamentary time permits. We are at a comparatively early stage on the road towards possible legislation but we are proposing to issue a consultation document, in the course of the next few months, to examine the available options.

West Midlands Minority Ethnic Business Forum

Mr. Bellingham: To ask the Secretary of State for Trade and Industry if she will make a statement on the current levels of funding from her Department to the West Midlands Minority Ethnic Business Forum. [186348]

Jacqui Smith: The West Midlands Minority Ethnic Business Forum is not directly funded by the DTI but received support from Advantage West Midlands. This year AWM expects to spend £300,000 on the West Midlands Minority Ethnic Business Forum of which approximately £180,000 has been spent to-date.

Working Time Directive

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what discussions she has had with her European counterparts regarding proposals to abolish the individual opt-out from the 48-hour limit set by the Working Time Directive; and if she will make a statement. [186337]

Mr. Sutcliffe: I am not aware of any European proposals to abolish the individual opt out. Both my right hon. Friend the Secretary of State and I have had a number of key meetings with the Commission and member states to ensure that the UK's position is well represented with regards to the opt out.

We are committed to retaining the opt out and securing a solution to both the opt out and SiMAP/ Jaeger which will work for all member states.

We are currently awaiting publication of the Commission's proposals on the review of the Working Time Directive.

CONSTITUTIONAL AFFAIRS

Access Orders

24. **Mr. Andrew Turner:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on enforcement of access orders. [187662]

Mr. Lammy: The Government published a consultation paper on 21 July 2004. It proposes a variety of new powers for courts, to help more effective enforcement of contact orders.

House of Lords Reform

25. **Jim Knight:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what measures the Government are considering to reform the second Chamber. [187663]

Mr. Leslie: The Government are determined to proceed with further reform of the House of Lords. Proposals will be developed in the context of the Labour Party manifesto.

30. **Mr. Gordon Prentice:** To ask the Parliamentary Secretary, Department for Constitutional Affairs whether the Lord Chancellor plans to bring forward proposals to change the powers of the House of Lords to delay legislation. [187669]

Mr. Leslie: Any proposals for substantial reform of the House of Lords will have to consider the role, powers and procedures of the second chamber and its relationship with the House of Commons. The Labour Party will return to House of Lords reform in its manifesto.

Administration of Justice

26. **Mr. Clappison:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what progress is being made with his plans for the Lord Chancellor and a supreme court in the administration of justice. [187664]

Mr. Leslie: The Constitutional Reform Bill will reform the office of the Lord Chancellor, establish a new Supreme Court and set up a new Judicial Appointments Commission. The Bill was introduced into the House of Lords on 24 February and has received detailed scrutiny from a Lords Select Committee. The Bill is now receiving the attention of the other place.

Essex Magistrates Court

27. **Bob Russell:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on progress with the allocation of resources to the private finance initiative for Essex magistrates courts. [187665]

Mr. Leslie: Revised Investment Plans following the summer Spending Review will be concluded in November, but under present plans the new courthouse scheme for Colchester and Essex remains on course for construction over the next few years.

Postal Ballots

28. **David Taylor:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment has been made of the all-postal vote electoral pilots in the east midlands up to and on 10 June. [187666]

Mr. Leslie: The Electoral Commission's report on the June all-postal voting pilots was published on 27 August, which included a specific review of the experience in the East Midlands. The Government are currently considering these reports.

Court Efficiency

29. **Dr. Cable:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on progress with improving the efficiency of the courts. [187667]

Mr. Leslie: Her Majesty's Court Service (HMCS) will be established in April 2005 and will bring together the current Court Service and the 42 Magistrates Courts Committees in a single organisation. This will enable us to make the delivery of justice across the criminal, civil and family jurisdictions more efficient on a national scale and geared more closely to the needs of the local community and court users.

Asbestos (Compensation)

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will propose changes to the law on compensation for asbestos injury victims bringing claims against uninsured defendants to enable them to receive interim payments; and if he will make a statement. [R] [186484]

Mr. Leslie: Rule 25.7(2) of the Civil Procedure Rules currently prevents a court from making an interim payment order against an uninsured defendant. At the request of the Civil Procedure Rule Committee, the Government are seeking views on the operation of this Rule from interested parties, with a view to the issue receiving further consideration by the Rule Committee.

Bereavement Damages

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to review the level of bereavement damages; and if he will make a statement. [R] [186494]

Mr. Leslie: The level of bereavement damages was increased from £7,500 to £10,000 with effect from 1 April 2002, to account for inflation since the previous revision in 1991. The Government are currently considering how best to provide for further increases in future.

CAFCASS

Mrs. May: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many

Children and Family Court Advisory and Support Service officers are in post; and how many posts are vacant. [186992]

Margaret Hodge: I have been asked to reply.

As at 30 June 2004, there were 1,304 officers (practitioners) in post (not including the self-employed). The current number of vacancies for officers (practitioners) stands at 39.

Mrs. May: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many reports were drafted by *(a)* the Children and Family Court Advisory and Support Service and *(b)* predecessor bodies in each of the last five years. [186993]

Margaret Hodge: I have been asked to reply.

Statistics are not available for the period before CAFCASS was established in 2001 as the work was carried out by a range of organisations and authorities, some of which, for example the Probation Service, no longer exist in their previous form. Figures from CAFCASS show numbers of requests for private law reports resulting in written reports:

Requests for private law reports	
2001–02 (October 2001 to March 2002)	17,352
2002–03	35,074
2003–04	33,803
2004–05 (April to May only)	5,175
Total number of requests April 2001 to date	91,404

Mrs. May: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the average length of time taken to draft a Children and Family Court Advisory and Support Service report has been. [186999]

Margaret Hodge: I have been asked to reply.

There is no 'average length of time' taken by CAFCASS officers to draft reports. However, the number of weeks required to draft a private law report ranges from 10–18 weeks. The length of time may vary from region to region, and also on the scale of officers' workloads and the complexity of individual cases. CAFCASS officers will often seek to agree these times with the courts, on a case-by-case basis.

In Public Law, the Protocol for Judicial Case Management in Public Law Children Act Cases standard is that cases are to be completed by the courts within 40 weeks, though some of these cases can take a year or more. The drafting of reports in these Public Law cases will be undertaken during part of this period.

Child Contact

Mr. Edwards: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to take steps to give grandparents a legal presumption of contact with grandchildren that can be enforced by the courts, save where a child's safety would be at risk. [187009]

Margaret Hodge: I have been asked to reply.

The Government have no plans to give grandparents a legal presumption of contact. The Children Act 1989 makes clear that the welfare of the child is the paramount consideration in any proceedings relating to the upbringing of a child.. The Government believe that this principle should be sustained, without qualification, in order that there continues to be the clearest possible focus on the needs of children.

The Government recognise and value the important role which grandparents can play in children's lives. Many grandparents are already involved with the care of their grandchildren and most children see their grandparents as important figures in their lives. However, the primary responsibility for bringing up children in most families lies with their parents and there may be cases where parents prefer to limit contact with grandparents.

Under the Children Act 1989, grandparents may, provided that the permission of the court is obtained, apply to the court for an order granting contact with a grandchild. The requirement for the court's permission is not designed to be an obstacle to grandparents but to act as an initial filter to sift out prejudiced applications that are unlikely to succeed. Experience suggests that grandparents would not usually experience difficulty in obtaining permission where their application is motivated by a genuine concern for the child.

The Government are aware there is considerable concern about how court ordered contact arrangements can be supported more effectively. Our consultation document, "Parental separation: Children's Needs and Parents' Responsibilities", published in July, outlines how the Government propose better to support families who are going through separation. It details a range of measures, including better information for parents, parenting plans to help parents make good arrangements, in-court conciliation and mediation for those parents who do go to court, active judicial management and stronger powers for judges to enforce court orders.

Civil Legal Aid

Mr. Grieve: To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment he has made of the impact of high property values in the South East on the eligibility of people of low income who are home owners for civil legal aid. [187010]

Mr. Leslie: The Legal Service Commission is currently consulting on proposed changes to financial eligibility for civil legal aid, including replacing the current £100,000 equity disregard with exemptions targeted on those with the lowest incomes, particularly pensioners and the disabled. During the consultation period (which closes on 15 October 2004), the Commission's research centre is undertaking a means survey of legal aid applicants which will provide further data on housing equity. The results of this research and the wider public consultation will be analysed before we announce the way forward.

Claim Management Companies

Mr. Greenway: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he

has to implement the Better Regulations Task Force's recommendation to strengthen consumer protection against claim management companies. [187668]

Mr. Lammy: I refer the hon. Member to my answer to my hon. Friend, the Member for Hendon (Mr. Dismore).

Court Dress

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on progress with the proposed reforms of court dress. [186587]

Mr. Leslie: The consultation paper "Court Working Dress in England and Wales" set out a range of possible options for changing court working dress. It attracted 3,406 responses. My right hon. friend the Secretary of State for Constitutional Affairs and Lord Chancellor is considering in the light of these responses whether changes would be beneficial and expects to make an announcement in due course.

Government Information

Matthew Taylor: To ask the Parliamentary Secretary, Department for Constitutional Affairs what action his Department is taking to deal with delays experienced by applicants under the Code of Practice on Access to Government Information. [186608]

Mr. Leslie: The Government take any delays experienced by applicants under the Code of Practice on Access to Government Information seriously.

The Government regret that delays do unavoidably occur in a minority of complex cases. However, the Ombudsman's review of the first nine months of the Memorandum of Understanding (September 2003 to May 2004) shows that in most cases the requirements of the Memorandum of Understanding were met.

In all cases, Departments endeavour to ensure that the time limit of 20 working days for Departments to respond to requests for information is met.

Compliance with the Code of Practice on Access to Government Information is monitored annually and published in the Code of Practice on Access to Government Information Monitoring Report.

Government Premises

Mr. Boswell: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the arrangements for access to government premises for *(a)* physically disabled persons and *(b)* allergy sufferers, with particular reference to latex allergy. [186959]

Mr. Leslie: As of the 31 July 2004 319 of the 377 properties that currently make up the Court Service estate are fully accessible to physically disabled persons.

There has been no recorded incident in respect of latex allergies within the Department for Constitutional Affairs. In the event that a member of staff or a visitor to one of our buildings were to suffer from an allergy to latex, we would seek the advice of the Department of Health as to an appropriate course of action to ensure that they suffer no discomfort.

Law Commission

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list the outstanding reports for the Law Commission recommending legislation and in relation to which no Bill has been put before Parliament; and if he will make a statement. [186489]

Mr. Leslie: The outstanding reports are set out in the following tables. Following recommendations made in the recent quinquennial review of the Law Commission my Department, with the support of the Law Commission, is exploring ways in which Departments could implement more accepted Law Commission recommendations. A Ministerial Committee is to consider the Law Commission's draft programme every two years. In addition, Departments are being encouraged to consider, where appropriate, the use of regulatory reform orders and other ways of implementing recommendations. My Department already seeks from other Government Departments six monthly reports on their progress in deciding on published Law Commission recommendations, and when they propose to implement them. However, it is for individual Departments to decide which recommendations to accept and when to implement them.

Law Commission Reports currently under consideration by Parliament

Year	*Number*	*Title*
1995	231	Mental Incapacity

Legal Rights

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to propose changes to the legal principle of volenti non fit injuria in cases involving sport or outdoor pursuits; and if he will make a statement. [R] [186485]

Mr. Leslie: The Government have no plans to change the law in this area.

Magistrate Training

Andy Burnham: To ask the Parliamentary Secretary, Department for Constitutional Affairs what training is available to magistrates on access rights for grandparents in cases of family breakdown. [187661]

Mr. Leslie: Statutory responsibility for the training of magistrates currently rests with the 42 independent magistrates courts committees (MCCs). In court lay magistrates sit with their justices' clerk or a legal adviser. The justices' clerk has a statutory duty to provide advice to the magistrates on questions of law, practice and procedure. This will include advice on applying any case law and relevant Court of Appeal judgments when making decisions. Cases concerning contact (access) arrangements are therefore considered by magistrates on individual merit and with appropriate advice on law and procedure. In each case the child's welfare shall be the court's paramount consideration.

The Children Act 1989 introduced the legal framework for contact (access) arrangements for children in cases of family breakdown. A grandparent is entitled to apply to the court under s.10 of the Act for permission to make an application for contact.

Only magistrates who sit on the Family Panel can hear cases that involve contact arrangements. The recently updated Magistrates' National Training Initiative (MNTI 2) sets out (and confirms the current practice) that magistrates should only be invited to sit on the Family Panel after successfully demonstrating the competencies required to sit in the adult court. Magistrates have been using a competence framework since 1998 for appraisal and training. Under MNTI 2 there are new competence frameworks for both the adult and family courts. These competence frameworks set out the knowledge, understanding, and skills magistrates need to demonstrate to perform their role.

Applications for contact arrangements can also be heard in family proceedings in the county court.

National Debt Helpline/Consumer Direct

Mr. Djanogly: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the Government grant to *(a)* the National Debt Helpline and *(b)* Consumer Direct is for the next financial year. [185927]

Mr. Sutcliffe: I have been asked to reply.

The DTI grant for the National Debtline for financial year 2005–06 has yet to be decided and will be considered as part of the Department's forthcoming business planning exercise.

The DTI's settlement under the Spending Review 2004 included a ring-fenced provision of £16 million in respect of Consumer Direct for financial year 2005–06.

Personal Injury Cases

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to review the indemnity principle in relation to costs in personal injury cases; and if he will make a statement. [R] [186492]

Mr. Leslie: We considered further the indemnity principle as part of our recent review of the conditional fee agreement (CFA) regime Our conclusions on this, the reform of conditional fee agreements and other important costs matters are set out in "Making simple CFAs a reality" which was published on 29 June 2004, copies of which were placed in the Libraries of both Houses. .

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to review the quantum of general damages for pain, suffering and loss of amenity in personal injury claims in line with the Law Commission's recommendations; and if he will make a statement. [R] [186493]

Mr. Leslie: In response to a question from the hon. Member in November 1999, the Government indicated that this issue was a matter for the discretion of the court, and that the Government had no plans to legislate. That remains the position.

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to review the discount rate for damages in personal injury cases; and if he will make a statement. [R] [186495]

Mr. Leslie: The discount rate was set at 2.5 per cent. in July 2001. Since then it has been kept under review.

PFI/PPP Contracts

Matthew Taylor: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many contracts the Department has had with *(a)* Barclays, *(b)* the Royal Bank of Scotland, *(c)* UBS Warburg and *(d)* the Bank of Scotland for advice on private finance initiative and public-private partnership contracts in each financial year since 2001–02; and what fees were paid in each case. [186610]

Mr. Leslie: My Department has had no contracts for advice with Barclays, Royal Bank of Scotland, UBS Warburg or Bank of Scotland on private finance initiative and public-private partnership contracts since 2001–02.

Postal Voting

Mr. Ruffley: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many people were registered for a permanent postal vote in the Bury St. Edmunds constituency in each year since 1997. [187209]

Mr. Leslie: Individual Electoral Registration Officers keep records of the number of postal voters in their registration area, but they are not required to keep separate records of long term postal voters and those for

one election only. It is possible to apply for a postal vote at any time, and figures are not maintained on a yearly basis. However, the following information is available for the 1997 and 2001 general elections.

Bury St. Edmunds	*Total number of postal voters*
1997	1,966
2001	3,104

In addition, the Electoral Registration Officer for St. Edmundsbury borough council has advised that there are currently 6,544 registered postal voters in the Bury St. Edmunds constituency.

Sentencing Guidelines

Mr. Wiggin: To ask the Parliamentary Secretary, Department for Constitutional Affairs what provisions are in place to increase awareness amongst the judiciary of the behaviour patterns of people who have communication-related disabilities, including autism and Aspergers' Syndrome, in relation to sentencing for communication-related offences, with particular reference to *(a)* section 5 of the Public Order Act 1986 and *(b)* the offence of being drunk and disorderly. [186920]

Mr. Leslie: The particular offences in question can only be heard within the magistrates court and usually before lay justices, although District Judges (magistrates court) and Deputy District Judges (magistrates court) also have jurisdiction to deal with them. The Government are committed to the equal and fair treatment of all those who find themselves having to answer criminal charges in court. In particular, part of the judicial oath states that magistrates will "do right to all manner of people".

The JSB Equal Treatment Advisory Committee (ETAC) has provided a Bench Book to all professional judiciary and magistrates courts, and this can also be viewed at www.jsboard.co.uk. The Bench Book includes general advice on dealing with mental disability including autism. The JSB will shortly distribute a booklet entitled "Fairness In Courts and Tribunals" to all magistrates. This booklet is a summary of the newly revised (JSB) ETAC Bench Book. If communication difficulties arise during the charging procedure, and autism or Aspergers' Syndrome is suspected or known, the police will notify the courts in advance of the case being heard. The use of interpreters and/or adult support at Court would then be encouraged.

All magistrates have been issued with an Adult Court Bench Book, published by the Judicial Studies Board. This Bench Book includes a structured decision-making guide for use when making sentencing decisions on both these particular offences and also includes a copy of the newly revised magistrates court sentencing guidelines. The guidelines indicate that the health (physical or mental) of offenders should be considered in mitigation.

The "Magistrate" magazine, which is produced by the Magistrates Association, published an article in the January 2004 edition entitled "Coping with sufferers of autism". This publication is widely read among the magistracy.

Speeding

Mr. Love: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many motorists fined for speeding as a result of evidence provided by cameras *(a)* had not paid the fine after six months and *(b)* had the fine written off as uncollectable in each of the last five years. [187002]

Mr. Leslie: Information on the number of motorists fined as a result of safety camera evidence is collected by the Home Office. The most recent data available are contained in the attached table. Details of the number of motorists that do not pay their fine after six months and/or had the fine written off is not collected centrally. On 5 January I introduced a new policy, from which date fines can no longer be written off. Improving fine enforcement, including for speeding offences, is a priority and good progress continues to be made in improving performance in England and Wales. For the first full quarter of 2004–05 (April to June) the national payment rate was 81 per cent.

Fixed penalties and prosecutions for speeding offences detected by cameras[1] in England and Wales, 1998 to 2002

	Fixed penalty[2]	*Prosecutions*	*Total*
1998	338,800	65,100	403,800
1999	423,000	75,800	498,600
2000	[3]599,200	109,200	699,400
2001	877,500	137,100	1,014,600
2002	1,135,400	275,900	1,411,300

[1] Automatic cameras until 1998, all camera types from 1999.

[2] Paid i.e. no further action.

[3] Following publication of 2000 data, Northamptonshire police force revised their 2000 figures for the number of fixed penalty notices issued for speeding offences from 70,300 to 34,800 (a decrease of 35,500). In consequence, national data have been revised.

Source:

Home Office Statistical Bulletin 05/04—Motoring Offences and Breath Test Statistics, England and Wales 2002.

Supreme Court

Mr. Liddell-Grainger: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans his Department has to bring forward plans to circumscribe the powers of the House of Lords. [186550]

Mr. Leslie: The powers of the House of Lords can only be determined when its proper role and functions are decided in relation to that of the House of Commons. The Government will revert to the question in its party manifesto.

Mr. Liddell-Grainger: To ask the Parliamentary Secretary, Department for Constitutional Affairs what progress his Department is making in locating a site for the proposed new Supreme Court. [186551]

Mr. Leslie: Following a detailed evaluation exercise, two options remain under active consideration. They are Middlesex Guildhall and the New Wing of Somerset. We are continuing to investigate the relative qualitative and financial merits of those two buildings in consultation with the Lords of Appeal before announcing a final decision in the autumn.

Voter Participation

Mr. Wiggin: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to encourage *(a)* young and *(b)* first-time voters to vote at the next General Election. [186873]

Mr. Leslie: The Government are keen to ensure that all young people are encouraged to play as full a part as possible in all our democratic processes.

A range of initiatives, such as citizenship education in schools and the UK Youth Parliament, assist this aim. At the last General Election we sought to bring this learning to life for young people by working with partners to provide mock elections in schools and colleges. We are considering how to take forward such initiatives in future elections.

In addition, the Independent Electoral Commission established under the Political Parties, Elections and Referendum Act 2000, whose remit includes educating and informing people on electoral matters, makes special efforts to target young people especially those who are on the point of attaining the right to vote.

However, the main responsibility for encouraging young and first-time voters to participate at the next General Election must lie with the political parties.

Written Constitution

Kevin Brennan: To ask the Parliamentary Secretary, Department for Constitutional Affairs what recent representations he has received in support of a written constitution for the UK. [187670]

Mr. Leslie: One of the only recent representations that I have received was from one of my hon. Friend's constituents. My right hon. Friend, the Lord Chancellor explained in his reply that the Government have been engaged since 1997 in a major programme of constitutional reform aimed at addressing the key issues and enhancing the credibility and effectiveness of the UK's constitutional arrangements. We have no plans to formulate an overarching codified constitution.

FOREIGN AND COMMONWEALTH AFFAIRS

British Indian Ocean Territories

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent *(a)* discussions have taken place with and *(b)* representations have been received from the US military on the resettlement of the Chagos Islands and Diego Garcia. [183929]

Mr. Rammell: The US authorities have from time-to-time made clear their concerns about the possible restoration of a settled civilian population in the British Indian Ocean Territory. However, the only formal representation from US authorities on this subject was in June 2000.

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs whether detainees are currently held on Diego Garcia; and if he will make a statement. [183528]

Mr. Rammell: The US authorities have repeatedly assured us that no suspected terrorists or Iraqi prisoners are, or ever have been, held on Diego Garcia or on vessels within its waters. The British Representative on the island has confirmed this to be the case.

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the International Criminal Court will have jurisdiction over *(a)* British Indian Ocean Territories and *(b)* Diego Garcia while the latter are under lease to the US military; and if he will make a statement. [182543]

Mr. Rammell: The Order in Council to extend the United Kingdom's International Criminal Court Act 2001 to the Overseas Territories, which is a necessary preliminary to the United Kingdom's ratifying the Rome Statute of the International Criminal Court in respect of those territories, will not apply to the British Indian Ocean Territory since that territory has no settled population.

Butler Inquiry

Norman Lamb: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 12 January 2004, *Official Report*, column 84W, on Iraq, if he will place in the Library a copy of *(a)* Mr. Nadhmi Auchi's letter to him of 15 May 2003 introducing the Anglo Arab Organisation and *(b)* his subsequent acknowledgement. [151126]

Mr. Mullin: I apologise for the delay in replying to the hon. Member. As my hon. Friend the Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Rammell) stated in his answer to the hon. Member on 5 January 2004, *Official Report*, column 84W, Mr. Auchi wrote to my right hon. Friend the Secretary of State for Trade and Industry (Ms Hewitt) to introduce the Anglo Arab Organisation, on 15 May 2003, and she replied on 29 May 2003.

In his pursuant answer on 3 March 2004, *Official Report*, column 980W, Mr. Rammell stated that Mr. Auchi also wrote to my right hon. Friend the Prime Minister on 15 May 2003 about the Anglo Arab Organisation, and that my noble Friend the Baroness Symons of Vernham Dean, replied on his behalf on 7 July 2003.

Copies of the letters, parts of which have been obscured under Exemption 12 of Part 2 of the Code of Practice on Access to Government Information, have been placed in the Library of the House.

Commonwealth Countries

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs of which countries the Queen is the head of state. [186895]

Mr. Mullin: The Queen is the Sovereign and Head of State of the United Kingdom and Northern Ireland, Her Majesty's Realms and Her Majesty's Overseas Territories.

HM Realms are:

Antigua and Barbuda

Australia

The Bahamas

Barbados
Belize
Canada
Grenada
Jamaica
New Zealand
Papua New Guinea
St Kitts and Nevis
St. Lucia
St. Vincent and the Grenadines
Solomon Islands
Tuvalu

HM Overseas Territories are:

Anguilla
Bermuda
British Antarctic Territory
British Indian Ocean Territory
British Virgin Islands
Cayman Islands
Gibraltar
Montserrat
Pitcairn, Henderson, Dulcie and Oeno Islands
St Helena (and her Dependencies of Ascension Island and Tristan da Cunha)
Falkland Islands (and her dependencies of South Georgia and the South Sandwich Islands)
Turks and Caicos Island

Departmental Expenditure

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs how much the Foreign Office spent on press officers *(a)* in 1996–97 and *(b)* the latest year for which figures are available, broken down by grade. [184501]

Mr. Straw: The Foreign and Commonwealth Office spent the following amounts on different grades of staff in its press office. These amounts are based on an average salary for the grade, employer national insurance and superannuation for each grade, and therefore do not reflect actual payments to press office staff.

	£
SMS	183,734
Band D	341,873
Band C	333,122
Band B	130,705
Band A	80,372

The salary costs for overseas press officers and all costs requested for 1996–97 are not readily available and could be obtained only at disproportionate cost.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs how much the Department spent on *(a)* mobile phones, *(b)* hospitality and *(c)* taxis in (i) 1996–97 and (ii) the latest accounting period. [184504]

Mr. Straw: The information is as follows:

Mobile phones

1996–97: £169,356.77

2003–04: £680,527.56.

This does not include the costs of mobile phones for staff overseas. Responsibility for such contracts is devolved to our overseas missions and the relevant figures could be provided only at disproportionate costs.

Entertainment 1996–97

DS Entertainment Fund, used for official hospitality by Ministers and Officers in London: £383,507.89

Accountable Entertainment Allowance spent on official hospitality abroad by officers with representational duties against a personal authorised ceiling: £3,865,746.74

Frais expenditure by Heads of Mission on official hospitality abroad: £5,532,641.13

Total for 1996–97: £9,781,895.76

2003–04

Direct Entertainment Expenditure in London and at Post, that includes the DS Entertainment Fund and expenditure from a system of local entertainment budgets abroad that replaced the former Accountable Entertainment Allowance for individual officers: £4,178,832.75

Frais expenditure by Heads of Mission on official entertainment abroad: £4,103,380.55

Total for 2003–04: £8,282,213.30

Between these two financial years, entertainment budgets have been largely devolved to individual FCO Directorates and some payments previously made directly to individual officers now have to be drawn against tighter objectives from pooled entertainment funds. The annual totals are not therefore altogether directly comparable.

Expenditure on hospitality for official guests invited to London from overseas for either year could be provided only at disproportionate costs.

Official taxi contract spend for the two periods concerned are:

FY 1996–97: £113,058.09

FY 2003–04: £412,168.68

The 1996–07 figures may not provide a full picture of expenditure as they will not include the large ad-hoc use of black cab taxis in London by FCO staff. Staff would claim these costs via individual travel claims. This information is not held centrally and could be provided only at disproportionate costs.

The figures relate to both the FCO's offices in London and Hanslope Park. Hanslope Park, since 1996–07, has developed into an important operational site to the Department and leads on major Projects such as Firecrest, the FCO Telecommunications Network and PRISM; hence the number of visitors has increased. The site is not supported by public transport links and use of taxi's to/from Central Milton Keynes (London main line) station has been the only method of reaching the site for train users. We have recognised the increased use of taxis at Hanslope Park and introduced an 'in-house' minibus service at peak times of the morning/afternoon to cut costs. In addition, we are actively managing the taxi contracts to ensure value for money. We have also encouraged taxi-sharing where possible.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost was of printing Foreign Office headed notepaper in *(a)* 1996–97 and *(b)* the latest year for which figures are available. [184505]

Mr. Straw: For normal departmental use the Foreign and Commonwealth Office (FCO) does not use pre-printed headed notepaper. FCO staff use electronic templates to print out the FCO letterhead. There are, however, some departments/posts which require the use of pre-printed headed paper.

Data from the financial year 1996–97 are not available, although headed paper produced by FCO Services Crystal Print cost £7.70 for 500 sheets in 1996–97. This does not include embossed letterheads which would have been sourced through an external supplier; financial data for this is not available.

The cost of obtaining 500 sheets of pre-printed letterheads from FCO Services Crystal Print is £49.00, £6.50 for each extra 500 thereafter. In 1996–97 the letterheads were charged at cost (ink and paper) as the artwork was supplied by a separate department, and pricing for the internal market had not been introduced fully. Now that the artwork is produced in house a charge for the set up fee of the artwork is included in the initial cost, hence the reduction in price for multiples of 500. This current price also includes full economic cost. For the latest period June 2003—June 2004, FCO Services Crystal Print took orders for about 133,000 sheets of letterheads, including continuation sheets, for both home and overseas departments. The total cost was approximately £5,200. This type of letterhead is produced in house, from layout to print. For the period June 2003 to July 2004 FCO Services Crystal Print ordered embossed letterheads to the value of £6,586 from external suppliers.

Departmental Vehicles

Mr. Kidney: To ask the Secretary of State for Foreign and Commonwealth Affairs how many road vehicles are operated by the Department and its agencies; how many personal injury accidents involving road vehicles operated by the Department have occurred within each of the last five years; and what the Department's policy is for managing work-related road safety. [185919]

Mr. Rammell: The Foreign and Commonwealth Office operates a fleet of 1,361 official vehicles; this is split between the home vehicle fleet (46 vehicles) and the overseas fleet (1,315 vehicles).

The number of personal injury claims in each of the last five years that have involved official departmental vehicles are as follows:

1999–2000: 1 claim (9 September 1999)

2000–01: 0

2001–02: 1 claim (18 March 2002)

2002–03: 0

2003–04: 2 claims (29 September 2003 and 4 March 2004)

Road Safety forms a vital element of the training and development for our UK Fleet Managers. All UK Fleet Managers hold the Certificate of Professional Competence in National Road Haulage Operations. This professional qualification trains Fleet Management teams in the many road safety factors that their driving/maintenance teams must adhere to in the law. All vehicles are fully and properly maintained and driving hours/rest period regulations are monitored as required by the regulations. Other driving/maintenance safety training has been provided to increase the knowledge and proficiency of UK based driving/support teams. To provide details of our overseas fleets and their road safety policies in the form requested could be provided only at disproportionate costs. Different Regions have a range of special conditions that will need to be complied with by local fleets.

I also refer my hon. Friend to the answer given by my hon. Friend the Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster (Mr. Alexander) on 22 July 2004, *Official Report*, column 490W).

EU Export Subsidies

Mr. Dhanda: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with European partners about the impact on the developing world of EU export subsidies. [186307]

Mr. MacShane: During the last few months the issue of export subsidies and their impact on developing countries has been raised on a regular basis with our European partners by ministerial colleagues including my right hon. Friends, the Foreign Secretary, the Secretary of State for Trade and Industry, the Secretary of State for Environment, Food and Rural Affairs, the Secretary of State for International Development and my hon. Friend the Minister for Trade, Investment and Foreign Affairs.

The Foreign Secretary, the Secretary of State for Trade and Industry, the Minister for Trade, Investment and Foreign Affairs and I attended meetings of the EU General Affairs and External Relations Council in the weeks leading up to the WTO Doha Framework Agreement, reached on 1 August 2004, where we strongly supported the European Commission's approach. I am pleased to say that the Framework Agreement provides explicitly for the elimination of all forms of export subsidy, which will greatly benefit developing countries.

Iraq

Sir John Stanley: To ask the Secretary of State for Foreign and Commonwealth Affairs on what date an official in his Department first informed an official in No. 10 Downing street of the withdrawal of the intelligence on Iraqi production of chemical and biological agent referred to in paragraph 405 of the Butler Report. [186807]

Mr. Straw: I refer the right hon. Gentleman to the debate in the House of 20 July 2004, *Official Report*, column 195.

Royal Family (Overseas Visits)

Mr. Roslndell: To ask the Secretary of State for Foreign and Commonwealth Affairs whether Her Majesty the Queen plans to visit Fiji within the next five years. [186881]

Mr. Mullin: There are currently no plans for HM the Queen to visit Fiji.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs which countries *(a)* HRH Prince Charles, *(b)* HRH Prince Andrew and *(c)* HRH Prince Edward plan to visit over the next five years. [186884]

Mr. Mullin: The forward programmes of visits for HRH The Prince of Wales, HRH The Earl of Wessex and HRH The Duke of York are not finalised this far in advance. In line with all royal visits, advance announcements are not usually made for security reasons.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many official visits overseas HRH Prince Charles has paid over the past five years. [186885]

Mr. Mullin: HRH The Prince of Wales has made 43 official visits and one royal visit to a realm in the last five years.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many visits the Royal Family has paid abroad over the past five years. [186891]

Mr. Mullin: The Royal Family has made 175 visits overseas at the request of the Foreign and Commonwealth Office.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs whether Her Majesty the Queen has visited New Zealand within the past five years. [186892]

Mr. Mullin: Her Majesty the Queen visited New Zealand in February 2002.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs when the last royal visit to Singapore took place. [186894]

Mr. Mullin: HRH The Duke and HRH The Duchess of Gloucester visited Singapore in 2002 to promote bilateral relations and commercial interests. HRH The Duke of York visited in 2001 to support commercial and public diplomacy interests.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Royal Family plans to visit Australia within the next five years. [186896]

Mr. Mullin: The forward programme of visits to Australia has not been finalised. In line with all royal visits, advance announcements are not made for security reasons.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs when *(a)* Her Majesty the Queen and *(b)* the royal family last visited Australia. [186897]

Mr. Mullin: HM The Queen accompanied by The Duke of Edinburgh last visited Australia in February 2002. Other members of the royal family visited Australia on the following dates:

HRH The Duke of Edinburgh—April 1998
HRH The Prince of Wales—January 1994
HRH The Earl of Wessex—November 2002
HRH The Princess Royal—June and September 2000 and October 2003
HRH The Duke of Gloucester—May 1993
HRH The Duchess of Gloucester—January 2004.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs whether a member of the Royal Family has visited the Falkland Islands over the past five years. [186898]

Mr. Mullin: HRH The Duke of York visited in 2002 to mark the 20th anniversary of the liberation of the Falkland Islands. HRH Princess Alexandra visited the Falkland Islands in 2000 in her capacity as Patron on the UK Falkland Islands Trust.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times in 2004 Her Majesty the Queen has visited countries of which she is Head of State. [186899]

Mr. Mullin: HM The Queen has not visited any countries in 2004 of which she is the Head of State.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many countries Her Majesty the Queen has visited in an official capacity in 2004. [186900]

Mr. Mullin: HM The Queen made a State Visit to France from 5–7 April to commemorate the 100th Anniversary of the Entente Cordiale of 1904. HM The Queen, with other Members of The Royal Family also attended the 60th Anniversary of the D-Day Normandy landings on 6 June.

It was announced by Buckingham Palace on 19 July that, at the invitation of President Horst Kohler, The Queen and The Duke of Edinburgh will pay a State Visit to Germany from 2 to 4 November.

Beyond that the forward programme of State or Official visits by The Queen has not been finalised.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs whether a member of the Royal Family plans to make a state visit to Canada within the next five years. [186903]

Mr. Mullin: Security reasons preclude announcements of visits to Canada by Members of The Royal Family this far ahead.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs whether a member of the Royal Family has paid a state visit to Canada since 1999. [186904]

Mr. Mullin: Visits by Members of The Royal Family to Realms are classified as Royal Visits, not State or official visits. Our records show that visits to Canada by members of The Royal Family since 1999 have included the following:

2002 The Queen and The Duke of Edinburgh
2001 The Duke of Edinburgh
2004 The Duke of Edinburgh
2001 The Prince of Wales
1999 The Duke of York
2000 The Duke of York
2003 The Duke of York
2000 The Earl of Wessex

2001 The Earl of Wessex
2002 The Earl of Wessex
2003 The Earl of Wessex
1999 The Princess Royal
2003 The Princess Royal
2004 The Princess Royal
1999 The Duke of Kent
2001 The Duke of Kent
2001 The Duke of Kent
2002 Prince Michael of Kent

Venezuela

Mr. Pike: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he had with *(a)* the Venezuelan Government, *(b)* international aid organisations and *(c)* others in the months which followed the 1999 Caracas floods; what support the British Government offered to (i) the Venezuelan Government and (ii) international aid organisations who were working there; and if he will make a statement. [186413]

Mr. Gareth Thomas: I have been asked to reply.

Following close liaison with the British embassy in Caracas and key operational partners in the field, DFID initially provided 500,000 to Venezuela following the floods in December 1999. This was used to support the World Health Organisation (WHO), the United Nations Children's Fund (UNICEF) and the Red Cross. The funds went towards providing emergency assistance for those affected and initiating long-term rehabilitation for up to 10,000 families.

The right hon. Member for Carrick, Cumnock and Doon Valley, Mr George Foulkes, the then DFID Parliamentary Under Secretary of State, later held detailed discussions with the Venezuelan ambassador about DFID's role in providing assistance to the people of Venezuela. DFID also deployed experts to liaise with Venezuelan authorities and humanitarian organisations to identify priority needs. We then provided a further £300,000 in January 2000 to WHO (to expand their programme), the United Nations Office for the Coordination of Humanitarian Affairs (to fund two disaster management specialists) and the Red Cross (to ensure continuity of relief assistance towards the full-scale recovery process).

Visiting Heads of State

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs which heads of state have made visits to the UK over the past five years. [186882]

Mr. Mullin: I have placed a copy of a list from our records of Heads of State who have visited the UK in an official capacity since 1999 in the Library of the House. In addition the Queen has received some other Heads of State during the course of private visits to this country.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs which heads of state plan to make visits to the UK over the next five years. [186883]

Mr. Mullin: President Chirac of France is expected to visit the United Kingdom in the autumn and the President of the Republic of Korea, Mr. Roh Moo-hyun, accompanied by Mrs. Roh Moo-hyun, will pay a state visit to the United Kingdom in December.

President Klaus of the Czech Republic arrived in London on 6 September for a two-day visit, and President Iliescu of Romania will arrive on 7 September for a three-day visit. Both are visiting as guests of Her Majesty's Government.

In most cases, guest of Government visits by Heads of State are planned only six to eight weeks in advance, sometimes less. For this reason I cannot predict which other Heads of State will visit during the next five years.

There are normally two inward state visits per year, one in the spring and one in the autumn. The forward programme of state visits for 2005, and subsequent years has not been finalised.

HEALTH

Family Courts

Tim Loughton: To ask the Secretary of State for Health what remit has been agreed for the review of the use of expert evidence in the family courts; who will be invited to submit evidence to the review; whether it is his intention to publish all submissions to the review; and when he will publish the findings of the review. [185416]

Dr. Ladyman: The Chief Medical Officer (CMO) will take forward a programme of work to examine and make recommendations on how best to ensure the availability and quality of medical expert resources to the family courts. The terms of reference are:

a) To consider the role of expert medical witnesses in relation to family law cases:

i. To examine the experts' participation through the process, and the competencies needed.

ii. To examine evidence of best practice for expert witnesses.

b) To identify a template and portfolio of medical skills by which a practitioner may be regarded as 'competent' to offer evidence.

c) To advise on a sustainable supply of competent, quality-assured expert medical witnesses.

d) To report and make recommendations to Government ministers in early 2005.

The work will involve a wide range of interests, including judicial, legal, clinical specialities, scientific, statistical and consumer groups, as well as health regulatory bodies.

Consideration will be given to the appropriateness of publishing individual submissions.

Advocacy (Older People)

Sandra Gidley: To ask the Secretary of State for Health if he will introduce an independent advocacy service for vulnerable older people. [186458]

Dr. Ladyman: There are no plans to introduce an independent advocacy service for older people. The government encourages local authorities to use and support local advocacy schemes, or set up their own to meet specific identified need.

Annual Health Check (Pensioners)

Sandra Gidley: To ask the Secretary of State for Health what plans he has to introduce an annual health check for pensioners. [186961]

Dr. Ladyman: General medical practitioners must provide an annual health check to any patient aged 75 and over who requests it and who has not had a consultation within the last 12 months.

We have no plans to introduce an annual health check for all pensioners.

Bed Occupancy Rates

Mr. Liddell-Grainger: To ask the Secretary of State for Health what the bed occupancy rates were for *(a)* each NHS hospital trust in England and *(b)* England in each year since 1991. [186513]

Mr. Hutton: Information on beds is collected on a provider basis from national health service organisations and the latest data available is for the year 2002–03. Beds data for 2003–04 is due to be published later this year.

The table shows the average occupancy rate for England between 1996–97 and 2002–03. Prior to 1996–97, bed occupancy data was not collected on the bed availability return.

Bed occupancy data from 1996–97 to 1999–2000 are available in the Library and from the Department's website from 2000–01 to 2002–03 at www.performance.doh.gov.uk/hospitalactivity/index.htm.

Average occupancy rate, calculated using the average daily number of available and occupied beds in wards open overnight. England, 1996–97 to 2002–03

Percentage occupancy

	All specialties	*General and acute*
1996–97	81.3	80.8
1997–98	80.9	80.5
1998–99	82.5	82.5
1999–2000	82.7	83.1
2000–01	84.0	84.7
2001–02	85.1	86.0
2002–03	85.4	86.5

Department of Health from KH03.

Cancer (NICE Guidelines)

Dr. Gibson: To ask the Secretary of State for Health what impact he expects the revised National Institute for Clinical Excellence Referral Guidelines for Suspected Cancer will have on postgraduate general practitioner training. [185851]

Mr. Hutton: Government does not specify the content of the general practitioner training curriculum. This is the job of the joint committee on postgraduate training for general practice (JCPTGP), which is the competent authority for general practice training in the United Kingdom. The JCPTGP is an independent body and it is required by section 9(3) of the Vocational Training Regulations 1997 to determine and publish the curriculum to be followed by a GP registrar (a trainee GP).

The Regulations do specify seven competencies which must be tested, and which the curriculum must therefore teach:

factual medical knowledge sufficient to enable the doctor to perform the duties of a GP;

the ability to apply factual medical knowledge to the management of problems presented by patients in general practice;

effective communication, both orally and in writing; the ability to consult satisfactorily with general practice patients;

the ability to review and critically analyse the practitioner's own working practices and to manage any necessary changes appropriately;

clinical skills;

the ability to synthesise all of the above competencies and apply them appropriately in a general practice setting.

It is, therefore, the responsibility of the JCPTGP to assess the impact of the revised National Institute for Clinical Excellence referral guidelines for suspected cancer and adapt postgraduate general practitioner training accordingly.

Care Homes

Mr. Tony Clarke: To ask the Secretary of State for Health how many beds are available for the elderly in care homes in Northampton; and how many were available on average in *(a)* 2001 and *(b)* 1997. [186515]

Dr. Ladyman: The table shows the number of places available for people aged 65 and over in residential and nursing homes in Northamptonshire, at 31 March for the years 1997 and 2001.

Number of care home places for people aged 65 and over in Northamptonshire[1], 1997 and 2001

As at 31 March *Rounded numbers*

	Residential	*Nursing[2,3]*
1997	2,870	—
2001	2,920	1,640

Notes:
[1] Figures for residential care are for Northamptonshire local authority and for nursing care they are for Northamptonshire health authority
[2] Nursing home figures include places in general nursing homes, mental nursing homes and private hospitals and clinics.
[3] Information is not available by age band at health authority level for 1997.

Data for Northampton are not centrally available.

I understand from the chair of the Commission for Social Care Inspection (CSCI) that figures for later years were collected by the National Care Standards Commission, and now CSCI, but comparable details are not available.

Chiropody

Sandra Gidley: To ask the Secretary of State for Health what the average length of time patients have to wait between regular chiropody appointments is, broken down by primary care trust. [186454]

Dr. Ladyman: This information is not collected centrally.

Chronic Fatigue Syndrome/ME

Mr. Pike: To ask the Secretary of State for Health how many people are diagnosed with chronic fatigue syndrome/myalgic encephalomyelitis *(a)* in Burnley, *(b)* within the Burnley, Pendle and Rossendale Primary Care Trust and *(c)* within the East Lancashire NHS Trust; and if he will make a statement. [186740]

Dr. Ladyman: The Department has no plans to institute special data collection exercises for specific diseases, conditions, syndromes or injuries.

Central monitoring and reporting is limited to that information needed to demonstrate progress against the targets set out in "National Standards, Local Action: Health and Social care Standards and Planning Framework 2005/06–2007/08", published by the Department on 21 July 2004; and for contractual purposes. Additional monitoring is kept to a minimum in favour of local performance management systems, exception reporting and independent inspections.

The report of the independent chronic fatigue syndrome/myalgic encephalopathy working group, published in January 2002, estimated a population prevalence of around 0.2 to 0.4 per cent. in adults and around 0.07 per cent. in children. It made no analysis of regional variations.

Mr. Pike: To ask the Secretary of State for Health where chronic fatigue syndrome/myalgic encephalomyelitis-diagnosed patients *(a)* in Burnley, *(b)* within the Burnley, Pendle and Rossendale Primary Care Trust and *(c)* within the East Lancashire NHS Trust receive treatment; what the furthest distance an individual in these areas has to travel to access specialist services; and if he will make a statement. [186741]

Dr. Ladyman: We do not hold information centrally on the treatments and rehabilitation services available locally to patients with chronic fatigue syndrome/myalgic encephalopathy.

Mr. Pike: To ask the Secretary of State for Health what representations he has received from *(a)* chronic fatigue syndrome/myalgic encephalomyelitis (CFS/ME) sufferers in Burnley, *(b)* CFS/ME sufferers within the Burnley, Pendle and Rossendale Primary Care Trust and *(c)* CFS/ME sufferers within the East Lancashire NHS Trust, *(d)* Burnley, Pendle and Rossendale Primary Care Trust and *(e)* the East Lancashire NHS Trust regarding (i) the levels of service provision and (ii) access to services for CFS/ME; and if he will make a statement. [186742]

Dr. Ladyman: We are not aware of formal representations from people in the towns and trusts mentioned. There is regular correspondence to the Secretary of State, Ministers and the Chief Medical Officer around service provision for patients with chronic fatigue syndrome/myalgic encephalopathy.

Mr. Pike: To ask the Secretary of State for Health (1) what provision *(a)* East Lancashire NHS Trust and *(b)* Burnley, Pendle and Rossendale Primary Care Trust have for chronic fatigue syndrome/myalgic encephalomyelitis services; what specific funding they receive to deliver these services; and if he will make a statement; [186744]

(2) what referral mechanisms are in place for *(a)* East Lancashire NHS Trust and *(b)* Burnley, Pendle and Rossendale Primary Care Trust to access chronic fatigue syndrome/myalgic encephalomyelitis centres and support teams in the region; and if he will make a statement. [186745]

Dr. Ladyman: From April 2005, funding has been granted to create a specialist multidisciplinary team for the geographical area of Lancashire and South Cumbria, which includes East Lancashire and Burnley, Pendle and Rossendale primary care trusts. Children and young people with chronic fatigue syndrome/myalgic encephalopathy will be managed by local community paediatric services, supported by the two clinical network co-ordinating centres in Manchester and Liverpool. Lancashire and Cumbria have been allocated £115,000 to develop the service.

Continuing Care

Sandra Gidley: To ask the Secretary of State for Health how many people received fully funded NHS continuing care in each year since 1997, broken down by strategic health authority; and if he will make a statement. [185996]

Dr. Ladyman: The number of people receiving National Health Service continuing care in 2002–03 and 2003–04, broken down by strategic health authority (SHA), is shown in the table. The move to SHA took place in 2002. Therefore, it is not possible to provide data broken down by SHA preceding this date.

Mr. Burstow: To ask the Secretary of State for Health what proportion of the 7.2 per cent. increase in health spending announced by the Chancellor on 12 July his Department expects to deploy to meet the cost of NHS continuing care. [186767]

Dr. Ladyman: The spending review statement by my right hon. Friend, the Chancellor of the Exchequer, confirmed the Government's commitment to high and sustained levels of growth in investment for the national health service. The public service agreement published as part of the spending review and the departmental publication, "Health and Social Care Standards and Planning Guidance 2005–06 to 2007–08", set the priorities for investment during the next planning period. In support of these objectives, we plan to allocate the majority of NHS funding directly to primary care trusts and so maximise local flexibility in meeting these priorities.

Mr. Burstow: To ask the Secretary of State for Health what assumptions his Department made about the change in the numbers of people needing intensive home care and home care during the Spending Review period announced by the Chancellor on 12 July; and how much of the planned increase in social care spending he expects will be deployed to allow for an expansion in domiciliary services as a result. [186795]

Dr. Ladyman: One of the Department's public service agreement targets states that, by March 2008, the number of people supported intensively to live independently at home, as a proportion of all those supported intensively at home or in residential care,

should increase to 34 per cent.; increasing the proportion of older people being supported to live in their own home by one per cent. annually in 2007 and 2008.

The Spending Review settlement announced by my right hon. Friend, the Chancellor of the Exchequer, on 12 July, was based on forecast increases in pay and prices, and increases in demand from demographic changes. It is for local authorities to decide how best to deploy the services available.

Mr. Burstow: To ask the Secretary of State for Health, pursuant to his answer of 15 June 2004, *Official Report*, column 901W, on NHS Continuing Care (Recompense), when the review of those wrongly denied NHS continuing care was commissioned; when it was submitted to Ministers; when it is expected to report back; and what the remit of the review was. [187067]

Dr. Ladyman: As I stated in my answer of 15 June, strategic health authorities (SHAs) are completing their reviews of cases where individuals may have been wrongly denied national health service continuing care and I will make a statement on the number of retrospective reviews completed and the number of individuals eligible for recompense as soon as that information is available. The independent review of the provision and understanding of NHS-funded continuing care within nine SHAs is a separate matter. The report has been completed and the Department is currently considering its conclusions.

Departmental Publications (Storage)

Dr. Cable: To ask the Secretary of State for Health how many departmental publications are in storage; and where they are located. [183870]

Ms Rosie Winterton: The Department has approximately 40.4 million items stored at its main distributor, Prolog in Nottingham; 2.5 million items stored with EC Logistics in Hayes, Middlesex; 290,000 items at MM Group in Ashby de la Zouch, and 7,000 items at Brian Manktelow Ltd. in London.

Diabetes

Tim Loughton: To ask the Secretary of State for Health how many hospital accident and emergency departments *(a)* stock both animal and human insulin and *(b)* inquire whether the diabetes patient has a preference for one or the other. [187051]

Ms Rosie Winterton: This information is not collected centrally.

Tim Loughton: To ask the Secretary of State for Health what guidelines are in place at primary care level to offer diabetes patients a choice between animal and human insulin *(a)* at first diagnosis of diabetes and *(b)* on occurrence of the patient suffering from side effects of animal or human insulin. [187055]

Ms Rosie Winterton: The National Institute for Clinical Excellence issued advice in 2002 on the management of blood glucose in type 2 diabetes and the management of type 1 diabetes in children, young people and adults, issued in 2004. This advice states that patient preference should form part of the choice of insulin type and regimen.

Tim Loughton: To ask the Secretary of State for Health what the cost is to the general practitioner of a patient being prescribed *(a)* animal and *(b)* human insulin. [187056]

Ms Rosie Winterton: The cost of prescribing insulin is not direct to general practitioners, as all prescribing is funded from the unified budgets of primary care trusts.

Keith Vaz: To ask the Secretary of State for Health how many meetings he has had with his EU counterparts to discuss co-operation on research on diabetes. [186626]

Ms Rosie Winterton: None. However, the Department, with the Medical Research Council and the Wellcome Trust is funding a pan-European study on diabetes. The ADDITION study is a population-based screening study for undiagnosed Type 2 diabetes and is taking place in Denmark, the Netherlands, Cambridge and surrounding counties and Leicester.

Diagnostic and Treatment Centres

Andy King: To ask the Secretary of State for Health what the *(a)* anticipated construction cost, *(b)* date for start of construction and *(c)* date for completion is of each diagnostic and treatment centre already completed or in development in March. [182455]

Mr. Hutton: Capital investment of circa. £140 million has been made in the 27 treatment centres that are open and run and managed by the national health service. In addition, the NHS is contracting with the independent sector for the provision of surgical procedures rather than new physical capacity. In total, we expect there to be around 80 treatment centres open by the end of 2005.

Domiciliary Care

Sandra Gidley: To ask the Secretary of State for Health how many domiciliary care providers have met the registration standards. [187066]

Dr. Ladyman: I understand from the chair of the Commission for Social Care Inspection (CSCI) that, as of 31 August 2004, there were 3,018 domiciliary care agencies registered with the CSCI.

Environmental Management

Mr. Burstow: To ask the Secretary of State for Health what the average score for the controls assurance standard on environmental management has been in each year since 1997. [186013]

Mr. Hutton: The average scores for controls assurance standard on environmental management were:

2000–01	33.6
2001–02	35.5
2002–03	39.2
2003–04	49.0

Scores were not collected prior to 2000–01. From 1 August 2004, key controls assurance standards were incorporated into Standards for Better Healthcare and the risk management process will be managed locally using the existing assurance framework.

Free Eye Tests

Mr. Anthony D. Wright: To ask the Secretary of State for Health how many old age pensioners in the Great Yarmouth constituency have benefited from the introduction of free eye tests. [186707]

Dr. Ladyman: Figures for the number of sight tests by constituency or by the number of old age pensioners are not collected centrally.

The total number of national health service sight tests paid for patients aged 60 and over in Great Yarmouth Primary Care Trust (PCT) for the year 2003–04 was 13,720. However, some patients aged 60 and over will be eligible for sight tests for other reasons as well; for example, on income grounds. The classification for such patients will depend on the patient and the practitioner.

Sight tests cannot be equated to the numbers of patients. Although most people do not come back for a sight test within the year, some patients suffering from medical conditions are advised to have re-examinations sooner.

Free Health Tests (Pensioners)

Sandra Gidley: To ask the Secretary of State for Health what estimate he has made of the cost of providing an annual *(a)* chiropody assessment and *(b)* diabetes check to pensioners. [186456]

Dr. Ladyman: It is for local service providers to estimate the cost of any changes to local services which they might be considering.

GP Access Target

Mr. Ruffley: To ask the Secretary of State for Health what percentage of patients were seen by a general practitioner within the 48-hour general practitioner access target in *(a)* Suffolk and *(b)* the Bury St. Edmunds constituency in the last year. [187197]

Dr. Ladyman: The information requested is not collected centrally. However, the percentage of patients able to be offered an appointment with a general practitioner within the 48-hour general practitioner access target for Suffolk and the Bury St. Edmunds constituency is shown as follows.

1. Central Suffolk Primary Care Trust (PCT)—100 per cent, (as at July 2004).

2. Suffolk West PCT (which serves Bury St. Edmunds)—100 per cent., (as at July 2004).

Miss McIntosh: To ask the Secretary of State for Health what the average wait for an appointment to see *(a)* the general practitioner with whom an individual is registered and *(b)* another general practitioner in the practice with which an individual is registered, was in the last period for which figures are available. [R][181673]

Mr. Hutton: The Department does not hold data on actual waiting times for appointments with general practitioners. It collects data on the availability of appointments to monitor progress towards the primary care access target. These show that, in July 2004, some 98 per cent. of the population could be seen by a GP within two working days.

Head Injury Rehabilitation

Bob Russell: To ask the Secretary of State for Health what progress has been made in implementing the recommendations of the Health Select Committee's Third Report of Session 2000–01, on Head Injury Rehabilitation; and if he will make a statement. [186978]

Dr. Ladyman: We have taken various actions to improve services for patients with head injury. We commissioned the National Institute for Clinical Excellence to prepare guidelines for the triage, assessment, investigation and early management of head injuries in infants, children and adults in June 2003. The guidelines contain recommendations about when it is appropriate to admit patients to hospital following a head injury, what level of care they should receive and correct protocols for transferring patients to specialist head/brain injury units.

The British Society for Rehabilitation Medicine also published guidelines, Rehabilitation following acquired brain injury; national clinical guidelines, last December. These outline the general principles of service provision and specific advice on the clinical management of patients with acquired brain injury. The guidelines were produced to inform the national service framework (NSF) for long term conditions.

The NSF for long term conditions will focus on improving services for people with neurological conditions. It will recommend improvements in standards, care and support that will benefit everyone with a neurological condition.

We are committed to publishing the framework as soon as possible.

Headed Notepaper

Mr. Burns: To ask the Secretary of State for Health what the cost of printing Department of Health headed notepaper was in *(a)* 1996–97 and *(b)* the latest year for which figures are available. [184550]

Ms Rosie Winterton *[holding answer 19 July 2004]:* The costs of printing departmental headed notepaper in 1996–97 can be provided only at disproportionate cost. Costs for the period 2003 to June 2004 were £2,099.

Health Promotion (Older People)

Sandra Gidley: To ask the Secretary of State for Health what plans he has to invest in health promotion among older people; and what initiatives for older people have taken place in this area over the last two years. [186797]

Dr. Ladyman: The national service framework for older people focused on the promotion of health and active life in old age. The Health Development Agency has produced an "advocacy tool" to enable local health and social care services appreciate the importance and make the case for improving health and well-being in midlife and older age.

The needs of older people have been part of the development and services offered through healthy living centres, local exercise pilot sites and the development of learning through the healthy communities collaborative programme. This work has been supported further

through actions that incorporate a preventative approach into the development of stroke and mental health services and integrated falls services. Recognising the broad nature of factors that contribute to older people's sense of independence and well-being, we have also worked across Government to encourage active ageing based on council-wide strategies involving transport, leisure, education and other services.

Our consultation, "Choosing Health? A consultation on action to improve people's health", ended on 28 June 2004. Over 2,200 responses have been received and are now being analysed. These cover a wide range of topics. We shall build on the consultation responses as we prepare our White Paper on improving people's health, which we plan to publish in the autumn.

Hearing Aids

Mrs. Calton: To ask the Secretary of State for Health what the cost per patient is of *(a)* an externally-worn hearing aid and *(b)* a hearing aid fitted to be internally worn. [186314]

Ms Rosie Winterton: There are a number of hearing aid types available under the national health service national framework for the supply of hearing aid products. For behind-the-ear hearing aids, prices are in the range of £67 to £195 for digital aids and £31 to £125 for analogue aids. In-the-ear hearing aid prices are in the range of £54 to £66 for analogue aids. These prices are for supply of a single hearing aid only and do not include the costs associated with the provision of the hearing aid service.

Mrs. Calton: To ask the Secretary of State for Health by what date internally-worn hearing aids will be fitted to all NHS patients for whom they are suitable and who request them. [186361]

Dr. Ladyman: All audiology departments in England will routinely be fitting digital hearing aids by March 2005 to patients who require them.

There are no plans for the national health service to supply in-the-ear hearing aids routinely to patients.

Hospital Hygiene/Infection Control

Andrew Mackinlay: To ask the Secretary of State for Health what independent inspections are undertaken of hospital hygiene management programmes; and if he will make a statement. [184417]

Mr. Hutton: Responsibility for reviewing the performance of national health service trusts rests with the Healthcare Commission. A new inspection process for monitoring against the new healthcare standards will commence from next year.

In addition, infection control protocols will be inspected as part of the clinical negligence scheme for trusts.

Andrew Mackinlay: To ask the Secretary of State for Health what assistance has been given since 19 March 1997 to the *(a)* development and *(b)* use in hospitals of new (i) paints and (ii) cleaning products able to kill known microbes; and if he will make a statement. [184418]

Miss Melanie Johnson: The choice of paints and cleaning products for use in hospitals is decided locally by individual national health service trusts. We have set up a rapid review process to assess products that make claims about their efficacy to prevent or control healthcare associated infections. However, products to destroy these micro-organisms are already available and it is the consistent use of good infection control practice that needs to be improved.

Mr. Norman: To ask the Secretary of State for Health how many NHS hospital trust *(a)* Chairmen, *(b)* Chief Executives and *(c)* other board members have received training in administering hygiene and infection control regimes. [185335]

Miss Melanie Johnson: This information is not held centrally.

Mr. Norman: To ask the Secretary of State for Health what *(a)* representations he has received and *(b)* evidence he has collected regarding the effect of advance publication of hospital cleaning target specifications on the cleanliness of hospitals. [185620]

Mr. Hutton: Since 2000, the patient environment action team (PEAT) programme and the national standards of cleanliness for the National Health Service have been introduced.

As a result of the PEAT inspections; the introduction of the national standards of cleanliness; the investment of £68 million and the efforts of the NHS, standards have risen from a position where, in autumn 2000, only a little over 20 per cent. of hospitals were assessed as having good standards of cleanliness to one where nearly 80 per cent. were assessed as good and the remainder assessed by PEAT as acceptable. We consider that these changes have been important factors in raising standards across the NHS over the past four years, but recognise further improvements are needed.

No representations have been received specifically on this issue.

Mental Health

Sandra Gidley: To ask the Secretary of State for Health pursuant to the Answer of 21 June 2004, *Official Report*, column 1275W, on mental health, what percentage of NHS trusts provide single-sex accommodation for unplanned admissions. [186753]

Ms Rosie Winterton: The information is not collected centrally.

National health service trusts should make every effort to ensure that all patients are cared for in single-sex accommodation. There may be occasions when the use of mixed sex accommodation is unavoidable. Hospitals will not turn patients away because a bed in a single-sex area is not available, and nor would we expect them to.

Emergency admissions may sometimes be placed in an area that houses both male and female patients. This is not ideal; but it is sometimes necessary, given that the NHS deals with almost four million emergency admissions each year.

Guidance on maintaining patient privacy and dignity issued to the service in 1997 advises that patients admitted under emergency procedures should be transferred into appropriate single-sex accommodation at the earliest possible opportunity; but at least within 48 hours. Where the use of mixed-sex accommodation is unavoidable, hospitals should have in place clear operational policies that minimise the impact of this situation until the patient can be moved to accommodation that is more appropriate.

Sandra Gidley: To ask the Secretary of State for Health what measures have been taken to assist carers of patients with advanced Alzheimer's disease in Romsey. [186757]

Dr. Ladyman: All carers, including those caring for people with dementia, are entitled to an assessment to determine their needs as carers and eligibility for support. The new Carers (Equal Opportunities) Act 2004 introduces new provisions that will ensure that carers are made aware of this right.

The carers grant, worth £125 million this year, provides money for local councils to provide short breaks and services to cares to enable them to continue in their caring role. Carers are also entitled to cash payments for carers' services to enable them to purchase the type of support they require and promote a better quality of life.

The Department has also revised and updated, "Who cares? Information and support for the carers of confused people."

At a local level, the Eastleigh and Test Valley South Primary Care Trust, working with the Hampshire Partnership Trusts and the local social services, has developed a wide range of initiatives in both the acute and community setting which offer advice and support to patients with dementia, and their carers. This includes a carer's centre, jointly commissioned specialist services for carers provided by Southampton MIND, and regular carer's education and support sessions which are run by the local memory assessment and research centre.

Sandra Gidley: To ask the Secretary of State for Health (1) what assessment he has made of the availability of drugs for treating advanced Alzheimer's disease in Romsey; [186758]

(2) how much was spent by the NHS on drug treatments for advanced Alzheimer's disease patients in Romsey in the latest year for which figures are available; [186759]

(3) how many advanced Alzheimer's disease patients are being treated in the Romsey constituency. [186760]

Ms Rosie Winterton: Information on the number of advanced Alzheimer's disease patients being treated by individual primary care trusts (PCTs) is not collected centrally.

Data on the number of prescription items dispensed in the community and the net ingredient cost are collected by the Prescription Pricing Authority. The total number of prescription items dispensed for dementia drugs and the net ingredient costs of these drugs, in the area covered by Eastleigh and Test Valley South PCT in 2003–04 is shown in the table. It is not possible to provide a breakdown for expenditure on drug treatments for advanced Alzheimer's patients for Eastleigh and Test Valley South PCT.

Total number of prescription items and net ingredient cost for "Drugs for Dementia" (BNF 4.11, Treatment of Alzheimer's Disease) dispensed in the community for Eastleigh and Test Valley South PCT in 2003–04

	Number of prescription items (thousand)	*Net ingredient cost (£000)*
Eastleigh and Test Valley South PCT	2.9	298.0
England total	392.7	34,217.0

Notes:

1. PCA data covers all prescription items that are dispensed in the community in England. PCA data does not include items dispensed in hospitals or private prescriptions.
2. Drugs for the treatment of Alzheimer's disease are classified in the British National Formulary section 4.11 (Drugs for Dementia) and include the drugs Donepezil, Rivastigmine, Galantamine and Memantine.
3. Information on the number of patients receiving prescriptions for these drugs is not available, but numbers of prescription items of all prescriptions dispensed in the community in Eastleigh and Test Valley South PCT (this is not necessarily the same as where the drugs were prescribed) and the net ingredient cost is provided.
4. Prescriptions are written on a prescription form. Each single item written on the form is counted as a prescription item.
5. The net ingredient cost is the basic cost of a drug. This cost does not take account of discounts, dispensing costs, fees or prescription charge income.

Source:

Prescription Cost Analysis (PCA) data from the Prescription Pricing Authority.

The Department has not made an assessment of the availability of drugs for treating advanced Alzheimer's disease in Romsey. It is for PCTs, in conjunction with strategic health authorities, to ensure that services meet local needs.

Sandra Gidley: To ask the Secretary of State for Health what plans he has to increase the resources available to Alzheimer's patients. [186457]

Dr. Ladyman: Funding for the development of treatment and care for people with Alzheimer's disease is not identified separately, but is part of general allocations to local health and social care organisations. It is for local primary care trusts, in partnership with other local national health service and social care organisations, to assess the needs of the local population and meet them from general funding allocations.

The Government is committed to improving standards of health and social care and people with Alzheimer's disease will benefit from the new investment that is being made available to support this commitment. For the NHS, there is an annual average funding increase of 7.5 per cent. above inflation over the five years 2003–04 to 2007–08. This is now the largest ever sustained increase in NHS funding. There have also been substantial increases in the level of funding provided for social services in recent years. Social services resources will increase by an annual average of 6 per cent. in real terms from 2003–04 to 2005–06. These significant funding increases will help provide new and better health and social care services for people with Alzheimer's disease.

Dr. Gibson: To ask the Secretary of State for Health how many Alzheimer's disease patients are being treated in Norwich; what the total spending on drugs available on the NHS for Alzheimer's disease was in Norwich in the last year for which figures are available; what assessment he has made of the availability of drugs for moderately-severe to severe Alzheimer's disease in Norwich; how much was spent by the NHS on drug treatments for advanced Alzheimer's disease patients in Norwich in the last year for which figures are available; and what measures have been taken to assist carers of patients with advanced Alzheimer's disease in Norwich. [187013]

Dr. Ladyman: Information on the number of advanced Alzheimer's disease patients being treated by individual primary care trusts (PCTs) is not collected centrally.

Data on the number of prescription items dispensed in the community and the net ingredient costs is collected by the Prescription Pricing Authority (PPA). The total number of prescription items dispensed for dementia drugs and the net ingredient costs of these drugs, in the area covered by Norwich PCT in 2003–04 is shown in the table. It is not possible to provide a breakdown for expenditure on drug treatments for advanced Alzheimer's patients in Norfolk.

Total number of prescription items and net ingredient cost for "Drugs for Dementia" (BNF 4.11, treatment of Alzheimer's disease) dispensed in the community for selected PCTs—2003–04

	Number of prescription items	*Net ingredient cost*
Norwich PCT	1,408	111,272
England total	392,652	34,217,012

Notes:

1. PCA data covers all prescription items that are dispensed in the community in England. PCA data does not include items dispensed in hospitals or private prescriptions.
2. Drugs for the treatment of Alzheimer's disease are classified in the British National Formulary section 4.11 (Drugs for Dementia) and include the drugs Donepezil, Rivastigmine, Galantamine and Memantine.
3. Source:

Prescription cost analysis (PCA) data from the PPA.

The Department has not made an assessment of the availability of drugs for treating advanced Alzheimer's disease in Norwich. It is for PCTs, in conjunction with strategic health authorities (SHAs), to ensure that services meet local needs.

Norfolk Suffolk and Cambridge SHA has advised that all patients who are prescribed medication for the treatment of Alzheimer's disease are assessed by a consultant for four months. If the medication is beneficial then the patient's general practitioner takes over responsibility for prescribing, with the option to discontinue the medication if it is not producing benefits for the patient, or his/her carer, at any time.

Dr. Stoate: To ask the Secretary of State for Health what measures have been taken to assist carers of patients with advanced Alzheimer's disease in *(a)* the UK and *(b)* Dartford. [187028]

Dr. Ladyman: All carers, including those caring for people with dementia, are entitled to an assessment to determine their needs as carers and eligibility for support. The new Carers (Equal Opportunities) Act 2004 introduces new provisions that will ensure that carers are made aware of this right.

The carers grant, worth £125 million this year, provides money for local councils to provide short breaks and services to carers to enable them to continue in their caring role. Carers are also entitled to cash payments for carers' services to enable them to purchase the type of support they require and promote a better quality of life.

The Department has also revised and updated Who cares? Information and support for the carers of confused people.

Matters relating to Scotland and Wales are matters for the devolved administration. Whilst the institutions in Northern Ireland are dissolved, responsibility rests with Ministers in the Northern Ireland Office.

There are two new local initiatives in Dartford. Firstly, the provision of 10 residential care beds specifically for the assessment and treatment of dementia. Secondly, there is an intensive domiciliary care scheme that offers patients and their carers an opportunity to choose the kind of support they receive.

Midwives

Mr. Jim Cunningham: To ask the Secretary of State for Health how many midwives are registered in the West Midlands. [187300]

Dr. Ladyman: This information is not held centrally, but is available directly from the Nursing and Midwifery Council, which is an independent statutory regulatory body.

Ministerial Conference (Care Issues)

Phil Sawford: To ask the Secretary of State for Health what the purposes were of the ministerial conference on 26 to 27 May on care issues; and if he will list those invited to attend. [186153]

Dr. Ladyman: Central Government Departments are required to produce pay and workforce strategies in respect of the public services workforces that they cover. The social care workforce is covered predominantly by three Departments; the Department of Health, the Department for Education and Skills (DfES) and the Office of the Deputy Prime Minister.

The social care workforce conference was organised by the Department of Health to bring together stakeholders in the development of the social care workforce to share knowledge and to reflect on and

inform the revision of the Department's national social care workforce strategy in relation to recruitment, development and rewards.

Over the past year, most parts of the national infrastructure that are accountable for the social care workforce have experienced significant change. In the Department of Health, a major reorganisation has created a new workforce directorate that has joined health and social care workforce development functions into new teams. Children's social care policy has moved to a new children and families directorate in the DfES and new people are engaged in taking forward the proposals in the Green Paper, Every child matters. Key regulatory institutions, the National Care Standards Commission and the Social Services Inspectorate, have merged into the Commission for Social Care Inspection (CSCI). The proposed introduction of a sector skills council is also having an impact on the social care employers infrastructure.

The conference had the dual purpose of providing an early opportunity for the many new people to meet and share perspectives, and then to consider with the Government Ministers with central responsibilities how future strategy should be shaped and partnership managed.

Invitations were sent to the following people:

	Title	*First name*	*Surname*	*Organisation*
1.	Mr	James	Churchill	ARC
2.	Professor	Gillian	Slater	Bournemouth University

MRSA

Andrew Mackinlay: To ask the Secretary of State for Health what guidance he gives to ambulance authorities on *(a)* combating MRSA and *(b)* infection control generally; and what additional resources he plans to make available for this purpose. [184409]

Miss Melanie Johnson: Management action and resources for infection control are matters for individual national health service trusts. Each trust will have an infection control policy which should comply with current best practice and have access to local advice. Healthcare organisations including ambulance trusts should have systems in place to minimise the risk to patients from healthcare associated infections. Health Service Circular 2000/002 required all NHS trusts, including ambulance trusts to take action to strengthen prevention and control of infection, to secure appropriate health care services for patients with infection and improve surveillance of infection. This was reinforced by "Winning Ways—Working together to reduce Hospital Acquired Infection in England".

Andrew Mackinlay: To ask the Secretary of State for Health (1) whether the isolation procedures set down by the Department to combat MRSA and which were operative as at 19 March 1997 are still operative; when the procedures were last brought to the attention of hospitals; and if he will make a statement; [184411]

(2) in what circumstances hospitals are required to provide strict isolation for MRSA sufferers; and if he will make a statement. [184413]

Miss Melanie Johnson: Decisions on isolation are made locally. The guidance issued in 1995 is still in place and we require national health service organisations to regularly assess their needs for isolation facilities. Health Service Circular 2000/002 on the management and control of hospital infection, required trusts to undertake a risk assessment to determine appropriate provision of isolation facilities within each trust.

"Winning Ways—Working together to reduce healthcare associated infection in England", published in December 2003 requires chief executives to ensure that there is appropriate provision of isolation facilities within their healthcare facilities.

Andrew Mackinlay: To ask the Secretary of State for Health whether hospitals are required to destroy bed linen of MRSA sufferers after use; and if he will make a statement. [184412]

Miss Melanie Johnson: The destruction of bed linen is not necessary as methicillin resistant *Staphylococcus aureus* is removed by normal laundering.

Andrew Mackinlay: To ask the Secretary of State for Health what the results were of the national surveillance by 40 hospitals in respect of MRSA announced by the Minister on 19 March 1997; and if he will make a statement. [184414]

Miss Melanie Johnson: The results were used to develop the nosocomial infection national surveillance service, which was a voluntary and confidential reporting system. This surveillance system aimed to help hospitals benchmark their own performance and investigate their own infection rates. It had two module hospital acquired blood stream infections, which has been replaced by the mandatory surveillance system, and surgical site infections. Orthopaedic surgical site infection (SSI) surveillance is now part of the mandatory system and the rest of SSI module was developed into the surgical site infections surveillance system.

Andrew Mackinlay: To ask the Secretary of State for Health what measures he proposes to introduce to tackle MRSA in nursing homes; and if he will make a statement. [184421]

Dr. Ladyman: Implementation of our action plan, "Winning Ways—Working together to reduce Healthcare Associated Infection in England", will reduce infections in both hospital and community settings. This report will raise standards by reinforcing the need to follow existing good practice, such as the

public health medicine environmental group guidelines on the control of infection in residential and nursing homes, published in 1996 and the National Institute for Clinical Excellence guidance, "Infection control; prevention of healthcare associated infection in primary and community care", published in 2003. In addition, we have asked the public health medicine and environmental group to update the existing guidance on infection control in nursing homes.

Nappies

Mr. Burstow: To ask the Secretary of State for Health whether the Department has received a written request from the Nappy Alliance seeking a meeting to discuss policy and practice in the use of nappies within NHS facilities. [178246]

Dr. Ladyman *[pursuant to his reply, 21 June 2004, Official Report, column 1279W]:* I regret that my previous reply was incorrect. It should read as follows:

The Department of Health received a written request from the Nappy Alliance for a meeting in a letter dated 6 May 2004.

NHS Agency Staff

Mr. Tony Clarke: To ask the Secretary of State for Health how much money was spent by the NHS on agency staff in Northampton south in each year since 1997. [186519]

Dr. Ladyman: The information for the national health service organisations serving the Northampton south area is shown in the following table.

Expenditure on total non NHS staff: 1997–98 to 2002–03 (£)

Trust name	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*

NHS Commercial Activity

Norman Baker: To ask the Secretary of State for Health if he will *(a)* take steps to prevent the distribution within NHS hospitals of Bounty packs to mothers of newly-born children and *(b)* undertake an assessment of the environmental sustainability of the products contained in Bounty packs. [186180]

Dr. Ladyman: There are no plans to take steps to prevent the distribution of Bounty packs within National Health Service hospitals and no plans to undertake an assessment of the environmental sustainability of the products contained in the packs.

NHS Dentistry

Mr. Dhanda: To ask the Secretary of State for Health (1) if he will make a statement on the progress of the NHS dentistry support team's work with primary care trusts in Gloucestershire; [186311]

(2) if he will make a statement on the progress of the action plan to establish new dental practices in Gloucestershire. [186312]

Ms Rosie Winterton: The national health service dentistry support team is working with West Gloucestershire Primary Care Trust (PCT). The PCT's dental action plan has been endorsed by the support team and will be published following the PCT's board meeting on 16 September.

Additional recurrent funding of £400,000 has been allocated by the support team to the PCT to support the developments contained in its action plan.

Mr. Love: To ask the Secretary of State for Health how many dental practices are offering NHS dental services in the London borough of Enfield; and what efforts are being made to increase their availability. [187004]

Mr. Hutton: Data for numbers of dentists accepting new patients are not collected by London borough.

The available information on practises accepting new patients is on the nhs.uk website at www.nhs.uk. The table shows the number of dentists in Enfield Primary Care Trust (PCT) accepting new patients.

Number of dental practices in Enfield PCT accepting new national health service patients by type of patient as at 27 July 2004

Service	*Accepting new patients*	*Total number of practices*
		51
Providing occasional NHS treatment to non registered patients	4	—
Registering charge exempt adults for NHS treatment	21	—
Registering charge paying adults for NHS treatment	22	—
Registering children aged 0–18 years for NHS treatment	30	—

Note:
Enfield PCT (as part of North Central London) has the highest general dental practitioner per 1,000 population ratio in the United Kingdom (=0.5).

Enfield PCT recognises that practices are not always located in the areas of greatest need. As part of developing its commissioning strategy for dentistry, the PCT will look to increase the number of personal dental services in Enfield in 2004–05 and has already put aside space for a dental practice at the local investment finance trust Forest Road Primary Care Centre, Edmonton, in February 2006.

Bob Russell: To ask the Secretary of State for Health how many dentists in the Colchester constituency provide NHS treatment; how many provided NHS treatment in 1997; and if he will make a statement. [186979]

Dr. Ladyman: Information is not collected by parliamentary constituency. However, there were 82 dentists providing National Health Service treatment in the Colchester Primary Care Trust area, which includes the Colchester constituency, in September 2003, the latest data available. In September 1997, there were 72 dentists. These numbers cover dentists working in the general dental service or personal dental service.

Mr. Ruffley: To ask the Secretary of State for Health what percentage of NHS dentists in the Bury St. Edmunds constituency are registering new NHS patients. [187202]

Dr. Ladyman: This information is not collected by Parliamentary constituency. However, there are 34 national health service dental practices in the Suffolk West Primary Care Trust area, which covers the Bury St. Edmunds constituency. Of these, 12, or 35.3 per cent., of the total, are registering children, eight, or 23.5 per cent., are registering charge exempt adults and six, or 17.6 per cent., are registering charge paying adults. In addition, one practice is providing occasional NHS treatment for non registered patients.

Source:
NHS.UK website.

Mr. Ruffley: To ask the Secretary of State for Health how many dentists have applied to become NHS dentists in each year since 2000 in Suffolk. [187206]

Dr. Ladyman: The number of entrants into national health service dentistry in each year since 2000 in Suffolk primary care trusts (PCTs) are shown in the table.

	2000	2001	2002	2003
Central Suffolk PCT area[1]	5	3	3	3
Suffolk Coastal PCT area[2]	3	1	1	2
Suffolk West PCT area[3]	8	14	16	10

[1] Figures for Central Suffolk are based on general dental service (GDS) contracts only. There are no personal dental service (PDS) dentists in this PCT area.
[2] Figures for Suffolk Coastal are based on GDS contracts only. There are no PDS dentists in this PCT area.
[3] Figures are based on GDS and PDS contracts.

NHS Denturists

Dr. Pugh: To ask the Secretary of State for Health what plans the Department has to review the role of denturists within the NHS; and if he will make a statement. [187228]

Ms Rosie Winterton: The practice of denturism is currently illegal in the United Kingdom, but the Department is working with the General Dental Council (GDC) to provide for the registration of appropriately trained clinical dental technicians (CDTs). On 30 July we issued for consultation a draft of an Order which, with other amendments to the Dentists Act 1984 to modernise the regulation of dentistry, would give the GDC the necessary powers. Comments on the draft are requested by 30 October and it will subsequently be laid before Parliament for debate under the affirmative procedure. Subject to approval, we expect the Order to come into force during 2005.

NHS Staff Vacancies

Mr. Tony Clarke: To ask the Secretary of State for Health how many staff vacancies there were on average in the NHS in Northampton in each year since 1997. [186520]

Dr. Ladyman: The information requested is shown in the table.

Department of Health Vacancies Survey, 1999–2004

Northamptonshire HA (1999–2001) and Leicestershire, Northamptonshire and Rutland SHA (2002–04)	1999		2000		2001

GP information:
[1] 2000 data not available.
[2] In 2002, one HA in Leicestershire, Northamptonshire and Rutland did not respond to the survey.
[3] Vacancy numbers for Northamptonshire PCTs.
Note:
No figures for PCTs are available before 2003 as previous years vacancy numbers were collected from health authorities. Vacancy numbers for each year refer to the number of vacancies occurring in the 12 month period between 1 April and 31 March.

Northampton General Hospital

Mr. Tony Clarke: To ask the Secretary of State for Health how many *(a)* doctors, *(b)* nurses and *(c)* support staff were employed by Northampton General Hospital, in each of the last 10 years. [186590]

Dr. Ladyman: The information requested is shown in the table.

Hospital, public health medicine and community health services (HCHS): medical and dental staff, and non-medical within Northampton General Hospital NHS Trust

Number (headcount)

	As at 30 September each year									
	1994	*1995*	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*

Nurses

Keith Vaz: To ask the Secretary of State for Health how many overseas nurses are employed in the University Hospital of Leicester. [186625]

Dr. Ladyman: This information is not collected centrally.

Mr. Liddell-Grainger: To ask the Secretary of State for Health how many modern matrons have been appointed in the NHS since the NHS Plan was introduced; and if he will make a statement. [186665]

Mr. Hutton: The latest figures, taken from local development plan returns from trusts, indicate that, as at December 2003, there were 3,200 modern matrons employed in the national health service.

Sandra Gidley: To ask the Secretary of State for Health whether community matrons will take precedence over senior district nurses in the general recruitment process. [187166]

Mr. Hutton: It is for local national health service trusts to determine their local work force priorities and to recruit staff according to local need and national priorities. The Government has increased the number of nurses working in the NHS by 77,500 since 1997, which includes an increase of 25 per cent. in community service nurses.

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the impact on current staffing levels of his aim to recruit 3,000 community matrons. [187167]

Mr. Hutton: It is expected that nurses with the skills and knowledge to take on the role of community matron will be recruited from a range of community, hospital and intermediate care settings, in particular district nursing. The introduction of community matrons will mean staffing working differently and more effectively and may not always require additional nursing staff.

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the impact of community matrons on staffing levels of social care professionals. [187339]

Mr. Hutton: In order to deliver benefits for patients, community matrons will need to be able to assess patients medical, psychological and social care needs. This combination of skills is largely found in experienced nurses, rather than social care professionals. It is expected that social care professionals will form part of the multi-professional team that community matrons will work within.

Out-patient Access Targets

Mr. Anthony D. Wright: To ask the Secretary of State for Health what assessment he has made of the performance of health authorities in Great Yarmouth in meeting out-patient access targets since 1997. [186714]

Dr. Ladyman: Norfolk, Suffolk and Cambridgeshire Strategic Health Authority's (which covers the health economies of Great Yarmouth) performance on meeting out-patient access targets are shown in the table. The figures for 1997 are not available.

Number of people waiting for out-patient treatment; over 13 and over 17 weeks

March:	*Over 13 weeks*	*Over 17 weeks*
1998	17,859	n/a
1999	21,517	n/a
2000	19,183	n/a
2001	15,429	n/a
2002	10,797	n/a
2003	5,366	1,685
2004	2,556	0

Notes:
1. Data prior to September 2001 have been converted to match current strategic health authority boundaries.
2. Target: achieve a maximum wait of four months (17 weeks) for an out-patient appointment and reduce the number of over 13-week out-patient waiters by March 2004, as progress towards achieving a maximum wait of three months for an out-patient appointment by March 2005.
Source:
Care and health information portfolio factsheet.

Patient Environment and Assessment Team

Mr. Norman: To ask the Secretary of State for Health how many hospitals were *(a)* put on special measures and *(b)* offered additional support following inspection by a Patient Environment and Assessment Team (PEAT) in each year since inspections began; and what the overall (i) PEAT score and (ii) star rating were in each case. [185333]

Mr. Hutton: Since 2000, assessments of hospital cleanliness have been undertaken by patient environment action teams (PEATs). Following these assessments hospitals are allocated a rating on a 'traffic-light' scale—Red equals poor, Amber equals acceptable and Green equals good. Since August 2001, PEATs have confirmed that there are no hospitals where overall standards are less than acceptable.

However, following the PEAT assessments in 2002, some hospitals were identified where, although overall acceptable levels had been achieved, it was felt that there were grounds for additional support to be provided to ensure that standards were maintained and any shortfalls identified remedied. This was also the case in 2003.

In 2002, 51 hospitals were identified where such support was been deemed appropriate and in 2003 this number was 111. The PEAT rating for all of these hospitals was 'Amber'.

The star rating process is applied to the aggregate performance of a trust, whereas the PEAT rating is applied to each hospital within a trust and it is therefore possible that a trust with an overall good star rating may have an individual site where cleanliness standards are a cause for concern.

PFI/PPP Contracts

Matthew Taylor: To ask the Secretary of State for Health how many contracts have been let by his Department in each financial year since 2001–02 to *(a)* PricewaterhouseCoopers, *(b)* Deloitte and Touche, *(c)* KPMG and *(d)* Ernst and Young for advising his Department on private finance initiative and public private partnership contracts; and what fees were paid in each case. [182266]

Mr. Hutton: The table shows details of the number of contracts and fees paid to PricewaterhouseCoopers, Deloitte and Touche, KPMG and Ernst and Young since 2001–02 by the Department for advising on the private finance initiative and public private partnership contracts.

	PwC	Deloitte and Touche	KPMG	Ernst and Young
2001–02				
Number of contracts	1	0	2	[1]
Fees (£)	23,818	—	25,000 25,000	[1]
2002–03				
Number of contracts	0	3	0	[1]
Fees (£)	—	50,529 20,623 [2]21,803	0	[1]
2003–04				
Number of contracts	0	2	1	[1]
Fees (£)	—	189,772 71,557	58,321	[1]
2004–05				
Number of contracts	0	0	1	[1]
Fees (£)	—	—	17,500	[1]

[1] No contracts awarded.
[2] Sub-contracted to Davis Langdon Everest.

Matthew Taylor: To ask the Secretary of State for Health how many contracts and what fees *(a)* Barclays, *(b)* the Royal Bank of Scotland, *(c)* UBS Warburg and *(d)* the Bank of Scotland received for advising his Department on private finance initiative and public private partnership contracts in each financial year since 2001–02. [186674]

Mr. Hutton: No contracts have been awarded to any of the companies listed in the question.

Press Officers

Matthew Taylor: To ask the Secretary of State for Health how many press officers are employed in his Department. [187159]

Ms Rosie Winterton: There are 21 press officers presently employed in the Department.

Radioactivity (Public Health)

Mr. Meacher: To ask the Secretary of State for Health if he will commission a study of cancer incidence in North Essex. [183975]

Dr. Ladyman: We have no current plans to commission a study of cancer incidence in North Essex. Indeed, in line with the "NHS Plan" and the "Shifting the Balance of Power" initiative to devolve funding decisions to the front line, it is now for primary care trusts, in partnership with strategic health authorities and other local stakeholders, to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services, based on the specialised knowledge they have of the local community.

Recruitment Consultants

Tim Loughton: To ask the Secretary of State for Health how much his Department spent in *(a)* 1996–97 and *(b)* the last year for which figures are available on (i) head-hunters and recruitment consultants, (ii) management consultants, (iii) advertising consultants and (iv) public relations consultants. [184534]

Ms Rosie Winterton *[holding answer 16 July 2004]*: The detailed information requested is not held centrally. Expenditure by the Department on external consultancy services in each year from 1996–97 to 2003–04 is shown in the table.

Financial Year	Expenditure (£ million)
1996–97	14.699
1997–98	12.694
1998–99	7.332
1999–2000	8.132
2000–01	6.531
2002–02	6.800
2002–03	7.266
2003–04	[1]10.951

[1] This is the latest figure included in the accounts, but the accounts have yet to be authorised.

Rheumatoid Arthritis

Mr. Amess: To ask the Secretary of State for Health whether the Medical Research Council has identified

rheumatoid arthritis as a priority area; and how much of its resources are going into *(a)* research programmes and *(b)* projects related to this disease. [186279]

Ms Hewitt: I have been asked to reply.

Arthritis and rheumatism is one of 12 disease specific research divisions of the Medical Research Council (MRC).

The MRC spent £6.8 million in the FY 2002–03, on research into arthritis and rheumatism and much of this will be relevant to rheumatoid arthritis.

Mr. Amess: To ask the Secretary of State for Health whether the Government supports the inclusion of rheumatoid arthritis as a priority of research area in the next EU framework programme. [186284]

Dr. Ladyman: The Government has recently consulted on the European Union seventh research and development framework programme. Details are available on the Office of Science and Technology (OST) website at http://www.ost.gov.uk/ostinternational/fp7/index.html. Initial feedback will be published on the OST website shortly.

The Government plans to produce a position paper on the seventh framework programme in early Autumn 2004. That paper will also be published on the OST website.

Scoliosis

Mr. Edwards: To ask the Secretary of State for Health if he will make a statement on the incidence of scoliosis among teenagers; and what steps are being taken to develop appropriate treatment of the condition. [185280]

Dr. Ladyman: Scoliosis is a descriptive term rather than a specific diagnosis, which can be wide-ranging from simple to very complex conditions. Information is not collected centrally by the Department on the incidence of all types of scoliosis. However, it has been estimated that idiopathic adolescent scoliosis, which is one of the accepted classifications in which scoliosis can be the only finding, has an incidence of two per thousand children.

A range of services for the treatment of scoliosis is available across the country, including spinal corrective surgery for children. A review of services for children with spinal deformity, including scoliosis, is being undertaken by a project group with wide stakeholder representation. The group, led by the North Central London Strategic Health Authority, produced its first report in May 2004 and is looking to take recommendations forward.

Suffolk West Primary Care Trust

Mr. Ruffley: To ask the Secretary of State for Health what the current deficit is of Suffolk West Primary Care Trust; and what it has been in each of the last three years. [187198]

Dr. Ladyman: Suffolk West Primary Care Trust (PCT) overspend against the revenue resource limit (deficit) is shown as follows. It is not possible to provide a separate figure for 2001–02 as the PCT was then part of Suffolk health authority.

	£000
Financial position at year end 2002–03	1,581
Financial position for year end 2003–04	4,423

Source:
Audited summarisation schedules of the Suffolk West PCT.

Suffolk West PCT is forecasting to break even at year end 2005.

The audited information in respect of the 2004–05 financial position of all PCTs will be published in their individual annual accounts and will be available centrally in autumn 2005.

Vancomycin Resistant Staphylococcus Aureus

Mr. Lansley: To ask the Secretary of State for Health (1) what preventative measures his Department has taken against the threat of vancomycin resistant *staphylococcus aureus* to the NHS; [184324]

(2) what research his Government have conducted into the treatment against vancomycin resistant *staphylococcus aureus;* [184325]

(3) what contingency plans he has in place to control the spread of vancomycin resistant *staphylococcus aureus* in NHS hospitals. [184327]

Miss Melanie Johnson *[holding answer 15 July 2004]:* Minimising the development and spread of new strains such as vancomycin resistant *staphylococcus aureus* (VRSA) requires prudent prescribing of antibiotics as well as strict adherence to infection control measures. These measures are part of our action plan, "Winning Ways—Working Together to Reduce Healthcare Associated Infection in England".

We are aware of three incidents of VRSA infection worldwide to date and all were susceptible to some alternative antibiotics. Hospital microbiology laboratories carry out sensitivity tests on their isolates and the health protection agency monitors isolates of *staphylococcus aureus* for vancomycin resistance to detect any new cases of VRSA and to ensure that these very rare microorganisms are not becoming more commonplace.

Vulnerable Adults

Sandra Gidley: To ask the Secretary of State for Health when he expects to extend the protection of vulnerable adults list to *(a)* the NHS and *(b)* day care services; and if he will make a statement. [187071]

Dr. Ladyman: The protection of vulnerable adults (PoVA) list will be extended to the national health service as soon as the necessary changes can be made to the Care Standards Act 2000.

Day care services do not fall within the scope of the PoVA scheme. This is because they are not regulated under the Care Standards Act 2000.

Sandra Gidley: To ask the Secretary of State for Health whom he has consulted on the extension of the protection of vulnerable adults list to the NHS. [187079]

Dr. Ladyman: The consultation process on extending the protection of vulnerable adults scheme to the national health service has not yet begun. We intend to go out to consultation in the near future, but we also

need to ensure that the proposals are consistent with the proposals for barring unsuitable people from working with children and vulnerable adults emerging from the Bichard Inquiry.

Waiting Lists

Mr. Tony Clarke: To ask the Secretary of State for Health how many patients in the Northampton, South constituency, or the nearest relevant unit of population were waiting for NHS operations for longer than *(a)* 18 months, *(b)* 15 months, *(c)* 12 months, *(d)* nine months and *(e)* six months in each of the last 10 years. [186578]

Dr. Ladyman: The information requested is shown in the table.

Patients waiting for elective admission: Provider based

Month end/Organisation	*Total number of patients waiting for admission*	*Patients waiting for admission by months waiting*				
		6–8 months	*9–11 months*	*12–14 months*	*15–17 months*	*Over 18 months*

		6–8 months	*9–11 months*	*Over 12 months*
Daventry and South Northamptonshire PCT	19	0	0	0
Kettering General Hospital NHS Trust	4,420	467	0	0
Northampton General Hospital NHS Trust	5,625	804	0	0

Mr Anthony D. Wright: To ask the Secretary of State for Health what the average number of patients on *(a)* in-patient and *(b)* day case waiting lists was in Great Yarmouth in each year since 1997; and what the percentage change was in each year. [186699]

Dr. Ladyman: The average number of patients for Great Yarmouth Primary Care Trust (PCT) for in-patient and day case waiting lists, the latest data available, is shown in the table.

Count of elective in-year admissions (waiting list and booked cases) and percentage changes for ordinary and day cases, 1996–97 to 2002–03, PCT code (PCT of residence) = 5GT (Great Yarmouth) National Health Service Hospitals, England

Year	In-year admissions ordinary	Change (ordinary) percentage	In-year admissions (day case)	Change (day case) percentage	In year admissions (ordinary plus day case)	Change (ordinary plus day case) percentage
1996–97	4,737		5,434		10,171	
1997–98	4,339	−8.4	5,594	2.9	9,933	−2.3
1998–99	3,912	−9.8	6,368	13.8	10,280	3.5
1999–2000	3,505	−10.4	6,287	−1.3	9,792	−4.7
2000–01	3,389	−3.3	6,174	−1.8	9,563	−2.3
2001–02	3,049	−10.0	4,452	−27.9	7,501	−21.6
2002–03	3,328	9.2	4,883	9.7	8,211	9.5

Notes:
1. An in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the datayear. Periods of care ongoing at the end of the datayear (unfinished admission episodes) are included. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Source:
Hospital episode statistics (HES), Department of Health.

West Suffolk Hospitals NHS Trust

Mr. Ruffley: To ask the Secretary of State for Health how many cancelled operations there were in each of the last seven years in the West Suffolk Hospitals NHS Trust. [187200]

Dr. Ladyman: The number of cancelled operations at the West Suffolk Hospital is shown in the table. However, it should be noted that the figures quoted at trust level only go back three years. Prior to that, the data was collected at health authority (HA) level only and they would not be comparable.

West Suffolk Hospitals National Health Service Trust—Number of cancelled operations for non clinical reasons

Quarter	Number of last minute cancellations for non clinical—reasons in the quarter
2003–04 4	183
2003–04 3	124
2003–04 2	78
2003–04 1	40
2002–03 4	43
2002–03 3	11
2002–03 2	74
2002–03 1	66
2001–02 4	145
2001–02 3	122
2001–02 2	14
2001–02 1	81

Note:
Data prior to 2001–02 collect at HA level only.

Department of Health dataset QMCO.

Winter Deaths

Sandra Gidley: To ask the Secretary of State for Health what plans he has to introduce targets to reduce the number of winter deaths. [186798]

Ms Rosie Winterton: There are no plans to introduce additional targets specifically to reduce the number of winter deaths. The Government are committed to decreasing the number of national targets imposed on the national health service and allowing more locally agreed targets. The document, "National Standards, Local action: Health and Social Care Standards and Planning Framework 2005–06 to 2007–08", published on 21 July 2004, has already set out the national targets for the next five years.

However, there is an existing target to tackle influenza, one of the biggest seasonal killers. A target for influenza vaccination in those aged 65 and over has been set since 2000–01. In 2003–04, the target was that nationally over 70 per cent. of that age group would be vaccinated, and thanks to last year's successful 'flu immunisation campaign, this was exceeded, with 71 per cent. of those aged 65 or over being vaccinated. The 70 per cent. take-up target remains this year.

In addition to the 'flu target, the Government have several other initiatives to reduce avoidable winter deaths. These include the "Keep Warm, Keep Well" campaign, which offers people advice on staying warm and keeping well in winter and winter fuel payments for older people, which help to keep warm those most susceptible to the cold weather.

Working Time Directive

Mr. Norman: To ask the Secretary of State for Health (1) how many *(a)* house officers, *(b)* senior house officers, *(c)* specialist registrars, *(d)* general practitioners, *(e)* consultants, *(f)* associate specialists, *(g)* staff grades and *(h)* clinical assistants have signed a formal opt-out from the Working Time Directive; [186362]

(2) how many *(a)* primary care trusts, *(b)* acute hospital trusts and *(c)* social care trusts have medical staff who have signed a formal opt-out from the Working Time Directive. [186365]

Mr. Hutton: The Working Time Directive is a legal requirement on which implementation is being taken forward locally.

Under Regulation 5 of the Working Time Regulations 1998, individuals are allowed to voluntarily agree in writing with their employer to exceed the maximum average weekly working time of 48 hours. As this is an agreement made locally, information on take-up is not held centrally.

Mr. Norman: To ask the Secretary of State for Health (1) what evidence he has collated following the results from the Working Time Directive Pilots Programme on whether the NHS will be compliant with the European Working Time Directive on 1 August; [186363]

(2) what recent representations he has received on the ability of *(a)* anaesthetic, *(b)* maternity, *(c)* paediatric, *(d)* general surgical and *(e)* general medical services to comply with the European Working Time Directive. [186364]

Mr. Hutton: Strategic health authorities are responsible for performance managing trust implementation of Working Time Directive (WTD) compliance for doctors in training from 1 August 2004. The Working Time Regulations have applied to all other national health service staff since 1998 and trusts are expected to comply with them in the same way as any other national legislation. The Department does not routinely collect information on compliance either by trust or by specialty.

The vast majority of trusts are now fully compliant. A handful of trusts are having problems in securing compliance in a limited number of specialties.

We are working in partnership with the British Medical Association, the Royal Colleges and the Modernisation Agency to support those trusts finding compliance particularly difficult. The Modernisation Agency WTD team offers expert advice and the sharing of good practice solutions throughout the NHS.

WORK AND PENSIONS

Savings Incentives

Mr. Liddell-Grainger: To ask the Secretary of State for Work and Pensions what assessment he has made of the number of people eligible for means-tested benefits on incentives to save. [186546]

Malcolm Wicks: In its response last year to the Work and Pensions Select Committee's Third Report on The Future of UK Pensions, the Government recognised that it is important to improve our understanding of savings decisions and how savings incentives work.

Eligibility for income related benefits is one of many factors likely to influence incentives to save. However these are complex questions and we want to engage with academic and other experts on how best to assess the influences on savings behaviour. The Government has established the independent Pensions Commission to monitor and keep under review the voluntary system of private pensions and long term savings.

Benefit Recipients

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many people who receive *(a)* income support and *(b)* pension credit also pay income tax; and what proportion this is of recipients of each benefit. [187346]

Mr. Pond: The information is not available.

Christmas Bonus

Sandra Gidley: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of increasing the pensioners' annual Christmas bonus to the equivalent of one week's state pension. [186567]

Malcolm Wicks: The cost of increasing the annual Christmas bonus to the equivalent of one week's state pension in 2005–06 is estimated at £1.0 billion.

Notes:
1. Figures are in 2004–05 price terms rounded to the nearest £100 million.
2. The bonus is assumed to be paid at the full category A weekly rate of basic state pension, currently £79.60.
3. The Christmas bonus is currently paid to people in receipt of a number of qualifying benefits, some of whom are of working age. These people are assumed to receive the Christmas bonus at the new rate.

Council Tax Benefit

Mr. Liddell-Grainger: To ask the Secretary of State for Work and Pensions how many people in the Bridgwater constituency *(a)* are entitled to council tax benefit and *(b)* do not claim the council tax benefit to which they are entitled. [186500]

Mr. Pond: The information is not available in the format requested. Statistics for Great Britain are presented in the DWP series "Income Related Benefits Estimates of Take-Up". The latest estimates relate to financial year 2001–02 and are in the Library.

DLA

Sandra Gidley: To ask the Secretary of State for Work and Pensions what plans he has to change the levels of disability living allowance payable to pensioners. [186459]

Maria Eagle: The rates at which disability living allowance is paid are increased in April each year by the rate of inflation as measured by the movement in the Retail Price Index. The Government have no plans to change this arrangement.

Mr. Tony Clarke: To ask the Secretary of State for Work and Pensions how many applications for disability living allowance were initially *(a)* granted and *(b)* refused in the last year within the constituency of Northampton South. [186583]

Maria Eagle: The number of applications for Disability Living Allowance that were initially granted in the last year in the Parliamentary Constituency of Northampton South is 400[1] The number of refusals is not available, as these are held as a national figure only.

Notes:
1. Figures less than 500 are subject to a high degree of sampling variation.
2. Figures taken from a 5 per cent., sample at 29 February 2004
3. Figures are rounded to the nearest hundred.
4. From November 2002, the methodology for producing these figures was changed to allow statistics to be published much sooner. This has resulted in a small increase in the reported caseload. This is because some cases which have actually terminated but have not yet been updated on the computer system are now included.

Source:
IAD Information Centre.

Employers' Liability Insurance

Mr. Lidington: To ask the Secretary of State for Work and Pensions if he will make it his policy to require companies to be registered for employers' liability compulsory insurance. [187185]

Jane Kennedy: The Department will assess the costs and benefits of registering employers on an ELCI database by autumn 2004. This is part of our work to consider how best to tackle the small number of employers who do not have Employers' Liability Compulsory Insurance (ELCI) cover, and how best to help claimants trace employers' ELCI insurance policies.

Mr. Lidington: To ask the Secretary of State for Work and Pensions what assessment he has made of *(a)* the extent of evasion of employers' liability compulsory insurance within the construction and roofing industries and *(b)* the impact of such evasion on (i) the health and safety of workers and (ii) the profitability of insured employers. [187186]

Jane Kennedy: There are no figures available to show compliance with the Employers' Liability Compulsory Insurance (ELCI) Act 1969 solely within the construction and roofing industries.

The Health and Safety Executive (HSE) carried out a survey of compliance with ELCI in the autumn of 2003. That survey included small, medium and large firms across all sectors in England, Scotland and Wales and concluded that ELCI compliance was high—nearly 99.5 per cent. of those employers surveyed were ELCI compliant.

The provision of ELCI does not, of itself, impact on the health and safety of workers. ELCI merely ensures that there is some money available to compensate a person who successfully claims against their employer in the event of an injury or ill health arising out of their employment.

The survey found that the most commonly sited response to the increased cost of ELCI has been to "try and improve health and safety performance" (50 per cent. of respondents). In the context of our work to promote a risk-based approach to the setting of ELCI premiums, better Health and Safety performance will enable insurers to better reflect good Health and Safety practices in the terms they can offer.

Mr. Lidington: To ask the Secretary of State for Work and Pensions when he intends to implement the recommendations of his Department's second report on employers' liability compulsory insurance. [187187]

Jane Kennedy: The Department for Work and Pensions, working with stakeholders, has made good progress towards delivering all the recommendations in the Second Stage Report.

Recommendations still to be fully implemented are the Framework for Vocational Rehabilitation, the Health and Safety Executive Management Performance Index for small businesses, and the Claims Pilots to make claims processes more cost effective, quicker and transparent. All of these will be launched by the autumn 2004.

Jobcentre Plus

Mr. Willetts: To ask the Secretary of State for Work and Pensions what the cost has been of creating Jobcentre Plus offices in each year since 2001–02; and what the estimated costs are for each year to 2007–08. [187347]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive.

Letter from David Anderson to Mr. David Willetts, dated 7 September 2004:

The Secretary of State has asked me to reply to your question concerning the costs of creating Jobcentre Plus offices in each year since 2001/02 and what the estimated costs are for each year to 2007/08. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The creation of Jobcentre Plus offices was organised in two separate phases. The rollout did not start until 2002/03. The 56 offices introduced in 2001/02 were known as Pathfinders and were not accounted for as part of the main roll out project. The capital cost of these Pathfinders in 2001/02 was £36.7m.

From 2002/03 the Jobcentre Plus Implementation Project was set up to roll out the remaining offices nationwide. This is a 4-year programme from 2002/03 to 2005/06. The breakdown of the total costs is as follows:

	Total	
	£ million	*Percentage*
Total Staffing	674	30
Total Running Costs	652	29
Total Capital	903	41
Total Rollout Programme	2229	100

The total project spend to date, including accruals, is £817m. The annual costs of rolling out the offices are shown below.

£ million

	Actual		*Forecast outturn*		*Rollout Programme Total*
	2002–03	*2003–04*	*2004–05*	*2005–06*	
Capital Costs	111	251	195	346	903
Staffing/Running Costs	149	200	381	596	1326
Cumulative Total	260	711	1287	2229	—

The Jobcentre Plus Implementation project is due to be completed in March 2006. The project has now rolled out over 500 offices and remains within budget.

I hope this is helpful.

New Deal

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many people have entered self-employment as a result of participating in each New Deal scheme in each year since 1997–98. [186779]

Jane Kennedy: The information is not available.

Information on numbers of people entering the New Deal self employment option through New Deal for Young People and New Deal 25 plus, and those receiving the New Deal 50 plus Employment Credit whilst being self employed is in the table. Information on Self Employment starts from the other New Deals is not available.

New Deal

	New Deal[1] for Young People	*New Deal[2] 25 plus*	*New Deal[3]–50 plus*
1998–99	780	—	—
1999–2000	1,540	—	—
2000–01	1,350	—	4,040
2001–02	980	3,470	4,120
2002–03	1,080	3,870	4,040
2003–04	1,140	2,290	—
Total	6,870	9,630	12,190

Notes:

1. Information is only available from 1998 onwards.
2. Information is only available from 2001 onwards.
3. Information is only available from 2000 onwards
4. Information is for April to March each year.
5. All data is to March 2004 except New Deal 50 plus which is to March 2003.
6. All figures are rounded to the nearest 10 and totals may not sum due to rounding.

Source:

New Deal Evaluation Database, DWP Information and Analysis Directorate

New Deal and Employment Zones

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how many people are employed *(a)* in his Department and *(b)* in Jobcentre Plus in administering each of the (i) New Deal programmes and (ii) Employment Zones. [186427]

Jane Kennedy: The information requested is not available.

The Department for Work and Pensions, including Jobcentre Plus, keeps staffing records by grade and location, but not by job role.

Pensioners

Mr. Tony Clarke: To ask the Secretary of State for Work and Pensions how many pensioners are *(a)* eligible for and *(b)* claiming the pension credit in Northampton South. [186464]

Malcolm Wicks: Information on the number of people likely to be eligible for Pension Credit is not available at constituency level. However, we estimate that approximately 250,000 households in the East Midlands region, corresponding to approximately 350,000 individuals (rounded to the nearest 50,000), are likely to be eligible for Pension Credit in 2004–05. At the end of July, 3,885 pensioner households in Northampton South, comprising 4,655 individuals (rounded to the nearest five), were in receipt of Pension Credit. The corresponding figures for the East Midlands region at the same date were 185,305 households and 227,800 individuals in receipt of Pension Credit.

Mr. Liddell-Grainger: To ask the Secretary of State for Work and Pensions how many pensioners in Bridgwater *(a)* are entitled to pension credit, *(b)* are in receipt of pension credit and *(c)* were receiving the minimum income guarantee prior to the introduction of pension credit. [186507]

Malcolm Wicks: Information on the number of people likely to be eligible for pension credit is not available at constituency level. However, we estimate that approximately 300,000 households in the South West region, corresponding to approximately 400,000 individuals (rounded to the nearest 50,000), are likely to be eligible for pension credit in 2004–05. At the end of July, 214,425 pensioner households in the South West region, comprising approximately 261,835 individuals, were in receipt of pension credit. Information on the number of pension credit and minimum income guarantee (MIG) recipients in Bridgewater is given in the table.

Pension credit and MIG recipients in Bridgewater

	Recipients of MIG, 3 October 2003	*Recipients of pension credit, 31 July 2004*
Households	3,025	4,550
Individuals	3,655	5,655

Notes:

1. Figures are rounded to the nearest five.
2. Individual recipients include a small number of partners under age 60.
3. Pension credit was introduced on 6 October 2003.

Mr. Willetts: To ask the Secretary of State for Work and Pensions pursuant to the answer of 3 February 2004, *Official Report*, columns 833–34W, on pension credit, if he will provide the same breakdown of calls to the pension credit application line for subsequent months. [186852]

Malcolm Wicks: The available information is shown in the table.

Calls to pension credit application line, January–July 2004

	Calls received by application line	*Calls receiving engaged tone or recorded message*	*Calls answered within 30 seconds*	*Average call duration (minutes: seconds)*
January	495,560	120	429,670	08:12
February	433,790	190	372,930	08:34
March	430,070	230	378,440	08:38
April	346,890	13,560	250,970	09:18
May	234,580	20	212,570	08:48
June	315,200	20	266,040	07:20
July	239,990	30	212,390	07:22

Notes:

1. Numbers of calls are rounded to the nearest 10.
2. The number of calls receiving the engaged tone or a recorded message was unusually high in April due to reduced numbers of staff as a result of industrial action. The number of lines feeding into the application line from the network was reduced to avoid people having to wait for a long time for an answer (instead they received a recorded message).
3. The number of calls received is a measure of the total number of calls from customers made to the application line number 0800 99 1234. The number of calls answered within 30 seconds is a measure of all calls answered in application line sites and excludes any calls abandoned by the customer.

Mr. Willetts: To ask the Secretary of State for Work and Pensions what his latest projections are for expenditure on all benefits to pensioners, broken down by benefit, up to 2053–54 *(a)* as a percentage of GDP and *(b)* in £ billion at 2004–05 prices. [187358]

Malcolm Wicks: The information has been placed in the Library.

Mr. Willetts: To ask the Secretary of State for Work and Pensions what the average pensioner income was in *(a)* cash terms and *(b)* real terms in (i) 2001–02, (ii) 2002–03 and (iii) 2003–04, broken down by (A) state benefits and (B) private savings. [187356]

Malcolm Wicks: The information is in the tables. Information for 2003–04 is currently unavailable.

Average pensioner income in cash terms

Income source	*2001–02*	*2002–03*
State benefits	136	142
Private saving	105	106
Earnings	24	25
Average pensioner income	268	277

Average pensioner income in real terms

Income source	*2001–02*	*2002–03*
State benefits	139	142
Private saving	107	106
Earnings	25	25
Average pensioner income	273	277

Source:
Family Resources Surveys 2001–02 and 2002–03, average incomes rounded to the nearest pound.

Income from state benefits includes: state pensions; income-related benefits; and disability benefits. Income from private saving includes: occupational pensions; personal pensions; and investments.

Sandra Gidley: To ask the Secretary of State for Work and Pensions what plans he has to change the state pensions of expatriates living in countries not covered by reciprocal social security agreements with the UK. [186564]

Malcolm Wicks: We up-rate state pensions for British citizens living overseas where there is a legal requirement or a reciprocal social security agreement to do so.

However, the up-dating of State Pensions outside this arrangement is the subject of an appeal to the House of Lords from a decision of the Court of Appeal which found in favour of the Government. We will respond accordingly at the hearing which is set for 28 February and 1 March next year.

Sandra Gidley: To ask the Secretary of State for Work and Pensions what plans he has to change the rules allowing for the state pension to be reduced after 52 weeks in hospital. [186565]

Malcolm Wicks: We have no plans at present to change these rules.

Sandra Gidley: To ask the Secretary of State for Work and Pensions what plans he has to change the level of a surviving partner's entitlement to the state earnings-related pension scheme. [186572]

Malcolm Wicks: We have no plans to alter the current arrangements.

Sandra Gidley: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of increasing the 25p a week age addition to £25. [186573]

Malcolm Wicks: The net cost of raising the age addition to £25 per week in 2005–06 is estimated at £2.1 billion.

Notes:

1. Figures are in 2004–05 price terms, rounded to the nearest £100 million.

2. Costs net of income-related benefits (savings credit, guarantee credit, housing benefit and council tax benefit) and income tax are calculated using the Department's policy simulation model for 2005–06.

Sandra Gidley: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost over a period of five years of increasing the basic state pension to a level of one-third average male earnings. [186575]

Malcolm Wicks: The Information is in the table.

£ billion

	Gross cost	*Net cost*
2005–06	50.5	32.3
2006–07	52.9	36.2
2007–08	55.6	38.0
2008–09	58.5	39.9
2009–10	61.5	41.9

Notes:

1. Figures are for GB and overseas in 2004–05 price terms, using the Gross Domestic Product deflator index, rounded to the nearest £100 million.

2. Gross basic state pension costs are estimated by the Government Actuary's Department and are consistent with Budget 2004 assumptions and use 2002 based population projections. Basic state pension costs refer to the additional costs after allowing for consequential changes to National Insurance Fund benefits and non-income-related vote benefits.

3. Costs net of income-related benefits (savings credit, guarantee credit, housing benefit and council tax benefit) and income tax are calculated using the Department's policy simulation model for 2005–06 and 2006–07. For illustrative purposes it is assumed that the proportion of savings calculated for the 2006–07 year is constant for subsequent years.

4. Average male earnings are taken from table 3.2 of the Department for Work and Pensions annual abstract of statistics. The April 2003 figure was £525 per week, and this was used to set a category A basic state pension of £175 for the following year. This was then projected forward using Budget 2004 economic assumptions for earnings growth.

Sandra Gidley: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of extending the full basic state pension to all people of pensionable age regardless of national insurance contributions. [186576]

Malcolm Wicks: The information is in the table:

£ billion

	Gross cost	Net cost
2005–06	7.3	5.0
2006–07	8.9	6.0
2007–08	9.9	6.7
2008–09	10.9	7.4
2009–10	11.9	8.1

Notes:

1. Figures are for Great Britain only, in 2004–05 price terms, using the Gross Domestic Products deflator index, rounded to the nearest £100 million.

2. It is assumed that the rules are changed from 2005–06 and that basic state pension is increased in line with prices. It is assumed that all individuals above state pension age (65 for men; 60 for women receive the full category A rate of basic state pension (currently £79.60 per week) regardless of contribution record or marital status.

3. Gross basic state pension costs are estimated by the Government Actuary's Department and are consistent with Budget 2004 assumptions and use 2002-based population projections. Basic state pension costs refer to the additional costs after allowing for consequential changes to National Insurance Fund benefits and non-income-related vote benefits.

4. Costs net of income related benefits (savings credit, guarantee credit, housing benefit and council tax benefit) and income tax are calculated using the Department's policy simulation model for 2005–06 and 2006–07. For illustrative purposes it is assumed that the proportion of savings calculated for the year 2006–07 is constant for subsequent years.

Sandra Gidley: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of raising the basic state pension to the level of the guarantee credit. [186579]

Malcolm Wicks: The information is in the following table:

£ billion

	Gross cost	Net cost
2005–06	13.5	7.3
2006–07	15.1	7.7
2007–08	16.4	8.3
2008–09	17.8	9.0
2009–10	19.2	9.8

Notes:

1. Figures are for Great Britain and overseas in 2004–05 price terms, using the Gross Domestic Product deflator index, rounded to the nearest £100 million.

2. It is assumed that the category A rate of basic state pension is increased to the level of the individual guarantee credit in 2005–06 and that both are increased in line with earnings. The category B rate of basic state pension is increased by the same proportion.

3. Gross basic state pension costs are estimated by the Government Actuary's Department and are consistent with Budget 2004 assumptions and use 2002-based population projections. Basic state pension costs refer to the additional costs after allowing for consequential changes to national insurance fund benefits and non-income-related vote benefits.

4. Costs net of income-related benefits (savings credit, guarantee credit, housing benefit and council tax benefit) and income tax are calculated using the Department's policy simulation model for 2005–06 and 2006–07. For illustrative purposes it is assumed that the proportion of savings calculated for the year 2006–07 is constant for subsequent years.

Sandra Gidley: To ask the Secretary of State for Work and Pensions what targets he has set for the uptake of benefits by pensioners for the next four years. [186796]

Malcolm Wicks: The Department has two Public Service Agreement (PSA) targets for take up of pension credit by pensioners:

By 2006, be paying pension credit to at least 3 million pensioner households; and

By 2008, be paying pension credit to at least 3.2 million pensioner households, while maintaining a focus on the most disadvantaged by ensuring that at least 2.2 million of the households are in receipt of the guarantee element.

In addition, the 2006 pension credit target is supported by a Service Delivery Agreement (SDA), which says that by 2006, we will be paying the guarantee element of pension credit to at least 2.1 million pensioner households.

Mr. Willetts: To ask the Secretary of State for Work and Pensions what his latest estimates are of the cost of contracted-out rebates in each of the past 10 years and each of the next 10 years consistent with the latest estimates by the Office of National Statistics of Pension contributions. [187348]

Malcolm Wicks: The information is not available in the format requested. The National Insurance contribution (NIC) rebates for Contracted-out Salary Related Schemes are delivered through lower rate NICs rather than as a payment to the pension scheme. Because of this, they would not be included in the data source used to compile the ONS estimates of pension contributions. Such information as is available is set out in the table.

£ billions

Past 10 years		Next 10 years	
Tax year	Estimated cost of rebates	Tax year	Estimated cost of rebates
1994–95	[1]	2004–05	11.9
1995–96	6.7	2005–06	12.3
1996–97	6.9	2006–07	12.7
1997–98	7.6	2007–08	12.2
1998–99	7.8	2008–09	12.5
1999–2000	8.3	2009–10	12.8
2000–01	9.1	2010–11	13.1
2001–02	9.5	2011–12	13.5
2002–03	11.1	2012–13	13.5
2003–04	11.5	2013–14	13.8

[1] Data not available.

Notes:

1. Figures are based on the assumptions used to determine the current national insurance rebates and those for the long-term Public Expenditure Survey undertaken in February 2004.

2. They are for Great Britain only and are calculated on an accruals' basis.

3. The model used by GAD to produce these estimates goes back only to the 1995–96 tax year. They have been unable, therefore, to provide estimates for 1994–95.

Source:

Government Actuary's Department (GAD)

Mr. Willetts: To ask the Secretary of State for Work and Pensions if he will provide a breakdown of expenditure on contracted-out rebates for *(a)* private sector employees and *(b)* public sector employees in each of the past 10 years; and what the projections are for each of the next 10 years. [187353]

Malcolm Wicks: The information is not available.

Mr. Willetts: To ask the Secretary of State for Work and Pensions what his latest estimate is of the *(a)* mean and *(b)* median cost of the contracted out rebate for

(i) a public sector employee and (ii) a private sector employee in each of the last 10 years; and what the projection is for each of the next 10 years. [187354]

Malcolm Wicks: The information is not available.

PFI/PPP Contracts

Matthew Taylor: To ask the Secretary of State for Work and Pensions how many contracts his Department had with *(a)* Barclays Bank, *(b)* the Royal Bank of Scotland, *(c)* UBS Warburg and *(d)* the Bank of Scotland for advice on private finance initiative and public private partnership contracts in each financial year since 2001–02; and what fees were paid in each case. [186657]

Jane Kennedy: DWP was formed in June 2001. We have had no involvement with any of these companies concerning private finance initiative and public private partnerships contracts.

Social Fund

Mr. Woodward: To ask the Secretary of State for Work and Pensions what resources the Government have made available to the Social Fund since 1997; whether the Government intends to increase the budget of the Social Fund; and if he will make a statement. [186866]

Mr. Pond: Additional resources have been made available to both the regulated and discretionary Social Fund since 1997.

In the regulated fund, which is not cash limited, Sure Start Maternity Grants have been introduced and are now worth £500; five times as much as the old maternity payment. Winter fuel payments, now worth £200, have been introduced to help older people meet fuel costs, and are available to around eight million households. From the winter of 2003–04 those households that include a person aged 80 or over receiving a winter fuel payment receive an additional £100.

The net budget for the discretionary Social Fund, which includes Community Care Grants, Budgeting Loans and Crisis Loans, has also increased since 1997, and will be increased by a further £90 million over the three years from April 2003.

The information is in the table.

Social Fund expenditure since 1997

£ million

	Discretionary Fund		
	Community Care Grants	*Budgeting Loans*	*Crisis Loans*
1997–98	97	311	54
1998–99	98	344	59
1999–2000	98	396	62
2000–01	100	435	65
2001–02	103	469	75
2002–03	108	462	85
2003–04	117	484	85

Regulated Fund

£ million

	Maternity Payments/ Sure Start Maternity Grants	*Funeral Payments*	*Cold Weather Payments*	*Winter Fuel Payments*
1997–98	20	38	0.5	191
1998–99	18	39	0.2	194
1999–2000	17	38	1.0	759
2000–01	44	36	30	1,749
2001–02	61	38	15	1,692
2002–03	111	42	14	1,700
2003–04	120	47	4	1,931

Notes:

1. Figures are rounded to the nearest £1 million, except for cold weather payments of £1.0 million or less which are rounded to the nearest £0.1 million.
2. Winter fuel payments expenditure for 2000–01 includes £94 million for retrospective entitlement due to extending winter fuel payments to all those aged 60 or over (with some exceptions) and £108 million for those entitled for the first time in 2000–01.
3. Winter fuel payments expenditure for 2003–04 includes expenditure on the 80+ payment. Winter fuel payment expenditure for 2003–04 is estimated.

Source:

Secretary of State's annual reports on the Social Fund, except expenditure for winter fuel payments, which is taken from Social Fund accounts.

Social Fund Loans

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many Social Fund budget loans, and to what value, have been made in each year since 1997; and how many and what value of these were to cover delays in payments of social security benefits and tax credits. [186781]

Mr. Pond: Social Fund Loans, including Budgeting Loans, should not be awarded to compensate for delay in payment of benefits; where there is delay in payment, interim benefit payments can be considered.

Budgeting Loan awards and gross expenditure since 1997

	Initial awards	*Total gross expenditure (£ million)*
1997–98	916,000	311
1998–99	935,000	344
1999–2000	1,017,000	396
2000–01	1,145,000	435
2001–02	1,240,000	469
2002–03	1,251,000	462
2003–04	1,250,000	484

Notes:

1. Initial awards do not include awards made after review.
2. Gross expenditure does include awards made on review.
3. Numbers of initial awards are rounded to the nearest thousand and total gross expenditure to the nearest million.

Source:

Secretary of State for Work and Pensions Annual reports on the Social Fund.

Winter Fuel Allowance

Sandra Gidley: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of increasing the value of the winter fuel allowance to £300 per household. [186460]

Malcolm Wicks: The estimated additional cost of increasing the winter fuel payment from £200 to £300 is £860 million.

Industrial Injuries (Appeals)

Tony Lloyd: To ask the Secretary of State for Work and Pensions what the Government's target time is from application to hearing for appeals concerning industrial injuries disablement benefit diseases; and what the average waiting time has been for those whose appeals are currently being heard. [175717]

Mr. Pond: *[pursuant to the reply, 27 May 2004, Official Report, c. 1802W]:*

This is a matter for Christina Townsend, Chief Executive of the Appeals Service. She will reply to the hon. Member with the information requested.

Letter from Chris Pond to Mr. Tony Lloyd, dated 31 August 2004:

Dr. Christina Townsend, Chief Executive of the Appeals Service, wrote to you on 27 May in reply to your question about waiting times for Industrial Injuries Disablement appeals.

Unfortunately, the figure quoted in the reply was for appeal clearance rather than appeal waiting time. I am sorry that this mistake, which was the result of a programming error when producing the data, has arisen. I attach a copy of the amended reply, which will also be published in Hansard.

Letter from Christina Townsend to Mr. Tony Lloyd, dated 31 August 2004:

Pursuant to my written answer on 27 May, *Official Report*, column 1802W. The Secretary of State has asked me to reply to your question regarding the target time for hearing appeals concerning Industrial Disablement Benefit (IIDB) diseases and the average waiting time for those whose appeals are currently being heard.

Our target for the 2003–2004 financial year was to hear appeals within an average of 13 weeks from receipt in our Service. Information on waiting times is not available in the format requested but I can advise you that the average waiting time for Industrial Injuries Disablement Benefit appeals was 9.26[1] weeks for the 2003–2004 financial year.

I hope that this is helpful.

Notes:

[1] All figures are subject to change as more up to date data becomes available.

Figures for the latest months may rise significantly as information feeds through to the Appeals Service.

Figures are rounded to two decimal places

Disability Discrimination Act

Chris Ruane: To ask the Secretary of State for Work and Pensions (1) if he will set out the timescale for compliance with the Disability Discrimination Act 1995 for *(a)* voluntary and community groups and *(b)* small businesses; and if he will make a statement; [187572]

(2) what financial assistance is available to help *(a)* voluntary and community groups and *(b)* small businesses to comply with the Disability Discrimination Act 1995; and if he will make a statement. [187573]

Maria Eagle: Many voluntary and community groups and small businesses, where they are employers or provide services to the public, are already under a duty to meet certain requirements of the Disability Discrimination Act (DDA) 1995. For example, they are already required not to discriminate unjustifiably against, and to make reasonable adjustments for, disabled people in recruitment, employment or in the way that they deliver services to disabled people.

On 1 October 2004, the employment provisions of the DDA are being extended to employers with fewer than 15 employees. At the same time, service providers will be under additional duties to tackle physical features of their premises which otherwise make it impossible or unreasonably difficult for a disabled person to access the service, or to provide the service by another reasonable means.

The Government, and the Disability Rights Commission, have undertaken wide-ranging publicity campaigns over the last two years to raise awareness of the new duties in order to give employers and service providers the opportunity to understand, and plan for, their implementation.

There is no specific funding available to help *(a)* voluntary and community groups and *(b)* small businesses, or indeed any business or organisation with duties under the DDA, to meet the requirements of the Act. This is because employers and service providers are only required to do what is reasonable, and factors such as the cost and practicability of making reasonable adjustments, and the financial and other resources available to the business or organisation, will be taken into account in determining what is reasonable.

In certain instances, an employer who employs a disabled person may be able to obtain assistance to make adjustments for the disabled employee from the Access to Work programme. Employers can obtain further information about the programme by contacting their nearest Access to Work Business Centre.

Pension Credit

Mr. Hancock: To ask the Secretary of State for Work and Pensions what plans he has to alter the rule whereby people who stay abroad for longer than four weeks have their pension credit payments stopped; and if he will make a statement. [187546]

Malcolm Wicks: Pension Credit is for people who live in Great Britain. If someone expects to be absent abroad for less than 52 weeks it can continue to be paid normally for no more than four weeks; or for up to eight weeks for someone accompanying a young person who lives with them and who is receiving medical treatment abroad. It can continue to be paid for people who have gone abroad for medical treatment under the NHS for themselves for as long as they receive treatment.

Officials are currently researching a range of options for potentially extending the period for which Pension Credit can continue to be paid for customers who go abroad for less than 52 weeks.

Employers' Liability Insurance

Mr. Bellingham: To ask the Secretary of State for Work and Pensions what steps his Department is taking to reduce the burden on employers' liability compulsory

insurance on small businesses with good health and safety track records; and what legislative changes are proposed. [186352]

Jane Kennedy: The Employers' Liability Compulsory Insurance (ELCI) Review identified a number of steps that would help to reduce the burden of ELCI on small businesses with good health and safety track records.

Firstly, the Department for Work and Pensions is currently reviewing ELCI in respect of those limited companies in the UK where the owner is the only employee. If a decision is made to remove the requirement for ELCI from such companies, then any legislative change can be expected in the UK early in 2005.

The Department is keen to see a more risk based approach to the underwriting of risks. The 'Making the Market Work' initiative run by the Association of British Insurers, and the developing Health and Safety Executive Management Performance Index for small businesses, will both help to ensure that insurers are able to reflect good health and safety practices in the terms they can offer.

Social Fund

Mr. Woodward: To ask the Secretary of State for Work and Pensions what plans the Government have to reform the Social Fund; and if he will make a statement. [186865]

Mr. Pond: The Social Fund plays an important role in the Government's agenda for tackling poverty and social exclusion. It provides support to millions of people on low incomes, including some of the most vulnerable people in our society. We have announced a number of improvements to the Social Fund.

£90 million is being added to the Discretionary Social Fund budget over the three years to 2005–06, as announced in the Pre-Budget report 2002.

The Child Poverty Review, published on 12 July 2004, announced the Government's intention to abolish the Budgeting Loan 'double debt' rule and to reduce the current standard repayment rate of 15 per cent. of a customers benefit to 12 per cent. These changes will make Budgeting Loans more consistent and easier to understand and the Social Fund more effective in assisting those families most likely to experience over-indebtedness.

The Government are also looking at ways in which more affordable loans can be made available to people on low incomes, and are seeking to work in partnership with the private and voluntary sectors to find ways of delivering these, while ensuring that the loans enhance the ability of people to manage their finances responsibly.

We will continue to look at ways in which the Social Fund can be made more effective.

Work Injuries

Mr. Dismore: To ask the Secretary of State for Work and Pensions if he will introduce a training system for providers of rehabilitation services to victims of accidents at work; and if he will make a statement. [R] [186482]

Jane Kennedy: The Department's work to produce a Framework for Vocational Rehabilitation has highlighted that organisations representing different rehabilitation providers already provide training schemes. For example, there are existing training curricula for doctors in the specialties of occupational medicine and rehabilitation medicine published by the Specialist Training Authority. There are analogous schemes for nurses and other health care professionals.

The framework will commit the Department to work with stakeholders, including training organisations, to ensure consistency in the training provided on recognised vocational rehabilitation standards. The Department will also work with stakeholders to identify, and take steps to fill, any standards or training gaps.

Mr. Dismore: To ask the Secretary of State for Work and Pensions if he will introduce an accreditation scheme for providers of rehabilitative services to victims of accidents at work; and if he will make a statement. [R] [186483]

Jane Kennedy: The Departments work to develop a Framework for Vocational Rehabilitation has highlighted that many stakeholders would like steps to be taken to consider the need for accreditation schemes for providers of vocational rehabilitation. The Framework will set up the necessary mechanisms to enable the Department and other stakeholders to fully consider the need for accreditation schemes, and if required, to develop these.

Means-tested Benefits

Mr. Cousins: To ask the Secretary of State for Work and Pensions what his policy is on the assessment of *(a)* grants, *(b)* bursaries, whether from Government or other sources and *(c)* student loans in the household incomes assessments for means-tested benefits; and whether this policy is under review. [186843]

Mr. Pond: Income support, income-based jobseeker's allowance, housing benefit and council tax benefit are income-related benefits. It is a general principle in the calculation of these benefits that any income available to the customer including grants, bursaries and student loans will be taken into account. A standard disregard is allowed for books, travel and equipment.

For benefit purposes, a student loan is treated in the same way as a grant or bursary. However, a further disregard of £10 per week is applied.

The new Higher Education Grant and Educational Maintenance Allowance paid to those students with low parental or family income will be wholly disregarded in the calculation of benefit as they are paid for the purpose of defraying costs of books, equipment, travel and child care.

DWP are currently working with the Department for Education and Skills and the Devolved Administrations in reviewing our policies on the treatment of grants,

loans and bursaries within the benefit system in time for new grants and bursaries due to be introduced at the beginning of the 2006/07 academic year.

CSA

Mr. Liddell-Grainger: To ask the Secretary of State for Work and Pensions how many people in the Bridgwater constituency who have cases with the Child Support Agency are using *(a)* the old maintenance payment system and *(b)* the new maintenance payment system; and if he will make a statement as to when he estimates all people in Bridgwater will be assessed using the new system. [186502]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Ian Liddell-Grainger, dated 7 September 2004:

In reply to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many people in the Bridgwater constituency who have cases with the Child Support Agency are using *(a)* the old maintenance payment system and *(b)* the new maintenance payment system; and if he will make a statement as to when he estimates all people in Bridgwater will be assessed using the new system.

We do not have the information in the format you have requested. However, I can tell you that in total around 1,890,000 people are involved in cases using the old maintenance payment system and around 480,000 people are involved in cases using the new maintenance payment system. Ministers will make a decision on the bulk transfer of cases from the old scheme when they are satisfied that the new arrangements are working well for new clients. It is not possible to provide a timescale for this.

Benefit Claimants

Mr. Ruffley: To ask the Secretary of State for Work and Pensions how many people claimed *(a)* incapacity benefit and *(b)* jobseeker's allowance in (i) the Bury St. Edmunds parliamentary constituency and (ii) the county of Suffolk in each year since 1997. [187188]

Maria Eagle: The most recent information is in the tables.

People claiming incapacity benefit in the Bury St. Edmunds parliamentary constituency and Suffolk

As at February	Bury St. Edmunds parliamentary constituency	Suffolk
1997	2,000	18,200
1998	2,100	19,200
1999	2,300	18,800
2000	2,000	19,200
2001	2,600	19,600
2002	2,800	19,500
2003	2,700	19,700
2004	2,700	20,100

Notes:

1. Incapacity benefit figures include those getting severe disablement allowance and national insurance credits only.
2. Numbers are rounded to the nearest hundred.
3. Totals may not sum due to rounding.
4. Numbers are based on a 5 per cent. sample and are therefore subject to a degree of sampling variation.
5. Local authorities are assigned by matching postcodes against the relevant postcode directory.
6. Suffolk is made up of the following LAs: Babergh, Forest Heath, Ipswich, Mid Suffolk, St. Edmundsbury, Suffolk Coastal, and Waveney.

People claiming job seekers allowance in the Bury St. Edmunds parliamentary constituency and Suffolk.

As at July	Bury St. Edmunds parliamentary constituency	Suffolk
1997	1,350	13,769
1998	1,119	11,342
1999	991	10,390
2000	818	8,472
2001	742	7,437
2002	771	7,538
2003	754	7,877
2004	683	7,153

Source:

Count of unemployment-related benefits, Jobcentre Plus computer systems (including clerically held cases).

Fraud

Bob Spink: To ask the Secretary of State for Work and Pensions what progress he has made in achieving his anti-fraud targets. [186522]

Mr. Pond: We have set firm targets to reduce fraud and error and have already had considerable success. Our latest figures show that since 1997 we have reduced fraud and error in income support and jobseekers allowance by 29 per cent. This is against our target of reducing fraud and error in these benefits by 33 per cent. by March next year and by 50 per cent. by March 2006.

For the first time, we have established a continuous measurement of the level of fraud and error in housing benefit with a target to reduce fraud and error in housing benefit by 25 per cent. by 2006.

The latest assessment of the levels of fraud and error in housing benefit were published in "Fraud and Error in Housing Benefit, April 2002 to September 2003" on 12 August 2004. Copies of the report are in the Library.

Savings Incentives

Mr. Wiggin: To ask the Secretary of State for Work and Pensions what incentives the Government are offering to young people to begin saving for pensions. [186686]

Malcolm Wicks: We recognise that pension saving is far more affordable when done over a long period and the key is for young people to start taking action early in life as they become financially independent and enter the workplace for the first time.

Through our Informed Choice[1] programme we are encouraging all people, including young people, to plan ahead. We are doing this by making them aware of their options and ensuring they have the right information at the right time, together with the basic financial awareness and skills, to help them make appropriate choices. The range of initiatives include measures to:

maximise workplace pensions savings, provide personalised information about an individual's forecasted state and occupational/private pension positions, working with employers to provide information and advice in the workplace, and introducing a new web-based retirement planner.

Furthermore, the national Financial Capability Strategy, led by the Financial Services Authority and set out in two recent FSA documents[2], is working to address the financial capability needs, including those related to saving for retirement, for all groups, including young people.

We already provide incentives to encourage long-term savings by giving more generous tax treatment on pensions than on other forms of investment. Pensions are one of the most efficient ways of saving for all age groups. To encourage and reassure individuals who save in occupational pensions that their pension is secure, the Pension Protection Fund, will, for the first time in the UK, serve to protect members of defined benefit schemes if their sponsoring employer becomes insolvent and the scheme is under-funded.

We are also introducing other measures to encourage the savings habit. For example, in June, we announced our proposals for the stakeholder suite of simple, low-cost, risk-controlled savings and investment products to meet the needs of all, including the young, for their short, medium and long-term needs. Measures such as the Savings Gateway, the Universal Banking Services, the Community Finance and Learning Initiative and the introduction of the Child Trust Fund, also serve to encourage young people to engage with the financial sector.

[1] Command paper, Simplicity, Security and Choice: Informed Choices for working and saving.

[2] Towards a National Strategy for Financial Capability, November 2003 and Building Financial Capability in the UK, May 2004.

Family and Child Study

Andrew Selous: To ask the Secretary of State for Work and Pensions for what reason all reference to marriage has been omitted from the Family and Child Study data; and if he will reinstate the previous format. [187251]

Mr. Pond: The Families and Children Study (FACS) collects data from a sample of British families with dependent children on an annual basis. The questionnaire covers topics such as demographics, health, child outcomes, work, family income, material well-being and child support, among others.

FACS also continues to collect data on the marital status of the study's members. However, for reasons of limited space, the most recent FACS annual report did not include a separate analysis of marital status. Instead, the focus was on lone parent/couple status, a key determinant of benefit entitlement. It is anticipated that future reports based on FACS data will provide analyses by marital status.

Pensions

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions what advice the Government provide for young people on saving for pensions. [187303]

Malcolm Wicks: Through our Informed Choice[1] programme, we are delivering a range of initiatives which help to break down the barriers people, including young people, often experience in planning ahead for their financial future in retirement. We are making people aware of their options and ensuring they have the right information at the right time, together with the basic financial awareness and skills, to help them make appropriate choices. The range of initiatives include measures to: maximise workplace pensions savings, provide personalised information about an individuals forecasted state and occupational/private pension positions, working with employers to provide information and advice in the workplace, and introducing a new web-based retirement planner.

The Government cannot promote or provide advice about financial products for pensions saving but we want all people, including young people, to be confident about making their own informed choices about working and saving for retirement. They can only do so if they have acquired basic financial awareness and skills to help them interpret the information and advice available to them.

The national Financial Capability Strategy, led by the Financial Services Authority and set out in two recent FSA documents[2] is working to address the financial education, information and advice needs, including those related to saving for retirement, for all groups, including young people.

In addition, Government information about pensions is already available to everyone, including young people, from the Pensions Service and the Financial Services Authority, via their websites and/or telephone helplines, leaflets and publications.

New Deal

Mr. Anthony D. Wright: To ask the Secretary of State for Work and Pensions how many people in Great Yarmouth have benefited from the New Deal for *(a)* Young People, *(b)* Long-term Unemployed and *(c)* Lone Parents. [186719]

Jane Kennedy: The information is in the table.

New Deal information for the Great Yarmouth constituency

Programme	*Number of individuals starting the programme*	*Number of individuals into jobs*
New Deal for Young People	2,040	1,270
New Deal 25 plus	1,610	580
New Deal for Lone Parents	830	400

Notes:
1. All information is to March 2004.

2. All figures are rounded to the nearest 10.
Source:
DWP Information and Analysis Directorate.

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many people have participated in each New Deal programme; and how many people have participated *(a)* twice and *(b)* three times or more. [187357]

Jane Kennedy: The information is in the table.

Participants on the New Deal

Programme	*Individuals who have started the programme*	*Individuals who have started the programme twice*	*Individuals who have started the programme three times*	*Individuals who have started the programme three times or more*
New Deal for Young People	858,780	159,840	40,700	48,430
New Deal 25 plus	512,360	95,390	31,700	40,410
New Deal for Lone Parents	485,320	83,590	18,390	22,990
New Deal for Disabled People	76,620	2,630	120	130
New Deal 50 plus	98,040	—	—	—
New Deal for Partners	7,820	—	—	—

Notes:
1. New Deal for Disabled People (NDDP) figures relate to registrations with an NDDP Job Broker.
2. All data is to March 2004 except New Deal 50 plus which is to March 2003.
3. Information on New Deal 50 plus relates to starts to the Employment Credit. Only one start to the New Deal 50 plus Employment Credit can be made.
4. Information on the number of individuals starting New Deal for Partners more than once is not available.
5. All figures are rounded to the nearest 10.

DWP Information and Analysis Directorate

Winter Fuel Payments

Mr. Anthony D. Wright: To ask the Secretary of State for Work and Pensions how many pensioners in the Great Yarmouth constituency were *(a)* entitled to and *(b)* took up the winter fuel payment in the last year for which figures are available. [186704]

Malcolm Wicks: For winter 2003–04 the number of pensioners in the Great Yarmouth constituency who received a winter fuel payment was 22,220. It is not possible to say how many pensioners were entitled to a winter fuel payment.

Note:
Numbers are rounded to the nearest 5.
Source: IAD Information Centre, 100 per cent. samples.

Pensioners

Mr. Woodward: To ask the Secretary of State for Work and Pensions what estimate he has made of average pensioner household disposable income in each year since 1997; what factors are taken into account in calculating the average figure; and if he will make a statement. [186928]

Malcolm Wicks: The information in the table gives, in 2002–03 prices, the average weekly net before and after housing cost income for pensioner units between 1996–97 and 2002–03. In this period, net income before housing costs has increased by 19 per cent. in real terms, whereas net income after housing costs has increased by 26 per cent. in real terms.

Average pensioner unit net income (£)

	Income before housing costs	*Income after housing costs*
1996–97	199	170
1997–98	202	174
1998–99	208	182
1999–2000	216	189
2000–01	225	202
2001–02	233	210
2002–03	237	214

Notes:
1. Pensioners' income includes income from state pensions and benefits, private pensions and investment income.
2. The net before housing cost measure of disposable income is equal to gross income minus income tax payments; National insurance contributions; domestic rates/council tax; contributions to occupational pension schemes; maintenance and child support payments; and parental contributions to students living away from home.
3. The net after housing cost measure additionally deducts rent; water rates; community water charges; and council water charges; mortgage interest payments; structural insurance premiums; and ground rent and service charges.
Source:
Pensioners' Income Series 2002–03, in 2002–03 prices.
The estimates are based on the Family Resources Survey.

Pensioners

Mr. Woodward: To ask the Secretary of State for Work and Pensions how many and what percentage of the adult population the Government estimates have claimed the basic state pension in each year since 1990. [186828]

Malcolm Wicks: The information is not available in the format requested. However, such information as is available is in the following table.

	Recipients of basic state pension living in GB	*As a percentage of GB population aged 18 and over*
September 1990	9,380,900	22
September 1991	9,407,000	22
September 1992	9,450,800	22
September 1993	9,458,200	22
September 1994	9,458,900	22
September 1995	9,541,200	22
September 1996	9,679,400	22
September 1997	9,801,700	23
March 1998	9,841,100	23
September 1999	10,030,400	23
September 2000	10,086,600	23
September 2001	10,163,600	23
September 2002	10,224,200	23
September 2003	10,317,700	23

Notes:
1. Recipient figures are rounded to the nearest 100.
2. Recipient figures are derived from a 5 per cent. sample of cases taken from the Pension Strategy Computer System as at 31 September each year, except for 1998 when the figure is derived from a 5 per cent. sample of cases as at 31 March.

3. Recipient figures exclude persons in receipt of only: non-contributory State Pensions; Graduated Retirement Benefit; and additional State Pension.
4. Population figures are taken mid-year from mid-1990 onwards. Population data sources are: Office for National Statistics (ONS); and General Register Office Scotland (GROS).
5. As no population figures are yet available for 2003, mid-2002 figures have been used.

TRANSPORT

Public Transport (CCTV)

Mr. Wiggin: To ask the Secretary of State for Transport if he will provide resources to enable full coverage of operational CCTV on all public transport vehicles; and what research his Department has commissioned on the effects upon the number of charges and convictions for criminal activity on public transport if full operational CCTV coverage were to be installed in all public transport vehicles. [186976]

Mr. McNulty: It is up to individual transport operators to fund CCTV systems on their vehicles and a growing number recognise the importance of doing so. For example, although the Strategic Rail Authority has not stipulated CCTV as a requirement for trains, CCTV has been included on all new trains and most refurbished trains.

Government funding is available to Local Authorities to support infrastructure improvements to tackle crime through their Local Transport Plan integrated transport block allocations. Schemes funded in this way include the installation of CCTV cameras in bus shelters.

There has been no Government research into the effects on the number of charges and convictions for criminal activity on public transport if full operational CCTV were to be installed. However, there has been a Government funded national evaluation of CCTV generally which includes an analysis of the perceptions of offenders and any changes in recorded crime in CCTV areas, buffer areas surrounding the CCTV areas (intended to detect displaced crime) and control areas. The report will be published at the end of this year.

A1

Joyce Quin: To ask the Secretary of State for Transport what his current estimate is of the cost of making the A1 between Newcastle and Berwick fully-dualled. [186429]

Mr. Jamieson: The A1 Multi-Modal Study Report in May 2002 estimated the cost of dualling the A1 from Newcastle to the Scottish border to be £343 million at 2001 prices. However the report concluded that although the completion of dualling was necessary between Newcastle and Alnwick, wholesale dualling could not be justified in the foreseeable future.

The Highways Agency have not carried out a detailed costing. But on a pro rata basis from the 2001 estimate, I would expect the cost at current prices to exceed £375 million.

A40/M40

Mr. Lidington: To ask the Secretary of State for Transport how many copies of the Highways Agency's consultation leaflet on the M40/A40 Management Strategy have been distributed in Stokenchurch. [187380]

Mr. Jamieson: Fifty copies of the consultation for the M40/A40 Draft Route Management Strategy were sent to Stokenchurch Library.

Mr. Lidington: To ask the Secretary of State for Transport what steps the Highways Agency has taken to consult the residents of Stokenchurch on the draft A40/M40 Route Management Strategy. [187543]

Mr. Jamieson: A press notice was issued to inform national and local media. The document was placed on deposit at local council offices. Leaflets were available at Oxford Motorway services, High Wycombe library and subsequently Stokenchurch library.

Aviation Health Unit

Mr. Ruffley: To ask the Secretary of State for Transport if he will make a statement on the work of the Aviation Health Unit. [187190]

Mr. McNulty: The Aviation Health Unit was established in December 2003 primarily to provide advice to the UK Government and others on aviation health issues. It also investigates potential new aviation health concerns; reviews research and other information on aviation health; and liaises with the aviation industry and relevant organisations throughout the world. The Department is funding the unit until legislation can be enacted to allow the CAA to meet the costs of the unit from the charges it levies on airlines.

Cargo Aircraft (Terrorism)

Llew Smith: To ask the Secretary of State for Transport what assessment he has made of the vulnerability of cargo aircraft using United Kingdom airports to terrorists stowing on board with the aim of taking over the cockpit in flight. [187305]

Mr. McNulty: The Department for Transport continually assesses the vulnerability, from all types of terrorist attack, of all aircraft using UK airports.

Crossrail

Keith Vaz: To ask the Secretary of State for Transport when he expects the start of construction of *(a)* Crossrail and *(b)* Crossrail 2. [187132]

Mr. McNulty: The Secretary of State announced to Parliament on 20 July 2004 that he intended that appropriate powers for the construction of Crossrail should be sought by means of a hybrid Bill to be introduced in Parliament at the earliest opportunity. Previous experience, with the Channel Tunnel Rail Link Bill, suggests that the bill might take around two years to complete its passage. The Government have no plans currently to seek legal powers for Crossrail 2.

Departmental Costs

Mr. Damian Green: To ask the Secretary of State for Transport what the cost of refurbishments to the fabric of buildings owned by his Department has been since May 1997. [186396]

Mr. McNulty: I refer the hon. Member to my answer of 22 July 2004, *Official Report*, column 653W to the hon. Member for South West Bedfordshire (Mr. Selous).

Mr. Damian Green: To ask the Secretary of State for Transport what the total running cost of his Department's canteen facilities was in *(a)* 1996–97 and *(b)* 2003–04. [186398]

Mr. McNulty: I refer the hon. Member to my answer of 21 July 2004, *Official Report*, column 263W, to the hon. Member for South-West Bedfordshire (Andrew Selous).

Mr. Damian Green: To ask the Secretary of State for Transport how much his Department spent on replacing light bulbs in the last year for which figures are available. [186401]

Mr. McNulty: This information is not collected centrally and the costs are often undifferentiated from other mechanical and electrical service costs or are not accounted for separately in the individual finance systems. To separately identify such costs would involve disproportionate costs.

Mr. Damian Green: To ask the Secretary of State for Transport what the cost of printing departmental headed notepaper was in *(a)* 1996–97 and *(b)* the last year for which figures are available. [186397]

Mr. McNulty: I refer the hon. Member to the answer on 21 July 2004, *Official Report*, column 264W, to the hon. Member for Leominster (Mr. Wiggin).

Freight Transport

Miss McIntosh: To ask the Secretary of State for Transport if he will make a statement on progress in implementing the 10 Year Transport Plan as it relates to freight transport. [186672]

Mr. Jamieson: The 10 Year Plan for transport marked the beginning of a more strategic approach to delivering transport improvements. It delivered a long term Government commitment to sustained increases in transport spending.

Much of this investment will benefit freight alongside other transport users. The plan is delivering new capacity on the road network, with 80 schemes at various stages in the Targeted Programme of Improvements totalling around £8.8 billion. 13 of these schemes are currently under construction, including widening of the M25 between Junctions 12 to 15 around Heathrow. We have also invested in the Rail Network, renewing 800 miles of track last year. And we have increased total Government capital support for local authorities from £650 million in 2001 to £1.9 billion in 2004–05.

In relation to specific references to Freight in the 10 Year Plan, there has been a significant increase in freight on rail over recent years. The possibility of dedicated HGV only lanes on our strategic routes has been under consideration, but suitable sites have yet to be identified, though a number of schemes have been introduced which afford goods vehicles priority, along with buses and cyclists, over general traffic in congested urban areas. Finally, we have made significant progress in implementing road haulage efficiency measures as outlined in the 10 Year Plan, particularly through the Road Haulage Modernisation Fund. In particular we have been funding projects to offer training in safer and more fuel efficient driving, and to promote operational practices that save on the use of fuel.

"The future of Transport", published in July this year builds on the 10 Year Plan and looks forward to the factors that might shape travel demand and our transport network over the next 30 years. It sets out how the Government will respond to those pressures while safeguarding our economic and social wellbeing and the environment. Our policies for freight transport are set out in that document.

M6

Mr. Kidney: To ask the Secretary of State for Transport whether it is his intention that the proposed M6 toll expressway should be *(a)* constructed and *(b)* operated by a private sector contractor. [186986]

Mr. Jamieson: The M6 expressway is no more than a broad concept at this stage. If we decide to ask the Highways Agency to undertake further development work in light of the responses from the consultation exercise, one issue we will need to consider further is whether the proposal could be undertaken by a private sector concessionaire to fund, construct and operate the expressway for a set period.

Night Flights

Ms Keeble: To ask the Secretary of State for Transport when he will publish a consultation document on night flights. [186320]

Mr. McNulty: I published a consultation paper on night flying restrictions at Heathrow, Gatwick and Stansted airports on 21 July 2004, *Official Report*, columns 56–58WS.

Nuclear Materials (Transport)

Llew Smith: To ask the Secretary of State for Transport whether he has conducted a review of the suitability, in respect of security and safety, of the different ships used, or planned to be used, to transport plutonium MOX fuel to overseas customers from Sellafield. [187285]

Mr. McNulty: Ships used to transport MOX fuel are reviewed routinely under separate regulations governing the security and safety of the transport of nuclear materials. The Nuclear Industries Security Regulations 2003 provide for the review of all security aspects of each shipment of MOX fuel including the suitability of the vessel. The Merchant Shipping (Carriage of Packaged Irradiated Nuclear Fuel etc.) (INF Code) Regulations 2000, SI 3216 provide for both certification that vessels have been constructed to international standards, and periodic review to ensure that they continue to comply with the requirements.

PFI/PPP Contracts

Matthew Taylor: To ask the Secretary of State for Transport how many contracts his Department had with *(a)* Barclays, *(b)* the Royal Bank of Scotland, *(c)* UBS Warburg and *(d)* the Bank of Scotland for advice on private finance initiative and public private partnership contracts in each financial year since 2001–02; and what fees were paid in each case. [186659]

Mr. McNulty: The Department was formed in May 2002. The Department has not awarded contracts to any of these banks for advice on private finance initiative and public-private partnership contracts.

Rail Services

Mr. Jenkin: To ask the Secretary of State for Transport, pursuant to paragraph 5.3.5 of The Future of Rail, Cm.6233, what estimate he has made of the total amount of money elected regional assemblies would be able to spend on improving rail services in *(a)* the North East, *(b)* the North West and *(c)* Yorkshire and the Humber. [186154]

Mr. McNulty: Elected regional assemblies will be given flexibility to decide how much money to spend on rail passenger improvements within the resources available to them. The level of government funding available to assemblies will be determined in due course.

Mr. Wiggin: To ask the Secretary of State for Transport what representations he has received from the Leonard Cheshire Foundation regarding equal access for disabled people to the rail network. [186971]

Mr. McNulty: The Department regularly meets with major disability organisations including the Leonard Cheshire Foundation and frequently consults and corresponds with them, both directly and through correspondence with Members. We have recently responded to a number of inquiries generated by the Foundation's "All Aboard" campaign.

Mr. Wiggin: To ask the Secretary of State for Transport what research his Department has commissioned regarding the Government's rail end date of 2055 and the viability of alternatives proposed by the Leonard Cheshire Foundation. [186972]

Mr. McNulty: The Government first consulted on an 'end date', by which time all rail vehicles must comply with the Rail Vehicle Accessibility Regulations, last November, as part of a consultation on our proposals for amending the rail provisions of the Disability Discrimination Act. Various dates were considered, looking both at the needs of disabled people and at the financial implications for the rail industry, and we indicated that we favoured 2025.

The consultation included a draft regulatory impact assessment which was based on an independent economic appraisal of the various options. We are committed to further consultation before a final date is set in regulations. This will take full account of the responses to the November consultation, including that received from the Leonard Cheshire Foundation, and the recommendation of the Joint Scrutiny Committee on the draft Disability Discrimination Bill.

Roads

Mr. Robathan: To ask the Secretary of State for Transport if he will list planned road resurfacing projects broken down by the number of houses affected by above 68dB of noise that will benefit from noise reduction; and how many of these projects will be financed from the £5 million ringfenced sum. [186728]

Mr. Jamieson: In general, priorities for resurfacing sections of the strategic road network are assessed according to maintenance need rather than noise criteria. Detailed information on the numbers of houses exposed to more than 68dB that are expected to benefit from this resurfacing programme is not available.

An assessment of the number of houses exposed to more than 68dB is only made for sites meeting the criteria for noise announced on 22 March 1999 in connection with the £5 million ringfenced sum. This ringfenced sum was specifically aimed at funding noise mitigation measures at sites where the noise problems were serious and pressing and where resurfacing with quieter materials could not be justified on normal maintenance grounds.

In the majority of cases, the ringfenced sum has funded the provision of noise barriers at locations identified on the list published on 11 November 1999. There is only one resurfacing scheme in the 2004–05 programme with funding from the ringfenced sum. This will deal with the problem identified on M6 junctions 34–35, Camforth and should provide a significant noise reduction for approximately 300 houses currently exposed to more than 68dB of noise.

Mr. Yeo: To ask the Secretary of State for Transport how much has been spent in each year since 1997 installing speed humps on roads. [186761]

Mr. Darling: The installation of speed humps is a matter for individual Highway Authorities. As such this information is not held centrally.

Local authorities are solely responsible for the implementation of all traffic calming schemes, including the installation of road humps.

Funding is allocated via the Single Capital Pot based on the Road Safety Strategy contained within their Local Transport Plans.

Bob Russell: To ask the Secretary of State for Transport pursuant to his answer of 20 July 2004, *Official Report*, column 130W, on road safety, how many people died as a result of crashes that occurred on hard shoulders of English trunk motorways in *(a)* 2002 and *(b)* 2003. [187058]

Mr. McNulty: The number of people who have died as a result of crashes that occurred on English trunk road motorways where at least one vehicle was on, entering or leaving the hard shoulder in *(a)* 2002 was 22 and in *(b)* 2003 was 11.

Mr. Tony Clarke: To ask the Secretary of State for Transport how many road schemes have been started in Northampton in each year since 1992. [186517]

Mr. McNulty: The number of road improvements, costing over £1 million, and excluding maintenance schemes, started in Northampton for each year since 1992 is as follows:

	Number
1992	1
1993	0
1994	0
1995	0
1996	1
1997	1
1998	1
1999	2
2000	0
2001	0
2002	1
2003	2

Richard Younger-Ross: To ask the Secretary of State for Transport whether the Government are on track to achieve its target of delivering *(a)* 100 new bypasses on trunk and local roads and *(b)* 130 major local road schemes by 2010; and what the (i) construction costs, (ii) scheduled date for start of construction, (iii) expected completion date and (iv) status at 1 April is for each currently identified scheme. [186168]

Mr. Jamieson: The Government are on track to deliver 32 new bypasses on the strategic road network by the end of 2010–11. The following table gives the relevant detail on these bypasses which have either been completed, or are contained within the current Targeted Programme of Improvements (TPI).

Firm decisions have yet to be made on start of works for the remainder of the current programme so no forecast dates of opening are possible but the latest estimated outturn costs and status report for these schemes has been provided.

On local roads it is too soon to say whether the quoted number of local road schemes will be delivered. This depends largely on how quickly local authorities bring their schemes to completion. 79 road schemes have been fully or provisionally approved by the Government since 2000; these schemes are now at various stages of delivery. A local authority's progress in delivering a local road scheme is a matter for the local authority concerned. The Government are considering a number of other road scheme proposals from local authorities.

A. Major Project Bypasses already completed

Scheme	Latest estimated outturn cost (£ million)	Start of works	Date of completion
A5 Nesscliffe Bypass	20	March 2002	March 2003
A6 Great Glen Bypass	21	April 2001	February 2003
A6 Rushden and Higham Ferrers Bypass	16	April 2002	August 2003
A6 Rothwell-Desborough Bypass	19	April 2002	August 2003
A6 Clapham Bypass	44	May 2001	December 2002
A6 Alvaston	22	September 2002	December 2003
A27 Pplegate Bypass	29	October 2000	June 2002
A41 Aston Clinton Bypass	44	August 2001	October 2003
A43 Towcester-M40 Dualling (including A43 Silverstone Bypass)	97	February 2001	September 2002
A63 Selby Bypass	65	October 2001	June 2004
A66 Stainburn and Great Clifton Bypass	12	July 2001	December 2002
A500 Basford, Hough, Shavington Bypass	54	June 2001	May 2003
A650 Bingley Relief Road	91	July 2001	December 2003
M6 Toll (accelerated Roads Review scheme)	[1]Toll Road	March 2001	December 2003

[1] The M6 Toll Road is privately funded. There is some publicly funded expenditure, which is currently estimated to outturn at £41 million.

B. Major Project Bypasses in the current TPI, either on site or expected to be on site by the end of 2004–05, and to be completed by 2010–11

Scheme	Latest Estimated Outturn cost (£ million)	Actual/Estimated Start of Works	Estimated date of completion	Status at 1 April 2004 (2004–05 Business Plan Key/Critical Event)
A10 Wadesmill Colliers End	39	April 2002	2004–05	Road Open
A21 Lamberhurst Bypass	19	June 2003	2004–05	Road Open
A5 Weeford-Fazeley Improvement	38	April 2004	2005–06	Start of Works (achieved)
A421 Great Barford Bypass	43	2004–05	2006–07	Start of Works
A47 Thorney Bypass	28	2004–05	2006–07	Start of Works

C. Major Project Bypasses in the TPI, not yet on site, but to be completed by 2010–11

Scheme	Latest estimated outturn cost (£ million)	Status at 1 April 2004 (2004–05 Business Plan Key/Critical Event)
A21 Kippings Cross to Lamberhurst Bypass	68	Awaiting TPI entry (achieved)
A3 Hindhead Improvement	236	Public inquiry
A303 Stonehenge	223	No Event—Public inquiry already started
A38 Dobwalls Bypass	36	Publish draft Orders and Environmental Statement
A419 Blunsdon	40	Publish draft Orders and Environmental Statement
A483 Pant-Llanymynech Bypass	41	ECI tenders invited

C. Major Project Bypasses in the TPI, not yet on site, but to be completed by 2010–11

Scheme	*Latest estimated outturn cost (£ million)*	*Status at 1 April 2004 (2004–05 Business Plan Key/ Critical Event)*
A505 Dunstable Northern Bypass (A5 to M1 Link)	48	ECI contract awarded
A57/A628 Mottram in Longdendale, Hollingworth and Tintwistle Bypass	103	ECI contract awarded
A590 High and Low Newton Bypass	22	ECI tenders invited
A595 Parton-Lillyhall Improvement	25	Public inquiry
A64 Rillington Bypass	12	ECI tenders invited
A66 Temple Sowerby and Improvement at Winderwath	23	ECI contract awarded
A69 Haydon Bridge Bypass	24	ECI contract awarded

Strategic Rail Authority

Mr. Yeo: To ask the Secretary of State for Transport (1) what will happen to the work force of the Strategic Rail Authority when it is abolished; [186737]

(2) how much the Department expects to spend in severance payments when the Strategic Rail Authority is abolished. [186778]

Mr. Darling: Work is in progress, following publication of the rail White Paper in July, to determine which of the SRA's functions will continue and which body will exercise them. Until decisions have been taken, it is too soon to know how many SRA staff will transfer elsewhere and how many might become eligible for severance payments.

Mr. Yeo: To ask the Secretary of State for Transport what will happen to the *(a)* stock and *(b)* assets held by the Strategic Rail Authority when it is abolished. [186739]

Mr. Darling: Appropriate arrangements will be made in the proposed legislation for the transfer of the property, rights and liabilities of the Strategic Rail Authority.

NORTHERN IRELAND

Peace Process

Mr. Ben Chapman: To ask the Secretary of State for Northern Ireland if he will make a statement on progress towards restoration of devolution to Northern Ireland. [187675]

Mr. Spellar: We are engaged in intensive political activity with the aim of restoring stable and inclusive partnership government in Northern Ireland.

It is important to draw upon the high degree of commitment among the Northern Ireland parties to bring about resumed devolution at an early stage. Recent meetings with all parties have made me confident of support from all sides and good prospects for restoring stable devolved government to Northern Ireland.

12 and 13 July Disturbances

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many *(a)* police officers, *(b)* rioters, *(c)* army personnel and *(d)* ordinary civilians were injured in disturbances in Northern Ireland on 12 and 13 July. [186024]

Mr. Pearson: The number of persons injured as a result of the security situation and serious public disorder on 12 and 13 July 2004 is listed in the following table:

	Number
Police	29
Police Reserve	6
Army	9
Civilian	10
Total	54

Note:
Statistics are provisional and will be subject to minor amendment.

Andersonstown Newspaper Group

Lady Hermon: To ask the Secretary of State for Northern Ireland pursuant to the answer of 5 July 2004, *Official Report*, column 530W, on the Andersonstown Newspaper Group, whether the monies were allocated for projects *(a)* outside the UK and *(b)* in the Republic of Ireland. [186466]

Mr. Spellar: None of the monies referred to in the previous answer have been allocated to the Andersonstown Newspaper Group for projects *(a)* outside the UK or *(b)* in the Republic of Ireland.

Anti-TNF Drugs

Mr. Dodds: To ask the Secretary of State for Northern Ireland what plans he has to ensure all patients requiring anti-TNF drugs for rheumatoid arthritis will receive this medication within three months. [186017]

Angela Smith: The degree to which the health and social care system can respond to presenting needs is limited by the level of resources available. Although there are no plans to ensure that all patients requiring anti-TNF drugs for rheumatoid arthritis will receive this medication within three months, my Department remains committed to extending the availability of these specialist drugs where they will clearly result in a significant improvement in patient care.

Substantial extra funding has been allocated to the Health and Social Services Boards to allow 100 additional patients to receive anti-TNF drugs during this financial year. The Department of Health, Social Services will continue to seek additional resources to further improve access to these and other specialist medicines.

Apple Growing

Mr. Beggs: To ask the Secretary of State for Northern Ireland what plans he has to introduce special programmes to support and encourage apple growing in Northern Ireland. [186288]

Mr. Pearson: I have no plans to introduce special programmes to support and encourage apple growing in Northern Ireland. Producer organisations in the sector can avail of financial assistance through the structural support arrangements under the EC Fruit and Vegetable Regime. Further, the Environmentally Sensitive Areas and Countryside Management Schemes include options whereby scheme participants may receive payment towards the restoration or re-creation of traditional orchards.

Aid is available to the apple processing sector through the EU Agricultural Processing and Marketing Grant Scheme and the EU Marketing of Quality Agricultural Products Grant Scheme. Invest NI also provides assistance to companies in the sector.

The Department of Agriculture and Rural Development continues to provide assistance to the apple sector through its advisory and technical services

Coastal Protection (Northern Ireland)

David Burnside: To ask the Secretary of State for Northern Ireland pursuant to his oral statement of 21 July 2004, *Official Report*, columns 343–70, what Royal Naval presence he plans around the coast of Northern Ireland to secure the Province against illegal importation of arms and explosives by sea. [186528]

Mr. Ingram: I have been asked to reply.

There are no plans for a dedicated Royal Naval presence in Northern Irish waters once the Northern Ireland Flotilla is paid off.

Delayed Hospital Discharge

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland if he will make a statement on the level of delayed hospital discharges in the Homefirst Health and Social Services Trust area; and if he will make a statement. [186221]

Angela Smith: The most recent figures show that, at the end of April 2004, there were 111 patients in the Homefirst Health and Social Services Trust area whose discharge was delayed, amounting to 29 per cent. of the Northern Ireland total of 387. The total number of delayed days amounted to 6,124 with a patient average of 55 delayed days. Thirty-three Homefirst residents had remained in hospital for more than three weeks and another 47 were still in hospital at the end of eight weeks.

It is unacceptable that some people have to remain in hospital long after they are medically fit for discharge. A target has been set for all Health and Social Services Boards to ensure that, by 31 March 2005, 85 per cent. of all people who are medically fit for discharge should wait no more than eight weeks for community services to be provided and that the number of delayed discharge days is reduced by 10 per cent. compared to 2003–04 levels. Considerable additional resources have been allocated to ensure that these targets are met.

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland what action is being taken to reduce delayed hospital discharges within the Homefirst Health and Social Services Trust area. [186222]

Angela Smith: The Northern Health and Social Services Board has developed a strategy for older people to reflect the needs of its growing and ageing population. Over the past 18 months the board has been working to implement a comprehensive range of services to address the high levels of delayed discharges in its area, and is planning to invest over £4 million in the Elderly Programme of Care during 2004–05.

A number of measures have been put in place aimed at reducing hospital admissions and speeding up the discharge process. Additional nursing home places have been funded, Home from Hospital and community rehabilitation services have been expanded across the whole Homefirst Trust area, and Rapid Response Nursing services have been established to provide acute care in the Homefirst community.

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland what assessment he has made of the effect of delayed hospital discharges in the Homefirst Health and Social Services Trust on hospital waiting lists at *(a)* Antrim and *(b)* Whiteabbey hospitals. [186223]

Angela Smith: Delayed discharges have some impact on waiting lists at Antrim, Whiteabbey and other hospitals, although the scale of this is difficult to quantify. Delayed discharges increase the pressure on medical beds and when medical beds are full, new medical patients may be admitted to surgical wards and this can sometimes impact on the level of surgical activity.

Work is currently under way to re-design and reform the emergency care service in Northern Ireland. Health and Social Services Boards and Trusts are required to develop plans to streamline processes relating to emergency patient flows at all hospitals so that, by 31 March 2005, the number of delayed discharge days is reduced by 10 per cent. compared to 2003–04 levels. This work, coupled with planned increases in capacity, such as the 24-bed ward at Antrim hospital due to open in 2005, will reduce the need for medical patients to be cared for in surgical wards.

Departmental Annual Report

Dr. Cable: To ask the Secretary of State for Northern Ireland how many copies of his Department's annual report were printed in each year since 1997; how many were sold in each year; and what the *(a)* publication costs and *(b)* sales revenue were. [183889]

Mr. Paul Murphy: The Stationery Office has provided the following information:

	Number of NIO annual reports issued
1997[1]	—
1998[1]	—
1999[1]	—
2000	519
2001	558
2002	494
2003	443
2004[2]	321

[1] The Northern Ireland Office has only produced a published version of its annual report since 2000. Prior to that the NIO was one of a number of contributors to the Northern Ireland Departmental Report, an annually published report produced by the Department of Finance and Personnel (NI), which set out the work and expenditure of all the different Departments in Northern Ireland.

[2] The 2004 report became available for purchase only on 7 May 2004 so final details of costs and sales are not to hand. Figures shown are the latest available.

Departmental Vehicles

Mr. Kidney: To ask the Secretary of State for Northern Ireland how many road vehicles are operated by the Department and its agencies; how many personal injury accidents involving road vehicles operated by the Department have occurred within each of the last five years; and what the Department's policy is for managing work-related road safety. [185916]

Mr. Paul Murphy: The NIO and its agencies and the 11 Departments and agencies of the NI Administration operate a total of 2,492 vehicles. The number of personal injury accidents involving road vehicles operated by the NIO and the NI Departments within each of the last five years is outlined as follows:

	Number of personal injury accidents
1999–2000	9
2000–01	9
2001–02	9
2002–03	7
2003–04	9

Policies for managing work-related road safety are encompassed within health and safety policies as required by Health and Safety legislation. These include centrally issued guidance, and local guidance where appropriate, on issues such as the use of mobile phones while driving, the need for drivers of certain Government vehicles to be medically examined, road worthiness of vehicles, driver competence and the availability of driver training.

Employment Opportunities

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many adults were available for work in Northern Ireland in *(a)* June 2004 and *(b)* June 1999. [186243]

Mr. Gardiner: Latest figures from the Spring (March–May) 2004 Labour Force Survey estimated that there were 754,000 persons aged 16 and over who were either working or available for work in Northern Ireland. This compares to a figure of 748,000 for Spring (March–May) 1999.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people were in *(a)* full-time and *(b)* part-time employment in Northern Ireland in (i) June 2004 and (ii) June 1999. [186244]

Mr. Gardiner: The most up-to-date employee jobs data relates to March 2004. Estimates of the number of full-time and part-time employee jobs in Northern Ireland for June 1999 and March 2004 are as follows.

Employee Jobs[1] in Northern Ireland

	June 1999	*March 2004*[2]
Full-Time Employee Jobs	422,150	441,070
Part-Time Employee Jobs	201,850	235,450
Total Employee Jobs	624,000	676,530

[1] Figures are rounded to the nearest 10
[2] Provisional
Figures are not seasonally adjusted

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people were employed in the small and medium enterprise sector in Northern Ireland in *(a)* 2004 and *(b)* 1999. [186266]

Mr. Spellar: Estimates from the Quarterly Employment Survey (QES) of the number of employee jobs in small and medium-sized enterprises (i.e. enterprises with less than 250 employees) in the private sector in Northern Ireland for March 1999 and March 2004 are as follows.

Employee jobs[1] in private sector small and medium sized enterprises

	Number of employee jobs
March 1999	288,900
March 2004 [1]	318,200

[1] Provisional
Note:
Figures are rounded to the nearest 100.
Figures are not seasonally adjusted

Fisheries Conservancy Board Vessel

Mr. Beggs: To ask the Secretary of State for Northern Ireland what steps have been taken to ensure traceability of the Fisheries Conservancy Board vessel since the disappearance of the previous boat from Lough Neagh. [184834]

Angela Smith: There are no measures available which are foolproof and which would ensure traceability of a stolen boat. However, there are other factors which may enable the Board to trace the vessel. The Board has registered the vessel with the Maritime and Coastguard Agency. Accordingly, if it was stolen and recovered it could be traced back to the Board. The Board is also looking at whether there are cost effective measures, which might make traceability easier. Furthermore, appropriate equipment on board the vessel carry serial numbers.

The Board has taken measures to try to protect the boat from theft. The vessel is moored in a prominent berth in Ballycastle Marina. The Marina is staffed from 8.00 am to midnight during the summer and from 8.00 am to 5.00 pm in winter. There are also three CCTVs covering the Marina for security purposes.

Football

Kate Hoey: To ask the Secretary of State for Northern Ireland when the money will be released by the Department for Culture, Arts and Leisure to pay for the improved floodlights at Windsor Park. [186409]

Angela Smith: To date the Department of Culture, Arts and Leisure (DCAL) has made no commitment to release money to pay for the improved floodlights at Windsor Park. However, money may be made available

under the facilities component of the Soccer Strategy. This would be dependent on my being satisfied that the necessary changes in the governance of soccer have been implemented and that remaining issues, including the completion by the Irish Football Association (IFA) of a detailed audit of priority football facilities, are addressed in accordance with accountability requirements for public funds.

Kate Hoey: To ask the Secretary of State for Northern Ireland what progress has been made on implementing the football strategy in Northern Ireland. [186410]

Angela Smith: Since the Irish Football Association's (IFA) decision on 6 April 2004 to accept the recommendations of the football strategy, I have set up a Sports Council led Implementation Group to oversee the implementation of the strategy in Northern Ireland. This Group has held a number of meetings and advertisements were recently placed in the press by the IFA for the appointment of two external members to the Association's new Executive Committee. Arrangements are also presently being made for the appointment of a new IFA Chief Executive. In addition to these, I have established a Department of Culture, Arts and Leisure led Monitoring Group to ensure that overall progress remains consistent with the central aims of the football strategy. This Group held its first meeting on 23 July 2004.

Kate Hoey: To ask the Secretary of State for Northern Ireland whether the floodlights at Windsor Park will be upgraded in time for Northern Ireland's first home World Cup matches. [186411]

Angela Smith: Responsibility for upgrading the floodlights at Windsor Park in time for Northern Ireland's first home World Cup matches rests with the governing body of Soccer in Northern Ireland, the Irish Football Association (IFA), and the owners of the stadium, Linfield FC. I understand that the IFA and Linfield FC are presently putting arrangements in place for the necessary upgrading work to be carried out within the given time constraints.

Hazardous Waste

Mr. Lidington: To ask the Secretary of State for Northern Ireland how many sites in Northern Ireland are licensed to accept hazardous waste; how many such sites there were in each of the last three years; and if he will make a statement. [186598]

Angela Smith: At present in Northern Ireland, the legislation that defines hazardous waste are the Pollution Prevention and Control Regulations (Northern Ireland) 2003 (which came into operation on 31 March 2003) and the Landfill Regulations (Northern Ireland) 2003 (which came into force on 6 January 2004). Hazardous waste was not defined in Northern Ireland waste legislation before this.

There are currently no landfill sites nor 'permitted' disposal facilities authorised to accept hazardous waste. However, there are various treatment facilities and transfer stations authorised to accept special waste as defined by the Special Waste Regulations (Northern Ireland) 1998.

Hospital-acquired Infections

Mr. Lidington: To ask the Secretary of State for Northern Ireland how many cases of hospital-acquired infection were recorded *(a)* at each hospital and *(b)* within each health and social services board area in Northern Ireland in each of the last four years. [186601]

Angela Smith: There were 228 reports of patient episodes of Methicillin Resistant Staphylococcus Aureus (MRSA) bloodstream infections in Northern Ireland in 2001–02 and 218 in 2002–03. The figures for 2003–04 will be available shortly. Records of such reports are maintained on an acute hospital trust basis and are set out in the following tables along with a breakdown by health and social services board. Earlier data and data for other infections are not available.

Table 1: Number of MRSA patient episodes by acute hospital trust

Acute hospital trust	*2001–02*	*2002–03*
Altnagelvin Group	22	13
Belfast City Hospital	55	46
Causeway	8	9
Craigavon Area Hospital Group	13	16
Down Lisburn	10	8
Green Park Healthcare	2	4
Mater Infirmorum Hospital	16	19
Newry and Mourne	6	4
Royal Group of Hospitals	40	26
Sperrin Lakeland	5	9
Ulster Community and Hospitals	17	29
United Hospitals Group	34	35

Table 2: Number of MRSA patient episodes by health board

Health and social services board	*2001–02*	*2002–03*
Northern	42	44
Southern	19	20
Eastern	140	132
Western	27	22

Individual Learning Accounts

Mr. McGrady: To ask the Secretary of State for Northern Ireland what action has been taken by the Department of Employment and Learning to recover the estimated loss identified by the Auditor General's Report NIA 41/03, HC 673, as having accumulated through irregular expenditure on the Individual Learning Accounts Scheme. [183063]

Mr. Gardiner: The NIAO report on Individual Learning Accounts (ILAs) indicated potential irregular payments to providers in Northern Ireland (NI). The Department for Employment and Learning has obtained legal advice on the scale and nature of the potential recoveries as part of a wider validation exercise; has liaised with the Department for Education and Skills and the police, in England, on the progress of their investigations; has undertaken extensive checks with Companies Registry NI and Companies House Great Britain (GB) to establish the present status of ILA providers; and obtained credit rating reports on the providers highlighted by the validation work. The Department is undertaking audits of providers to determine the actual potential for recovery and a

number of providers which operate also in GB is being pursued on DEL's behalf by the relevant police authorities.

Infantry Battalions (Northern Ireland)

Mr. Garnier: To ask the Secretary of State for Northern Ireland how many men and women as at 21 July were serving with each infantry battalion of the British Army who were battle fit or able to serve on operational tours in Northern Ireland or overseas; and what the establishment strength is of each of those battalions. [187255]

Mr. Ingram: I have been asked to reply.

The unit establishment of each infantry battalion is given as follows:

Infantry battalion	*Establishment*
1st Battalion The Grenadier Guards	620
1st Battalion The Coldstream Guards	620
1st Battalion The Scots Guards	670
1st Battalion The Irish Guards	620
1st Battalion The Welsh Guards	620
1st Battalion The Royal Scots (The Royal Regiment)	620
1st Battalion The Royal Highland Fusiliers (Princess Margaret's Own Glasgow and Ayrshire Regiment)	620
1st Battalion The Kings Own Scottish Borderers	651
1st Battalion The Black Watch (The Highland Regiment)	670
1st Battalion The Highlanders (Seaforth, Gordons and Camerons)	687
1st Battalion The Argyle and Sutherland Highlanders (Princess Louise's)	670
1st Battalion The Princess of Wales's Royal Regiment (Queen's and Royal Hampshires)	620
2nd Battalion The Princess of Wales's Royal Regiment (Queen's and Royal Hampshires)	670
1st Battalion The Royal Regiment of Fusiliers	620
2nd Battalion The Royal Regiment of Fusiliers	667
1st Battalion The Royal Anglian Regiment	620
2nd Battalion The Royal Anglian Regiment	620
1st Battalion The Kings Own Royal Border Regiment	670
1st Battalion The Kings Regiment	667
1st Battalion The Prince of Wales's Own Regiment of Yorkshire	620
1st Battalion The Green Howards (Alexandra, Princess of Wales's Own Yorkshire Regiment)	620
1st Battalion The Queens Lancashire Regiment	670
1st Battalion The Duke of Wellington's Regiment (West Riding)	620
1st Battalion The Royal Irish Regiment (27th (Inniskilling), 83rd, 87th and The Ulster Defence Regiment)	620
1st Battalion The Devonshire and Dorset Regiment	667
1st Battalion The Cheshire Regiment	620
1st Battalion The Royal Welsh Fusiliers	670
1st Battalion The Royal Regiment of Wales (24th/41st Foot)	620
1st Battalion The Royal Gloucestershire, Berkshire and Wiltshire Regiment	620
1st Battalion The Worcestershire and Sherwood Foresters Regiment (29th/45th and 70th Foot)	670
1st Battalion The Staffordshire Regiment (The Prince of Wales's)	670
1st Battalion The Light Infantry	620
2nd Battalion The Light Infantry	620
1st Battalion The Royal Green Jackets	620
2nd Battalion The Royal Green Jackets	712
1st Battalion The Royal Gurkha Rifles	712
2nd Battalion The Royal Gurkha Rifles	687
1st Battalion The Parachute Regiment	687
2nd Battalion The Parachute Regiment	687
3rd Battalion The Parachute Regiment	25,874
Total	

Information relating to the number of personnel classed as 'fit' in individual infantry battalions is not held centrally, and could be provided only at disproportionate cost. However, as at 3 July 2004, the number of personnel classed as 'fit' in the infantry as a whole was 23,335. Personnel are defined as 'fit' when they are considered to be fit for service on operations anywhere in the world. It should be noted that although an individual soldier may be medically downgraded, they may still be liable for deployment, depending on the reason for the downgrading, the nature and location of the deployment, and medical advice.

Invest Northern Ireland

Mr. Beggs: To ask the Secretary of State for Northern Ireland what the average time taken to process an application for assistance by *(a)* Invest Northern Ireland and *(b)* Invest Northern Ireland's legacy organisations was in the most recent relevant period. [186854]

Mr. Spellar: The Invest NI target processing time for larger business development projects is 60 days, with a target of 30 days for less complex development cases. These times relate to 'controllable' time, ie periods when an application is being dealt with by Invest NI, and do not include periods when further information is required to be provided by the client. While target timeframes are currently being met in the majority of cases, there can be exceptions where, for example, the case is particularly complex or the negotiations prolonged.

The average processing target time operated by the legacy organisations IDE and LEDU, was 83 days. Invest NI has set target times which are shorter than those operated by these legacy bodies. It would require a disproportionate administrative effort to attempt to provide precise information on the legacy agencies' performance. However, it is clear that in the majority of cases the target timeframes were met and where this was not the case it again tended to reflect the complexity of the case concerned.

Mortality Statistics

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland pursuant to his answer of 20 July 2004, reference 184778, how many of the patients in the table for *(a)* 2001–02 and *(b)* 2002–03 subsequently died in hospitals; and if he will make a statement. [187155]

Angela Smith: There is no information available on whether any particular patient recorded in the mandatory surveillance of MRSA patient episodes subsequently died in hospital as a result of that episode. The tables published annually by the Communicable Disease Surveillance Centre Northern Ireland regarding such patient episodes of MRSA are derived from data mandatorily supplied by acute hospital trusts. The data is aggregated and does not carry personal identifiers.

Movanagher Fish Farm

Lady Hermon: To ask the Secretary of State for Northern Ireland what *(a)* temperature and *(b)* quality checks have been carried out in the last 12 months by staff of the Movanagher Fish Farm to detect poor water quality. [181819]

Angela Smith: The information requested is as follows:

(a) Staff at Movanagher Fish Farm record the temperature of the inflowing water supply on a daily basis for management purposes.

(b) Staff at Movanagher fish farm do not monitor water quality in the river and canal supplying water to the farm. This is the responsibility of the EHS Water Management Unit. Water quality is monitored at four points on the Lower Bann. The nearest monitoring point to Movanagher Fish Farm is at Kilrea Bridge, 3 to 4 km upstream of the farm. Samples are taken monthly. In addition, farm staff undertake checks of dissolved oxygen of the inflowing water supply if flows and temperature suggest that fish may be stressed.

EHS is committed to chemical and biological monitoring of all significant waterways in Northern Ireland in line with national and international classification schemes and agreements. DCAL continues to engage with EHS and others to bring forward initiatives to address widespread water quality problems in Northern Ireland's waterways.

National Stadium

Mr. Dodds: To ask the Secretary of State for Northern Ireland why the specification for a national stadium requires a site of 60 acres. [186018]

Angela Smith: In setting the minimum acreage specification for a possible multi-sports stadium in Northern Ireland at 60 acres, the Strategic Investment Board (SIB) is seeking to satisfy both the design requirements of the three sports concerned (soccer, rugby and Gaelic games) and defray costs to the public purse as much as possible through the acquisition of additional land space for mixed-use business development in and around the stadium itself. However, as this is not yet a formal procurement process, the SIB has been willing to consider notifications of interest from landowners of sites below 60 acres provided they satisfied the key criteria of acceptability to the three sports, deliverability and potential economic benefits.

Mr. Dodds: To ask the Secretary of State for Northern Ireland what the reason was for a deadline of 30 June for submissions on a new national stadium. [186019]

Angela Smith: The deadline of 30 June for submissions on a possible multi-sports stadium in Northern Ireland was set because I have asked the Strategic Investment Board (SIB) to complete its evaluation of potential sites for a multi-sports stadium and report back to me with an appropriate location by the autumn. However, as this is not yet a formal procurement process, the SIB has been willing to consider notifications of interest from landowners submitted after 30 June provided they satisfied the key criteria of acceptability to the three sports concerned (soccer, rugby and Gaelic games), deliverability and potential economic benefits.

Nursing Staff

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland what percentage of the nursing staff at each Northern Ireland hospital are not of UK origin. [186184]

Angela Smith: Nurses not of UK origin are employed within the HPSS but cannot be identified separately either from HRMS or by the Trusts themselves. Information is only held by Trusts on the number of EC and non-EC nurses employed. Figures for the percentage of non-EC nursing staff working within each Health and Social Services Trust are as follows.

Percentage of non-EC nurses working within each Health and Social Services Trust as at 30 June 2004

HSS[1] Trust	Percentage of non-EC nurses working within each HSS Trust
Altnagelvin Group HSS Trust	3.0
Armagh and Dungannon HSS Trust	0.0
Belfast City Hospital HSS Trust	4.0
Causeway HSS Trust	1.4
Craigavon Area Hospital Group HSS Trust	4.5
Craigavon and Banbridge Community HSS Trust	0.5
Down Lisburn HSS Trust	5.0
Foyle Community HSS Trust	0.3
Green Park Healthcare HSS Trust	8.0
Homefirst Community HSS Trust	9.3
Mater Infirmorum Hospital HSS Trust	7.5
Newry and Mourne HSS Trust	0.4
North and West Belfast HSS Trust	0.2
Royal Group of Hospitals HSS Trust	10.3
South and East Belfast HSS Trust	0.0
Sperrin Lakeland HSS Trust	1.5
Ulster Community and Hospitals Group HSS Trust	3.6
United Hospitals Group HSS Trust	3.8
Total	3.8

[1] Health and Social Services

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland what assessment he has made of the potential impact recruiting nursing staff from overseas to work in Northern Ireland's hospitals will have on health services in less developed countries. [186185]

Angela Smith: The Department is currently drafting guidance on International Nursing Recruitment that will advise HPSS employers not to actively recruit from developing countries that are experiencing nursing shortages of their own.

The majority of overseas nurses currently employed within the HPSS are from the Philippines, where nursing surpluses exist and the national Government actively supports recruitment by health service employers.

Parades

Mr. McNamara: To ask the Secretary of State for Northern Ireland what participating bands were listed in the notification to the Parades Commission submitted by Ballymacarrett District Loyal Orange Lodge No 6 as organisers of the 1 July parade; and what bands participated in the parade. [182845]

Mr. Pearson: Information in relation to Notified bands is as follows. Police are currently investigating if additional bands attended without prior notification.

Notified

1. Ulster Volunteer Flute Band
2. Albertbridge Accordion Band
3. Parkinson Accordion Band
4. Crimson Star Flute Band
5. Pride of the Hill, Carnmoney
6. Lord Carson Memorial Accordion
7. Hillview Flute Band
8. Gertrude Star Flute Band
9. Pride of the Shore
10. Pride of the Ravan
11. Rising Sons of Donaghadee
12. East Belfast True Blue Flute Band
13. Ballymacarrett Defenders Flute Band
14. Ballysillan Volunteers Flute Band
15. Shankill Road Protestant Boy Flute Band
16. Rising Sons of East Belfast Flute Band
17. Shankill Star
18. Pride of the Shankill Flute Band
19. Ballybeen Young Loyalist Flute Band
20. Pride of Laganvalley Flute Band
21. Fairhill Flute Band
22. Monkstown YCV Flute Band
23. East Belfast Protestant Boys
24. Shankill Road Defenders Flute Band
25. Millar Memorial Flute Band
26. Fusiliers Flute Band
27. Crown Defenders Flute Band
28. Mount Vernon Flute Band
29. Ballynafeigh Apprentice Boys
30. North Down Defenders Flute Band
31. Castlereagh Young Defenders Flute Band
32. Blues and Royals East Belfast

PFI/PPP Contracts

Matthew Taylor: To ask the Secretary of State for Northern Ireland how many contracts his Department had with *(a)* Barclays, *(b)* the Royal Bank of Scotland, *(c)* UBS Warburg and *(d)* the Bank of Scotland for advice on private finance initiative and public private partnership contracts in each financial year since 2001–02; and what fees were paid in each case. [186691]

Mr. Pearson: None of the 11 Northern Ireland Departments nor the Northern Ireland Office have entered into contracts with any of the institutions identified.

Public Bodies

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many positions on public bodies in Northern Ireland are occupied by persons aged under 25 years. [184938]

Mr. Paul Murphy: At the 16 July 2004, 16 persons aged under 25 held ministerial appointments to the Boards of public and other governing bodies in Northern Ireland.

Other information on appointments to bodies sponsored by Northern Ireland's 11 Government Departments can be found in the Public Appointments Annual Report for 2002–03. Information on appointments made by the Northern Ireland Office during the same period can be found in Appendix F of the NIO Departmental Report for 2004. Copies of both reports are available from the Library of the House and can be found on the internet at: www.ofmdfmni.gov.uk/publicappointments and www.nio.gov.uk/pdf/deptreport2004.pdf

Rail Network

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how much public money has been spent on *(a)* maintaining and *(b)* upgrading the rail network between Belfast and the border with the Irish Republic in each of the past five years. [185114]

Mr. Spellar: Public money spent on maintaining and upgrading the rail network between Belfast and the border with the Irish Republic in each of the past five years is as follows:

Infrastructure maintenance—Cross-border line

	£000
1999–2000	668
2000–01	691
2001–02	696
2002–03	720
2003–04	725
Total	3,500

This includes work carried out on the track, level crossings, bridges/embankments and buildings/stations.

Upgrading cross-border line

	£000
1999–2000	5,150
2000–01	1,175
2001–02	2,800

Upgrading cross-border line

	£000
2002–03	2,552
2003–04	5,700
Total	17,377

This includes work carried out on resignalling at Lurgan, the City junction to Central relay, fencing, conversion to full barrier and the installation of CCTV at Moira and Trummery accommodation crossings and the upgrading of Belfast Central station.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how much public money from Northern Ireland Departments has been spent on *(a)* maintaining and *(b)* improving the Enterprise rail service between Belfast and Dublin in each of the past five years. [185115]

Mr. Spellar: Public money spent on maintaining and improving the Enterprise rail service between Belfast and Dublin in each of the last five years is as follows:

	£000
1999–2000	523
2000–01	786
2001–02	932
2002–03	1,006
2003–04	1,200
Total	4,447

Within this, around £1.9 million was spent on routine maintenance of the rolling stock and around £2.5 million on the refurbishment of Enterprise carriages. Translink classify the latter as planned maintenance.

Mr. Beggs: To ask the Secretary of State for Northern Ireland pursuant to his answer of 15 July 2004, *Official Report*, column 1329W, on the Railway Review Group, if he will list the officials from *(a)* the Department for Regional Development, *(b)* the Department of Finance and Personnel and *(c)* Translink who are members of the Railway Review Group. [186305]

Mr. Spellar: Listed as follows are the officials from the Department for Regional Development, Department of Finance and Personnel, Translink and the Northern Ireland Transport Holding Company who are members of Railways Review Group.

Members of Railways Review Group

	Official
(a)	Doreen Brown (Department for Regional Development)—Joint Chairperson
	David Sterling (Department for Regional Development)
	Brian White (Department for Regional Development)
	Michael Pollock (Department for Regional Development)
	Garry McKenna (Department for Regional Development)
(b)	Michael Brennan (Department of Finance and Personnel)
(c)	Keith Moffatt (Translink)—Joint Chairperson
	Jim Aiken (Northern Ireland Transport Holding Company)
	Stephen Armstrong (Translink)
	Clive Bradberry (Translink)
	Mal McGreevy (Translink)

Mr. Beggs: To ask the Secretary of State for Northern Ireland what assessment he has made of the Department of Transport's New Approach to Transport Appraisal; and whether future investment decisions relating to Northern Ireland's railways network will be considered in the light of this report. [186855]

Mr. Spellar: The New Approach to Transport Appraisal is applied to all transport projects as set out in the "Guidance on Methodology for Multi Modal Studies" and this is fully consistent with the Treasury "Green Book-Appraisal and Evaluation in Central Government" which is used to inform investment decisions in Northern Ireland.

Royal Group of Hospitals, Belfast

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many people are employed in the Royal Group of Hospitals, Belfast in *(a)* clinical and medical, *(b)* secretarial and administrative, *(c)* ancillary and cleaning, *(d)* security and *(e)* catering positions; and what percentage in each category are non-Roman Catholics. [186989]

Angela Smith: The information requested is as follows. Clinical staff are those who provide a direct service to patients. Therefore, clinical staff within this trust include the following terms and conditions groups: nursing, midwifery and health visiting, professional and technical, medical and dental. It was impossible to break down the figures for ancillary and cleaning, security and catering as requested so information has been provided as detailed. Cleaning and security staff are employed by the Royal Group of Hospitals HSS and are included in the figures for operatives.

(a) Table 1: Number of clinical staff positions in the Royal Group of Hospitals HSS[1] Trust as at 23 July 2004 and percentage in each category that are non-Roman Catholics

Group	Headcount	WTE[2]	Percentage of staff non-Roman Catholic
Nursing, midwifery and health visiting staff	2,761	2,291.95	46.12
Professional and technical Staff	864	770.31	55.56
Medical staff	675	635.73	66.81
Dental staff	43	26.52	83.72

[1] Health and Social Services

[2] Whole time equivalent

(b) Table 2: Number of administration and clerical positions in the Royal Group of Hospitals HSS[1] Trust as at 23 July 2004 and percentage that are non-Roman Catholics

Group	Headcount	WTE[2]	Percentage of staff non-Roman Catholic
Administration and clerical staff	1,090	970.5	27.80

[1] Health and Social Services

[2] Whole time equivalent

(c), (d) and (e) Table 3: Number of ancillary and general positions in the Royal Group of Hospitals HSS[1] Trust as at 23 July 2004 and percentage that are non-Roman Catholics

Grades	Headcount	WTE[2]	Percentage of staff non-Roman Catholic
Operative	715	485.07	4.2
Catering assistant	155	109.00	7.1
Cook	27	24.59	18.52
Other grades	26	24.78	26.90

[1] Health and Social Services
[2] Whole time equivalent

Mr. Dodds: To ask the Secretary of State for Northern Ireland what measures are in place to ensure equality of opportunity for employment at the Royal Group of Hospitals, Belfast. [186990]

Angela Smith: The Royal Group of Hospitals carry out a three yearly review of their employment composition and practices in accordance with Article 55 of the Fair Employment and Treatment (Northern Ireland) Order 1998. The last review, carried out in 2002, was submitted to the Equality Commission, which is the body with responsibility to ensure compliance with the legislation. All job vacancies are advertised widely and the advert includes a statement welcoming applicants from groups which are currently under represented in the work force. The Royal Group of Hospitals also promotes equality of opportunity for all groups covered under section 75 of the Northern Ireland Act 1998.

Schools (New Build)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many schools in Northern Ireland he estimates will be replaced as a result of the new build programme which is under way. [186235]

Mr. Gardiner: The Department of Education's current capital building programme will result in 130 schools being replaced.

Second Homes

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of dwellings that were used as second homes in the towns of *(a)* Portballintrae, *(b)* Portstewart, *(c)* Portrush and *(d)* Castlerock last year. [186328]

Mr. Spellar: Although the use of dwellings as second homes has a significant impact on the housing market and on the housing stock available for permanent occupation by residents in certain areas, it is not possible to establish accurately the extent of second home use in specific areas without detailed field work. No estimates have therefore been produced for these towns.

Secondary Education

Kate Hoey: To ask the Secretary of State for Northern Ireland what the result was of the public consultation on *(a)* the future of grammar schools in Northern Ireland and *(b)* on the 11-plus examination in Northern Ireland. [187121]

Mr. Gardiner: There has been no consultation on the future of grammar schools, which will remain as an integral part of the schools system under new arrangements for post-primary education. Responses to the earlier consultation following the Burns report showed a clear majority favoured the abolition of the present 11-plus transfer test.

Sexual Abuse Victims

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what research he has collated on the number of individuals in Northern Ireland who have suffered sexual abuse. [183019]

Angela Smith: The information requested is not available, as cases of sexual abuse are largely unreported, and information on the number of people who have reported experiencing sexual abuse is not collected centrally.

Information is, however, available on the number of children who have been placed on the Child Protection Register because they are at risk of sexual abuse. At 31 March 2003, there were 238 such children.

In addition, during the financial year 2003–04, there were 1,780 notifiable sexual offences against adults and children recorded by the Police Service of Northern Ireland. During 2002–03, when in total 1,469 notifiable sexual offences were recorded, the victim was under 18 years of age in 851 cases (out of 1,418 cases where the age of the victim was known or applicable).

Sion Mills

Mr. Beggs: To ask the Secretary of State for Northern Ireland what future development is anticipated in the Sion Mills area up to 2030 that the wastewater treatment works due for completion in March 2006 will be designed to cater for. [186302]

Mr. Spellar: The Chief Executive of Water Services (Mrs. Katharine Bryan) has been asked to write to the hon. Member in response to this question.

Letter from Mrs. Katharine Bryan to Mr. Roy Beggs, dated September 2004:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question about anticipated future development in Sion Mills catered for in the design of the planned wastewater treatment works for the area. I have been asked to reply as Chief Executive of Water Service as the issue falls within my operational responsibility.

Water Service estimates that the existing wastewater treatment works at Sion Mills serves a population equivalent of some 3,100 taking account of both domestic and non-domestic properties. Water Service is proposing to undertake a major upgrade of the Works as it does not have capacity for dealing with significant additional flows.

The new Works will be designed to cater for a population equivalent of 3,700 by the year 2030. This has been assessed using established methodologies taking into account population growth and anticipated housing and commercial development. This projection does not take into account the recent proposal to develop the Herdman's Mills site in Sion Mills. This could have an impact on the required capacity of the new Works but the implications cannot be assessed at this stage. However, as the design of the Works is still at an early stage, it should be possible to allow for the impact of the proposals for the Herdman's Mills site at a later stage in the design.

Textiles Industry

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people were employed in the textiles industry in Northern Ireland in *(a)* June 2004 and *(b)* June 1999. [186245]

Mr. Spellar: The most up-to-date employee jobs data relates to March 2004. Estimates of the number of employee jobs in the textiles industry in Northern Ireland for June 1999, and March 2004 are as follows.

Employee jobs[1] in the textiles industry in Northern Ireland

	Number of employee jobs
June 1999	19,300
March 2004[1]	7,360

[1] Provisional

Note:
Figures are rounded to the nearest 10.
Figures are not seasonally adjusted

Titanic Quarter

Lady Hermon: To ask the Secretary of State for Northern Ireland what value he places on Northern Ireland's connection with the Titanic as a means of attracting visitors to Northern Ireland. [182609]

Mr. Gardiner: The Northern Ireland Tourist Board's 'Tourism in Northern Ireland—A Strategic Framework for Action 2004—2007' has identified Belfast, and in particular its historical connections with Titanic (Maritime) Belfast, as one of five signature projects for Northern Ireland tourism.

Belfast City Council and the Northern Ireland Tourist Board are currently in the process of commissioning research into realising the potential value of the 'Titanic' theme for Belfast and Northern Ireland. It is anticipated that this research will begin in September 2004 with the first draft results available by January 2005.

The Titanic brand could have substantial tourist potential, especially on the centenary in 2012 and the years immediately after. Conservatively, MAGNI (National Museums and Galleries of Northern Ireland) estimate that visitor numbers to a new museum attraction and to Belfast could be in the region of 300,000 per annum. Such is the interest in the Titanic and the city in which she was built, that it is considered that visitors will be attracted from all over the world.

Lady Hermon: To ask the Secretary of State for Northern Ireland how prominent a role the Titanic story will play in the proposed Museum for Sea and Sky at Titanic Quarter. [182611]

Angela Smith: So far as the possible development of a museum at Titanic Quarter is concerned, I would refer the hon. Member to the questions tabled on 28 June 2004, *Official Report*, column 56W (179804). It is anticipated that exhibitions on the Titanic will be included in this museum and would obviously feature prominently in the year 2012, the centenary of the Titanic disaster. The museum would also include exhibitions both temporary and permanent on themes related to, for example, the industrial history of Belfast and the story of the people of Northern Ireland.

University Admissions

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the lowest A level grades were with which students from *(a)* Northern Ireland and *(b)* outside the UK were admitted to each faculty at (i) Queen's University, Belfast and (ii) the University of Ulster in each of the last 10 years. [187447]

Mr. Gardiner: The Department for Employment and Learning does not hold A level grades for entrants to higher education institutions nor information by faculty. From 1994–95 to 2001–02 A level points scores and in 2002–03 tariff scores are held for full-time undergraduate entrants that accessed higher education through the Universities and Colleges Admissions Service (UCAS).

In each of the years between 1994–95 and 2002–03 the lowest recorded A level point-tariff score of students enrolled at both Queen's University Belfast and the University of Ulster was equivalent to one E at A level. Information on 2003–04 enrolments is not yet available.

Although this may be the lowest recorded A level score for entrants, institutions may consider a wide range of qualifications and experience in addition to or instead of A levels when considering student applications. It is also the case that A level point-tariff scores may not be available for all students applying directly to the institutions, students making late applications and some students from outside the UK who generally do not take A level examinations.

West Belfast Festival/Gasyard Feile

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how much public money has been allocated to the *(a)* West Belfast Festival and *(b)* Gasyard Feile in Londonderry in each of the last three years, broken down by Department. [183788]

Angela Smith: The amount of public money allocated by Northern Ireland Departments and their associated public bodies to *(a)* West Belfast Festival and *(b)* Gasyard Feile is as follows.

	West Belfast Festival	*Gasyard Feile*
2001–02	258,030	0
2002–03	358,138	0
2003–04	317,321	0

Detailed breakdown by department is as follows.

£

	Gasyard Feile			*West Belfast Festival*

PRIME MINISTER

Government Information

Matthew Taylor: To ask the Prime Minister whether Ministers are required to *(a)* consult and *(b)* notify other Ministers before deciding not to comply with recommendations by the Parliamentary Commissioner for Administration under the Code of Practice on access to Government information. [186609]

Mr. Leslie: I have been asked to reply.

Consultation between Ministers is conducted in accordance with the requirements of the Ministerial Code.

2012 Olympic Games

Mr. Don Foster: To ask the Prime Minister (1) what plans he has to create a new ministerial post with specific responsibility for London's bid for the 2012 Olympic Games; whether the post will carry Cabinet status; and if he will make a statement; [187183]

(2) what discussions regarding the creation of a new ministerial post with specific responsibility for London's bid for the 2012 Olympic Games he has held with *(a)* the Department for Culture, Media and Sport, *(b)* London 2012 and *(c)* other bodies; and if he will make a statement. [187184]

The Prime Minister: Current ministerial arrangements already provide for a Cabinet Minister with explicit responsibility for the Olympic bid. In this capacity, the Secretary of State for Culture, Media and Sport represents the Government, alongside the Mayor and the Chairman of the British Olympic Association, on the Stakeholders Panel, which is overseeing the delivery of the bid.

EU Army

Mr. Wiggin: To ask the Prime Minister what his policy is on the French Government's position on the establishment of an EU army. [186597]

The Prime Minister: The framework for the European Security and Defence Policy was set out in the European Council Conclusions from Nice in December 2000. These were unanimously agreed by all member states. They explicitly say that this policy "does not involve the establishment of a European army".

Intelligence Services

Mr. Wiggin: To ask the Prime Minister what research his Office has commissioned regarding reform of the United Kingdom's intelligence services. [186595]

The Prime Minister: I refer the hon. Member to my statement of 14 July 2004, *Official Report*, column 1431.

Iraq

Mr. Marshall-Andrews: To ask the Prime Minister on what date he was informed of the withdrawal of the Iraq intelligence reports to which paragraph 405 of Lord Butler's report refers. [186799]

Sir John Stanley: To ask the Prime Minister which official at No.10 Downing Street was first informed, by whom, and on what date, of the withdrawal of the intelligence on Iraqi production of chemical and biological agent referred to in paragraph 405 of the Butler Report. [186804]

The Prime Minister: I refer the hon. and right hon. Members to the answer I gave the hon. Member for Carmarthen East and Dinefwr (Mr. Adam Price), on 21 July, *Official Report*, column 285W.

Ministerial Visits

Peter Bottomley: To ask the Prime Minister if he will list the local authority areas he has not visited as Prime Minister. [186994]

The Prime Minister: The information is not held in the format requested. For visits I undertook during 2003, I refer the hon. Member to the answer I gave the hon. Member for Lewes (Mr. Norman Baker) on 26 April 2004, *Official Report*, columns 829–30W.

North Korea

Mr. Wiggin: To ask the Prime Minister if he will meet representatives from North Korea to discuss *(a)* its nuclear weapons programme and *(b)* security on the Korean peninsula. [186973]

The Prime Minister: I have no current plans to do so.

US Presidential Elections

Mr. Wiggin: To ask the Prime Minister whether he plans to meet *(a)* Mr. John Kerry and *(b)* President George W. Bush before the US presidential elections. [186593]

The Prime Minister: I have no current plans to do so.

Weapons of Mass Destruction

Mr. Wiggin: To ask the Prime Minister what research he has commissioned into the threats from weapons of mass destruction programmes in hostile countries. [186974]

The Prime Minister: The Government keep such threats under constant review.

Zimbabwe

Mr. Wiggin: To ask the Prime Minister what plans he has to meet leaders of other United Nations Security Council member states to discuss methods of resolving the humanitarian situation in Zimbabwe. [186596]

The Prime Minister: I have regular discussions with members of the United Nations including on Zimbabwe. We are considering the next steps at the UN with colleagues on the Security Council and in the General Assembly.

DEPUTY PRIME MINISTER

House Prices

Mr. Ruffley: To ask the Deputy Prime Minister what the percentage change in house prices in Suffolk was in each of the last seven years. [187211]

Keith Hill: The annual average property prices in Suffolk and the year-on-year percentage price changes for the past seven years have been as follows:

	Annual average price (£)	*Year-on-year percentage change*
1996	62,205	—
1997	68,377	9.9
1998	73,669	7.7
1999	81,221	10.3
2000	93,495	15.1
2001	106,018	13.4
2002	129,167	22.3
2003	149,167	15.1

Notes:
1. The figures reflect prices at the completion stage.
2. Purchases by sitting tenants (under "Right-to-Buy" schemes) are excluded because the prices are below market value.
3. Prices below £1,000 or above £20 million are also excluded—so that the average prices are not affected by outliers.
4. The average prices are simple averages, not mix-adjusted averages. The reason for this is that the number of transactions obtained through the Survey of Mortgage Lenders is relatively small for a single county. Consequently Land Registry figures have been used instead. However, these can only be presented as simple averages. It should be noted, however, that changes in simple average prices from one period to the next may reflect both actual price change and change in the mix of properties sold in the respective periods.

Source:
Land Registry

Mr. Hayes: To ask the Deputy Prime Minister if he will list average house prices by region in each year since 1997. [187325]

Keith Hill: The mix-adjusted average house prices by region for each year since 1997 have been as follows:

£

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
North East	56,503	58,965	63,866	66,599	69,656	82,391	94,590
North West[1]	62,951	67,555	72,158	77,923	85,059	99,122	108,956
Yorkshire and Humber	60,874	63,312	67,644	71,416	77,833	94,116	107,325
East Midlands	62,656	68,907	71,532	80,259	89,226	111,511	133,215
West Midlands	69,598	75,840	81,315	92,055	99,200	120,618	132,898
East	84,306	95,478	102,525	118,718	129,666	158,248	181,494
London	107,968	123,921	150,909	174,727	188,342	206,960	236,476
South East	98,329	113,194	124,490	147,220	161,049	187,562	213,115
South West	75,064	83,269	92,171	106,202	118,902	146,784	170,560
England	79,814	89,714	100,012	114,335	123,149	144,081	165,834

[1] Published figures for the whole of North West region are not available prior to 1999. So the figures shown for 1997 and 1998 are estimates derived from a weighted combination of published prices for Merseyside and for "North West excluding Merseyside".

Notes:
1. Mix-adjustment nullifies the effect of changes in the mix of properties sold from one period to the next through the use of fixed weights. New weights are introduced in January each year.
2. The above figures are based on mortgage completions only—i.e. they exclude purchases for cash.
3. Up to 2002, the figures are based on a 5 per cent. sample of completions obtained through the Survey of Mortgage Lenders. From 2003, the figures are based on a substantially larger sample.

Source:
Survey of Mortgage Lenders

Housing Demand

Mr. Hayes: To ask the Deputy Prime Minister (1) what his Department's estimate is of demand for housing units in each decade to 2050, broken down by UK region; [187330]

(2) what his Department's estimate is of extra demand for housing units by decade to 2050, by UK region. [187334]

Keith Hill: The following table shows growth in household numbers using the 1996-based household projections for English regions. These give the additional households projected to form if demographic trends continue. They are not estimates of demand as they do not take account of future economic trends and housing supply.

The household projections are to 2021 only. The figures show projected additional households between 2001 and 2011 and between 2001 and 2021.

Households in Thousands:

	2001 Base	*Growth to 2011*	*Growth to 2021*
England	20,992	1,527	3,008
North East	1,099	36	68
North West	2,875	122	235
Yorks. and Number	2,136	124	236
East Midlands	1,764	140	269
West Midlands	2,189	110	209
East	2,284	210	417
London	3,128	249	517
South East	3,403	332	657
South West	2,115	202	400

Mortgages

Mr. Hayes: To ask the Deputy Prime Minister what the average mortgage taken out by first time buyers was in each year since 1997. [187331]

Keith Hill: The average advance (mortgage) taken out by first-time buyers across the whole of the UK during each year since 1997 has been as follows.

Year	Average advance (£000)
1997	46,600
1998	50,900
1999	57,400
2000	60,500
2001	67,000
2002	80,300
2003	82,600

Note:
The term "first-time buyer" refers to buyers who were not homeowners immediately prior to this purchase.
Source:
Survey of Mortgage Lenders.
Figures are shown to the nearest 100.

Post Offices

Mr. Battle: To ask the Deputy Prime Minister when the Urban Deprived Fund will be extended to include post offices in the 20 per cent. most deprived wards. [186732]

Phil Hope: The Deprived Urban Post Office Fund (DUPOF) was created as a one-off programme to target the most deprived areas with a fixed amount of funding (£15 million) which will be fully allocated by the end of October.

There are no plans to extend the scheme.

Affordable Housing

Mr. Liddell-Grainger: To ask the Deputy Prime Minister what impact the additional funding granted to his Department in the 2004 Spending Review will have on the provision of affordable housing *(a)* in the Bridgwater parliamentary constituency and *(b)* in the South West; and what assessment he has made of the likely impact on the greenbelt and green spaces. [186540]

Keith Hill: The funding provided in the Spending Review will, along with efficiency improvements, produce 75,000 social rented homes and 40,000 homes for essential public sector workers and low cost homeownership over the three years to 2007–08. Decisions have not yet been taken on how Regional Housing Pot funding for 2006–07 and 2007–08 (including the additional funding for affordable housing) is split between regions. This needs to reflect the different pattern of needs across regions and the Government's national housing priorities, including development of the growth areas, and targets. The Office of the Deputy Prime Minister is aiming to complete this work, which raises some complex issues, by the end of the year.

The Office of the Deputy Prime Minister will announce decisions on allocation of funding within regions next summer in the light of recommendations from Regional Housing Boards, which are due in May next year.

Mr. Love: To ask the Deputy Prime Minister what research his Department has carried out to assess the impact of expanding shared ownership schemes on the production of affordable rental housing for key workers and low-income groups. [187530]

Keith Hill: The Office of the Deputy Prime Minister published the results of an Evaluation of the Housing Corporation funded Low Cost Home Ownership Programme in 2002. The research found that shared ownership proved good value for money for both the public purse and for the consumer.

Shared ownership provides a means of helping key workers, existing social tenants and those on housing waiting lists into home ownership while at the same time helping to reduce pressure on housing waiting lists and freeing up existing social rented accommodation for those in priority housing need. The balance between social rented and shared ownership accommodation is dependent on the Government's national housing priorities together with regional and local housing strategies and investment priorities.

The funding provided in the Spending Review 2004 will, along with efficiency improvements, produce 75,000 social rented homes and 40,000 homes for essential public sector workers and low cost home ownership over the three years to 2007–08.

Mr. Love: To ask the Deputy Prime Minister what assessment his Department has made of the credit needs of low and moderate income borrowers in relation to accessing affordable privately-rented accommodation. [187531]

Keith Hill: None.

Audit Commission

Mr. Edward Davey: To ask the Deputy Prime Minister how many full-time equivalent staff of the Audit Commission were working *(a)* in the Inspection Directorate, *(b)* in the Housing Inspectorate, *(c)* on the Comprehensive Performance Assessment, *(d)* on local authority audits and *(e)* in administration and management in each financial year since 2000–01. [187561]

Mr. Raynsford: This is an operational matter for the Audit Commission. I will ask the chief executive to write to the hon. Member and ensure that copies of the letter are made available in the Library of the House.

Building Regulations

Tom Cox: To ask the Deputy Prime Minister what steps his Department is taking to ensure conformity of requirements for fire safety under the Building Regulations 2000 and crime prevention measures introduced into the Building Act 1984 by the Sustainable and Secure Buildings Bill. [186791]

Phil Hope: It is anticipated that the Sustainable and Secure Buildings Bill will receive Royal Assent during September. It will provide an opportunity for Building Regulations to make a fuller contribution to government policies on sustainability and crime prevention. The regulations and guidance needed to implement the powers given by the Bill have not yet been drafted. When doing so, officials in the Office of the Deputy Prime Minister will identify the issues that are

amenable to control through the Building Regulations and seek the advice of the Building Regulations Advisory Committee and key stakeholders. The proposals will be subject to Regulatory Impact Assessment and public consultation in the usual way.

Tom Cox: To ask the Deputy Prime Minister whether fire safety requirements for occupants' means of escape and emergency access for the fire and rescue service in the current Building Regulations will take precedence over requirements for crime prevention measures due to be introduced into the Building Act 1984 and the Building Regulations by the Sustainable and Secure Buildings Bill. [186793]

Phil Hope: Security and means of escape and emergency access are important to life safety. However, the practical requirements can conflict if not considered holistically. When new Building Regulations and guidance are drafted for Security, officials in the Office of the Deputy Prime Minister will take advice from the Building Regulations Advisory Committee, key stakeholders and other experts, to ensure a sensible and safe balance is achieved. The proposals will be subject to Regulatory Impact Assessment and public consultation in the usual way.

Sue Doughty: To ask the Deputy Prime Minister what studies he has undertaken regarding the energy losses occurring in public and private heated swimming pool shells in advance of his forthcoming consultation document on improving the building regulations concerning the conservation of fuel and power. [187385]

Phil Hope: Proposals for amending the Building Regulations energy provisions next summer were published on 21 July 2004. The consultation document indicates that whilst initial studies have shown significant benefits could accrue from defining standards for pools, more investigations are needed to establish the costs and benefits on a national scale, and whether regulating would be cost-effective and proportionate. It will be impossible to complete the investigations in time to influence this amendment but it will be taken into account next time.

Departmental Accounts

Mr. Edward Davey: To ask the Deputy Prime Minister when his Department's resource accounts for 2004–05 will be published; and if he will make a statement. [187565]

Phil Hope: The accounts preparation is progressing according to timetable and publication will be before the statutory deadline of 31 January 2005.

Departmental Travel

Mr. Wiggin: To ask the Deputy Prime Minister what the cost of *(a)* air travel by and *(b)* overnight accommodation for his Department's officials on departmental business was in 2003–04. [186594]

Phil Hope: In 2003–04 the cost of *(a)* air travel was £356,500 and *(b)* overnight subsistence and accommodation was £1.437 million.

Derelict Homes

Mr. Hayes: To ask the Deputy Prime Minister what estimate has been made of the number of derelict homes; what proportion of these are council owned; what proportion of these are in *(a)* urban areas and *(b)* in the south east region; and if he will make a statement. [187328]

Keith Hill: The information requested is not held centrally, and could be provided only at disproportionate cost.

Designated Accommodation

Bob Spink: To ask the Deputy Prime Minister how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion and *(c)* nursing mothers and pregnant women in each building and set of offices for which his Department is responsible. [187320]

Phil Hope: The data requested is set out in the following table for the buildings occupied by officials of the Office of the Deputy Prime Minister. As indicated, a number of the rooms are shared with other Government Departments (OGDs).

Name	*Number of rooms for smoking*	*Number of rooms for Worship*	*Number of rooms for Nursing mothers and pregnant women*
26 Whitehall—London	1—Shared with OGD	1—Shared with OGD	1—Shared with OGD
Ashdown House—London	1—Shared with OGDs	1—Shared with OGDs	1—Shared with OGDs
Eland House—London	1	1	1
Portland House—London	0	1—Meeting room	1—First aid room.

Emergency Fire Service—Marchington	1—External Smoking Shelter	0	1—First aid room.
Temple Quay House—Bristol	1	0	0
QEII Conference Centre—London	1	1—private room available on staff request	1—private room available on staff request

Name	Number of rooms for smoking	Number of rooms for Worship	Number of rooms for Nursing mothers and pregnant women
Government Offices	8	2—dedicated (multi-faith) 3—Meeting rooms (can be used for prayer)	7—First aid rooms in 7 locations

The Office of the Deputy Prime Minister is an equal opportunities employer and is committed to providing an environment in which staff are able to work in safety and with religious tolerance.

Although the Office of the Deputy Prime Minister has overall responsibility for the buildings occupied by Government Offices, they carry out functions on behalf of 10 Departments.

East of England

Mr. Ruffley: To ask the Deputy Prime Minister what percentage of the East of England was classed as urban area *(a)* 30 years ago, *(b)* 10 years ago, *(c)* five years ago and *(d)* at the most recent date for which figures are available. [187212]

Keith Hill: The following information is available for land area designated for urban settlements with an associated population of 1,000 or more in the East of England.

Year	Percentage
1981	6.0
1991	6.5
2001	7.0

These figures relate to built-up areas, irrespective of administrative boundaries.

Empty Properties

Mr. Cousins: To ask the Deputy Prime Minister how many empty properties there were in each tenure sector in each authority in Tyne and Wear, according to the latest returns available. [186955]

Keith Hill: The latest available information on empty properties in Tyne and Wear is tabled below. This data has been provided from the Office of the Deputy Prime Minister's Housing Investment Programme returns.

Number of vacant dwellings in Tyne and Wear (Met County) at 1 April 2004

	Local authority	Registered social landlord	Other public sector	Other private sector	Total dwellings
Gateshead	525	94	7	2,936	3,562
Newcastle upon Tyne	1,413	350	385	3,020	5,168
North Tyneside	404	196	6	1,745	2,351
South Tyneside	449	48	0	922	1,419
Sunderland	0	1,401	0	1,185	2,586
Tyne and Wear	2,791	2,089	398	9,808	15,086

Source:
ODPM's Housing Investment Programme (HIP) returns.

EU Groups/Committees

Mr. Hayes: To ask the Deputy Prime Minister if he will list the working groups and committees at European Union level upon which his Department sits; and if he will list the current agenda of each. [187324]

Phil Hope: The working groups and committees at European Union level upon which the Office of the Deputy Prime Minister sits together with their current agendas are listed in the following table.

Name of working group	Current agenda
European Working Group on Land-Use Planning in the context of Article 12 of the Seveso II Directive 1	To provide guidance on the implementation of Article 12 of the Seveso II Directive addressing the issue of land-use planning in the vicinity of establishments handling dangerous substances.
National EIA and SEA experts Committee	To provide updates and exchange examples of good practice in Environmental Impact Assessment (EIA) and Strategic Environment Assessment (SEA).
Raw Materials Supply Group	To discuss a wide range of issues concerning the extractive industries with European industry trade associations. The Group examines improvements to industry environmental performance, such as restoration and aftercare, and other initiatives which may impinge in this sector and its competitiveness.
Working Group of the Environment Council on the proposed EU Directive on management of waste from the extractive industries	To debate and negotiate proposals for new European environmental legislation, and to forward dossiers to the Permanent Representatives Committee (Coreper).
Energy Performance of Buildings Directive Committee	To assist the Commission in the implementation of the directive.
Standing Committee on Construction (SCC)	To examine any questions posed by the implementation and the practical application of the Construction Products Directive (CPD).
Eurocodes National Correspondents Group	To assist in the implementation of the structural eurocodes.
The Committee on the Development and	To implement Structural Funds Regulations, as required under Article 48 of EU

Name of working group	Current agenda
Conversion of Regions (CDCR)	Regulation 1260/1999. It considers issues such as the simplification of funding rules, and other policy issues affecting funding programmes.
The Structural Actions Working Group	To address the reform of the Structural Funds for the next round of funding (post 2006), in the light of the "Report on the Economic and Social Cohesion of the EU". The committee will be negotiating the terms of the draft Structural Funds Regulations from September, which are likely to be finalised in the second half of 2005.
Urban Environment Expert Group	The current agenda is the Thematic Strategy on the Urban Environment, which is part of the 6th Environmental Action Plan.

Fire and Rescue Service

Mr. Liddell-Grainger: To ask the Deputy Prime Minister what assessment he has made of the operational efficiency of regional boundaries in relation to the re-organisation of local fire and rescue services. [186613]

Mr. Raynsford: The policy statement accompanying the draft Regional Assemblies Bill published in July 2004 confirmed that where voters choose to have an Elected Regional Assembly there will be a Regional Fire and Rescue Service. A referendum will take place in the North East on 4 November. Other than in regions where referendums are held, the Government have no plans to re-organise local fire and rescue services, which continue to be the responsibility of local Fire and Rescue Authorities.

All local Fire and Rescue Authorities are, however, expected to work together through Regional Management Boards to deliver the functions which are most efficiently and effectively performed at a regional level. These range from secure Regional Control Centres responding to the new dimension of environmental disaster and terrorist threat to purchasing consortia to secure better value for money for the taxpayer.

No new assessment has been conducted of the Government Office regional boundaries, but they are the basis on which a wide range of government activities are organised, including contingency planning to deal with civil emergencies.

Mr. Liddell-Grainger: To ask the Deputy Prime Minister what the basis was for the decision that a single regional fire control room should be created to cover the South West region; what assessment he has made of the operational advantages of such a reorganisation; and what assessment he has made of the impact on the number of deaths as a result of fire. [186698]

Mr. Raynsford: The Government accept the conclusions of the Mott MacDonald report on the "Future of Fire and Rescue Service Control Rooms in England and Wales", published in December 2003. The report concluded that the optimum solution to secure efficiency and effectiveness in the delivery of fire and rescue service control rooms would be nine control rooms in England, matched to the areas of the Government Offices for the Regions. Copies of the report are in the Library of the House.

The Government's conclusions about the benefits of a regional approach are set out in the White Paper "Our Fire and Rescue Service" (Cm 5808), and are informed by on a number of reviews of the service, culminating in the report of the Independent Review of the Fire Service published in December 2002. These reports are listed in the White Paper.

Mr. Clapham: To ask the Deputy Prime Minister what advice he has sought from *(a)* the Practitioners Forum and *(b)* the Business and Community Safety Forum on plans for a national procurement strategy for the Fire and Rescue Service; what details of his reform proposals each forum has seen; and what recommendations they have made to him. [186967]

Mr. Raynsford: The Practitioners Forum has had a presentation on the National Procurement Strategy. The Office of the Deputy Prime Minister expects to make copies of the strategy available to the Business Community Safety Forum shortly. The Strategy will be launched at the Fire Conference in September; formal consultation will take place shortly after its publication. Both groups will be consulted at that stage as part of the wider consultation. We will consider all comments before the publication of the final draft.

Mr. Clapham: To ask the Deputy Prime Minister when he plans to remove the constraints imposed on major procurement to the Fire and Rescue Service in November 2003. [186968]

Mr. Raynsford: Fire Service Circular (11/2004) gave advice to Fire and Rescue Authorities on the arrangements that fire and rescue authorities should adopt before entering into new contracts for major operational equipment. However, the period initially specified may have had the effect of making it impractical to run a tender exercise. The Office of the Deputy Prime Minister will therefore shortly be issuing guidance setting out revised milestones which will enable authorities to enter into more viable arrangements and create a natural progression to the proposed national arrangements. Where an Authority requires further clarification of whether a proposed contract will conflict with the National Procurement Strategy, they should not hesitate to contact the Office of the Deputy Prime Minister, as two authorities have already done.

Mr. Clapham: To ask the Deputy Prime Minister (1) what conclusions he has drawn on the effect that a national procurement plan for the Fire and Rescue Service will have on competition in the industries concerned; [186970]

(2) what assessment he has made of the impact that plans to reform guidelines for procurement to the Fire and Rescue Service will have on the supply sector's *(a)* small and medium-sized enterprises, *(b)* levels of employment, *(c)* research and development capability and *(d)* exports. [186969]

Mr. Raynsford: Officials in the Office of the Deputy Prime Minister are preparing a Regulatory Impact Assessment on the draft National Procurement Strategy. This Assessment, which will be issued shortly as part of the consultation document on the draft National Procurement Strategy, will include a competition assessment which will look at the impact for UK customers. It will analyse the impact of the proposed regulation in the relevant markets and on importers into the UK. We will carefully consider any comments arising from this consultation exercise. Officials have recently held very constructive meetings with representatives of the Federation of British Fire Organisations (FOBFO) and the Fire Fighting Vehicles Manufacturers Association (FFVMA). Lead officials will also be participating in the procurement workshop lead by FOBFO at the Fire Conference in September.

Home Buyers

Mr. Hayes: To ask the Deputy Prime Minister what proportion of home buyers were first-time buyers in each year since 1997; and if he will make a statement. [187326]

Keith Hill: The percentage of house purchases made by first time buyers in the United Kingdomin each year since 1997 is estimated to have been as follows:

	Percentage of house purchases made by first time buyers
1997	45
1998	48
1999	47
2000	44
2001	43
2002	38
2003	29

Notes:
1. The CML figures are based on mortgage completions supplied through the Survey of Mortgage Lenders.
2. The figures exclude cash purchases and also exclude mortgage purchases where the type of buyer was not stated.
3. In the context of the Survey of Mortgage Lenders, the term "first-time buyer" refers to those buyers who were not homeowners immediately prior to this purchase. But they might have been homeowners at an earlier stage in their lives. For example someone who, after a period of home ownership, sold up, moved into rented accommodation and is now returning to home ownership—as a "first-time buyer".

Council of Mortgage Lenders

Homelessness

Ms Keeble: To ask the Deputy Prime Minister what research his Department is conducting into homeless families. [186310]

Phil Hope: The Office of the Deputy Prime Minister currently has four externally commissioned research projects on different aspects of homelessness, which include consideration of homeless families.

1. A nationally representative survey of homeless families will collect data on the characteristics of homeless families and on the reasons for their homelessness. It will also assess the impact of homelessness and living in different types of temporary accommodation on the health and education of children, and collect information on the additional costs faced by families as a result of their homelessness. Findings from the survey will help to inform future policy on homelessness and the use of temporary accommodation. Planning for this major survey has been informed by a successful feasibility study, which reported this summer. This study will complement quarterly statistical data collected on households accepted as statutory homeless by local authorities.

2. Research about the causes of homelessness among black and minority ethnic communities. People from BME groups are disproportionately represented in statutory homelessness statistics. A development guide to assist local authorities and other agencies to address the needs of homeless black and minority ethnic households is expected to be published by the end of this year.

3. A study to evaluate the effectiveness of a range of homelessness prevention initiatives, including family mediation services, help for victims of domestic violence to remain safely in their own homes, and homelessness advice services. This research has recently been commissioned, and will produce good practice guidance for local authorities and service providers, to be published early in 2005.

4. A survey of households receiving Supporting People legacy funded services. This survey was commissioned to measure satisfaction with housing related support services provided by the Supporting People programme. The survey included interviews with 351 families receiving Supporting People funded services for homeless families. The survey reported on their support needs, the help and services that they receive, and on the problems they had experienced. It is due to be published in the autumn of 2004.

House Building

Mr. Liddell-Grainger: To ask the Deputy Prime Minister what guidance his Department has issued with respect to levels of new-house building *(a)* within the Bridgwater parliamentary constituency and *(b)* in the south west region; and if he will list for both areas the sites targeted for development. [186533]

Keith Hill: The First Secretary of State, my right hon. Friend the Deputy Prime Minister has not issued any guidance in respect of levels of new-house building *(a)* within the Bridgwater parliamentary constituency.

Regional Planning Guidance for the South West (RPG10), section 7: Housing gives guidance on new-house building in *(b)* the south west region. General guidance on appropriate levels of house building are also set out in Planning Policy Guidance Note 3: Housing.

The Office of the Deputy Prime Minister does not hold lists of development sites, such information is held by the local authorities.

Mr. Liddell-Grainger: To ask the Deputy Prime Minister what targets his Department has set with respect to levels of new-house building *(a)* within the Bridgwater parliamentary constituency and *(b)* in the South West region; and if he will make a statement. [186541]

Keith Hill: The First Secretary of State, my right hon. Friend the Deputy Prime Minister has not set any targets for levels of new-house building *(a)* within the Bridgwater parliamentary constituency.

The levels of housing development for *(b)* the South West region are set out in Regional Planning Guidance for the South West (RPG10). Policy HOI says the levels of net additional housing for which provision should be made in the South West region over the period 1996–2016 should be based on the average annual rate of 20,200 dwellings per annum.

Key Worker Accommodation

Mr. Hayes: To ask the Deputy Prime Minister what proportion of public sector employees are in accommodation designated for key workers; and if he will make a statement. [187327]

Keith Hill: The Office of the Deputy Prime Minister does not collect information about the proportion of public sector employees that are in accommodation designated for key workers. Information is, however, collected about the public sector employees given assistance with affordable housing through the following schemes:

under the Starter Home Initiative (SHI), 9,000 key workers were helped from the original £250 million budget. In addition, an extra £50 million was found to help a further 1,200 key workers in the SHI pipeline; and

around 3,800 key worker homes are being provided through the Housing Corporation's Challenge Fund; and

Key Worker Living is expected to provide up to 16,000 homes over the next three years.

In addition, English Partnership's London Wide Initiative will provide some 2,000 key worker homes over the next two to three years through a pilot scheme with private sector developers.

Local Authority Housing

Mr. Tony Clarke: To ask the Deputy Prime Minister how much has been spent by Northampton borough council in each year since 1997 on *(a)* refurbishment, *(b)* redecoration and *(c)* renewal of its directly-owned housing stock; and what the average spending per property was each year, excluding the amount spent on central Government schemes, including the New Deal. [186516]

Keith Hill: Work carried out on council housing stock is generally categorised as Capital and Revenue. The work carried out under the Capital heading includes installation, replacement or major repairs and could be categorised as refurbishment. Work under Revenue would consist of minor and routine repairs, including redecoration. Figures for Capital and Revenue spend since 1997 are set out in the following table:

	Capital (£ million)	*Revenue (£ million)*	*Total (£ million)*	*Average number of properties*	*Average spend (£)*
1997–98	2,557,000	9,241,851	11,798,851	15,272	773
1998–99	4,027,000	8,812,889	12,839,889	14,965	858
1999–2000	3,444,000	9,931,275	13,375,275	14,779	905
2000–01	6,519,000	9,241,717	15,760,717	14,439	1,092
2001–02	7,593,000	8,480,604	16,073,604	13,999	1,148
2002–03	7,956,000	9,752,773	17,708,773	13,568	1,305
2003–04	8,931,000	9,354,808	18,285,808	13,077	1,398
Total	41,027,000	64,815,916	105,842,916	—	—

Mr. Hayes: To ask the Deputy Prime Minister what proportion of council-owned homes are directly run by the council. [187329]

Keith Hill: The stock of local authority housing in England is currently about 2.3 million. Of this stock, about 575,000 dwellings are currently managed by Arms Length Management Organisations (ALMOs) and about 4,500 dwellings are managed as part of Private Finance Initiative (PFI) schemes. Therefore about three quarters of the stock is directly run by local authorities.

Local Government

Mr. Bill O'Brien: To ask the Deputy Prime Minister what changes have been made to the 1988 Local Authority Publicity provisions, with particular reference to paragraph 43 on political publicity prior to an election; and if he will make a statement. [186319]

Mr. Raynsford: The Code of Recommended Practice on Local Authority Publicity, (Department of Environment Circular 20/88) was amended in April 2001 to take account of the new council constitutions, particularly the possibility of individual members holding executive positions, and of mayoral referendums and petitions.

The amended Code provides for restrictions on publicity in circumstances where there is a by-election or election affecting the local authority's area, a mayoral referendum or a mayoral petition. The 2001 amendment explicitly enables local authorities to respond to events or enquiries during the period preceding an election or referendum with answers that are factual and not party political.

Bob Spink: To ask the Deputy Prime Minister what the Audit Commission's latest ratings are for councils in *(a)* Essex and *(b)* the Eastern area. [186534]

Mr. Raynsford: The information is as follows:

(a) The Audit Commission announced the results of the Comprehensive Performance Assessment (CPA) for district councils in the county of Essex in June this year. The outcomes of the assessments for Maldon and Rochford district councils have not yet been published.

The results are listed in the following table along with the results for Essex county council and single tier councils in Essex.

Council	Rating
Essex County Council[1]	Good
Basildon DC	Fair
Braintree DC	Good
Brentwood BC	Good
Castle Point DC	Poor
Chelmsford BC	Good
Colchester BC	Excellent
Epping Forest DC	Good
Harlow DC	Poor
Southend on Sea BC[1]	Fair
Tendring DC	Good
Thurrock[1]	Weak
Uttlesford DC	Fair

[1] Single tier and county councils.

(b) The table below shows the CPA results for councils in the counties of Bedfordshire, Cambridgeshire, Hertfordshire and Norfolk. District councils in the County of Suffolk have yet to be assessed. The exception is Ipswich, in Suffolk, which was a Pathfinder council for the CPA methodology and was rated as a 'good' council. CPA categories for Single Tier and County Councils were last announced in December 2003 and their results will be updated again in December 2004. All district councils will have been assessed by December 2004.

Council	CPA Rating	Date Assessment Published
Bedfordshire County[1]	Poor	18 December 2003
Bedford BC	Good	22 July 2004
Luton BC[1]	Good	18 December 2003
Mid Bedfordshire DC	Fair	22 July 2004
South Bedfordshire DC	Good	22 July 2004
Cambridgeshire County[1]	Good	18 December 2003
Cambridge CC (Pathfinder)	Excellent	22 January 2004
East Cambridgeshire DC	Good	22 July 2004
Fenland DC	Fair	22 July 2004
Huntingdonshire DC	Excellent	22 July 2004
Peterborough CC[1]	Fair	18 December 2003
South Cambridgeshire DC	Fair	22 July 2004
Hertfordshire County[1]	Excellent	18 December 2 003
Broxbourne BC	Good	6 May 2004
Dacorum BC	Good	6 May 2004
East Hertfordshire DC	Good	6 May 2004
Hertsmere BC	Fair	6 May 2004
North Hertfordshire DC	Fair	6 May 2004
St Albans CC	Fair	6 May 2004
Stevenage BC	Good	6 May 2004
Three Rivers DC	Good	6 May 2004
Watford BC	Weak	6 May 2004
Welwyn Hatfield DC	Fair	6 May 2004
Norfolk County[1]	Good	18 December 2003
Breckland DC	Good	13 November 2003
Broadland DC	Fair	13 November 2003
Great Yarmouth BC	Good	13 November 2003
King's Lynn and West Norfolk BC	Good	13 November 2003
North Norfolk DC	Fair	13 November 2003
Norwich CC	Fair	13 November 2003
South Norfolk DC	Good	13 November 2003
Suffolk County[1]	Good	18 December 2003
Ipswich BC	Good	22 January 2004

[1] Single tier and county councils.

Bob Spink: To ask the Deputy Prime Minister how many councils in England were assessed as *(a)* excellent, *(b)* good, *(c)* fair and *(d)* weak in the last available assessment. [186535]

Mr. Raynsford: Tables showing the latest results for all single tier and county councils and for all the district councils that have been assessed so far (189 out of 238 councils altogether) have been made available in the Library of the House. Since the Comprehensive Performance Assessment categories for all single tier and county councils were last announced (December 2003), a number of councils have had a corporate re-assessment in 2004, seven of which have now moved up a category. These councils are Coventry, Durham, North Lincolnshire, Southwark, St Helens, Wakefield and Walsall.

Mrs. Spelman: To ask the Deputy Prime Minister what guidance his Department has issued relating to local authority websites; whether this includes guidance on external links to councillors' party political websites; and if he will make a statement. [186134]

Mr. Raynsford: The Office of the Deputy Prime Minister has issued no guidance specifically concerned with local authority websites.

The Department for Environment, Transport and Regions Circular 06/2001 "Code of Recommended Practice on Local Authority Publicity", issued under section 4 of the Local Government Act 1986, sets out certain limits on the nature of material to which a local authority may devote expenditure. It recommends that local authorities should not solely rely on websites as a means of disseminating information, and it sets out that local authority publications, including those published on local authority websites, should treat issues in an objective and informative way. The code does not stipulate which sites may or may not be linked to by a local authority website.

Bob Spink: To ask the Deputy Prime Minister (1) if he will apply the 2001 Census data for the next round of calculating the local government finance settlement; [187598]

(2) whether it is his policy to use the most up-to-date data available for calculating grant distribution to local authorities; and if he will make a statement. [187599]

Mr. Raynsford: On 21 July 2004, I announced to the House that the Office of the Deputy Prime Minister does not intend to use 2001 Census data for the 2005–06 Local Government Finance Settlement, 21 July 2004, *Official Report*, column 30WS.

This announcement followed work carried out by officials from the Office of the Deputy Prime Minister and local government experts during the last year to remodel Formula Spending Shares (FSSs) using the 2001 Census data. Incorporating the new Census data in the funding formula is not a simple task. It is technically incorrect to update the Census data in the police formula; and in other areas the changes needed to incorporate the 2001 Census data would break the current formula freeze, and could cause large changes to the distribution of FSSs. I should also add that, for the Environmental, Protective and Cultural Services and the Highways Maintenance formulae, we still do not have all the 2001 Census data we need.

In the Government's December 2001 White Paper 'Strong Local Leadership—Quality Public Services' (CM5237), it was announced that there would be a

freeze on formula changes for 2004–05 and 2005–06 in order to ensure a period of stability for councils. In deciding not to use 2001 Census data in the 2005–06 FSS calculations, the Office of the Deputy Prime Minister balanced this aim of providing stability in local authority funding against our desire to use the most up-to-date data in the funding formulae calculations.

Mr. Jenkin: To ask the Deputy Prime Minister what the cost was of the Boundary Committee Review of local government in *(a)* the North East, *(b)* the North West and *(c)* Yorkshire and the Humber. [187254]

Mr. Raynsford: The costs of the local government reviews undertaken by the Boundary Committee were:

	£ million
North East Region	1,272,168
North West Region	1,973,416
Yorkshire and Humber Region	662,983

Non-domestic Rates

Mr. Dhanda: To ask the Deputy Prime Minister pursuant to his answer of 1 March 2004, *Official Report*, column 753W, on the non-domestic rate pool, whether *(a)* the police and *(b)* other agencies in Gloucestershire were allocated funding from non-domestic rates in 2003–04. [186327]

Mr. Raynsford: Distributions from the non-domestic rate pool are currently based on population and the services which a local authority is responsible for. The national amount per head for 2003–04 was £317.1934786, and the relevant population of Gloucestershire for the 2003–04 Local Government Finance Settlement was 565,000. The resulting total of £179,214,316 from the non-domestic rate pool for the Gloucestershire area was allocated between the Gloucestershire billing and precepting authorities as follows:

	£
Gloucestershire County Council	151,436,097
Gloucestershire Police Authority	8,064,644
Cheltenham Borough Council	3,839,576
Cotswold District Council	2,804,945
Forest of Dean District Council	2,792,873
Gloucester City Council	3,836,122
Stroud District Council	3,770,422
Tewkesbury Borough Council	2,669,637

The Fire Authorities in shire areas were not precepting authorities in 2003–04 and so did not receive a share of the non-domestic rate pool in that year. No other agencies in Gloucestershire received a share of the £179,214,316 for the Gloucestershire area.

One North East

Mr. Cousins: To ask the Deputy Prime Minister what the value of assets transferred from One North East to the partnership with UK Land Estates was; and what the *(a)* cost and *(b)* source of the advice obtained by One North East before the sale was. [186846]

Keith Hill: The assets transferred (as disclosed in the Agency's 2003–04 accounts as a post balance sheet event) were valued at £122 million.

The cost of advice sought was £2.2 million.

The main costs can be broken down as follows:

	£000
1. Legal advice	970
2. Property Consultant costs	544
3. Surveying costs	515
4. Accounting, tax and other technical advice	160

Specialist advice was received from Eversheds (Legal), King Sturge (Property Specialists), PriceWaterhouseCoopers (Tax) and PartnershipsUK (more General advice).

Parliamentary Questions

Mrs. Spelman: To ask the Deputy Prime Minister when he will reply to the Question tabled by the hon. Member for Meriden on 21 June, reference 180362, on refurbishment of buildings. [186418]

Phil Hope: A reply was given to the hon. Member on 13 August 2004.

PFI/PPP Contracts

Matthew Taylor: To ask the Deputy Prime Minister how many contracts his Office had with *(a)* Barclays, *(b)* the Royal Bank of Scotland, *(c)* UBS Warburg, *(d)* the Bank of Scotland, *(e)* PriceWaterhouseCoopers, *(f)* Deloitte and Touche, *(g)* KPMG and *(h)* Ernst & Young for advice on private finance initiative and public private partnership contracts in each financial year since 2001–02; and what fees were paid in each case. [186695]

Mr. Raynsford: Since 2001–02, the Office of the Deputy Prime Minister has had two contracts, one with Ernst & Young and the other with PriceWaterhouseCoopers, both in 2003–04. Ernst & Young was paid £62,734 excluding VAT to review the Fire and Rescue Service private finance initiative programme.

PriceWaterhouseCoopers carried out work on the Housing Private Finance Initiative Procurement Pack. The Housing Procurement Pack was jointly procured with the 4Ps, (Public Private Partnerships Programme) an agency of the Local Government Association set up to provide advice to local authorities on PPP/PFIs. The total fee paid was £57,486 excluding VAT. 50 per cent. of the fees paid by the Office will be recovered from the 4Ps.

Planning

Bob Russell: To ask the Deputy Prime Minister if he will require a start on works to activate a time-limited planning approval to represent at least a quarter of the development; and if he will make a statement. [186980]

Keith Hill: Under section 56 of the Town and Country Planning Act 1990, a variety of works is held to constitute the start of development. A material change of use of land may also indicate that development

has started, provided the change is related to the development. There are no plans to amend the law in the manner suggested.

Bob Russell: To ask the Deputy Prime Minister what the minimum requirement of works commenced is for a time-limited planning approval to be activated; and if he will make a statement. [186981]

Keith Hill: The activities that may indicate that a planning permission has begun to be implemented include: any work of construction; demolition of a building on the site; the digging of a trench to contain foundations; the laying of any underground main or pipe to the foundations; laying out an access road; and any material change in the use of the land. The full list is in section 56 of the Town and Country Planning Act 1990.

Mr. Liddell-Grainger: To ask the Deputy Prime Minister when the revised Planning Policy Guidance, PPG22, on renewable energy will be published; and if he will make a statement. [186557]

Keith Hill: Planning policy statement 22 (PPS22) on renewable energy was published on 9 August 2004. Copies of the document are available in the Libraries of the House and have been sent out to all planning authorities in England.

Mr. Bellingham: To ask the Deputy Prime Minister (1) when the Government will publish good practice guidance for local authorities and developers on the planning obligations; [187150]

(2) when the Government plan to issue a revised circular on planning obligations. [187175]

Keith Hill: The Office of the Deputy Prime Minister aims to publish a Good Practice Guide on planning obligations in early 2005, alongside a new circular on planning obligations. A draft of the new circular is to be issued for consultation in the autumn.

The Office of the Deputy Prime Minister is also continuing work on developing proposals for an optional planning charge, so that decisions on implementation can be made in the context of the Chancellor's decision on a Planning Gain Supplement at the end of 2005.

Jim Knight: To ask the Deputy Prime Minister how many local authorities have conducted needs assessments on sport, recreation and open space facilities as required by Planning Policy Guidance Note 17. [187383]

Keith Hill: PPG17 was published in July 2002. An assessment of its implementation and effectiveness will be undertaken as part of the normal policy review process within five years of publication.

The collection of regular statistics on the implementation of specific national planning policies could be attained only at disproportionate cost. However, Government offices do scrutinise statutory development plans for compliance with national policies before these plans are adopted.

Under the new planning system local development frameworks must be supported by an evidence base comprising data such as that required by PPG17. Where this evidence falls short of such a requirement, inspectors could rule at public examination that the plan did not meet the test of soundness. Subsequently authorities' annual monitoring reports which will report upon policy performance, will also provide a mechanism by which Government offices can assess whether PPG 17 requirements continue to be met.

Postal Voting

Peter Bottomley: To ask the Deputy Prime Minister how he assessed the *(a)* support for and *(b)* problems of all postal voting in (i) the North East, (ii) the North West and (iii) Yorkshire and the Humber. [186997]

Mr. Raynsford: The Government listened to the concerns raised in the Commons debates on 19 and 21 July about whether we should go ahead with referendums in the North West and Yorkshire and the Humber. In light of these, the Government decided to proceed with the referendum in the North East, subject to the Electoral Commission's report. The Government also decided to reschedule referendums in the North West and Yorkshire and the Humber once we had considered the report prepared by the Electoral Commission. This report was published on 27 August.

Peter Bottomley: To ask the Deputy Prime Minister what steps he is taking to prevent the postal vote problems in the North West and Yorkshire and the Humber from appearing in the North East. [186998]

Mr. Raynsford: The rules for the North East referendum were approved by Parliament in July. The administration of the North East referendum is for the Chief Counting Officer, Ged Fitzgerald, Chief Executive of Sunderland city council and for the local counting officers.

The Electoral Commission published their report into the June electoral pilots on 27 August and has said:

"The Commission has therefore considered carefully, in the light of our conclusions in relation to postal voting more generally, whether it is appropriate for the referendum in the North East to continue as planned . . . . .our conclusion is that the referendum should proceed as an all-postal ballot without major changes to the process."

In reaching this conclusion the Electoral Commission highlighted the desirability of avoiding late changes in a process already approved by Parliament, and a number of additional factors specific to the North East referendum, as follows:

The form of all postal-voting defined in law for the regional referendum is a significant improvement over that piloted in June, in part as a result of changes advocated by the Commission earlier in the year. For example there is no requirement for a witness to sign the security statement and more assistance and delivery points are provided for and discretion given to counting officers to provide additional points as they see fit.

There is presently no evidence on which to conclude that an all-postal referendum in the North East would be unsafe in terms of fraud or malpractice. To the Commission's knowledge, no allegations of electoral fraud made in the North East in relation to the June all-postal pilot scheme have led to formal prosecutions.

Voters and election professionals in the North East have substantial previous experience of all-postal ballots.

The public is more positive about all-postal voting, and its future use, in the North East than in any other pilot region; and

The capacity of commercial printers and the Royal Mail to manage an all-postal ballot of the scale required in the North East (with approximately 1.9 million electors) was evidenced in June and their capacity will be further enhanced by the lack of competing pressures from other all-postal ballots taking place simultaneously. Additionally, planning between printers, local authorities and other key suppliers is already well under way.

The Office of the Deputy Prime Minister is considering the Electoral Commission's report and will make a statement to Parliament about the implications for the regional referendums soon.

Private Sector Housing

Mr. Love: To ask the Deputy Prime Minister what research his Department has carried out into potential policy mechanisms aimed at stimulating growth in the private rented sector. [187532]

Keith Hill: The Office of the Deputy Prime Minister is committed to securing a larger, better-quality, better-managed private rented sector. The Housing Bill currently before Parliament includes a number of measures, the licensing of private rented properties, designed to help achieve this objective.

The Office of the Deputy Prime Minister's research has recently focused on aspects of the condition and management of properties in the private rented sector which are key to building market confidence.

Recent research carried out for the Office of the Deputy Prime Minister has included: powers for private sector housing renewal; the housing health and safety rating system and houses in multiple occupation; tenancy deposit schemes; the economics of the park homes industry; run-down private sector housing; fiscal policy options to promote affordable housing; voluntary accreditation schemes; and harassment and unlawful eviction of private sector tenants and park home residents.

The English House Condition Survey (EHCS) is also used to monitor overall improvements in the sector.

Mr. Love: To ask the Deputy Prime Minister what measures his Department is taking to stimulate private sector involvement in the delivery of *(a)* shared equity and *(b)* privately-rented accommodation. [187536]

Keith Hill: The Housing Bill, currently before Parliament, contains a provision that would allow the Housing Corporation to pay grants to bodies other than Registered Social Landlords (RSLs). Such grants would be essentially for the same housing purposes as the Corporation's grants to RSLs. This could include the provision of shared equity schemes such as Homebuy.

The Government are keen to secure a larger contribution from the private rented sector towards meeting housing need. Measures in the Housing Bill should raise the standards, the professionalism, and the reputation of the sector. Consultations are also under way on ways of encouraging new institutional investment in residential property, including the use of Property Investment Fund.

Public Bodies

Mr. Edward Davey: To ask the Deputy Prime Minister what the estimated *(a)* total budget, *(b)* departmental funding and *(c)* cost to his Department of the (i) Property Consultative Group, (ii) Home Buying and Selling Forum, (iii) Central Stakeholder Group, (iv) Building Regulations Advisory Committee and (v) Home Ownership Task Force are for the financial years 2005–06 to 2007–08. [187564]

Keith Hill: With regard to the Property Consultative Group, I refer the hon. Member to the answer given on 28 April 2004, *Official Report*, column 1139W.

The Home Buying and Selling Forum and Central Stakeholder Groups are hosted by the Office of the Deputy Prime Minister, in one of its buildings and the costs falls within its general administration and staff budget: there is no separate budget for these groups. The estimated costs for the financial years 2005–06 to 2007–08 are not expected to change significantly from those quoted for 2004–05, in the answer given on 30 June 2004, *Official Report*, column 294W.

The Building Regulations Advisory Committee does not receive Government funding other than costs internal to the Office of the Deputy Prime Minister of sponsoring it. We are unable to estimate costs for the financial years 2005–06 to 2007–08, but do not expect them to change significantly from the £70,000 quoted for 2003–04 on 28 April 2004, *Official Report*, column 1140W.

With regard to the Home Ownership Task Force, the answer is none. The Task Force's work was completed with the publication of its report "A Home of My Own" on 13 November 2003.

Regional Assemblies

Peter Bottomley: To ask the Deputy Prime Minister what information was available to his Ministers on 22 July about the likely outcomes of votes for regional assemblies. [186995]

Mr. Raynsford: Ministers were aware of a number of published surveys and opinion polls. The decision to reschedule the referendums in Yorkshire and the Humber and the North West followed differences of view in the House of Commons about whether the Office of the Deputy Prime Minister should go ahead with those referendums, on the basis proposed involving all postal ballots, by November 4.

Peter Bottomley: To ask the Deputy Prime Minister if he will estimate the resources which have been put into preparing for the postponed votes on regional assemblies. [186996]

Mr. Raynsford: The referendums for Yorkshire and the Humber and the North West are being rescheduled, so preparation for them has been and still is necessary. Some of the preparations are common to all three regions. The main costs incurred by the Office of the Deputy Prime Minister which can be attributed to the North West and Yorkshire and the Humber are as follows:

The costs for the Boundary Committee's local government reviews in these two regions is included in the answer I am giving to the hon. Member for North Essex (Mr. Jenkin) today (PQ 187254).

Some costs in relation to the Your Say information campaign. These are detailed in the answer I am giving to the hon. Member for North Essex (Mr. Jenkin) today (PQ 187162).

Mr. Jenkin: To ask the Deputy Prime Minister (1) what the total cost is of the Your Say information campaign on elected regional assemblies in *(a)* the North West, *(b)* Yorkshire and the Humber and *(c)* the North East to date; [187162]

(2) what his revised estimate is of the total cost of the Your Say information campaigns in the light of the postponement of the referendums in the North West and Yorkshire and the Humber; [187252]

(3) if he will list each item of expenditure undertaken as part of the Your Say information campaign on elected regional assemblies, broken down by the region in which that expenditure was undertaken. [187253]

Mr. Raynsford: Originally, the Office of the Deputy Prime Minister proposed a budget for the Your Say information campaign across all three regions of £5 million.

Information campaign activity relating to the North West and Yorkshire and the Humber was suspended on 22 July. The Department has sought to secure refunds for expenditure related to these two regions, wherever possible.

It is estimated that total expenditure until the referendum in November will be approximately £3.2 million.

Expected expenditure to the end of the campaign can be broken down by region, into its main components, thus:

£000

	North West	*Yorkshire and the Humber*	*North East*	*Total*
(a) Production and distribution of leaflets	98	72	308	478
(b) Posters	232	193	86	511
(c) Broadcast media	242	211	223	676
(d) Newspapers	137	158	128	423
(e) Events	49	39	68	156
(f) Other	309	278	408	995
Total	1,067	951	1,221	3,239

Regional Bodies (South-West)

Mr. Liddell-Grainger: To ask the Deputy Prime Minister what has been the cost *(a)* each year and *(b)* in total since their inception of the regional bodies in the South West that fall under the remit of his Department; what responsibilities these regional bodies hold; what these regional bodies' total budgets are; what assessment he has made of their impact; and if he will make a statement. [186538]

Mr. Raynsford: The Office of the Deputy Prime Minister is responsible for no regional bodies in the South West. The Office of the Deputy Prime Minister is responsible for the Government Office for the South West, which is part of central Government and is not a regional body in its own right.

My right hon. Friend the Deputy Prime Minister has designated a regional chamber for the South West, under the terms of the Regional Development Agencies Act 1998. However, the chamber is an independent, voluntary body and is not the responsibility of the Office of the Deputy Prime Minister. The Office of the Deputy Prime Minister makes a grant to the chamber to help it fulfil its responsibilities.

Since designation in 1999 the regional chamber has been responsible for scrutinising the work of the South West Regional Development Agency and since 2003 has been the recognised Regional Planning Body for the South West. The chamber has been allocated the following maximum levels of grant:

	£
2001–02	500,000
2002–03	600,000
2003–04	1,613,000
2004–05	2,101,000

Regional Planning

Mr. Andrew Turner: To ask the Deputy Prime Minister what rules govern whether a unitary council's area can be treated as a sub-region for the purpose of regional planning arrangements. [187716]

Keith Hill: There is no rule. It is up to each RPB (Regional Planning Body) to decide how best to take sub-regional matters forward and to define the sub-regions in the draft RSS (Regional Spatial Strategies) revision. What might be an effective sub-regional approach in one region may not necessarily suit the circumstances and geography of another.

The definition of need for a sub-regional approach should be based on an assessment of the functional relationship between settlements, such as journey-to-work patterns, or land uses within the area affected by the same strategic planning issue or issues which may well differ from administrative boundaries. This could include consideration, for example, of how the strategic planning system can assist not only in creating and sustaining the economic competitiveness of a city or a cluster of towns but in spreading the benefits of a prosperous city to the wider region (the concept of a 'city-region').

The sub-regional definition should be based on a clearly recognisable 'strategic policy deficit' which cannot be adequately addressed by general RSS policies or by LDDs (Local Development Documents) on their own. In some parts of a region, LDDs may be capable of being prepared within the context of the generic policies of a RSS. In some cases this may need to be on a joint LDD basis and the RPB may need to encourage the relevant LPAs (Local Planning Authorities) to produce a joint LDD in order that the RSS can be effectively implemented. However, in many cases there will be sub-regional strategies issues which cannot be tackled through a joint plan or where the LDDs require a more detailed strategic policy context which cannot be provided by generic policies in a RSS. Therefore, it will be common to have sub-regional policies as part of the RSS revision.

Where the RPB decides that it is appropriate to have RSS policies which are specific to a particular part or parts of the region, section 5(5) of the Act requires a section 4 (4) authority or authorities to be first to make detailed proposals, unless it is agreed that the RPB itself or a district council should do so instead. Providing these section 4(4) authorities agree, there is no reason why an RPB should not continue to take the lead, as it has in the past, in preparing detailed proposals on a partnership basis with these authorities and others.

Planning Policy Statement 11: Regional Spatial Strategies (PPS11) will be published on 7 September 2004. Until now it was only available as a draft.

Suffolk Fire Authority

Mr. Ruffley: To ask the Deputy Prime Minister how many firefighters were employed by the Suffolk Fire Authority *(a)* in 2004–05 and *(b)* in each of the last 10 years. [187208]

Mr. Raynsford: The information requested is set out as follows:

Number of firefighters employed by Suffolk

Year[1]	Whole-time	Retained	Total
2004	244	399	643
2003	250	415	665
2002	253	401	654
2001	248	404	652
2000	249	396	645
1999	256	400	656
1998	252	418	670
1997	256	423	679
1996	258	422	680
1995	267	415	682
1994	264	421	685

[1] Data refer to workforce as at 31 March for each year except 1995, where data refer to 1 January.

Supporting People Programme

Mr. Hancock: To ask the Deputy Prime Minister if he will make it his policy to commission research into the effects on vulnerable people of changes in funding for the Supporting People programme. [187523]

Keith Hill: The Office of the Deputy Prime Minister undertakes extensive monitoring and research to assess the success of the Supporting People programme. The Office of the Deputy Prime Minister will continue to monitor progress to ensure the programme protects vulnerable people in a cost effective and efficient manner.

DEFENCE

Army Recruitment

Mr. Garnier: To ask the Secretary of State for Defence how many *(a)* officers and *(b)* other ranks have been recruited into each infantry battalion in each of the last five years for which figures are available; and how many are planned to be recruited in each of the next five years. [187342]

Mr. Ingram: The following tables show the number of officers and other ranks that were recruited into infantry battalions since financial year 2000–01. Statistics prior to this period are not available.

Table 1: Officers commissioned into the Infantry since financial year 2000–01 by regiment

Regiment	Financial year 2000–01	2001–02	2002–03	2003–04
Grenadier Guards	9	7	2	7
Coldstream Guards	6	2	6	12
Scots Guards	4	10	3	7
Irish Guards	8	4	3	3
Welsh Guards	2	6	3	3
Royal Scots	7	3	2	7

King's Own Scottish Borderers	4	4	2	4
Black Watch Highlanders	7	7	5	6
Argyll and Sutherland Highlanders	7	3	8	4
Princess of Wales's Royal Regiment	5	5	7	6
Royal Regiment of Fusiliers	6	6	10	12
Royal Anglian Regiment	12	14	10	8
King's Own Border Regiment	11	8	9	10
King's Regiment	4	4	6	6
Prince of Wales's Own Regiment	2	3	3	4
Green Howards	4	4	4	3
Queen's Lancashire Regiment	1	2	10	5
Duke of Wellington's Regiment	1	3	4	4
Devonshire and Dorset Regiment	6	4	5	2
Cheshire Regiment	6	4	6	3
Royal Welsh Fusiliers	2	1	9	1
Royal Regiment of Wales	6	1	6	5
Royal Gloucestershire, Berkshire and Wiltshire Regiment	3	1	4	1
Worcestershire and Sherwood Foresters Regiment	1	6	8	4
Staffordshire Regiment	6	6	5	5
Light Infantry	6	3	3	7
Royal Green Jackets	8	10	30	10
Royal Irish Regiment	12	11	12	10
Parachute Regiment	8	1	4	8
Royal Gurkha Rifles	12	16	19	14
	8	10	4	6
Total	188	170	196	148

Table 2: Trained soldiers passing out from Infantry training centre Catterick to the Infantry since financial year 2000–01 by regiment

Regiment	Financial year 2000–01	2001–02	2002–03	2003–04
Grenadier Guards	119	108	78	137
Coldstream Guards	87	50	51	119
Scots Guards	91	78	50	83
Irish Guards	72	87	62	99
Welsh Guards	111	64	57	87
Royal Scots	56	59	79	56
Royal Highland Fusiliers	55	52	97	85
King's Own Scottish Borderers	70	66	47	60
Black Watch Highlanders	78	58	66	88
Argyll and Sutherland Highlanders	16	59	53	59
Princess of Wales's Royal Regiment	55	57	85	72
Royal Regiment of Fusiliers	218	214	224	133
Royal Anglian Regiment	95	122	135	198
	139	127	141	188

Table 2: Trained soldiers passing out from Infantry training centre Catterick to the Infantry since financial year 2000–01 by regiment

Regiment	Financial year 2000–01	2001–02	2002–03	2003–04
King's Own Border Regiment	83	69	46	55
King's Regiment	85	100	98	74
Prince of Wales's Own Regiment	64	81	76	104
Green Howards	56	62	64	72
Queen's Lancashire Regiment	92	78	117	104
Duke of Wellington's Regiment	94	93	91	71
Devonshire and Dorset Regiment	77	71	52	78
Cheshire Regiment	64	74	56	72
Royal Welch Fusiliers	94	102	87	91
Royal Regiment of Wales	85	104	68	56
Royal Gloucestershire Berkshire and Wiltshire Regiment	75	82	54	102
Worcestershire and Sherwood Foresters Regiment	69	72	88	60
Staffordshire Regiment	80	96	91	120
Light Infantry	136	149	146	170
Royal Green Jackets	12	11	12	10
Royal Irish Regiment	75	83	62	70
Parachute Regiment	379	240	246	190
Total	3,065	2,925	2,845	3,211

The following tables show the latest figures for the number of trained officers and soldiers expected to join infantry over the next five years. At this stage it is not possible to quantify the numbers by individual battalion.

The figures for financial years 2005–06 to 2008–09 take into account my right hon. Friend the Secretary of State's (Mr. Hoon) announcement to the House on 21 July 2004, *Official Report*, columns 343–70.

Table 3: Officers

Method of entry	Financial year 2004–05	2005–06	2006–07	2007–08	2008–09
Direct entry	165	165	165	165	165
Late entry	31	28	28	28	28
Total	196	193	193	193	193

Note:
Direct entry relates to those who enter the Royal Military Academy Sandhurst direct from education or civilian life. Late entry refers to those who apply for a commission through the ranks.

Table 4: Soldiers

Category	Financial year 2004–05	2005–06	2006–07	2007–08	2008–09
Foot Guards	368	405	418	430	430
Line	2,004	2,200	2,134	2,036	2,036
Parachute Regiment	230	225	221	234	234
Total	2,582	2,830	2,780	2,700	2,700

Cheshire Regiment

Mr. George Osborne: To ask the Secretary of State for Defence if he will make a statement on the future of the Cheshire Regiment. [186425]

Mr. Ingram: As my right hon. Friend the Secretary of State for Defence (Mr. Hoon) announced on 21 July 2004, *Official Report*, columns 343–70, the reduction in the number of battalions committed to Northern Ireland, means that the overall requirement for infantry battalions can be reduced by four. This reduction will comprise of one battalion recruited from Scotland and three recruited from England.

Together with the phasing out of the Infantry Arms Plot, a new infantry structure is required. This will seek to preserve the best elements of the regimental system while adapting to ensure operational success for the future. The new structure will be based on large single-cap badge regiments of two or more battalions. Details of the new organisation will be worked through by the Army and announced by the end of the year.

Mr. George Osborne: To ask the Secretary of State for Defence if he will list the tours of duty undertaken by the Cheshire Regiment in the last 25 years. [186426]

Mr. Ingram: The tours of duty and operational tours undertaken by 1st Battalion. The Cheshire Regiment, since 1980. are as follows:

Date	Primary Location	Operational Tours	Comment
1980–82	UK (Tidworth)	Belize	
1982–84	Northern Ireland (Ballykelly)		As resident Northern Ireland Battalion (an accompanied tour)
1984–86	Hong Kong		
1986–88	UK (Catterham)	Belize	
1988–91	UK (Chester)	Northern Ireland (Armagh)	
1991–94	Germany (Fallingbostel)	Yugoslavia	
1994–96	UK (Cakington)	Northern Ireland (Fermanagh	
1996–98	Northern Ireland (Ballykelly)		As resident Northern Ireland Battalion
1998–2000	UK (Chepstow)	Northern Ireland	Eight week tour
2000–02	Cyprus	Falkland Islands	Coy only deployed
2002–03	UK (Bulford)	Northern Ireland (Dungannon) Iraq	Unit returns from Iraq in November 2004

Correspondence

Mr. McNamara: To ask the Secretary of State for Defence pursuant to the answer of 10 February 2004, *Official Report*, column 1321W, on deaths in service, when he will write to the hon. Member for Kingston upon Hull North. [187032]

Mr. Ingram: I wrote to my hon. Friend on 31 August 2004 and a copy of my letter has been placed in the Library of the House.

Drug Smuggling

Mr. Bill Wiggin: To ask the Secretary of State for Defence if he will make a statement on recent naval operations to combat international drug smuggling. [186772]

Mr. Ingram: The Royal Navy makes a significant contribution towards UK efforts to combat international drug smuggling. At home, the Royal Navy act in support of HM Customs and Excise under the terms of "Military Aid to the Civil Power". In the Caribbean, the RN deployment (Atlantic Patrol Task (North), primarily promotes UK interests in the region and provides security to UK Overseas Territories. It is also tasked to carry out counter-drugs activities as part of its deployment and provides a tangible presence as one element of the UK's broader counter drugs activities in the region. In addition. Royal Navy units East of Suez may also be involved in efforts to reduce narcotics trafficking.

Efficiency Savings

Mr. Gerald Howarth: To ask the Secretary of State for Defence pursuant to his oral statement of 21 July 2004, *Official Report*, columns 343–70, if he will list the principal areas where he expects to make the efficiency savings of £2,800 million; how much will be attributable to each area; and over what time scale these savings will be delivered. [186638]

Mr. Hoon: The Ministry of Defence is committed to achieving annual efficiency gains in excess of £2.8 billion by 2007–08. The principal areas where it is planned to make efficiency gains are set out in the 2004 Spending Review White Paper (Cm 6237), chapter 13; work is continuing to refine these figures. Further details of the Department's efficiency plans, and bow performance against those plans will be measured, will be included in an Efficiency Technical Note, which will be published on the Department's website by the end of October 2004.

Mr. Garnier: To ask the Secretary of State for Defence how the Government's departmental efficiency savings are to be implemented in the British Army in the *(a)* current and *(b)* next two financial years. [187341]

Mr. Ingram: An additional £3.7 billion was allocated to Defence over the period of Spending Review 2004. In parallel the Ministry of Defence is committed to achieving annual efficiency gains in excess of £2.8 billion by 2007–08. The principal areas where it is planned to make efficiency gains are set out in the 2004 Spending Review White Paper (Cm 6237), Chapter 13; work is continuing to refine these figures. Further details of the Department's efficiency plans, and how performance against those plans will be measured, will be included in an Efficiency Technical Note, which will be published on the Department's website by the end of October 2004.

Iraq

Adam Price: To ask the Secretary of State for Defence whether British *(a)* officials, *(b)* Ministers and *(c)* service personnel were issued with copies of International Committee of the Red Cross working papers about detainee conditions and treatment in Iraq delivered to Coalition Forces headquarters in October and November 2003. [183523]

Mr. Hoon: The International Committee of the Red Cross produces confidential working papers following visits to detention facilities. The majority of these papers contain information relevant to local Commanders, and concern issues that can be resolved at a local level. However, where working papers have contained more substantive issues, these have been brought to the attention of Ministers.

A working paper dated 11 October 2003 was issued by the International Committee of the Red Cross to US service personnel in Iraq. This working paper was subsequently passed to UK service personnel and MOD Officials. This working paper was not passed to Ministers.

We are not aware of an ICRC working paper having been produced in November 2003.

Adam Price: To ask the Secretary of State for Defence what information has been given to the families of the deceased about the *(a)* progress and *(b)* conclusion of Royal Military Police investigations into deaths allegedly caused by UK forces in Iraq. [185888]

Mr. Ingram: Details of the information passed to the families of Iraqis whose deaths were allegedly caused by UK forces are being withheld under Exemption 12 of the Code of Practice on Access to Government Information. Bereaved families are kept informed of progress and results wherever possible, although the prevailing security situation in Iraq has made this difficult to achieve in every case.

Mr. Hancock: To ask the Secretary of State for Defence how many service personnel serving in Iraq since 1 January 2003 have been discharged from the forces as a result of injuries sustained from *(a)* road traffic accidents, *(b)* armed conflict and *(c)* other causes; and if he will make a statement. [186378]

Mr. Ingram: As of 31 May 2004 centrally held records show that 16 service personnel who had been deployed on Operation Telic have subsequently been medically discharged from the armed forces as a result of injuries. The main reasons for medical discharges are as follows:

Causes of medical discharge	*Number of military personnel medically discharged*[1]
Road traffic accidents	6
Battle wound or injury	1
Other causes	9
Total number of injuries	16

[1] Numbers of service personnel deployed on Op Telic and subsequent medical discharges excludes special forces personnel.

Mr. Bill Wiggin: To ask the Secretary of State for Defence what research his Department has commissioned on the offensive capabilities of enemy insurgents in Iraq. [186773]

Mr. Ingram: The Ministry of Defence has commissioned no external research on the offensive capabilities of enemy insurgents in Iraq. However, MOD continuously evaluates the offensive capabilities being used, working-closely with other relevant

Government Departments. This evaluation draws on a range of materials from a variety of sources, and includes work to identify the weaponry and equipment available to insurgent groups as well as their training and military experience.

Kilve Bend (Somerset)

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what future plans his Department has for the use of the range at Kilve Bend in Somerset. [186498]

Mr. Ingram: We plan to continue to use Kilve Bend as a helicopter gunnery range.

NATO/Russian Relations

Mr. Bill Wiggin: To ask the Secretary of State for Defence if he will make a statement on relations between NATO and Russia, with particular reference to security in Eastern Europe and the former Soviet bloc. [186771]

Mr. Hoon: Formal relations between NATO and Russia are conducted through the NATO-Russia Council (NRC). The Council facilitates engagement between the twenty-six member-states of NATO and Russia on a number of key issues. It provides a forum where concerns can be aired and practical solutions to problems can be identified. There is an increasing broadening of political dialogue in the NRC to cover key security issues including Afghanistan, the Balkans and counter-terrorism. Our aim is for Russia to be a long-term strategic partner of NATO. Wider European security can only benefit as a result

As many countries of Eastern Europe are now members of NATO, their security—like that of other allies—is part of the normal business of the Alliance. NATO has encouraged Russia to make progress in negotiating with Georgia and Moldova over her presence in the region; this was reflected in the communiqué following the Istanbul Summit (28–29 June 2004). NATO and Russia are working together on a range of security issues including: counter-proliferation; theatre missile defence; arms control and counter-narcotics. They are also conducting work towards joint operations such as Operation Active Endeavour (NATO's counter-terrorist naval mission in the Mediterranean).

Nimrod MRA4 Aircraft

Mr. Brady: To ask the Secretary of State for Defence when he expects to agree the production contract for the remaining Nimrod MRA4 aircraft. [184458]

Mr. Ingram *[holding answer 16 July 2004]:* Under the restructured contract with BAE SYSTEMS, formally amended on 23 February this year, design and development and manufacture have been separated as far as possible to ensure that technology is adequately de-risked before making further commitment to production price and schedule. A decision on full production is dependent on design maturity and price negotiation and is planned for next year.

RAF Aldergrove

David Burnside: To ask the Secretary of State for Defence pursuant to his Oral Statement of 21 July 2004, *Official Report*, columns 343–70, what the future operational size of RAF Aldergrove will be; and whether it will include all present forces, with particular reference to aerial surveillance stationed on the base. [186527]

Mr. Ingram: No decisions have been taken as to the future operational role of RAF Aldergrove which is listed in the Joint Declaration as one of the locations where, in the context of a peaceful society, the regular garrison in Northern Ireland might be based.

RAF Leeming (Nuclear Weapons)

Miss McIntosh: To ask the Secretary of State for Defence whether he will make a statement on the security of nuclear weapons stored in transit at RAF Leeming. [186620]

Mr. Ingram: I refer the hon. Member to the answer I gave her on 4 February 2004. *Official Report*, column 890W.

RAF Servicemen and Women

Miss McIntosh: To ask the Secretary of State for Defence if he will make a statement on his plans to reduce the number of RAF servicemen and women; and how many *(a)* military and *(b)* civilian employees will be affected. [186395]

Mr. Hoon: As I announced in a statement to the House of Commons on 23 July 2004, *Official Report*, columns 344–71, we must transform our armed forces so that they can continue to respond effectively to the global challenges of the 21st century. This means modernising the structure of our forces, embracing new technology and focusing on the means by which our armed forces can work together with other Government agencies to meet the threat of international terrorism and the forces of instability in the modern world.

A combination of significant advances in capability, both within some existing aircraft fleets and as a result of the introduction to service of new types, such as Typhoon, and changes in investment towards greater deployability, better targeted action and swifter outcomes have enabled us to make a number of changes in the RAFs force structure. These changes, in conjunction with the achievement of planned organisational efficiencies, will lead to a reduced RAF manpower requirement of around 41,000 by 2008, from a current strength of around 48,500.

In addition to the reductions in service manpower, we envisage reductions of around 10,000 civilian jobs across Defence. These will flow from efficiencies as a consequence of the Department's change programme and other initiatives, as well as changes to the force structure.

Royal Irish Regiment

David Burnside: To ask the Secretary of State for Defence pursuant to his Oral Statement of 21 July 2004, *Official Report*, columns 343–70, what the future battalion strength of the Royal Irish Regiment will be; and whether it will include the retention of the three Home Battalions. [186526]

Mr. Ingram: My right hon. Friend the Secretary of State for Defence announced on 21 July 2004, *Official Report*, columns 343–370, that the number of Regular battalions in the Army would reduce by four to 36 by April 2008. This will allow the resulting manpower to be redistributed across the Army to create more robust unit establishments under the Future Army Structure. To maintain a regional balance the 1st Battalion Royal Irish Regiment has been exempted from consideration.

The Royal Irish Regiment (Home Service) battalions are fundamental to the armed forces' support of the Police Service of Northern Ireland. No decisions have been taken concerning their future role, as it is premature to come to conclusions about the composition of the long-term garrison.

SA80A2/L85 Components

Mr. Gerald Howarth: To ask the Secretary of State for Defence what supplies his Department has of replacement components for the *(a)* SA80A2 and *(b)* L85; and what plans he has to replenish these supplies. [186640]

Mr. Ingram: The SA80A2 family consists of the L85A2 Individual Weapon and the L86A2 Light Support Weapon. Stocks of consumables and repairable spare parts, sufficient to meet all operational and training requirements, are currently held in Ministry of Defence depots. Stock levels are regularly reviewed and replenished as necessary.

TREASURY

Civil Service/Public Sector Relocation

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer what estimate he has made of the number of civil service and public sector jobs presently located in London and the South East that will be relocated to *(a)* Bridgwater and *(b)* the South West following the report by Sir Michael Lyons, Well Placed to Deliver? Shaping the Pattern of Government Service, and the 2004 Spending Review. [186548]

Mr. Boateng: In line, with Sir Michael Lyons' recommendations contained in his report published in March this year and endorsed in the 2004 Spending Review, it will be for departments and public bodies themselves to determine the destination of relocated activities from London and the South East. Departments' decisions will be based on their own business needs and priorities, taking account of the requirement to improve public services, secure greater efficiencies and value for money for the taxpayer as well as of local economic conditions. Departments will also take into account forthcoming locational guidance that will be issued by the Office of the Deputy Prime Minister.

In the course of the Lyons and 2004 Spending Reviews, some departments, including the Chancellor's departments and the Department for Work and Pensions, have identified the South West as a possible destination for public sector activity. As you know, the South West has already benefited recently following the significant relocation of the Meteorological Office from the South East to Exeter.

EU

Keith Vaz: To ask the Chancellor of the Exchequer if he will make a statement on progress with the agenda for structural reform of the EU. [186624]

Ruth Kelly: The Treasury published its latest progress report on economic reform "Advancing Long-Term Prosperity: Economic Reform in an Enlarged Europe" in February. It reaffirms the Government's commitment to the Lisbon agenda on structural reform, assesses progress to date and concludes that, despite some recent actions, if the ambitious goals of the agenda are to be realised further efforts are needed.

Keith Vaz: To ask the Chancellor of the Exchequer whether the EU target of 70 per cent. employment in 2010 is expected to be met. [186653]

Ruth Kelly: Employment in the European Union has risen considerably in recent years. Since 1999, EU employment has risen from 154.9 million, or 62.5 per cent. of the working age population to 162 million and 64.3 per cent. in 2003. Though the UK's employment rate already exceeds the EU target (74.5 per cent.), it is clear that significant further reforms are necessary, particularly in the new Member States, to meet the target of 70 per cent. by 2010.

Keith Vaz: To ask the Chancellor of the Exchequer what strategy is in place to improve productivity levels in the EU. [186622]

Ruth Kelly: The Government's approach to economic reform in the EU is based around improving both productivity and employment. To this end the progress report on economic reform, published in February of this year, highlighted a number of priority areas. These included:

improving the regulatory framework, building on the four Presidency initiative on regulatory reform;

strengthening the Single Market, with a more pro-active competition policy, further reform of the state aid rules, and by making the Single Market a reality for services as well as goods;

promoting enterprise and innovation, including through new European Centres of Enterprise—local centres of excellence in enterprise policy;

taking a leading role in world trade negotiations, by improving access-to all of Europe's markets and further reform of the Common Agricultural Policy; and

strengthening the transatlantic economic relationship, by tackling the barriers to trade and investment between the ED and the US.

Keith Vaz: To ask the Chancellor of the Exchequer what the annual growth rate of the EU was *(a)* in 2002–03 and *(b)* in 2003–04. [186650]

Ruth Kelly: As defined by the UK financial year (i.e., from the second quarter in the preceding year to the first quarter in the following year), annual real GDP growth in the EU25 was 1.7 per cent. for the period 2003–04 and 1 per cent. for the period 2002–03. On the same basis, EU 15 real GDP grew by 1.6 per cent. in 2003–04 and by 0.9 per cent. in 2002–03.

Absenteeism

Mr. Bellingham: To ask the Chancellor of the Exchequer what estimate his Department has made of the cost to public funds of absenteeism within the public sector; and if he will make a statement. [186339]

Mr. Boateng: The Treasury does not collect data on absence in the public sector but there are other published sources. Figures for the civil service, including estimates of cost, are published annually by the Cabinet Office in "Analysis of Sickness Absence in the Civil Service". The Chartered Institute of Personnel and Development published a survey in July titled "Employee absence 2004—A survey of management policy and practice" which included estimates of average sickness absence across the public sector.

Barnett Formula

Mr. Cousins: To ask the Chancellor of the Exchequer if, pursuant to his reply of 20 July 2004, *Official Report*, column 187W, what the *(a)* increase in the public expenditure programmes used as the comparator spend for the purposes of the Barnett formula for Scotland, Wales and Northern Ireland between 2000–01 and 2003–04, *(b)* actual increases in the Barnett formula allocations to Scotland, Wales and Northern Ireland between 2000–01 and 2003–04 and *(c)* increase in public spending between 2000–01 and 2003–04 in the North East for programmes used as comparator programmes for Barnett formula assessments were. [186364]

John Healey: The operation of the Barnett formula is set out in the Statement of Funding Policy. The formula is applied to increases in the spending of the comparable Government Departments. The increases in spending of Government Departments were announced in the 2000, 2002 and 2004 Spending Review White Papers. The increases in spending for the devolved Administrations were also announced in these White Papers. Information on identifiable public spending in the North East is published in Public Expenditure Statistical Analyses 2004 (Cm 6201). The Barnett formula is not applied to English regional spending.

British Film Production

Mr. Boswell: To ask the Chancellor of the Exchequer what the cost of tax relief on the production of British films was in each of the last five years broken down by scheme. [187141]

Dawn Primarolo: The UK has a number of film tax reliefs that are designed to assist the production of British qualifying films, as certified by the Department for Culture, Media and Sport (DCMS). The estimated tax cost of Section 48 film tax relief is £440 million for the period 1997–98 to 2001–02 and the estimated costs for 2002–03 and 2003–04 are £300 million and £140 million respectively. The tax cost of the other film tax reliefs is estimated to be an additional £70 million a year.

Child Poverty

Mr. Woodward: To ask the Chancellor of the Exchequer what resources the Government have provided to reduce child poverty in *(a)* St. Helens and *(b)* the UK, broken down by region, since 1997. [186812]

Dawn Primarolo: St. Helens, like the rest of the UK, has benefited from a range of measures since 1997 to reduce unemployment and make work pay, and to raise the incomes of the poorest families with children. Since 1997, the Government have committed substantial resources to tackle child poverty, both through universal and targeted public services and through financial support. For example, by 2004–05, total spending on financial support for children through tax credits, child benefit and other benefits will have increased by £10.4 billion in real terms from its 1997 level, a rise of 72 per cent. In addition, the Government have increased spending on the Sure Start Unit, and has invested over £2.9 billion on child care, early years and Sure Start local programmes from 1998–99 to 2003–04.

Mr. Woodward: To ask the Chancellor of the Exchequer what plans the Government have to reduce child poverty; and if he will make a statement. [186839]

Dawn Primarolo: The Government are making steady progress towards the PSA target to reduce by a quarter the number of children in low-income households by 2004–05, as a contribution to the longer-term goals of halving child poverty by 2010 and eradicating it by 2020. By 2002–03 there were around half a million fewer children in relative low-income households compared to 1998–99. The 2004 Spending Review announced a new child poverty PSA target, shared by the Department for Work and Pensions and HM Treasury, to halve the number of children in relative low-income households between 1998–99 and 2010–11, on the way to eradicating child poverty by 2020. The Government will also set an additional target in the 2006 Spending Review to halve by 2010–11 the number of children suffering a combination of material deprivation and low income. The child poverty review, published alongside the 2004 Spending Review, sets out a range of key measures to reduce child poverty and improve poor children's life chances, thus breaking cycles of deprivation.

Children

Virginia Bottomley: To ask the Chancellor of the Exchequer how many children *(a)* under two, *(b)* under five and *(c)* aged five to 16 years there were in (i) South-West Surrey constituency, (ii) Waverley borough council, (iii) Surrey county and (iv) England in (A) 1997 and (B) the latest available year; and what the estimate is for (1) 2007 and (2) 2012. [187288]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mrs. Virginia Bottomley, dated 7 September 2004:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking how many children *(a)* under two, *(b)* under five and *(c)* aged five to 16 years there were in (i) South West Surrey constituency, (ii) Waverley borough council, (iii) Surrey county and (iv) England in (A) 1997 and (B) the latest available year; and what the estimate is for (1) 2007 and (2) 2012. (187288)

I attach a table showing the 1997 and 2002 mid-year population estimates and the 2007 and 2012 population projections for the areas requested. However, South West Surrey parliamentary constituency is coterminous with the area covered by Waverley borough council.

Please note that population figures for the years shown are presently on different bases and cannot be compared precisely. This is because of work to improve population statistics following the 2001 Census, which is being incorporated progressively into statistical outputs. By November 2004, all the data shown in the tables will be available on a consistent basis.

This follows an announcement made on 8 July 2004 about population estimates, which contains information about population estimate revisions and can be found at: http://www.statistics.gov.uk/downloads/theme_population/PEUannouncement_08Jul.pdf

Information about the subnational population projections due for release on 16 November 2004 can be found at:

http://www.statistics.gov.uk/downloads/theme_population/Subnational/Projections-22July2004.pdf

Estimated and projection populations—Age groups and areas as shown, 1997, 2002, 2007, 2012

Thousand

Area	*Age group*	*Year* [1] *1997* [2]	*2002* [2]	*2007* [3]	*2012* [3]
England	All ages	48,635.9	49,561.8	50,503.3	51,527.1
	0–1	1,217.7	1,113.6	1,153.7	1,171.6
	0–4	3,086.2	2,864.0	2,880.2	2,908.4
	5–16	7,490.4	7,594.9	7,244.2	6,943.4
Surrey	All ages	1,039.7	1,059.9	1,090.3	1,106.4
	0–1	25.4	23.6	24.2	24.1
	0–4	64.3	61.5	62.1	60.9
	5–16	150.0	156.0	162.6	160.0
Waverley borough council area	All ages	115.0	116.0	115.4	116.4
	0–1	2.7	2.5	2.5	2.5
	0–4	6.7	6.5	6.3	6.3
	5–16	17.2	17.6	16.9	16.3

[1] Important Note—Population figures for the years shown are presently on different bases and cannot be compared precisely. This is because of work to improve population statistics following the 2001 Census, which is being incorporated progressively into statistical outputs. By November 2004, all the data will be available on a consistent basis.

Office for National Statistics, Government Actuary's Department

Civil Service Relocation

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer what plans he has to relocate civil service staff to the South West of England. [186547]

Mr. Boateng: In line with Sir Michael Lyons' recommendations contained in his report published in March this year and endorsed in the 2004 Spending Review, it will be for Departments and public bodies themselves to determine the destination of relocated activities from London and the South East. Departments' decisions will be based on their own business needs and priorities, taking account of the requirement to improve public services, secure greater efficiencies and value for money for the taxpayer as well as of local economic conditions. Departments will also take into account forthcoming locational guidance that will be issued by the Office of the Deputy Prime Minister.

In the course of the Lyons and 2004 Spending Reviews, some Departments, including the Chancellor's Departments and the Department for Work and Pensions, have identified the South West as a possible destination for public sector activity. As you know, the South West has already benefited recently following the significant relocation of the Meteorological Office from the South East to Exeter.

Correspondence

Mr. Andrew Turner: To ask the Chancellor of the Exchequer what the reasons were for the delay by the Chief Executive of Inland Revenue in answering the letter to him from the hon. Member for the Isle of Wight dated 23 April concerning tax credit. [187507]

Dawn Primarolo: The Inland Revenue aims to deal with letters from Members of Parliament and members of the public promptly and is targeted to deal with 80 per cent. of letters within 15 days. The Tax Credit Office is on line to achieve this target this year.

Unfortunately, although the Tax Credit Office dealt promptly with the points raised in the hon. Member's letter, there was a long delay in replying to the letter itself because of an oversight. The Tax Credit Office has apologised to the hon. Member for the delay.

Mr. Andrew Turner: To ask the Chancellor of the Exchequer what the *(a)* average and *(b)* upper decile delay by the Inland Revenue is in answering letters about tax credits from (i) hon. Members and (ii) members of the public. [187508]

Dawn Primarolo: This information is not available.

Debt Relief

Mr. Battle: To ask the Chancellor of the Exchequer what representations he has made to *(a)* the International Monetary Fund, *(b)* the World Bank and *(c)* the G8 regarding further topping up of highly indebted poor countries debt relief in the event of further oil price or other price shocks. [186785]

John Healey: The HIPC Initiative is delivering real benefits to participating countries. It is providing over $70 billion of debt relief, to the 27 countries that have reached decision point. It is helping increase annual social expenditures in countries receiving debt relief. Total social spending has increased by around $4 billion since 1999—equivalent to 2.7 per cent. of GDP. On average, health and education spending account for 65 per cent. of the use of HIPC debt relief.

But there are countries that are forecast to exit the initiative with debt-to- export ratios above the HIPC target of 150 per cent. because of factors beyond their control. The UK continues to push for additional relief to be granted to all these countries at completion point ('topping up' relief). We successfully campaigned for Niger and Ethiopia to receive such additional relief, resulting in over $800 million in additional relief for two of the world's poorest countries.

At the recent G8 Summit at Sea Island, the UK successfully pushed for Heads of Government to reaffirm their commitment to the provision of topping up relief for eligible countries at completion point. The

UK also continues to lobby for a change in the topping up methodology to maximise the quantum of topping up relief.

The UK also believes that more must be done beyond the HIPC Initiative to ensure debt sustainability in the world's poorest countries. We are proposing that the international community review further debt relief for the poorest countries, including making better use of IMF gold using a revaluation or off-market transactions, so that, to match bilateral debt relief, which we provide at up to 100 per cent., we can begin to consider how we provide multilateral debt relief of up to 100 per cent. as well.

However, all low-income countries will need additional aid to meet the Millennium Development Goals (MDGs). This is why the UK has called for an examination of possible financing mechanisms to provide up to 100 per cent. multilateral debt relief for HIPCs, and continues to push the International Finance Facility (IFF), which could provide the much- needed substantial increase in aid—in the form of grants, concessional loans, or further debt relief—needed to attain the MDGs without threatening the long-term debt sustainability of the world's poorest countries.

Departmental Performance (Complaints)

Matthew Taylor: To ask the Chancellor of the Exchequer what action he is taking in response to the comments made by the Parliamentary Ombudsman regarding delays by his Department in responding to complaints under the Code of Practice on access to Government information in her review of departmental performance against requirements of the Memorandum of Understanding published on 30 June; and if he will make a statement. [186661]

Ruth Kelly: The Government takes any delays in responding to complaints under the Code of Practice on Access to Government Information seriously.

The Government regrets that delays do unavoidably occur in a minority of complex cases. However, the Ombudsman's review of the first nine months of the Memorandum of Understanding (September 2003—May 2004) shows that in most cases the requirements of the Memorandum of Understanding were met.

In all cases, Departments endeavour to ensure that the time limit of three weeks for departments to respond to a "statement of complaint" from the Ombudsman is met. In accordance with the Memorandum of Understanding, Departments aim to enter into dialogue with the investigating officer should there be any difficulty in replying by the date set by the Ombudsman.

Employment Statistics

Mr. Cousins: To ask the Chancellor of the Exchequer what the change in numbers in employment was in each industrial sector in *(a)* 2002, *(b)* 2003 and *(c)* 2004, broken down by (i) sector, (ii) private sector and (iii) self-employment in each (A) region and (B) county. [186832]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Cousins, dated 7 September 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about the change in the numbers of people in employment in each industrial sector. (186832)

I am placing four tables in the House of Commons Library, as follows.

Table A shows the annual changes in the numbers of employee jobs by industry sector and region in Great Britain, for the years 2002 and 2003. The data comes from surveys of employers that provide the most up-to-date source of national and regional information. However, no information is available from them for areas below regional level.

Table B shows the annual changes in the numbers of employee jobs by industry sector and local authority areas in Great Britain during 2002. This data comes from the Annual Business Inquiry (ABI), which provides information below regional level. However, the equivalent changes for 2003 are not yet available.

Table C shows the available information about changes in private sector jobs by industry sector in the year ending June 2003, for the United Kingdom as a whole. This information is compiled annually using a special analysis of the employer survey data. Information is not available for all industry sectors, or by region.

Table, D shows changes in numbers of self-employed people by industry, region and local authority area for the United Kingdom as a whole in the year ending February 2003. This information is obtained using local area data from the Labour Force Survey, which is a survey of people in households across the UK.

Financial Inclusion Fund

Mr Battle: To ask the Chancellor of the Exchequer when he will outline his plans for a financial inclusion fund referred to at paragraph 5.28 of the 2004 Spending Review; whether it will cover Leeds, West; where it will be piloted; what support the fund will provide to credit unions; and if he will make a statement. [186777]

Ruth Kelly: Further details of the Financial Inclusion Fund, announced in the 2004 Spending Review White Paper to support initiatives to tackle financial exclusion, will be published later in the year

Financial Products

Mr. Love: To ask the Chancellor of the Exchequer what efforts he is making to improve public understanding of financial products and services; and if he will make a statement. [186627]

Ruth Kelly: The Government are working closely with the voluntary sector, the financial services industry and others to develop and implement a national strategy for raising levels of financial capability, under the leadership of the Financial Services Authority. This strategy has identified a number of priority areas, based around key life events, from prospective parents to those who are planning for retirement. The Government already provide incentives to encourage long-term savings by giving generous tax treatment on pensions and is also working with industry to set up a suite of simpler savings products. In June this year the Government announced their proposals for the stakeholder suite of savings and investment products to be launched into the marketplace in April 2005. These are a suite of simple, low-cost, risk-controlled products to meet the short, medium and long-term savings needs for all consumers.

Measures to support financial inclusion, such as the Savings Gateway, and the establishment of the Child Trust Fund also serve to encourage people to engage with the financial sector and develop the savings habit.

Financial Services and Markets Act

Mr. Love: To ask the Chancellor of the Exchequer what arrangements are in place for the review of the Financial Services and Markets Act 2000; and if he will make a statement. [186637]

Ruth Kelly: As explained in my statement to the House of 4 November 2003, the review is considering the impact of the Financial Services and Markets Act 2000 on competition, changes to aspects of the Financial Services Authority's practices, changes to the Financial Ombudsman Service, and changes to the boundary of regulation. I expect to make an announcement about the outcome of these considerations later this year.

FSA Regulations

Mr. Bellingham: To ask the Chancellor of the Exchequer what estimate his Department has made of the cost to the financial services industry of complying with Financial Services Authority regulations since 1997. [186353]

Ruth Kelly: In 2003 the Financial Services Authority (FSA) commissioned Europe Economics to undertake a major survey of the financial costs of regulation and published the results. This survey found that the median increase in annual incremental compliance costs from 1998 to 2002 resulting from changes to FSA regulation was less than 1 per cent. of operating costs.

Gross Domestic Product

Chris Ruane: To ask the Chancellor of the Exchequer what the gross domestic product per head was for each of the last 25 years at current prices. [187117]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Chris Ruane, dated 7 September 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question asking for the Gross Domestic Product per head for each of the last 25 years at current prices. (187117)

Estimates of current price Gross Domestic Product per head for the UK, for the past 25 years, are shown in the attached table. These are the most recent data available, and are taken from the National Accounts 'Blue Book' 2004.

Gross Domestic Product per head at current prices UK, 1979–2003

Year	GDP per head (£)
1979	3,509
1980	4,096
1981	4,488
1982	4,921
1983	5,376
1984	5,750
1985	6,276
1986	6,727
1987	7,387
1988	8,229
1989	9,010
1990	9,737
1991	10,203
1992	10,607
1993	11,127
1994	11,772
1995	12,402
1996	13,139
1997	13,928
1998	14,727
1999	15,444
2000	16,210
2001	16,837
2002	17,628
2003	18,524

Source:
Office for National Statistics

Chris Ruane: To ask the Chancellor of the Exchequer what national productivity growth rates were in each of the last 25 years. [187129]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Chris Ruane, dated 7 September 2004:

As National Statistician,, I have been asked to reply to your recent Parliamentary Question on the rate of change of productivity in the UK economy in each of the last twenty five years. (187129)

The accompanying table shows the rate of change of productivity, as measured by output per worker, for the whole UK economy. The data shown are from 1979 to 2003 inclusive.

Annual change in productivity[1] UK, 1979–2003

Year	Annual percentage change
1979	0.7
1980	-1.4
1981	2.2
1982	4.2
1983	4.0
1984	0.0
1985	2.6
1986	3.4
1987	2.3
1988	1.1
1989	-0.7
1990	0.3
1991	2.0
1992	3.6
1993	3.5
1994	3.7
1995	1.5
1996	1.9
1997	1.4
1998	2.5
1999	1.3
2000	2.8
2001	1.3
2002	0.7
2003	1.0

[1] Measured by output per worker

HM Revenue and Customs

Mr. Prisk: To ask the Chancellor of the Exchequer which Minister at HM Treasury will be responsible for the proposed HM Revenue and Customs organisation. [187239]

Mr. Gordon Brown: The Chancellor of the Exchequer is responsible for the current revenue departments, and subject to passage of the appropriate legislation this will remain the case for the proposed new department.

House Prices (Consumer Expenditure)

Mr. Love: To ask the Chancellor of the Exchequer what research has been undertaken into the impact of changes in house prices on the level of consumer expenditure; and if he will make a statement. [186632]

Ruth Kelly: HM Treasury published evidence on the link between the housing market and consumer behaviour in June 2003 as part of the EMU Five Tests Assessment, in the supporting study 'Housing, Consumption and EMU'.

Household Saving

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer what plans he has to increase the level of household saving; and if he will make a statement. [186544]

Ruth Kelly: The Government's strategy for savings and assets is focused on providing individuals with security, opportunity and independence throughout life, and with the information, incentives and income to make savings decisions.

We have delivered this with reforms such as the introduction of Individual Savings Accounts, the application of the 10 per cent. starting rate for income tax to income from savings, and the new Child Trust Fund, as well as creating a stable economy with low interest rates, and radical reform and simplification of financial regulation and pensions. Net household wealth has now risen by over 50 per cent. since 1997.

Inheritance Tax Revenues

Sir Brian Mawhinney: To ask the Chancellor of the Exchequer how much, and what proportion, of inheritance tax revenues in fiscal year 2003–04 was derived from *(a)* primary homes, *(b)* other homes, *(c)* financial assets, *(d)* land, *(e)* art and similar assets, *(f)* investments overseas, *(g)* individual savings and trusts, *(h)* life insurance and *(i)* other sources, broken down by main categories. [186963]

Dawn Primarolo: IHT receipts were £2.5 billion in 2003–04. A breakdown of this figure into asset types is not yet available. The available information relates to the asset breakdown for taxable estates passing on death in 2001–02 which is published in Table 12.6 of Inland Revenue Statistics, available at http://newinternet.inrev.gov.uk/stats/inheritance_tax/table12–6.pdf.

Loan Repayments

Mr. Cousins: To ask the Chancellor of the Exchequer what research is being conducted into the size of *(a)* secured and *(b)* unsecured loan repayments in different (i) socio-economic and (ii) income groups. [186861]

Ruth Kelly: Annex C of "Tackling Over-indebtedness—Action Plan 2004", published on 20 July 2004 by the Department of Trade and Industry, provides a summary of recent research into over-indebtedness. Furthermore, Annex D, of the same document, reinforces the DTI's commitment to developing a monitoring approach, as promised in the Consumer Credit White Paper. "Tackling Over-indebtedness-Action Plan 2004" can be found at http://www.dti.gov.uk/ccp/topics1/pdf1/overdebt0704.pdf.

Long-term Unemployment

Mr. Woodward: To ask the Chancellor of the Exchequer (1) what estimate the Government have made of how many *(a)* men and *(b)* women over the age of 50 were defined as long-term unemployed in each year since 1997; [186930]

(2) what estimate the Government have made of the percentage of men and women over the age of 50 who were defined as long-term unemployed in each year since 1997, broken down by region. [186945]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Shaun Woodward, dated 7 September 2004:

As National Statistician, I have been asked to reply to your Parliamentary Questions about long-term unemployment. (186945, 186930)

Table 1 shows the number of men and women aged 50 and over in long-term unemployment. Table 2 shows the rate of long-term unemployment as a percentage of all unemployment in this age group. Both tables relate to the three month periods ending in May of each year from 1997 to 2004.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to sampling variability. In particular, estimates for UK regions are based on small sample sizes and are subject to a high degree of sampling variability. They should be treated with caution.

Mortgage Market

Mr. Love: To ask the Chancellor of the Exchequer what action he is proposing to improve the working of the UK mortgage market following the Miles Review; and if he will make a statement. [186633]

Ruth Kelly: On 12 March 2004 David Miles published his review of the UK mortgage market. His remit was to undertake analysis of supply and demand side factors limiting the development of the longer-term fixed-rate mortgage market in the UK, and to examine whether there has been any market failure that has held back the market for longer-term fixed-rate mortgages. In Budget 2004 the Chancellor endorsed the conclusion in David Miles review of the UK mortgage market that "urgent reform is desirable to make the market work better for consumers in a number of areas". The Treasury has been discussing the recommendations with a range of stakeholders including the Financial Services Authority, and intends to provide a detailed update in the Pre-Budget Report.

Older Workers

Mr. Willetts: To ask the Chancellor of the Exchequer pursuant to his answer of 5 July 2004, *Official Report*, column 602W, on people of retirement age, how many people above state pension age were in employment for the same period in each year since 1992. [186770]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. David Willetts, dated 7 September 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about people of retirement age in employment. (186770)

The attached table gives the estimates of the number of people above state pension age in employment for the three months ending May each year from 1992 to 2004.

As with any sample survey, estimates from the Labour Force Survey (LFS) are subject to sampling variability.

Number[1] of people above state pension age[2] in employment, United Kingdom, 3 month periods ending May each year from 1992 to 2004

Thousand	*Number of people*
1992	814
1993	770
1994	779
1995	794
1996	770
1997	802
1998	775
1999	817
2000	831
2001	819
2002	887
2003	933
2004	995

[1] Seasonally adjusted.

[2] This refers to men aged 65 and over and women aged 60 and over.

ONS: Labour Force Survey.

One-parent Households

Mr. Woodward: To ask the Chancellor of the Exchequer what estimate the Government have made of *(a)* how many and *(b)* what percentage of children lived in one parent households in (i) St. Helens and (ii) the UK, broken down by region, in each year since 1997. [186821]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Shaun Woodward, dated 7 September 2004:

As National Statistician, I have been asked to reply to your recent question concerning the number and percentage of children living in one-parent households in *(a)* St. Helens and *(b)* the United Kingdom broken down by region in each year since 1997. (186821)

The attached table shows estimates of the numbers of dependent children living in one-parent families in private households, and the proportions they represent of all dependent children living in families in private households. These estimates have been derived from the Labour Force Survey (LFS), apart from the year 2001 for which that year's Census data are shown.

The LFS provides estimates for the United Kingdom, countries of the UK and Government Office regions as well as local authority data for certain variables. However, the most recent year for which estimates are available on children in one-parent families in St. Helens local authority is 2002. Estimates for this specific variable are not available at local authority level before 2001.

Pensions (Tax Relief)

Mr. Love: To ask the Chancellor of the Exchequer what the cost to public funds was of tax relief for individuals on pension contributions in each of the last five years; and if he will make a statement. [186634]

Dawn Primarolo: Available estimates of the cost of tax relief on private pensions are contained in table 7.9 of Inland Revenue Statistics. The latest version is on the Inland Revenue website:

http://www.inlandrevenue.gov.uk/stats/pensions/table7 9.pdf These estimates are due to be updated in September 2004.

Personal Income Tax Allowance

Mr. Willetts: To ask the Chancellor of the Exchequer what the effects would be on the incomes of households in each quintile of the income distribution of raising the personal income tax allowance to £10,000 per annum. [186783]

Dawn Primarolo: The information is as follows.

Percentage increase

Quintile	*Percentage change in net equivalised household income (before housing costs)*
1	1.4
2	3.1
3	4.9
4	5.9
5	5.1

These changes in household income are based on IGOTM tax and benefits model using the Family Resources Survey 2002–03.

Personal Tax Allowance

Sandra Gidley: To ask the Chancellor of the Exchequer what plans he has to change the personal tax allowance for those of pensionable age. [186582]

Dawn Primarolo: The Government's policy is to increase the age-related personal allowances for those 65 and over at least in line with earnings for the remainder of the Parliament.

PFI/PPP Contracts

Matthew Taylor: To ask the Chancellor of the Exchequer how many contracts his Department had with *(a)* Barclays, *(b)* the Royal Bank of Scotland, *(c)* UBS Warburg and *(d)* the Bank of Scotland for advice on private finance initiative and public private partnership contracts in each financial year since 2001–02; and what fees were paid in each case. [186662]

Ruth Kelly: None

Mr. Cousins: To ask the Chancellor of the Exchequer what level of costs for insurance is included in PFI/PPP schemes agreed in the last two years; what review of insurance costs has been undertaken; and what conclusions have been reached. [186845]

Mr. Boateng: The contractor in a PFI consortium is responsible for procuring the necessary insurance for a PFI scheme. The costs will vary depending on the nature of the project as well as the conditions in the insurance market at the time the insurances are taken out.

There has been no official review of PFI insurance costs by HM Treasury. However, guidance on the treatment of insurance costs is contained in the HMT Standardisation of Contracts Version 3 (SOPC3) and OGC Business and Operational Guidance "PFI Contracts: Insurance Costs". SOPC3 states that the risk of increases in insurance costs should be borne by the contractor, while recognising that it will not represent best value for money if bidders price in worst case scenarios for future insurance premium levels in to their bids. The OGC guidance therefore sets out a mechanism for sharing insurance cost increases should there be exceptional circumstances in the international insurance market.

Population Changes

Mr. Hayes: To ask the Chancellor of the Exchequer what estimate he has made of the change in population arising from changes in *(a)* net indigenous population and *(b)* net immigration in each decade to 2050, broken down by region. [187335]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. John Hayes, dated 7 September 2004:

As National Statistician I have been asked to reply to your question concerning the change in population arising from changes in net indigenous population and immigration in the decades to 2050, by region. (187335)

The attached table shows population projections at Government Office Region level for the years 2000, 2010 and 2020. These figures are 1996-based and are the latest basis on which long-term subnational population projections are currently available. These projections have a 25 year "horizon" and so only figures to 2020 are available at this geographical level.

The projected natural population change (number of births less number of deaths) and the assumed level of net international migration, for each region, are also shown in the table. It should be noted that these two components are not independent, and that the level of natural change projected for the future is itself partly dependent on the assumed level of net migration.

The figures shown in the table for England are not the latest 2002-based projections produced by GAD but are 1996-based to be consistent with the subnational projections shown. Please note that these include a lower assumption for international migration than the latest set which can be found at: http://www.gad.gov.uk/Population/index.asp

A note considering the overall impact of assumed net migration on future population growth is available from the Government Actuary's Department website at: http://www. gad.gov.uk/Population/2002/methodology/mignote.htm. This is a UK level analysis from GAD's latest (2002-based) national projections. Comparable analysis is not available for the 1996-based projections.

The Office for National Statistics will publish 2003-based subnational population projections on 16 November. Information about this release can be found at:

http://www.statistics.gov.uk/downloads/theme_population/Subnational/Projections-22July2004.pdf

Projected Population by Government Office Region for Decades—Total population for Government Office Regions as shown, 2000, 2010, 2020

Post-65 Population

Mr. Woodward: To ask the Chancellor of the Exchequer how the percentage of the population over the age of 65 has changed in each year since 1975. [186946]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Woodward, dated 7 September 2004:

As National Statistician I have been asked to reply to your question concerning the annual change in the percentage of the population aged over 65 since 1975. (186946)

I attach a table showing the population estimates for England and Wales, the percentage of the population aged 65 and over, and the annual change in this percentage. The table incorporates interim revised estimates for England and Wales for mid-1992 to mid-2000, which take account of research carried out into population estimates following the 2001 census.

Population estimates for mid-1992 to mid-2002 are subject to future revision. Information about population estimate revisions can be found at:

http://www.statistics.gov.uk/about/Methodology_by_theme/revisions_popestimates.asp.

Total population and change in the percentage of population aged 65 and over England and Wales, 1975–2002

Thousands

Year[1]	*Total population*	*Population aged 65 and over*	*Percentage population aged 65 and over*	*Change in percentage population aged 65 and over*
1975	49,469.8	7,033.5	14.2	—
1976	49,459.2	7,119.1	14.4	0.18
1977	49,440.4	7,214.2	14.6	0.20
1978	49,442.5	7,315.8	14.8	0.20

Office for National Statistics

Productivity

Mr. Kenneth Clarke: To ask the Chancellor of the Exchequer what has been the rate of change of productivity in the UK economy in each of the last seven years. [186210]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Kenneth Clarke, dated 7 September 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question on the rate of change of productivity in the UK Economy in each of the last seven years. (186210)

The accompanying table shows the rate of change of productivity, as measured by output per worker, for the whole economy. The data shown are from 1997 to 2003 inclusive.

Percentage

	Annual growth rate
1997	1.4
1998	2.5
1999	1.3
2000	2.8
2001	1.3
2002	0.7
2003	1.0

Public Sector Jobs (Gloucestershire)

Mr. Dhanda: To ask the Chancellor of the Exchequer what estimate his Department has made of the implications of the Spending Review for public sector jobs in Gloucestershire. [186313]

Mr. Boateng: There will be an overall gross reduction in posts of 84,150 by 2008 and Departments will pursue these reductions in line with business need. Departments are still developing their plans concerning the SR04 work force changes.

Redundancy

Mr. Woodward: To ask the Chancellor of the Exchequer what information the Government have collated on the percentage of people over the age of 50 who have been made redundant in each year since 1997 *(a)* nationally, *(b)* by region and *(c)* in St. Helens. [186875]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Shaun Woodward, dated 7 September 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about redundancy. (186875)

The attached table gives estimates from the Labour Force Survey (LFS) of redundancy rates for people aged 50 and over for the UK as a whole and by region for the three month periods ending in May of each year from 1997 to 2004.

As with any sample survey, estimates from the LFS are subject to sampling variability. The LFS sample sizes were too small to yield meaningful estimates for St Helens local authority.

Redundancy rates[1] for people aged 50 and over—UK regions, 1997 to 2004 (3 month period ending May of each year)[2]

Rate per 1,000 employees[2]

Area of residence	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*

ONS Labour Force Survey

Residential Stamp Duty

Mr. Cousins: To ask the Chancellor of the Exchequer what the revenue from residential stamp duty was in *(a)* 1996–97, *(b)* 2001–02, *(c)* 2002–03 and *(d)* 2003–04; and what the projected revenue is for 2004–05. [186950]

Ruth Kelly: Estimates of the revenue from stamp duty on residential property in 1996–97, 2001–02 and 2002–03 are given at http://www.inlandrevenue.gov.uk/stats/stamp_duty/03IR152.pdf.

Estimates of the revenue from stamp duty on residential property for 2003–04 will be published later in the year. Projections for 2004–05 are not available.

Savings Gateway Pilot

Mr. Love: To ask the Chancellor of the Exchequer what evaluation has taken place of the impact of the Savings Gateway pilot on levels of savings among low-income consumers; and if he will make a statement. [186631]

John Healey: The Saving Gateway pilot final evaluation is due in early 2005. No substantial conclusions can be drawn until we receive the full research findings, however indicators so far are good. The latest interim evaluation report showed that 1,478 accounts had been opened (the target was 1,500), and the participants were mostly drawn from young families with children. The total amount saved by account-holders was approaching £300,000 by the end of February 2004, and there was little evidence that people had transferred money from existing savings accounts or borrowed to save. This report is available on the HM Treasury website.

Staff Recruitment

Matthew Taylor: To ask the Chancellor of the Exchequer what media outlets are used for the recruitment of each level of staff in his Department; and if he will make a statement. [187087]

Ruth Kelly: The Treasury uses a wide variety of different publications for recruitment advertising, tailored according to the nature of the vacancy to be filled. This includes the use of professional journals and magazines, national and local newspapers, and websites.

Matthew Taylor: To ask the Chancellor of the Exchequer how vacancies are publicised within his Department; how non-fast streamers are recruited to work in his Department; and if he will make a statement. [187088]

Ruth Kelly: HM Treasury publicises its internal vacancies on the Treasury's intranet site, and the Civil Service Recruitment Gateway. For external recruitment of non-fast streamers, HM Treasury uses a wide variety of different publications for advertising, tailored according to the nature of the vacancy to be filled. This includes the use of professional journals and magazines, national and local newspapers, and other relevant websites, including HM Treasury's website (www.hm-treasury.gov.uk/careers). Recruitment in HM Treasury is based upon the Civil Service Commissioners Recruitment Code of fair and open competition, and selection on merit.

Matthew Taylor: To ask the Chancellor of the Exchequer how much the Treasury spent on recruitment in each of the last three years; and if he will make a statement. [187089]

Ruth Kelly: I refer the hon. Gentleman to the answer I gave him on 5 March 2004, *Official Report*, column 1211W. The costs of recruiting staff fall largely to individual teams, and are charged to team budgets. Therefore, information on the total cost of recruiting staff is not available centrally and could be provided only at disproportionate cost.

Matthew Taylor: To ask the Chancellor of the Exchequer how many people the Treasury recruited in each of the last three years. [187090]

Ruth Kelly: The number of new recruits to HM Treasury, as recorded in the Treasury's Departmental Report, can be found in the following table:

	2001	*2002*	*2003*
Permanent appointments	135	80	103
Fixed-term appointments	20	9	13
Permanent transfers/reinstatements	2	0	2
Secondments in	17	15	19
Casual appointments	42	32	45
Total	212	136	182

Unemployment Payments

Chris Ruane: To ask the Chancellor of the Exchequer what estimate he has made of the cost of unemployment payments *(a)* in total and *(b)* as a percentage of national income in each of the last 25 years. [186102]

Mr. Pond: I have been asked to reply.

The information is in the table.

Unemployment benefits (£ million)

	Nominal terms[1, 2]	*2004–05 prices*[1, 2]	*Percentage of gross domestic product*[1]
1979–80	1,176	3,752	0.6
1980–81	2,074	5,600	0.9
1981–82	3,214	7,923	1.2
1982–83	4,067	9,364	1.4
1983–84	4,753	10,464	1.5
1984–85	5,308	11,104	1.6
1985–86	5,803	11,519	1.6
1986–87	6,070	11,676	1.6
1987–88	5,453	9,934	1.3
1988–89	4,152	7,070	0.9
1989–90	3,364	5,352	0.6
1990–91	3,810	5,618	0.7
1991–92	5,804	8,071	1.0
1992–93	7,139	9,615	1.2
1993–94	7,389	9,693	1.1
1994–95	6,482	8,381	0.9
1995–96	5,925	7,445	0.8
1996–97	5,112	6,215	0.7
1997–98	3,893	4,615	0.5
1998–99	3,558	4,099	0.4
1999–2000	3,255	3,670	0.4
2000–01	2,882	3,213	0.3
2001–02	2,606	2,832	0.3
2002–03	2,624	2,760	0.2
2003–04	2,548	2,606	0.2

[1] Unemployment benefits totals are rounded to the nearest million; the percentage of gross domestic product has been rounded to nearest 0.1 per cent.

[2] Unemployment benefits include: unemployment benefit, which was replaced by jobseeker's allowance contribution-based in October 1996; supplementary benefit paid to unemployed people, which was replaced by income support for the unemployed in April 1988, and was further replaced by jobseeker's allowance (income-based) in October 1996.

Women Workers

Mr. Woodward: To ask the Chancellor of the Exchequer what estimates the Government have made of the percentage of women in *(a)* full-time and *(b)* part-time employment in (i) St Helens and (ii) the UK, broken down by region, in each year since 1997. [186926]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Sean Woodward dated 7 September 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about females in full-time and part-time employment. (186926)

The attached table' shows the percentages of females in full-time, and part-time employment and the number of women in employment in St. Helens Local Authority and each region of the UK for the three month periods ending in May of each year from 1997 to 2004.'

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to sampling Variability. Estimates for St Helens Local Authority District are based on small sample sizes and are subject to a high level of sampling variability. In particular, year-to-year changes are likely to show considerable volatility.

Female employment: percentages in full and part-time 3 months ending May each year from 1997 to 2004 not seasonally adjusted

n/a no available data

[1] Percentage of all women in employment. Percentages are based on total that includes people who did state whether they were full or part-time who did not answer the full or part time question

[2] Estimates for St. Helens Local Authority are based on smaller sample sizes and are therefore subject to a higher degree of sampling variability. They should therefore be treated with caution and, in particular, changes from year to year should not be used in isolation from the figures for a run of years.

CULTURE, MEDIA AND SPORT

Archaeological Sites (Theft)

Mr. Garnier: To ask the Secretary of State for Culture, Media and Sport what studies her Department has made of *(a)* the incidence of theft from or criminal damage to and *(b)* the market value of items or artefacts stolen from sites of archaeological interest in England and Wales since 1 June 1997. [187180]

Mr. Caborn: This information is not currently available. English Heritage, however, is in the process of designing a data system that will centrally compile the statistics for damage to English sites.

Free Television Licences

John Robertson: To ask the Secretary of State for Culture, Media and Sport if she will introduce free television licences for blind and partially sighted people. [187569]

Estelle Morris: The Government introduced a 50 per cent. reduction in the television licence fee for registered blind people in April 2000. We have no plans at present to change the concessionary arrangements but will consider all aspects of BBC funding, including concessions, as part of the BBC Charter review process.

Mr. Anthony D. Wright: To ask the Secretary of State for Culture, Media and Sport how many old age pensioners in the Great Yarmouth constituency have benefited from the introduction of free television licences. [186708]

Estelle Morris: TV Licensing, who administer free television licences for people aged 75 or over as agents for the BBC, are not able to provide geographical breakdowns of the number of free licences issued. However, 2001 Census data for parliamentary constituencies indicate that there are approximately 8,600 people aged 75 or over living in the Great Yarmouth constituency.

Arts Council Grants

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many individuals who have received an Arts Council grant have had to pay back part or all of their grant because they did not meet the standard conditions for grants in each year since 1997. [187283]

Estelle Morris: Since April 2003, one grant to an individual has been reduced due to a breach of the standard conditions.

Figures for individuals are only available from April 2003, when Arts Council England introduced Grants for the Arts, Individuals. Previously, Arts Council England funding programmes did not make a distinction between organisations and individuals; therefore they do not hold records of this nature.

Arts Programmes

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport how much is being spent by the Government on arts programmes in *(a)* Yorkshire and *(b)* England (i) directly and (ii) indirectly. [186850]

Estelle Morris: The Department for Culture, Media and Sport does not fund the arts directly, but through Arts Council England, who are responsible for distributing public money from Government.

The following table supplied by Arts Council England provides a breakdown of the allocation of Government Grant-in-Aid, 2004–05.

Arts Council England—Allocation of grant-in-Aid, 2004–05

£

	National	*Yorkshire*
Regularly Funded Organisations (over 1,300 organisations receive guaranteed funding corresponding with the Spending Review)	280,081,000	21,363,000
Total flexible funds (awards to one-off projects through an open application system)	28,000,000	—
Grants for the arts, individuals (1 April 2004—10 August 2004)	2,988,000	291,000
Total	315,581,000	21,654,000

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport if she will list the government-sponsored arts programmes in *(a)* London, *(b)* Yorkshire and *(c)* England (i) in 2004 and (ii) in the next five years. [186949]

Estelle Morris: The Department for Culture, Media and Sport does not fund the arts directly, but through Arts Council England, who are responsible for distributing public money from Government.

Arts Council England's funding allocations correspond with the Treasury's Spending Review—the current allocations run from 2003–04 to 2005–06. Arts Council England's Spending Plan 2003–06 for Regularly Funded Organisations lists the 1,300+ organisations that receive Government Grant-in-Aid, categorised by region, and is available on their website—www.artscouncil.org.uk

Arts Council England will announce its funding allocations for the period 2006–07 to 2007–08 in 2005.

Culture (Improved Access)

Sandra Gidley: To ask the Secretary of State for Culture, Media and Sport what plans she has to improve accessibility to *(a)* sports and *(b)* arts for older people. [186450]

Mr. Caborn: My Department fully recognises the benefits participation in activities like sport and the arts can bring to older people.

Arts Council England funds a number of arts organisations which aim to encourage older audiences and engage older people in artistic opportunities. Older people were also a focus of the Arts Council's recent New Audiences pilot project. Over £250,000 was awarded to projects targeting older people. Projects designed for older people addressed barriers such as lack of transport, price and having no one to go with. Information about successful New Audiences projects will be disseminated to arts practitioners and arts organisations across the country.

On Sport, Game Plan, our strategy for delivering Sport and Physical Activity Objectives, identified older people as one of the key priority groups for increasing physical activity. Following discussions with the British Heart Foundation, Sport England's 9 Regional Plans for Sport are providing the framework for regional action. Older people are also one of the target groups for Local Exercise Action Plans (LEAPs). The Public Health White Paper due in the autumn will set out the Government's proposals for increased activity across the population.

Designated Accommodation

Bob Spink: To ask the Secretary of State for Culture, Media and Sport how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion and *(c)* nursing mothers and pregnant women in each building and set of offices for which her Department is responsible. [187313]

Mr. Caborn: DCMS leases all or part of four buildings. Two of those have a room set aside for smokers. One building has a room available to an Islamic worshipper. There are no discrete facilities for nursing mothers as children are not brought to work and pregnant women have the facility of a first aid/ medical rest room in each building.

Digital Television (Bridgwater)

Mr. Liddell-Grainger: To ask the Secretary of State for Culture, Media and Sport how many people in the Bridgwater constituency do not have access to digital television. [186499]

Estelle Morris: Digital television in the UK can be accessed through Satellite, Cable or Digital Terrestrial Television (DTT).

The BBC calculate that, of the 40,800 households in the Bridgwater constituency, around 19 per cent. (7,600) do not have access to DTT services (including Freeview). Therefore 81 per cent. (33,200) of households should be able to receive DTT from either the Mendip or Stockland Hill transmitter, compared with 73 per cent. nationwide.

According to Ofcom figures, Digital Satellite television is available to the vast majority (96–98 per cent.) of households in the UK. Unfortunately, it is not possible to give a breakdown of Digital Satellite coverage in individual areas.

Digital Cable is not currently available to any households in the Bridgewater constituency.

English Institute of Sport

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what the budget for the English Institute of Sport is for *(a)* 2004–05, *(b)* 2005–06 and *(c)* 2006–07. [186932]

Mr. Caborn: The English Institute of Sport (EIS) is funded by a grant from Sport England.

For the financial year 2004–05 the budget for EIS is £8.5 million.

For each of the financial years 2005–06 and 2006–07 the budget currently agreed by the EIS and Sport England is also £8.5 million for each year.

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport how many *(a)* full-time and *(b)* part-time staff are employed at each English Institute of Sport Hub. [186933]

Mr. Caborn: The number of full-time and part-time staff employed (as of 30 July 2004) at the nine regional English Institute of Sport Hubs are as follows:

	Full-time	*Part-time*	*Total*
East	4	0	4
East Midlands	13	2	15
London	2	3	5
North East	7	1	8
North West	11	1	12
South East	11	1	12
South West	7	1	8
West Midlands	4	1	5
Yorkshire	8	1	9

Freeview

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport how many more Freeview broadcasting licences the Government are planning to grant. [186858]

Estelle Morris: Digital television services, except those provided by the BBC, S4C and TeleG, are licensed by the Office of Communications (Ofcom) under the powers granted to it by the Broadcasting Acts of 1990, 1996 and the Communications Act 2003. With the exception of the public service channels (Channel 3, 4 and 5), the choice of whether a licensed television programme service is available free of charge or as part of a subscription package is for the broadcaster to decide. Where services are to be broadcast via satellite, Ofcom does not limit the number of licences available to either pay-TV or free channels and it will issue licences to any eligible organisation wishing to broadcast television programme services provided they meet the relevant regulatory requirements, for example as to content, advertising and sponsorship issues. In relation to the digital terrestrial platform, however, spectrum capacity is a key factor in determining how many services may be licensed at any one time.

Gaming Machines

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what discussions her Department has held with owners of category D gaming machines in relation to the proposed ban on them in the Government's response to the Joint Select Committee on Gambling, broken down by *(a)* mini-cab offices, *(b)* fish and chip shops, *(c)* kebab shops, *(d)* other take-away food outlets and *(e)* others; and if she will make a statement. [187181]

Mr. Caborn: Many, if not most gaming machines, are owned by machine suppliers who have rental agreements with retail outlets. While the Department has had no recent discussions with trade associations representing any of the above categories of outlets, it

meets regularly with trade associations who represent suppliers and manufacturers of gaming machines to discuss a range of matters relating to the Gambling Bill.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what assessments her Department has made of the likely impact of the ban on category D gaming machines proposed in the Government's response to the Joint Select Committee on Gambling on *(a)* mini-cab companies, *(b)* fish and chip shops, *(c)* kebab shops, *(d)* other take-away food outlets and *(e)* others; and if she will make a statement. [187182]

Mr. Caborn: The Department will publish a full Regulatory Impact Assessment (RIA) for the Gambling Bill when publishing it. In the meantime, consultations on the RIA continue.

The Department's policy on the siting of Category D gaming machines acknowledges that their removal from unlicensed premises may reduce the turnover which they would otherwise have had; but we take the view that it is necessary to give more weight to the difficulties of ensuring that children are adequately supervised when using gaming machines in unlicensed premises and ensuring that unlawful machines are not sited there. We do not intend to cut back on entitlements to install machines conferred by current permits prior to their expiry.

Government Policies

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the Government's policy on *(a)* sport, *(b)* culture and *(c)* art. [186951]

Mr. Caborn: The Government's policy is to improve the quality of life for all through cultural and sporting activities and to support the pursuit of excellence and to champion the creative and leisure industries.

To achieve this we have developed four strategic priorities:

Strategic Priority 1: Children and Young People

Further enhance access to culture and sport for children and give them the opportunity to develop their talents to the full and enjoy the full benefits of participation.

Strategic Priority 2: Communities

Increase and broaden the impact of culture and sport, to enrich individual lives, strengthen communities and improve the places where people live, now and for future generations.

Strategic Priority 3: Economy

Maximise the contribution which the tourism, creative and leisure industries can make to the economy.

Strategic Priority 4: Modernising Delivery

Modernising delivery by ensuring our sponsored bodies are efficient and work with others to meet the cultural and sporting needs of individuals and communities.

Human Remains

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport when she expects to publish the Government's response to the report on the retention of human remains conducted by the Working Groups on Human Remains. [187262]

Estelle Morris: On Wednesday 28 July DCMS launched a consultation to assess the necessity and appropriateness of the recommendations of the Working Group on Human Remains. The consultation will run for three months, and the Government will make their response after that point.

Lower Priority Olympic Sports

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what definition the Government uses of the term "lower priority Olympic sports". [186376]

Mr. Caborn: All sports were assessed in 1997–98 against UK Sport classification criteria (significance in the UK, significance internationally, international success) and more refined indicators which were: the recent record of success or achievement in the international arena, recognition as an Olympic sport, the quantity and quality of the competitive field, the number of world class performers in the UK, the public profile of the sport in the UK and the number of affiliated members in the UK.

Based on these criteria, a number of sports were not considered to be high priority for support from UK Sport. The Olympic Sports Development Fund established by UK Sport and the BOA attempts to help such sports achieve their potential.

National Lottery

Mr. Cousins: To ask the Secretary of State for Culture, Media and Sport if she will estimate the National Lottery-derived balances held by *(a)* lottery funds, *(b)* each arts council and *(c)* each national sports body as at 1 April (i) 2002, (ii) 2003 and (iii) 2004. [186836]

Estelle Morris: The information is in the table.

£

	1 April 2002	*1 April 2003*	*1 April 2004*
Lottery bodies			
Community Fund	401,424,347.40	299,618,282.83	213,264,652.72

Overall lottery total	3,558,834,694.00	3,256,507,926.28	2,736,272,377.66

PFI/PPP Contracts

Matthew Taylor: To ask the Secretary of State for Culture, Media and Sport how many contracts her Department had with *(a)* Barclays, *(b)* the Royal Bank of Scotland, *(c)* UBS Warburg and *(d)* the Bank of Scotland for advice on private finance initiative and public private partnership contracts in each financial year since 2001–02; and what fees were paid in each case. [186689]

Mr. Caborn: The Department (including the Royal Parks Agency) has had no contracts with any of these firms for advice on Public Private Partnership contracts.

Public Bodies

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many people *(a)* the National Lottery Commission, *(b)* the Commission for Architecture and the Built Environment, *(c)* the Film Council, *(d)* the Football Task Force, *(e)* the National Endowment for Science, Technology and the Arts, *(f)* Historic Royal Palaces, *(g)* the Millennium Commission, *(h)* the New Opportunities Fund, *(i)* the New Millennium Experience Company Ltd., *(j)* Resource, *(k)* the Spoliation Advisory Panel, *(l)* the Treasure Valuation Committee, *(m)* the Working Group on Human Remains, *(n)* the Craft Council, *(o)* the British Film Institute, *(p)* the National Film and Television School, *(q)* the Alcohol Education and Research Council, *(r)* the Gaming Board for Great Britain and *(s)* the Horserace Betting Levy Board employs on a (i) full-time and (ii) part-time basis. [187138]

Mr. Caborn: The information is shown in the table.

Body	Full-time staff	Part-time staff
(a) National Lottery Commission	41	0
(b) Commission for Architecture and the Built Environment	65	13
(c) UK Film Council	89	1
(d) Football Task Force (wound up in 1999)	—	—
(e) National Endowment for Science, Technology and the Arts	91	6
(f) Historic Royal Palaces	526	65
(g) Millennium Commission	52	0
(h) New Opportunities Fund[1]	333	30
(i) New Millennium Experience Company Ltd. (in voluntary solvent liquidation)	0	0
(j) Museums, Libraries and Archives Council (formerly known as Resource)	75	2
(k) Spoliation Advisory Panel	0	0
(l) Treasure Valuation Committee	0	0
(m) Working Group on Human Remains (dissolved in 2003)	—	—
(n) Crafts Council	39	17
(o) British Film Institute	385	81
(p) National Film and Television School	65	20
(q) Alcohol Education and Research Council	0	2
(r) Gaming Board for Great Britain	73	3
(s) Horserace Betting Levy Board	23	2

[1] Figures for 1 April 2004. The New Opportunities Fund has since undergone an administrative merger with the Community Fund. The merged body is now operating as the Big Lottery Fund.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what the total salary bill has been for *(a)* the National Lottery Commission, *(b)* the Commission for Architecture and the Built Environment, *(c)* the Film Council, *(d)* the Football Task Force, *(e)* the National Endowment for Science, Technology and the Arts, *(f)* Historic Royal Palaces, *(g)* the Millennium Commission, *(h)* the New Opportunities Fund, *(i)* the New Millennium Experience Company Ltd, *(j)* Resource, *(k)* the Spoliation Advisory Panel, *(l)* the Treasure Valuation Committee, *(m)* the Working Group on Human Remains, *(n)* the Craft Council, *(o)* the British Film Institute, *(p)* the National Film and Television School, *(q)* the Adult Education and Research Council, *(r)* the Gaming Board for Great Britain and *(s)* the Horserace Betting Levy Board in each year since its creation. [187139]

Mr. Caborn: The information is shown in the tables.

(a) National Lottery Commission

	Salary bill (£000)
2003–04	1,750
2002–03	1,380
2001–02	1,294
2000–01	1,375
1999–2000	1,367

The figures cover the years since the National Lottery Commission's inception in its current form.

(b) Commission for Architecture and the Built Environment

	Salary bill (£000)
2003–04	2,231
2002–03	1,013
2001–02	543
2000–01	331
1999–2000 (from 29 September—31 March)	136

(c) UK Film Council

	Salary bill (£000)
2003–04	5,010
2002–03	4,161
2001–02	3,922
2000–01	2,928
1999–01	176

(d) the Football Task Force had no staff

(e) National Endowment for Science, Technology and the Arts

	Salary bill (£000)
2003–04	3,932
2002–03	3,429
2001–02	2,282
2000–01	1,380
1999–2000	944
1998–99	222

(f) Historic Royal Palaces

	Salary bill (£000)
2003–04	17,774
2002–03	16,142
2001–02	14,611
2000–01	13,415
1999–2000	12,917
1998–99	12,577

The figures cover the years since Historic Royal Palaces's inception in its current form.

(g) Millennium Commission

	Salary bill (£000)
2003–04	2,647
2002–03	2,754
2001–02	3,460
2000–01	3,834
1999–2000	3,181
1998–99	3,249
1997–98	2,115
1996–97	1,818
1995–96	1,076
1994–95	283
Up to 31 March 1994	12

(h) New Opportunities Fund

	Salary bill (£000)
2003–04	11,597
2002–03	9,769
2001–02	7,036
2000–01	4,591
1999–2000	2,329
1998–99	401

(i) New Millennium Experience Co. Ltd.

	Salary bill (£000)
January—December 2001	4,642
January 2000—December 2000	40,055
April 1999—December 1999	14,194
April 1998—March 1999	7,121
February 1997—March 1998	2,493

(j) Museums, Libraries and Archives Council (formerly known as Resource)

	Salary bill (£000)
2003–04	3,062
2002–03	2,601
2001–02	2,380
2000–01	2,053

(k) the Spoliation Advisory Panel has no staff

(l) the Treasure Valuation Committee has no staff

(m) the Working Group on Human Remains had no staff

(n) Crafts Council

	Salary bill (£000)
2003–04	not yet available
2002–03	1,481
2001–02	1,376
2000–01	1,199
1999–2000	1,019
1998–99	1,118

The earlier figures for the years since the Crafts Council's creation could be provided only at disproportionate cost.

(o) British Film Institute

	Salary bill (£000)
2003–04	not yet available

	Salary bill (£000)
2003–04	63
2002–03	74
2001–02	61
2000–01	61

The earlier figures for the years since the Alcohol Education and Research Council's creation could be provided only at disproportionate cost.

(r) Gaming Board for Great Britain

	Salary bill (£000)
2003–04	2,399
2002–03	2,391
2001–02	2,236
2000–01	2,090
1999–2000	2,073

The earlier figures for the years since the Gaming Board for Great Britain's creation could be provided only at disproportionate cost.

(s) Horserace Betting Levy Board

	Salary bill (£000)
2003–04	1,046
2002–03	1,037
2001–02	925
2000–01	961
1999–2000	909

The earlier figures for the years since the Horserace Betting Levy Board's creation could be provided only at disproportionate cost.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many people who work for *(a)* the National Lottery Commission, *(b)* the Commission for Architecture and the Built Environment, *(c)* the Film Council, *(d)* the Football Task Force, *(e)* the National Endowment for Science, Technology and the Arts, *(f)* Historic Royal Palaces, *(g)* the Millennium Commission, *(h)* the New Opportunities Fund, *(i)* the New Millennium Experience Company Ltd, *(j)* Resource, *(k)* the Spoliation Advisory Panel, *(l)* the Treasure Valuation Committee, *(m)* the Working Group on Human Remains, *(n)* the Craft Council, *(o)* the British Film Institute, *(p)* the National Film and Television School, *(q)* the Adult Education and Research Council, *(r)* the Gaming Board for Great Britain and *(s)* the Horserace Betting Levy Board are entitled to a final salary pension scheme. [187140]

Mr. Caborn: The information is shown in the table.

Body	*Number entitled to a final salary pension scheme*
(a) National Lottery Commission	40
(b) Commission for Architecture and the Built Environment	78
(c) UK Film Council	55
(d) Football Task Force (wound up in 1999)	—
(e) National Endowment for Science, Technology and the Arts	31
(f) Historic Royal Palaces	445
(g) Millennium Commission	0
(h) New Opportunities Fund (Figure for 1 April 2004. The New Opportunities Fund has since undergone an administrative merger with the Community Fund. The merged body is now operating as the Big Lottery Fund)	363
(i) New Millennium Experience Company Ltd. (in voluntary solvent liquidation)	0
(j) Museums, Libraries and Archives Council (formerly known as Resource)	77
(k) Spoliation Advisory Panel	0
(l) Treasure Valuation Committee	0
(m) Working Group on Human Remains (dissolved in 2003)	—
(n) Crafts Council	10
(o) British Film Institute	264
(p) National Film and Television School	42
(q) Alcohol Education and Research Council	0
(r) Gaming Board for Great Britain	77
(s) Horserace Betting Levy Board	21

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what the remit is of *(a)* the National Lottery Commission, *(b)* the Commission for Architecture and the Built Environment, *(c)* the Film Council, *(d)* the Football Task Force, *(e)* the National Endowment for Science, Technology and the Arts, *(f)* the Millennium Commission, *(g)* the New Opportunities Fund, *(h)* the New Millennium Experience Company Ltd., *(i)* Resource, *(j)* the Spoliation Advisory Panel, *(k)* the Treasure Valuation Committee, *(l)* the Working Group on Human Remains, *(m)* the Craft Council, *(n)* the British Film Institute, *(o)* the National Film and Television School, *(p)* the Alcohol Education and Research Council, *(q)* the Gaming Board for Great Britain and *(r)* the Horserace Betting Levy Board. [187142]

Mr. Caborn: The terms of reference for public bodies are contained in the annual Cabinet Office publication Public Bodies. Copies are available in the Libraries of both Houses.

The bodies listed are contained in Public Bodies 2003, with the following exceptions:

The Football Task Force, which was dissolved in 1999.

The New Millennium Experience Company Ltd., which is in voluntary solvent liquidation.

The Crafts Council. The object of the Crafts Council shall be to advance and encourage the creation of works of fine craftsmanship and to foster, promote and increase the interest of the public in the work of craftspeople and in the accessibility of those works to the public.

The British Film Institute. The objects of the British Film Institute are contained in its Royal Charter, available on the British Film Institute website (www.bfi.org.uk).

The National Film and Television School. The mission of the National Film and Television School is to educate the best creative talent to the highest professional standard for tomorrow's screen media industries.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what annual Government expenditure on *(a)* the National Lottery Commission, *(b)* the Commission for Architecture and the Built Environment, *(c)* the Film Council, *(d)* the Football Task Force, *(e)* the National Endowment for Science, Technology and the Arts, *(f)* the Millennium Commission, *(g)* the New Opportunities Fund, *(h)* the New Millennium Experience Company Ltd., *(i)* Resource, *(j)* the Spoliation Advisory Panel, *(k)* the Treasure Valuation Committee, *(l)* the Working Group on Human Remains, *(m)* the Craft Council, *(n)* the British Film Institute, *(o)* the National Film and Television School, *(p)* the Alcohol Education and Research Council, *(q)* the Gaming Board for Great Britain and *(r)* the Horserace Betting Levy Board was in each year since its creation. [187143]

Mr. Caborn: Expenditure on the National Lottery Commission, the Commission for Architecture and the Built Environment, UK Film Council, the Museums, Libraries and Archives Council (formerly known as Resource), the National Film and Television School and the Gaming Board for Great Britain is shown in the Department for Culture, Media and Sport's Annual Report 2004, Vol. 1 (Cm 6220) and in previous editions. Copies are available in the Libraries of both Houses.

The Gaming Board for Great Britain has been sponsored by the Department for Culture, Media and Sport since 2001. Expenditure figures for earlier years are contained in the Annual Reports of the Home Office, which are available from the Libraries of both Houses.

Expenditure on the National Endowment for Science, Technology and the Arts is contained in its 2002–03 Annual Report, copies of which are available in the Libraries of both Houses.

The Millennium Commission and the New Opportunities Fund are funded by money raised from the National Lottery. (The New Opportunities Fund has undergone an administrative merger with the Community Fund and the merged body is now operating as the Big Lottery Fund). The New Millennium Experience Company Ltd. (now in voluntary solvent liquidation) was funded by the Millennium Commission.

The Spoliation Advisory Panel and the Treasure Evaluation Committee (and the Working Group on Human Remains and Football Task Force, when they existed) form part of the Administration and Research budget of DCMS; they are not recipients of grant-in-aid. Their administration costs are borne by the DCMS, whose staff provide secretariat support, accommodation and legal advice. These costs are centrally budgeted and could be disaggregated only at disproportionate cost. Details of the Department's administration costs are published in the Department's Annual Report.

The Crafts Council is funded mainly by Arts Council England and earned income and has not received any direct Government funding since 1998–99.

The British Film Institute is funded by the UK Film Council and earned income and has not received any direct Government funding since 1999–2000.

The Alcohol Education and Research Fund is vested in and administered by the Alcohol Education and Research Council (AERC) and the AERC does not receive any direct Government funding.

The Horserace Betting Levy Board is funded by collection of a statutory levy and does not receive any direct Government expenditure.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many people who work for *(a)* Culture North East, *(b)* the East Midlands Cultural Consortium, *(c)* Living east, *(d)* the North West Cultural Consortium, *(e)* the South East England Cultural Consortium, *(f)* the South West Regional Cultural Consortium, *(g)* the West Midlands Life Cultural Consortium and *(h)* the Yorkshire Cultural Consortium are entitled to a final salary pension scheme. [187145]

Mr. Caborn: The information requested is in the table. The Regional Cultural Consortiums do not at present directly employ any staff themselves. Those who work for the Consortiums are employed by other regional agencies and partners and may be entitled to join the pension schemes of the organisations which employ them. Not all those entitled to join a final salary pension scheme are currently members of that scheme.

Consortium	*Staff entitled to a final salary pension scheme*
Culture North East	3
East Midlands Cultural Consortium	1
Living East	3
The Cultural Consortium England's Northwest	4
South East England Cultural Consortium	2
Culture South West	0
West Midlands Life	4
Yorkshire Culture	5

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what the total salary has been for *(a)* Culture North East, *(b)* the East Midlands Cultural Consortium, *(c)* Living east, *(d)* the North West Cultural Consortium, *(e)* the South East England Cultural Consortium, *(f)* the South West Regional Cultural Consortium, *(g)* the West Midlands Life Cultural Consortium and *(h)* the Yorkshire Cultural Consortium in each year since its creation. [187146]

Mr. Caborn: The information requested is not available and could be provided only at disproportionate cost. The Regional Cultural Consortiums do not at present directly employ any staff themselves. Those who work for the Consortiums are employed by other regional agencies and partners and paid by those organisations. In most cases, the salary costs are subsequently invoiced to the Department for payment from the resources allocated to the Consortiums, but the Department does not record these costs separately from other Consortium expenditure.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many people *(a)* Culture North East, *(b)* the East Midlands Cultural Consortium, *(c)* Living east, *(d)* the North West

Cultural Consortium, *(e)* the South East England Cultural Consortium, *(f)* the South West Regional Cultural Consortium, *(g)* the West Midlands Life Cultural Consortium and *(h)* the Yorkshire Cultural Consortium employs on a (i) full-time and (ii) part-time basis. [187147]

Mr. Caborn: The Regional Cultural Consortiums do not at present directly employ any staff themselves. Those who work for the Consortiums are employed by other regional agencies and partners and seconded to work for the Consortiums. The number of people currently working full-time and part-time for each Consortium is shown in the table.

Consortium	*Full-time staff*	*Part-time staff*
Culture North East	3	0
East Midlands Cultural Consortium	1	1
Living East	3	0
The Cultural Consortium England's Northwest	3	2
South East England Cultural Consortium	1	1
Culture South West	4	0
West Midlands Life	4	0
Yorkshire Culture	5	0

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what the Government expenditure on *(a)* Culture North East, *(b)* the East Midlands Cultural Consortium, *(c)* Living east, *(d)* the North West Cultural Consortium, *(e)* the South East England Cultural Consortium, *(f)* the South West Regional Cultural Consortium, *(g)* the West Midlands Life Cultural Consortium and *(h)* the Yorkshire Cultural Consortium was in each year since its creation. [187148]

Mr. Caborn: The information requested is in the table.

Regional Cultural Consortiums Annual Expenditure, from DCMS funds

£

Consortium	*1999–2000*[1]	*2000–01*	*2001–02*	*2002–03*	*2003–04*[2]
Culture North East	1,355	41,855	32,415	92,952	197,326
East Midlands Cultural Consortium	857	34,366	15,927	108,880	141,267
Living East	388	26,358	31,621	110,150	184,763
The Cultural Consortium England's Northwest	230	21,995	32,890	93,686	240,695
South East England Cultural Consortium	968	20,229	36,929	30,242	204,862
Culture South West	4,823	33,609	22,043	152,725	213,750
West Midlands Life	1,613	31,089	6,097	120,100	223,217
Yorkshire Culture	829	29,800	17,326	131,450	217,629

[1] The Regional Cultural Consortiums were established in October 1999.
[2] Expected outturn.

Public Swimming Pools

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport (1) what action she has taken to ensure that access to public swimming pools in London increases; [186923]

(2) what action she *(a)* can and *(b)* will take to increase the number of swimming pools in London. [186924]

Mr. Caborn: Sport England is working with the Amateur Swimming Association on an agreed strategy "From Armbands to Gold Medals" to support the development of swimming in London and across the country.

At present, Sport England is working with the Greater London Authority (GLA), London Development Agency (LDA) and London 2012 on the provision of new swimming facilities in Stratford which will be built whether the Olympic bid is successful or not.

Sport England is also working to encourage greater investment in privately owned swimming facilities that provide public access.

Under the Community Club Development Programme, the Amateur Swimming Association (ASA) will receive £1.6 million from the Government's Capital Modernisation Fund to invest strategically in community swimming clubs in all parts of the country.

The overall aim of the programme is to both increase and widen participation in sport at a local level and encourage an active lifestyle. It is expected that this programme will help to raise the number of people, particularly juniors, involved in competitive sport and will also help to improve the health of the nation through encouraging people of all ages to become involved in the sport of their choice.

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport how many *(a)* public lidos and *(b)* swimming pools have closed in London since 1997. [186925]

Mr. Caborn: Since 1997, three public lidos and five swimming pools have closed.

Of the five swimming pools that have closed, one is due to be replaced in 2005 (Swiss Cottage Baths).

There are currently 104 pools in London open to the public. This includes two pools that are currently run independently of local authorities, but fully open to the public (these are Brockwell Lido and Hampton outdoor pool).

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport how many public swimming pools there are in Coventry, South. [187302]

Mr. Caborn: There are 18 swimming pools within a five-mile distance of the CV1 postcode in Coventry, South. Full details of all public swimming pools in the area can be found by visiting the Active Places website at www.activeplaces.com

Public Transport

Sue Doughty: To ask the Secretary of State for Culture, Media and Sport what discussions she has held with *(a)* the Department of Transport, *(b)* transport authorities, *(c)* public transport user groups and *(d)* companies operating public transport services on ensuring that public transport services are able to respond to the increased demand for late night services arising from increased use of late licences resulting from powers granted to licensing authorities under the Licensing Act 2003. [187157]

Mr. Caborn: The implementation of the Licensing Act 2003 can have no impact on the demand for late night transport services until November 2005 at the earliest. The content of the Licensing Act 2003 and the Licensing Guidance issued by the Secretary of State on 7 July this year, following approval by Parliament, were discussed with and approved by the Department for Transport. There have been no direct discussions with individual transport authorities, public transport user groups and companies operating public transport services other than through the public consultations that preceded the introduction of the Licensing Bill and the laying of the Guidance in Parliament. At paragraph 3.50, the Licensing Guidance advises licensing authorities when developing local statements of licensing policy to have regard to the existing policies and strategies of the relevant local transport authority as set out in their local Transport Plan. Local Transport Plans are the mechanism by which local authorities are expected to work in partnership with all appropriate bodies to deliver effective local transport services that meet the needs of local people. These are expected to include provision of night-time and evening services, where this is appropriate to the local situation. It is for local authorities to identify where and how to take action.

Regional Cultural Consortiums

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what the remit is of the regional cultural consortiums. [187149]

Mr. Caborn: The remit of the Regional Cultural Consortiums is set out in the Cabinet Office publication "Public Bodies", copies of which are available in the Libraries of both Houses. The role of the Consortiums is to champion the whole spectrum of cultural and creative interests in the regions, including tourism and sport. The Consortiums have responsibility for implementing the regional cultural strategies and they have a role in central policy-making, regional data collection and research.

School Sports

Mr. Liddell-Grainger: To ask the Secretary of State for Culture, Media and Sport how many children aged between five and 16 years she estimates have not participated in at least two hours per week of physical activity and sport at school this year. [186504]

Mr. Caborn: The information requested is not held centrally for all pupils.

As a result of the 2004 Spending Review the PE, School Sport and Club Links PSA target is being increased and extended to 2008. The ambition is to further increase the percentage of five to 16-year-olds spending a minimum of two hours a week on high quality PE and school sport from 75 per cent. in 2006 to 85 per cent. by 2008. The target also seeks to ensure that all School Sport Partnerships are able to demonstrate that at least 75 per cent. of their pupils spend a minimum of two hours a week on high quality PE and schools sport. From this month, 50 per cent. of schools will be in a School Sport Partnership.

Mr. Liddell-Grainger: To ask the Secretary of State for Culture, Media and Sport how many schools in the Bridgwater constituency *(a)* are and *(b)* are not participating in a school sports partnership. [186505]

Mr. Caborn: Within the constituency of Bridgwater there is one School Sport Partnership, based around the hub school, King Alfred's, and comprising four secondary schools, 25 primary schools and two special schools. All schools within Bridgwater will be within a School Sport Partnership by September 2006.

Shooting

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport whether she plans to meet the governing bodies of shooting in the near future. [186922]

Mr. Caborn: My right hon. Friend the Secretary of State has no plans to meet the governing bodies of shooting in the near future. Officials from the Home Office and Defra have recently met representatives from the governing bodies of shooting to discuss the Home Office consultation on firearms. DCMS officials will continue discussions with Home Office and Defra officials to ensure that the interests of shooting clubs are given appropriate consideration.

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport when she last met representatives of the governing bodies of shooting to discuss the impact of recent legislation on the sport. [186935]

Mr. Caborn: My right hon. Friend the Secretary of State has not met representatives of the governing bodies of shooting to discuss the impact of recent legislation.

Sport England

Joyce Quin: To ask the Secretary of State for Culture, Media and Sport what the budget of Sport England in the North East region of England was in each of the last three years. [186428]

Mr. Caborn: The following table provides figures for Sport England's budget in the North East region for each of the last three financial years and the current financial year.

£ million

North East budgets	*2001-02*	*2002-03*	*2003-04*	*2004-05*
Exchequer	1.16	1.17	2.59	1.17
Lottery[1]	15.23	18.70	5.33	11.49
Total budget	16.39	19.87	7.92	12.66

[1] Lottery includes Community Schemes and Awards for All

Sports Lottery Fund

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what the total reserves in the Sports Lottery Fund are. [186931]

Mr. Caborn: Balances held by each of the sports Lottery distributors as at 1 August 2004 are shown in the table.

Distributing body	*Balance (£)*
Sport England	193,912,849.51
Sport Scotland	60,688,533.81
Sports Council for Wales	17,974,275.50
Sports Council of Northern Ireland	24,127,137.58
UK Sport	2,880,357.25
Total	299,583,153.65

St. Kitts Maritime Archaeological Project

Mr. Hawkins: To ask the Secretary of State for Culture, Media and Sport what plans she has to assist maritime archaeology of sunken British vessels in the waters off Commonwealth countries, with particular reference to wrecks off St. Kitts being researched by the St. Kitts Maritime Archaeological Project. [185002]

Mr. Caborn *[holding answer 19 July 2004]*: We have no current plans to assist the St. Kitts Maritime Archaeological Project.

Tourism

Mr. Ruffley: To ask the Secretary of State for Culture, Media and Sport how much revenue she estimates tourism generated for *(a)* the East of England and *(b)* Suffolk in each of the last seven years. [187210]

Mr. Caborn: The information requested is as follows.

(a) The available figures for tourism expenditure in the East of England region are shown in the table.

Tourism expenditure in the East of England region by year[1]

£ million	*Visits by overseas residents*	*Trips by domestic residents with an overnight stay*	*Tourism day trips by domestic residents*	*Total*
1997	500	n/a[2]	n/a	n/a
1998	550	n/a[2]	2,870	n/a
1999	550	n/a[2]	n/a	n/a
2000	650	1,540	n/a	n/a
2001	520	1,800	n/a	n/a
2002	620	1,700	2,930	5,250
2003	590	nya	n/a	n/a

[1] Sample sizes at this level of detail will be small which means that the estimates will be subject to a high margin of error. Particular caution should therefore be exercised when comparing any two of the estimates.
[2] Figures for overnight stays by domestic tourists are taken from the UK Tourism Survey. Comparable figures at regional level prior to 2000 are not available due to a major change in survey methodology.
n/a = not available,
nya = not yet available
Sources:
International Passenger Survey, UK Tourism Survey, GB Leisure Day Visits Survey

(b) The available figures for tourism expenditure in Suffolk are shown in the table. Figures for tourism day trips are only available at regional level.

Tourism expenditure in Suffolk by year[1]

£ million	*Visits by overseas residents*	*Trips by domestic residents with an overnight stay*	*Tourism day trips by domestic residents* [1]	*Total*
1997	30	n/a[2]	n/a	n/a
1998	40	n/a[2]	n/a	n/a
1999	55	n/a[2]	n/a	n/a
2000	50	225	n/a	n/a
2001	40	310	n/a	n/a
2002	70	160	n/a	n/a
2003	40	nya	n/a	n/a

[1] Sample sizes at this level of detail will be small which means that the estimates will be subject to a high margin of error. Particular caution should therefore be exercised when comparing any two of the estimates.
[2] Figures for overnight stays by domestic tourists are taken from the UK Tourism Survey. Comparable figures at regional level prior to 2000 are not available due to a major change in survey methodology.
[3] Due to small sample sizes in the GB Day Visits Survey, data are not available below Government Office Region level.
n/a = not available
nya = not yet available
Sources:
International Passenger Survey, UK Tourism Survey

Mr. Liddell-Grainger: To ask the Secretary of State for Culture, Media and Sport what steps the Government are taking to support the tourism industry in Bridgwater. [186506]

Mr. Caborn: Since April 2003, the Regional Development Agencies have had strategic responsibility for tourism development in the regions, reflecting its importance as a driver of regional economies. Over 2003–06, South West Regional Development Agency (SWRDA) will receive £403,000 per annum from my Department for tourism development activity, which is currently passed to the Regional Tourist Board, South West Tourism (SWT), as core funding. The board of SWRDA has recently endorsed the new tourism strategy, 'Towards 2015' and additional funding of £1.5 million per annum for the next four years has been proposed to cover its implementation. SWRDA has also funded other projects which benefit tourism in the region, including regional marketing, the Tourism Skills Network and capital investment in regional attractions.

DCMS has made available to VisitBritain in 2004–05 grant in aid of £35.5 million to promote Britain overseas and £12.9 million to lead the domestic marketing of England. Tourism in Bridgwater benefits from this expenditure, as does the rest of the country.

Mr. Wiggin: To ask the Secretary of State for Culture, Media and Sport what plans she has to visit Herefordshire to promote it as a tourist destination for *(a)* British and *(b)* foreign holiday-makers. [186823]

Mr. Caborn: My right hon. Friend the Secretary of State currently has no official plans to visit Herefordshire. However, Herefordshire is promoted

both globally and domestically in many of VisitBritain's campaigns. Domestically, it is featured in the flagship £2.5 million 'enjoyEngland' campaign and other themed promotions. For example, in the 'Outdoor England' campaign the region's natural attractions, such as the Wye Valley walk and the Forest of Dean are featured. Internationally, the county is included in campaigns such as 'Good Living', 'Lifestyle & Culture' and 'Hidden Britain'. Further information can be obtained from VisitBritain's website www.visitbritain.com.

PRIME MINISTER

Freedom of Information

Matthew Taylor: To ask the Prime Minister (1) on what date he issued the direction to set up the Ministerial Committee on Freedom of Information (MISC 28); for what reasons he decided to set up this committee; and if he will place in the Library a copy of the direction setting up this committee; [186606]

(2) how many times the Ministerial Committee on Freedom of Information (MISC 28) has met since it was set up; on what dates it has met; when it was set up; and whether the committee has discussed the issue of deciding what level of fees should be charged for requests under the Freedom of Information Act 2000. [186607]

The Prime Minister: It is established practice, as reflected in the Ministerial Code and under Exemption 2 of Part II of the Code of Practice on Access to Government Information, not to disclose information relating to the proceedings of the Cabinet and its committees.

I announced the establishment of the Ministerial Committee on Freedom of Information (MISC28) to Parliament on Thursday 27 May 2004. The Committee was established to oversee the Government's strategy on Freedom of Information, particularly as Government Departments make final preparations for the full implementation of the Freedom of Information Act in 2005. Details of the membership and terms of reference of the Committee are available in the Libraries of both Houses and on the Cabinet Office website.

CONSTITUTIONAL AFFAIRS

Public Records

Lynne Jones: To ask the Parliamentary Secretary, Department for Constitutional Affairs pursuant to his answer of 22 July 2004, *Official Report*, column 535W, on public records, under what legal provision files that have passed the normal 30 years disclosure period laid down by the Public Record Act 1958 have been either closed or retained; how many of the closed files have been closed to protect personally sensitive information; for what categories of reason the remainder are closed; and what plans there are for the future publication of the retained files. [187622]

Mr. Lammy: Records may at present be kept closed to public access longer than 30 years under s5(1) of the Public Records Act or specifically to prevent a breach of good faith under s5(2). S3(4) allows for retention in Departments beyond the 30 year period. In all these cases the approval of the relevant Minister and the Lord Chancellor, who takes account of the views of his Advisory Council on National Records and Archives, is required. Variations of the 30 year closure period are authorised by an Instrument signed by the Lord Chancellor.

The 1993 Open Government White Paper set out the criteria against which applications for extended closure have been assessed. Since 1993 76.9 per cent. of records which have been closed relate to personally sensitive information. The other criteria for extended closure are described in the White Paper.

The Open Government White Paper of 1993 requires Departments to review retained records, and to consider whether actual damage would be caused by their release. These arrangements will continue.

Information on Access to Public Records can be found on the National Archives website at: http://www.nationalarchives.gov.uk/recordsmanagement/advice/schedules.htm

CULTURE, MEDIA AND SPORT

Metropolitan Police (Artefacts)

Mr. Boris Johnson: To ask the Secretary of State for Culture, Media and Sport whether the closure on 14 July of the warehouse containing the Metropolitan Police Service's collection of artefacts is permanent; and if she will make a statement. [187475]

Estelle Morris: This a matter for the Metropolitan Police Authority. I understand that the closure is to allow staff time to carry out work needed to ensure compliance with the Freedom of Information Act when it comes into force on 1 January 2005.

Conditions at the storage facility in which the collection and archives are held raise health and safety issues for staff and visitors. I understand the Metropolitan Police Service is committed to looking for a more suitable location for the artefacts and is exploring ways in which the collection can be displayed, without placing a burden on police funds.

Shooting

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what discussions she has held with the London 2012 Olympics bid team on the venue for shooting events. [186934]

Tessa Jowell: London 2012 is responsible for selecting the venues for the bid to host the Olympic and Paralympic Games and announced on 16 January that Bisley would host the shooting events. Following the report from the IOC Working Group on 18 May which highlighted potential problems that may result from the number and geographical spread of venues, London 2012 have been considering alternative sites nearer to the Olympic Zone.

A firm decision will be made for inclusion in the Candidate File that will be submitted to the IOC on 15 November 2004.

ELECTORAL COMMISSION

Corporate Plan

Mike Gapes: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission when the Electoral Commission's Corporate Plan for 2004–05 to 2008–09 was approved by the Speaker's Committee. [186592]

Mr. Viggers: The Electoral Commission's Corporate Plan for 2004–05 to 2008–09 was approved by the Speaker's Committee at its meeting on 14 July. The Plan was laid before the House by the Speaker, on behalf of the Speaker's Committee, on 22 July as House of Commons Paper No. 797, copies of which are now available in the Vote Office. I understand that the Electoral Commission has also sent copies to all Members.

CABINET OFFICE

Absenteeism

Mr. Liddell-Grainger: To ask the Minister for the Cabinet Office what the average number of working days lost per employee through illness was in his Department in each of the last five years; and what targets for days lost were set for each year. [186599]

Mr. Alexander: Information on working days lost per employee due to illness in the Cabinet Office is published each year in "Analysis of Sickness Absence in the Civil Service". The latest publication covers 2002 and is available in the Library of the House. The figures for 2003 are expected to be published in autumn 2004. Information for the available years requested are set out in the following table.

	Working days lost per employee
1998	6.2
1999	6.8
2000	4.6
2001	5.7
2002	4.8

Cabinet Office targets for reducing levels of sickness absence cover three years as follows:

	Target for working days lost per employee
2001	6.4 days or less
2003	6.1 days or less
2010	5.1 days or less

To further reduce short-term sickness absence, my right hon. Friend the Chancellor announced in the Spending Review an examination of the use of self-certification in the civil service.

Mr. Liddell-Grainger: To ask the Minister for the Cabinet Office if he will withdraw payment for an initial period of absence from working through illness in the Civil Service and public sector; and if he will make a statement. [186537]

Mr. Alexander: My right hon. Friend the Chancellor of the Exchequer announced during the Spending Review on Monday 12 July 2004 that the Cabinet Secretary and I will consult on, and negotiate changes to the current arrangements for self-certifying absence in the civil service.

In such circumstances it would not be appropriate for me to pre-empt this exercise by making changes to the way that payment is made for sickness absence.

Although this review will encompass solely the civil service, it is hoped that any change made to the self-certification system will serve as an example of good practice for the wider public sector.

Civil Contingencies

Miss McIntosh: To ask the Minister for the Cabinet Office if he will make a statement on his Department's role in projects to be funded following the announcement relating to civil contingencies in the Spending Review. [186673]

Mr. Alexander: The Cabinet Office has lead responsibility within Government for local authorities' civil protection activities. It has secured a doubling of the Government's contribution to the cost of local authorities' civil protection work.

The wider programme of increased investment in the counter-terrorism and resilience area falls to a range of Government Departments, and will be overseen by the Home Secretary, who has overall responsibility for domestic security and resilience.

Freedom of Information

Matthew Taylor: To ask the Minister for the Cabinet Office what action he is taking in response to the comments made by the Parliamentary Ombudsman regarding delays by his Department in responding to complaints under the Code of Practice on Access to Government Information in her review of departmental performance against requirements of the Memorandum of Understanding published on 30 June; and if he will make a statement. [186611]

Mr. Alexander: The Government take any delays in responding to complaints under the Code of Practice on Access to Government Information seriously.

The Government regret that delays do unavoidably occur in a minority of complex cases. However, the Ombudsman's review of the first nine months of the Memorandum of Understanding (September 2003 to May 2004) shows that in most cases the requirements of the Memorandum of Understanding were met.

In all cases, Departments endeavour to ensure that the time limit of three weeks for Departments to respond to a "statement of complaint" from the Ombudsman is met. In accordance with the Memorandum of Understanding, Departments aim to enter into dialogue with the investigating officer should there be any difficulty in replying by the date set by the Ombudsman.

PFI/PPP Contracts

Matthew Taylor: To ask the Minister for the Cabinet Office how many contracts the Cabinet Office had with *(a)* Barclays, *(b)* the Royal Bank of Scotland, *(c)* UBS Warburg and *(d)* the Bank of Scotland for advice on private finance initiative and public private partnership contracts in each financial year since 2001–02; and what fees were paid in each case. [186612]

Mr. Alexander: The Department has not entered into any such contracts with any of these companies.

Press Officers

Mr. Cameron: To ask the Minister for the Cabinet Office how much was spent by his Office on press officers, broken down by grade, in *(a)* 1996–97 and *(b)* the last year for which figures are available. [185241]

Mr. Alexander *[holding answer 19 July 2004]:* Financial and human resource information for periods, prior to, and including 1996–97 is not held on the Cabinet Office's current databases. Hence, information for 1996–97 could be provided in the manner requested only at disproportionate cost. However, information about the number of press officers working in Cabinet Office press office during this period is available in Appendix 11 to PASC—Sixth Report.

Press office provides a service to the Minister for the Cabinet Office; Minister without Portfolio; Leader and Deputy Leader of the Commons; Leader of the Lords; Cabinet Secretary; Security and Intelligence Co-ordinator and the Permanent Secretary Government Communications. It is also responsible for supporting the Managing Director of the Cabinet Office and the Heads of Management Units in the Cabinet Office.

The last year for which information is available is 2003–04. At January 2004 the Cabinet Office Press Office had the following press officer posts:

a full-time head of news post—SCSI;

two full-time chief press officer posts—G7;

two full-time senior press officer posts—TIS3/SIO;

a senior press officer—TIS3/SIO who spent 50 per cent. of her time on press office duties;

three full-time press officers—TIS2/1O and B2.

Some of these posts remained vacant for a large part of 2003–04. The total salary costs, including employer contributions and overtime, for the above posts in the 2003–04 financial year was £436,433.00. These figures are subject to final audit by the National Audit Office (NAO). In order to protect the privacy of the individuals concerned it would be inappropriate to break down the cost by grade.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Metropolitan Police (Horse Dung)

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the estimated amount in tonnes is of horse excrement deposited by police horses belonging to the London Metropolitan Police on public byways and spaces in London in the last year for which figures are available; [187289]

(2) what the estimated cost to local authorities was of collecting excrement from police horses belonging to the London Metropolitan Police from public byways and spaces in the last year for which figures are available, broken down by local authority; [187290]

(3) what *(a)* tonnage and *(b)* percentage of excrement produced by horses belonging to the Metropolitan Police was recycled in the form of manure or other compost in the last year for which figures are available; [187291]

(4) what obligations there are on the Metropolitan Police to clean up excrement left by its horses on public byways and spaces in London. [187292]

Alun Michael: There are no figures available for the amount of horse manure excreted by horses belonging to the Metropolitan Police in London, the cost to local authorities for cleaning up horse excrement, nor for the amount of excrement that authorities have collected.

The Metropolitan Police have no obligation to clear up horse excrement.

Advertising

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by her Department on *(a)* advertising and *(b)* public relations consultants in (i) 1996–97 and (ii) in the latest year for which figures are available. [186014]

Alun Michael: The Department does not maintain separate records of its expenditure for advertising and promotional literature. The expenditure for publicity by Defra's Communications Directorate, includes marketing, advertising, publications, events, shows and direct mailings, and is recorded for the financial years since Defra's creation in June 2001 as follows:

	£ million
2001–02	6.6
2002–03	4.7
2003–04	2.5

This includes communications on a wide range of matters, much of it necessary or beneficial to the public and the wide range of industries in which Defra has an interest, together with local government, voluntary organisations and other bodies.

Figures on expenditure on public relations consultants by all sections of Defra are not held centrally and could be provided only at disproportionate cost. There has been no expenditure on public relations consultancy by the Defra's Communications Directorate since the Department was set up. Some firms which include public relations activities among the range of services they provide to clients have been employed by some sections of Defra, but not primarily for that purpose.

Departmental Costs

Richard Ottaway: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of running the Department's canteen facilities was in *(a)* 1996–97 and *(b)* the latest year for which figures are available. [184378]

Alun Michael: Defra came into being in June 2001. From information held centrally, the cost of running the Department's canteen facilities in financial year 2001–02 was £398,058 and in financial year 2003–04 the cost was £443,025.

Richard Ottaway: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by her Department on public relations consultants in *(a)* 1996–97 and *(b)* in the last year for which figures are available. [184381]

Alun Michael: Defra was formed in June 2001. Figures on expenditure on public relations consultants by all sections of Defra are not held centrally and could be provided only at disproportionate cost. There has been no expenditure on public relations consultancy by the Defra's Communications Directorate since the Department was set up. Some firms which include public relations activities among the range of services they provide to clients have been employed by some sections of Defra, but not primarily for that purpose.

Hunting

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs, if she will make a statement on the Hunting Bill. [188252]

Alun Michael: The Government intends to fulfil its manifesto commitment to enable Parliament to deal with the issue of hunting with dogs.

Some opponents of hunting want this issue to be dealt with as a matter of great urgency, while supporters of hunting want nothing to change and many other people regard it as being less important than many other policies.

The Government has made it clear that the issue does not have as high a priority as issues like jobs and schools and hospitals and transport, to name a few. But it is an issue that has absorbed an enormous amount of valuable Parliamentary time, over several years, and before the last election we acknowledged that it was time to enable Parliament to reach a conclusion.

The Government has made efforts to find a constructive way forward, based on the evidence, through the Burns Committee Report and my own work which culminated in public hearings in Portcullis House in 2002. The proposals put to the House last year would have banned hunting except where a particular activity could be proved—to the satisfaction of an independent tribunal—to be necessary for pest control and to involve less suffering than available alternatives. The House decided by a substantial majority on a free vote to go further and require a complete ban apart from a few very restricted statutory exceptions.

The Other Place then considered the Bill but failed to return it to this House before the end of the Session last November. That was disappointing and the only way the Government can be sure to fulfil its manifesto commitment is now to reintroduce the Bill in the form it left this House last year. I am therefore giving notice of the Bill's re-introduction in this House.

It will be a matter for this House to decide, but the Government believes that the provisions of the Parliament Acts will be available if an unaltered Bill is sent to the Other Place.

In addition to the Bill, I shall ask the House to agree a motion to commence the Bill's provisions in relation to hunting, but not hare-coursing events, two years after its enactment. Special procedures exist under the Parliament Act 1911 for changes to be made if agreed to by both Houses. This period will give those involved in hunting more than adequate time to cease the activities which are to be banned, for humane arrangements like the dispersal or re-homing of dogs, and for re-focusing any business activities on alternatives like drag-hunting or disposal of fallen stock if they wish to do so.

These welfare considerations do not apply to hare coursing events. Violence and intimidation associated with illegal coursing events is a real and pressing problem in many areas of the countryside today. We have received many representations asking us to take firm and speedy action to enable the police to tackle these associated evils. That can only be done if the nature of the relevant offences is changed from that of trespassing to the activity of hare-coursing itself, which is a clear provision of the Bill. There can be no justification for delaying further in giving the police the powers they need to crack down on the criminals involved. So the offences in the Bill banning hare-coursing events should continue to come into force three months after the Bill is passed.

The Government has condemned threats of illegal action by some supporters of hunting and believes that most people involved are law-abiding people who are prepared to respect the will of Parliament. Extra time for implementation will make it even clearer that illegal actions and threats or intimidation are totally unjustified. If people wish to continue their opposition to legislation, they have the option of the ballot box through which to express their views.

Animal welfare is also a major consideration for the Government—in terms of dogs and horses as well as the wild animals which are hunted. Dogs used for hunting are normally shot when they are no longer needed but the extra time for implementation will mean that there is even less reason for any suffering to be caused to them because of the ban. The RSPCA has offered to help with re-homing hounds—an offer for which I am very grateful—based on its experience of re-homing a considerable number of greyhounds each year. Drag-hunting offers alternative activities for those who have to give up hunting. And the horse industry in this country is buoyant, with increasing activity in a variety of leisure and sporting activities.

As has consistently been the case, right hon. and hon. Members on this side of the House will have a free vote on the Hunting Bill. That free vote will apply to Ministers and Whips as well as to back-benchers. While this legislation is not a Government priority, it is an issue on which hon. Members have expressed strong and consistent views over many years.

My right hon. Friend the Leader of the House will address the handling of the Bill in the Business Statement.

Marine Protection

Richard Younger-Ross: To ask the Secretary of State for Environment, Food and Rural Affairs what research has been carried out on the cost of creating a series of marine parks around Great Britain. [186283]

Mr. Bradshaw: A meaningful assessment of the cost of creating a series of marine parks would depend on a variety of factors, including the number, scale and purpose of such areas, as well as the nature of any management, enforcement and monitoring.

TRADE AND INDUSTRY

Intellectual Property Rights

Mr. Oaten: To ask the Secretary of State for Trade and Industry how many and what type of intellectual property rights are owned by the Government. [187101]

Mr. Ingram: I have been asked to reply.

Intellectual property rights in the UK comprise:

statutory rights which are registered and granted through the Patent Office, comprising patents, registered trade marks, registered designs, plant breeders rights;

statutory, but unregistered rights, such as copyright and unregistered design rights.

In addition common law rights such as those relating to confidential information, trade secrets, and unregistered trademarks, and passing-off are often included within the wider definition of intellectual property.

Government Departments currently hold just over 1,200 live patents, 600 live trademarks and 20 live registered designs around the world. There is no record of any plant breeders rights.

The number of patents held has reduced considerably in recent times as a result of the establishment of QinetiQ Ltd. as a separate company. A substantial part of the Ministry of Defence's patent portfolio was vested in QinetiQ at its foundation.

The figures given above exclude patents held by various national health bodies.

No central records are held for copyright or unregistered designs, nor of common law rights. But all works (including computer software) made by Government servants are Crown Copyright, and the number of copyright materials held by Government Departments is, in consequence, immense.

INTERNATIONAL DEVELOPMENT

Equatorial Guinea

Angus Robertson: To ask the Secretary of State for International Development (1) if he will list the projects *(a)* initiated, *(b)* funded (i) partially and (ii) fully and *(c)* run by his Department since 1997 in Equatorial Guinea; and if he will make a statement; [187266]

(2) how much *(a)* monetary aid and *(b)* aid in kind his Department has (i) pledged and (ii) delivered to Equatorial Guinea per annum since 1998; and if he will make a statement. [187265]

Mr. Gareth Thomas: DFID does not have a significant bilateral programme partnership with Equatorial Guinea, but does provide a Small Grants Scheme (SGS) fund co-ordinated at the British High Commission in Yaounde, Cameroon. This fund supports non-governmental and civil society organisation projects which are in line with DFID's development objectives.

The Small Grants Scheme has funded eight such projects in Equatorial Guinea since 1997, with a combined value of £53,372. Two projects supported community health centres; four projects provided water and sanitation and one assisted livelihoods work in palm oil production. The SGS also supported the studies of two students from Equatorial Guinea.

Of the official development assistance given to Equatorial Guinea through the European Community, the UK's share was £0.2 million in 1998, £0.1 million in 1999, £0.3 million in 2000, and £0.3 million in 2001. Figures for 2003–04 are currently unavailable.

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the economic and political developments in Equatorial Guinea since 1998; and if he will make a statement. [187267]

Mr. Gareth Thomas: DFID has no significant development partnership with Equatorial Guinea and so makes no formal assessment of economic and political developments. However, DFID does support the EU Declaration of 17 June which states that the Government of Equatorial Guinea must adhere to democratic principles in an internationally accepted manner. HM Government continues to monitor the situation.

Madrid International Plan of Action on Ageing

Sandra Gidley: To ask the Secretary of State for International Development what action he is taking to ensure that the Government fulfils the commitments it made in the Madrid International Plan of Action on Ageing. [186829]

Mr. Gareth Thomas: A fundamental aim of the International Plan of Action is the eradication of poverty. DFID's aim is also the elimination of poverty in poorer countries. A key objective of the Madrid International Plan of Action on Ageing is to ensure that issues relating to ageing are taken into account at all stages in both international and national development

plans and policies. DFID's policy is to support developing countries' own development agendas, known as Poverty Reduction Strategies (PRSs). DFID seeks to ensure that groups representing the interests of older people are included in PRS consultations.

Older people are often among the poorest. The problems they face are therefore included in the policy analyses currently being carried out by DFID on chronic poverty and on social exclusion. DFID has also recently funded research at the Centre for Chronic Poverty and Development Policy at Manchester, in partnership with Help Age International, into older people living in poverty; at the University of Wales into migration of older people from South Asia and at Manchester University into non-contributory pensions and poverty prevention.

The Action Plan advocates the active participation of older people in society and development. DFID's approach recognises the human rights of poor people, including older people and seeks to ensure that they are consulted on policies and decisions that affect them. This increases understanding of how they perceive their rights and of the obstacles they face in obtaining their entitlements.

Examples of projects funded by DFID country programmes include support for the development of services for older people in the Kemerovo region of Russia and projects in the Overseas Territories of Montserrat and St. Helena to provide sheltered housing and other support for elderly people to live in the community.

DFID also has a Programme Partnership Agreement with Help Age International (HAI), under which we are providing funding of £2.46 million to HAI over three years. The purpose is to influence the development of policies and practices that promote rights and opportunities for older people and to maximise their contribution to society. HAI's work includes support for setting up effective groups of older citizens in developing countries; strengthening them to monitor how their governments carry out their commitments to reduce the poverty of older people, including the Madrid International Plan of Action on Ageing; encouraging dialogue between governments, civil society and older people to ensure that effective policies and programmes are developed to reduce poverty among older people; disseminating information about ageing; raising awareness of the impact of HIV/AIDS on older people and supporting work to inform older people of their rights.

TRANSPORT

A40/M40

Mr. Lidington: To ask the Secretary of State for Transport what guidance he has given to the Highways Agency on how to take account, in framing the A40/M40 management strategy, of *(a)* the environmental impact of the motorway on people living in South Buckinghamshire and *(b)* Wycombe district council's air quality management strategy. [187370]

Mr. Jamieson: The Highways Agency follows a consistent approach for all route management strategies whereby the problems and issues of a route are grouped under five main categories, one of which is environment. Issues such as noise and air quality are considered within this category.

Wycombe district council's air quality management area is recorded in the M40/A40 draft route management strategy. Wycombe's air quality action plan includes a number of measures to improve air quality, two of which directly involve the Highways Agency. Layout changes to the Handy Cross junction are already in the targeted programme of improvements for the agency and the draft route management strategy contains possible options to reduce future traffic volumes on the M40.

Mr. Lidington: To ask the Secretary of State for Transport what estimate he has made of the number of people who live up to *(a)* 50 metres, *(b)* 100 metres, *(c)* 250 metres and *(d)* 500 metres from the M40 between junctions 3 and 6. [187372]

Mr. Jamieson: The Highways Agency do not hold figures for the number of people who live within 50, 100, 250 and 500 metres of the M40 between junctions 3 and 6.

Mr. Lidington: To ask the Secretary of State for Transport what estimate he has made of the accident rate per number of vehicles on the M40 between *(a)* junctions 3 and 4, *(b)* junctions 4 and 5 and *(c)* junctions 5 and 6. [187373]

Mr. Jamieson: The Highways Agency publishes accident rates per million vehicle kilometres travelled. On this basis the accident rates for the three sections of the M40 are as follows:

	Accident rate
(a) Junctions 3 to 4	0.129
(b) Junction 4 to 5	0.047
(c) Junctions to 6	0.125

These rates have been calculated using accident data for the last five years.

Mr. Lidington: To ask the Secretary of State for Transport how many accidents there have been in each of the last five years on the M40 between *(a)* junctions 3 and 4, *(b)* junctions 4 and 5 and *(c)* junctions 5 and 6. [187374]

Mr. Jamieson: For each of the last five years, the following injury accidents have been recorded on the M40.

	1999	*2000*	*2001*	*2002*	*2003*
Junction 3 to 4					
Fatal	3	0	0	0	0
Serious	7	5	7	3	6
Slight	21	17	25	21	19
Junction 4 to 5					
Fatal	0	2	0	1	0
Serious	4	2	3	1	4
Slight	17	15	21	20	10
Junction 5 to 6					
Fatal	0	1	0	0	0
Serious	3	2	2	3	2
Slight	11	17	10	17	16

Mr. Lidington: To ask the Secretary of State for Transport what his latest estimate is of the average daily flow of traffic on the M40 between junctions 3 and 6. [187375]

Mr. Jamieson: The latest annual average daily traffic flows for each section of the M40 motorway between junctions 3 and 6 were collected in 2003 and are shown in the following the table:

Motorway section	*Combined Northbound and Southbound traffic flows (vehicles)*
Junctions 3 to 4	101,812
Junctions 4 to 5	93,036
Junctions 5 to 6	92,923

Mr. Lidington: To ask the Secretary of State for Transport on how many occasions in each of the last five years traffic has been diverted off the M40 at Junction 5 or 6 to travel along the A40 through Stokenchurch. [187381]

Mr. Jamieson: For the five-year period in question, no formal diversions have been implemented by the Highways Agency that required traffic to be diverted off the M40 at Junction 5 or 6 to travel along the A40 through Stokenchurch.

A65

Mr. Battle: To ask the Secretary of State for Transport what funds he has *(a)* been asked for and *(b)* agreed to provide for the A65 bus lane scheme. [186735]

Dr. Howells: Leeds city council initially asked for £20 million for this scheme, and my Department provisionally accepted it for funding at this cost in December 2001. Subsequently, a revised scheme costing £29 million, along with a lower cost alternative for £21 million, has been submitted which is currently being considered by my Department.

Designated Accommodation

Bob Spink: To ask the Secretary of State for Transport how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion and *(c)* nursing mothers and pregnant women in each building and set of offices for which his Department is responsible. [187323]

Mr. McNulty: DfT central has a significant presence in nine buildings shown in the following table, which also shows the number of rooms available for smokers, prayer (non-denominational) or for the use of nursing mothers or pregnant women.

Building	*Smoking room*	*Prayer room*	*Nursing mothers*
Great Minster House, London	1	1	1
Southside, London	0	0	1 (first aid room)
MAVIS Crowthorne	0	0	1 (first aid room)
Ashdown House Hastings[1]	3	1	1 (first aid room)
Air Accidents Investigation Branch, Farnborough	1	0	0
Marine Accident Investigation Branch, Southampton	0	0	0
Temple Quay, Bristol[1]	1	0	1 (first aid room)
Ashdown House Victoria, London	1	1	1
Portland House, London[1]	0	1	1

[1] Facilities shared with other Government Departments (OGDs)

Highways Agency

Joyce Quin: To ask the Secretary of State for Transport what the budget of the Highways Agency in the North East of England was in each of the last three years. [186430]

Dr. Howells: The budget of the Highways Agency in the North East of England in the last three years was £49.133 million for 2002–03, £52.323 million for 2003–04 and £49.588 million in 2004–05.

London Gateway Port Harbour Empowerment Order

Bob Spink: To ask the Secretary of State for Transport if he will delay his decision on the London Gateway Port Harbour Empowerment Order until he is satisfied that a reasonable compensation package has been offered to local fishermen; and if he will make a statement. [187591]

Mr. Jamieson: The inspector's report of the Public Inquiry held into the London Gateway proposals is with this Department for consideration as part of the statutory process. I understand that fisheries issues were raised at the inquiry and the Secretary of State will of course take into account all relevant considerations in reaching his decision.

Rail Services (London)

Mr. Yeo: To ask the Secretary of State for Transport over what length beyond the boundaries of the current Greater London Authority area he expects the Mayor of London to have jurisdiction for the railways. [186790]

Mr. Darling: "The Future of Rail" White Paper said that we will look at whether it is feasible to give the Mayor the right to specify and pay for services that provide additional capacity in London, and acknowledges that some of these services start or end their journeys outside London. However, the White Paper also made it clear that it would be essential to ensure that the rights and interests of rail passengers outside of London are protected, and will consult fully with the GLA and neighbouring regional and local bodies before reaching a conclusion on this proposal.

Road Maintenance/Schemes

Mr. Yeo: To ask the Secretary of State for Transport how many road maintenance schemes requiring completion are outstanding; and when he expects they will be completed. [186734]

Mr. Darling: Road maintenance is an ongoing activity for highway authorities, with new schemes starting or completing on time. The Department does not keep central records of what works are planned or are in progress other than for the Highways Agency. Other maintenance is a matter for individual highway authorities.

John Thurso: To ask the Secretary of State for Transport whether the eight major schemes listed in the Highways Agency's business plan for 2004–05

scheduled to start in this financial year will proceed according to timetable following publication of The Future of Transport. [187540]

Mr. Jamieson: Five of the schemes listed in the Highways Agency's business plan—A14 Rookery Crossroads grade separated junction, A249 Iwade-Queenborough Improvement, A47 Thorney Bypass, A5 Weeford-Fazeley Improvement and A63 Melton Grade Separated Junction—have already been given approval to start works in the current financial year. Decisions on the other three schemes will be taken shortly.

Road Safety

Mr. Sheerman: To ask the Secretary of State for Transport whether the use of speed limiters in lorries has been assessed to determine efficiency in preventing traffic accidents. [187404]

Mr. Jamieson: The accident involvement rate on motorways (per hundred million vehicle kms) fell from 6.4 for all HGVs in 1991 (before the mandatory fitting of speed limiters was introduced) to 4.3 in 2002—which is a 34 per cent. decrease. This is significant, particularly as traffic volume increased by 33 per cent. over the same period.

The above figures include accidents involving currently non-speed limited HGVs between 3.5 and 7.5 tonnes. However, the reduction in accidents for exclusively speed limited vehicles may be even more significant. Almost all articulated HGVs are speed limited and the accident involvement rate for that class of vehicle fell from 6.7 in 1991 to 3.9 in 2002—a 42 per cent. decrease.

Other contributing factors may also have influenced that decline but speed limiters have clearly played a part.

Mr. Sheerman: To ask the Secretary of State for Transport how many lorries are fitted with speed limiters. [187405]

Mr. Jamieson: All goods vehicles over 7.5 tonnes are required to have speed limiters fitted. As at 31 December 2003 there were 276,000 such vehicles licensed.

Mr. Sheerman: To ask the Secretary of State for Transport how many accidents involving lorries occurred during overtaking manoeuvres in each of the last 10 years; and how many of these involved lorries fitted with speed limiters. [187406]

Mr. Jamieson: The number of accidents occurring during overtaking manoeuvres involving HGVs on motorways for the last 10 years is set out as follows:

Accidents

	Fatal	*Serious*	*Slight*	*All*
1994	6	34	236	276
1995	9	25	214	248
1996	7	38	233	278
1997	7	37	255	299
1998	9	29	259	297
1999	7	40	280	327
2000	11	38	338	387
2001	7	28	291	326
2002	5	35	298	338
2003	8	42	305	355

Although it has been a requirement to fit speed limiters to vehicles over 7.5 tonnes since 1992, we have only been recording HGVs over 7.5 tonnes on our database as a separate category of vehicles since 1999. All of the accidents from 1999 onwards quoted above involved HGVs fitted with a speed limiter.

The rise in the number of accidents involving HGVs can largely be attributed to the increase in traffic—indeed, the number of accidents involving all categories of vehicle has increased over the last 10 years. However, the accident rate per vehicle kilometres has changed little during the same time period and, in the case of HGVs, the accident rate per vehicle kilometres has actually fallen quite substantially since the introduction of speed limiters (a decrease of 34 per cent. between 1991 and 2002).

Mr. Greg Knight: To ask the Secretary of State for Transport how many people are employed by the Humberside Safety Camera Partnership. [186205]

Mr. Jamieson: The Humberside Safety Camera Partnership employs a complement of 49.6 full time equivalent posts. Eight of these posts are filled by police officers, the rest civilians.

Mr. Greg Knight: To ask the Secretary of State for Transport what steps he proposes to take to raise public awareness of the guidelines that are in place for Safety Camera Partnerships. [186206]

Mr. Jamieson: The Department for Transport website contains information on the rules of the safety camera programme on the deployment, signing and visibility of safety cameras, as does the website of the National Safety Camera Liaison, which provides information on Safety Camera Partnerships' activities. The Handbook of Rules and Guidelines for the next year's operation of the programme is currently being prepared. When it is issued, we will publicise it, and make it available through the Department's website.

Mr. Greg Knight: To ask the Secretary of State for Transport what measures he intends to implement to make Safety Camera Partnerships more responsive to complaints received from members of the public. [186207]

Mr. Jamieson: Members of the public who have a complaint about an alleged offence caught on a safety camera can challenge it in a Magistrates Court. Partnerships are made up of police, local and magistrates courts authorities, each of which will have a complaint procedure. Partnerships consider, investigate and respond to complaints in line with those. Partnerships also provide extensive information on their activities, including information on camera sites, through their websites and local media.

Transport Funding (Warrington)

Helen Jones: To ask the Secretary of State for Transport how much Government funding has been allocated for transport improvements in Warrington in each of the past five years. [180082]

Mr. McNulty *[pursuant to my reply, 12 August 2004, Official Report, c. 699W]:* Funding for transport improvements allocated to Warrington in the last five years is as follows.

£ million

	Improvement	Maintenance
2004–05	3.0	2.9
2003–04	2.2	2.8
2002–03	2.2	2.5
2001–02	2.0	2.4
2000–01	2.0	2.4

DEPUTY PRIME MINISTER

Domestic Violence

Sandra Gidley: To ask the Deputy Prime Minister pursuant to the answer of 23 June 2004, *Official Report*, column 1461W, on domestic violence, if he will list the radio stations, women's press and supermarkets where the helpline was advertised; and if he will list the sites of the washroom posters. [187072]

Phil Hope: The following list contains the radio stations, women's press and supermarkets where the helpline was advertised. A separate list of the washroom sites has been made available in the Library of the House.

Radio:

Fraud/Theft

Mr. Damian Green: To ask the Deputy Prime Minister what estimate he has made of the cost of fraud to Government Offices of the Regions in each of the last five years. [186400]

Phil Hope: The cost of fraud to Government Offices for the Regions in the last five years has been £4,618.73.

Mr. Damian Green: To ask the Deputy Prime Minister what the equivalent monetary cost of theft to the Government Office of the Regions has been in each year since 1997. [186407]

Phil Hope: The equivalent monetary cost of theft from the Government Offices since 1997 is tabled as follows:

	£
1997–98	9,400
1998–99	0
1999–2000	653
2000–01	4,137
2001–02	30,000
2002–03	4,000
2003–04	8,500
2004 to date	9,550
Total (since 1997)	66,240

Homelessness

Mr. Ruffley: To ask the Deputy Prime Minister how many households were living in temporary accommodation in the Bury St. Edmunds constituency

in each year since 1997; and how many of those households included dependent children. [187203]

Phil Hope: Information is not collected at constituency level, only at local authority level. A summary of information reported by St. Edmundsbury district council about the number of homeless households in temporary accommodation as at 31 March of each year since 1997 is tabled as follows. The number of households in temporary accommodation containing dependent children or expectant mothers has only been collected since March 2002.

Households in temporary accommodation[1] arranged by St. Edmundsbury district council, as at 31 March

	Total households	*Of which: with dependent children[2]*
1997	29	n/a
1998	26	n/a
1999	28	n/a
2000	31	n/a
2001	36	n/a
2002	22	not reported
2003	16	13
2004	36	28

[1] Households in temporary accommodation arranged by the local authority pending inquiries, or after being accepted, under homelessness legislation.
[2] Includes an expectant mother. Data only collected since March 2002.
Source:
ODPM PIE homelessness returns (quarterly).

Neighbourhood Schemes (Newcastle upon Tyne)

Mr. Cousins: To ask the Deputy Prime Minister what *(a)* street warden, *(b)* neighbourhood warden and *(c)* neighbourhood management schemes he has approved in the City of Newcastle upon Tyne; what the value of each was; what schemes have been rejected; and which schemes have been bid for but not yet determined. [186856]

Phil Hope: The Office of the Deputy Prime Minister funds one street warden scheme operating in the Byker Ward of Newcastle upon Tyne. The scheme has received £300,000 in ODPM funding, which started in 2001 and will end on 31 March 2005. There are no neighbourhood warden or neighbourhood management pathfinder schemes operating in Newcastle upon Tyne which are funded by the Office of the Deputy Prime Minister. No other schemes were rejected or bid for but not yet determined.

Power Lines (Residential Properties)

Mr. Greg Knight: To ask the Deputy Prime Minister what guidance he has issued concerning the building of residential properties under or near power lines. [186155]

Keith Hill: The Government have not issued guidance concerning the building of residential properties near power lines.

However, following the publication of the National Radiological Protection Board's (NRPB) new Electromagnetic Field (EMF) guidelines in March 2004 and the associated advice to Government, the Government are committed to taking forward the issue of building near power lines in consultation with all the relevant stakeholder groups.

Safer and Stronger Communities Fund

Mr. Battle: To ask the Deputy Prime Minister when he will outline his plans for a safer and stronger communities fund referred to in paragraph 5.32 of the 2004 Spending Review; whether it will cover Leeds, West; where it will be piloted; and if he will make a statement. [186782]

Phil Hope: The Safer and Stronger Communities Fund announced in the Spending Review 2004 will be put in place across England from April 2005. The fund will address the issues of high crime levels, anti-social behaviour and disorder and the frequent poor quality of public spaces, particularly in deprived areas.

Guidance on how the fund will operate in practice will be issued later in the year. The administration of the fund will enhance local flexibility and help to reduce bureaucracy through the development of agreements based on the principles for the wider Local Area Agreements, which the Government will also be piloting next year.

Supporting People Programme

Mr. Battle: To ask the Deputy Prime Minister what representations he has had from *(a)* local authorities, *(b)* caring organisations and *(c)* people with learning disabilities regarding the review of the Supporting People programme; and if he will make a statement. [186727]

Phil Hope: The Office of the Deputy Prime Minister receives representations about the Supporting People programme from a wide variety of stakeholders, including local authorities, MPs, provider organisations and people who receive housing related support, including those with learning disabilities. These representations cover a broad range of issues around the Supporting People programme, from invites to conferences to questions about the current and future workings of the programme following the Independent Review of the programme.

The Independent Review was commissioned by the Government to look at value for money and the variation in dwelling costs and services across local authorities. The Review found wide variations in dwelling costs between authorities and that £1.8 billion is too much to pay for the legacy services. Following this report, the Office of the Deputy Prime Minister undertook a comprehensive programme of work on Supporting People programme to inform the Spending Review 2004. On this basis it was recently announced that the settlement for Supporting People is £1.72 billion in 2005–06 and around £1.7 billion in each of the following two years. This is the first time that there has been a three-year settlement in the Supporting People programme. It will create stability for the programme and offer Administering Authorities and providers the opportunity to plan strategically and deliver good quality, value for money services over the next three years and beyond.

SOLICITOR-GENERAL

Afghan Hijackers

Mr. Prisk: To ask the Solicitor-General what estimate he has made of the legal costs of the case concerning Afghan hijackers at Stansted airport since 2000. [185616]

The Solicitor-General: There have been both criminal proceedings and asylum proceedings arising from the hijack at Stansted airport. In relation to the two criminal trials relating to this matter the costs to the Crown Prosecution Service of Counsel's fees was £428,811.85. This does not include certain costs incurred, such as interpreters fees, as well as fixed costs of the C PS, such as staff. The cost to the Criminal Defence Service of these trials as at 21 July 2004 was £4.32 million.

In relation to the asylum applications following the Stansted hijack, litigation services in relation to such claims are provided to the Home Secretary by the Treasury Solicitors Department. Their costs in relation to claims arising from the hijack are £106,109.41 as at 31 August 2004.

The Legal Services Commission is unable to give a figure for the legal aid costs relating to these asylum claims. This is for two reasons. First, some of the legal aid paid in respect of these claims was covered by the controlled work contract where funding decisions are delegated to suppliers. Under those arrangements the Legal Services Commission does not maintain details about the legal aid funding of specific cases. Secondly, in respect of the legal aid funding not covered by the controlled work contracts, while in principle the Legal Services Commission will be in a position to state the legal aid costs, they are not in a position to provide final figures at this stage as they are still waiting for the individual solicitors to submit bills to them. Services Commission will be in a position to state the legal aid costs, they are not in a position to provide final figures at this stage as they are still waiting for the individual solicitors to submit bills to them.

SCOTLAND

Departmental Buildings

John Thurso: To ask the Secretary of State for Scotland what the total floor space area of buildings owned or leased by his Department was in each year from 1997 to date. [186614]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. The Office does not own any buildings. The total floor space area of buildings leased from 1 July 1999 to January 2004 was 3,653m^2.

In January 2004, the Scotland Office gave up accommodation in Glasgow which reduced the total floor space area to 2,850m^2.

Sustainable Development

John Thurso: To ask the Secretary of State for Scotland what parts of his Department's estate will not be covered by the commitments set out in the Framework for Sustainable Development on the Government Estate. [186585]

Mrs. McGuire: The Scotland Office, in common with every part of the Government, is covered by all the commitments set out in the Framework for Sustainable Development on the Government Estate.

John Thurso: To ask the Secretary of State for Scotland what steps have been taken by his Department since publication of the Framework for Sustainable Development on the Government Estate to review arrangements for public reporting of sustainable development impacts. [186586]

Mrs. McGuire: The Scotland Office is working to ensure that its sustainable development impacts will be reported to the Department for Constitutional Affairs, which is committed to the public reporting of such impacts across its estate.

John Thurso: To ask the Secretary of State for Scotland what arrangements his Department has to report publicly on its key sustainable development impacts. [186588]

Mrs. McGuire: The Scotland Office will report its sustainable development impacts to the Department for Constitutional Affairs, which is committed to the public reporting of such impacts across its estate.

John Thurso: To ask the Secretary of State for Scotland what have been identified as the most significant sustainable development impacts in relation to the operation of his Department's estate. [186589]

Mrs. McGuire: The Department for Constitutional Affairs is currently reviewing sustainable development impacts across the whole of its estate, including the buildings occupied by the Scotland Office.

HOME DEPARTMENT

Autistic People

Mr. Wiggin: To ask the Secretary of State for the Home Department what provisions are in place to increase awareness in the criminal justice system of the behaviour patterns of people who have communication-related disabilities, including autism and Asperger's Syndrome, in relation to policy on bringing charges for communication-related offences, with particular reference to *(a)* section 5 of the Public Order Act 1986 and *(b)* the offence of being drunk and disorderly. [186921]

Ms Blears: As regards the police, national training highlights the importance of communicating effectively and sensitively with people suffering from a mental disability (including autism).

The aim is to ensure that officers develop awareness and an understanding of mental disorders and the importance of not making assumptions based on a person's behaviour.

In West Mercia, I understand that training has been provided to key staff on Autism and Asperger's Syndrome Disorders (ASD), by Autism West Midlands. This covers strategies for working effectively with people suffering from ASD, paying particular attention to the implications for policing.

The Codes of Practice under the Police and Criminal Evidence Act 1984 (PACE) provide guidance for custody officers on dealings with mentally vulnerable detainees and, other than in exceptional circumstances, an appropriate adult (someone experienced in dealing with mentally disordered or mentally vulnerable people) must be called whenever there is any doubt about a detainee's mental capacity

If there is any concern that a person may be suffering from an underlying physical or mental illness, the police should act urgently in calling an appropriate health care professional for advice.

As for decisions whether or not to bring charges, I understand that the Code for Crown Prosecutors specifically lists the desirability of diverting a defendant who is suffering from significant mental or physical ill health among the relevant considerations. However, this has to be balanced against the need to safeguard the general public. Each case has to be reviewed on its own facts by the Prosecutor applying the general principles laid down in the Code.

In relation to offences under Section 5 of the Public Order Act 1986, Home Office Circular 17/2004 provides guidance to Chief Officers to inform local protocols between the police and health services on dealings with people who may have mental health problems, including learning disabilities.

Community Support Officers

Mr. Rosindell: To ask the Secretary of State for the Home Department what proportion of community support officers recruited are *(a)* men and *(b)* women. [186766]

Ms Blears: In the most recent official figures published in September 2003, 64 per cent. of Community Support Officers (CSOs) were male and 36 per cent. female.

Mr. Rosindell: To ask the Secretary of State for the Home Department how many community support officers are assigned, on average, to each police officer in *(a)* London and *(b)* England and Wales. [186905]

Ms Blears: Information about the numbers of Community Support Officers (CSOs) assigned to individual police officers is not held centrally. However, the most recent figures on police numbers released in May 2004 are *(a)* 30,619 police officers in the Metropolitan Police Service (MRS) and City of London forces and *(b)* 139,631 police officers in England and Wales. In the most recent figures released at the end of July 2004 there were *(a)* 1,791 CSOs in the MRS and *(b)* 3,943 CSOs in England and Wales.

Domestic Violence

Mr. Djanogly: To ask the Secretary of State for the Home Department what plans there are to raise public awareness of female-on-male domestic violence. [185074]

Paul Goggins *[holding answer 19 July 2004]:* The 2001 British Crime Survey's Inter-Personal Violence Module shows that one in four women and one in six men have suffered domestic violence at some point in their lives, though women form the overwhelming majority of those subject to the heaviest abuse in terms of frequency, range of violence and severity of injury. The Home Office information leaflet "You don't have to live in fear of domestic violence" recognises that men can be victims of domestic violence and includes the 'Male Advice Line and Enquiry' run by Devon MALE. Devon MALE is a confidential service which specialises in domestic violence, offering advice and information, safety advice and emotional support via their adviceline. They also have a male outreach worker working in the Devon area.

Drugs Workers

Mrs. Gillan: To ask the Secretary of State for the Home Department whether he permits the inclusion in contracts for providers of drugs services in England and Wales of provisions to exclude a specified drugs worker from the provider's premises. [181824]

Miss Melanie Johnson: I have been asked to reply.

Individual contracts for providers of drug services are a matter for negotiation between local commissioners and providers.

Essex Police

Mr. Ivan Henderson: To ask the Secretary of State for the Home Department what plans he has to increase the number of community support officers in Essex. [186316]

Ms Blears *[holding answer 7 September 2004]:* Home Office officials wrote to all chief officers on 20 August inviting bids for a share of the £50 million which was announced in the Home Office Strategic Plan to kick-start the Neighbourhood Policing Fund. This will allow police forces to recruit additional Community Support Officers (CSOs) in this financial year and we expect that 5,500 will be in place by the end of March 2005. It will be for the chief constable of Essex and his police authority to decide how many extra CSOs they wish to bid for.

The Government have set a target of 20,000 additional CSOs by the end of 2007–08 and further details of how we plan to achieve this will be published in time for the 2006–07 planning round.

Hate Crime

Mr. Woodward: To ask the Secretary of State for the Home Department how many reported incidents of race hate crimes there have been in *(a)* St. Helens and *(b)* England and Wales, broken down by region in each year since 1997; and what percentage (i) were brought to court and (ii) resulted in a successful prosecution in each case. [186901]

Ms Blears: The available information relates to the number of racist incidents in each police force area in England and Wales from 1996–97 to 2002–03. This information is contained in Table 3.1 of the Section 95 publication "Statistics on Race and the Criminal Justice System—2003", a copy of which is available in the Library and also on the Home Office website. Table 3.2 of the same publication gives the number of racially or religiously aggravated offences recorded by the police by

police force area for 2001–02 and 2002–03. Figures for earlier years are available in earlier versions of the Section 95 publication and on the website. Information on racist incidents is not available centrally for St. Helens.

With regard to court proceedings, the available information relates to the number of defendants proceeded against for racially aggravated offences and is given in the table. The available data is from 1997 to 2002.

Number of defendants proceeded against at magistrates courts and found guilty at all courts for racially aggravated offences—England and Wales 1997 to 2002[1]

	1997		1998[2]		1999

[1] These data are on the all offence basis.
[2] The Crime and Disorder Act 1988 introduced a series of new racially aggravated offences from 30 September 1988.
[3] Found guilty includes those offenders found guilty at St. Helens magistrates court and the Crown Court where St. Helens was the committing court.
[4] Not applicable.

Passport Checks

Mr. Gummer: To ask the Secretary of State for the Home Department how long a wait for passengers to pass through passport checks at London Heathrow he determines as being compatible with the service standards of the Issuing Section Service. [185393]

Mr. Browne: I am not familiar with the Issuing Section Service to which the right hon. Member refers. However the UK Immigration Service is committed to clearing bona fide passengers with minimal delay, and has set standards for passenger processing times, which comply with the international standards. These standards, which are embedded in the UK Immigration Service's annual business objectives and are kept under regular review, are to clear:

100 per cent. of non-EEA passengers in 45 minutes;

90 per cent. of non-EEA passengers in 30 minutes;

EEA passengers with minimal delay.

The UK Immigration Service currently clear 99 per cent. of non-EEA passengers in less than 45 minutes, and 98 per cent. of non-EEA passengers in less than 30 minutes. Although there is no specific measurement of the time taken to process EEA passengers, close monitoring of passenger flows and effective deployment of staff ensure EEA passengers are cleared with minimal delay.

The UK Immigration Service's performance is also measured independently against the British Airports Authority (BAA) quality of service standards, which includes queuing times. The Immigration Service continues to score well against this measure.

Police Animals

Mr. Oaten: To ask the Secretary of State for the Home Department how many *(a)* dogs and *(b)* horses are employed by each police force, broken down by species. [187219]

Ms Blears: There are 305 horses used by the police in England and Wales and 33 in Scotland.

In England, Wales, Scotland and Northern Ireland, including the UKAEAC (UK Atomic Energy Authority Constabulary) there are approximately 2,200 dogs used by the police. These are predominately German Shepherd dogs. There are also Malinois (similar to a German Shepherd, but a little smaller, and a handful of Rottweilers. These are generally used for General Purpose and Non-Compliant Attack Dogs. The dogs that are used in connection with scent detection are generally Springer Spaniels and Labradors.

Police Authorities

Mr. Wiggin: To ask the Secretary of State for the Home Department when he next plans to meet with the heads of police authorities in the UK; and what he plans to discuss. [186819]

Ms Blears: My right hon. Friend the Home Secretary and I have frequent bilaterals with the Chairman of the Association of Police Authorities, as well as meeting individual chairs rather than heads of individual police authorities, and the discussions cover a very wide range of policing and crime reduction issues.

Security Vetting

Mrs. Iris Robinson: To ask the Secretary of State for the Home Department what assessment will be made of vetting arrangements in *(a)* Northern Ireland and *(b)* Scotland in taking forward recommendations arising from the Bichard Inquiry. [186645]

Ms Blears: Representatives from the Northern Ireland Office and the Scottish Executive sit on the Bichard Implementation Programme Board and Working Groups, taking forward the programme to implement the Bichard Report's 31 recommendations.

The work to enhance vetting procedures in the light of Sir Michael's recommendations will be considered by the Programme Board in the light of the full range of requirements, including those appertaining to Northern Ireland and Scotland.

Mrs. Iris Robinson: To ask the Secretary of State for the Home Department what steps will be taken to include relevant organisations and bodies in Northern Ireland in taking forward recommendations arising from the Bichard Inquiry, with particular reference to the Police Service of Northern Ireland. [186646]

Ms Blears: The Bichard Implementation Programme Board will oversee the work to implement all 31 of the Bichard report's recommendations. The President of the Association of Chief Police Officers has accepted an invitation to sit on the Board, convened by the Home Office as co-ordinating Department, and to liaise with Police Service of Northern Ireland on emerging issues and outcomes.

Representatives from the Northern Ireland Office participate in the Programme Board and its feeder Working Groups. This provides a firm link into issues which are specific to Northern Ireland and a connection to other relevant organisations.

Special Constables (Northampton)

Mr. Tony Clarke: To ask the Secretary of State for the Home Department how many special constables there are in Northampton; and how many there were in *(a)* 2001 and *(b)* 1997. [186518]

Ms Blears: Figures for the total number of special constables in Northamptonshire police force are contained in the annually published police service strength figures. The latest are contained in Home Office Statistical Bulletin 11/03 and are for the year ending 31 March 2003. They are shown, together with figures for 1997 and 2001. Figures for March 2004 will be published later this year.

	Number of special constables
March 2003	189
March 2001	188
March 1997	316

There are no separate statistics published for the number of special constables in Basic Command Units.

FOREIGN AND COMMONWEALTH AFFAIRS

Belarus

Mr. Wiggin: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on democracy in Belarus. [186748]

Mr. MacShane: Belarus' record on human rights and democratisation is poor. In the past year numerous independent newspapers, NGOs and opposition parties have faced increased harassment, giving rise to concerns that the Belarusian Government is waging a campaign to stamp out any criticism prior to parliamentary elections in October.

The Organisation for Security and Co-operation in Europe's (OSCE) Office for Democratic Institutions and Human Rights (ODIHR) has condemned previous elections in Belarus for failing to meet OSCE commitments for democratic elections. The Belarusian authorities have so far refused to amend unsatisfactory electoral legislation. EU Heads of Missions in Minsk have already conveyed our concerns to the Belarusian Government. We welcome the recent invitation from the Government of Belarus to ODIHR to send an Election Observation Mission. The UK plans to contribute 10 per cent. of the short and long-term observers as well as the Head and Deputy Head of the mission.

Cyprus

Mr. Love: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer to the hon. Member for Tooting (Tom Cox) of 14 July

2004, *Official Report*, column 1184W, on Cyprus, what matters he discussed with members of the Government of Cyprus relating to the outcome of the referenda held earlier this year. [186988]

Mr. MacShane: My right hon. Friend and I have discussed with the Government of the Republic of Cyprus a variety of issues relating to the outcome of the referenda held earlier this year. These have focused on the future of the island, particularly now that Cyprus has joined the EU; and on how the EU might deliver on its commitment of 26 April to end the isolation of the Turkish Cypriots.

EU Enlargement

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the effect of EU enlargement upon the UK-EU relationship. [186647]

Mr. MacShane: Enlargement is one of the EU's greatest policy successes, spreading peace, prosperity and stability across the continent. This Government have consistently championed EU enlargement, demonstrating the constructive role we play at the heart of the EU. We will continue to work closely with all our EU partners, including the new member states, to sustain our influence within the enlarged EU.

EU Funding

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list *(a)* youth, *(b)* campaigning and *(c)* social groups that received EU monies in the last year for which statistics are available, under the A-30 budget lines; and if he will deposit the (i) audits and (ii) original bids in the Library. [187336]

Mr. MacShane: The groups that received money in 2004 under the budget lines formerly known as the A-30 budget lines were as follows:

Old nomenclature (pre-2004)	*Activity based budgeting nomenclature (2004>)*	*Recipient group*
Equality between men and women		
A-3037	04 05 01	European Women's Lobby
A-3046	04 05 03	Women's organisations
Education and Training		
A-3010	25 02 01 01	Historical archives of the European Union
A-3011	15 02 01 03	European University Institute, Florence
A-3012	15 02 01 04	European Law Academy (Trier)
A-3013	15 02 01 05	European Institute of Public Administration (Maastricht)
A-3014	19 04 01	European Inter-university Centre
A-3017	03 02 01	Organisations for co-operation in the field of European Law
A-3022	15 02 01 06	Study and research centre
A-3027	15 02 01 07	International Centre for European Training
A-3044	15 02 01 08	European Agency for Development in Special Needs Education
Youth		
A-3023	15 07 01 01	European Youth Forum
A-3029	15 07 01 02	Support for international non-governmental youth organisations
Culture		
A-3015	15 04 01 01	European Bureau for Lesser-used Languages and Mercator
A-3035	15 04 01 02	Preservation of Nazi concentration camps sites as historical memorials
A-3042	15 04 01 03	Subsidy for cultural organisations advancing the idea of Europe
Promoting European Civic Participation		
A-3016	18 06 03	Association of the Councils of State and Supreme Administrative Jurisdictions of the Union
A-3020	15 06 01 02	"Our Europe" Association
A-3021	15 06 01 03	Grants to European think tanks and organisations advancing the idea of Europe
A-3024	15 06 01 04	Associations and federations of European interest
A-3026	15 06 01 05	European think tanks
A-3030	18 03 01	European Council on Refugees and Exiles
A-3036	15 06 01 06	Support for the Jean Monnet House and the Robert Schuman House
Promoting mutual understanding between EU and non-industrialised regions		
A-3031	19 02 02	Institutes specialising in relations between the European Union and third countries

Organisations seeking A-30 budget lines submit their bids directly to the Commission and are not required to send copies to member state governments. The Council can amend the funding proposed for each of the former A-30 budget lines during annual negotiations on the general budget of the European Communities.

The European Court of Auditors (EGA) audits the EC Budget on an annual basis though its report will not include separate audits of each organisation receiving A-30 budget line funding. However, the ECA may decide to issue a special report on particular activities—a list of these reports is published at the back of the

ECA's latest annual report which has been placed in the Library of the House. Additionally, individual organisations may be required to publish annual accounts under their terms of establishment.

EU Summit

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what outcomes he hopes will be achieved at the EU summit on 29 October. [186787]

Mr. MacShane: I expect the EU Constitution to be signed by Heads of State and Government of EU member states.

EU-US Economic Output

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what forecasts he has received of the relative levels of economic output in the EU and the US in 2010. [186652]

Mr. MacShane: GDP per head in the EU has been persistently lower than that in the US in recent decades. This, allied with the significant demographic challenge that the EU will face in coming years, emphasises the need for significant structural reform if Europe is to close the gap with the US in output per capita.

The Government's February progress report on European economic reform and recent submission to Mr. Wim Kok's Lisbon Mid-Term Review Group, highlight these challenges and set out the Government thinking on how Europe can successfully rise to those challenges.

Copies of both Government papers are available in the Library of the House.

European Constitutional Treaty

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs which Minister will attend the signing ceremony of the European Constitutional Treaty on 29 October. [186649]

Mr. MacShane: I cannot confirm at this stage which Minister will attend.

European Neighbourhood Policy

Mr. Wiggin: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the impact of the European Union's European Neighbourhood Packages on the UK's diplomatic relations with Russia. [186747]

Mr. Rammell: The UK strongly supports the EU's European Neighbourhood Policy, which offers partner countries closer co-operation in areas of mutual interest, in return for political and economic reform.

The UK maintains close relations with Russia, including through the EU-Russia relationship. We have discussed the European Neighbourhood Policy with Russia and explained how we see it contributing to stability on Europe's eastern borders, which is in both our and Russia's interest.

These packages complement the UK's bilateral relations with Russia.

Rev. Martin Smyth: To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the decision to exclude Belarus from the European Neighbourhood Policy; what steps the Government have taken since that decision was taken to end the isolation of Belarus from the European Union; and what steps the Government plan to take to address this situation. [186368]

Mr. MacShane: The UK wants Belarus to become a democratic, stable and increasingly prosperous partner for the enlarged EU. However, Belarus's continuing poor record on human rights and democracy is an obstacle to a closer relationship. We and EU partners have set out the steps that Belarus would need to take in return for ratification of a Partnership and Co-operation Agreement (PCA) and eventual full association with relevant regional EU initiatives, potentially including the European Neighbourhood Policy.

While measures such as restrictions on ministerial contact with the regime remain in place, we do not believe in isolating the people of Belarus. We are doing all we can to bolster civil society and promote democracy, using bilateral programme funds disbursed through our embassy and working via multilateral institutions.

The EU continues to support the people of Belarus in areas including addressing the consequences of the Chernobyl catastrophe, health education, environment, trans-border and regional co-operation, border management and independent media.

Ferhat Kaya

Mr. Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Turkish authorities regarding the arrest and alleged torture of Ferhat Kaya. [186730]

Mr. MacShane: UK officials have raised the case of Mr. Kaya with the Turkish authorities on several occasions, most recently at a senior level at the last round of our Human Rights Dialogue with Turkey on 15 July in London. The trial of 11 police accused of beating and torturing Ferhat Kaya on 5 May began on 20 June after a doctor's report certified Mr. Kaya's injuries. Our Embassy in Ankara continues to monitor Mr. Kaya's situation.

Former Soviet Bloc Countries

Mr. Wiggin: To ask the Secretary of State for Foreign and Commonwealth Affairs what research his Department has commissioned regarding the possibility of further former Soviet Bloc countries applying for membership of the European Union. [186738]

Mr. MacShane: No such research has been commissioned.

Any European state may apply for EU membership in line with Article 49 of the Treaty on European Union.

Israel

Mr. Tony Clarke: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent

assessment he has made of the effects of the security barrier being built by the Government of Israel on Palestinian communities; what representations he has received from non-governmental organisations on the effects of the wall on their work in the occupied territories; and what representations he has made to Israel about minimising possible detrimental effects. [187070]

Mr. Rammell: We remain concerned about the negative impact of the barrier on communities near it. We note that the Israeli Supreme Court has ordered changes to the route of the barrier because of similar concerns.

We receive regular representations on this subject from NGOs working in the Occupied Territories. In response, we encourage the Israeli Government both to consider more seriously the humanitarian impact of its actions there, and to give NGOs clear guidelines to help them maximise the effectiveness of their support for affected Palestinian communities.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects to renegotiate the EU-Israeli Association Trade Agreement. [187464]

Mr. MacShane: We have no plans to renegotiate the trade elements of the EU-Israel Association Agreement.

Lisbon Agenda

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the mid-term review of the Lisbon agenda in 2005. [186623]

Mr. MacShane: The Government set out their vision for a more focused, results-oriented Lisbon process in a paper submitted to Wim Kok, Chairman of the Lisbon Mid-Term Review Group chair and EU partners in June. The Government are pressing for:

greater focus on economic prosperity as a key to social cohesion;

increased accountability of national governments in delivering reform;

better use of Community rules and instruments to deliver reform, including use of non-regulatory approaches, highlighting the role of the state aids rules and showing how Community spending can better be aligned with the Lisbon agenda; and

key reforms needed to meet Lisbon targets, including reducing the regulatory burden on business, strengthening the Single Market, improving employment flexibility and opening up EU markets to the benefits of global trade.

Copies of the Government's submission to the Lisbon Mid-Term Review will be made available in the Library of the House and can be accessed at: http://www.hm-treasury.gov.uk/media/9A9DB/Mid-term_review_of_the_Lisbon_strategy062004.pdf)

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures he will take in order to achieve the targets of the Lisbon Agenda. [186651]

Mr. MacShane: The Government set out their priorities for European economic reform in their progress report in February. Copies are available in the Library of the House. Priorities are to:

promote effective EU regulation—reduce the burden on EU business and ensure that any new legislation encourages not stifles economic growth;

strengthen the Single Market, with a more pro-active competition policy, further reform of the state aid rules, and by making the Single Market a reality for services as well as goods;

to improve the functioning of Europe's labour markets to deliver more and better jobs, including through implementation of Mr. Wim Kok's Employment Taskforce recommendations;

promote enterprise and innovation, including through new European Centres of Enterprise—local centres of excellence in enterprise policy;

promote a successful conclusion to the Doha Trade round; and

strengthen the transatlantic economic relationship, by tackling the barriers to trade and investment between the EU and the US.

The Government continue to work closely with their partners to promote action on all of these priorities, including through the mid-term review of the Lisbon strategy, chaired by Mr. Wim Kok. We submitted our vision for a more focused, results-oriented Lisbon process to the Mid-Term Review Group in June (copies will be made available in the Library of the House and can be accessed at: http://www.hm-treasury.gov.uk/media/9A9DB/Mid-term_review_of_the_Lisbon_strategy062004.pdf)

Moldova

Mr. Pike: To ask the Secretary of State for Foreign and Commonwealth Affairs what relationship the Government has with the Government of Moldova; and if he will make a statement. [187043]

Mr. MacShane: The UK enjoys a constructive relationship with Moldova and has a strong interest in its security and development. Since independence, Moldova has achieved progress on promoting human rights and democracy. However, we have concerns in some areas. We have stressed the importance of the parliamentary elections in early 2005 for the Government of Moldova to demonstrate its commitment to the values of democracy, rule of law and human rights.

We remain concerned about the situation in Transnistria, and want to see negotiations on a political settlement brought to an early and successful conclusion. The EU continues to call on the two parties, in particular the Transnistrians, to negotiate constructively and in good faith.

Together with our EU partners we will continue to raise any concerns we have with the Moldovan Government, bilaterally through our embassies in Chisinau, in multilateral fora and through public declarations.

Mr. Pike: To ask the Secretary of State for Foreign and Commonwealth Affairs what support his Department is giving to *(a)* the economic progress of Moldova and *(b)* the development of democracy there. [187044]

Mr. MacShane: The UK supports economic reform and democratic development in Moldova, including through EU programmes. Moldova is a priority country for the European Neighbourhood Policy (ENP), launched by my right hon. Friend the Foreign Secretary

in spring 2002 as the Wider Europe initiative. The ENP offers the new neighbours of the enlarged EU greater integration, including deeper trade and economic relations, in return for economic and political reforms.

Our embassy in Chisinau continues to support democratic development and good governance and will support several projects in the run up to elections in early 2005.

In addition to Foreign and Commonwealth Office assistance, the Department for International Development's bilateral programme for Moldova contributed £8.4 million between 2000 and 2003. The planned programme contribution for 2004 is £2.3 million. The UK also supports the IMF, World Bank, and European Bank for Reconstruction and Development in their efforts to promote economic reform in Moldova.

Since 1991, the EU has provided assistance to Moldova totalling Euros 253 million including technical assistance under the TACIS programme.

Mr. Pike: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received regarding the Russian forces based in Moldova. [187045]

Mr. MacShane: Several groups have raised their concerns about the dispute in Transnistria and the continuing presence of Russian forces in Moldova with my right hon. Friend the Foreign Secretary. The Government share these concerns. We want Russia to fulfil commitments made when signing the Adapted Conventional Forces in Europe (CFE) Treaty at the Organisation for Security and Cooperation in Europe Summit in Istanbul in 1999. These commitments include the full withdrawal of arms and ammunition from Transnistria, or their destruction in situ, and the withdrawal of Russian forces. Together with NATO allies we have stated that:

> "we can envisage ratification of the Adapted CFE Treaty only in the context of full compliance by all State Parties with agreed treaty limits and consistent with the commitments contained in the CFE Final Act".

PFI/PPP

Matthew Taylor: To ask the Secretary of State for Foreign and Commonwealth Affairs how many contracts his Department had with *(a)* Barclays Bank, *(b)* the Royal Bank of Scotland, *(c)* UBS Warburg and *(d)* the Bank of Scotland for advice on private finance initiative and public private partnership contracts in each financial year since 2001–02; and what fees were paid in each case. [186658]

Mr. Rammell: The Foreign and Commonwealth Office has had no contracts with Barclays Bank, the Royal Bank of Scotland, UBS Warburg and the Bank of Scotland for advice on private sector finance initiative and public private finance partnership contracts during the period specified.

Qualified Majority Voting

Mr. Heathcoat-Amory: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the conditions of employment for union staff will be decided by qualified majority voting under the European constitution. [187033]

Mr. MacShane: The staff regulations and conditions of employment for officials of the European institutions are currently decided by qualified majority voting under articles 210, 247(8) and 283 of the treaty establishing the European Community. They will continue to be decided by qualified majority voting under articles III.306 and III.333 of the EU constitutional treaty.

Mr. Heathcoat-Amory: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the penalties available to the European Court of Justice will be decided by qualified majority voting under the European Constitution; and whether this represents a change from article 229 TEC. [187034]

Mr. MacShane: Article 229 of the treaty establishing the European Community has been reproduced in essentials in the new constitutional treaty as article III-268. The procedures for determining penalties will therefore remain as now: that is, they will depend on the legal base for the specific legal instrument under consideration.

Serbia

Mr. Salter: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on whether ethnic Albanians are being refused entry to Serbia; and if he will make a statement. [187518]

Mr. MacShane: We are not aware of any reports of the authorities in Serbia and Montenegro refusing to allow ethnic Albanians into the country if they have a valid passport.

Sierra Leone

Mr. Wiggin: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political climate in Sierra Leone. [186751]

Mr. Mullin: The UK continues to make a significant political, military and financial investment in Sierra Leone to tackle the root causes of the conflict and to ensure sustainable peace.

Sierra Leone has now enjoyed over two years of peace under a democratically elected government. In May, the first local elections for 32 years took place. In the same month, the Special Court for Sierra Leone started its first trials to bring to justice those who bear the greatest responsibility for war crimes and atrocities committed during the conflict.

Following extensive security sector reforms, UN peacekeepers expect to withdraw by the end of 2005.

US Visa Requirements

Mr. Bill O'Brien: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the US Administration

on the changes requiring UK visitors to obtain a visa in person due to unavailability of biometric data passports; and if he will make a statement. [186422]

Mr. Mullin: We have had regular ministerial and official contacts with the US Administration and members of Congress about maintaining the UK's position within the US Visa Waiver Programme (VWP).

The United States amended its border security legislation on 9 August, extending the deadline by one year to 26 October 2005 for countries in the VWP to introduce a biometric identifier in new passports. The non-availability of biometric passports would have no impact on visa requirements for British passport holders before that date.

The UK's biometric passport programme, on which the Foreign and Commonwealth Office is working closely under the Home Office's lead, involves the introduction of cutting edge technology. It is important we get this right. Along with other VWP countries, the UK may need to approach the US for a further extension in the new year to allow adequate time for development and testing before UK biometric passports are issued.

Venezuela

Mr. Pike: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has had discussions over the last 36 months with the United States Administration regarding its position on unrest in Venezuela; and if he will make a statement. [186391]

Mr. Rammell: We are in regular contact with the US Administration at all levels and our discussions cover a variety of issues, including Venezuela.

Mr. Pike: To ask the Secretary of State for Foreign and Commonwealth Affairs what support the British Government offered to Venezuela following the referendum which elected President Chavez in December 1999; and if he will make a statement. [186392]

Mr. Rammell: President Chavez was elected to office in 1998 and re-elected in 2000. A referendum was held in December 1999, to approve a new constitution.

We have consistently supported the democratic and constitutional process in Venezuela, particularly the agreement between the Venezuelan Government and opposition in May 2003, which called for a "peaceful, democratic, electoral and constitutional" outcome in Venezuela.

HEALTH

Alzheimer's Disease

Mr. Burns: To ask the Secretary of State for Health (1) what proportion of Alzheimer's patients have access to acetylcholinesterase inhibitors on the NHS; [186432]

(2) what progress he is making with plans for all Alzheimer's patients to have access to acetylcholinesterase inhibitors on the NHS; and when he expects access on the NHS to be available for all. [186434]

Dr. Ladyman: Information on the proportion of Alzheimer's patients having access to anti-dementia drugs is not available. In January 2001, the National Institute for Clinical Excellence recommended that the acetylcholinesterase inhibitors, donepezil (Aricept), rivastigmine (Exelon) and galantamine (Reminyl) should be made available on the national health service as one component of the management of those people with mild to moderate Alzheimer's disease.

Care Homes

Mr. Ruffley: To ask the Secretary of State for Health how many *(a)* care homes and *(b)* care home places were available in Suffolk in each of the last six years run by (i) Suffolk county council and (ii) the voluntary independent and private sector in Suffolk. [187178]

Dr. Ladyman: The table shows the number of care homes and places run by the council and the voluntary and private sector in Suffolk as at 31 March for the years 1998 to 2001.

Number of care homes and places available in Suffolk at 31 March 1998–2001

	Residential			
At 31 March	*Council staffed*	*Independent sector*	*Nursing*[1]	*Total*
Number of homes[2]				
1998	35	220	75	330
1999	35	215	65	315
2000	35	215	60	310
2001	35	215	60	305
Number of places				
1998	1,195	3,490	2,290	6,975
1999	1,065	3,320	2,195	6,580
2000	1,060	3,365	2,110	6,535
2001	1,070	3,395	2,140	6,605

[1] Includes places in general nursing homes, mental nursing homes and private hospitals and clinics.

[2] Dual registered homes are included under nursing homes.

Note:

Figures for residential care are for Suffolk council with social services responsibilities and for nursing care they are for Suffolk health authority.

Figures may not add up due to rounding.

I understand from the Chair of the Commission for Social Care Inspection (CSCI) that figures for later years were collected by the National Care Standards Commission, and now CSCI, but comparable details are not available.

Continuing Care

Mr. Burns: To ask the Secretary of State for Health what the average time taken to *(a)* review and *(b)* determine appeals by people who believed that they had been wrongly charged for continuing care (i) was before 31 March and (ii) has been since 31 March. [186371]

Dr. Ladyman: It is expected that all retrospective review cases will be completed within two months of receipt of all the relevant documentation. I will be making a statement to the House on retrospective continuing care reviews in due course.

Mr. Burns: To ask the Secretary of State for Health (1) what proportion of continuing care cases for which a review was pending at the end of March had been completed by 31 July; [186433]

(2) how many *(a)* families and *(b)* individuals have received compensation for wrongly-assessed continuing care; how many in each case are awaiting payment; and how much compensation has been paid so far. [186435]

Dr. Ladyman: In due course, I will make a statement to the House on the number of completed retrospective continuing care reviews and how many people have been granted recompense.

Dentistry

Mr. Baron: To ask the Secretary of State for Health when he plans to publish an order under section 60 of the Health Act 1999 to amend the Dentists Act 1984 to introduce Clinical Dental Technicians and other Professions Complementary to Dentistry. [186591]

Ms Rosie Winterton: We issued a draft of an Order for consultation on 30 July which, with other amendments to the Dentists Act 1984 to modernise the regulation of dentistry, would give the General Dental Council powers to register additional classes of professional complementary to dentistry including dental nurses, dental technicians and clinical dental technicians. Comments on the draft are requested by 30 October and it will subsequently be laid before Parliament for debate under the affirmative procedure. Subject to approval, we expect the Order to come into force during 2005.

Drug and Alcohol Programmes

Mr. Drew: To ask the Secretary of State for Health if he will take steps to ensure that places on drug and alcohol programmes are not disproportionately allocated to those convicted of criminal activity. [184232]

Miss Melanie Johnson: The National Treatment Agency is committed to ensuring that treatment services provide a quick and accessible service for all substance

misusers requiring treatment. Drug action teams have local responsibility for ensuring that treatment services are provided.

The Government are committed to doubling the numbers of drug misusers in treatment by 2008 and improving access into treatment from both community and criminal justice routes.

The Government are on track to meet this target. In 2002–03, there were 140,900 drug misusers in treatment.

NHS Dentists

Mr. Ruffley: To ask the Secretary of State for Health how many NHS dentists there were in Suffolk in each of the last seven years. [187205]

Dr. Ladyman: The number of national health service dentists in Suffolk primary care trusts (PCTs) over the last seven years for which data are currently available is shown in the table.

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Central Suffolk PCT[1]	22	24	26	27	24	23	24
Suffolk Coastal PCT[2]	29	29	33	32	30	27	27
Suffolk West PCT[3]	79	78	85	86	95	106	111

[1] Figures for Central Suffolk PCT are based on general dental service (GDS) contracts only. There are no personal dental service (PDS) dentists in this PCT area.

[2] Figures for Suffolk Coastal PCT are based on GDS contracts only. There are no PDS dentists in this PCT area.

[3] Figures are based on GDS and PDS contracts.

Mr. Ruffley: To ask the Secretary of State for Health how many *(a)* adults and *(b)* children were waiting to be registered with an NHS dentist in each primary care trust in Suffolk in each of the last seven years. [187207]

Dr. Ladyman: The information requested is not collected centrally.

Prison Health Care

Mrs. Gillan: To ask the Secretary of State for Health if he will list the differences between the interventions that can be made by a general practitioner when dealing with a patient and a prison doctor when dealing with a prisoner. [187376]

Dr. Ladyman: It would not be practicable to attempt to do so. The Prison Service's standard, "Health Services for Prisoners", has as its overall objective to provide prisoners with access to the same range and quality of services as the general public receives from the national health service. The prison health team is leading and managing a programme of work to develop health services for prisoners that are in line with NHS practice. However, the reality of the prison environment means that it may not always be possible exactly to replicate in prisons every treatment intervention that is available in the community.

Mrs. Gillan: To ask the Secretary of State for Health what rights a prisoner has to access needle exchange schemes in prison. [187377]

Dr. Ladyman: There are no present plans to introduce needle exchange schemes in prisons, although the position is kept under review.

Mrs. Gillan: To ask the Secretary of State for Health in what circumstances a prison doctor may order *(a)* physical restraints and *(b)* detention of a prisoner in a special cell. [187378]

Dr. Ladyman: The Prison Service's standard, "Health Services for Prisoners", provides that treatment and emergency care of patients who withhold consent is to be managed in accordance with Prison Service Instruction 38/2002, "Guidance on Consent to Medical Treatment". The associated Prison Service Information and Practice Note 3/2002 sets out the requirements and procedures for dealing with prisoners when there are restraint and control implications alongside health needs.

Prison Service Order 1600, "Use of Force", states that a prisoner may be placed in a special cell only on the prior authority of the governor or controller in charge of the establishment. If he/she cannot be contacted, the decision may be taken by the officer for the time being in charge of the establishment. A prison doctor must be notified as soon as possible and must examine the prisoner as soon as practicable for any clinical contra-indications.

Mrs. Gillan: To ask the Secretary of State for Health what rights a prisoner has to medical confidentiality. [187585]

Dr. Ladyman: The duty of confidentiality arising from the common law of confidentiality, professional obligations and contracts of employment owed by all healthcare professionals to their patients extends to people in prison. The Prison Service's standard, "Health Services for Prisoners", stipulates that medical information on prisoners must be managed in accordance with relevant legislation, principally the Data Protection Act 1998, and the National Health Service Code of Practice on confidentiality.

Mrs. Gillan: To ask the Secretary of State for Health what right a homosexual prisoner has to *(a)* HIV tests and *(b)* access to condoms. [187586]

Dr. Ladyman: Prisoners have access to HIV-test counselling and where appropriate, testing in the same way as members of the public. Prison doctors have been advised that they should make condoms available to any prisoner, on application, if in their clinical judgment there is a risk of infection from HIV.

Mrs. Gillan: To ask the Secretary of State for Health what right a prisoner has to see *(a)* a doctor, *(b)* a dentist, *(c)* a chiropodist, *(d)* a gynaecologist and *(e)* a specialist or surgeon. [187587]

Dr. Ladyman: The overall objective of the Prison Service's standard, "Health Services for Prisoners", is to provide prisoners with access to the same range and quality of services as the general public receives from the national health service. Establishments are required to develop needs-based health services in partnership with local primary care trusts and other NHS agencies which

deliver effective, evidence-based care to individual prisoners and the prison population as a whole. Each establishment must have a clear and observed policy statement about what primary care, dental and other specialist services are available to prisoners, and who is responsible for providing them.

Renal Services

Mr. Patrick Hall: To ask the Secretary of State for Health whether he plans to publish a delivery plan for the first two modules of the Renal Services national framework published on 14 January. [187588]

Ms Rosie Winterton: Part one of the national service framework for renal services sets out the steps the national health service can take to support delivery of the standards and markers of good practice. A separate delivery strategy is therefore unnecessary as it is integral to the document.

Mr. Patrick Hall: To ask the Secretary of State for Health when he expects the third and fourth modules of the Renal Services national service framework on prevention and palliative care to be published. [187589]

Ms Rosie Winterton: Part two of the national service framework for Renal Services, covering prevention and end of life care, is in preparation and will be published in due course.

Mr. Patrick Hall: To ask the Secretary of State for Health who will have responsibility for monitoring the progress made by primary care trusts in implementing the five steps that need to be taken by 2006 which were outlined in the recently published first two modules of the Renal Services national service framework; and what action will be taken in the event that primary care trusts do not implement those five steps. [187590]

Ms Rosie Winterton: Primary care trusts are accountable to strategic health authorities for monitoring and managing progress against the national service framework (NSF) for renal services. Responsibility for assessing and reporting the performance of individual national health service bodies against national standards published in "National Standards, Local Action", including the adoption of best practice defined in NSFs, rests with the Healthcare Commission.

Waiting Lists

Mr. Anthony D. Wright: To ask the Secretary of State for Health how many inpatients in Great Yarmouth had to wait more than *(a)* three, *(b)* six, *(c)* nine and *(d)* 12 months for treatment in each year since 1997; and what the percentage change in each year was in each case. [186718]

Dr. Ladyman: The information requested for the residents of Great Yarmouth, Great Yarmouth Primary Care Trust (PCT), the latest data available, is shown in the table.

Count of elective in-year admissions (waiting list and booked cases) and percentage changes by grouped waiting time, 1996–97 to 2002–03

PCT code (PCT of residence) = 3GT (Great Yarmouth), national health service hospitals, England

	Up to 3 months	Percentage change (up to 3 months)	More than 3 up to 6 months	Percentage change (more than 3 up to 6 months)	More than 6 up to 9 months	Percentage change (more than 6 up to 9 months)	More than 9 up to 12 months	Percentage change (more than 9 up to 12 months)
1996–97	7,410	—	1,329	—	552	—	403	—
1997–98	7,032	−5.1	1,271	−4.4	603	9.2	442	9.7
1998–99	7,326	4.2	1,381	8.7	687	13.9	462	4.5
1999–2000	7,337	0.2	1,355	−1.9	554	−19.4	240	−48.1
2000–01	7,117	−3.0	1,224	−9.7	609	9.9	224	−6.7
2001–02	5,403	−24.1	1,036	−15.4	548	−10.0	260	16.1
2002–03	5,496	1.7	1,046	1.0	740	35.0	591	127.3

	More than 12 months	Percentage change (more than 12 months	Not known	Percentage change (not known)	Elective in-year admissions	Percentage change (elective in-year admissions)
1996–97	182	—	295	—	10,171	—
1997–98	297	63.2	288	−2.4	9,933	−2.3
1998–99	292	−1.7	132	−54.2	10,280	3.5
1999–2000	169	−42.1	137	3.8	9,792	−4.7
2000–01	233	37.9	156	13.9	9,563	−2.3
2001–02	212	−9.0	42	−73.1	7,501	−21.6
2002–03	294	38.7	44	4.8	8,211	9.5

Notes:

1. An in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the data year. Periods of care ongoing at the end of the data year (unfinished admission episodes) are included. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

3. Time waited statistics from hospital episode statistics (HES) are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period, whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.

HES, Department of Health.

West Suffolk Hospitals NHS Trust

Mr. Ruffley: To ask the Secretary of State for Health how many *(a)* doctors, *(b)* nurses, *(c)* managers, *(d)* administrators and *(e)* midwives were employed by the West Suffolk Hospitals NHS Trust in each of the last seven years. [187201]

Dr. Ladyman: The numbers of doctors, nurses, managers, administrators and midwives employed by West Suffolk Hospitals National Health Service Trust in each of the last seven years are shown in the following tables.

Hospital, public health medicine and community health services (HCHS): medical and dental staff, and non-medical within West Suffolk Hospitals NHS Trust

Number (headcount)

	As at 30 September each year						
	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Medical and dental staff	173	183	177	206	208	215	240
Non-medical staff	1,911	1,812	2,060	2,104	2,271	2,381	2,833
Of which:							
Professionally qualified clinical staff	906	846	963	993	1,103	1,175	1,343
Qualified nurses	688	612	719	728	832	860	1,001
Of which: midwives	14	12	10	9	8	91	96

Department of Health non-medical workforce census.

West Suffolk NHS Hospitals Trust

Mr. Ruffley: To ask the Secretary of State for Health how many operations were carried out by the West Suffolk NHS Hospitals Trust in each year since 1997. [187195]

Dr. Ladyman: The information is not held in the format requested. However, the number of finished consultant episodes (FCEs) for each year since 1997 for West Suffolk Hospitals National Health Service Trust is shown in the table.

FCEs, 1996–97 to 2002–03—all operation count of FCEs (four character OPCS4 codes A01.0-X59.9), provider code = RGR (West Suffolk NHS Hospitals Trust), NHS hospitals, England

	FCEs
1996–97	22,282
1997–98	24,286
1998–99	27,336
1999–2000	28,068
2000–01	29,095
2001–02	29,085
2002–03	30,878

Notes:
1. A FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
2. All operations count of episodes: these figures represent a count of all FCE's where the procedure was mentioned in any of the 12 (four prior to 2002–03) operation fields in a HES record. A record is only included once in each count, even if an operation is mentioned in more than one operation field of the record.
3. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Source:
Hospital episode statistics, Department of Health.

WORK AND PENSIONS

Bereavement Grant

Sandra Gidley: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of providing a bereavement grant of £200 to surviving pensioner partners. [186566]

Mr. Pond: The information is in the table.

Estimated costs of and gainers from payment of 200 bereavement grant to surviving pensioner partners, Great Britain, deaths in 2005–06

	Gainers (Thousand)	*Costs (£ million)*
Bereavement grant, no offsetting savings	175	35
Bereavement grant, offset against funeral payments	160	32

Notes:
1. Estimated gainers to the nearest five thousand, costs to the nearest million pounds
2. Numbers of widowed pensioners estimated from GAD projections for England and Wales. Number of cohabiting bereaved estimated from household survey information.
3. Social Fund Funeral Payment information from Social Fund Policy, Budget and Management Information System. It is assumed that 60 per cent. of pensioner claims are with respect to deceased partners.
4. No impact on income related benefits has been estimated. If the amount of the grant was regarded as capital there would be some offsetting reduction in expenditure on these benefits.
5. Take-up of entitlement is assumed to be 100 per cent.

Pension Protection

Mr. Webb: To ask the Secretary of State for Work and Pensions whether protected rights accrued prior to April 1997 by members of a contracted out occupational pension scheme are underwritten by the Government in the event of a sponsoring employer becoming insolvent and unable to meet those rights; whether any shortfall in those rights will be met by the Pension Protection Fund from April 2005 onwards; and if he will make a statement. [187829]

Malcolm Wicks: The Government do not underwrite protected rights. However, unless an offence has been committed, when a scheme winds-up it should have sufficient funds to pay the protected rights.

The Pension Protection Fund is designed to protect members of defined benefit schemes and defined benefit elements of hybrid schemes. Only in the case of pension scheme fraud will the PPF consider compensating members of defined contribution schemes. Such protection has been provided by the Pensions Compensation Board since April 1997 and the PPF will assume this role when it is up and running in April 2005.

Pensioner Benefits

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate the cost of *(a)* raising the annual Christmas bonus to £79.60, *(b)* giving a winter fuel payment of £300 to every household with a member over 60 years and *(c)* giving a free television licence to every household with a member over 60 years. [187831]

Malcolm Wicks: The information is in the table.

Proposal	*Estimated cost in 2004–05 (£ million)*
Raising the Christmas Bonus to £79.60	1,010
Giving a Winter Fuel Payment of £300 to every household with a member over 60 years	860
Giving a free television licence to every household with a member over 60 years	710

Notes:
1. All figures relate to GB payments only, are in 2004–05 price terms and are rounded to the nearest 10 million.
2. The Christmas Bonus is currently paid to people in receipt of a number of qualifying benefits, some of whom are of working age. These people are assumed to receive the Christmas Bonus at the new rate.
3. Estimated costs for giving Winter Fuel Payments of £300 to every household with a member over 60 years are based on the 2003–04 Pensioner Household data set which is derived from the 2003–04 Winter Fuel Payment administrative data set.
4. Estimated costs for free TV licences are based on the 2002–03 Family Resources and expenditure forecasts produced by the Department's Benefit and Forecasting Model Development Division.

Pensioners (Tax Payments)

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many pensioners paid *(a)* income tax and *(b)* council tax in the latest year for which figures are available. [187355]

Ruth Kelly: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. David Willets, dated 8 September 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions asking, for the latest year for which figures are available, for the total amount of *(a)* income tax and *(b)* council tax, paid by pensioners and the average tax per pensioner who paid each tax (187351), and how many pensioners paid each tax (187355).

For estimates relating to income tax please see table 3.12 "Income and tax for individuals aged 65 and above, by region and country, 2001–02" on the Inland Revenue website: www.inlandrevenue.gov.uk/stats/income_distribution/table-312-2001 -02.pdf. The information in this table relates to individual taxpayers, not households, who are aged 65 and above. This table does not include female taxpaying pensioners aged between 60 and 65. It shows there were about 4.1 million pensioners taxpayers aged 65 or over in the UK in 2001–02, with income tax liability of £8.2 billion. This gives an average tax of about £2,000 per pensioner taxpayer (aged 65 or over).

Estimates for council tax paid by pensioner households have been produced from the Office for National Statistics' analysis "The effects of taxes and benefits on household income" published on the National Statistics website on 6 May 2004 at: www.statistics.gov.uk/taxesbenefits

The analysis includes measures of income inequality for households in the United Kingdom as a whole based on data from the Expenditure and Food Survey. This is a sample survey covering about 7,000 households in the UK and sample sizes for pensioner households are only sufficient to give very approximate estimates.

Estimates for 2002–03 suggest that that single and couple pensioner households in GB paid about £3.6 billion in council tax net of benefits and discounts. The average council tax paid by the approximately five million pensioner households (single and couples) who paid council tax (i.e. their council tax was greater than zero) was about £700 per year. Council tax is not paid in Northern Ireland. Net council tax is defined as gross council tax less benefits and discounts, where a household reports taking up a council tax benefit entitlement.

These estimates of numbers of pensioners and payments of council tax may not match population data or administrative payments data because of sample size and weighting issues, as well as possible inaccurate reporting by respondents.

Pensioner households have been defined as those where the Household Reference Person is retired or unoccupied and aged 65 or more and male, or 60 years of age or more and female, and economically inactive.

Detailed information on the definition of the Household Reference Person can be found in Appendix D of the document at the following address: http://www.statistics.gov.uk/downloads/theme_social/Family_Spending_2002-03/Family_Spending_2002-03_revised.pdf

Pensions

Mr. Denham: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the level of basic state pension and state second pension *(a)* on retirement and *(b)* at age 75 for a man with annual earnings of (i) £10,000, (ii) £20,000 and (iii) £30,000 over a 40-year working life; and what the projected level of the guarantee part of the pension credit would be, assuming current policies continue; [186436]

(2) what estimate he has made of the state second pension accrual rate that would be necessary for the combined basic state pension and state second pension for a man with annual earnings of *(a)* £10,000, *(b)* £20,000 and *(c)* £30,000 over a 40-year working life to exceed the projected level of the guarantee part of the pension credit (i) on retirement and (ii) at age 75, assuming current policies continue; [186437]

(3) what assessment he has made of the state second pension accrual rate that would be necessary for the combined basic state pension and state second pension for a man with annual earnings of *(a)* £10,000, *(b)* £20,000 and *(c)* £30,000 over a 40-year working life to exceed the projected level of the guarantee part of the pension credit (i) on retirement and (ii) at age 75, assuming that the retirement pension is uprated by the average of earnings and price inflation. [186958]

Malcolm Wicks: The information is provided in the tables.

Table 1 shows the estimated amounts of basic state pension and state second pension that a single male with a 40-year working life, reaching state pension age in 2045 would receive.

Table 1

Annual earnings	*Total state pension (£)*
£10,000	200
£20,000	220
£30,000	229

Notes:

1. Figures are weekly amounts in 2004–05 price terms and are rounded to the nearest £1. Totals may not sum due to rounding.
2. The weekly level of guarantee credit when this individual reaches state pension age in 2045 is estimated at £236, and at £287 10 years later when the man would be 75. Actual pension credit entitlement depends on both state and private income, savings as well as household circumstances.
3. Currently basic and additional state pension are uprated in line with a minimum of prices and therefore remain constant in real terms.
4. Future policy on calculation and uprating of benefits is for future Parliaments to determine. For the purposes of these projections, it has been assumed that (except where stated) all elements of state pension are uprated in line with prices once in payment and the guarantee credit rises in line with average earnings. Long term assumptions are in line with those for Budget 2004.
5. It is assumed that a man starts paying Class 1 national insurance contributions at age 25 following nine years without any credits and contributes for 40 years.
6. An individual's earnings are assumed to rise in line with average long term earnings' growth and therefore increase in real terms.

Table 2 shows the underlying accrual rate of state second pension required for the basic and state second pension of a man with a 40-year working life reaching state pension age in 2045 to exceed the level of the guarantee credit, at state pension age and at age 75.

Table 2

Basic state pension	*Contributory pension above guarantee credit*	*Annual earnings in 2004* £10,000	£20,000	£30,000
		Required underlying rate of accrual in state second pension		
Increased in line with prices	At state pension age (percentage)	26.20	22.50	21.20
	At age 75 (percentage)	34.70	29.80	28.10
Increased by average of prices and earnings	At state pension age	Current	Current	Current
	At age 75 (percentage)	26.30	22.60	21.20

Notes:
1. Where the current state second pension accrual rate is sufficient to ensure the combined value of basic state pension and state second pension exceeds the value of the guarantee credit, this has been denoted as "Current".
2. The current underlying rate of accrual is 20 per cent. however state second pension is accrued at different rates for different bands of earnings. The rate shown here is the underlying rate that determines the rate in different bands. For example, the person earning £10,000 per year has an accrual rate in state second pension of 40 per cent., which is twice the underlying rate of 20 per cent.
3. Future policy on calculation and uprating of benefits is for future Parliaments to determine. For the purposes of these projections, it has been assumed that (except where stated) all elements of state pension are uprated in line with prices once in payment and the guarantee credit rises in line with average earnings. Long term assumptions are in line with those for Budget 2004.
4. It is assumed that a man starts paying Class 1 national insurance contributions at age 25 following nine years without any credits and contributes for 40 years.
5. An individual's earnings are assumed to rise in line with average long term earnings' growth and therefore increase in real terms.

Mr. Liddell-Grainger: To ask the Secretary of State for Work and Pensions how many pensioners in Bridgwater *(a)* have been contacted about converting to direct payment, *(b)* are still to be contacted about converting to direct payment, *(c)* have not responded to the contact about converting to direct payment and *(d)* have chosen to open a Post Office Card Account. [186508]

Mr. Pond: We do not have the information in the format requested. This could be provided only at disproportionate cost.

Key figures on the progress of conversion to Direct Payment are available in the Library updated every four weeks.

Mr. Denham: To ask the Secretary of State for Work and Pensions what assessment he has made of the additional cost of uprating the basic state pension by the average of prices and earnings inflation annually for the next 50 years *(a)* gross and *(b)* net of savings in means-tested benefits and direct taxes. [186957]

Malcolm Wicks: The information is provided in the table:

£ billion

	(a) Gross cost	*(b) Net cost*
2005–06	0.3	0.1
2006–07	0.7	0.4
2007–08	1.0	0.5
2008–09	1.3	0.7
2009–10	1.7	0.9
2020–21	6.3	3.4
2055–56	32.7	17.4

1. Figures are costs for GB and Overseas in 2004–05 price terms, using the GDP deflator index, rounded to the nearest £100 million.
2. For part *(a)*, additional gross basic State Pension costs are estimated by the Government Actuary's Department and are consistent with Budget 2004 assumptions and use 2002 based population projections. Basic State Pension costs refer to the additional costs after allowing for consequential changes to National Insurance Fund benefits and non-means tested vote benefits.
3. For part *(b)*, costs net of income related benefits (savings credit, guarantee credit, housing benefit and council tax benefit) and income tax are calculated using the Department's policy simulation model for 2005–06 and 2006–07. For illustrative purposes it is assumed that the proportion of savings calculated for the 2006–07 year is constant for subsequent years.

TREASURY

EU Productivity

Keith Vaz: To ask the Chancellor of the Exchequer what action has been set by the EU as highest priority for new member states in generating rapid economic reform. [186788]

Ruth Kelly: The new member states have been integrated into the Broad Guidelines of the Economic Policies of the member states and the Community, for the period 2003–05 (BEPGs).

The 2004 BEPG update highlighted country specific economic measures and priorities that each member state should undertake. Under "economic reforms to raise Europe's growth" potential, the Commission also suggested that the existing guidelines aiming at 'more and better jobs' and at 'increasing productivity and business dynamism' be implemented in a comprehensive and co-ordinated way by the new member states. Given the labour market situation is considerably worse in the new member states, the BEPGs recommend that policy efforts concentrate on a small number of priority areas that are likely to have the largest impact on labour market performances: ensuring that real wage developments reflect productivity growth; improving the financial incentives to work by reforming tax/benefit systems; improving skills and training, through the

provisions of lifelong learning facilities; and undertaking appropriate reforms of labour market regulations.

The BEPGs also indicate that R and D diffusion and technology transfers will be as important as R and D investment in accelerating the transition towards higher value-added activities. Sustaining a high level of foreign direct investment is essential, as is an increased responsiveness of the education and training systems to the changing needs of the labour market.

Bereavement Benefit

Angela Watkinson: To ask the Chancellor of the Exchequer what plans the Government has to carry forward into the new regime existing Inland Revenue rules allowing schemes to pay a bereavement benefit of up to £2,500 on the death of a pensioner at any age to cover funeral costs; and whether there will be transitional protection arrangements. [186729]

Ruth Kelly: Under the simplified tax rules for pensions, lump sum death benefits may normally only be paid where the member is under the age of 75 at death. This maintains the principle that pensions are to provide for retirement and not a means for passing capital through the generations.

We have received representations from a small number of occupational pension schemes that pay a tax-free bereavement benefit of up to £2,500. We will be considering these representations carefully.

Child Poverty

Mr. Woodward: To ask the Chancellor of the Exchequer what estimate the Government has made of *(a)* how many and *(b)* what percentage of children grew up in jobless households in (i) St. Helens and (ii) the UK, broken down by region, in each year since 1997. [186822]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Shaun Woodward, dated 8 September 2004:

As National Statistician I have been asked to reply to your recent Parliamentary Question about children in workless households. (186822)

The attached table gives the available estimates of the number and the percentage of children resident in workless households in St. Helens Local Authority District and each region of the UK, for the three months ending May of each year from 1997 to 2004.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to sampling error. Estimates for St. Helens Local Authority District are based on small sample sizes and are subject to a high level of sampling variability. In particular, year-to-year changes are likely to show considerable volatility.

Number and percentage of children living in workless households [1,2] UK regions, 1997 to 2004 (three months periods ending in May) [3]

Region [4]	1997	1998	1999	2000	2001	2002	2003	2004
Percentage [5]								
North East	23.3	25.2	25.3	22.6	22.0	19.8	24.9	23.3
North West	22.4	23.6	22.6	19.4	19.1	19.9	20.1	18.0
in which:								
St. Helens LAD [6]	39	34	20	19	14	8	23	29
Yorkshire and the Humber	20.0	20.4	18.5	18.7	16.6	20.9	16.7	15.8
East Midlands	16.3	16.9	14.8	13.1	15.6	14.2	16.0	12.2
West Midlands	18.3	17.9	18.4	17.0	16.5	17.9	15.6	14.3
East of England	14.2	13.5	12.8	11.2	10.1	10.7	10.7	12.4

ONS Labour Force Survey

Civil Servants

Matthew Taylor: To ask the Chancellor of the Exchequer what the latest available figures are for the cost of *(a)* a Grade 5 civil servant and *(b)* a Grade 7 civil servant for his Department; and if he will make a statement. [187086]

Ruth Kelly: The Treasury's ranges F and E correspond to Grades 5 and 7 respectively. For a range F civil servant, the current average salary cost including London Allowances is £61,700, and the current average total staff cost including employer's NI and pension contributions is £78,700. For a range E civil servant, the current average salary cost including London Allowances is £42,200, and the current average total staff cost including employer's NI and pension contributions is £52,900.

Matthew Taylor: To ask the Chancellor of the Exchequer what the average length of service is for *(a)* a grade 5 civil servant and *(b)* a grade 7 civil servant in his Department; and if he will make a statement. [187091]

Ruth Kelly: In HM Treasury, the average length of Government service for a grade 5 civil servant is 16 years, and for a grade 7 civil servant is 10 years.

Climate Change Levy

Mr. Kidney: To ask the Chancellor of the Exchequer what recent assessment he has made of the operation of the Climate Change Levy, with particular reference to its effect on the Government's waste hierarchy. [186984]

John Healey: The Government continually review the use of all economic instruments, including the Climate Change Levy, across a broad range of areas. The first stage of the "Review of Environmental and Health Effects of Waste Management" was published earlier this year, and the second stage will be published shortly. Together these reports will help inform policy development and the wider debate on waste management, including the case for using economic instruments.

Designated Accommodation

Bob Spink: To ask the Chancellor of the Exchequer how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion, and *(c)* nursing mothers and pregnant women in each building and set of offices for which his Department is responsible. [187319]

Ruth Kelly: There are five dedicated smoking rooms and one prayer room in 1 Horse Guards Road. Nursing mothers and pregnant women have access to the suite of welfare facilities provided.

Household Saving

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer what assessment he has made of the effect of the removal of advanced dividend tax credit on levels of household saving. [186542]

Ruth Kelly: I believe the hon. Gentleman is referring to the removal of payable tax credits on dividends. This was one element of a package of measures, including lower corporation tax rates and increased capital allowances, designed to encourage investment and economic growth. Therefore it would be misleading to assess the impact of one measure in isolation.

Furthermore, the Government has introduced a number of measures to encourage saving since 1999, such as reducing the rate of tax on dividends from 20 per cent. to 10 per cent. for starting and basic rate taxpayers; introducing the lower rate of tax for savings of 10 per cent. and the Individual Savings Account. The ISA has been very successful, with around 15 million savers—one in three adults—subscribing around £140 billion into their ISAs since they came into effect in April 1999.

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer what assessment he has made of the effect of reducing the maximum investment limits on Individual Savings Accounts on household saving. [186543]

Ruth Kelly: ISAs form one part of the Governments approach to savings linking with policies such as the new Child Trust Fund, reductions in the tax on Capital Gains for business assets from 40 per cent. to 10 per cent. and radical simplification of pensions with a lifetime limit of £1.5m.

A reduction from £7,000 to £5,000 a year may affect the allocation of savings between savings products for those currently investing more than £5,000 a year in an ISA. The overall effect on such savers behaviour is uncertain. We shall continue to keep the approach to savings policy under review.

Household Waste (Charges)

Mr. Kidney: To ask the Chancellor of the Exchequer what assessment he has made of the fiscal implications of introducing variable charges for the collection of domestic household waste. [187277]

John Healey: The Strategy Unit report "Waste not, Want not" published in November 2002, recommended that local authorities that wish to take forward household incentive—including charging—schemes to help reduce waste volumes and increase recycling should be allowed to do so.

In response, the Government undertook to carry out further work on household incentives before reaching a decision on whether to extend the powers of local authorities and introduce pilot schemes. This work—in consultation with the Local Government Association

and local authority practitioners—looks in particular at the practicalities of operating any such schemes, the benefits they could deliver and how potential disadvantages might be overcome.

Inheritance Tax Act

Mr. Boris Johnson: To ask the Chancellor of the Exchequer how much *(a)* gross and *(b)* net revenue has been raised to date by the repeal under the Finance Act 1998 of section 26 of the Inheritance Tax Act 1984. [187474]

Dawn Primarolo: None. Section 26 was redundant following the removal of the monetary limit which originally applied to relief for charitable bequests under what is now s.23 of the Inheritance Tax Act 1984. A gift or bequest which could previously have been relieved under s.26 can now enjoy relief either under s.23 or under s.25 (gifts for national purposes).

Iraq (Departmental Secondments)

Mr. Cousins: To ask the Chancellor of the Exchequer if he will list the secondments of staff of the Treasury and its agencies to the Coalition Provisional Authority in Iraq up to the transfer to the Iraqi Government; what their duties were in each case; and how many secondees continue to serve that government. [182105]

Ruth Kelly: Five Treasury officials were seconded to the Coalition Provisional Authority to support the formulation and execution of economic policy in Iraq. The Treasury officials mainly worked on budgetary issues, including preparation of the 2003 and 2004 Iraqi Budgets, execution of the budget, including payment of public sector salaries and pensions, and the new financial management law. They also worked on the Iraqi currency exchange.

At present there are no Treasury secondees serving the Iraqi Government.

Landfill Tax

Mr. Kidney: To ask the Chancellor of the Exchequer what assessment he has made of the implications of his Spending Review for the *(a)* speed and *(b)* quantum of future increases in the rate of landfill tax. [186985]

John Healey: The Chancellor makes decisions in the Spending Review based on a wide range of policy issues and considerations. The Government are committed to a waste management strategy which makes use of a range of policies, including spending, regulation and taxation. The standard rate of landfill tax is due to increase by £3/tonne next year and by at least £3/tonne in subsequent years on the way to a medium to long-term rate of £35/tonne. Any decisions about the rate of increases in the landfill tax will be made as part of the Budget process, taking account of all relevant policy measures and a range of social, environmental and economic factors.

National Insurance Number

Harry Cohen: To ask the Chancellor of the Exchequer what uses of the national insurance number other than those connected with tax or benefits are authorised; whether he intends to make the national insurance number a general identifier under the Data Protection Act 1998; whether he seeks the views of the Information Commissioner when approving additional uses of the national insurance number; and if he will make a statement. [185952]

Dawn Primarolo: I refer to the Secretary of State for Work and Pensions response of 14 April 2003 to your previous question. Additions to the list of authorised users of the national insurance number for non-tax or benefit purposes since that date will be placed in the Library.

Responsibility for authorising use of the national insurance number is held jointly by Inland Revenue and the Department of Work and Pensions who liaise with the Information Commissioner on data protection issues. We have no plans to register the national insurance number as a general identifier under the Data Protection Act 1998.

Non-North Sea Corporation Tax Revenues

Mr. Willetts: To ask the Chancellor of the Exchequer what assumptions about the level of employer contributions to self-administered pension schemes informed his forecasts for non-North Sea corporation tax revenues in *(a)* 2004–05, *(b)* 2005–06, *(c)* 2006–07, *(d)* 2007–08 and *(e)* 2008–09 as set out in Table C9 of the Budget 2004 Red Book. [186784]

Ruth Kelly: The level of pension contributions in the economic forecast underlying the Budget 2004 non-North Sea corporation tax forecasts is circumscribed by the assumption made about the factor income shares of GDP. The assumption used is that in the medium-term, when GDP grows at the underlying trend rate, the factor shares of GDP are broadly constant. This assumption was re-examined by the National Audit Office for Budget 2004, and their conclusion was that it remained a reasonable one.

Oil Exploration Expenditure Supplement

Mr. Salmond: To ask the Chancellor of the Exchequer (1) if he will raise the oil exploration expenditure supplement; [187513]

(2) what action he plans to take in response to increasing oil prices. [187511]

John Healey: The Government's focus since 3 June has been on OPEC and oil producers and their responsibilities to meet their own targets on sustainable oil prices. With the next meeting of OPEC Ministers now moved from July to September, and in light of the continuing uncertainty in the oil market, the Government announced on 20 July that it had decided to review the planned increase in fuel duty at the Pre-Budget Report.

The Chancellor of the Exchequer will report back on this issue at the time of the Pre-Budget report. Other taxes, including the oil exploration expenditure supplement, will be kept under review by the Chancellor as part of the normal Budget cycle.

Mr. Salmond: To ask the Chancellor of the Exchequer what changes in revenues the Treasury expects as a result of rising oil prices. [187512]

John Healey: I refer the hon. Gentleman to the answer I gave to the hon. Member for Waveney on 21 June (*Official Report*, 1205W).

Older Workers

Mr. Tony Clarke: To ask the Chancellor of the Exchequer how many people aged over 65 years have been in work in Northampton, South in each year since 1997. [186463]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Tony Clarke, dated 8 September 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about employment. (186463)

The attached table gives the available estimates of the number of people aged 65 and over in employment in the Northampton South Parliamentary Constituency for the twelve months ending February in 1997 and each year from 1999 to 2003. However, these estimates are subject to a higher degree of sampling and rounding error than usual, and for this reason the table also includes estimates for the East Midlands region.

Estimates are taken from the Office for National Statistics Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to sampling variability.

Estimated number of people aged 65 and over in employment, East Midlands region and Northampton South constituency, 12 months ending February of 1997 and of each year from 1999 to 2003

Thousand

Year[1]	East Midlands	Northampton, South[2]
1997	29	1
1999	29	1
2000	29	0
2001	33	2
2002	29	1
2003	33	2

[1] Data not available for 1998.
[2] Estimates are based on small sample sizes and are subject to a higher than usual degree of sampling variability. They should therefore be treated with caution.
Source:
ONS Labour Force Survey.

PA Spiral Case

Mr. Hancock: To ask the Chancellor of the Exchequer what plans he has to create a structure to remedy the position in the case of the Names who were victims of fraud in the PA Spiral case (Thomas LJ in Sphere Drake v EIU and SCB); and if he will make a statement. [186574]

Ruth Kelly: It is understood that this particular matter is still before the courts and the Government does not comment on matters that are before the courts. There are existing remedies which victims of fraud can seek to obtain through the courts.

Pensioners (Tax Payments)

Mr. David Willetts: To ask the Chancellor of the Exchequer what the total amount of *(a)* income and *(b)* council tax paid by pensioners was in the latest year for which figures are available; and what the average payment was per pensioner who pays each tax. [187351]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Willets, dated 8 September 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions asking, for the latest year for which figures are available, for the total amount of *(a)* income tax and *(b)* council tax, paid by pensioners and the average tax per pensioner who paid each tax (187351), and how many pensioners paid each tax (187355).

For estimates relating to income tax please see table 3.12 "Income and tax for individuals aged 65 and above, by region and country, 2001–02" on the Inland Revenue website: www.inlandrevenue.gov.uk/stats/income_distribution/table-312-2001-02.pdf. The information in this table relates to individual taxpayers, not households, who are aged 65 and above. This table does not include female taxpaying pensioners aged between 60 and 65. It shows there were about 4.1 million pensioners taxpayers aged 65 or over in the UK in 2001–02, with income tax liability of £8.2 billion. This gives an average tax of about £2,000 per pensioner taxpayer (aged 65 or over).

Estimates for council tax paid by pensioner households have been produced from the Office for National Statistics' analysis "The effects of taxes and benefits on household income" published on the National Statistics website on 6 May 2004 at: www.statistics.gov.uk/taxesbenefits

The analysis includes measures of income inequality for households in the United Kingdom as a whole based on data from the Expenditure and Food Survey. This is a sample survey covering about 7,000 households in the UK and sample sizes for pensioner households are only sufficient to give very approximate estimates.

Estimates for 2002–03 suggest that that single and couple pensioner households in GB paid about £3.6 billion in council tax net of benefits and discounts. The average council tax paid by the approximately five million pensioner households (single and couples) who paid council tax (i.e. their council tax was greater than zero) was about £700 per year. Council tax is not paid in Northern Ireland. Net council tax is defined as gross council tax less benefits and discounts, where a household reports taking up a council tax benefit entitlement.

These estimates of numbers of pensioners and payments of council tax may not match population data or administrative payments data because of sample size and weighting issues, as well as possible inaccurate reporting by respondents.

Pensioner households have been defined as those where the Household Reference Person is retired or unoccupied and aged 65 or more and male, or 60 years of age or more and female, and economically inactive.

Detailed information on the definition of the Household Reference Person can be found in Appendix D of the document at the following address:

http://www.statistics.gov.uk/downloads/theme_social/Family_Spending_2002-03/Family_Spending_2002-03_revised.pdf

Pensions (Tax Relief)

Mr. Love: To ask the Chancellor of the Exchequer (1) what estimates he has made of the impact on public funds in tax relief of the introduction of the £1.4 million limit on pension savings; and if he will make a statement; [186635]

(2) what estimates he has made of the cost to public funds in tax relief of introducing a limit on pension savings of *(a)* £1.3 million, *(b)* £1 million, *(c)* £750,000, *(d)* £500,000 and *(e)* an amount reflecting a pension just above benefit levels; and if he will make a statement. [186636]

Ruth Kelly: Available estimates of the Exchequer cost of the introduction of the new simplified tax regime for pensions are contained in paragraph 48 of "Simplifying the taxation of pensions regulatory impact assessment", a copy of which is available in the Library of the House.

The £1.5 million lifetime allowance to be introduced from April 2006 broadly replicates the maximum fund an individual can accrue under the current occupational pension rules. The exchequer impact of introducing a lower allowance would depend upon uncertain changes in the pensions savings of individuals at or approaching the lower lifetime allowance and any consequent changes to other parts of the new regime resulting from a lower allowance. Due to the uncertainty of estimating the size and direction of these behavioural effects no estimates are available.

Population Register

Harry Cohen: To ask the Chancellor of the Exchequer what estimate he has made of the savings to public funds arising from *(a)* the implementation of the population register database by the Registrar General, *(b)* the proposed introduction of an identity card by the Home Office and *(c)* the data-sharing proposals of the Department for Constitutional Affairs. [185954]

Ruth Kelly: The potential cost savings from the Citizen Information Project are being developed. No decision has yet been taken as to whether or not the population register should proceed to implementation but we could expect benefits to arise both in the form of efficiency savings and in improved public services.

There have been discussions between the Treasury and the Home Office on the implications of Identity Cards dating back to before the publication of the consultation paper on entitlement cards and identity fraud. However, the introduction of Identity Cards is a long-term undertaking, and discussions will continue. HM Treasury will continue to be involved with ongoing analysis.

The DCA Legal Guidance on Public Sector Data Sharing sets out the legal and regulatory framework governing data sharing. The Government are not able to estimate savings to public funds that may result from the better understanding of this framework which has followed the publication of the Guidance.

With-profits Fund Schemes

Mr. Love: To ask the Chancellor of the Exchequer (1) what plans *(a)* he and *(b)* the Financial Services Authority has for further regulation of with-profits fund schemes offered by insurance companies; and if he will make a statement; [186628]

(2) when the consultation by the Financial Services Authority on Treating With-Profits Customers Fairly, CP 207, will conclude; when the results will be published; and if he will make a statement; [186629]

(3) what research has been undertaken into the impact on mutual insurers of the proposals contained in the consultation on Treating With-Profits Customers Fairly; and if he will make a statement. [186630]

Ruth Kelly: Insurance regulation is the responsibility of the Financial Services Authority (FSA).

The FSA published Consultation Paper (CP) 04/14 on 19 August 2004 which provides feedback on CP 207 and makes revised proposals for further consultation. The FSA will continue to consult widely about its proposals, including among the mutual insurance sector. CP 04/14 specifically addresses a number of points made by firms within the mutual insurance sector in response to the first consultation.

The FSA will continue to monitor the impact on firms and consumers of existing and future changes to with-profits regulation.

Work Force Statistics

Mr. Woodward: To ask the Chancellor of the Exchequer what estimate the Government have made of the percentage of people aged 50 to 65 who were *(a)* registered as unemployed and *(b)* economically inactive in (i) St. Helens and (ii) the UK, broken down by region, in each year since 1997. [186940]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Shaun Woodward, dated 8 September 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment and economic inactivity for people aged 50 to 65. (186940)

The attached table gives estimates for the percentages of people aged 50 to 65 who are *(a)* unemployed and *(b)* economically inactive in the St. Helens Local Authority District and the UK by region for the three months ending in May of each year from 1997 to 2004.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to sampling variability. Estimates for UK regions and for St. Helens Local Authority District are based on small sample sizes and are subject to a high level of sampling variability. In particular, year- to-year changes are likely to show considerable volatility.

Percentages of people aged 50 to 65 who are unemployed[1] or economically inactive[2]—UK regions, 1997–2004 (three-month periods ending in May)[3]

percentage

Region	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
Unemployed[1]

United Kingdom	40.4	40.2	39.6	39.3	38.5	37.9	36.6	36.3

[1] Unemployed as a per cent. of total population aged 50 to 65.
[2] Economically inactive as a per cent. of total population aged 50 to 65.
[3] Not seasonally adjusted
[4] LFS sample included no cases on which an estimate could be based.

Important Note:
Estimates for UK regions and for St. Helens Local Authority District are based on small sample sizes and are subject to a high level of sampling variability. They should be treated with caution. In particular, year-to-year changes are likely to show considerable volatility, and should not be used is isolation from the estimates for a sequence of years.

Source:
ONS Labour Force Survey

DEFENCE

AAC Dishforth

Miss McIntosh: To ask the Secretary of State for Defence if he will make a statement on the security review at AAC Dishforth. [186619]

Mr. Ingram: In March 2004, a security review was undertaken at AAC Dishforth. The final report has been produced and its recommendations are currently being considered, while we await the outcome of the Defence Airfield Review.

Armoured Battlegroup Support Vehicle Programme

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will make a statement on the decision to halt the Armoured Battlegroup Support Vehicle programme. [186639]

Mr. Ingram: There has been no decision to halt the Armoured Battlegroup Support Vehicle (ABSV) programme. The project remains in its concept phase with all options under consideration.

Civil Service Relocation

Mr. Cousins: To ask the Secretary of State for Defence what non-uniformed staff are employed by *(a)* his Department and *(b)* each of its agencies, broken down by (i) region and (ii) country; what relocations are pending; and what contribution he plans to make to the implementation of the Lyons Review. [186847]

Mr. Caplin: The total number of full-time equivalent MOD civilian staff by region and country as at 1 July 2004, including staff employed by agencies and trading funds, is shown as follows:

	Number
MOD total	108,990
England	71,370
London	6,420
South East	17,110
East	7,660
South West	23,920
West Midlands	6,430
East Midlands	2,520
Yorkshire and The Humber	3,940
North West	2,870
North East	500
Scotland	7,160
Wales	4,170
Northern Ireland	3,450
Elsewhere[1]	22,840

[1] Comprised of MOD civilian staff located outside the UK and unallocated staff.

The number of full-time equivalent MOD civilian staff in each agency and trading fund in England, broken down by Government office region as at July 1 2004, is shown as follows:

	England	London	South East	East	South West	West Midlands	East Midlands	Yorks and Humber	North West	North East

Full-time equivalent is a measure of the size of the work force that takes account of the fact that some people work part-time.

Figures have been individually rounded to the nearest 10, so may not sum to the totals shown.

The number of full-time equivalent MOD civilian staff in each agency and trading Fund broken down by country as at 1 July 2004 is shown as follows:

	Total	England	Scotland	Wales	Northern Ireland	Elsewhere
AFPA	160	130	30	—	—	—
ATRA	4,020	3,780	60	140	10	20

The Ministry of Defence keeps the size and location of its bases under constant review. Building on initial work that has been done to identify the MOD's core sites, the Department is undertaking further work to examine where estate rationalisation may be possible. This work is consistent with the Department's contribution to the Government's Independent Review of Public Sector Rationalisation—the "Lyons Review".

On 21 July we announced a number of specific reviews. These were: a review of the Defence Logistics Organisation's locations; a review of Defence Airfields; and a review of Royal Marines Basing, each of which may result in the relocation of civilian personnel. In addition, a number of relocations relating to the RAF's review of Air Combat Service Units and other minor units were announced.

The MOD submitted a significant package of relocation proposals to the Lyons Review, which would result in around 3,900 service and civilian personnel relocating out of London and the South East by 2010.

The proposals consist of the closure of Woolwich Station in Greenwich, the closure of the Army Technical Foundation College (ATFC) at Arborfield, relocation of the Disposal Services Agency (DSA) to the West Country, collocation of Defence Medical Services Training Centre (DMSTC) facilities and rationalisation of the Defence Science and Technology Laboratories (DSTL).

Defence Spending Review

Miss McIntosh: To ask the Secretary of State for Defence what assessment he has made of the implications of *(a)* the Defence Spending Review and *(b)* the proposals set out in his oral statement on future capabilities for defence on 21 July for (i) the Typhoon project and (ii) the Apache project; and if he will make a statement. [186668]

Mr. Ingram: As my right hon. Friend the Secretary of State for Defence set out in his statement on 21 July 2004, *Official Report*, columns 343–70, Typhoon is an essential element of our plans to transform the armed forces for the 21st century. The aircraft is already demonstrating excellent performance in service and we intend to place the order for the second tranche as soon as negotiations on price and performance have been successfully completed.

The entry to service of the Attack helicopter represents an essential step in the Army's transition towards an increasingly manoeuvrist approach to warfare, and is therefore fully in line with the proposals in the Defence White Paper published in July, "Delivering Security in a Changing World". The Attack Helicopter will significantly improve our ability to engage land targets with precision and at range.

Infantry

Mr. Jenkins: To ask the Secretary of State for Defence how many infantry were employed by the British Army, broken down by rank, excluding vacancies according to the latest available statistics; and what projections for numbers of infantry were made for the Defence Review. [187008]

Mr. Caplin: The trained Infantry Strengths as at 1 July 2004 are as follows:

Rank	Trained
Officers	
Lt Col	360
Lt Col (Special List)	5
Major	1,020
Captain	1,025
Lt	495
2Lt	50
Officer total	2,955
Other ranks	
WO1	150
WO2	855
SSGT	955
SGT	1,825
CPL	3,615
LCPL	3,765
PTE	11,615
Soldier total	22,780
Infantry trained strength total	25,735

Note:
Totals have been rounded to the nearest five.

The manpower released from the reduction of four infantry battalions equates to approximately 2,500 posts, all of which will be reinvested back in to the Army. While a proportion of these will be reallocated back into the infantry itself to develop more robust and resilient establishments, others will be reinvested in the most heavily committed specialists such as logisticians, engineers, signallers and intelligence. Exact details in terms of the numbers allocated to each individual Arms and Service have yet to be fully worked through and finalised.

Missiles

Mr. Hancock: To ask the Secretary of State for Defence what research he has *(a)* commissioned and *(b)* evaluated into the effectiveness of ship borne surface-to-surface missiles. [171863]

Mr. Ingram: The Harpoon anti-ship missile, fitted to Type 22 and Type 23 frigates, provides our current surface-to-surface ship borne missile capability. The Ministry of Defence regularly assesses the effectiveness of such weapons systems, through a combination of routine trials, research and analysis and as a normal part of our review of the equipment programme.

In terms of potential future capabilities, the Department is currently conducting a balance of investment study into a range of possible land attack options. This includes consideration of the utility of ship borne surface-to-surface missiles on the Future Surface Combatant (FSC) and Type 45 Destroyers. The next stage of this study is expected to report this autumn.

Operation Majestic Eagle

Mr. Gerald Howarth: To ask the Secretary of State for Defence how many *(a)* ships and *(b)* personnel (i) were originally requested to take part and (ii) took part in Operation Majestic Eagle. [186643]

Mr. Ingram: The United States request to take part in Exercise Majestic Eagle did not specify a particular level of involvement. Because Majestic Eagle took place during the terminal stages of the Royal Navy's extensive AURORA 04 programme of exercises with US forces, United Kingdom participation was limited to HMS Invincible, which took part via satellite link while returning from AURORA 04.

Operational Deployments

Mr. Keetch: To ask the Secretary of State for Defence what the last three operational deployments and the length between each has been for *(a)* 1 Para, *(b)* 2 Para, *(c)* 3 Para and *(d)* 7th Armoured Brigade; and how many personnel have been medically downgraded in each. [187127]

Mr. Ingram: Details of the last three operational deployments of each of the units, and the length between each of those deployments, are shown in the following table.

Unit	*Date*	*Location*	*Interval (months)*
1 PARA	May and August 2000 (2 short deployments)	Sierra Leone	9
	January to June 2001	Northern Ireland	4
	January to June 2003	Iraq	19
2 PARA	January to March 2002	Afghanistan	2
	September 2002 to March 2003	Northern Ireland	6
	December 2003 to April 2004	Iraq	8
3 PARA	January to June 2002	Northern Ireland	18
	January to June 2003	Iraq	7
	May 2004 to date	Northern Ireland	11
7 Armoured Brigade	May to November 2000	Kosovo	31
	May to November 2001	Kosovo	6
	January to June 2003	Iraq	13

The details of those personnel classed as non-FE, as at 1 July 2004, are included as follows. Non-FE status signifies some form of temporary medical downgrading, although it should be noted that while an individual is considered to be medically downgraded, they may still be liable for deployment, depending on the reason for the downgrading, the nature and location of the deployment, and medical advice.

Unit	*Non-FE total*	*Establishment total*	*Percentage of establishment*
1 Para	45	687	7.3
2 Para	20	687	2.9
3 Para	50	687	7.2
7 Armoured Brigade	415	6,575	6.3

Policies (Environmental Impact)

Mr. Horam: To ask the Secretary of State for Defence how many new policy proposals or significant changes in policy were produced in *(a)* 2002–03 and *(b)* 2003–04; how many of these were screened for their environmental impacts; and how many were the subject of separate environmental appraisals. [185097]

Mr. Caplin: The Ministry of Defence has produced the following new policy proposals and changes to policy in the periods 2002–03 and 2003–04:

The Strategic Defence Review: A New Chapter (2002);

Delivering Security in a Changing World (Defence White Paper, 2003); and

Delivering Security in a Changing World: Future Capabilities (2004).

These policies have not been screened for their environmental impacts or been subject to separate environmental appraisals.

To address the requirements for policy level environmental appraisal the Department worked with Defra to trial the Integrated Policy Appraisal tool (IPA). The IPA tool has been integrated into

Regulatory Impact Assessment (RIA) and the Department is now taking forward environmental policy appraisal work in this context in order to meet policy appraisal commitments.

The MOD continues to carry out sustainability appraisal and more detailed environmental assessments as a result of the implementation of strategic policy decisions, for example, those arising from the Strategic Environmental Assessment (SEA) of the Strategic Defence Review (SDR), published in July 2000. This work is supported by the Ministry of Defence's, Sustainability Appraisal Handbook (2003), which underpins the Department's commitment to the environmental aspects of sustainable development as expressed in the Secretary of State's Policy Statement, July 2000.

Rosyth Shipyard

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether his Department plans to contribute to the costs of running the Rosyth Shipyard. [186644]

Mr. Ingram: No, there are no plans for the Ministry of Defence to contribute to the costs of running Rosyth Dockyard. As with any company, Babcock Support Services Ltd., the owners of Rosyth Royal Dockyard, must recover their costs through their various income streams, in accordance with their contracts and with accounting conventions.

Wind Farms (West Somerset)

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what further consultations there have been on the positioning of wind farms near the helicopter base on the West Somerset coast. [186496]

Mr. Caplin: Consultations are in progress with the developer about the positioning of a wind farm near Hinkley Point Power Station. This has implications for the Klue Range at Kilve Bend.

We are aware that our comments on the planning application need to be with West Somerset district council within 21 days of 17 August 2004.

NORTHERN IRELAND

Terrorist Threat

9. **David Burnside:** To ask the Secretary of State for Northern Ireland what assessment he has made of the present *(a)* Republican and *(b)* Loyalist terrorist threat in the Province. [187651]

Mr. Pearson: Dissident republicans are a threat, although many of their activities have been thwarted, intercepted or nullified by the security forces. We remain concerned at the level of paramilitary activity and control exercised within communities by both Republican and Loyalist paramilitary organisations. The Independent Monitoring Commission will report again on this area next month.

Security Situation

10. **Mr. Mackay:** To ask the Secretary of State for Northern Ireland if he will make a statement on the security situation in the Province. [187652]

Mr. Pearson: The security situation is relatively benign. While there was some regrettable violence at the Ardoyne the marching season has been largely peaceful and interface areas have also been fairly quiet.

Dissident Republicans remain a threat and have been targeting members of the District Policing Partnerships and disrupting traffic by hoax devices, but their activities have for the most part been thwarted, intercepted or nullified by good policing operations.

Ministerial Accountability

11. **Mr. Andrew Turner:** To ask the Secretary of State for Northern Ireland what mechanisms are in place to ensure the accountability of his Department's Ministers to electors in Northern Ireland. [187653]

Mr. Paul Murphy: We remain focused on our main aim of restoring devolved Government to Northern Ireland, on a stable and inclusive basis, with institutions accountable to local Ministers.

Higher Education

12. **Mr. Hume:** To ask the Secretary of State for Northern Ireland how many full-time undergraduate university students normally domiciled in Northern Ireland will be at university in the academic year 2004–05; and how many full-time undergraduate university places are available in Northern Ireland. [187654]

Mr. Gardiner: It is too early to say how many Northern Ireland domiciled students will take up full-time undergraduates places in 2004–05, the clearing process is not yet complete and data on student placements will not be available to the Department until late 2005. There are some 28,000 full-time undergraduate places planned for the university sector in Northern Ireland this year.

Decommissioning

13. **David Taylor:** To ask the Secretary of State for Northern Ireland what recent assessment has been made of the *(a)* value and *(b)* effectiveness of the decommissioning process. [187655]

Mr. Pearson: In 1998 the Loyalist Volunteer Force carried out an act of decommissioning in Northern Ireland. The IRA have carried out three acts of decommissioning (2001, 2002 and 2003). In the latest act of decommissioning by the IRA (2003) the Independent International Commission on Decommissioning reported that the arms comprised light, medium and heavy ordnance and associated munitions. They included automatic weapons, ammunition, explosives and explosive material.

These acts of decommissioning have put arms beyond use which otherwise could have been used in acts of terrorism. This is the start of a process that will ultimately result in all paramilitary weaponry being put beyond use and return Northern Ireland to a normal democratic society.

Advisers/Consultants

Bob Spink: To ask the Secretary of State for Northern Ireland how much his Department and its agencies and non-departmental public bodies spent on external consultants and advisers in each of the last three years. [172435]

Mr. Pearson: The expenditure incurred by the Department, its agencies and non-departmental public bodies on external consultants and advisers in each of the last three years is as follows:

Total Department, agencies and NDPBs

	Total (£)
2001–02	31,274,849
2002–03	35,267,313
2003–04	43,436,915

Antiville Estate, Larne

Mr. Beggs: To ask the Secretary of State for Northern Ireland when he plans to take a decision on the proposal by the Board of the Northern Ireland Housing Executive to demolish properties in the Antiville Estate in Larne. [187714]

Mr. Spellar: The Northern Ireland Housing Executive's proposals to demolish properties on the Antiville Estate were received by the Department for Social Development (DSD) on 30 July 2004. These are currently being considered in terms of their technical merit, value for money and their potential to achieve the regeneration objectives. I am aware that the proposals have generated a considerable amount of local concern and, in view of this, no decision will be taken until DSD has received assurances that local concerns have been addressed.

Careers Strategy

Mr. McGrady: To ask the Secretary of State for Northern Ireland what progress has been made on the Careers Strategy following the recommendations contained in the Valuing Careers Strategy. [178240]

Mr. Pearson: "Valuing Carers" was published in April 2002 and contained 19 recommendations for providing a range of support services to carers.

An inter-departmental group, led by the Department of Health, Social Services and Public Safety, was tasked with taking forward the recommendations contained in "Valuing Carers", and their work has formed the basis of a draft Strategy for Carers. Departmental officials are currently drawing up the final draft of the Strategy, which will then be referred to the Under-Secretary, my hon. Friend the Member for Basildon (Angela Smith), for consideration and approval.

Circuses

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what authority local councils in Northern Ireland have to ban animal based circuses from their property. [187456]

Angela Smith: The Local Government (Miscellaneous Provisions) (Northern Ireland) Order 1985 requires places where circuses (and other types of public entertainment) are to be held to have entertainments licences. The licences are granted by district councils and are subject to certain terms, conditions and restrictions that councils may specify. Councils do not have powers under the 1985 Order to refuse entertainments licences in respect of places where circuses are to be held simply because they involve animals. However, like all landowners, councils can decide whether circuses, or other types of public entertainment, may be held on their properties.

Civil Servants

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many recruitment exercises for Grade 5 civil servants have been undertaken in Northern Ireland in the last two years; who carried them out; and what the cost was in each case. [186020]

Mr. Pearson: In 2002–03, 13 competitions were run to fill vacancies at Grade 5 level. 12 competitions were run in 2003–04. All were carried out by the Recruitment Service of the Department of Finance and Personnel.

The total cost (including notional staff costs, advertising and travel and subsistence charges) for each competition is listed in the following tables.

During 2003–04 a generic Grade 5 level competition was begun to fill vacancies across the NICS. This was carried out by PricewaterhouseCoopers LLP on behalf of DFP. In accordance with Part 2, paragraph 13 of the Code of Practice on Access to Government Information (Third party's commercial confidences), it would be inappropriate to disclose the cost of this competition.

2002–03

Competition	*Department*	*Total costs (£)*
Deputy Chief Veterinary Officer SC/10/02	DARD	15,809
Director of Built Heritage SC/11/02	DOE	46,227

Senior Economist SC/18/03	DFP/DETI	27,117
Assistant Solicitor SC/8/03	DFP	8,735
Deputy Director—Supplies and Services Division SC/9/03	DFP	7,933
Head of Equal Opportunities and Appointments Division SC/3/04	DFP	23,104
Director of Personnel, SSA SC/5/04	DSD	19,715

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many people have been appointed to a Grade 5 post in the Northern Ireland Civil Service in the past two years. [186021]

Mr. Pearson: 23 appointments were made at Grade 5 level during 2002–03 and 11 appointments made during 2003–04.

Civil Service

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what recent action the Government have taken to resolve the Northern Ireland Civil Service dispute; and if he will make a statement. [187287]

Mr. Pearson: Intensive negotiations took place in July between officials from the Department of Finance and Personnel and trade union representatives. At these meetings officials emphasised that the 3.67 per cent. pay deal for 2003 had now been paid and was final, but that they were willing to explore all reasonable means of resolving the dispute. The trade union also met with the Secretary of State on 23 July. On 3 August management tabled two offers to the trade union—a 12-month offer worth 3.49 per cent. and a 16-month offer worth 4.65 per cent. Both offers were quickly rejected and further negotiations took place on 4, 11 and 13 August. Following these further negotiations two final offers were made to the trade union on 16 August that took account of the trade unions views—the previous 12 month offer worth 3.49 per cent. and a revised 16-month offer worth 4.65 per cent. The revised offer included an increase in rates of pay of 2 per cent. plus a non-consolidated payment of £150 for all staff. These offers are now being considered by the trade union.

Staff in the Northern Ireland Office are subject to separate pay negotiations involving NIPSA in respect of Northern Ireland Civil Servants and PCS and FDA in respect of Home Civil Servants. All three unions remain in dispute in relation to the 2003 pay award, although only NIPSA has taken industrial action. Exploratory discussions have now taken place between NIO officials and each of the unions regarding pay increases for 2004, and the unions will be invited into formal negotiations in relation to 2004 pay once the NIO's pay remit receives approval from the Treasury.

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will delay making appointments in recruitment competition SC/18/03 until the Northern Ireland Civil Service Commissioners have satisfied themselves as to the legality of the exclusion of Irish nationals from that competition. [186369]

Mr. Pearson: No. Competition SC/18/03, which is now closed, resulted in the appointment of one Grade 6.

Consultation

Mr. McGrady: To ask the Secretary of State for Northern Ireland what costs were incurred during 2002–03 by each Northern Ireland Department, their agencies and non-departmental public bodies on consultation. [180988]

Mr. Pearson: The costs incurred during 2002–03 by each Northern Ireland Department, their agencies and non-departmental public bodies on consultation (i.e. external consultancy) were as follows:

Total departments, agencies and NDPBs—2002/03

	£
Department of Agriculture and Rural Development	872,000
Department of Culture, Arts and Leisure	1,996,149
Department of Education	2,993,526
Department of Employment and Learning	435,103
Department of Enterprise, Trade and Investment	3,866,000
Department of Finance and Personnel	2,487,429
Department of Health, Social Services and Public Safety	1,198,754
Department of the Environment	1,719,891
Department of Regional Development	2,337,000
Department of Social Development	12,619,000
Office of the First Minister and Deputy First Minister	1,000,064
Northern Ireland Office	3,742,397
Total	35,267,313

Mr. McGrady: To ask the Secretary of State for Northern Ireland what costs were incurred during 2002–03 by each Northern Ireland Department, their agencies and non-departmental public bodies on consultation whose contracts were awarded under single tender. [180989]

Mr. Pearson: The following table shows the costs incurred during 2002–03 by the Northern Ireland Office, Northern Ireland Departments, their agencies and NDPBs on consultancy contracts awarded under single tender action.

£

NI Departments	Department	Agencies	NDPBs	Total
Northern Ireland Office	519,967	178,350	1,859,707	2,558,024
Department of Agriculture and Rural Development	62,182	0	20,782	82,964
Department of the Environment	18,564	200,384	0	218,948
Department of Social Development	37,685	0	0	37,685
Department of Regional Development	104,165	67,295	0	171,460
Office of the First Minister and Deputy First Minister	106,694	0	0	106,694
Department of Employment and Learning	0	0	0	0
Department of Education	800,438	0	0	800,438
Department of Health, Social Services and Public Safety	238,812	15,057	13,102	266,971
Department of Enterprise, Trade and Investment	104,434	0	348,723	453,157
Department of Culture, Arts and Leisure	79,432	744	159,962	240,138
Department of Finance and Personnel	467,340	298,237	0	765,577
Total	2,539,713	760,067	2,402,276	5,702,056

Mr. McGrady: To ask the Secretary of State for Northern Ireland what consultancy companies have been awarded contracts of over £10,000 by each Northern Ireland Department, their agencies and non-departmental public bodies, under single tender arrangements in 2002–03; and what the associated payments made to each of them were. [180990]

Mr. Pearson: The following table shows by Department, the consultants that were awarded contracts valued in excess of £10,000 under single tender action in 2002–03.

As disclosure of individual contract values would breach conditions of contract the table shows the total value of contracts awarded by Departments including their agencies and NDPBs.

Cosmetic Surgery

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether practitioners performing cosmetic procedures in the Province outside the NHS have to be registered; and how such practitioners are regulated. [187452]

Angela Smith: Doctors must be registered with the General Medical Council to practise medicine in the UK, regardless of the area in which they work. Similarly nurses and allied health professionals must be registered with the statutory regulatory body for their professions, i.e. the Nursing and Midwifery Council and the Health

Professions Council respectively. Those bodies are responsible for the registration and regulation of their professions.

Creative Writing

Mr. Dodds: To ask the Secretary of State for Northern Ireland what conditions of *(a)* copyright and *(b)* royalty payments are attached to grant aid awarded by the (i) Arts Council of Northern Ireland, (ii) Department of Culture, Arts and Leisure, (iii) Ultach Trust and (iv) Foras na Gaeilge for the publication of creative writing in the Irish language in Northern Ireland. [173186]

Angela Smith: The Arts Council of Northern Ireland does not attach conditions relating to *(a)* copyright or *(b)* royalty payments to any award. The Department of Culture, Arts and Leisure's funds in support of the arts in Northern Ireland are disbursed chiefly through the Arts Council of Northern Ireland and the Department has not made any funding directly available for the publication of creative writing in the Irish language.

The Ultach Trust is a registered charitable trust. It is not directly funded by Northern Ireland Departments and it therefore would not be appropriate to disclose details of its expenditure. Foras na Gaeilge does not provide grant aid for the publication of creative writing in the Irish language in Northern Ireland.

Cycle Paths

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how much public funding has been made available for the provision of cycle paths in Northern Ireland in each of the past five years; and how many miles of cycle paths have been provided in each of the past five years. [185153]

Mr. Spellar: The Chief Executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Member in response to this question.

Letter from Dr. Malcolm McKibbin to Mr. Gregory Campbell

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question about how much public money has been made available for the provision of cycle paths in Northern Ireland in each of the last five years; and how many miles of cycle paths have been provided in each of the last five years. I have been asked to reply as part of the issue raised falls within my responsibility as Chief Executive of Roads Service.

I can advise that in Northern Ireland the expenditure by Roads Service on the provision of cycle paths and the miles of cycle paths provided over this period is as follows:

Year	*Expenditure £000*	*Miles*
1999–00	1,732	20
2000–01	2,402	20
2001–02	1,748	20
2002–03	844	16
2003–04	818	19
2004–05[1]	820[1]	14[1]

[1] Budget and target for the current financial year

It should also be noted that other providers such as Sustrans, the Tourist Board, DARD, District Council, Sports Council for Northern Ireland, and some private developers also contribute very significantly to the mileage of cycle paths in Northern Ireland. As Roads Service does not hold the figures on cycle paths provided by these organisations I have asked my officials to write to them to request that the necessary information is sent directly to you.

Department of Health Assessment Framework

Ms Shipley: To ask the Secretary of State for Northern Ireland if he will make a statement on when the Department of Health, Social Services, and Public Safety will be implementing the Department of Health Assessment Framework in Northern Ireland. [183588]

Angela Smith: The Department of Health's performance assessment framework applies only to the NHS in England. Northern Ireland has its own system of integrated health and social care—the HPSS (Health and Personal Social Services). Under current arrangements, key service development priorities are set annually for the HPSS. Progress towards their achievement is formally managed and monitored by the Department, and work is now in hand to further develop the approach to HPSS performance assessment and reporting. While basing itself on the integrated nature of services in Northern Ireland, that work has been informed by the various performance assessment models that operate elsewhere in the UK.

Departmental Age Policy

Mr. Andrew Turner: To ask the Secretary of State for Northern Ireland whether *(a)* his Department and *(b)* agencies for which it is responsible (i) have a set retirement age which applies to all or most personnel and (ii) have a maximum age beyond which applications for employment will not be considered; and what the age is in each case. [186088]

Mr. Pearson: The compulsory age of retirement for all staff employed in the Northern Ireland Civil Service was raised to age 65 with effect from 4 October 2002. Staff who reach age 60 after that date have the option of remaining in post beyond age 60 and up to a maximum of 65.

An application for employment from any candidate who has not reached age 65 is considered valid.

Designated Accommodation

Bob Spink: To ask the Secretary of State for Northern Ireland how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion and *(c)* nursing mothers and pregnant women in each building and set of offices for which his Department is responsible. [187309]

Mr. Pearson: The Northern Ireland Civil Service currently maintains 158 smoking rooms within the general office estate, but this will be discontinued from 1 January 2005. There are no rooms set aside for worship or for nursing mothers and pregnant women.

Digital Hearing Aids

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many individuals are awaiting digital hearing aids in the Province; and what the *(a)* average and *(b)* longest current waiting time is. [187398]

Angela Smith: The information requested is not available.

Disability Grant Fund

Jim Dobbin: To ask the Secretary of State for Northern Ireland whether the abolition of the Disability Grant Fund means test in Northern Ireland has resulted in a change in the length of waiting lists. [185193]

Mr. Spellar: With effect from 16 February 2004 we have exempted parents with disabled children from the means test that applies to Disabled Facilities Grant. While it is too early for a formal assessment of the saving in processing times in these cases, initial indications are that there will be no measurable impact on the waiting list for Disabled Facilities Grant.

Educational Attainment

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many pupils who achieved each grade in the 11-plus examination were from *(a)* integrated and *(b)* other primary schools in the Province in each of the last five years. [187451]

Mr. Gardiner: The information requested is as follows:

(a) Integrated primary schools

	Number achieving each grade in the transfer procedure						
	A	*B1*	*B2*	*C1*	*C2*	*D*	*Total number sitting*
1999–2000	173	34	37	31	27	88	390
2000–01	170	39	27	28	34	74	372
2001–02	166	38	35	40	34	115	428
2002–03	158	38	38	39	37	94	404
2003–04	196	41	47	37	33	108	462

(b) Other primary schools

	Number achieving each grade in the transfer procedure						
	A	*B1*	*B2*	*C1*	*C2*	*D*	*Total number sitting*
1999–2000	6,447	1,381	1,296	1,424	1,304	5,343	17,195
2000–01	6,238	1,276	1,276	1,426	1,427	5,023	16,666
2001–02	6,329	1,359	1,271	1,363	1,371	4,678	16,371
2002–03	6,195	1,284	1,439	1,285	1,301	4,598	16,102
2003–04	5,968	1,405	1,300	1,219	1,197	4,140	15,229

Fisheries Conservancy Board Vessel

Mr. Beggs: To ask the Secretary of State for Northern Ireland what training was provided to the operators of the Fisheries Conservancy Board vessel prior to the incidents that resulted in the current damage. [184833]

Angela Smith: Three members of the Fisheries Conservancy Board's staff have received training to the following standards:

Royal Yachting Association/Maritime and Coastguard Agency Powerboat Advanced Certificate with commercial endorsement;

Maritime Radio Operator Certificate of Competence (Short Range Certificate);

Royal Yachting Association First Aid Course; and

Certificate of Proficiency in Personal Survival Techniques on Board Ship.

Gransha Road, Dundonald

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the position is in relation to the payment of compensation for motorists involved in the Gransha Road, Dundonald, road surfacing problems of two years ago; and when payments will be made to those whose vehicles were damaged. [187514]

Mr. Spellar: On 25 July 2002 routine surface dressing work was carried out on behalf of the Department at Gransha Road by its measured term contractor, Tullyraine Quarries Limited.

On 29 July 2002 reports were received about the failure of the surface dressing and of a substantial number of vehicle damage claims caused by this failure.

The failure was investigated by the Department and these investigations led to the Department referring all the Gransha Road vehicle damage claims, approximately 400, to the contractor, Tullyraine Quarries Limited, in accordance with proper legal and audit practice and procedure.

The Department maintains its position that legal responsibility for the claims lie with its contractor, Tullyraine Quarries Limited. The contractor has not to date conceded responsibility and the claims remain outstanding.

One of the motorists, who sustained vehicle damage on 29 July 2002, issued legal proceedings on 22 July 2003 against the Department, Tullyraine Quarries Limited and Lagan Bitumen Limited. Those proceedings in the County Court were however removed to the High Court on 30 January 2004. That ongoing court action is proceeding as a test case.

The Department cannot comment any further as the legal issues are now subjudice.

Health Promotion

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much was spent on the *(a)* promotion of health and *(b)* prevention of illness in Northern Ireland in each of the last 10 years. [187433]

Angela Smith: Work to promote health and prevent illness is carried out by Health and Social Services Trusts and also by other organisations such as the Health Promotion Agency, voluntary organisations and general practice. Table 1 shows Trust total expenditure for health promotion and prevention of disease, and Table 2 indicates the budget for other services. These figures are not available separately for health promotion and disease prevention and are provided from the earliest available dates.

Table 1: Trust expenditure on health promotion and disease prevention services in Northern Ireland

Year ended March	*£ million*
1996	22.5
1997	24.6
1998	23.7
1999	25.0
2000	25.6
2001	27.7
2002	28.6
2003	33.2

Table 2: Budget for other health promotion and disease prevention services in Northern Ireland

Year ended March	£ million
2000	3.0
2001	7.3
2002	13.3
2003	18.0
2004	21.8

Note
The funding for other services includes funds for the implementation of the Drugs and Alcohol Strategy, an element of which may also be included within Trust expenditure.

HIV/AIDS

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many newly diagnosed cases of HIV there have been in the province since 1 January. [187455]

Angela Smith: Provisional figures indicate there were 20 new HIV cases in Northern Ireland between 1 January and 30 June 2004.

Mental Health

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) if he will make a statement on progress in implementing the Mental Health Strategy Action Plan; [183026]

(2) if he will make a statement on progress towards reducing the proportion of individuals susceptible to psychiatric disorders; [183017]

Angela Smith: The Promoting Mental Health Strategy and Action Plan was issued in January 2003. An Implementation Group has been established to oversee implementation of the Strategy. A range of preventative measures are being taken under the strategy including raising awareness and understanding of mental health issues, promoting coping skills, suicide awareness and outreach work with young people in areas of need. Action towards achieving the target to reduce the proportion of people with a potential psychiatric disorder is ongoing and progress will be measured through Health and Well-being Surveys.

Motorsport

Lady Hermon: To ask the Secretary of State for Northern Ireland what funding has been made available for the development of motorsports in Northern Ireland in each of the past five years. [178520]

Angela Smith: The total amount of public funding i.e. exchequer and lottery, made available for the development of motorsports in Northern Ireland in each of the past five years by the Sports Council for Northern Ireland is as follows:

Public funds[1]

	£
1999–2000	87,400
2000–01	66,461
2001–02	56,600
2002–03	144,924
2003–04	44,685
Total	400,070

[1] Includes Sports Council exchequer, Sports Council lottery.

Sports Council for Northern Ireland exchequer funding allocated to the 2 and 4 Wheel Motorsport Steering Group

	£
1999–2000	0
2000–01	0
2001–02	0
2002–03	15,000
2003–04	200,000
Total	215,000

In addition to this, both the Northern Ireland Events Company and the Northern Ireland Tourist Board have provided funding in each of the past five years, which has been used to assist with its development. The amounts made available are as follows:

Public funds allocated by the Northern Ireland Events Company

	£
1999–2000	0
2000–01	0
2001–02	75,000
2002–03	104,679
2003–04	374,500
Total	554,179

MRI Scanners

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment has been made of the implications of using mobile scanning facilities to increase the number of MRI scans conducted in the Province. [187437]

Angela Smith: Mobile scanners have been used by some HSS Trusts as a temporary measure to enhance provision while new MRI scanners, funded by the New Opportunities Fund at a cost of £6.4 million, are installed at the Ulster, Antrim, Craigavon and Belfast City Hospitals. Using mobile scanners has been found to be an effective way to alleviate waiting times for patients alongside the introduction of additional evening scanning sessions at some hospital sites.

MRSA

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland whether a voluntary reporting system by hospitals in Northern Ireland of MRSA cases is in place. [184777]

Angela Smith: In April 2002 the Department of Health, Social Services and Public Safety made it a mandatory requirement for acute Trusts to report MRSA bacteraemia rates. The data is collected, collated and analysed by the Communicable Disease Surveillance Centre, Northern Ireland (CDSC) and statistical reports for the first two years of operation are available from its website www.cdscni.org. A copy of this report has been placed in the House Library.

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland whether hospitals in Northern Ireland are required to destroy bed linen of MRSA sufferers after use; and if he will make a statement. [184789]

Angela Smith: The UK-wide MRSA Control Guidelines for hospitals do not require bed linen to be destroyed. It should be bagged according to the hospital laundry policy and machine washed on a hot wash setting.

National Institute for Clinical Excellence

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what discussions have been held with representatives of the National Institute for Clinical Excellence regarding implementing NICE guidelines in Northern Ireland. [187436]

Angela Smith: Guidelines produced by the National Institute for Clinical Excellence (NICE) are only applicable to England and Wales. In line with a range of initiatives designed to improve the quality of health and social care services in Northern Ireland, I am at present considering how guidelines issued by NICE can best be used in the context of Northern Ireland's health and social services. Departmental officials have undertaken discussions with NICE in that regard.

Parades Commission

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many members of the Parades Commission were on duty on *(a)* 12 and *(b)* 13 July. [186023]

Mr. Pearson: All of the Parades Commissioners were available on 12 and 13 July 2004. In addition senior members of the Secretariat, authorised officers and monitors were deployed at a number of parades across Northern Ireland.

Physiotherapists

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many whole-time equivalent physiotherapists are working within the NHS in the Province. [187440]

Angela Smith: Physiotherapists as at 30 June 2004 are as follows:

Physiotherapists as at 30 June 2004 [1]

	Number
Headcount	790
Whole-time equivalent	653.63

[1] Bank staff who cover for staffing shortfalls and fluctuating workloads in order to maintain service delivery are not included in these figures.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of physiotherapists required in the Province over the next five years. [187441]

Angela Smith: A review of the physiotherapy workforce in May 2002 estimated that a 4 per cent. growth in the workforce, equivalent to 27 posts, would be required for service developments that have been agreed or are likely to be approved over the course of five years. In January 2004 an update of the original report indicated that the demand issues remained as identified. The position is being kept under review.

Plastic Baton Rounds

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what progress has been made in establishing an alternative to the plastic baton round for use in quelling civil disturbances in Northern Ireland. [186488]

Mr. Pearson: The report of the Independent Commission on Policing for Northern Ireland recommended that "an immediate and substantial investment should be made in a research programme to find an acceptable, effective and less potentially lethal alternative to the Plastic Baton Round".

In response, a Northern Ireland Office led steering group was set up. The fourth report of the steering group, published on 29 January this year, concluded that there was no commercially available product that met these criteria and that the focus should be on the development of two distinct new projectiles: the Attenuating Energy Projectile (AEP) and the Discriminating Irritant Projectile (DIP). Detailed research has concluded that both of these rounds represent a less potentially lethal alternative.

The Government remains committed to developing an effective, less potentially lethal alternative and, as announced, it is hoped that the AEP will be ready for operational deployment before summer 2005. The Government are also committed to equipping the PSNI with a broader range of public order equipment that might reduce the need to resort to the use of this new projectile.

The ACPO guidance on the use of baton rounds published on 8 December 2003 makes clear that baton rounds should only be used in a public order situation where other policing methods to restore or sustain public order have failed or must be unlikely to succeed, and where the use of the round is judged necessary to reduce a serious risk of loss of life or serious injury. It also states that baton rounds are designed to provide a less lethal option in dealing with threats of serious violence and provide an effective means by which individuals armed with petrol bombs or other weapons can be kept at a distance, contained or dispersed.

Racism

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many people have moved house under the Special Purchase of Evacuated Dwellings Scheme in Northern Ireland where their move was due to racist intimidation in each year since 1997. [187412]

Mr. Spellar: The information requested is not readily available. However I will write to the hon. Gentleman when the figures have been compiled.

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many people have been allocated emergency homeless status by the Housing Executive in Northern Ireland because of racist intimidation in each year since 1997. [187413]

Mr. Spellar: The information requested is not available prior to the 2001–02 year as the Housing Executive only began recording ethnic information from that time. For the last four financial years the information, including Irish Travellers, is as follows:

	Number
2001–02	3
2002–03	14
2003–04	14
2004–05 (To 24 August 2004)	5

Royal Victoria Hospital, Belfast

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on staffing levels in the genito-urinary medicine department at the Royal Victoria Hospital, Belfast. [187435]

Angela Smith: In recognition of the future need in genito-urinary medicine specialist registrars have been recruited in each of the last three years.

A report on "Sexually Transmitted Infections and Genito-urinary Medicine Services", produced by a sub-group of the Regional Advisory Committee on Communicable Disease Control, recommended a complement of five consultants against the current complement of 3.2 whole-time equivalent. The number presently in training stands at four, which is considered sufficient to meet that projected need.

School Fruit

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland, pursuant to the answer of 20 January 2004, *Official Report*, column 1161W, on school fruit, whether the fresh fruit in schools scheme will be extended. [187438]

Angela Smith: The Department has secured funding to enable this pilot scheme to continue in 2004–05, and for the scheme to be extended within the Health Action Zone areas to enable some new ideas to be tested this year. A final evaluation of the pilot scheme will take place in 2004–05. The outcome of this, together with work being taken forward by Fit Futures, the Taskforce on Obesity in Children and Young People and the development of a new Food and Nutrition Strategy, will help inform future decisions about the scheme.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many children in the Province received free fruit at school in 2003–04. [187432]

Angela Smith: A pilot Fresh Fruit in Schools Scheme was launched in Northern Ireland in October 2002. In the academic year September 2003 to June 2004 it provided a free piece of fruit daily to 5,239 primary 1 and 2 children in 87 primary schools within Health Action Zone areas.

Secondary Education

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the level of support in the Province for academic selection in post-primary education. [187454]

Mr. Gardiner: The responses to the consultation on the recommendations of the Burns Report showed a diversity of views on the issue of academic selection. Of the 16 per cent. of the population who responded to the household response forms, 64 per cent. were opposed to the abolition of academic selection, as were 37 per cent. of the schools that responded, the Governing Bodies Association, the Institute of Directors, Ulster Unionist Party and Democratic Unionist Party and the Secondary Heads Association. Those in favour of abolishing academic selection included 36 per cent. of the respondents to the household response forms, 73% of the schools that responded, the five education and library boards, the Council for Catholic Maintained Schools, the Social Democratic and Labour Party, Sinn Fein, the Progressive Unionist Party, the Women's Coalition, the Workers Party, the Northern Ireland Human Rights Commission and the five main teachers' unions. There was conditional support for ending academic selection from the Northern Catholic Bishops, the Northern Ireland Council for the Curriculum, Examinations and Assessment, the Confederation of British Industry, and the Catholic Heads Association.

The Costello Working Group took account of all the consultation responses and the Government have accepted that Group's recommendations that it is educationally unsound to select pupils and commit them to particular pathways at age 11 and also unsound to believe that the more able should follow only academic courses.

Full details of the responses to the consultation are available on the Department of Education website: http://www.deni.gov.uk/pprb/response_to_consultation.htm

Smoking

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of people who have stopped smoking in Northern Ireland in each of the last five years. [187446]

Angela Smith: Information on the number of people who have stopped smoking is not available for each of the last five years. However, an indication on the number of people who have stopped smoking in Northern Ireland is available from the Continuous Household Survey (CHS), which biennially includes questions about smoking. Estimates of the number of people who have stopped smoking in Northern Ireland are as follows:

	Estimate of number of people (aged 16 +) who stopped smoking
1996–97	16,500
1998–99	22,000
2000–01	24,000
2002–03	25,000

Notes:
1. The figures have been calculated using the percentage of respondents to the survey who stated that they had stopped smoking in the previous year. These percentages have been applied to the mid-year estimate population numbers to produce an estimated figure for the number of people in Northern Ireland who stopped smoking in the previous year.
2. Figures are rounded to the nearest 500.

Source:
Continuous Household Survey.

Spending Review

Mr. Dodds: To ask the Secretary of State for Northern Ireland what assessment he has made of the impact on civil service jobs in Northern Ireland of the Chancellor's statement on the 2004 Spending Review. [186049]

Mr. Pearson: I would refer the hon. Gentleman to the reply I gave the hon. Member for North Down on 20 July 2004, *Official Report*, columns 196–97W.

Sports Funding

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much Government funding has been allocated in Northern Ireland in each financial year since 2000 to *(a)* rugby, *(b)* hockey, *(c)* cricket and *(d)* Gaelic games. [186050]

Angela Smith: The following table provides details of Exchequer funding and Peace II funding provided by DCAL, DARD, DETI and DFP to rugby, hockey, cricket and Gaelic games for each financial year from 2000.

£

	2000–01	*2001–02*	*2002–03*	*2003–04*
(a) Rugby[1]	152,843	157,551	92,536	127,723
(b) Hockey	27,464	61,225	54,902	43,036
(c) Cricket	20,000	22,000	26,330	59,179
(d) Gaelic games[1,2]	652,085	381,333	557,676	134,793
(e) Numerous sports[3]	—	—	—	58,434

[1] The figures shown for rugby and Gaelic games include funding allocated via the Safe Sports Ground Programme.

[2] Gaelic games includes Gaelic football, hurling and other Gaelic Athletic Association Games.

[3] DFP has also provided Peace II funding to projects including more than one of the listed sports and these are listed separately in the last row under "numerous sports".

Travel Costs

Dr. Cable: To ask the Secretary of State for Northern Ireland what the travel costs were of civil servants in *(a)* his Department and *(b)* its related agencies in each year since 1997. [183901]

Mr. Pearson: One Northern Ireland Department is unable to provide information prior to 2000–01 as the information could be obtained only at disproportionate cost. The available figures show travel costs for *(a)* Northern Ireland Departments and the Northern Ireland Office and *(b)* for related agencies for each year since 1997 as:

£

	Department	*Agencies*	*Total*
1997–98[1]	6,993,705	8,737,673	15,731,378
1998–99[1]	7,426,431	8,814,552	16,240,983
1999–2000[1]	7,819,038	8,950,484	16,769,522

2003–04	10,484,387	10,659,851	21,144,238

[1] Excludes Department of Finance and Personnel.

Please note that the accounting system changes from a cash to resource basis in 2000–01.

Young People (Special Needs)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans there are to improve *(a)* respite and *(b)* social activity provision for young people with special needs in (i) Larne, Carrick, Newtownabbey and Ballyclare and (ii) the rest of the Northern Board area. [187449]

Angela Smith: Homefirst Trust has established a team to manage the transition of young people to adult services using a community development approach to day care support services, which also includes social activities. Supported employment services for school leavers have been developed in Ballymoney, Antrim, Ballymena and Cookstown.

Funding has been secured from the Big Lottery to appoint a Project Worker to develop mainstream social activities for children and young people with disabilities in leisure centres in Larne, Carrickfergus, Newtownabbey and Ballyclare. An evaluation of this project will inform future planning priorities.

The Board is in the process of developing a family support strategy, which includes children with disabilities and their families. A wide-ranging consultation with parents, children and service providers has been completed. The strategy will identify gaps and shortfalls in services and will inform future planning priorities.

Written Answers to Questions

Thursday 9 September 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Waste Management

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what the latest figures are for the amount of compostable material disposed of each year in England; how much is reclaimed and recycled as compost; and what plans she has to increase this figure. [187547]

Mr. Morley: The Municipal Waste Management Survey of local authorities in England for 2002 03, shows that 14.28m tonnes of biodegradable municipal waste was disposed of to landfill, and 1.2m tonnes composted. In addition 1.1m tonnes of paper and card were recycled. As yet there is no method of measuring the amount recycled through home composting.

From the Environment Agency's National Waste Production Survey of a sample of 40,000 businesses, conducted in 1998, it is estimated that 2.78m tonnes of biodegradable industrial and commercial waste was disposed of to landfill, 0.85m tonnes composted and a further 4.75m tonnes of paper and card recycled.

The Government are taking a number of steps to increase the amount of biowaste composted. For example, we have established the Waste Implementation Programme (WIP), to support local authorities in achieving the UK's Landfill Directive targets to divert biodegradable municipal waste from landfill. The Government have also established the Waste and Resources Action Programme (WRAP) to create stable and efficient markets for recyclates, including organic material. WRAP is also running a home composting programme and has already organised distribution of over 60,000 composting bins to households in England. In addition Defra, through the Environmental Action Fund (EAF), has provided the Composting Association with £282,000 over three years to raise awareness of composting.

These and other measures have seen the proportion of municipal biowaste composted rise to 32 per cent. of all municipal waste recycling in England in 2002 03.

Mr. Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps she has taken to improve the United Kingdom's recycling performance. [186939]

Mr. Morley: Waste is a devolved issue. The Government have taken numerous steps to increase recycling in England. For example, national household waste recycling targets have been set, supported by statutory recycling and composting targets with an increase in funding for local government waste activities for each local authority. Government have also established the Waste and Resources Action Programme (WRAP) to create stable and efficient markets for recycled materials across the UK.

This specific action on recycling is supported by steps to move municipal waste management up the waste hierarchy. For example, in England, a Landfill Allowances Trading Scheme for local authorities is being developed and the Waste Implementation Programme (WIP) has been established, to support authorities in achieving the UK's Landfill Directive targets to divert biodegradable municipal waste from landfill. In addition, the Government have committed to increasing the UK Landfill Tax rate to £35 per tonne of active waste in the medium term.

As a result of these and other actions the proportion of municipal waste being recycled in England has increased to 15.6 per cent. in 2002 03 and we expect to meet our 2003 04 national household waste recycling target of 17 per cent.

Steps taken to increase recycling of non-municipal waste include amending the Producer Responsibility Obligations (Packaging Waste) Regulations 1997: new UK targets were set last year to raise overall recovery by obligated companies from 59 per cent. in 2003 to 63 per cent. this year and 70 per cent. by 2008, with the percentage to be achieved through recycling rising to 95 per cent. in 2007 08. We will also be announcing shortly a package, funded by Landfill Tax escalator receipts, from business more resource efficient, to help business in England become more resource efficient.

Energy Efficiency Implementation Plan

Mr. Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the Energy Efficiency Implementation Plan. [185904]

Mr. Morley: "Energy Efficiency: The Government's Plan for Action" was published on 26 April 2004. The Government estimate that the measures in the Plan will save over 12 million tonnes of carbon by 2010, saving consumers over £3 billion annually. Key measures in the energy efficiency plan include:

A new aim to save 4.2 million tonnes of carbon from households by 2010,

Double the level of Energy Efficiency Commitment (EEC) activity from 2005 to 2011, subject to a review in 2007,

New fiscal measures announced in Budget 2004, including a tax allowance to encourage domestic landlords to invest in their properties,

New energy services pilots, through which energy suppliers can offer innovative energy efficiency packages to customers,

Information, advice and support through the work of the Energy Saving and Carbon Trusts,

Incentives to improve efficiency in industry including revised targets and extension of the scope of the Climate Change Agreements, together with the forthcoming EU emissions trading scheme,

Committed leadership by Government including a new commitment by central government to use only the best energy performance buildings. More emphasis on communicating with people about climate change.

Flooding (Insurance)

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* homes and *(b)* farm holdings have been unable to obtain insurance policies against flood damage in the last year for which statistics are available; and if she will make a statement. [186685]

Mr. Morley: Firm statistics will not be available from the Association of British Insurers (ABI) until later this year.

Initial indications from the ABI are that insurers are maintaining cover for homeowners in high flood risk areas in all but a handful of cases.

The ABI are not aware of any instances where renewal has been refused on farm holdings. Farm buildings in general do not tend to have flood insurance due to the nature of their construction and lack of foundations.

GM Crops

Joan Ruddock: To ask the Secretary of State for Environment, Food and Rural Affairs what thresholds for GM contamination of non-GM seeds the Government intends to support within the EU. [187620]

Mr. Morley: We are awaiting revised proposals from the EU Commission on labelling thresholds for approved GM seeds in non GM seeds. The UK Government position on the proposals will be based on scientific advice, the practicability of the measures that would need to be applied to ensure that we could enforce the regulations, and recognition that any thresholds set for seeds must be achievable by seed producers.

Flood Defences (Efficiency Savings)

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs whether changes to flood defence provision will be made to achieve efficiency savings as announced in the Spending Review, broken down by financial year. [185892]

Mr. Morley: The Environment Agency has agreed to deliver efficiencies in its flood defence activities of £15 million for each of the financial years covered by the 2004 Spending Review (2005–06 to 2007–08). These efficiencies will be achieved through better procurement practices, greater use of new technology and a reduction in the process costs of delivering the capital programme. These savings will offset the effects of inflation and increases in construction costs currently estimated at 4 per cent. per annum.

Warm Front

Ms. Drown: To ask the Secretary of State for Environment, Food and Rural Affairs if she will change the Warm Front scheme by *(a)* not time-limiting a second application where it is for heating which had not previously been claimed for and *(b)* allowing old and inefficient boilers to be replaced before they break down. [186062]

Mr. Morley: The Department is currently developing a Fuel Poverty Implementation Plan which will consider options for better targeting and will review the eligibility criteria and effectiveness of current measures offered under Warm Front.

In response to the recommendations of the Public Accounts Committee and the National Audit Office we have introduced a pilot to establish how best households with intermittently and ineffective working boilers can be assisted by the scheme. The results of this pilot will be assessed later in the year.

Watervoice (Exeter Office)

Ms Atherton: To ask the Secretary of State for Environment, Food and Rural Affairs what criteria were used in making the decision to close the Exeter office of Watervoice; and what process was followed. [185771]

Mr. Morley: The original decision to close the Exeter office was based on a recommendation made by PricewaterhouseCoopers (PwC) in its report on the organisation and regional structure of the Consumer Council for Water. PwC recommended that the offices in Exeter and Bristol currently serving the south west and Wessex regions should be merged into one office and located either in one of the existing offices or at a new site in Taunton.

However, we have since given very careful consideration to a number of representations received and reviewed the decision to close or relocate regional offices. We concluded that against the background of the representations and the current periodic review of water prices, the benefits for water customers in maintaining the existing regional system of consumer representation outweighs the benefits of rationalisation at this time.

We now intend to leave it to the new CCW to consider PwC's recommendations and to decide, in the light of future circumstances what changes, if any, it wishes to make to its regional structure.

TRANSPORT

Mobile Telephones

Mr. Oaten: To ask the Secretary of State for Transport (1) what discussions he has had with *(a)* mobile telephone manufacturers and *(b)* car manufacturers on the safety of mobile phones in cars; [186393]

(2) what research his Department has carried out into technical solutions for blocking the use of hand-held mobile phones in cars. [186394]

Mr. Jamieson: Representatives of mobile phone and bar manufacturers have been involved in discussions with the Department for Transport on a new European Directive that will replace the current Directive 95/54/EC on electromagnetic compatibility. This requires cars to have a minimum level of immunity to interference such that electronic devices, including mobile phones, do not cause malfunctions of the vehicle's electronics.

The Department has not carried out any research into technical solutions for blocking the use of hand-held mobile phones in cars. A driver can use a hand-held phone when he is not driving and a passenger can use a mobile phone at any time and for emergencies.

Aircraft (Medical Equipment)

Mr. Ruffley: To ask the Secretary of State for Transport if he will make a statement on measures to improve the provision of emergency medical equipment on all UK aircraft. [187177]

Mr. McNulty: UK Airlines carry first aid and emergency medical kits in accordance with common requirements established by the Joint Aviation Authorities (JAA). The content of these kits is being reviewed following a proposal from the European Civil Aviation Conference for considering several improvements to the kits but granting some flexibility to meet an operator's route specifications. The UK supports these changes and will implement them once they have been adopted by the JAA following public consultation.

Cross-Channel Rail Subsidies

Mr. Yeo: To ask the Secretary of State for Transport what subsidies are paid to *(a)* Eurostar and *(b)* the Channel Tunnel Rail Link for the provision of their services; and where such subsidies are spent. [186765]

Mr. Darling: Information requested is as follows:

(a) No subsidies are paid to Eurostar.

(b) Government are providing grant support for the Channel Tunnel Rail Link project which is estimated to total £2.0 billion in present value terms (discounted at 6 per cent. real to January 1997) to support the costs of construction of the link and the provision of capacity for domestic services. This figure does not include possible amounts which may be provided by way of loan support or recovered in respect of land rentals and proceeds from property developments.

Disabled Parking

Mr. Colman: To ask the Secretary of State for Transport if he will make a statement on the Blue Badge parking scheme entitlement for those diagnosed with myasthenia gravis. [187754]

Mr. McNulty: The Blue Badge Scheme is designed primarily to assist people with severe difficulty in walking, whatever the cause of their disability. People who are registered blind also qualify under the Scheme. Drivers with a severe disability affecting both arms may also be eligible. Local authorities, which are responsible for administering the Scheme, will decide on an individual's eligibility on the basis of these criteria. People with myasthenia gravis will be eligible for a badge if they meet the criteria.

Office Furniture

Mr. Damian Green: To ask the Secretary of State for Transport how much his Department spent in the last year for which figures are available on office furniture. [186404]

Mr. McNulty: The Department spent £1,506,715 on furniture during 2003–04 financial year.

This expenditure included:

Fitting out the Department's new HQ building—Southside in Victoria Street London;

and providing furniture for:

the pilot introduction of Flexible Working;

responses to requests under 'Children Under 6 and DDA legislation;

replacing furniture in other offices which has exceeded it's design life (over 10 years old) and is causing H and S issues.

Post Office

Mr. Boris Johnson: To ask the Secretary of State for Transport what assessment he has made of the likely effects of the closure of sub post offices at Newtown and Northfield End on the *(a)* flow and *(b)* volume of traffic passing through Henley. [187504]

Mr. McNulty: None. The closure of sub post offices is in operational matter for Post Office Ltd. In terms of traffic flow and volume the local highway authority, in this case Oxfordshire County Council, will be required to take account of the impact on accessibility to public services, including post offices, during the preparation of their Local Transport Plan.

Public Transport (Pensioner Access)

Sandra Gidley: To ask the Secretary of State for Transport what measures he has taken to improve access to public transport for pensioners. [186461]

Mr. McNulty: We have significantly improved the concessionary fares scheme for older and disabled people who are now entitled to at least half-fare travel on local buses. We have also introduced a half-fare for people aged 60 and over on many long-distance scheduled coach services.

Given the close correlation between disability and age, the regulations we have introduced to require new trains, buses and coaches to provide a range of features to improve access are also benefiting many older people. During the last three years over 1,400 new fully accessible rail vehicles have entered service and there will be over 1,000 more within the next year. Around 29 per cent. of buses seating over 22 passengers are already accessible, and in major cities the proportion is much higher.

Rail Services

John Thurso: To ask the Secretary of State for Transport what timetables are in place following publication of The Future of Transport for *(a)* the start of construction and *(b)* completion dates of (i) Thameslink 2000, (ii) East London Line Extension and (iii) Crossrail. [187539]

Mr. McNulty: The timing of Thameslink 2000 depends on whether and when the necessary Transport and Works Act and associated powers are secured. Network Rail submitted revised applications in June 2004 which are likely to be considered by a public inquiry next year.

Responsibility for the East London line extension project is transferring to Transport for London and its timing will be a matter for the Mayor.

The Secretary of State announced to Parliament on 20 July 2004 that he intended that appropriate powers for the construction of Crossrail should be sought by means of a hybrid Bill to be introduced in Parliament at the earliest opportunity. Previous experience, with the Channel Tunnel Rail Link Bill, suggests that the Bill might take around two years to complete its passage. Construction could only start after this date.

Transport Projects

Mr. Wiggin: To ask the Secretary of State for Transport how many transport-related projects on the *(a)* railways and *(b)* roads are running (i) on schedule and (ii) behind schedule. [186801]

Mr. McNulty: There are nine major programmes of enhancement work currently contracted on the railways, each comprising many individual projects. Of these, eight are on schedule in line with the agreed works programme, and one is behind schedule.

There are 16 major new road schemes currently contracted on the Strategic Road Network. 13 are on schedule to complete in line with the programme planned at Works Commitment stage, three schemes are behind schedule, one by several months and two by no more than six weeks.

There are 27 major road and road maintenance schemes which are currently fully accepted within the local transport programme. Of these, 13 are on schedule to complete in line with the timetable planned at full acceptance stage. 14 schemes are behind schedule, some only marginally.

Transport Funding

John Thurso: To ask the Secretary of State for Transport how planned funding in the Government's transport strategy The Future of Transport will be allocated between transport modes. [187538]

Mr. McNulty: Because of the timing of the Olympic bid the Secretary of State announced a funding settlement for the GLA transport grant through to 2009–10 in his statement to the House of Commons on 20 July.

Year	*£million*
2005–06	2,161
2006–07	2,383
2007–08	2,544
2008–09	2,528
2009–10	2,651

It is up to the Mayor to decide how to allocate the GLA Transport Grant between different modes. Other decisions relating to the 2004 Spending Review Settlement will be taken in due course.

HOUSE OF COMMONS COMMISSION

Retirement Age

Mr. Andrew Turner: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what the *(a)* set retirement age applying to all or most personnel and *(b)* maximum age beyond which applications for employment will not be considered is for each department of the House. [186374]

Sir Archy Kirkwood: General conditions of service are House-wide rather than on a departmental basis. House of Commons staff normally work until the age of 65, which is currently the maximum retirement age. They may, however, retire at any time between 60 and 65 if they wish. Applications for most posts are accepted up to the age of 65 with the exception of casual appointments, where applicants may be appointed over the age of 65. House policy will be reviewed in the light of the age discrimination regulations, which we understand will come into effect in October 2006.

September Sittings

Mr. Key: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission, what estimate the Commission has made of the marginal cost of recalling the House this September, and if he will make a statement. [186359]

Sir Archy Kirkwood: The daily costs of sitting days in September are similar to those of sitting days at other times of year. Such costs include staff overtime, telecommunications and postal costs, together with infrastructure costs such as heating.

As a result of having a shorter summer recess than in some previous years, some additional costs may arise from the need to interrupt some elements of the summer works programme. However, as the September sitting was taken into account when the programme was planned, the additional costs are relatively modest, estimated at around £88,000 against a total works programme spend of £19 million.

Serjeant at Arms

Mr. Ben Chapman: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission if he will make a statement on the methodology involved in the appointment of a new Sergeant at Arms. [187403]

Sir Archy Kirkwood: The Serjeant at Arms is a Crown appointment, made on the recommendation of the Speaker. Following the announcement that the current Serjeant at Arms, Sir Michael Cummins, would shortly retire, the Speaker decided that the post should be advertised both internally and externally, in the national press. A recruitment board was set up under the chairmanship of the Clerk of the House. It included an external member, drawn from the Office of the Commissioner for Public Appointments' central list of independent assessors, and the hon. Member for North East Hertfordshire (Mr. Heald) as a representative of the Commission. The board agreed a long list of candidates for preliminary interviews by external recruitment consultants and, subsequently, a short list for final interviews, conducted by the board. As a result

of this process, the Speaker recommended the appointment of Major General Anthony Peter Grant Peterkin, CB, OBE. His appointment was announced to the House on 20 July and he will take over from Sir Michael on 1 January 2005.

TRADE AND INDUSTRY

Amyl Nitrate

Mr. Edwards: To ask the Secretary of State for Trade and Industry what measures she proposes to take against shops illegally selling amyl nitrate in the form of poppers, with particular reference to the products *(a)* Pure Gold, *(b)* Liquid Gold and *(c)* TNT. [178805]

Mr. Sutcliffe: I have nothing further to add to the answer given by my hon. Friend the Parliamentary Under-Secretary of State at the Home Office on 22 July 2004, *Official Report*, column 573W.

Credit Card Fraud

Mr. Bellingham: To ask the Secretary of State for Trade and Industry if she will make a statement on the current levels of consumer credit card fraud; and what steps her Department is taking to tackle it. [186354]

Ms Blears: I have been asked to reply

The Government do not collect figures on the cost of credit card fraud but the Association for Payment Clearing Services (APACS) estimates the cost of plastic card fraud on UK-issued cards in 2003 to have been £402.4 million, a decrease of five per cent. over the previous year.

The Home Office provided £1.4 million over two years (towards a total cost of £5.6 million) to fund, jointly with the banking industry, a specialist police unit, the Dedicated Cheque and Plastic Crime Unit (DCPCU). The pilot, which ran from April 2002 to April 2004, was successful in detecting or preventing significant fraud on the banks and card issuers. The Unit is continuing with full financial support from the industry. The Home Office continues to chair the Steering Group.

We are also providing significant extra resources for fraud policing more generally. The Home Office and the Corporation of London have each agreed to contribute £1 million towards the cost of an expanded City of London Police fraud squad. The Home Office has also met capital start up costs of the new unit. This funding will enable the City of London Police to expand its fraud squad significantly and take a lead role in the investigation of fraud in London and the south east, including providing police resources for the majority of Serious Fraud Office cases.

A great deal of fraud can be prevented if organisations have proper fraud prevention measures in place. Prevention initiatives therefore complement fraud investigation and prosecution.

We have encouraged the financial and retail sectors to work towards early implementation of more secure systems to combat fraud, including the introduction of microchips into payment cards to help authentication, and the use of PIN codes in place of signatures.

The Home Office has launched a website to combat internet fraud. The "e-tailing mini site" (part of the Crime Reduction Website) provides information to help both businesses and consumers protect themselves when using the internet.

We have also recently published, jointly with the Association of Payment Clearing Services (APACS), a leaflet for members of the public about safe credit card use. Supplies of the leaflet have been sent to all police forces and Crime and Disorder Reduction Partnerships in England and Wales.

Gay Discrimination

Keith Vaz: To ask the Secretary of State for Trade and Industry what plans she has to end insurance discrimination for gay men based solely on sexual orientation. [187135]

Ms Hewitt: The Government are aware of concerns about current imbalances in legislative provision for the different groups protected by discrimination legislation, which include gay men, and one of the first tasks of the proposed Commission for Equality and Human Rights will be to review the legislative framework to ensure that it meets the needs of a modern Britain.

The Government are committed to improving equality and human rights for all in our society. This underpins our vision of a modern, fairer and more prosperous Britain. The creation of the Commission for Equality and Human Rights will help create a more equal and cohesive society.

Equality Bodies

Peter Bottomley: To ask the Secretary of State for Trade and Industry what views she has received from publicly funded equality bodies on *(a)* the Government's proposal for a single equality body and *(b)* the proposals in the document Fairness for All. [187154]

Ms Hewitt: The Government are currently assessing the response of the three public funded equality bodies and all the responses they have received in detail and will publicly respond in due course. Government will be assisted in this task by their independent advisory Task Force, which discussed the consultation responses on 7 September.

The consultation following the release of Fairness for All officially closed on 6 August. Over 450 responses were received from a wide variety of stakeholders, interested groups and individuals, including those from the publicly funded equality bodies—the Commission for Racial Equality, the Disability Rights Commission and the Equal Opportunities Commission.

Shares (Tax Rules)

Mr. Bellingham: To ask the Secretary of State for Trade and Industry if she will make a statement on her assessment of the effect of new tax rules on shares held by academics set out in the Finance Act 2003 on the number of university spin-off companies being set up. [186332]

Mr. George Osborne: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact of schedule 22 of the Finance Act 2003 on university spin-out companies. [186452]

Ms Hewitt: The Government recognise the contribution that research-based entrepreneurial activity makes to this country and are committed to creating a clear fiscal environment that enables universities, public sector bodies and their researchers to grow companies based on their research.

Inland Revenue, DTI and Treasury officials have been engaged in constructive dialogue with university and public sector spin-out sector representatives to provide certainty around the tax treatment of university public sector employees who acquire such shares. This dialogue between officials and sector representatives has led to a joint Memorandum of Understanding regarding the tax treatment of one type of spin-out company shareholding structure and some companies are understood to have taken advantage of this model. Officials will continue negotiations with interested parties to ensure that an appropriate solution to the sector's difficulties is identified and ensure that there is no long-term adverse impact on spin-out activity.

DEPUTY PRIME MINISTER

Community Forum

Mr. Edward Davey: To ask the Deputy Prime Minister what the *(a)* total budget, *(b)* departmental funding and *(c)* total cost to his Department of the Community Forum (i) is for the financial year 2004–05 and (ii) is estimated for financial years 2005–06 to 2007–08. [187563]

Phil Hope: The total departmental budget for the Community Forum is £186,000.000 per year. This incorporates an annual budget of £150,000.00 and £36,000.00 for administrative support and management.

This amount has been allocated for 2004–05 and will be made available for 2005–06 to 2007–08.

Actual expenditure for financial year 2003–04 was £155,489.00. The estimated expenditure for 2004–05 will be £183,000.00.

Fly-posting

Harry Cohen: To ask the Deputy Prime Minister what effect his Department's good practice guide to fly-posting has had on the residents of Leyton and Wanstead. [187744]

Keith Hill: The Office of the Deputy Prime Minister's Good Practice Guide, "The Control of Fly-Posting", offers guidance to local planning authorities on how best to deal with the problem of fly-posting. No assessment has been made on the effect the guide has had on the residents of Leyton and Wanstead. This is a matter for Redbridge and Waltham Forest borough councils.

Suffolk Fire Authority

Mr. Ruffley: To ask the Deputy Prime Minister how much funding was made available for the Suffolk Fire Authority *(a)* in 2004–05 and *(b)* in each of the last nine years. [187204]

Mr. Raynsford: The Fire Service in Suffolk is the responsibility of Suffolk county council. Net current expenditure on the Fire Service, as reported by the authority, for the last 10 years is tabled as follows:

	Amount (£000)
1995–96	12,683
1996–97	13,667
1997–98	13,593
1998–99	14,634
1999–2000	15,022
2000–01	15,900
2001–02	16,533
2002–03	17,627
2003–04	17,829
2004–05	18,690

The data are taken from the RS (outturn) forms for all years except 2004–05 when the data are taken from the RA (budget) form. These forms are completed each year by individual local authorities.

TREASURY

Correspondence

Sir Gerald Kaufman: To ask the Chancellor of the Exchequer when he will reply to the letter to him dated 2 August from the right hon. Member for Manchester, Gorton with regard to Mr. H. Broadley. [187981]

John Healey: I did so on 3 September.

Green Landlord Scheme

Sue Doughty: To ask the Chancellor of the Exchequer what progress he has made towards the introduction of a green landlords scheme as announced in the Budget. [187384]

John Healey: The Chancellor announced in his last Budget the possible introduction of a "green landlord scheme" which would aim to incentivise landlords to invest to improve energy efficiency. The Government are considering the options available.

CULTURE, MEDIA AND SPORT

Departmental Employees

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many civil servants were employed by her Department and its related agencies in each year since 1997. [187276]

Mr. Caborn: The table shows the number of staff in post on 1 April of each year since 1997.

	DCMS	Royal Parks	Historic Royal Palaces Agency[1]	Total
1997	352	246	220	818
1998	365	231	n/a	596
1999	359	233	n/a	592
2000	407	220	n/a	627
2001	403	230	n/a	633
2002[2]	469	230	n/a	699
2003	488	230	n/a	718
2004	490	231	n/a	721

[1] Historic Royal Palaces ceased to be a DCMS Agency when it became a Royal Charter Body on 1 April 1998.

[2] Staff in post rose significantly in between 1 April 2001 and 1 April 2002 reflecting machinery of government changes after the last election, which saw a transfer of staff from Cabinet Office and Home Office.

Olympic Games

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many Government officials will attend the Athens Olympic Games. [183552]

Mr. Caborn *[holding answer 12 July 2004]:* The Secretary of State for Culture Media and Sport and myself attended the Olympic Games and both our Private Secretaries accompanied us on our visit. One press officer from DCMS was also present in Athens during the Olympics.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many Members of the Government will attend the Athens Olympic Games. [183553]

Mr. Caborn *[holding answer 12 July 2004]:* The Olympic Games in Athens was officially attended by four Members of Government—the Prime Minister, the First Minister for Scotland, the Secretary of State for Culture, Media and Sport and myself.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what class of hotel Ministers and officials will stay in while attending the Athens Olympic Games. [183554]

Mr. Caborn *[holding answer 12 July 2004]:* Ministers and officials stayed at the following accommodation in Athens:

The British embassy;

A four and three star hotel;

The campus of the British School of Archaeology.

All arrangements were made with the BOA, benefiting from their negotiated tariffs.

Tote

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport whether the Government are prepared to sell the Tote to a body other than the Racing Trust. [188287]

Mr. Caborn: It remains the Government's policy to sell the Tote to the Racing Trust. Only if it proves impossible to effect such a sale on fair terms will the Government pursue other options.

DEFENCE

Detainees (Transfer to United States)

Mr. Tyrie: To ask the Secretary of State for Defence what the locations are of the detainees captured by British forces in *(a)* Iraq and *(b)* Afghanistan and handed to the US. [183783]

Mr. Ingram: All persons apprehended by United Kingdom Forces in Iraq and transferred to United States forces, and who are still in custody, remain in Iraq.

The UK has not handed over to the US any persons apprehended in Afghanistan.

Human Rights Act

Mr. McNamara: To ask the Secretary of State for Defence what instructions he has issued to the Royal Military Police on the application to them of the Human Rights Act 1998 *(a)* in the United Kingdom and *(b)* abroad. [176324]

Mr. Ingram: Training provided to the Royal Military Police on the Human Rights Act relates directly to the exercise of their powers of arrest, search and seizure etc., as members of the service police. These powers, applicable only in relation to persons who are subject to the Service Disciplinary Acts, are exercisable wherever the RMP serve, whether at home or abroad.

During 2000, all RMP units received training on the implications of the Human Rights Act 1998, and changes in RMP arrest and custody procedures. Individuals joining the RMP since October 2000 have covered the same subject during their basic training, which includes relevant European Court of Justice (Strasbourg) Case Law.

Typhoon/Eurofighter

Miss McIntosh: To ask the Secretary of State for Defence when the Typhoon/Eurofighter will enter into service at RAF Leeming. [186621]

Mr. Ingram: The first two Typhoon bases will be RAF Coningsby and RAF Leuchars, the stations from which the Quick Reaction Alert (Interceptor) aircraft currently operate. No decision has been taken on a third Typhoon base.

HOME DEPARTMENT

Antisocial Behaviour Orders

Mr. Oaten: To ask the Secretary of State for the Home Department what information his Department collects on the number of section 30 authorisations and dispersal orders made under the Anti-social Behaviour Act 2003. [187221]

Ms Blears: The powers became operational in January 2004. We are undertaking a data capture exercise on use of the powers under section 30 of the Anti-social Behaviour Act 2003. The data will be available in the autumn.

Autistic People (Arrests)

Mr. Wiggin: To ask the Secretary of State for the Home Department what research he has commissioned regarding numbers of *(a)* arrests, *(b)* charges and *(c)* convictions of persons who are autistic or suffer from Asperger's Syndrome; and what guidelines he has issued to police forces regarding the questioning of autistic suspects. [186816]

Ms Blears: No research of this kind has been commissioned by my Department and the data collected on arrests, prosecutions and convictions do not distinguish persons with particular disabilities.

No specific guidance has been issued by the Home Office relating to persons with autism or Asperger's Syndrome. However, there are currently strands of work focused on improving police practice in relation to mentally ill individuals. These are outlined in the reply to the hon. Member's question on provisions in place to increase awareness in the Criminal Justice System of the behaviour patterns of people with communication related difficulties.

Community Support Officers

Mr. Rosindell: To ask the Secretary of State for the Home Department how much the community support officer scheme in Great Britain is expected to cost for the next five years; and what the expenditure was over the past five years. [186762]

Ms Blears: The new Neighbourhood Policing Fund has made £50 million available for recruitment of additional Community Support Officers (CSOs) in this financial year in England and Wales. This fund will allow forces to recruit an additional 20,000 CSOs by March 2008 and details of the funding which will be made available to achieve this will be published in time for the 2006–07 planning round. Government expenditure on CSOs since they were first introduced in September 2002 amounts to £49.5 million up to the end of July 2004.

Mr. Rosindell: To ask the Secretary of State for the Home Department how much the community support officer scheme in London is expected to cost the Government over the next five years; and what the expenditure was on the scheme in the last five years. [186764]

Ms Blears: The new Neighbourhood Policing Fund has made £50 million available for recruitment of additional Community Support Officers (CSOs) in this financial year and all chief officers in England and Wales have been invited to bid for a share of this. This fund will allow forces to recruit 20,000 more CSOs by March 2008 and details of the funding which will be made available to achieve this will be published in time for the 2006–07 planning round.

Government funding for CSOs in the Metropolitan police district amounts to approximately £23.5 million since CSOs were first introduced in September 2002.

Mr. Rosindell: To ask the Secretary of State for the Home Department how much training is required for community support officers; and what the training involves. [186769]

Ms Blears: The length and scope of training for Community Support Officers (CSOs) is decided by individual chief officers. In most forces training lasts from four to six weeks and may include the use of powers, diversity, information gathering, first aid and tackling antisocial behaviour.

Mr. Rosindell: To ask the Secretary of State for the Home Department how much it costs on average to train a new community support officer. [186906]

Ms Blears: There is no standard cost of training new Community Support Officers (CSOs) as this varies between forces. The £50 million made available this year to fund new CSOs under the Neighbourhood Policing Fund includes £2,500 per CSO as a contribution to set up costs including training.

Mr. Rosindell: To ask the Secretary of State for the Home Department what remuneration is given to community support officers. [186908]

Ms Blears: Remuneration of community support officers (CSOs) is a matter for individual forces to decide. The average amount paid to CSOs in 2003–04, including basic salary and allowances, was £19,591.

Databases

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to the answer of 7 July 2004, *Official Report*, column 750W, on databases, if he will list the bulk information exchanges which have taken place in the last two years. [187337]

Caroline Flint: The Police Information Technology Information Organisation has not made any bulk exchanges with foreign Governments or agencies in the last two years. However, a list of lost/found vehicles from the Police National Computer is sent to Interpol in Lyon, France via the National Criminal Intelligence Service on a daily basis excluding weekends.

Departmental Costs

David Davis: To ask the Secretary of State for the Home Department what costs his Department has incurred on advertising and communication including contracts with public relations and advertising companies in each financial year since 1996–97. [180380]

Fiona Mactaggart *[holding answer 28 June 2004]*: The amount spent by the Home Office on communications including contracts was:

1996–97

£5.23 million on advertising and £8.328 million on total communications. Communication spend represents 0.13 per cent. of total Home Office public expenditure of £6,416 million.

Campaigns included car crime, recruitment of special constables, fire safety and electoral registration.

1997–98

£1.4 million on advertising and £3.372 million on total communications. Communication spend represents 0.05 per cent. of total Home Office public expenditure of £6,747 million.

Campaigns included recruitment of special constables, fire safety, absent voting and electoral registration.

1998–99

£1.8 million on advertising and £4.194 million on total communications. Communication spend represents 0.00005 per cent. of total Home Office public expenditure of £7,608,178 million.

Campaigns included smoke alarm, recruitment of special constables, crime partnerships and electoral registration.

1999–2000

£5.65 million on advertising and £10.08 million on total communications. Communication spend represents 0.000012 per cent. of total Home Office public expenditure of £7,996,184 million.

Campaigns included chip pan safety, fire safety, recruitment of special constables, European Parliament elections and electoral registration.

2000–01

£28.36 million on advertising and £35.637 million on total communications. Communication spend represents 0.00039 per cent. of total Home Office public expenditure of £9,068,695 million.

Campaigns included fire safety, vehicle crime and recruitment of police officers.

2001–02

£14.4 million on advertising and £25.1 million on total communications. Communication spend represents 0.00023 per cent. of total Home office public expenditure of £10,820,813 million.

Campaigns included fire safety (smoke alarms), vehicle crime, internet child protection, drugs, recruitment of police officers and special constables and postal voting.

2002–03

£9.9 million on advertising and £18.3 million on total communications. Communication spend represents 0.00013 per cent. of total Home Office public spending of £13,493,081 million.

Campaigns included vehicle crimes, internet child protection, drugs, firearms amnesty and recruitment of police officers.

2003–04

£12.487 million on advertising and £22.083 million on total communications. Communication spend represents 0.00017 per cent. of total Home Office public spending of £12,605,526 million.

Campaigns included vehicle crimes, internet child protection, drugs, recruitment of police officers and domestic violence.

Note:

The total public expenditure figures for 1996–97 and 1997–98 were compiled under a different accounting system to later years—and are therefore not directly comparable.

Departmental Vehicles

Mr. Kidney: To ask the Secretary of State for the Home Department how many road vehicles are operated by the Department and its agencies; how many personal injury accidents involving road vehicles operated by the Department have occurred within each of the last five years; and what the Department's policy is for managing work-related road safety. [185922]

Paul Goggins: There are currently 1,370 road vehicles operated by the Department and its agencies. The fleet listing by Department is as follows:

	Number
Prison Service	910
Forensic Science	84
Police	47
Immigration	287
Main HO	27
NASS	15

Information on personal injury claims lodged by staff in the Home Office and its agencies is not collated centrally, but is held by individual Departments/ agencies. However, the number of third-party personal injury claims against the Department within each of the last five years is as follows:

	Number
1999	7
2000	6
2001	5
2002	7
2003	4

To date in 2004 one third-party personal injury claim has been lodged against the Department.

Following changes in legislation in December 2003, the Department issued policy guidance on the use of hand held and hands free mobile telephones. The Home Office is reviewing the instructions and advice held in the Transport Manual to cover all aspects of the management of work-related road safety.

Until that work has been completed, general guidance derived from benchmark codes issued by the Royal Society for the Prevention of Accidents, the Highway Code and the fleet industry continues to be provided on request.

Distraction Burglary

Sandra Gidley: To ask the Secretary of State for the Home Department how many incidents of distraction burglary against adults over the age of 60 were reported in each year since 1997. [186615]

Ms Blears: With effect from 1 April 2003, distraction burglary became a sub-category of "burglary dwelling" under the Home Office counting rules. Prior to that, data on the number of distraction burglaries recorded by the police were not routinely collected. However, data were collected from ad hoc surveys undertaken in 1998–99 and 2001 to 2003, which were reported in the

reply I gave my hon. Friend the Member for the Vale of Clwyd (Chris Ruane) on 23 June 2004, *Official Report*, column 1415W.

We plan to publish the figures for 2003–04 in October this year. Data broken down by the age of victim are not available.

Drug-related Crime

Mr. Liddell-Grainger: To ask the Secretary of State for the Home Department what assessment he has made of the costs of drug-related crime in each year since 1997. [186555]

Caroline Flint: Estimates of the costs of drug-related crime are not available annually. However, a recent study published by the Home Office provides estimates of the total economic and social costs of Class A drug use and puts these in the range of £10.1 billion to £17.4 billion for the year 2000. These costs include the costs of drug-related crime, which are estimated to fall in the range £8.8 billion to £15.8 billion. The costs of drug-related crime include victim costs and those accruing to courts, prisons and other parts of the criminal justice system.

Firearms

Mr. Drew: To ask the Secretary of State for the Home Department what estimate he has made of the numbers of illegal *(a)* guns and *(b)* gun certificates that were used in legal ownership in each of the last 10 years. [185909]

Caroline Flint *[holding answer 22 July 2004]*: Details of the legal status of firearms used in recorded crimes, and the illegal use of firearm certificates, are not available.

Mr. Gummer: To ask the Secretary of State for the Home Department (1) how many *(a)* rifles and *(b)* shotguns that have never been legally held have been used in recorded crimes since January 2000; [186123]

(2) how many *(a)* rifles and *(b)* shotguns that were once legally held but which have been (i) stolen and (ii) mislaid have been used in recorded crime since January 2000; [186124]

(3) how many legally held *(a)* rifles and *(b)* shotguns have been used in recorded crimes since January 2000. [186125]

Caroline Flint: Details of the legal status of firearms used in recorded crimes are not available.

Football Banning Orders

Mr. Drew: To ask the Secretary of State for the Home Department (1) how many banning orders were issued as a result of Euro 2004; [183785]

(2) how many England supporters were *(a)* arrested, *(b)* arrested and charged and *(c)* arrested, charged and issued with banning orders with regard to Euro 2004; [183786]

(3) what the total cost was of the UK police operations for Euro 2004; and what costs have been covered by the Portuguese authorities. [183787]

Caroline Flint: As of 2 August 2004, the courts have imposed football banning orders on 38 individuals as a result of Euro 2004. Of these, 35 orders have been imposed as a result of individuals being intercepted by the police en-route to Portugal on the basis of evidence of previous involvement in violence or disorder, while three orders have been imposed on the basis of violence and disorder during the tournament. In addition, 48 individuals are currently subject to unresolved banning order proceedings as a result of being intercepted en-route to the tournament and eight individuals are subject to proceedings prompted by conviction of offences of violence and disorder in Portugal. The police may commence further proceedings in the light of evidence received from the Portuguese authorities. Updated information will be included in a detailed report on Euro 2004 to be submitted to Parliament in September.

Race Hate Crime

Mr. Woodward: To ask the Secretary of State for the Home Department how many reported incidents of race hate crimes there have been against *(a)* people with learning difficulties, *(b)* people with disabilities, *(c)* gays, lesbians and bisexuals and *(d)* transsexuals there have been in (i) St. Helens and (ii) England and Wales, broken down by region, in each year since 1997; and what percentage *(A)* were brought to court and *(B)* resulted in a successful prosecution in each case. [186909]

Ms Blears: This information is not collected centrally.

Police

Mr. Oaten: To ask the Secretary of State for the Home Department how much has been spent by the Metropolitan police on rental vehicles in each month since September 2003. [187063]

Ms Blears: I understand from the Commissioner of the Metropolitan police that expenditure has been as follows:

	£000
September 2003	668
October 2003	965
November 2003	798
December 2003	603
January 2004	890
February 2004	998
March 2004	1,143
April 2004	877
May 2004	697
June 2004	1,026
July 2004	1,108

The monthly figures include both local (for borough operational command units) and corporate hire (covering centrally hired vehicles for special events).

Mr. Swire: To ask the Secretary of State for the Home Department what additional funding he will make available to Devon and Cornwall police to *(a)* enforce the Government's Alcohol Strategy and *(b)* continue funding police community support officers. [183749]

Ms Blears: On 7 July 2004 the Home Office and the Association of Chief Police Officers (APCO) announced that police in England and Wales would be working with their partners in a fresh drive to tackle alcohol-related crime and disorder. The enforcement campaign takes forward one of the recommendations contained in the Alcohol Harm Reduction Strategy for England that was published on 15 March 2004. Plymouth and Cornwall and Isle of Scilly (Newquay) police Basic Command Units (BCUs) from the Devon and Cornwall police force are taking part in the campaign. BCUs can apply to the Police Standards Unit in the Home Office for funding to assist them in undertaking enforcement activity during the campaign. Provisionally £2,500 has been allocated to Devon and Cornwall police force to fund enforcement activity in Newquay.

As part of the Spending Review 2004 the Government made a commitment to recruit 20,000 Community Support Officers (CSOs) by 2008 and forces will be eligible for funding to help them meet this target. As yet it is too early to say how the additional funding for CSOs will be allocated. However, a new Neighbourhood Policing Fund will be provided to develop local policing teams across England and Wales.

Mr. Rosindell: To ask the Secretary of State for the Home Department what the cost was in 2003–04 of policing in *(a)* Havering and *(b)* London. [186910]

Ms Blears: The Metropolitan Police Service's (MRS) net budget requirement in 2003–04 was £2,207.8 million and the net budget for the City of London was £67.2 million. Distribution of resources within the MPS is a matter for the Commissioner of Police of the Metropolis and the Metropolitan Police Authority.

Resources are allocated directly to borough operational command units using the Service's resource allocation formula. In addition, borough units are able to call upon all-London Units (such as dog sections, Territorial Support Group, Traffic and Air Support Units) when operational priorities dictate.

The Commissioner of Police for the Metropolis informs me that the budget for the Havering Borough Operational Command Unit in 2003–04 was £17.3 million. This reflects direct operational costs. The cost of specialist units, non-operational support units and all-London units providing service to Havering was additional and could only be calculated at disproportionate cost.

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police officers were employed by Suffolk police in each year since 1 April 1997. [187189]

Ms Blears: On 31 May 2004 Suffolk constabulary had 1,293 police officers, 113 more than in March 1997. The table shows strength for each year since March 1997.

Suffolk constabulary—strength: March 1997 to May 2004

As at 31 March	*Police numbers*[1]
1997	1,180
1998	1,186
1999	1,190
2000	1,145
2001	1,133
2002	1,203
2003	1,253
2004 (31 May)	1,293

[1] Source for 1997 to March 2003 is the Home Office Research, Development and Statistics Directorate (RDS). May 2004 was collected separately outside of the normal data collection arrangements and has not been subject to the same validation as RDS data. Data collected by RDS for 31 March 2004 will be published shortly.

Mr. Ruffley: To ask the Secretary of State for the Home Department what central Government funding was available for CCTV in each of the last seven years for the Suffolk Police constabulary area. [187193]

Ms Blears: Since 2000 the Home Office has provided £960,936 to Suffolk for Close Circuit Television (CCTV) schemes, through the Crime reduction Programme's CCTV initiative.

This breaks down as:

CCTV Round 1 (2000–01—2002–03): £395,024

CCTV Round 2 (2001–02—2002–03): £605,912

Security Industry Authority

Mr. Willetts: To ask the Secretary of State for the Home Department (1) how his Department measures the performance of the Security Industry Authority; [187344]

(2) what has been the budget of the Security Industry Authority in each year since 2001; [187345]

(3) when the Security Industry Authority proposes to implement the regulation of wheel clampers. [187350]

Ms Blears: The Security Industry Authority (SIA) was established as a non-departmental public body on April 2003. Prior to this date the implementation unit formed part of the Home Office.

The SIA budget for 2003–04 was £15.5 million. The expenditure incurred totalled £12.9 million.

Full information is available in the SIA Annual Report and Accounts which is available in the House.

The SIA expenditure budget for 2004–05 is £26 million.

The Department has worked closely with the SIA throughout its development and a member of the sponsor department attends Board meetings. Annually the Minister agrees targets for the SIA, which are appropriate to the development stage reached. The targets for 2003–04 are included in their recently published Annual Report and Accounts together with a record of their significant achievements. The report and accounts are available from HMSO or can be viewed on the SIA website.

The overall SIA Aims are set out in their agreed managerial and financial framework:

Improving the performance, standards and opportunities of people working in the private security industry by introducing and achieving compliance within a licensing system.

Encouraging business in the industry to improve their standards by creating a framework for developing, promoting and spreading best practice.

Creating a centre of knowledge and expertise, which enables and encourages effective industry development and investment.

Strengthening the extended police family by encouraging and supporting further engagement of the private security industry.

Witness Protection

David Davis: To ask the Secretary of State for the Home Department (1) what the average number of police officers deployed on witness protection schemes was in the last year for which figures are available, broken down by police force; [184959]

(2) what police resources have been allocated to witness protection schemes in each of the last five years, broken down by police force. [184960]

Caroline Flint: This information is not currently available. The Home Office, in conjunction with the Scottish Executive, the Northern Ireland Office and the Association of Chief Police Officers, has appointed an independent consultant to carry out an assessment of witness protection arrangements nationally. The assessment is covering all cases where witness protection is afforded by UK law enforcement agencies including the police. It will provide us with valuable information about the numbers and circumstances in which witness protection is provided and the amount of police time allocated to it.

The assessment commenced on 2 January; it was announced in the White Paper "One Step Ahead—a 21st century strategy to defeat organised crime", which I published on 29 March. The assessment is due to be completed over the summer, and a final report will be available in the autumn.

However, even after completion of this assessment, we are not intending to make available publicly any of this information below national level. Such information broken down by individual police forces is obviously operationally sensitive and could compromise the integrity of witness protection programmes and the officers who work on them.

PRIME MINISTER

Designated Accommodation

Bob Spink: To ask the Prime Minister how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion and *(c)* nursing mothers and pregnant women in each building and set of offices for which his office is responsible. [187321]

The Prime Minister: For these purposes, my office is part of the Cabinet Office. My office has one smoking room. Rooms for worship, nursing mothers and pregnant women are shared with the Cabinet Office.

SOLICITOR-GENERAL

Criminal Justice Board

21. **Miss McIntosh:** To ask the Solicitor-General what recent discussions she has had with the Home Secretary on the work of the Criminal Justice Board. [187722]

The Solicitor-General: I have discussions with the Home Secretary on the work of the Criminal Justice Board at the Criminal Justice Board and also at the routine meetings of all criminal justice Ministers.

Hate Crimes

22. **Mr. Dismore:** To ask the Solicitor-General what her policy is towards the prosecution of *(a)* anti-Semitic and *(b)* Islamophobic hate crimes. [187723]

The Solicitor-General: The policy of prosecution of anti-Semitic and Islamophobic crime is set out in the CPS' policy document of July 2003.

In all cases there are two tests: whether there is sufficient evidence for the court to convict; and whether a prosecution is in the public interest. It will usually be in the public interest to prosecute cases of racist, Islamophobic and anti-Semitic crime.

Animal Rights Extremism

23. **Mr. Ben Chapman:** To ask the Solicitor-General if she will make a statement on the role of the Crown Prosecution Service in tackling animal rights extremism. [187724]

The Solicitor-General: The Crown Prosecution Service takes very seriously the prosecution of animal rights extremists who commit criminal offences.

There is now a co-ordinator for this work in each CPS area.

The Attorney-General is a member of the inter-ministerial group tackling animal rights extremism and chairs the forum of the agencies who are engaged in dealing with this problem.

Case Progress (Information)

24. **Julie Morgan:** To ask the Solicitor-General what steps she is taking to keep victims informed of the progress of their cases. [187725]

The Solicitor-General: The Government are working with the police, prosecutors and courts, as well as voluntary and community organisations to take steps to ensure that victims will be confident to report offences and give evidence in court where necessary. A central part of that effort is ensuring victims are kept informed at all stages of the case.

Pre-charge Investigations

Mr. Grieve: To ask the Solicitor-General if she will make a statement on the progress of the pilot schemes to involve the Crown Prosecution Service in the pre-charge investigation process; and whether time savings have been identified from such pilot schemes. [175512]

The Solicitor-General: Following the charging pilots in 2002–3, and the legislative changes in the Criminal Justice Act 2003, the Crown Prosecution Service, in partnership with the police, are implementing the charging arrangements.

Shadow Charging arrangements have been implemented in all police force areas in England and Wales, and crown prosecutors now provide charging advice at 248 of the 373 operational units during normal office hours.

A Commencement Order (under the Criminal Justice Act 2003) was issued on the 29 January 2004, which allows the Director of Public Prosecutions to apply Statutory Charging arrangements. The statutory scheme was first applied at Longsight in Greater Manchester. The scheme has since been rolled out across West Yorkshire, Kent, South Yorkshire, Cleveland, Lancashire, Northumbria, Avon & Somerset, Nottinghamshire, Humberside and Greater Manchester.

It is expected that the benefits will be a reduction in the rate of discontinuances to 69 per cent. guilty plea rate to increase by 30 per cent. and the conviction rate to increase by 15 per cent.

Early consultation between police officers and crown prosecutors will assist in getting the charge right first time, and reducing remedial work often required to bring cases up to appropriate quality standards. Weeding out weak prosecutions at an early stage will save further effort for both the police and the Crown Prosecution Service. In addition, an increase in guilty pleas will result in fewer trials, with benefits for not only the police and the Crown Prosecution Service, but also the courts. These improvements will result in an estimated 3.2 per cent. efficiency gain on contested cases going through the criminal justice system.

HEALTH

A and E (Chorley and South Ribble)

Mr. Hoyle: To ask the Secretary of State for Health how many hours a day of consultants' time on average was spent in the accident and emergency department at Chorley and South Ribble Hospital in the last year for which figures are available. [187506]

Miss Melanie Johnson: This information is not collected centrally.

As at 31 March 2004, there were seven accident and emergency consultants within Lancashire Teaching Hospitals Trust.

Source:

Department of Health medical and dental workforce census.

Age-related Disease

Sandra Gidley: To ask the Secretary of State for Health what public funding has been made available over the last three years for research into age-related disease; and what funding plans he has for the future. [186830]

Miss Melanie Johnson: The main agency through which the Government support medical and clinical research is the Medical Research Council (MRC). The MRC funds basic and clinical studies on health ageing and on the causes, prevention and treatment of a wide range of conditions that affect the elderly in particular. Details of MRC expenditure in this area are shown in the table.

	Amount (£ million)
2001–02	18.7
2002–03	27.9
2003–04	Not yet available

The Department funds research to support policy and to provide the evidence needed to underpin quality improvement and service development in the national sealth service. Spend by the Department's national research programmes on projects specifically related to the health of older people is shown in the table.

	Amount (£ million)
2001–02	1.7
2002–03	1.9
2003–04	1.9

In addition, the NHS reported spending £36.7 million in 2001–02 and £34 million in 2002–03 on research relating to older people from research and development support funding allocations. Information for 2003–04 is not yet available.

Each of these areas of research activity is ongoing.

Alzheimer's

Jane Griffiths: To ask the Secretary of State for Health (1) what the expenditure was on drug treatments for Alzheimer's disease patients in Reading, East for the latest year for which figures are available; [187015]

(2) how many patients are being treated for Alzheimer's disease in Reading, East; and how many of these are receiving drug treatment. [187016]

Ms Rosie Winterton: Information on the number of patients treated for Alzheimer's disease by individual primary care trusts (PCTs) is not collected centrally. Data on the number of prescription items dispensed in the community, and the net ingredient cost is collected by the Prescription Pricing Authority. The total number of prescription items dispensed for dementia drugs, and the net ingredient cost of these drugs, in the area covered by Reading PCT in 2003–04 is shown in the table.

Total number of prescription items and net ingredient cost for "Drugs for Dementia" (BNF 4.11, treatment of Alzheimer's Disease) dispensed in the community for Reading PCT in 2003–04

	Number of prescription items	*Net ingredient cost (£)*
Reading PCT	96	8,278
England total	392,652	34,217,012

Notes:

1. Prescription cost analysis (PCA) data covers all prescriptions items that are dispensed in the community in England. PCA data does not include items dispensed in hospitals or private prescriptions.
2. Drugs for the treatment of Alzheimer's disease are classified in the British National Formulary section 4.11 (Drugs for Dementia) and include the drugs Donepezil, Rivastigmine, Galantamine and Memantine.

3. Information on the number of patients receiving prescriptions for these drugs is not available, but numbers of prescription items of all prescriptions dispensed in the community in Reading PCT (this is not necessarily the same as where the drugs were prescribed) and the net ingredient cost (NIC) is provided.
4. Prescriptions are written on a prescription form. Each single item written on the form is counted as a prescription item.
5. The NIC is the basic cost of a drug. This cost does not take account of discounts, dispensing costs, fees or prescription charge income.
Source:
PCA data from the Prescription Pricing Authority.

Dr. Stoate: To ask the Secretary of State for Health (1) what the total expenditure on drugs available on the NHS for Alzheimer's disease was in Dartford in the latest year for which figures are available; [187025]

(2) how many Alzheimer's disease patients are being treated by primary care trusts in Dartford; [187026]

(3) how much was spent by the NHS on drug treatments for advanced Alzheimer's disease patients in Dartford in the latest year for which figures are available; [187027]

(4) what assessment his Department has made of the availability of drugs for patients with moderately severe to severe Alzheimer's disease in Dartford. [187030]

Ms Rosie Winterton: Information on the number of Alzheimer's disease patients being treated by individual primary care trusts (PCTs) is not collected centrally. Data on the number of prescription items dispensed in the community and the net ingredient cost are collected by the Prescription Pricing Authority. The total number of prescription items dispensed for dementia drugs and the net ingredient costs of these drugs, in the area covered by Dartford, Gravesham and Swanley PCT in 2003–04 is shown in the table.

Total number of prescription items and net ingredient cost for "Drugs for Dementia" (BNF 4.11, treatment of Alzheimer's disease dispensed in the community for Dartford, Gravesham and Swanley PCT in 2003–04

	Number of prescription items (Thousand)	*Net ingredient cost (£000)*
Dartford, Gravesham and Swanley PCT	1.2	105.5
England total	392.7	34,217.0

Notes:
1. Prescription cost analysis (PCA) data covers all prescription items that are dispensed in the community in England. PCA data does not include items dispensed in hospitals or private prescriptions.
2. Drugs for the treatment of Alzheimer's disease are classified in the British National Formulary section 4.11 (Drugs for Dementia) and include the drugs Donepezil, Rivastigmine, Galantamine and Memantine.
3. Information on the number of patients receiving prescriptions for these drugs is not available, but numbers of prescription items of all prescriptions dispensed in the community in Dartford, Gravesham and Swanley PCT (this is not necessarily the same as where the drugs were prescribed) and the net ingredient cost (NIC) is provided.
4. Prescriptions are written on a prescription form. Each single item written on the form is counted as a prescription item.
5. The NIC is the basic cost of a drug. This cost does not take account of discounts, dispensing costs, fees or prescription charge income.
Source:
PCA data from the Prescription Pricing Authority.

It is not possible to provide a breakdown for expenditure on drug treatments for advanced Alzheimer's patients for Dartford, Gravesham and Swanley PCT.

The Department has not made an assessment of the availability of drugs for patients with moderately severe to severe Alzheimer's disease in Dartford. It is for PCTs, in conjunction with strategic health authorities to ensure that services meet local needs.

Chronic Fatigue Syndrome/ME

Mr. Pike: To ask the Secretary of State for Health (1) what access (*a*) primary care trusts and (*b*) NHS trusts who failed to secure local multi-disciplinary team status for chronic fatigue syndrome/myalgic encephalomyelitis services within their zone have to these services; and if he will make a statement; [186743]

(2) what plans he has to extend specialist services and local multi-disciplinary teams for people with chronic fatigue syndrome/myalgic encephalomyelitis to other areas; and if he will make a statement. [186746]

Dr. Ladyman: A central budget of £8.5 million for chronic fatigue syndrome/myalgic encephalopathy (CFS/ME) services runs from 2004 to 2006 and is intended to pump prime service development and start developing clinical services where none previously exist.

In addition to providing this extra funding, we have also asked the National Institute for Clinical Excellence to develop guidelines for the diagnosis and management of CFS/ME.

We have invested heavily in improving national health service services. Up to 2003–04, expenditure on the NHS has increased by an average of 6.2 per cent. in real terms each year since this Government came to power. NHS expenditure is set to further increase by an average of 7.2 per cent. in real terms over the five year period 2003–04 to 2007–08. Over three years, this will take the total spent on the NHS in England from £69 billion in 2004–05 to £92 billion in 2007–08.

It is the responsibility of primary care trusts to decide how to use this extra funding to meet the needs of their populations, including those with CFS/ME.

Mr. Rosindell: To ask the Secretary of State for Health (1) how much money the Government has invested in the study of myalgic encephalomyelitis since 1997; [186833]

(2) how much money the Government plan to invest in the study of myalgic encephalomyelitis over the next five years. [186835]

Dr. Ladyman: The information requested is shown in the table.

Actual and forecast expenditure on chronic fatigue syndrome/myalgic encephalomyelitis since 1997

	£ million
Completed research projects	0.3
Current research	4.3

£4.2 million of the current research total has been allocated to two five year Medical Research Council trials announced in 2003.

Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by national health service organisations. Details of individual projects, including some concerned with myalgic encephalomyelitis, can be found on the national research register at www.dh.gov.uk/research.

Cotton Nappies

Mr. Hancock: To ask the Secretary of State for Health if he will make it his policy to make a financial contribution towards the start-up costs of *(a)* the provision of free cotton nappies for in-house use and *(b)* an awareness campaign to promote use of cotton nappies in the Portsmouth Hospitals NHS Trust; and if he will make a statement. [187480]

Ms Rosie Winterton: It is for individual units and trusts to decide on the practicalities of promoting the use of cotton nappies in their own maternity units. In line with our policy to devolve decision making to those at the front line of national health service provision I do not see a role in these decisions for a central Government Department. I understand that Portsmouth Hospitals NHS Trust does not provide any nappies at present unless it is an emergency situation.

Cystic Fibrosis

Bob Russell: To ask the Secretary of State for Health if he will introduce testing of all newborn babies for cystic fibrosis. [186977]

Miss Melanie Johnson: Ministers have agreed to the implementation of a new national programme for newborn cystic fibrosis screening. About a fifth of babies born in England are currently offered screening for cystic fibrosis. At the request of the United Kingdom national screening committee, an implementation plan to support the national health service is being developed by the UK newborn screening programme centre, a collaboration between Great Ormond Street Hospital for Children, the Institute of Child Health and the Institute of Education.

Device Evaluation Service

Mr. Oaten: To ask the Secretary of State for Health what are the long-term plans for the device evaluation service; and which agency will be responsible for its day to day management. [187119]

Ms Rosie Winterton: The device evaluation service is actively involved in both the Health Industries Task Force (HITF) and the review of the Department's arm's length bodies. A formal announcement about the service will be made together with HITF recommendations later this year.

Diabetes

Tim Loughton: To ask the Secretary of State for Health what the proven side effects are of long-term consumption of analogue human insulin. [187054]

Ms Rosie Winterton: Clinical trials submitted at the time of licensing have examined the safety and efficacy of the human insulin analogues (insulin glargine, insulin aspart and insulin lispro) in diabetic patients treated for up to 12 months. Generally, the side effects observed with the human insulin analogues were similar to those seen with existing human insulins, with the most commonly observed side effects being hypoglycaemia, visual disturbance and injection reactions.

The longer term safety of the use of human insulin analogues in routine clinical practice is closely monitored by the Medicines and Healthcare products Regulatory Agency. Any possible new safety issue to emerge is evaluated and, if necessary, product information for prescribers and patients is updated.

Full guidance on prescribing and use of human insulin analogues, including possible side effects is provided in the summary of product characteristics (the product information for prescribers) and the patient information leaflet. Key prescribing information is also included in the British National Formulary, which is made available by the Department to doctors and pharmacists.

Free Health Tests (Pensioners)

Sandra Gidley: To ask the Secretary of State for Health what estimate he has made of the cost of providing pensioners with a free annual *(a)* eye test, *(b)* dental check and *(c)* hearing test. [186455]

Ms Rosie Winterton: We restored entitlement to free sight tests for people aged 60 and over in 1999 and hearing tests have always been available free of charge for patients referred to a national health service audiology department. People on low incomes may be exempt from dental charges or may only have to pay a reduced charge. We estimate that patient income of some £23 million per year would be lost if dental examinations were made free to all people aged 60 and over.

Free Prescription Scheme

Ms Walley: To ask the Secretary of State for Health what estimate he has made of the percentage of people who will claim under the free prescription NHS low income scheme; and if he will make a statement. [187490]

Ms Rosie Winterton: No such estimate has been made. In 2003–04, the Prescription Pricing Authority (PPA) received 731,000 claims for help from people in England, Scotland and Wales. Claims can cover more than one person and successful claims may confer entitlement for more than one year. Based on recent trends, the PPA expects the number of claims in the current financial year to be lower than last year.

Ms Walley: To ask the Secretary of State for Health what plans there are for arrangements to promote public awareness of the changes in free prescriptions from 6 April. [187542]

Ms Rosie Winterton: The leaflet, "Help with Health Costs HC11 Quick Guide", which has been placed in the Library, notes that the threshold for full help with health costs has been increased. In addition a poster, prepared in conjunction with Citizens Advice, is currently being printed and Department of Work and Pensions staff have been told of the change via a joint income support/jobseekers allowance bulletin.

GP Surgeries

Mr. Ruffley: To ask the Secretary of State for Health what plans he has for additional general practitioner surgeries in (*a*) the constituency of Bury St. Edmunds and (*b*) Suffolk. [187199]

Dr. Ladyman: We have no current plans for additional general practitioner surgeries in the constituency of Bury St. Edmunds or Suffolk and there are currently no applications in the fourth wave for national health service local investment finance trust schemes in either Bury St. Edmunds or Suffolk.

It is now for primary care trusts, in partnership with strategic health authorities and other local stakeholders, to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services, based on the specialised knowledge they have of the local community.

Hepatitis B

Dr. Gibson: To ask the Secretary of State for Health (1) when the Joint Committee on Vaccination and Immunisation sub-group on hepatitis B is next planning to meet; and when it plans to make a decision on hepatitis B immunisation policy; [187169]

(2) when the Government plan to implement the World Health Organisation recommendation that all countries should adopt a hepatitis B universal mass vaccination programme. [187170]

Miss Melanie Johnson: A working group of the Joint Committee on Vaccination and Immunisation (JCVI) is currently reviewing the United Kingdom's hepatitis B immunisation programme. The group is planning to meet later this year and will report to JCVI early next year.

Home Births

Mrs. Helen Clark: To ask the Secretary of State for Health (1) what estimate he has made of the effect on (*a*) numbers of beds available and (*b*) other resources of women having home births; [187556]

(2) what assessment he has made of the relative costs of an uncomplicated natural delivery at home and an uncomplicated natural delivery in hospital; and what assessment has been made in respect of individual hospitals. [187557]

Dr. Ladyman: The proportion of deliveries that takes place at home has been around 2 per cent. since 1995, having risen from less than 1 per cent. in the late 1980s. This is so small that it will have little effect on the availability of hospital maternity beds. The resource implications of women having home births will vary and are a matter for local national health service bodies.

We have not made any assessment of the costs of deliveries in respect of any individual hospital. The average overall cost of a hospital and home birth normal delivery without complications or co-morbidities is shown in the table.

Type of delivery	*Number*[1]	*Average cost (£)*
Non-elective in-patient (hospital births)	314,683	817
Day case (hospital births)	1,071	386
Community midwifery services (home births)	6,855	541

[1] Data source: reference costs 2003 data (relating to financial year 2002-03), as published in appendix SRC1 of the "Payment by Results Core Tools 2004" document (Department of Health).

Hospital Infections

Mr. Liddell-Grainger: To ask the Secretary of State for Health what the estimated cost of the cleanyourhands campaign is for 2004-05. [186511]

Miss Melanie Johnson: The estimated cost of producing and distributing the campaign materials is about £370,000. Alcohol hand gels will be an extra cost. An economic assessment of the campaign suggests that if the success of the campaign pilot is replicated, £140 million will be saved.

Organ Removal

Chris Ruane: To ask the Secretary of State for Health if he will list the new measures and procedures that have been introduced to stop the illegal removal of organs from deceased adults and children. [187082]

Ms Rosie Winterton: We are taking the following measures to stop the illegal removal of organs from deceased adults and children.

The Retained Organs Commission (ROC) was set up in April 2001 to oversee the return of organs and tissues to families, and where requested, to provide advocacy to families and to advise trusts. The ROC issued its final report in March 2004 and this can be found at http://www.nhs.uk/retainedorgans.

The Government's Human Tissue Bill, which had its second reading in the House of Lords in July 2004, provides the regulation of removal, storage and use of human organs and tissue. The Bill also makes provision for the creation of a new body, the Human Tissue Authority (HTA), which will prepare statutory guidance on all matters within its remit, as set out in the Bill.

Pending completion of the Bill's passage through Parliament and the establishment of the HTA, the Department published two documents in April 2003: "The Use of human organs and Tissue, An Interim Statement" and "Families and post mortems, A Code of Practice". These provide guidance on the use of human organs and tissue and recommended practice for ensuring consent is obtained for hospital post-mortems and for the retention and use of organs following a hospital or coroner's post-mortem. These publications can be found on the Department's website.

The Department has also provided Section 64 grant funding to the National Bereavement Partnership to set up a helpline to support families and the general public affected by issues around post mortems and the possible retention of organs or tissues. This helpline will be able to provide essential information and advise those affected how they might take an inquiry forward with their local national health service trust.

Chris Ruane: To ask the Secretary of State for Health what representations he has received from the parents of deceased children whose organs were retained without permission concerning the sensitivity of questions they have had to answer in pursuit of compensation. [187080]

Ms Rosie Winterton: The Department has not received representations from the parents of children whose organs were retained without permission concerning the sensitivity of questions they have had to answer in pursuit of compensation.

Chris Ruane: To ask the Secretary of State for Health if he will make a statement on the length of time that it has taken to compensate the relatives of those whose organs were retained without permission. [187081]

Ms Rosie Winterton: An offer of compensation was made in November 2002 to all relatives claiming in relation to organ retention. The offer was rejected and the case proceeded to court. Mr. Justice Gage decided on three test cases in a group litigation on 26 March 2004. A mediation date of 27 September has been set for further discussions with the NHS Litigation Authority and the claimants lawyers with a view to settling the claim.

Intensive Care (Babies)

Mrs. Helen Clark: To ask the Secretary of State for Health in how many National Health Service trusts there has been a reduction of intensive care Special Care Baby Unit beds over the two years to August. [187559]

Dr. Ladyman: Data on the number of intensive care special care baby unit beds are not available.

Life Expectancy

Mr. Burstow: To ask the Secretary of State for Health what progress has been made in reducing inequalities in life expectancy in each *(a)* local authority and *(b)* primary care trust area. [180276]

Miss Melanie Johnson: We are committed to achieving our public service agreement target on health inequalities:

"By 2010 reduce inequalities in health outcome by 10 per cent. as measured by infant mortality and life expectancy at birth".

The life expectancy aspect of the target is underpinned by a more detailed target:

"Starting with local authorities, by 2010 to reduce the gap in life expectancy by at least 10 per cent. between the fifth of areas with the worst health and deprivation indicators and the population as a whole".

Information on the progress made in reducing inequalities in life expectancy within each local authority and primary care trust is therefore not collected centrally.

We are also looking to reduce substantially the health inequalities gap from heart disease, stroke and related diseases and cancer by at least 40 per cent. and six per cent. respectively between the fifth of areas with the worst health and deprivation indicators and the population as a whole. As part of this effort, we have set a target for reducing smoking prevalence among routine manual groups to 26 per cent. or less by 2010.

NHS Dentistry

Mr. Liddell-Grainger: To ask the Secretary of State for Health how many dentists left the NHS in each year from 2000–01. [186477]

Ms Rosie Winterton: Information on the total number of dentists leaving the general dental service (GDS) or personal dental service (PDS) is shown in the table. The main reasons for the dentists leaving were retirement and short-term career breaks.

General dental service and personal dental service: number of leavers at 30 September each year, England and Wales

	Exits
2000	1,228
2001	1,257
2002	1,374
2003	1,256

Source:
Dental Practice Board.

The numbers of GDS and PDS dentists have increased from 16,722 at December 1997 to 19,278 at December 2003; an increase of over 2,500.

Keith Vaz: To ask the Secretary of State for Health what the latest average waiting time to have an infected wisdom tooth removed on the NHS is; and what targets he has set to improve waiting times for the removal of wisdom teeth. [187136]

Ms Rosie Winterton: In 2003, the mean waiting time was 91 days for extractions at national health service hospitals. In year 2000, the National Institute for Clinical Excellence advised that the surgical removal of impacted wisdom teeth should be limited to patients with evidence of pathology. Implementation of this advice and the expansion of the dental workforce announced by my right hon. Friend, the Secretary of State for Health, on 16 July should reduce the pressures on hospital dental departments.

Mr. Burstow: To ask the Secretary of State for Health how much his Department spent on NHS dentistry in each year since 1997; and if he will make a statement. [187293]

Ms Rosie Winterton: The general dental service (GDS) is currently managed on a national basis as a non-discretionary service. Expenditure is not pre-determined by allocations but is driven largely by patient demand and the activity of dentists. At present, neither primary care trusts nor dentists are allocated any specific GDS budgets or quotas. Actual spend since 1997 to date has been:

	Expenditure (£ million)
1997–98	959
1998–99	1,022
1999–2000	1,058
2000–01	1,139
2001–02	1,202
2002–03	1,263

Expenditure figures represent the Government's net spend on GDS after taking account of the contribution to costs from dental charges paid by patients. Figures from 1997–98 to 1999–2000 are cash based. Figure.. for

2001–02 onwards are resource based. Figures from 1998–99 include expenditure on new personal dental service pilot schemes.

Expenditure figures for 2003–04 are not yet available.

Tom Cox: To ask the Secretary of State for Health what proposals his Department has to ensure that when a person requires dental treatment they are clearly informed *(a)* whether a dental practice provides NHS treatment and *(b)* what the cost of non-NHS treatment they require will be; and if he will make a statement. [187606]

Ms Rosie Winterton: Since publication of the Office of Fair Trading's report, "The private dentistry market in the UK" (March 2003), we have been working with the General Dental Council (GDC) to strengthen the regulation of private dentistry. The GDC has published "Standards of Dental Practice", which requires that dentists give full information on proposed treatment and costs to patients to enable them to make well-informed decisions on the type of treatment they are to receive. We will also be amending the Dentists Act 1984 to give the GDC new powers to ensure the fitness to practise of dentists and to establish a scheme to investigate and resolve complaints about private dental treatment. The amendments will come into effect early in 2005.

Keith Vaz: To ask the Secretary of State for Health what plans he has to improve orthodontic departments at NHS hospitals. [187137]

Ms Rosie Winterton: We are undertaking the most fundamental reform of national health service dentistry since the inception of the NHS. The Health and Social Care (Community Health and Standards) Act 2003 provides the commissioning of general dental services is to be delegated to primary care trusts from October 2005. This will ensure that the developing dental specialities in primary care, including orthodontics, are given the right opportunities to contribute more to NHS patient care. Provision of more specialist dental care in a high street setting will mean that practitioners no longer need to refer patients who could be treated in a primary care setting to hospital. In this way, staff at hospital dental departments will be able to concentrate on more complex treatments.

Out of Hours GP Cover

Mr. Simon: To ask the Secretary of State for Health whether the NHS Litigation Authority will be liable in cases of clinical negligence where the negligent treatment was provided by a private or foreign healthcare provider under contract for the NHS. [187382]

Ms Rosie Winterton: The NHS Litigation Authority administers the clinical negligence scheme for trusts (CNST) in England. The CNST provides indemnity against claims for clinical negligence for member organisations, which include national health service trusts and primary care trusts (PCTs).

Indemnity for cases arising from clinical negligence is as follows:

Before July 2004, indemnity for clinical negligence for independent sector treatment centres (ISTCs) was covered by commercial insurance arrangements. Subsequently, on a progressive basis, indemnity is now provided through the CNST cover provided to PCTs. The arrangements between ISTCs and PCTs are covered in their contracts.

For patients referred to foreign healthcare providers, indemnity for clinical negligence is usually covered by the CNST arrangements of the referring PCT or NHS Trust.

For other private organisations the liability depends upon the terms and conditions of the contract between the PCT, NHS Trust and the private body concerned.

Variant CJD

Mr. Wiggin: To ask the Secretary of State for Health what recent research his Department has commissioned on the treatment of variant CJD. [186670]

Miss Melanie Johnson: The Department is currently funding a £3.5 million research programme designed to identify and evaluate potential treatment for Creutzfeldt-Jakob Disease. Potential therapies arising from that research will be assessed using a clinical trial protocol the Medical Research Council has developed in conjunction with the Department.

Waiting Lists

Mr. Anthony D. Wright: To ask the Secretary of State for Health what changes there have been to NHS waiting list times for residents of Great Yarmouth in the last seven years. [186703]

Dr. Ladyman: The changes to national health service waiting times for the residents of Great Yarmouth over the past seven years, the latest data available, are shown in the following table.

Count of elective in-year admissions (waiting list and booked cases) with mean and median time waited, 1996–97 to 2002–03 primary care trust (PCT) code (PCT of residence) = 5GT, (Great Yarmouth)—NHS hospitals, England

	In-year admissions	*Days Mean time waited*	*Median time waited*
1996–97	10,171	70	28
1997–98	9,933	78	28
1998–99	10,280	79	33
1999–2000	9,792	68	31
2000–01	9,563	71	33
2001–02	7,501	78	33
2002–03	8,211	93	36

Note:

1. An in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1April at the start of the datayear. Periods of care ongoing at the end of the datayear (unfinished admission episodes) are included. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
3. Time waited statistics from hospital episode statistics (HES) are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.

HES, Department of Health.

CONSTITUTIONAL AFFAIRS

Magistrates Court Cells (Aberystwyth)

Mr. Simon Thomas: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the minimum health and safety requirements are for magistrates court cells. [187076]

Mr. Leslie: Health and safety requirements of cell areas are not measured in a way that an overall minimum standard could be determined.

Each aspect of a cell area (e.g. the custody suite, interview rooms and vehicle access) is individually assessed and rated. From this an overall risk assessment is compiled and the consequent recommendations are made.

Mr. Simon Thomas: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the basis was for the decision to stop using Aberystwyth Magistrates Court cells for the holding of offenders; and if he will make a statement. [187077]

Mr. Leslie: Aberystwyth Magistrates Court is still used for custodial cases, but on a limited basis (for cases for trial or sentence only).

Following the Prisoner Escort and Custody Services (PECS) audit on 2 June 2004, an agreement was reached to keep the cells open. This was on the basis that occupation of the custody accommodation can be controlled in respect of numbers and length of time held and that potential risk can be assessed in each individual case.

Mr. Simon Thomas: To ask the Parliamentary Secretary, Department for Constitutional Affairs what estimate has been made of the cost of bringing the cells in Aberystwyth Magistrates Court up to the health and safety standard required to allow them to be used to hold offenders. [187078]

Mr. Leslie: Aberystwyth Magistrates Court is still used for custodial cases, but on a limited basis (for cases for trial or sentence only).

The local authority has responsibility for Aberystwyth Magistrates Court until it is transferred to my Department on 1 April 2005. An assessment of the cell area has been made by the Magistrates Court Committee, which concluded that the cell area could not be adapted to the extent that it would meet all the standards. This is due to structural issues, which prevent the required level of work. Consequently, no estimate has been prepared.

My Department is currently considering proposals to provide alternative facilities in the Aberystwyth area.

EDUCATION AND SKILLS

University Examinations

12. **Mr. Luff:** To ask the Secretary of State for Education and Skills what recent assessment he has made of the integrity of the results of university examinations. [187706]

Mr. Charles Clarke: The Department has made no such assessment. As autonomous, independent bodies, universities are responsible for ensuring the integrity of their assessment processes and outcomes. Institutions are assisted in this by guidance from the Quality Assurance Agency, and by independent external examiners who verify the standards of assessments and of the results achieved by students. The Quality Assurance Agency audits the management of quality in universities, and from this year onwards, the judgments of External Examiners will be published.

School Security

13. **Mr. Wiggin:** To ask the Secretary of State for Education and Skills, if he will make a statement on security in schools. [187707]

Margaret Hodge: Schools should be both secure and open for community use. Balancing these needs can be difficult, so we issued guidance with the Home Office to advise schools and local authorities on how to deal with intruders and prevent intrusion in the first place. The Government also provided funds—£10 million in 2002–03—and evaluation of that programme shows schools are improving their security and getting the balance right.

Education Maintenance Allowances

14. **Mrs. Betty Williams:** To ask the Secretary of State for Education and Skills, what assessment he has made of the take-up of education maintenance allowances. [187708]

Mr. Ivan Lewis: At the start of September, around 150,000 young people in England had already applied for an EMA. This already represents around 50 per cent. of young people eligible for the scheme and we expect more applications over the coming weeks. The EMA scheme has proved its effectiveness in the pilots we have run, and it will allow young people from poorer households to succeed in a wide variety of vocational and academic courses.

School Sport

16. **Mr. Love:** To ask the Secretary of State for Education and Skills what plans he has to increase participation in sport in schools. [187712]

Mr. Stephen Twigg: The Government are investing over £1 billion in England to transform school sport. This is delivering an ambitious Public Service Agreement target to increase the percentage of 5–16 year olds who spend a minimum of two hours each week on high quality PE and school sport to 75 per cent. by 2006 and to 85 per cent. by 2008.

Children's Commissioner

17. **Julie Morgan:** To ask the Secretary of State for Education and Skills what mechanisms will be put in place for the Children's Commissioner to liaise with the Children's Commissioners in Wales, Scotland and Northern Ireland. [187713]

Margaret Hodge: I hope that the four United Kingdom Commissioners will draw up their own co-operation arrangements so as best to serve the children

for which they are responsible. We are currently examining across Government how the Children Bill could best enable or assist them to do this. To this end, I have arranged to meet colleagues from Northern Ireland, Scotland and Wales next week.

Bullying

Norman Baker: To ask the Secretary of State for Education and Skills what steps he is taking to tackle bullying in schools. [187710]

Mr. Ivan Lewis: We take all bullying seriously and attach great importance to tackling it.

In November 2003, I launched the "Make The Difference" campaign at the first of a programme of conferences for headteachers. The campaign includes a public information film, "Tell Someone", to encourage children who are being bullied to tell someone and the Anti-Bullying Charter for Schools. We have also funded the Anti-Bullying Alliance to maintain the momentum of the campaign.

The Anti-Bullying Alliance will:

work with teachers, schools and local education authorities to promote anti-bullying best practice across all schools, including the use of peer support schemes;

develop innovative, practical approaches to tackling bullying, including the modern menace of bullying by text messaging, email and Internet chat;

provide support for parents in severe cases of bullying, including referrals across the Alliance's regional and national network, where all other avenues to resolve the bullying have been exhausted;

develop and oversee anti-bullying resources and information for schools and parents, including an anti-bullying website containing practical support and advice; and

run an annual national anti-bullying week of events and activities to teach young people that all forms of bullying are wrong and promote active ways in which to show no tolerance to it.

Capital Funding

Mr. Hopkins: To ask the Secretary of State for Education and Skills pursuant to the Answer given on 14 June 2004, *Official Report*, column 771W, on Building Schools for the Future, what specific action his Department has taken to encourage local authorities and local learning and skills councils to consult each other in formulating their proposals and plans for priority capital funding. [187037]

Mr. Miliband: The Department encourages local authorities and local Learning and Skills Councils to consult each other in formulating their plans for capital investment. Specific action includes: guidance to local Learning and Skills Councils and further education providers requires them to discuss their plans with the relevant local authority; guidance to local authorities on asset management planning requires consultation with the relevant local Learning and Skills Council; guidance on the Building Schools for the Future (BSF) programme requires proposals for BSF projects to include the local Learning and Skills Councils, among others, as active partners; guidance for local Learning and Skills Councils on taking forward Strategic Area Reviews of post-16 provision requires that local authorities must be represented on their stakeholder groups and actively involved in carrying out the reviews. In addition, the Department and the Learning and Skills Council are looking at ways to forge closer links between the Council and the new Partnerships for Schools (PfS) body, set up to assist the delivery of the new Building Schools for the Future programme.

Mr. Hopkins: To ask the Secretary of State for Education and Skills pursuant to the Answer given on 14 June 2004, *Official Report*, column 771W, on Building Schools for the Future, what specific action his Department has taken in conjunction with the Learning and Skills Council to join up capital investment for schools, sixth-form colleges and further education. [187038]

Mr. Miliband: Where proposals brought forward under the Building Schools for the Future programme include a local vision for the delivery of 14–19 education in association with a further education institution requiring capital investment, the Learning and Skills Council will take this factor into account in determining its priorities for capital support. This is subject to overall pressures and funding constraints. In addition, the Department and the Learning and Skills Council are in discussion concerning a proposed new joint 16–19 capital budget for schools and further education establishments.

Departmental Expenditure

Mr. Hoban: To ask the Secretary of State for Education and Skills how much his Department spent in the last year for which figures are available on *(a)* refurbishment and *(b)* office furniture. [186684]

Mr. Stephen Twigg: During 2003–04 my Department has spent £2,106,720 on refurbishment and £2,122,428 on office furniture.

Mr. Hoban: To ask the Secretary of State for Education and Skills what the cost of satellite and cable subscriptions in his Department's buildings was in the last year for which figures are available; and if he will list the premium channels that his Department subscribes to. [186677]

Mr. Stephen Twigg: During 2003–04 the cost to my Department for satellite subscriptions was approximately £5,700. Apart from receiving the Parliamentary Broadcast Package via the House of Commons, which is for use by Ministers and their Private Offices, my Department does not subscribe to any premium channels.

Further Education Colleges

Mr. Hopkins: To ask the Secretary of State for Education and Skills what proportion of provision in further education colleges, measured by *(a)* hours taught and *(b)* funding allocated, was graded 4 or 5 in Ofsted inspections during (i) 2003 and (ii) 2004 to date. [187074]

Mr. Ivan Lewis: These matters are for Ofsted. HM Chief Inspector, David Bell, will write to my hon. Friend and place a copy of his letter in the Library.

School Meals

Helen Jones: To ask the Secretary of State for Education and Skills what guidance he has issued on the role of school governors in ensuring the provision of healthy school meals. [187709]

Mr. Stephen Twigg: On 6 September the Secretary of State launched the Healthy Living Blueprint for schools. The blueprint, and supporting website (www.teachernet.gov.uk/healthyliving), bring together all the elements that contribute to a whole school approach to food and nutrition: the curriculum; food/meals available; pupil views; partnership working; the role of heads, governors and other staff. In addition to the blueprint the Food Standards Agency is working closely with the National Governors' Council to encourage school governors to promote a high quality approach to food and nutrition in their schools.

School Sixth Forms

Mr. Hopkins: To ask the Secretary of State for Education and Skills how much funding was provided by each local Learning and Skills Council to school sixth forms in *(a)* 2002–03 and *(b)* 2003–04; and how many students each of these school sixth forms has on its roll. [187073]

Mr. Charles Clarke: The Department allocates funds for the provision of education in school sixth forms to the Learning and Skills Council (LSC). Information about these allocations at local level is not collected by the Department. This is an operational matter and the responsibility of the LSC. Mark Haysom, the LSC's Chief Executive, will write to my hon. Friend with this information, including the pupil number data and a copy of his reply will be placed in the Library.

Specialist School Status

Andrew Selous: To ask the Secretary of State for Education and Skills if he will make a statement on the eligibility criteria for specialist school status. [187703]

Mr. Charles Clarke: All maintained secondary schools in England are eligible to apply for specialist schools status. We lifted the funding cap in 2002 and expect all secondary schools to become specialist as and when they are ready. Specialist schools now account for 62 per cent. of maintained secondary schools. The eligibility criteria for specialist schools has been placed in the library.

Vocational Education

Ann Winterton: What recent meetings he has had with employers to discuss vocational education. [187711]

Mr. Ivan Lewis: I hold regular meetings with the CBI, the TUC and educationists about skills and vocational education. We have established a new Skills Alliance which Charles Clarke chairs jointly with Patricia Hewitt. This Skills Alliance brings Ministers from four Departments of State, the CBI, the TUC and Small Business Council together on a twice yearly basis. I also meet regularly with representatives of the 19 employer led Sector Skills Councils. I visit individual employers to discuss their workforce development plans and needs.

WORK AND PENSIONS

Employment Zones

Mr. George Osborne: To ask the Secretary of State for Work and Pensions whether he plans to extend the number of Employment Zones. [186424]

Jane Kennedy: There are no current plans to extend the number of Employment Zones.

Housing and Council Tax Benefit

Mr. Webb: To ask the Secretary of State for Work and Pensions how many households containing a person aged 60 years or over were in receipt of council tax benefit in each of the last 12 months. [187164]

Mr. Pond: The information is not available in the format requested. At May 2002 the number of council tax benefit recipients aged 60 years or over in Great Britain was 2,363,000.

Notes:

1. The figure is based on a 1 per cent. sample and therefore subject to a degree of sampling variation.
2. The figure is rounded to the nearest thousand.
3. Council tax benefit totals exclude any Second Adult Rebate cases.
4. The figure refers to cases where the claimant and/or partner is aged 60 or over.
5. The figure refers to benefit units, which might be a single person, couple or family.

Source:

Housing Benefit and Council Tax Benefit Management Information System, Annual 1 per cent. sample, taken in May 2002.

Mr. Webb: To ask the Secretary of State for Work and Pensions what proportion of local authorities have produced a written take-up strategy of a sufficient standard to satisfy his Department's performance standard on take-up of housing and council tax benefits; and which local authorities have failed to meet this standard. [187163]

Mr. Pond: The Performance Standards for housing benefit and council tax benefit set out the standards of performance the Department expects local authorities to achieve over a period of time. Self-assessment is voluntary so local authorities are not required to report performance against them to the Department, although we encourage them to do so. Of the 64 local authorities who have so far supplied information about their performance, 49 (77 per cent.) have a written take-up strategy which meets the standard. Insufficient data are available to provide a comprehensive list of all the local authorities who do not meet this standard.

Long-term Unemployed (Over-50s)

Mr. Woodward: To ask the Secretary of State for Work and Pensions what estimate the Government have made of the cost to the Exchequer of men and women over the age of 50 who are long-term unemployed in each year since 1997. [186937]

Jane Kennedy: Figures on the direct benefit costs for long term unemployed people aged over 50 are in the following table. Official estimates are not available for wider aspects of cost such as tax payments forgone.

Benefit expenditure on men and women over the age of 50 who are long term unemployed[1]

	£ million
1997–98	405
1998–99	378
1999–00	333
2000–01	316
2001–02	239
2002–03	235
2003–04[2]	232

Notes:
[1] Figures include expenditure on Jobseeker's Allowance (Income Based), and on Housing Benefit and Council Tax Benefit paid with JSA(IB). Figures are expressed in nominal terms and are rounded to the nearest million.
[2] Estimated outturn.

Source:
Figures are based on four quarterly averages from DWP IAD Information Centre. "Long term unemployed" has been taken to mean greater than or equal to 52 weeks.

Pensioners

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many pensioners in receipt of pension credit also receive *(a)* housing benefit, *(b)* council tax benefit and *(c)* other means-tested benefits. [186780]

Mr. Pond: The most recent housing benefit/council tax benefit data analysed by age and reference to other benefits is at May 2002, which predates the introduction of pension credit.

With the introduction of pension credit, around 2 million pensioner households will now qualify for more help, or qualify for help for the first time, with their council tax and/or rent.

Mr. Willetts: To ask the Secretary of State for Work and Pensions what the rate is at which a pensioner with average housing costs and council tax costs would have *(a)* housing benefit and *(b)* council tax benefit withdrawn if they were in receipt of pension credit and had a total gross weekly income of (i) £80, (ii) £100, (iii) £120, (iv) £140, (v) £160, (vi) £180, (vii) £200 and (viii) other incomes as are available. [187343]

Mr. Pond: The answer is in the table.

Rates of withdrawal of housing and council tax benefits for pension credit recipients with varying incomes

		Percentage	
Gross weekly income	*Net weekly income*	*Housing benefit withdrawal rate*	*Council tax benefit withdrawal rate*
£80.00	£80.00	0	0
£100.00	£98.14	0	0
£120.00	£113.94	39	12
£140.00	£128.55	39	12
£160.00	£141.95	39	12
£180.00	£155.35	65	20
£200.00	£168.75	65	20
£220.00	£182.15	65	n/a
£240.00	£195.55	n/a	n/a

Notes:
1. An "average pensioner" has been interpreted as being single, aged 65 or over with no dependents, no severe disabilities and no additional income or costs (such as annuities, trust fund payments, mortgage interest payments, etc.).
2. In order to make the above calculation, it has been assumed that rent and council tax levels for the average pensioner are £44 and £12 respectively. These are the average amounts used in the DWP Tax Benefit Model Tables.
3. Withdrawal rates do not include the impact of tax i.e. tax withdrawal is not included in total withdrawal rate figures.
4. N/a indicates there is no title to this benefit at, or above, this level of income.

Departmental Staff

David Taylor: To ask the Secretary of State for Work and Pensions what guidance is available for assisting employees suffering from *(a)* stress and *(b)* depression from the human resources department of his Department. [187165]

Maria Eagle: Comprehensive advice surrounding managing attendance in the DWP is contained in the Department and You—the Corporate HR guidance. This is accessible via the Department's intranet and contains practical guidance for the Departments human resources (HR) practitioners and line managers to follow.

In cases of stress or depression affecting employees, HR is able to offer a range of guidance to help individuals. This includes referral to our occupational health service and/or to our employee assistance service. Both providers offer a professional service and would discuss, separately, with individuals affected by stress or depression ways in which both conditions might be addressed and overcome. The Department has recently launched a Well-being at work policy to offer assistance to people affected by stress.

FOREIGN AND COMMONWEALTH AFFAIRS

British Culture

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to promote British culture. [186952]

Mr. Mullin: The British Council is our principal agent for promoting British culture overseas. It aims to promote the UK's creative ideas and achievements through a range of programmes in the fields of arts, science and education.

The Foreign and Commonwealth Office also funds the BBC World Service and the Chevening Scholarship Programme, both of which play a part in promoting British cultures and values.

Burma

Dr. Pugh: To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* the British ambassador to Burma and *(b)* other British embassy staff in Burma have attended events in Burma hosted by Orient Express or its regional representatives. [187229]

Mr. Mike O'Brien: We have no record of the British ambassador to Burma, nor other British embassy staff in Burma, attending any events hosted by Orient Express or its regional representatives in 2003 or 2004.

Consular Services (Employment)

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what key jobs in consular services *(a)* are vacant and *(b)* have been unfilled for more than three months in the last 12 months; and if he will make a statement on the reasons for difficulties in filling key jobs. [187397]

Mr. Mullin: There are no key consular jobs unfilled in the Foreign and Commonwealth Office's (FCO) Consular Directorate at the present time. To provide information on possible vacant consular jobs overseas could be provided only at disproportionate costs. However, the FCO's Human Resources Directorate endeavours to ensure that UK-based consular officer replacements arrive to coincide with UK-based departures from posts overseas. When this is not possible it is Consular and Human Resources Directorates' policy to ensure that temporary cover is provided during the interim period. We also endeavour to provide temporary cover for key locally engaged consular slots.

During a consular emergency overseas Rapid Deployment Teams are sent out to assist the post(s) concerned. The most recent deployment was to Salzburg following a serious coach crash in August.

Conventional Forces in Europe Treaty

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what is the latest position in respect of the adapted Conventional Forces in Europe Treaty; which countries have signed and ratified it; when he expects it to come into force; and if he will make a statement. [187131]

Mr. MacShane: The Adapted Conventional Forces in Europe Treaty (CFE) was signed by the following 30 States Party at the OSCE Summit in Istanbul on 19 November 1999; Armenia, Azerbaijan, Belarus, Belgium, Bulgaria, Canada, Czech Republic, Denmark, France, Georgia, Germany, Greece, Hungary, Iceland, Italy, Kazakhstan, Luxembourg, Moldova, Netherlands, Norway, Poland, Portugal, Romania, Russian Federation, Slovak Republic, Spain, Turkey, Ukraine, United Kingdom and the United States. Of those States Party only Belarus, Kazakhstan and Ukraine have ratified the Adapted CFE Treaty. The Russian Duma voted to ratify the Adapted CFE Treaty on 25 June 2004, but to date documents of ratification have not been submitted by the Russian Federation to the Treaty Depository (the Netherlands).

The Adapted CFE Treaty cannot come into force until all 30 signatories have ratified it. We, along with NATO allies, are fully committed to the entry into force of the Adapted CFE Treaty. But we will not ratify until the Russian Federation has met the commitments it made, when the Treaty was signed, concerning Russian armed forces in Georgia and Moldova. Once those commitments have been met we would hope for a speedy ratification and subsequent entry into force of the Adapted CFE Treaty.

Cuba

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Cuban authorities concerning their treatment of *(a)* Dr. Oscar Elias Biscet and *(b)* Jorge Luis Garcia Pérez (Antúnez). [185768]

Mr. Rammell: We regularly raise human rights cases—including these two—with the Cuban authorities in London and in Havana. We have been monitoring their situation and health, and embassy staff maintain close contacts with local human rights groups involved in their cases and with friends and family of the individuals. Dr. Biscet visited the British embassy in November 2002 shortly before his arrest, and our embassy staff last met his wife, Elsa Morejon, on 14 July. We are aware of considerable public interest in the fate of both prisoners.

UK policy on Cuba is governed by the EU Common Position, which has human rights enshrined as its key principle and which was reaffirmed on 14 June. The EU regularly issues statements condemning the imprisonment of human rights activists and other political prisoners. Mostly recently, on 15 July 2004, we again called on the Cuban Government to release all political prisoners.

British Indian Ocean Territory

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs how the government of the British Indian Ocean territory is funded; and if he will make a statement. [187614]

Mr. Rammell: The government of the British Indian Ocean territory is funded mainly by the sale of fishing licences, although there is also a small amount of revenue from the sale of stamps, fines and related charges, and administrative fees.

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* monetary payments and *(b)* monetary discounts were received by the UK Government from the US Administration or affiliated bodies in return for the agreement governing the joint use of Diego Garcia by the two countries in (i) 1966 and (ii) 1976; and if he will make a statement. [187611]

Mr. Rammell: The United States Government agreed in 1966 to contribute half of the total cost, up to a limit of £5 million, of setting up the British Indian Ocean Territory by waiving to that extent research and development surcharges for the United Kingdom purchase of the Polaris missile system. No payments or discounts were made in respect of the establishment of the United States Defence Facility in Diego Garcia in 1976.

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place a copy of the US Administration's Natural Resources Management Plan for Diego Garcia in the Library. [187612]

Mr. Rammell: The US Natural Resources Management Plan for Diego Garcia, currently under revision by the US authorities, is not a public document.

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans have been made to allow tourists travelling with the Wexas travel company to visit the waters of the Chagos Archipelago; and if he will make a statement. [187609]

Mr. Rammell: A visit to some of the outer islands of the British Indian Ocean Territory has been arranged under the auspices of Wexas International primarily in order to monitor the natural environment of the islands.

Drug-related Arrests (Overseas)

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British citizens have been detained overseas for drug-related offences in each of the last five years. [187592]

Mr. Mullin: According to consular records the number of British citizens detained overseas for drug-related offences in the following years was:

	British citizens detained
1999–2000	1,156
2000–01	1,054
2001–02	1,268

We then ceased to collect this information in this way, and now collect data each year on the total number of those in prison for drugs offences. The totals are:

On 31 March	*Total number imprisoned*
2003	1,290
2004	1,312

These figures therefore do not refer only to new detentions.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British citizens were detained overseas for drug related offences in the last year for which figures are available, broken down by country. [187593]

Mr. Mullin: As at 31 March 2004, there were 1,312 British Nationals detained overseas for drug related offences, who had requested consular assistance. The following table breaks down this figure by country in alphabetical order:

Country	*Drugs*
Antigua and Barbuda	10
Argentina	4
Australia	60
Austria	4
Bahamas	2
Barbados	21
Belgium	16
Brazil	31
Canada	3
Chile	1
China	8
Colombia	7
Costa Rica	4
Cyprus	3
Denmark	5
Dominican Republic	3
Ecuador	8
Egypt	3
Finland	1
France	122
Gambia	2
Germany	29
Ghana	4
Greece	4
Grenada	9
Guyana	[illegible]
India	[illegible]
Indonesia	6
Ireland	8
Israel	1
Italy	16
Jamaica	138
Japan	40
Kuwait	2
Madagascar	1
Malaysia	2
Malta	4
Mauritius	2
Mexico	5
Morocco	3
Nepal	1
Netherlands	35
New Zealand	8
Nicaragua	1
Norway	20
Oman	1
Pakistan	6
Panama	7
Peru	23
Philippines	14
Portugal	8
St. Lucia	7
St. Vincent	2
Saudi Arabia	1
Singapore	1
South Africa	9
Spain	138
Surinam	3
Swaziland	1
Sweden	13
Switzerland	3
Taiwan	25
Thailand	27
Trinidad And Tobago	32
Turkey	4
United Arab Emirates	11
USA	259
Venezuela	20
Grand Total	1,312

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what the *(a)* age group and *(b)* sex was of each British person detained overseas for drug-related offences in the last year for which figures are available. [187594]

Mr. Mullin: The Foreign and Commonwealth Office does not currently keep figures according to the age and sex of British Nationals detained for drug-related offences overseas. But the total number of British Nationals detained overseas for drug related offences who have requested consular assistance was, as at 31 March 2004, 1312.

Equatorial Guinea

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has *(a)* received and *(b)* made concerning the (i) economic and (ii) political situation in Equatorial Guinea since 2002; and if he will make a statement. [18727

Mr. Mullin: We receive occasional requests for information on the political and economic climate in Equatorial Guinea from UK companies interested in investing there and from members of the public. We have a regular dialogue with the Government of Equatorial Guinea on economic, governance and human rights issues. We also discuss the situation there with our EU partners and the US.

Iraq

Joan Ruddock: To ask the Secretary of State for Foreign and Commonwealth Affairs what voting system will be used for the parliamentary elections in Iraq. [187617]

Mr. Rammell: The upcoming election for an Iraqi Transitional National Assembly will be based on a Single Constituency Proportional Representation Closed List system. The whole of Iraq will be a constituency and voters will not necessarily need to register in their home town or area. The choice of system for subsequent elections will be for the Iraqis to decide.

Israel

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government concerning the deaths of children at the entrance to the Balata refugee camp in July. [187463]

Mr. Rammell: Israeli Defence Force action which results in the death or injury of children is deeply disturbing. We have frequently called on the Israeli Government to stop such action, and continue to raise our concerns at the highest level. We have not made specific representations concerning the deaths at Balata refugee camp in July.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what action he proposes to take in response to the ruling of the International Court of Justice on the separation barrier erected by Israel. [187498]

Mr. Rammell: On 20 July the UK, along with our EU partners, voted in favour of UN General Assembly resolution ES-10/15, acknowledging the ICJ Opinion and calling on Israel to re-route the barrier away from occupied land.

While we recognise Israel's legitimate security concerns, it must act in accordance with international law. We continue to press the Israeli Government to re-route the barrier away from occupied land, in line with international law.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government concerning the attack on a UN convoy delivering aid to Beit Hanoun in the Gaza Strip on 15 July. [187515]

Mr. Rammell: As I said in my reply to the hon. Member on 22 July 2004, *Official Report*, column 551W, although we have not made specific representations regarding the 15 July incident, we have urged the Government of Israel to ensure aid agencies are able to provide humanitarian assistance to the Palestinian population.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government concerning killings of and injuries to Palestinians in the Gaza town of Beit Hanoun. [187516]

Mr. Rammell: We are extremely concerned at the casualties and at the humanitarian impact of the Israeli Defence Force actions in Beit Hanoun.

Officials in Tel Aviv have visited the areas affected and raised with the IDF both the action taken in July and the continuing closure of Beit Hanoun.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government regarding the treatment of Palestinian prisoners by the Israeli authorities. [187562]

Mr. Rammell: On 1 September officials in Tel Aviv raised with the Israeli Prison Service (IPS) a number of our concerns about the demands that inspired the Palestinian prisoners' hunger strike. These included: that Israel should meet its obligations towards prisoners; that prisoners, including during the hunger strike, should be treated with dignity; and a failure to separate juvenile and adult prisoners, as provided for in The Convention on The Rights of The Child.

On 2 September the IPS informed our Tel Aviv Embassy that the hunger strike had ended.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he made to the Government of the USA in July and August about the USA's interpretation of the Road Map in respect of the expansion of settlements in the west bank announced by Israel; and if he will make a statement. [187576]

Mr. Rammell: My right hon. Friend the Foreign Secretary discussed a number of the middle east peace process issues with Condoleeza Rice, the US National Security Adviser, on 16 August, including Israel's announcements of expansion of settlements. Officials have also discussed the issue in Washington.

Our view remains that Israel should freeze all settlement activity, including the natural growth of existing settlements, and dismantle all outposts built since 2001, in accordance with phase one of the roadmap.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he made to the Government of Israel during July and August in respect of Israel's announcement that it is to proceed with the further expansion of settlements in the West Bank. [187577]

Mr. Rammell: On 2 August my noble Friend the Baroness Symons of Vernham Dean issued a strong statement of concern following reports that Israel had approved further construction in the Ma'ale Adumim settlement calling on Israel to freeze all settlement activity, including natural growth, and to dismantle all outposts built since 2001, in line with its Roadmap commitments. A copy of the statement is available on the Foreign and Commonwealth Office wet site: www.fco.gov.uk/policy/news/press-releases.

On 18 August our Ambassador in Tel Aviv raised the issue with the Acting Israeli Minister for Construction, Tzipi Livni.

We continue to press the Israeli Government to reconsider their decision to issue tenders for new homes in a number of West Bank settlements, including Ma'ale Adumim.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with each of the Quartet partners during July and August about Israel's announcement that it intends to expand settlements in the west bank; and if he will make a statement on the options for action by the Quartet in response. [187575]

Mr. Rammell: My right hon. Friend the Foreign Secretary has discussed Israel's recent announcements on settlement expansion with both the US and EU partners.

The Quartet (UN, US, EU, Russia) continues to play a vital role in leading the international community's involvement in the Middle East peace process. Through the EU, the UK will seek to ensure the Quartet's next meeting, scheduled to take place in New York on 23 September, continues to provide leadership in the effort to stimulate positive steps from both sides.

Moldova

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent efforts he has made to assist Russia to withdraw its troops and ammunition from the Republic of Moldova. [187739]

Mr. MacShane: We continue to encourage the Russian Federation to withdraw forces and ammunition from Moldova in line with the commitments Russia made at the OSCE Summit in Istanbul in November 1999. We, along with NATO allies, will not ratify the Adapted Conventional Forces in Europe Treaty until the Russian Federation has met their commitments concerning Moldova, and other commitments concerning Georgia made at the same OSCE Summit.

UK military personnel are on a standby roster as part of the OSCE Monitoring Mission, to verify the removal of Russian ammunition from Moldova. But only one trainload of ammunition has been removed in 2004 and an estimated 35–40 trainloads of Russian ammunition remains in Moldova. We hope that Russia will accelerate the withdrawal process and will continue to offer our support to verify the removal of ammunition from Moldova.

Pakistan

Mr. Bill Wiggin: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on *(a)* the UK's diplomatic relations with Pakistan and *(b)* the state of democracy in Pakistan. [186749]

Mr. Mike O'Brien: The UK enjoys a close and warm relationship with Pakistan which is strengthened by our historical links, and by our having more than 800,000 British Citizens of Pakistani origin. Pakistan is a key ally in the global war against terrorism and the UK continues to work closely with the Government of Pakistan to counter this threat.

We engage with Pakistan at all levels on a wide variety of subjects including defence, drugs, judicial cooperation, migration, and economic and development issues. The UK and Pakistan have formalised some of these engagements through the Joint Judicial Cooperation Working Group and the Defence Cooperation Forum. During the current three year period (2003/04—2005/06) we expect to give over £200 million in aid to Pakistan. There have been several high level visits to and from the UK.

We warmly welcome the ongoing progress in Pakistan's transition to democracy. The decision by the Commonwealth Ministerial Action Group in May this year to readmit Pakistan to the Councils of the Commonwealth was taken in recognition of the progress made in restoring democratic principles. The recent election of Shaukat Aziz to the National Assembly and his subsequent confirmation as Prime Minister is a further positive development. We look forward to working closely with the new Prime Minister of Pakistan and his government.

Qualified Majority Voting

Mr. Heathcoat-Amory: To ask the Secretary of State for Foreign and Commonwealth Affairs whether provisions concerning structured co-operation within the Common Foreign and Security Policy are to be decided by qualified majority voting under the European constitution. [187035]

Mr. MacShane: The voting procedures for Structured Cooperation are laid out in article III-213 of the constitutional treaty. Qualified Majority Voting in Structured Cooperation is only for procedural issues—how member states join and leave the group. The text makes clear that unanimity of participating states will be required for all other decisions.

Mr. Heathcoat-Amory: To ask the Secretary of State for Foreign and Commonwealth Affairs whether intellectual property or foreign direct investment moves from unanimity under article 133 TEC to qualified majority voting under article III-217(1) and III-217(2) of the European Constitution. [187036]

Mr. MacShane: Article 133 TEC established the Common Commercial Policy (CCP), allowing the Community to make trade agreements on behalf of the member states, covering trade in goods, services, and the commercial aspects of intellectual policy. Apart from a limited range of exceptions, decisions under it are taken by QMV.

Its successor in the European constitution, III-217, allows the EU also to make agreements covering foreign direct investment, and narrows slightly the scope of the exceptions from QMV covering intellectual property and trade in services.

The Government are content with this. They made clear in the White Paper published in September 2003 (Cm 5934) that they favoured moves to reduce barriers in international trade, provided that this did not lead to an increase in the internal powers of the Union, and

that, as now, voting arrangements for such agreements mirrored those required for the adoption of equivalent rules internally. Both principles are set out in the treaty. The latter principle is set out at III-217(4). III-217(6) makes clear that the CCP does not affect the division of competences between the Union and the member states, and cannot in itself lead to legislative or regulatory harmonisation among the member states.

Sudan

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment his Department has made of Amnesty International's report of 19 July entitled "Darfur: Rape as a Weapon of War: sexual violence and its consequences"; and if he will make a statement; [187270]

(2) what assessment his Department has made of the charge of culpability levelled against the Government of Sudan by Amnesty International's report of 19 July entitled, "Darfur: Rape as a Weapon of War: sexual violence and its consequences"; and if he will make a statement. [187271]

Mr. Mullin: We read with grave concern reports by Amnesty International of rape being used as an apparently deliberate tactic in the Darfur region. Medecins Sans Frontieres, the UN High Commission for Refugees and the UN Office for the Co-ordination of Humanitarian Affairs have also reported cases of rape. These reports underline the urgent need to improve the security situation in the region, in order to prevent these abuses from continuing.

We have also made clear that those responsible for such atrocities must be brought to justice. UN human rights monitors, whose deployment we helped finance, are now in Darfur investigating allegations of human rights abuses, including rape. We have made clear to the Government of Sudan that they must do all they can to facilitate the work of these monitors. The Government of Sudan have established three committees on rape allegations. We will follow their investigations closely During his recent visit, my right hon. Friend the Foreign Secretary also secured the agreement of the Sudanese Government to grant Amnesty International and Human Rights Watch visas to visit Darfur.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received regarding the Sudanese Air Force's activities in Darfur; and if he will make a statement. [187272]

Mr. Mullin: My right hon. Friend the Foreign Secretary raised this issue with the Government of Sudan during his visit to Khartoum in August. He also raised it with African Union monitors in Darfur who said that they had no evidence of air strikes by the Government of Sudan air force since June. We will continue to monitor the situation and to press all sides to respect the ceasefire.

Taiwan

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to support Taiwan as *(a)* a member and *(b)* an observer of the (i) World Health Organisation and *(c)* World Health Assembly; and if he will make a statement. [187600]

Mr. Rammell: There are difficulties over Taiwanese involvement in a UN forum where statehood is a prerequisite for full membership. We would consider with our EU partners any proposals for Taiwanese involvement in the World Health Organisation which took account of these difficulties.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to promote within the EU Taiwan's case for deeper involvement in the *(a)* World Health Organisation and *(b)* World Health Assembly. [187601]

Mr. Rammell: Ireland, speaking on behalf of all EU Member States at this year's World Health Association, expressed the EU's hope that the WHO Secretariat, and others organising technical meetings and working groups under WHO auspices, would show flexibility in finding mechanisms to allow Taiwanese medical and public health officials to participate in these activities. The Government fully endorse this view and will continue to look at ideas for finding that flexibility.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on the efforts of Taiwan to play a constructive and appropriate role in *(a)* international health affairs and *(b)* international humanitarian issues; and if he will make a statement. [187602]

Mr. Rammell: I refer the hon. Member to the reply I gave to him today (UIN 187601).

The Government welcomes Taiwanese assistance in international humanitarian issues through appropriate channels and in keeping with Taiwan's status.

Teodoro Obiang Nguema

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his counterparts in *(a)* Spain, *(b)* the United States of America and *(c)* Equatorial Guinea, concerning allegations of corruption and money laundering levelled against Teodoro Obiang Nguema and his family; and if he will make a statement. [187274]

Mr. Mullin: We are aware of the allegations against President Obiang and his family. We take all such allegations seriously and have raised our concerns on governance with the Equatorial Guinean authorities. We discuss developments in Equatorial Guinea with a range of international partners.

Transnistria

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on his recent efforts to find a peaceful solution to the problem of the region of Transnistria with reference to his actions within *(a)* the EU, *(b)* NATO and *(c)* the OSCE. [187740]

Mr. MacShane: We remain concerned about the situation in Transnistria, and together with EU partners continue to call on the two parties in particular the Transnistrians, to negotiate constructively and in good

faith. After Transnistrian moves to force the closure of Latin script schools in the region, which has raised tensions significantly, the EU imposed a travel ban on 26 August against ten individuals within the Transnistrian administration responsible for the measures. Along with our EU partners, we are supporting Organisation for Security and Cooperation in Europe mediation in the settlement talks, and continue to look for ways to bolster this support. We also regularly raise Transnistria with the other mediators, Russia and Ukraine, both bilaterally and through the EU. I raised our concerns with the Ukraine Defence Minister on 6 September.

We want Russia to fulfil commitments made when signing the Adapted Conventional Forces in Europe (ACFE) Treaty at the OSCE Summit in Istanbul in 1999, including full withdrawal of arms and ammunition from Transnistria, or their destruction in situ, and the withdrawal of Russian forces. Together with NATO allies we have stated that we will not ratify the ACFE Treaty until the Russian Federation has met their commitments concerning Moldova and Georgia.

Vietnam

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment his Department has made of the treatment of the Montagnards in Vietnam; and if he will make a statement; [187260]

(2) what representations he has made to the Government of Vietnam concerning the treatment of the Montagnards in Vietnam; and if he will make a statement. [187261]

Mr. Mike O'Brien: We remain concerned about the situation of the Montagnards in the Central Highlands region of Vietnam.

We raise human rights concerns regularly with the Vietnamese Government, both bilaterally and with our EU partners. These include the problems faced by the Montagnards in the Central Highlands, particularly with regard to land and religious freedom. I raised these issues during my visit to Vietnam in March and with the President of Vietnam during his official visit to the UK in May. On the same day, my right hon. Friend the Foreign Secretary raised our concerns about human rights in Vietnam with the Vietnamese Foreign Minister.

With our other EU partners, we participate in a regular human rights dialogue with Vietnam. The most recent meeting, attended by our ambassador in Hanoi, took place on 22 June. We raised the situation of the Montagnards at this meeting and expressed our deep concern at unrest in the Central Highlands over Easter 2004.

We will continue to raise our concerns and press the Vietnamese Government to adhere to their obligations at every suitable opportunity.

West Papua

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to urge the United Nations to instigate a review of the UN's conduct in relation to the Act of Free Choice in West Papua in 1968–1969; and if he will make a statement. [186379]

Mr. Rammell: The Report of the Special Representative who oversaw the implementation of the UN backed 1969 Act of Free Choice resulting in West Papua becoming a province of Indonesia was accepted by a majority vote of the UN in November 1969.

The British Government, together with other members of the international community, have continued to stress to the Indonesian Government at the highest level the need to implement fully the 2001 Special Autonomy law for Papua. This law allows for the establishment of a Truth and Reconciliation Committee to look at the incorporation of Papua into Indonesia in the 1960s.

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Liddell-Grainger: To ask the Secretary of State for International Development (1) if he will make a statement on the progress of reconstruction in Afghanistan. [186441]

(2) what recent representations he has received regarding the progress of reconstruction in Afghanistan, and if he will make a statement. [186442]

Mr. Gareth Thomas: The Secretary of State and I continue to regularly receive representations on Afghanistan, from Members of Parliament, the public and non-governmental organisations. They have reflected the priorities that people attach to the reconstruction process.

Considerable progress has been made since the fall of the Taliban in November 2001. Over 3 million refugees have been helped to return to Afghanistan. 4.5 million children are in school this year and over 30 per cent. are girls. A vaccination campaign has led to the near eradication of polio and the immunisation of 9 million children against measles saving over 35,000 lives. Progress has also been made in economic recovery with the International Monetary Fund estimating economy growing by 30 per cent. last year.

At the international conference in Berlin, donors pledged $8.2 billion over three years to help rebuild Afghanistan. Finance Minister Ghani said donors met Afghanistan's target for this year, pledging $4.5 billion, and covered more than two thirds of its expectations over the next three years. On October 9, the first-ever direct presidential elections in the post-Taliban country will be held. Voter registration has now closed with over 10.5 million Afghans registered (42 per cent. are women). This is hugely encouraging result, which we hope will lead to the successful conclusion of the Bonn Process.

Water and Sanitation

Dr. Tonge: To ask the Secretary of State for International Development what proportion of the aid budget will be spent on water and sanitation in 2004–05; and if he will make a statement. [187528]

Mr. Gareth Thomas: The Department for International Development's (DFID) support for water and sanitation is predominantly channelled through our country programmes and support to multi-lateral institutions. Expenditure allocations reflect developing country governments' own priorities, and our assistance is co-ordinated with that of other donors. DFID works to assist countries to use their budgets for greatest impact on reducing poverty and achieving the Millennium Development Goals (MDGs). For these reasons, DFID has not made a forward commitment specifically for the water sector.

However, DFID significantly supports the water sector providing the UK's bilateral expenditure of approximately £90 million (the last period for which precise data are available is 2001–02 when bilateral water expenditure was £87 million), which represents approximately 6 per cent. of the bilateral aid budget. This includes programmes in which water and sanitation and hygiene promotion are the main aims, and those where water and sanitation are components associated with wider objectives such as better health or education or improved urban management. DFID's contribution to multilateral expenditure on water and sanitation is estimated to be in excess of £40 million per year. As a result, the UK was the fourth largest contributor of financial aid to the water sector in 2000 and 2001, and fifth in 2002. DFID is in the process of updating projections of bilateral and multilateral water-related expenditure through to 2007–08, taking into account the autumn 2004 resource a location round.

Written Answers to Questions

Monday 13 September 2004

TRANSPORT

A3

Virginia Bottomley: To ask the Secretary of State for Transport what estimate he has made of the date of completion of the A3 safety measures at Thursley. [188241]

Mr. Jamieson: The A3 Junction Improvement is expected to be completed and open to traffic at the end of December 2004, six months ahead of the original target date of June 2005.

Virginia Bottomley: To ask the Secretary of State for Transport when he expects to receive the Inspector's report following the public inquiry on the A3 Hindhead tunnel proposal. [188242]

Mr. Jamieson: It is too soon to say when the Inspector's report might be received, as this is dependent on when the inquiry actually finishes and the complexity of the evidence the Inspector needs to consider before concluding his report.

Ambulances

Lembit Öpik: To ask the Secretary of State for Transport how many ambulances have been involved in road traffic accidents in the last two years in England; and if he will make a statement. [188375]

Mr. Jamieson: The number of ambulances involved in road traffic accidents in England in the last two years available is shown below. Information for 2003 is not yet available.

Number of ambulances[1] involved in road accidents: England: 2001–2002

Year	*Number Vehicles*
2001	307
2002	295

[1] Vehicles with body type "ambulance". Body type is only known for 70–80 per cent. of the vehicle records in the Road Accidents Database.

Bicycles (Railways)

Mr. Drew: To ask the Secretary of State for Transport if he will publish the advice offered to rail companies on the facility for cyclists to take their bicycles on the train. [188417]

Mr. McNulty: The franchise agreements by which passenger rail services are procured require franchised train operators to:

"so far as reasonably practicable and subject to the availability of appropriate space on its rolling stock, ensure that facilities for the transport of bicycles on trains are made available, at reasonable charges (if any), to passengers using or intending to use the Passenger Service."

The Strategic Rail Authority (SRA) encourages all train operating companies to tailor their provisions for the carriage of cycles on trains to the demand on particular routes while recognising that cycle provision cannot be considered in isolation but must have regard to the needs of all other rail users. The SRA has recently carried out a consultation of cycle policy and will be publishing a detailed cycle policy in due course. Copies of their Cycle Policy Consultation Document are available in the Libraries of the House.

Mr. Drew: To ask the Secretary of State for Transport how many train companies place restrictions on cyclists taking bicycles on trains. [188418]

Mr. McNulty: Of the 25 franchised train operators, three carry bicycles on all services without requiring prior reservation, six carry bicycles on all their services but do require prior reservation, one does not require prior reservation but restricts bicycles to off-peak times only and the remaining 15 require both prior reservation and restrict bicycles to off-peak times only. All franchised train operators have a maximum number of cycles which can be carried on any particular train.

c2c LTS

Bob Spink: To ask the Secretary of State for Transport (1) what recent research he has conducted on the number of passengers on the c2c LTS route who do not get a seat; and if he will make a statement; [188435]

(2) what representations he has had on the recent Rail Passenger's Committee Eastern England research findings on the number of passengers who do not get a seat on the c2c LTS route. [188437]

Mr. McNulty: The Strategic Rail Authority (SRA) collects annual Passengers in Excess of Capacity (PiXC) census data every autumn for all London Commuter Train Operating Companies. Last year's figures for c2c indicate an overall PiXC figure of 1 per cent. (morning plus evening combined) against the threshold of 4.5 per cent.. This was the lowest of the 10 London Commuter TOCs, for which the total was 2.7 per cent.

I have received no representations on the Rail Passenger's Committee Eastern England research.

Bob Spink: To ask the Secretary of State for Transport if he will make it his policy to ensure that a refund is given to passengers with season tickets when standing reaches a predetermined level; and if he will make a statement. [188436]

Mr. McNulty: The Strategic Rail Authority (SRA) is reviewing its crowding policy. The SRA plans to consider whether there is a case for Train Operating Companies to face additional incentives to manage overcrowding.

Bob Spink: To ask the Secretary of State for Transport what recent discussions he has had with c2c on the redeployment of four 4-Coach Class 357 trains; and if he will make a statement. [188438]

Mr. McNulty: None. The redeployment of rolling stock was agreed by the Strategic Rail Authority to cover a potential shortfall in rolling stock which was identified elsewhere on the network as a result of the West Coast Route Modernisation programme. The

redeployment is not permanent and it is envisaged that the rolling stock will return to c2c once new trains have entered service on the West Coast Main Line.

Car Noise

Chris Grayling: To ask the Secretary of State for Transport what his policy is on maximum noise levels from straight-through car exhausts on customised cars. [187389]

Mr. Jamieson: Only new cars are subject to maximum noise limits. However, Regulation 54 of the Road Vehicles (Construction and Use) Regulations 1986 does set minimum requirements for the maintenance of exhaust systems and silencers for cars, and other vehicles, in use. This requires that they be fitted with a silencer, that the silencer is maintained in good and efficient working order and has not been altered so as to increase noise. The Regulations also make it an offence to use a car in such a manner as to cause excessive noise that could have been avoided by the exercise of reasonable care on the part of the driver. It is likely that a straight-through exhaust, whether used on a customised car or any other vehicle, would be in breach of this requirement. Enforcement, however, is a matter for the police.

Crossrail

Mr. Yeo: To ask the Secretary of State for Transport how much has been spent on consultation by the Crossrail development programme to date. [186733]

Mr. McNulty: Cross London Rail Links Ltd (CLRL), a joint venture company currently owned by Transport for London and the Strategic Rail Authority, was set up to develop and promote the Crossrail project.

Total expenditure to date on consultation by CLRL is £3,466,500. £2,170,500 was spent on the first round of consultation (September 2003 to January 2004) that I asked CLRL to undertake to explain to the public in more detail their proposed scheme, and to canvass views on their route proposals. The remaining £1,296,000 is the cost to date of the second round of consultation, on CLRL's preferred route, which began in August 2004, following my right hon. Friend, the Secretary of State's Statement to the House on 20 July announcing the decision to introduce a hybrid Bill for Crossrail at the earliest opportunity. The costs include salary costs of CLRL staff.

Mr. Keith Bradley: To ask the Secretary of State for Transport how much money has been allocated in his departmental budget for the Crossrail project for *(a)* 2004–05, *(b)* 2005–06 and *(c)* 2006–07. [188083]

Mr. McNulty: In May 2001, Cross London Rail Links (CLRL) was provided with ring-fenced funding of £154 million for the purposes of developing Crossrail. CLRL has spent £62.5 million to the end of financial year 2003–04, with a further £42.5 million budgeted for the current year. This would leave £49 million of the original £154 million available for developing the scheme after March 2005.

Cycleways

Mr. Drew: To ask the Secretary of State for Transport what powers *(a)* he has and *(b)* are vested in local authorities to prevent motorised vehicles from blocking cycleways including those on the highway; and what plans he has to ensure that cycleways are not blocked by motorised vehicles. [188379]

Mr. McNulty: Parking enforcement is a matter for the police or, where local authorities have acquired decriminalised parking enforcement powers, those authorities.

It is an offence under section 21 of the Road Traffic Act 1988 to park a motor vehicle wholly or partly on a track provided for use by pedal cyclists. Parking in a cycle lane marked on a carriageway for the use of cyclists may be prohibited by means of a traffic regulation order made under the Road Traffic Regulation Act 1984. The restriction would be indicated by yellow lines and may operate 24 hours a day or for a more limited period. It is an offence under sections 5 or 8 of the 1984 Act to contravene such an order.

Mr. Drew: To ask the Secretary of State for Transport whether provision of cycleways was part of the safer city project in Gloucester. [188380]

Mr. Jamieson: Gloucester Safer City Project addressed safety issues on the roads in Gloucester and implemented measures to improve safety for cyclists along approximately 15 km of the carriageway. Off road cycleways were not part of the project. However, cycle lanes were provide in Elmbridge Road, Finlay Road, Cheltenham Road, Stroud Road and Bristol Road. In addition, on the Stroud Road the cycle lane was taken on to the footway for part of its route and in Metz Way the off-road cycle route was improved.

EU Emissions Trading System

Norman Baker: To ask the Secretary of State for Transport what *(a)* research he has commissioned and *(b)* steps he has initiated to facilitate the incorporation of aviation in the EU Emissions Trading System. [188754]

Mr. McNulty: The information requested is as follows:

(a) There is a growing body of research on emissions trading, some of it funded or part funded by the Department for Transport. Recent examples include projects by (i) ICF Consulting for the ICAO Committee on Aviation Environmental Protection (ii) OXERA for BAA plc and (iii) The Institute of Applied Ecology for the German Environment Agency. The European Commission is also in the process of letting a major research contract to consider the incorporation of aviation into the EU Emissions Trading Scheme.

(b) The Department is having discussions with stakeholders and other EU States to gather support for the UK's initiative and seek views on potential answers to some of the difficult design issues.

M40

Mr. Lidington: To ask the Secretary of State for Transport what estimate he has made of the accident rate per number of vehicles on the M40 between

junctions 3 and 6 in the last year for which figures are available; and what the average accident rate for motorways was in the same period. [188051]

Mr. Jamieson: The Highways Agency publishes accident rates per million vehicle kilometres travelled. On this basis, the accident rates in 2003 for the section of the M40 between junctions 3 and 6 are as follows:

Junctions	*Accident rate*
3 to 4	0.187
4 to 5	0.033
5 to 6	0.087

The national accident rate for a three-lane motorway is 0.089.

Motorcycling

Mr. Drew: To ask the Secretary of State for Transport how many fatalities there were of *(a)* motor cycle riders and *(b)* pillion passengers in each of the last five years for which figures are available, broken down by police authority area. [188396]

Mr. Jamieson: Numbers of fatalities of two wheeled motor vehicle riders and pillion passengers by police authority area for 1999 to 2003 are given in the following table.

TWMV riders and passenger fatalities by police authority area: GB 1999–2003

Mr. Drew: To ask the Secretary of State for Transport what discussions he has had with the main motor cyclist associations on accident prevention. [188397]

Mr. Jamieson: The Advisory Group on Motorcycling, which I Chaired, discussed motorcycling safety in considerable depth, among other issues. The Group included the British Motorcyclists Federation, the Motorcycle Action Group, the Motorcycle Industry

Association, the Motorcycle Retailers Association, the Motorcycle Rider Training Association and the Despatch Association.

The "Advisory Group on Motorcycling: Final Report to Government" was published in August and is available in the House Library. It makes 16 suggestions and 38 recommendations to Government. A number of these concern improving safety and helping to prevent accidents. We are considering them carefully in the context of preparing a national strategy for motorcycling, which we hope to have developed before the end of the year.

Mr. Drew: To ask the Secretary of State for Transport what discussions he has had with interested parties on banning the carriage of child pillion passengers on motorcycles. [188398]

Mr. Jamieson: I have had no such discussions. Regulations are already in place to ensure that passengers of any age or size can be carried safely, when they are complied with. These include a requirement for passengers to wear a securely fastened safety helmet and to sit astride a properly fixed seat, with their feet reaching suitable supports or rests. Only motorcyclists who have passed a motorcycle test may carry passengers.

Mr. Kidney: To ask the Secretary of State for Transport what assessment he has made of the final report of the Advisory Group on Motorcycling; and if he will make a statement in response to its recommendations. [188448]

Mr. Jamieson: The Government welcomes this Report. It concludes the work of the Advisory Group on Motorcycling set up by my Department, which was established to consider the role of motorcycling within an integrated transport policy, including important issues such as safety and environmental impact.

The Report contains 38 recommendations and 16 suggestions covering a range of issues. These are designed to make motorcycling safer and to improve the motorcycling experience. The Government are considering them carefully in the context of preparing a national strategy for motorcycling, which we hope to have developed before the end of the year.

Quad Bikes

Mr. Drew: To ask the Secretary of State for Transport whether he has carried out an investigation into the number of quad bike accidents reported affecting British residents while on holiday abroad; and if he will list the resorts which have had the worst accident record in 2004. [188399]

Mr. Jamieson: The information requested is not available.

Road Kill

Mr. Drew: To ask the Secretary of State for Transport what estimate he has made of the number of *(a)* dogs, *(b)* cats, *(c)* badgers, *(d)* deer, *(e)* foxes, *(f)* hedgehogs, *(g)* rabbits and *(h)* squirrels killed as a result of road traffic accidents in the last year for which figures are available; and how many of each were recorded. [188381]

Mr. Jamieson: The information requested is not available.

Road Safety

Mr. Yeo: To ask the Secretary of State for Transport how many of the *(a)* deaths and *(b)* serious injuries on roads were attributable to speed in the last year for which figures are available. [186763]

Mr. Darling: Routine statistics do not record the primary cause of a road accident. However, under a pilot scheme, 15 police forces in Great Britain have provided information on contributory factors to accidents since 1999. In 2003 this information was available for about a third of all reported injury accidents in Great Britain. Among these, 30 per cent. of fatalities and 20 per cent. of serious casualties were in accidents where 'excessive speed' was a factor.

If the results from the pilot scheme were representative of the whole country, it would mean that over 1,000 deaths and about 6,600 serious injuries in Great Britain in 2003 were sustained in accidents where 'excessive speed' was a contributory factor.

The contributory factor data are based on the opinions of police officers. In the case of accidents reported by a member of the public at a police station, these factors have to be determined from their description of the accident.

The true extent of the influence of speed as a contributory factor in road traffic accidents may be greater than suggested by the single factor 'excessive speed', as some other factors—such as 'following too close'—may also be associated with inappropriate speed. My Department is undertaking further analysis of the pilot contributory factor data and will publish an article later in the year.

Starting in January 2005 this pilot scheme will be replaced by a new set of questions on contributory factors, which will henceforward form an integral part of the road accident reporting system and will be collected by all police forces for accidents reported at scene by a police officer.

Mr. Gray: To ask the Secretary of State for Transport when his review of speed limits will be published; when he commissioned his review of speed limits; and how long he originally expected that his review of speed limits would take. [188459]

Mr. Jamieson: The Road Safety Strategy, published in March 2000 gave a commitment to revise and update our guidance to local authorities on the setting of local speed limits, currently in the form of Circular Roads 1/93. We will shortly issue a consultation draft of a revised Circular for comment, and we expect to finalise and publish the Circular early in 2005. In January this year we published a Traffic Advisory Leaflet on village speed limits, recommending that the speed limit should usually be 30 miles per hour.

Mr. Hurst: To ask the Secretary of State for Transport what estimate he has made of the number of accidents which were due to motorists failing to comply with recommended stopping distances in each of the last five years. [188559]

Mr. Jamieson: The information requested is not available.

Transport Bodies (Costs)

Mr. Damian Green: To ask the Secretary of State for Transport what the *(a)* cost of recruitment was and *(b)* total cumulative salary bill has been for (i) the Chief Executive of the Highways Agency and (ii) the Chairman of the Commission for Integrated Transport and (iii) the Chairman of the Strategic Rail Authority. [186399]

Mr. McNulty: The total cost of recruitment including advertising costs for the Chief Executive of the Highways Agency in 2003 was £53,977. Details of the remuneration paid to the Chief Executive of the Highways Agency can be found in the Agency's Annual Reports.

For the Chairman of the UK Commission for Integrated Transport, the recruitment costs specifically attributable to this post are not held separately. The most recent Chair appointment was in March 2002. The remuneration for the post is £30,000 pa with the Chair expected to work five days per month.

Full details of the payments made to the Chairman of the Strategic Rail Authority can be found in the Authority's Annual Reports. The recruitment costs specifically attributable to this post are not held separately.
